David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs how many publicly funded household energy efficiency grant schemes are available to householders in north west Leicestershire. [27061]

Mr. Morley: It is not possible to specifically quantify the number of grants available in North West Leicestershire. However, the Government funds the Energy Saving Trust which, through its own website (www.est.org.uk) and its network of local Energy Efficiency Advice Centres, provides householders with details of all grants and offers for energy efficiency measures in a particular area, including those which are publicly funded, such as Leicester city council's Energy Sense Grant.

The Government's main tool for tackling fuel poverty in private sector households in England is the Warm Front Scheme, which provides a range of energy efficiency measures to householders in receipt of certain qualifying benefits. The measures can include heating and insulation works alongside energy efficiency advice.

EU Decision 2005/745/EC

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs in what circumstances poultry industry events will be authorised based on a veterinary risk assessment specific to that event, as permitted under Decision 2005/745/EC. [24941]

Mr. Bradshaw: My Department, on veterinary advice, has carried out a preliminary risk assessment which takes a precautionary approach to the risk of transmission of highly pathogenic avian influenza attached to gatherings of birds. This has shown that gathering of specified types of birds may be permitted under certain conditions.

At present low risk gatherings can be licensed. This means the gathering can only consist of budgerigars, canaries, zebra finches, Bengalese finches and birds classed by fanciers as "British" birds (i.e. captive bred birds of species native to the British Isles, not including pigeons, poultry and waterfowl). The show organiser must agree to meet a number of conditions such as record keeping and biosecurity measures before a licence is granted. Sales from licensed gatherings are not permitted.

Gatherings of other birds including poultry, waterfowl, pigeons and exotic species are considered to be higher risk. Conditions under which shows of higher risk birds might be permitted to take place are still under consideration. Such gatherings will not be licensed until we are confident that they can take place without undue risk.

Fish Stocks

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to preserve fish stocks in the North sea. [25902]

Mr. Bradshaw: The UK Fisheries Departments' response—published in July 2005—to the "Net Benefits" report set out a clear aim for fisheries management in the UK. That aim is to achieve

> "a fishing sector that is sustainable and profitable and supports local communities, managed effectively as an integral part of coherent policies for the marine environment".

The Department published "Charting a new course" in October which sets out how we will work with our stakeholders in England to achieve this aim.

Flood Defences

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has made to reinforce flood defences. [25456]

Mr. Morley: The Government are committed to the effective management of flood and coastal erosion risk and has increased funding from £310 million a year in 1996–97 to £570 million. The operating authorities—the Environment Agency, local authorities and, in low-lying areas, internal drainage boards—invest a large part of this in physical flood defences as well as in other measures to manage flood risk, including flood warning systems, advice to planning authorities on proposals for development, emergency planning, public awareness campaigns etc.

The Department relies on operating authorities to put forward projects and programmes of work but seeks to ensure a long term strategic perspective to this through encouragement of Shoreline Management Plans and Catchment Flood Management Plans. These are designed to develop appropriate long-term flood and coastal erosion risk management policies.

Defra is leading on development of a new cross-Government Strategy for Flood and Coastal Erosion Risk Management in close consultation with stakeholders. This will take a holistic approach to management of risk from all forms of flooding (river, coastal, groundwater, surface run-off and sewer) and coastal erosion and ensure the programme helps deliver sustainable development.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Department and its related agencies spent on flood defences in each year since 1997. [25457]

Mr. Morley: Defra funds most of the Environment Agency's flood related work and grant aids individual projects undertaken by local authorities and, in low-lying areas, internal drainage boards. The programme to manage risk is driven by these operating authorities; Defra does not build defences, nor direct the authorities on what specific projects to undertake. The following table shows Defra grant and, additionally for local authorities, Supported Capital Expenditure (Revenue) (SCE(R)):

£ million

	Environment Agency[1]	*LAs and IDBs*[2]
1997–98	287.9	4.9
1998–99	285.6	3.3
1999–2000	294.3	3.5
2000–01	302.1	4.3
2001–02	333.9	6.5
2002–03	341.5	13.7
2003–04	385.7	8.6
2004–05	425.5	9.2

[1] Expenditure on defences against flooding from rivers and the sea; excludes flood warning.

[2] Defra capital grant and SCE(R) to local authorities and internal drainage boards.

A significant sum is also provided in Defra grant and SCE(R)) to local authorities for projects to manage risk from coastal erosion; these also often provide benefits in terms of risk of flooding from the sea but have not been included in the above figures. The Office of the Deputy Prime Minister provides further support to local authorities through its Revenue Support Grant mechanism.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Department and its related agencies plans to spend on flood defences in each of the next 10 years. [25458]

Mr. Morley: The Government will spend some £570 million on management of flood and coastal erosion risk in England in each of the three years up to and including 2007–08. This includes funding from the Office of the Deputy Prime Minister to support local authority expenditure. A large part of this funding will be for management of flood risk, from both rivers and the sea. The actual amount will depend on the mix of flood and coastal erosion schemes put forward by the operating authorities—the Environment Agency, local authorities and internal drainage boards. However, projects to manage coastal erosion often also provide significant benefit in terms of reducing risk of flooding from the sea.

Expenditure for the period beyond 2007–08 will be considered in the 2007 Comprehensive Spending Review.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the costs of cleaning up flood damage in each year since 1997. [25460]

Mr. Morley: The costs of cleaning up are borne in the main by local authorities and individual property owners and their insurers. No estimates of the total costs incurred by all parties involved are available.

However, under the Bellwin schemes arrangements, the Office of the Deputy Prime Minister makes financial assistance available to local authorities if there has been an emergency or disaster involving destruction of or danger to life or property on a scale which is clearly exceptional in relation to normal experience in the locality. The purpose of a Bellwin scheme is to provide emergency relief, not to put right all the [illegible] effects of an incident. Before qualifying for grant, a LA must have spent 0.2 per cent. of its budget on eligible expenditure. Above that threshold grant is normally paid at 85 per cent.

Records of expenditure on Bellwin Schemes do not differentiate as to the cause of the emergency. The following statistics of expenditure since 1997–98 therefore include payments relating to all emergencies. However, the majority of the expenditure related to flooding emergencies:

	£ million
1997–98	0.3
1998–99	0.44
1999–2000	0.35
2000–01	4.1
2001–02	25

	£ million
2002-03	0.35
2003-04	0.1
2004-05	2.3

Notes:
Up until 2000-01 and again in 2002-03 only a small number of authorities received grant in any one year. In 2000-01, 17 authorities received grant, 16 of which were in connection with the autumn 2000 floods. In 2001-02 nearly 75 authorities received payments which were also in connection with the autumn 2000 floods, and nearly 50 in connection with foot and mouth disease. In 2001-02, around £6 million of the total expenditure was in relation to foot and mouth disease.

Fruit Growing

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how much fruit was grown in England in the last period for which figures are available, broken down by type; and how much was destined for *(a)* export, broken down by country, and *(b)* the domestic market in each case. [24954]

Mr. Bradshaw: Production data from 2004 for fruit produced in England and Wales and the UK are summarised in table 1; production data are not available for England only. Information on exports taken from Customs relate only to exports from the UK rather than from England only so are shown against UK production figures. This shows the split of production between exports and produce available for the domestic market.

More detailed information on the destination countries for fruit exports as recorded in the overseas trade statistics are shown in table 2.

Table 1: Production and export data for fruit for 2004

Thousand tonnes

2004 data	*England and Wales*	*UK*
Apples		
Home Production Marketed	137.6	172.4
Exports	—	17.7
Available for domestic market	—	154.7
Pears		
Home Production Marketed	22.7	22.7
Exports	—	2.4

G8 Summit (Gleneagles)

Peter Law: To ask the Secretary of State for Environment, Food and Rural Affairs if she will *(a)* place in the Library and *(b)* post on the departmental website papers submitted by (i) the United Kingdom, (ii) other national delegations and (iii) international organisations to the meeting convened by the United Kingdom presidency of the G8 to follow up the proposals from Gleneagles on climate change, held in London on 1 and 2 November. [25477]

Mr. Morley: There were no official papers submitted by the UK Government on the follow up to the 1 November Meeting of the Dialogue on Climate Change, Clean Energy and Sustainable Development. The meeting was an informal process aimed at sharing ideas on how to implement the plan of action and tackle the problems of climate change, clean energy and sustainable development between countries. A set of draft conclusions on how the UK Government viewed the dialogue meeting can be found on the No. 10 website.

Peter Law: To ask the Secretary of State for Environment, Food and Rural Affairs what steps have been taken to implement the G8 Gleneagles plan of action; what steps have been taken in conjunction with *(a)* the World Bank, *(b)* the International Energy Agency and *(c)* other international bodies; and what jobs she expects to be created in (i) the United Kingdom and (ii) Blaenau Gwent as a result of the plan. [25852]

Mr. Morley: The UK has started work on a survey of activities underway to implement the plan of action. Highlights so far include:

Consolidated support for Renewable Energy and Energy Efficiency Partnership. Defra will be providing a further £2.5 million pounds per year in 2006-07 and 2007-08. In addition, the FCO will be providing funding of £1 million in 2006-07 and 2007-08 giving a total of £6 million from the UK over the coming two years.

Increased co-operation on specific CCS projects with China and India, including EU-China, Canadian and US initiatives.

Dialogues with Latin America and China on low carbon investment strategies under way.

Active participation by G8 in Italian-led Global Bioenergy Partnership, due to be formally launched in 2006.

High level of support from industry and Government for the UK's Environmentally Friendly Vehicles conference in November 2005.

Since July, the IEA Governing Board approved the G8 work programme and we have managed to secure funding commitments of €3 million, 60 per cent. of the total funding required. The IEA work programme includes new work on efficiency in buildings, appliances and transport including outreach to the +5, as well as new links to the World Bank and Carbon Sequestration Leadership Forum on best practice in coal-fired power stations and accelerating the use of carbon capture and storage (CCS).

The World Bank is working to create a framework for investment in cleaner energy technologies and in measures necessary for adaptation, involving the private sector and the regional development banks. Consultations on this framework are well underway with initial findings due to be presented to the World Bank Spring meetings next year.

As a result of this increased investment, we can expect jobs to grow in the environmental technology industry in areas such as renewables and energy efficiency. Defra has not conducted any quantitative research on the creation of new jobs, nor any analysis of regional distribution.

Intensive Chicken Farms

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effects of intensive chicken rearing farms on those living nearby; and if she will make a statement. [24166]

Mr. Bradshaw: Local authorities, as part of their local air quality management duties under Part IV of the Environment Act 1995 are required to assess the effects of any local emission source against health-based national objectives for seven airborne pollutants. Local authority assessments are ongoing but, to date, no local authorities have identified the need to declare an air quality management area in the vicinity of intensive chicken rearing farms.

It is the duty of the local authority under section 79 of the Environmental Protection Act 1990 to take reasonable steps to investigate complaints of "any dust, steam, smell or other effluvia arising on industrial, trade or business premises and being prejudicial to health or a nuisance". If the investigating environmental health practitioner is satisfied that a statutory nuisance is present, the local authority must serve an abatement notice requiring that the activity causing the nuisance cease or is restricted. Those against whom the abatement notice has been served will have 21 days in which to appeal against the notice in the local magistrates court. If no appeal is made, or if the appeal is unsuccessful, the abatement notice will remain in force. The fine for non-compliance to an abatement notice is a maximum of £20,000 for industrial, trade or business premises upon summary conviction.

Under section 82 of the Environmental Protection Act 1990 complainants can take private action through the local magistrates court in order to deal with odour nuisance. If such a case were successful, the court would order an abatement of the nuisance and may award costs to the complainant, although this is not a requirement.

Intensive livestock units will be subject to environmental regulation for the first time under the integrated pollution prevention and control ('IPPC') regime. IPPC will ensure that the environmental and health impacts of poultry farms housing more than 40,000 birds is assessed and minimised. The IPPC regime will also help to ensure a common basis for the prevention and control of pollution from intensive livestock units across Europe. The application window for intensive livestock units is from 1 November 2006 to January 2007.

Liver Fluke

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the incidence of liver fluke in each of the last five years. [25503]

Mr. Bradshaw: Liver fluke is not a notifiable disease and so there are no records of total numbers of cases occurring nationally. The Veterinary Laboratories Agency retain records of the number of diagnoses made in samples which have been submitted to its laboratories in England and Wales in its Farmfile/Veterinary Investigation Diagnosis Analysis (VIDA) database.

The total number of liver fluke diagnoses recorded are:

	Cattle	*Sheep*
2000	393	131
2001	366	91
2002	373	164
2003	468	167
2004	348	91

Micro-generation Power Supplies

Alistair Burt: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to encourage the use of crops for energy in micro-generation power supplies; and if she will make a statement. [26255]

Mr. Morley *[holding answer 8 November 2005]:* The Government support the use of energy crops in micro-generation power plants. We are working closely with industry and others to develop markets and promote uptake. DTI and the big lottery fund's bio-energy capital grants scheme has allocated £66 million of funding to develop end-use markets for biomass, including small-scale combined heat and power plants. The Community Renewables Initiative's local support teams are working to develop local projects in their areas. Support is also available to develop heat projects.

The Biomass Task Force, led by Sir Ben Gill, was set up to identify the barriers to developing biomass energy, including energy crops, and to recommend ways to overcome the problems. Their report was published in October and a number of their recommendations are relevant to micro-generation. The Government have committed themselves to publishing a full response to the report within the next six months.

Single Payment Plan

Mr. Benyon: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she has taken to ensure that farmers will receive their entitlements in time to complete their Single Payment Plan applications for 2 April and 15 May transfer deadlines. [25586]

Jim Knight: The Rural Payments Agency (RPA) is responsible for implementing the Single Payment Scheme and making payments in England. RPA intends to issue definitive entitlement statements as soon as practical, following the validation of the 120,000 claims made to the 2005 scheme. RPA remains on target to issue entitlement statements in advance of the notification deadlines established for the 2006 scheme.

Stewardship Scheme

Alistair Burt: To ask the Secretary of State for Environment, Food and Rural Affairs if she will authorise the manual processing of all higher level stewardship applications which have been submitted within existing departmental guidelines. [26257]

Jim Knight: A delay with the new IT system in support of Environmental Stewardship has meant that a 1 November start date for the initial higher level stewardship applicants has not been possible.

In the interim, all higher level stewardship applications are being processed on a manual basis as far as possible, however regulatory requirements mean that agreements must be properly cross-checked and validated with other agreement data and Single Payment Scheme declarations. As there are numerous options available under higher level stewardship, this complex part of the process can only be undertaken through the IT system. As a consequence of these IT system delays, it is now our intention that the first higher level agreements will come into force on 1 February 2006.

TRANSPORT

A21 Upgrade

Gregory Barker: To ask the Secretary of State for Transport what plans he has for public consultation on plans to upgrade the A21 between Flimwell and Hurst Green. [27218]

Dr. Ladyman: A public consultation was held from November 2002 to March 2003 on proposals to upgrade the A21 between Kippings Cross and Lamberhurst and between Flimwell and Robertsbridge. The Preferred Route was announced in February 2005 and an information exhibition was held at Hurst Green Village Hall on 4 March 2005.

A further meeting has been scheduled for 28 November 2005, chaired by the Hurst Green Parish Council Chairman, where the Highways Agency will discuss, with individual groups, the plans to upgrade the A21 between Flimwell and Hurst Green. As part of the scheme development, there will be further discussions with key stakeholders and local interest groups.

Cycle Lanes

Mr. George Howarth: To ask the Secretary of State for Transport how many miles of cycle lanes are due to be established in the next *(a)* 12 months, *(b)* five years and *(c)* 10 years. [26533]

Derek Twigg: Local highway authorities forecast they will establish 327 km of cycle lanes in 2005–06. Local authorities intentions for future years will be set out in their 2nd Local Transport Plans which are being finalised and will be submitted to the Department at the end of March 2006.

Light Rail Systems

Mrs. Ellman: To ask the Secretary of State for Transport what assessment he has made of the environmental effects of light rail systems. [26248]

Derek Twigg *[holding answer 8 November 2005]:* It is for scheme promoters to undertake a detailed assessment of the environmental effects of their light rail scheme, as part of their bid for major scheme funding. The Department takes account of environmental effects on a scheme by scheme basis.

M3

Mrs. Maria Miller: To ask the Secretary of State for Transport how many vehicles use *(a)* junction 6 and *(b)* junction 7 of the M3 motorway each day; and what he estimates the capacity of each junction to be. [26398]

Dr. Ladyman: Traffic counts were carried out at the southern roundabout of junction 6 in September 2005 during morning and evening peak periods. From these it is estimated that between 55,000 and 75,000 vehicles per day use the roundabout. The capacity of the roundabout is approximately 5,500 vehicles per hour, but capacity is very sensitive to traffic flow patterns.

There have been no recent traffic counts for the roundabout at junction 7.

Mrs. Maria Miller: To ask the Secretary of State for Transport what estimate he has made of the daily number of vehicles which will use *(a)* junction 6 and *(b)* junction 7 of the M3 motorway in (i) five years, (ii) 10 years and (iii) 15 years, based on (A) current house building plans and (B) the South East of England Assembly plans for increased house building. [26400]

Dr. Ladyman: No recent estimates have been made of the daily numbers of vehicles using junctions 6 and 7 of the M3 in the future. However, at the public local inquiry, held earlier this year, into the Basingstoke and Deane Local Plan Review, the Highways Agency concluded that, in 2016, the peak flow between junctions 6 and 7 would be around 5,400 vehicles per hour in either direction.

Traffic flows on the M3 between junctions 6 and 7 based on the South East of England Regional Assembly's current proposals for house building will depend upon the future location of housing and other factors such as the future regional transport strategy, all of which are subject to ongoing discussion between the Assembly and regional stakeholders. The Highways Agency is continuing to contribute to deliberations on the draft South East Plan.

Maritime Rescue

Chris Ruane: To ask the Secretary of State for Transport how many people were rescued by HM Coastguard working together with the Royal National Lifeboat Institution in each of the last 30 years, broken down by region. [25599]

Dr. Ladyman: The numbers of persons rescued by HM Coastguard, the Royal National Lifeboat Institution or other search and rescue facilities during the period 2000–04 is shown in the table.

	2000	*2001*	*2002*	*2003*	*2004*
Scotland and NI region	1,184	1,022	1,394	1,245	1,624
Wales and west of England Region	1,364	1,376	2,075	2,194	1,888
East of England region	780	815	2,382	2,250	1,764
Southern region	1,889	1,639	—	—	—
Total persons rescued	5,217	4,852	5,851	5,689	5,276

In 2002, the former southern region was divided and the two parts incorporated into the Wales and west and eastern regions. Comparable information for the period prior to 2000 is not available in the form requested and could be obtained only at disproportionate cost.

Ports

Tom Brake: To ask the Secretary of State for Transport (1) on how many occasions Transec has recorded a breach of the International Ship and Port Facility Security Code since its introduction; [24197]

(2) whether *(a)* a physical port assessment and *(b)* a ship verification inspection conducted by the Transport Security Directorate in the last 12 months has resulted in suspension of operations. [24214]

Dr. Ladyman: It is not our policy to comment on, or provide information relating to, the compliance of individual ships or port facilities for security reasons.

Rail Passengers Council

Mr. George Howarth: To ask the Secretary of State for Transport how the work of the Rail Passengers Council will be reviewed; and when these reviews will take place. [26536]

Derek Twigg: As part of the Department's role in sponsoring the Rail Passengers Council (RPC), Ministers and officials regularly discuss with the RPC their work and performance. The Department also has a role in agreeing the RPC's corporate and business plans, including performance targets, and these plans will be published in early 2006. In addition, the RPC is required to publish an annual report and accounts which will give details of their work during a particular financial year.

In the longer term, in accordance with Cabinet Office guidance on 'lighter touch' reviews of non-departmental public bodies, the work and role of the RPC will be reviewed on a five yearly basis. These reviews will ensure that the RPC is delivering effectively against its aims and objectives. The first review of the RPC will take place in 2009–10.

Railways

Mr. Kemp: To ask the Secretary of State for Transport what his Department's *(a)* policy is on and *(b)* funding allocation is to a direct rail service from London to Sunderland. [25513]

Derek Twigg: The Department for Transport has no plans at present to sponsor the introduction of a direct service between London and Sunderland.

Mr. George Howarth: To ask the Secretary of State for Transport how many operational arrangements have been established by the Rail Accident and Investigation Branch; and with which organisations. [26530]

Derek Twigg: The Rail Accident Investigation Branch (RAIB) has established a number of operational agreements to ensure that it is able to effectively carry out its investigations.

A Memorandum of Understanding for investigation in England and Wales has been drawn up between the British Transport Police (BTP), the Health and Safety Executive (HSE), the Association of Chief Police Officers and the RAIB. A similar Memorandum has been agreed for Scotland with the BTP, the HSE, the RAIB, the Association of Chief Police Officers (Scotland) and the Crown Office and Procurator Fiscal Service. A further Memorandum of Understanding has between agreed between the RAIB, the Crown Prosecution service and the Air and Marine Accident Investigation Branches.

A Memorandum of Understanding is being established with BEATT, RAIB's French equivalent in readiness for RAIB becoming operational for the Channel Tunnel in January (2006).

While industry has the responsibility to implement the necessary arrangements to comply with the Rail (Accident Investigation and reporting) Regulations 2005, RAIB has published guidance and met with industry representatives and discussed these issues in order to facilitate this process.

Road Safety

Mrs. James: To ask the Secretary of State for Transport what proportion of his Department's budget has been allocated to road safety initiatives in financial year 2005–06. [24977]

Dr. Ladyman: Around £45 million has been allocated in 2005–06 to specific initiatives related to road safety, this represents 0.4 per cent. of the Department's Expenditure Limit of £12 billion. In addition, much of the expenditure by the Highways Agency and local authorities, which is funded through block funding by the Department, contributes to road safety.

Safety Cameras

Andrew Rosindell: To ask the Secretary of State for Transport what arrangements are made for using the revenue raised from speed cameras. [27116]

Dr. Ladyman: Revenue raised from speed cameras can be used to fund safety cameras operating within the National Safety Camera Programme. In order to participate in the "netting off" arrangement, partnerships must comply with the strict criteria set out in the "Handbook of Rules and Guidance for the National Safety Camera Programme for England and Wales for 2005–06", which is published on the DfT website.

"Netting-off" means that the costs associated with the deployment and operation of safety cameras and the detection and enforcement of offences detected by cameras can be reclaimed from the receipts generated by the fines. The receipts are passed to the Department for Transport (DfT) and DfT reimburses the safety camera partnerships for approved expenditure incurred.

Any surplus fine revenue is paid to the Consolidated Fund at HM Treasury.

Fine revenue from cameras operating outside of the National Safety Camera Programme is passed directly to the Treasury.

Walking

Mr. George Howarth: To ask the Secretary of State for Transport what walking activity targets have been set by each local authority. [26537]

Derek Twigg: No mandatory indicators for walking are required in either the first or second local transport plans (LTPs). However, some local authorities have set targets either as local targets within their LTPs or as part of local public service agreements. Data on these targets are not collected centrally and can be provided only at disproportionate cost.

SOLICITOR-GENERAL

Departmental Consultation

Mr. Peter Ainsworth: To ask the Solicitor-General if he will list formal consultations being sponsored by the Law Officer's Departments; and what the *(a)* commencement date and *(b)* deadline for responses is in each case. [22572]

The Solicitor-General: None of the Departments for which I am responsible are currently engaged in any form of formal public consultation. However, the Crown Prosecution Service (CPS) headquarters is currently preparing a policy statement and guidance on the transmission of serious sexual diseases and will offer this for formal public consultation for a period of six weeks between February and March 2006.

CPS areas may be engaged in consultations locally. However, the information requested could be obtained only at disproportionate cost (code of practice on Access to Government Information, part 2, clause 9).

Departmental Staff (Literacy and Numeracy)

Mr. Gibb: To ask the Solicitor-General what methods of assessment of *(a)* literacy and *(b)* numeracy skills are used as part of the recruitment process by employees of his Department. [23794]

The Solicitor-General: I superintend the Crown Prosecution Service (CPS), Serious Fraud Office (SFO), Revenue and Customs Prosecutions Office (RCPO), Treasury Solicitor's Department (TSol) and HM CPS Inspectorate (HMCPSI). The Departments employ a variety of methods for assessing literacy and numeracy skills, dependent on their particular needs and the grade and specialism of the person being recruited.

Crown Prosecution Service

A variety of assessment methods are used for example, shortlisting application forms; undertaking competence based interviews; and/or using other selection methodology such as assessment centres, ability testing or job simulation exercises. These can include presentations, case studies, in-tray exercises and group discussions.

Treasury Solicitor's Department

TSol recruits both qualified and trainee lawyers, all of whom have to be qualified to degree level. In recruiting administrative staff they are either required to be qualified to at least GCSE level or have demonstrated relevant skills, including literacy and numeracy, in previous employment, which are essential to be able to undertake administrative work in the department.

Serious Fraud Office

The SFO uses a number of recognised tools to assess both literacy and numeracy skills for both internal and external applicants. These are supplied by SHL Ltd. and take the form of online and hard copy ability tests which assess verbal and numerical critical reasoning. They used to assess applicants below grade 7. Applicants at grade 7 and above are asked to demonstrate a wider range of skills through a number of work specific assessments.

HM CPS Inspectorate

HMCPSI's recruitment is based on assessing candidates against a person specification. Literacy and numeracy skills are not routinely the subject of formal assessment but for some posts for example HM Inspectors and HM Assistant Inspectors the recruitment process usually includes a report writing exercise. While this is mainly focused on the candidates ability to analyse information and draw conclusions from it, it is also used to ensure they are competent in written communication generally and the drafting of reports in particular.

Revenue and Customs Prosecutions Office

RCPO has only been in existence since April 2005. No specific assessment methodologies are used at present.

Literacy and Numeracy

Mr. Gibb: To ask the Solicitor-General how many employees in his Department requested training to improve their *(a)* literacy and *(b)* numeracy skills in each year since 2002. [23416]

The Solicitor-General: Of the Departments for which I am responsible, no records have been identified of requests by staff for literacy and numeracy training from the Treasury Solicitor's Departments, the Serious Fraud Office, the Revenue and Customs Prosecutions Office and HM CPS Inspectorate.

For the CPS no information is held regarding individual requests. Areas may fund individuals to improve their literacy and numeracy skills, and some have relationships with local colleges and Learning Skills Councils, but this is usually for level 3 and above as there is little need for levels 1 or 2.

Parachute Regiment (Prosecutions)

Mr. Robathan: To ask the Solicitor-General whether the Attorney-General was consulted by the Army Prosecution Authority before the prosecution of the seven recently acquitted members of the Parachute Regiment took place; and if he will make a statement. [27055]

The Solicitor-General: The Army Prosecuting Authority took the decision that there should be prosecutions in this case. As three of the accused were no longer serving soldiers it was not possible to prosecute them by court martial without the express consent of the Attorney-General, in accordance with section 132A of the Army Act 1955. The APA sought the Attorney-General's views on the appropriate jurisdiction and his consent to prosecute those three soldiers advising that they considered that there was a realistic prospect of conviction against all the accused on a joint charge of murder and a second charge of violent disorder.

The Attorney-General accepted the advice that there was sufficient evidence for a realistic prospect of conviction and granted his consent to the prosecution of the three soldiers as required. He did not provide advice on the case.

TRADE AND INDUSTRY

Broadband

Mr. Paul Goodman: To ask the Secretary of State for Trade and Industry where the 0.2 per cent. of telephone lines in England which at present cannot get broadband are located. [26962]

Alun Michael: I am unable to add further to the answer I provided on 27 October 2005, *Official Report*, column 476W, namely that the information is not available in the form requested.

BSkyB

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry (1) what formal representations BSkyB has made to the Office of Fair Trading in each year since 1997; [23214]

(2) what formal representations have been made to the Office of Fair Trading concerning BSkyB in each year since 1997. [23215]

Mr. Sutcliffe: Having consulted the Office of Fair Trading I understand this information is not held in a form that would make it possible to answer this question without incurring disproportionate cost. OFT stores information by individual cases or mergers, not by the parties that submit representations.

Company Directors

Charles Hendry: To ask the Secretary of State for Trade and Industry what assessment he has made of the number of 16 and 17-year-olds who would opt to become a company director should the legal age be reduced to 16 years; and how many company directors there are aged 18 years. [27000]

Alun Michael: There is no minimum age for company directors and therefore no proposal to reduce the legal age, as implied in the question. The Company Law Reform Bill introduces a minimum age, 16, for an individual person to be a director. The Bill also contains a clause which confers on the Secretary of State power to make regulations specifying the circumstances in which someone under 16 may be the director of a company. As to the number of company directors there are aged 18 years, this cannot be ascertained without disproportionate cost noting that the records do not easily distinguish between those directors that are corporate bodies and those who are individual people.

Departmental Staff (Relocation)

Dr. Cable: To ask the Secretary of State for Trade and Industry how many people in his Department *(a)* were relocated in 2004–05 and *(b)* are expected to be relocated in 2005–06 following the Lyons Review; where they have been relocated; and if he will make a statement. [25076]

Alan Johnson *[holding answer 8 November 2005]:* The information is as follows.

(a) In 2004–05 the Department relocated 171 posts against a target of 85 posts by 31 March 2008. Posts have been relocated to; Sheffield, Billingham, Belfast, Cumbria, Cardiff, Manchester and Newport.

(b) So far in 2005–06 a further 23 posts have been relocated to Cardiff, Newport and Belfast. A further tranche of 491 relocations are planned to take place up to 31 March 2010. Locations include; Manchester, Sheffield and Glasgow with further locations to be confirmed once detailed plans are finalised.

Gershon Review

Dr. Cable: To ask the Secretary of State for Trade and Industry how many full-time equivalent employee reductions have been made as a result of the Gershon review; what *(a)* cost savings relating to IT projects and *(b)* total value of efficiency savings (i) were achieved in 2004–05 and (ii) are expected to be achieved in 2005–06; and if he will make a statement. [25080]

Alan Johnson *[holding answer 8 November 2005]:* DTI is making good progress toward meeting the SR04 headcount reduction of 1,010. As of 1 October 2005 headcount had been reduced by 720 posts including 80 in Government offices. UKTI has reduced headcount by 94 posts towards its target of 200. Further progress will be reported in the Department's autumn performance report.

(a) (i) Cost savings achieved relating to IT projects in 2004–05 are not held. There are however (ii) expected efficiency savings of a least £7.3 million as detailed in the Departmental efficiency technical note (ETN) to be realised in 2007–08.

(b) For the total value of efficiency savings achieved in 2004–05 (i) progress will be reported in the Department's autumn performance report and for those expected to be achieved in 2005–06 (ii) the Department has an efficiency forecast saving of £129.8 million for 2005–06 as detailed in the ETN.

Grocery Trade

Mr. Hancock: To ask the Secretary of State for Trade and Industry how many individual responses his Department has made in the last 12 months to *(a)* members of the public, *(b)* commercial organisations, *(c)* hon. Members and *(d)* other bodies in response to inquiries, questions and representations about (i) the grocery trade and (ii) Tesco; and if he will make a statement. [26877]

Mr. Sutcliffe: The Department currently handles around 50,000 letters a year and approximately 200,000 e-mails on a wide range of issues. Further breakdown in the form requested is not available.

IT Projects

Mr. Austin Mitchell: To ask the Secretary of State for Trade and Industry if he will list for each IT project his Department has undertaken since May 1997 which has incurred a total expenditure of £5 million or more *(a)* the name of the project, *(b)* its intended purpose, *(c)* the principal contractors involved and the payments made to each, *(d)* the original estimate of the cost of the project, *(e)* the actual outturn of expenditure on the project, *(f)* the intended date on which the project was to be fully implemented, *(g)* the actual date on which it was fully implemented or cancelled, *(h)* modifications which have been made to the project since it was first commissioned, *(i)* contractors on the project whose contracts have been cancelled, *(j)* replacement or additional contractors on the project, *(k)* the most reliable estimate of public expenditure saved as a result of implementing the project and *(l)* the most reliable estimates of improved performance of departmental functions as a result of implementing the project. [20622]

Alan Johnson: During the period May 1997 to the present the Department's IT services have been provided through a PFI agreement with Fujitsu Services. This covers desktop services, web infrastructure services, documents management and HR systems. However, due to a change in the Department's accounting system during 2003–04 and the devolved nature of the ICT, consistent data on all the information requested cannot be obtained without disproportionate cost.

Mobile Phones

Mr. Hunt: To ask the Secretary of State for Trade and Industry what assessment his Department has made of ways of increasing mobile phone coverage in the UK; and if he will make a statement. [26586]

Alun Michael: Regulation of the mobile market is a matter for the independent regulator Ofcom and Ofcom is accountable to Parliament rather than to Ministers for the way it carries out that regulation. One of Ofcom's duties is ensuring that a wide range of electronic communications services—including high speed data services—is available throughout the UK. Assessment of how to fulfil this duty falls to the regulator. Ofcom's annual report and annual plan include details of its actions to do so.

Mobile phone coverage in the UK stands at around 98–99 per cent. of populated areas. Rollout of networks is a matter for the mobile operators, but the Government believe that competition between networks has been the spur to coverage reaching this level, and will provide incentives for further investment in the networks, potentially including further geographical coverage.

Pirate Radio Stations

Mr. Pickles: To ask the Secretary of State for Trade and Industry (1) how many *(a)* successful and *(b)* unsuccessful prosecutions for the unauthorised transmission of radio signals there have been in each of the last five years; [25681]

(2) what estimate he has made of the number of pirate radio stations broadcasting within *(a)* London and *(b)* the UK; [25682]

(3) what discussions he has had with Ofcom on reducing the number of pirate radio stations in operation. [25683]

Alun Michael: The matter raised is the responsibility of the Office of Communications (Ofcom). Ofcom is the independent regulator for the communications sector, deriving its main powers and duties directly from statute rather than by delegation from the Secretary of State, and accountable to Parliament in its own right. Accordingly, my officials have asked the Chief Executive of Ofcom to respond directly to the hon. Member and to send me a copy of his response. Copies of the Chief Executive's letter will also be placed in the Libraries of the House.

Transsexual People

Lynne Jones: To ask the Secretary of State for Trade and Industry if he will make a statement on protection against discrimination for transsexual people in the provision of goods and services. [25613]

Meg Munn: The Government will address the issue of protection against discrimination for transsexual people in the provision of goods and services as part of the Discrimination Law Review.

Unsolicited Mail

Anne Snelgrove: To ask the Secretary of State for Trade and Industry what rights consumers have to opt out of hand-delivered unsolicited mail. [26096]

Barry Gardiner: By registering with the mailing preference service (MPS) individuals who object to receiving unsolicited mail can have their details removed from mailing lists to reduce the amount of addressed advertising literature they receive. The MPS is not designed to stop unaddressed items of mail, direct mail delivered to the door or the delivery of free newspapers. Mail addressed to 'occupant', 'resident' or 'homeowner' is also not covered under the MPS.

Those who wish to stop mailings from organisations that are not part of the MPS or with whom they already have a relationship, such as a bank or building society, must contact respective organisations direct.

INTERNATIONAL DEVELOPMENT

Algeria

Andrew Rosindell: To ask the Secretary of State for International Development what steps the British Government *(a)* have taken and *(b)* is taking to restore peace and democracy in Algeria. [25901]

Dr. Howells: I have been asked to reply.

We continue to work with the Algerian Government to promote peace and democracy and are committed to the development of closer counter terrorism co-operation with the Algerian authorities. Algerian officials have recently visited the UK to study UK counter terrorism structures. We have welcomed the participation of the Algerian people in the national referendum on the Charter for Peace and National Reconciliation. We hope that, based upon consultations with its people, Algeria will achieve lasting peace and reconciliation based on the rule of law and respect for human rights.

On 27–28 November we will be co-hosting with Spain the EuroMed Tenth Anniversary Summit in Barcelona, which will be an important opportunity to help the EU's Mediterranean Partners, including Algeria, to address the challenges of the 21st century, including good governance.

Commonwealth Development Corporation

Gregory Barker: To ask the Secretary of State for International Development what the rate of return was of former Commonwealth Development Corporation Investments in the Middle East and Sub-Saharan Africa in each year since 1997. [26357]

Hilary Benn: Details of the rates of return on the Commonwealth Development Corporation's (CDC)s investments in Sub-Saharan Africa in each year between 1999 and 2004 are shown in the table. The CDC did not hold any investments in the Middle East during this period. Data are only available on a consistent basis from 1999 when the CDC became a public limited company.

Sub-Saharan Africa

	Percentage
1999	11.4
2000	(3.5)
2001	(8.0)
2002	14.3
2003	23.2
2004	19.3

Note:
Figures in brackets represent a negative return.

Gregory Barker: To ask the Secretary of State for International Development what profits the Commonwealth Development Corporation made on investments in *(a)* Asia, *(b)* South America, *(c)* the Middle East and *(d)* Africa in each year since 1997. [26371]

Hilary Benn: Details of the profits the Commonwealth Development Corporation (CDC) made on its investments in Asia, South America and Africa in each year between 1999 and 2004 are shown in the following table. The CDC did not hold any investments in the Middle East during this period. Data are only available on a consistent basis from 1999 when the CDC became a public limited company.

$ million

	Asia	*Americas*	*Africa*
1999	27.5	25.5	38.6
2000	7.2	(13.0)	(12.6)
2001	(5.1)	(54.4)	(19.8)
2002	33.3	(2.2)	29.8
2003	58.6	(41.9)	44.1
2004	58.5	32.0	60.7

Note:
Figures in brackets represent a loss

Departmental Spending

David T.C. Davies: To ask the Secretary of State for International Development how much his Department spent on items of art in 2004–05. [23469]

Mr. Thomas: During the period between 2004–05, the Department for International Development did not accrue any expenditure on the purchasing of items of art.

Forestry

Mr. Andrew Smith: To ask the Secretary of State for International Development what support the UK has made available in each of the last 10 years to help developing countries with forestry programmes and re-forestation projects; and what proportion of the total international development budget that figure represented in each year. [23058]

Hilary Benn: The following table gives DFID's expenditure on forestry for the 10 year period from 1995–96 to 2004–05. It also gives DFID's expenditure on forestry as a percentage of expenditure on bilateral aid and as a percentage of total DFID expenditure on development.

DFID also makes contributions to multilateral institutions some of whose funding will also help developing countries with forestry programmes and reforestation projects.

DFID expenditure on forestry: 1995–96 to 2004–05

£000

	Total forestry spending	*Total GPEX on Bilateral Aid*	*Total GPEX on Development*	*Forestry as percentage of total on Bilateral Aid*	*Forestry as percentage of total on Development*
1995–96	21,705	1,418,381	2,634,465	1.53	0.82
1996–97	20,823	1,281,571	2,414,793	1.62	0.86
1997–98	15,162	1,438,684	2,529,815	1.05	0.60
1998–99	13,305	1,379,719	2,656,802	0.96	0.50
1999–2000	17,941	1,660,868	2,977,597	1.08	0.60
2000–01	19,865	1,757,823	3,231,282	1.13	0.61
2001–02	17,321	1,990,607	3,477,460	0.87	0.50
2002–03	18,885	2,516,333	4,146,992	0.75	0.46
2003–04	18,462	2,597,740	4,712,900	0.71	0.39
2004–05	19,342	2,800,467	4,822,795	0.69	0.40

Note:
GPEX = Total Gross Public Expenditure

Microbicide Development Programme

Mr. Lansley: To ask the Secretary of State for International Development what plans he has to extend the grant to the Microbicide Development Programme beyond 31December 2006; and what progress has been made on the development of the revised EC programme of action to tackle HIV/AIDS, tuberculosis and malaria through external action between 2007 and 2011. [26005]

Hilary Benn: DFID is currently providing a grant of £16 million to 31 September 2006 to the Microbicide Development Programme (MDP) co-ordinated by the Medical Research Councils Clinical Trials Unit and Imperial College. A proposal to allow an extension of the work of the MDP to complete a Phase III trial of the leading candidate microbicide Pro 2000 has been now been agreed with DFID providing £23.8 million of additional funding.

The Programme for Action to tackle HIV/AIDS, tuberculosis and malaria through external action between 2007 and 2011 was agreed in May 2005. The Commission is currently working on a roadmap with the objective of translating the commitments made into deliverables. Discussions have been on-going via an EU Health Experts Network Group and it is expected that agreement will be reached next year. Funding for the Programme for Action has yet to be agreed under the new Financial Perspectives.

Nigeria

Andrew Rosindell: To ask the Secretary of State for International Development what aid has been allocated to Nigeria to assist with the development of democratic government. [25900]

Hilary Benn: The Department for International Development is committed to assisting Nigeria to develop more effective democratic governance to eliminate poverty and achieve the Millennium Development Goals. Between November 2000 and December 2008 £101.85 million has been allocated to programmes aimed at helping Nigeria to develop the institutions and processes necessary for effective democratic governance. These include a £7 million programme of support to the 2007 Elections and technical assistance of £2.65 million to the Nigerian Parliament. Other support includes assistance to a government-led Public Sector Reform programme, technical assistance to state and local governments and support to civil society to better represent the interests of Nigerians and engage more constructively with government.

Background table of current active programmes:

Programme	*Begin date*	*End date*	*Allocation (£ million)*
Support to the 2007 Elections	March 2005	March 2008	7
Support to the National Assembly	April 2005	March 2008	2.65
Security, Justice and Growth	October 2001	March 2007	30
State and Local Government	November 2000	March 2007	22.8
Public Service Reform	April 2005	December 2008	19

Background table of current active programmes:

Programme	*Begin date*	*End date*	*Allocation (£ million)*
Service Delivery Initiative	November 2004	June 2007	7.5
Support to the Nigerian Census	November 2004	December 2006	7.5
Voices: Using Radio Programming to Explore Governance Issues	August 2003	August 2006	5.4

Papua New Guinea

Mr. Andrew Smith: To ask the Secretary of State for International Development what assessment he has made of the international support available to Papua New Guinea to meet costs incurred in caring for refugees from West Papua. [26217]

Mr. Thomas: International support for West Papuan refugees in Papua New Guinea (PNG) is provided through the United Nations High Commissioner for Refugees. Their priorities are to regularise the status of refugees, to strengthen the capacity of the PNG institutions to meet refugees basic needs and to promote self reliance and integration. DFID has undertaken no separate assessment of needs.

Sierra Leone

Lynne Jones: To ask the Secretary of State for International Development pursuant to the Answer of 26 October 2005, *Official Report*, column 431–2W, on Sierra Leone, if his Department will retract its planned support for a communications project to support the Sierra Leone National Commission for Privatisation and offer to assist with a public consultation project that gives information about both public and private water sector models; and when his Department expects a decision to be made on whether Guma Valley Water Company will be reformed under a public or private sector model. [25979]

Hilary Benn: The planned support is to assist with public consultation that gives information on all options for reform and assesses the best ways to improve the performance of 24 enterprises including the Guma Valley Water Company. There is currently no presumption as to the final option of reform for the Guma Valley Water Company (GVWC). The National Commission for Privatisation (NCP) has a much wider scope than looking at privatisation alone, which as stated by the NCP, may indeed not be a practical option in the case of GVWC. The NCP intends to consider a range of options including both public and private sector participation. DFID's assistance is to help ensure good quality public consultation with provision of accurate and balanced information across a range of sectors. This will help towards the overall transparency and accountability of the reform process. The consultation will include local civil society organisations, with a good knowledge of conditions in Freetown.

DFID will not decide on what model will be used to reform the GVWC; that is a matter for the Government of Sierra Leone (GoSL). However there is an urgent need to reform and rehabilitate the GVWC, the GoSL lacks the resources to do this alone. The scope and nature of the possible role of the private sector, and the full range of options available to achieve GOSL's objectives, have yet to be evaluated. DFID's programme of support is intended to ensure the NCP has adequate resources to make informed decisions about the reform of the GVWC as well as the other enterprises in its portfolio.

DFID assistance is in direct response to a GoSL request to build capacity of the NCP, and help ensure transparent processes with correct procedures and regulation are put into place. No final decision on the future shape of GVWC would be expected before 2008.

Workers Rights

Anne Snelgrove: To ask the Secretary of State for International Development what steps his Department is taking to improve the rights of working people in developing countries; what changes have been made; and if he will make a statement. [26098]

Mr. Thomas: The effective implementation of workers rights can play an important part in the reduction of poverty and the achievement of the Millennium Development Goals. The Government have current commitments of over £46 million to support activities to improve treatment of workers in developing countries, including the elimination of child labour and trafficking for forced labour. This is primarily channelled through the International Labour Organisation (ILO) but also supports the work of non-governmental organisations, trade unions and business.

There is a long way to go but changes are being achieved. For example the project for the elimination of child labour in Andhra Pradesh India, which DFID funds through the ILO, has reported the near total elimination of child labour in its initial pilot district. This project is now being extended to more districts. Another example is the increased number of companies joining the Ethical Trading Initiative, which DFID has supported since it began. These companies make a commitment to implement a labour code of conduct through their supply chains and to working with trade unions and non-governmental organisations to improve the lives of working people around the world.

CULTURE, MEDIA AND SPORT

Arts Council

Mike Penning: To ask the Secretary of State for Culture, Media and Sport what recent discussions she has had with the Arts Council; and if she will make a statement. [25982]

Mr. Lammy: My right hon. Friend the Secretary of State last met Sir Christopher Frayling, Chair of Arts Council England, on 26 May 2005 and will meet him again before the end of the year. I meet Sir Christopher and members of the Arts Council's senior executive team on a more regular basis.

Justices' Licences

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many applications there were for revocations of justices' licences issued under the Licensing Act 1964 in England and Wales in *(a)* 1992–95, *(b)* 1995–98, *(c)* 1998–2001 and *(d)* 2001–04; how many of these were (i) successful and (ii) unsuccessful; and if she will make a statement. [24121]

James Purnell: Data for the number of justices' licences revoked are collected every three years and are available for a 12 month period to the 30 June as detailed in the table:

Year to 30 June	*Total revocations*
1992	262
1995	378
1998	317
2001	183
2004	354

Source:
DCMS Statistical Bulletin: Liquor Licensing: England and Wales, July 2003-June 2004, Table 5.

Information is not available on the number of applications for revocation of justices' licences.

London Olympics

Mr. Weir: To ask the Secretary of State for Culture, Media and Sport whether contracts to be granted in connection with the London Olympics 2012 will be subject to European Union rules in respect of public sector contracts. [17667]

Tessa Jowell: Procurement activities for the Olympic Games will take place within both a domestic and international legal framework, including European Procurement Directives. The Procurement Principles published by the interim Olympic Delivery Authority recognise the importance of maximising local benefits and the wider economic dividend, as well as bringing lasting economic, social and environmental benefits to London and the UK.

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what changes have been made to the proposed budget for security for the 2012 Olympics since the London terrorist attacks. [25208]

Tessa Jowell: The security planning and budgeting for the 2012 Olympics have been robust and detailed. However, we cannot at this stage know exactly what the security situation will be in 2012. Over the next seven years we will keep the plans under review, informed by advice from the Metropolitan Police Service and the Security Services.

Mrs. May: To ask the Secretary of State for Culture, Media and Sport how many Olympic lottery tickets have been sold, broken down by region. [25486]

Tessa Jowell *[holding answer 7 November 2005]:* Camelot Group plc. have informed us that, as at the end of September 2005, some 10.2 million Olympic Lottery tickets had been sold. There is no breakdown available by region but the related scratchcards have been distributed to lottery retailers throughout the UK.

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what person specification she has set for the job of Chief Executive of the Olympic Delivery Authority; and whether applicants will be required either to have worked previously on delivering an Olympic Games or to have been a participant in the Olympic Games. [25490]

Tessa Jowell: As the job description makes clear, the successful applicant for the job of Chief Executive of the Olympic Delivery Authority will be respected for their track record of delivery. They will be credible, persuasive, energetic, self-motivated, highly innovative and inspirational. They will be highly focused on the delivery of the venues, facilities and infrastructure for staging the Olympics and on the creation of lasting legacy for the nation and the communities in which the Games will take place. They will exhibit a high degree of probity and integrity and will lead by example. They will not be required to have worked previously on the delivery of an Olympic Games or to have participated in them.

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what discussions she has had on appointing a representative of the British Paralympic Association to the Olympic organising committee for 2012. [25654]

Tessa Jowell: Paralympic Sport is well represented on the organising committee for 2012 with Mike Brace, the Chairman of the British Paralympic Association and Tony Sainsbury, President of the International Paralympic Committee both having seats on the Transitional Board of LOCOG.

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what improvements are planned to Romford's sports facilities as a result of London's successful Olympic bid. [25875]

Mr. Caborn: London's Olympic bid provided details of planned improvements that were necessary to stage the Olympics. This did not include possible improvements to other sporting facilities as part of a wider effort to maximise the benefits of hosting the games.

Hosting the Olympics provides an opportunity to create a sporting legacy across the UK and relevant authorities in a number of regions across the UK are considering whether to develop sporting facilities as part of their plans to maximise the benefits of the UK hosting the games.

By 2006, Government and the national lottery will have committed over £1 billion to develop new or refurbished public sports facilities. This represents a considerable investment in our facilities infrastructure.

Sports facilities programmes such as Active England, New Opportunities for PE and Sport, and the Community Club Development Programme have already supported the development of over 4,000 new or refurbished sports facilities.

Romford facilities that have benefited from such investment include the Central Park Leisure Centre, which officially opened to the public on 13 November 2004, which was part funded by a Sport England lottery grant of £4.244 million.

Online Gambling

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what measures are being taken to ensure that children do not undertake online gambling. [25871]

Mr. Caborn: Under the current legislation British licensed operators are permitted to offer betting on-line. These operators are subject to the same regulation as bricks and mortar bookmakers, including the existing prohibitions and penalties relating to underage betting. A bookmaker in breach of these prohibitions is a risk of both losing his licence and prosecution. On-line casinos, however, cannot be based in Great Britain under existing legislation. As a result they currently operate off-shore and beyond British jurisdiction. This was one of the major reasons why the Government decided to introduce the Gambling Act 2005.

The protection of children from being harmed or exploited by gambling is one of the key objectives of the Gambling Act, and it contains a package of measures aimed at preventing children from gambling.

Most importantly the Act provides a new regulatory regime for on-line gambling. For the first time on-line casino operators will be able to be licensed in this country, and as such subject to strict licence conditions.

These conditions will include explicit provisions on social responsibility, including 'know your customer' requirements and the use, by on-line gambling operators, of age verification systems.

These conditions will be enforced by the new Gambling Commission, which came into existence in October this year, with robust powers to investigate and ultimately withdraw licences and prosecute those in breach of the law. The Gambling Commission will be proactive in this regard, and the Act allows the Commission or the police to use children to test the robustness of a gambling operator's age verification systems.

Under the Gambling Act it will be an offence for a licensed on-line operator to invite or permit a child or young person to participate in on-line gambling, including all casino gambling. Some very limited exceptions allow 16 to 18-year-olds to take part in on-line football pools or purchase a lottery ticket. It will also be an offence for anyone in the UK to bring gambling advertising to the attention of a person under the age of 18 years. Furthermore the Act will prevent any on-line operator based in a territory outside the European Economic Area from advertising in the UK, unless that territory has be specified by the Secretary of State in regulation. The Government believe that this will prevent UK citizens from being exposed to a large number of operators based in territories which do not offer the same protections to children and young people.

The Act also introduces several new provisions designed to prevent children and young people from gambling, including providing that a young person of 16–17 years old will him/herself commit an offence if he/she gambles. In addition, a licensed gambling operator who, for whatever reason, permits a person under the age of 18 to gamble will have to return the stake gambled to that child or young person. Operators, however, will have no rights to reclaim any winnings awarded. While we expect that the British licensed industry will readily maintain the very highest standards, we believe that this will act as a further incentive to operators to ensure that their age verification systems are robust.

The Gambling Act will be fully implemented in September 2007. In the meantime my Department is working closely with the international gambling industry to promote socially responsible practices now. The Remote Gambling Association, the trade association for remote gambling operators, will very shortly make compliance with their Social Responsibility Code of Practice a condition of membership. This Code includes specific conditions relating to age verification. The Gambling Commission will also active push for improvements in age verification systems and will work closely with software developers, gambling operators and the banking sector to do so. My Department is also looking at building on international links with regulators in other jurisdictions to work across borders to protect our citizens from exploitation from unscrupulous remote gambling operators.

The protection of children and young people from harm from gambling is a key priority for my Department. We remain dedicated to doing all we can under the existing legislation in preparation for the modern, more robust regime, the Gambling Act will introduce.

Public Entertainment Licences

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many applications for revocation of public entertainment licences there were in England and Wales in each year since 1994; how many of these were *(a)* successful and *(b)* unsuccessful; and if she will make a statement. [24133]

James Purnell: The statistics are not held centrally, but are held by each individual local authority.

Television Licences

Norman Baker: To ask the Secretary of State for Culture, Media and Sport for what reason the monarch is exempt from the requirement to purchase a television licence; and whether this exemption extends to television sets in staff quarters. [25029]

James Purnell *[holding answer 7 November 2005]:* The BBC, as licensing authority, has responsibility for interpreting the television licensing legislation and determining licensing requirements in individual cases. However, my understanding is that the monarch is exempt from the television licensing requirements set out in the Communications Act 2003 under the general rule of constitutional law that an Act of Parliament does not bind the Crown unless and to the extent specified in the Act. Crown exemption would extend to servants of the Crown who install and use television on Crown premises for official purposes, but not to sets installed or used for recreational purposes or to sets installed for private use in staff living quarters.

The Royal Household has indicated that, notwithstanding Crown exemption, Her Majesty does in fact purchase licences for each of her official and private residences.

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport how much revenue the fines from unpaid television licences generated in the last year for which figures are available; and what happens to the revenue. [25878]

James Purnell: I refer the hon. Member to the answer I gave him on 18 October 2005, *Official Report*, columns 845–46W.

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the number of people who operated televisions without a licence in each year since 1997. [25879]

James Purnell: I refer the hon. Member to the answer I gave him on 18 October 2005, *Official Report*, column 846W.

Tourism

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport how many Chinese tourists have visited the UK in each month since January 2004. [25885]

James Purnell: Monthly data on the number of inbound visits to the UK from China have not been provided because of difficulties over the statistical reliability of results given the small sample size. The following table details total quarterly and annual visits since the start of 2004 from China and Hong Kong.

Total inbound visits from China

	Visits (thousand)
Q1 (January-March)	18
Q2 (April-June)	14
Q3 (July-September)	35
Q4 (October-December)	28
2004	95
Q1 (January-March)	17
Q2 (April-June)	18
2005 (year to date)	35
Total inbound visits from Hong Kong	
Q1 (January-March)	36
Q2 (April-June)	25
Q3 (July-September)	57
Q4 (October-December)	29
2004	147
Q1 (January-March)	32
Q2 (April-June)	41
2005 (year to date)	73

Source:
International Passenger Survey (IPS), ONS

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the number of tourists visiting London before and after the 7 July terror attacks. [25886]

James Purnell: There are no figures available for the total numbers of tourists visiting London. London's tourism sector assesses its success in attracting visitors to the capital using a range of statistical resources including hotel occupancy figures, and the numbers of people visiting major tourist attractions.

Both hotel occupancy and visits to attractions fell following the bomb attacks in July, when compared both to the preceding months in 2005, and—more relevantly for the industry—with the same months in 2004. While hotel occupancy had recovered to its 2004 rates by September 2005, visits to major central London attractions are still to reach the levels achieved in 2004. Visit London estimates that visits to these attractions were down nearly 21 per cent. for the period July to September 2005, compared to 2004.

The Government, VisitBritain, and Visit London have been co-ordinating recovery work since July through the Tourism Industry Emergency Response Group. Economic forecasting commissioned by the group has projected that the negative effect of the bombings on the London economy may be as high as £500 million for the rest of 2005. However, that work also projects that the total turnovers of both the London and the UK tourism industries for the whole of 2005 will still be higher than those achieved in 2004.

Ultra-local Television

Mr. Michael Foster: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the impact on the licence fee of BBC plans for the large-scale introduction of ultra-local television in medium-sized cities. [25342]

James Purnell: As stated in the Green Paper published in March of this year, we are currently undertaking a review of BBC funding in order to determine the future level of the licence fee. We will be taking all relevant factors into account and will make an announcement in due course.

CONSTITUTIONAL AFFAIRS

Personal Injuries (Small Claims)

Dr. Kumar: To ask the Minister of State, Department for Constitutional Affairs what assessment has been made of the likely impact of the proposals to raise the personal injuries limit for small claims from £1,000 to £5,000. [26486]

Bridget Prentice: The Better Regulation Task Force in its report, 'Better Routes to Redress' recommended that research should be carried out into the potential impact of raising the small claims limit for personal injury cases from the current limit of £1,000. The Government indicated that it would carry out this research and would also consider other options for dealing with these claims in a more proportionate and cost effective way. That research is currently underway and consultation will take place on any proposals which may emerge.

DEFENCE

3rd Battalion Parachute Regiment (Incident)

Mrs. Humble: To ask the Secretary of State for Defence what the findings were of the Special Investigations Branch investigation of the incident of 13 May involving soldiers of the 3rd Battalion Parachute

Regiment in the officers' mess at Hyderbad Barracks, Colchester; how many soldiers have subsequently been charged with offences arising from the incident; and how many soldiers have been discharged. [25357]

Mr. Touhig: The Special Investigation Branch conducted a full investigation and found insufficient evidence to support the allegations made. Therefore, no soldiers have been charged with offences or discharged as a result of the investigation.

Ammunition

Mr. Hancock: To ask the Secretary of State for Defence what plans he has to modify the CHARM 3 L27 depleted uranium kinetic energy round. [25100]

Mr. Ingram: We have no plans to modify the L27 CHARM 3 round.

Ann Winterton: To ask the Secretary of State for Defence pursuant to the answer of 27 October, *Official Report*, column 518W, on ammunition manufacturers, whether BAE Systems Land Systems *(a)* manufactures the small arms ammunition in the UK and *(b)* is on a fixed term contract; what proportion that company's supplies represents of small arms ammunition supplied to British forces; and where the balance comes from. [25289]

Mr. Ingram: Small arms ammunition supplied to the Ministry of Defence by BAE Systems Land Systems (BAES LS) is manufactured in the UK at the Radway Green facility under the terms of the MOD/BAES LS Framework Partner Agreement. This 10 year agreement was signed in 2000.

BAES LS supply approximately 95 per cent. of the MOD's current small arms ammunition requirements. The balance is supplied from companies in Sweden, Israel, Finland, Germany, Canada, Norway and Belgium.

Armed Services

Mrs. Humble: To ask the Secretary of State for Defence what assessment he has made of the impact of raising the minimum recruitment age on the ability of the armed services to meet recruitment targets. [26271]

Mr. Touhig: If the armed forces were required to raise minimum age of entry it would create serious manning problems, since 35 percent of all recruits in financial year 2004–05 were aged under 18. The services, in particular the Army, would be unable to man current structures and maintain current capabilities. It is probable that should minimum entry age be raised, the good quality candidates would settle into other careers and thus be lost to the services.

Mrs. Humble: To ask the Secretary of State for Defence what steps he has taken to investigate ways in which a broader pool of post-18 year-old recruits to the armed services might be attracted. [26272]

Mr. Touhig: Recruit marketing and advertising is both strategic and tactical and aimed at all ages within the target audience, but focused where necessary. Examples of initiatives specifically aimed at those aged 18 and over include:

- Graduate Recruitment Seminars
- University Bursaries
- Medical Cadetships
- Defence Training Undergraduate Scheme—specifically aimed at technical students
- Leadership and Development courses at Universities
- Sponsorship of students at Colleges of Further Education
- Golden Helios for Army Operational Pinch Point trades, e.g. Royal Engineers, Royal Logistics Corps, Royal Electrical and Mechanical Engineers, Intelligence Corps and Amy Medical Services
- Recruiting visits by specialist teams to universities
- Others (e.g. Jobcentre Plus workshops, Adult Look at Life Courses, Careers Exhibitions).

Mrs. Humble: To ask the Secretary of State for Defence what his definition of the target recruit population for the armed services is; and what groups or individuals are excluded. [26278]

Mr. Touhig: Armed forces employment is open to British, Commonwealth and Republic of Ireland citizens providing they meet the required entry eligibility standards. While marketing is aimed at those of pre-eligible age, eligibles, and parents/gatekeepers, the bulk of recruit marketing is targeted at the 16–24 age group.

Employment in cap-badged posts in the Royal Marines General Service, the Household Cavalry and Royal Armoured Corps, the Infantry, and the Royal Air Force Regiment are closed to women for reasons of combat effectiveness.

The armed forces also remains closed to those with unspent criminal convictions.

Mrs. Humble: To ask the Secretary of State for Defence by what means he monitors the practice of Phase I training establishments *(a)* in collecting information concerning the immediate family members of recruits and *(b)* providing contact details of welfare officers and commanding officers; and what steps he is taking to review this information at Phase II entry level. [26285]

Mr. Touhig: A study into current working welfare arrangements is currently being undertaken by the Defence Individual Training Capability Team in conjunction with the Service Personnel Policy area. The main part of their remit is to look closely at working welfare arrangements on training establishments.

Mrs. Humble: To ask the Secretary of State for Defence how many *(a)* casualty notification officers and *(b)* casualty visiting officers are employed by the Army; what the course content of induction training for these posts is; and what the duration of training is for each. [26306]

Mr. Touhig: All brigade headquarters maintain a roster of available officers for Casualty Notification Officers and Visiting Officers duties. Numbers on the rosters vary but each headquarters will normally have about 50 Officers listed to carry out these duties.

Seminars/Study days are conducted by all brigade headquarters on a regular basis. They comprise of presentations and discussions on: casualty administrative

procedures; repatriation; funerals; pensions; Army Welfare Service; understanding bereavement (but not counselling); role of Army chaplains; and the investigation process.

The Army is developing a standardised training package covering all relevant issues which will be available to all headquarters and units by the end of March 2006.

Mrs. Humble: To ask the Secretary of State for Defence on what date he approved the issue of a guidance note dealing with the care and management of under-18s in the armed services; what the principal developments are that build upon existing practice and previous guidelines; what steps he has taken to circulate the note among *(a)* those responsible for implementing its recommendations and *(b)* under-18 recruits; how he will monitor the effectiveness of the guidelines; and if he will place a copy in the Library. [26276]

Mr. Touhig: A guidance note on care for the Service personnel under the age of 18, approved by the Vice Chief of the Defence Staff, was issued to the Principal Personnel Officers of each of the three Services on 12 July 2005. This was then disseminated through the three Services' chains of command. The armed forces continuously monitor the effectiveness of the care given to under-18s. External inspection and audit provides further assurance.

A copy of the guidance note is available in the Library of the House.

Mrs. Humble: To ask the Secretary of State for Defence what steps he has taken to further his investigation of the feasibility of undertaking Criminal Records Bureau checks on personnel who supervise recruits and trainees who are aged under 18 years; and what plans he has to introduce these checks. [26280]

Mr. Touhig: Under the Criminal Justice and Court Services Act 2000, Criminal Records Bureau checks do not apply to those working with service personnel between the ages of 16 and 18 because they are in full-time employment. We continue to keep the relevant legislation under review.

Mrs. Humble: To ask the Secretary of State for Defence what the result was of his review of policy concerning under-18s conducting guard duty. [26302]

Mr. Touhig: A guidance note on care for the under-18s was issued to the Principal Personnel Officers of each of the three Services on 12 July 2005. This includes guidance on armed guarding. A copy of this guidance note is available in the Library of the House.

Ann Winterton: To ask the Secretary of State for Defence (1) what the total strength was of *(a)* the Regular Army and *(b)* the Territorial Army on 1 October; [26191]

(2) how many people have been recruited to the Infantry Territorial Army in the last 12 months. [26216]

Mr. Touhig: As at 1 September 2005, the total strength of the Regular Army was 107,340. This figure includes trained and untrained personnel. The Regular Army data as at 1 October 2005 is not yet available. The data is due to be released on 11 November and will be available on the DASA website www.dasa.mod.uk

As at 1 October 2005, the total strength of the Territorial Army excluding non-regular permanent staff (NRPS) was 35,270 of which 1,200 were Mobilised TA.

Between 1 October 2004 and 30 September 2005, 1,590 people have been recruited to the Infantry Territorial Army. This only includes new recruits and those from the Regular Reserve. This figure does not include recruitment to NRPS, those joining the University Officer Training Corps, Full Time Reserve Staff and those flowing to and from Mobilised TA.

Bullying/Harassment

Mrs. Humble: To ask the Secretary of State for Defence what his Department's definitions are of *(a)* bullying and *(b)* harassment; and by reference to which external organisations these definitions were benchmarked. [26291]

Mr. Touhig: The Ministry of Defence's definitions of harassment and bullying are set out in the Department's unified guidance on the handling of complaints of harassment and bullying, issued as a Joint Service Publication (JSP 763) in April 2005, which states that:

> Bullying is a form of harassment, and describes a threatening or intimidating environment in which one or more people may become fearful or intimidated because of the negative or hostile behaviour of one or more people. It often involves a misuse of power or position. It is usually persistent, often unpredictable, and may be vindictive, cruel, or malicious. However, it can also arise without intent, such as when a person is unaware of the impact of his or her behaviour on someone else. Harassment is unwanted behaviour by one or more people, whether intentional or not, which violates a person's dignity and creates feelings of anxiety, humiliation, awkwardness, distress or discomfort which can have devastating consequences for that person.

The industrial and non-industrial trade unions were consulted in the drafting of these definitions, and legal advice was taken to ensure that the definitions are compatible with employment law.

Challenger 2 Upgrade

Mr. Hancock: To ask the Secretary of State for Defence what plans he has *(a)* to replace and *(b)* to upgrade the L30A1 high-pressure 120mm rifled gun fitted to the Challenger 2 tank. [25095]

Mr. Ingram: There are no plans to upgrade the L30A1 gun fitted to the Challenger 2 tank. However, studies are being undertaken to provide information for our future direct fire weapon requirements. This might include a potential replacement for the current Challenger 2 gun.

Mr. Hancock: To ask the Secretary of State for Defence what plans he has to upgrade the *(a)* L31 HESH and *(b)* L34 smoke rounds used by the L30A1 gun. [25099]

Mr. Ingram: We have no plans to upgrade the L31 HESH and L34 smoke rounds. However, the next production run of these rounds will have a slightly modified fill to improve its insensitive munitions performance.

Child Protection

Mrs. Humble: To ask the Secretary of State for Defence by what mechanism convictions in courts martial are made available to the Criminal Records Bureau for the purposes of child protection. [26290]

Mr. Touhig: Details of convictions are communicated to the military police of the relevant single service. Recordable offences are then passed on to the Police National Computer, from which they are accessible to a Criminal Records Bureau check.

Cut and Sew Contract

Jim Dobbin: To ask the Secretary of State for Defence how many garments in each category of the Cut and Sew contract were checked for faults; how many faults were found; and what specific criteria were used to check for different faults. [24731]

Mr. Ingram: The number of checks carried out up to 31 October 2005 are detailed in the table as follows:

Category		*Number of garments checked*
1	Complex Cut and Sew e.g. combat jacket	245
2	Simple Cut and Sew e.g. ties	133
3	Semi-structured e.g. shorts	18,657
4	Knitted e.g. fleeces	16,243
5	Towels	301

More checks were carried out in Categories 3 and 4 due to new items being added to the contract. Contractor's Workmanship samples are also requested from the Contractor, so that any faults can be rectified before production.

Garments are checked against the contractual specification, which includes certain tolerances to allow for the bulk manufacturing process. Only one fault outside of these tolerances has been identified.

Departmental Telephone Lines

Andrew Rosindell: To ask the Secretary of State for Defence how the money that is raised from his Department's 0870 prefix contact telephone number is spent. [27131]

Mr. Touhig: The use of 0870 numbers in the Ministry of Defence is determined at the local level in accordance with individual business requirements. Records of 0870 numbers and the revenue received from them is not held centrally and could be provided only at disproportionate cost.

Disablement Benefits

Peter Law: To ask the Secretary of State for Defence if he will make a statement on the implications for his Department's policy on provision of disablement pensions for ex-servicemen and medical auxiliaries of the decision in the case of Daniel Martin at the Pension Appeal Tribunal on 31 October. [25508]

Mr. Touhig: The Ministry of Defence's policy on the provision of war disablement pensions to former members of the armed forces is unchanged. Awards will continue to be made where evidence of disablement is shown and where that disablement is due to, or aggravated by, service.

Firearms

Mrs. Humble: To ask the Secretary of State for Defence on what date he expects completion of the review of policy on the issue, control and security of firearms being conducted by the Director General of Training and Education. [26301]

Mr. Touhig: It is anticipated that the review of policy on the issue, control and security of firearms during initial training (Phase 1 and Phase 2), currently being conducted by the Director General Training and Education, in conjunction with the single Services, will culminate in revised policy early in the new year. Stringent regulations are already in place, but the purpose of the review is to ensure best practice is employed in weapon security in converting inexperienced Service personnel in Phase 1 through to trained individuals on completion of Phase 2 who fully understand their responsibilities for personal weapon security.

Forces Mental Well-being Policy

Mrs. Humble: To ask the Secretary of State for Defence by what means and via what institutions the armed services maintain contact with *(a)* the Department of Health and *(b)* the devolved Administrations in order to develop the Forces' Mental Well-being policy. [26282]

Mr. Touhig: The Armed Forces Mental Wellbeing policy is developed and monitored through a steering group which comprises representatives from throughout the Ministry of Defence. The steering group monitors activities involving mental wellbeing in the United Kingdom including, for example, the outputs from the National Suicide Prevention Strategy.

Official contact between the Department of Health and MOD is regulated by a concordat that has been in place since 2002. This has led to arrangements with NHS Hospital Trusts, both those which host MOD Hospital Units and others, which enable MOD clinical personnel to be trained and to maintain their skills in the NHS environment. The concordat has now been extended to include the Health Departments for Scotland, Wales and Northern Ireland.

Future Aircraft Carriers

Dr. Julian Lewis: To ask the Secretary of State for Defence for what reasons revised in-service dates of 2013 and 2016 for the two Future Aircraft Carriers were published on the Department's website on 19 September; and why this information was subsequently removed. [24568]

Mr. Ingram *[holding answer 7 November 2005]:* The dates were published on the website in error. These dates were removed as the in-service dates (ISDs) for the Future Aircraft Carriers will only be set following the main investment decision and once they have been approved by Ministers. This decision has not yet been taken, and will only be taken when we know with confidence the risks involved in building the carriers, when we have a proper understanding of the costs

involved and the implications in terms of the wider interface with other projects, and for the shipbuilding industry.

Hearing Loss (Service Veterans)

Mr. Todd: To ask the Secretary of State for Defence what research he has commissioned on hearing loss among armed services veterans; and if he will make a statement. [26622]

Mr. Touhig: Neither the Ministry of Defence, which is responsible for veterans' matters, nor the former Department of Social Security, which was responsible for the War Pensions Scheme until 2001 and remains responsible for the related civilian Industrial Injuries Scheme, have commissioned any research on this issue. The Government's approach to noise-induced sensorineural hearing loss assessment is based on contemporary scientific evidence and understanding. This has been confirmed in recent years by several reviews carried out by independent audiological experts including an Industrial Injuries Advisory Council review. The Ministry of Defence routinely scrutinises the published peer reviewed literature to ensure that compensation policy and approaches continue to take account of contemporary evidence.

HMS Nelson

Mr. Hancock: To ask the Secretary of State for Defence how many times HMS Nelson has been subject to random drug testing in each of the last three years; and what the results were. [26881]

Mr. Touhig: The dates, numbers and results of Naval personnel who underwent random drug testing at HMS Nelson are as follows:

	Date	*Location*	*Tested*	*Positive*
2003	22 July	RM Band Portsmouth	54	0
2003	2 October	HMS Nelson	189	0
2004	21 April	RM School of Music	83	0
2004	9 November	HMS Nelson	188	0
2005	12 May	RM School of Music	44	0
2005	2 June	RM School of Music	10	[1]0
2005	10 August	Nelson UPO	32	0
2005	25 October	Nelson PTIs and RN Boxing Team	47	0

[1] new recruits

Mr. Hancock: To ask the Secretary of State for Defence if he will order an urgent investigation into whether there have been *(a)* breaches of security and *(b)* drug abuse in HMS Nelson; and if he will make a statement. [26882]

Mr. Touhig: Suspected breaches of security and allegations of illegal substance abuse at MOD establishments are taken very seriously and are rigorously investigated. Following recent media allegations, investigations are already under way at HMS Nelson.

Interceptor Body Armour

Mr. Gerald Howarth: To ask the Secretary of State for Defence what plans he has to issue interceptor body armour to troops on operational deployments, with particular reference to *(a)* Iraq and *(b)* Afghanistan; and if he will make a statement. [24822]

Mr. Ingram: Interceptor body armour is the protection system used by US forces. UK body armour systems offer similar levels of ballistic stopping power, and we have no plans to acquire the interceptor equipment. As with all equipment, we keep personal protection equipment under continuous review.

Iraq

Jim Cousins: To ask the Secretary of State for Defence whether parts of Basra City are no longer regularly or routinely patrolled by UK forces. [26185]

Mr. Ingram: UK forces continue to operate throughout Basra City. No areas are considered out of bounds.

IT Projects

Dr. Cable: To ask the Secretary of State for Defence how many IT projects which cost over £1 million and were introduced since 1997 are in use in his Department. [26603]

Mr. Touhig: The information requested is not held centrally and could be provided only at disproportionate cost.

Married Quarters

Mr. Ancram: To ask the Secretary of State for Defence how many married quarters will be required to meet his Department's plan in each of the next three years. [23320]

Mr. Touhig: Defence Estates (DE) is currently responsible for some 49,000 Service Families Quarters in England, Wales and Scotland. Of these, around 43,000 are seen as long-term core stock aspiration and it is DE's intention to reduce its holdings to that number.

The figures provided are contained within the Ministry of Defence's Annual Report and Accounts 2004–05, which are available online via the MOD's website www.mod.uk.

Ottawa Convention

Mr. Andrew Smith: To ask the Secretary of State for Defence what recent progress has been made in fulfilling the UK's obligations under the Ottawa Convention on landmines. [23059]

Mr. Ingram: The United Kingdom completed its destruction of its stockpiles of anti-personnel mines in October 1999 and only retains a number of anti-personnel mines under Article 3 of the Ottawa Convention for the development of, and training in, mine detection, mine clearance, or mine destruction techniques. Under the Ottawa Convention, the UK is also required to clear all anti-personnel mines from its territory by March 2009. The only UK territory affected is in the Falkland Islands. Discussions have taken place with the Government of Argentina to agree a joint feasibility study, including a field survey of the Islands. A decision on how to proceed will be made once the results of the feasibility study are known.

RAF Recruitment

Andrew Rosindell: To ask the Secretary of State for Defence how many new recruits there have been to the Royal Air Force on average in each of the last 10 years. [25262]

Mr. Touhig: The information requested is set out in the following table.

Financial year	*Officers*	*Other ranks*	*RAF total*
1995–96	280	2,150	2,420
1996–97	320	2,360	2,680
1997–98	400	3,130	3,530
1998–99	430	3,820	4,250
1999–2000	480	3,610	4,100
2000–01	440	3,190	3,630
2001–02	450	3,340	3,780
2002–03	460	3,990	4,450
2003–04	520	3,640	4,160
2004–05	300	1,880	2,180
10 year average	410	3,110	3,520

Note:
Figures are for UK regular forces (including both trained and untrained personnel), and therefore exclude full-time reserve service personnel and mobilised reservists.

Research and Development

Mr. Jim Cunningham: To ask the Secretary of State for Defence what plans his Department has for research and development in new defence technologies. [18319]

Mr. Ingram *[holding answer 18 October 2005]:* Continued investment in science and technology will remain critical if we are to develop and sustain effective capabilities in the face of new and emerging threats. Technical excellence is fundamental to providing the major enabling support to front-line operations and to underpin the competitiveness of our national defence industry.

The Defence Science and Technology Board will ensure that we get the right investment balance between sustaining in-house expertise and developing new technology in our supplier base. A well-structured policy of collaboration between MOD, industry and academia allows us to focus on commonly-identified technology development areas, improves risk reduction and maximises our ability to incorporate world class technologies developed in the UK into the equipment we buy.

We have launched four Defence Technology Centres in areas of high priority for MOD and industry. They are jointly funded by MOD, industry and academia to carry out research at the basic science level. This is then exploited by each partner for their own purposes.

Further information has been published in "Delivering Security in a Changing World", the Defence White Paper of 2003 (Cm 6269) and in the MOD Departmental Plan 2005–09 under Future Capabilities chapter. Copies of these are in the Library and can be found on the MOD internet site at www.mod.uk.

Skynet

Ann Winterton: To ask the Secretary of State for Defence pursuant to the answer of 21 October 2005, *Official Report*, column 1251W, on Skynet, how bandwidth is measured; and what units of measurement other than megahertz his Department has used. [26204]

Mr. Ingram: The SKYNET 5 bandwidth is measured in megahertz (MHz). This is the standard unit of measurement for specifying satellite communication bandwidth within the Department.

UK Sourced Food

Mr. Peter Ainsworth: To ask the Secretary of State for Defence what steps he is taking to increase the proportion of food for the armed services which is sourced in the UK; and if he will make a statement. [25504]

Mr. Ingram *[holding answer 7 November 2005]:* Under the terms of Article 30 of the Treaty of Rome, which prohibits quantitative restrictions on imports between member states and all measures having equivalent effect, the Ministry of Defence must treat fairly and evenly all potential EC product suppliers. However, the MOD's contracted food supplier, '3663', is specifically required to source British products whenever they are competitive and when they meet the required quality standard. MOD is working with Defra and industry to establish ways in which British producers can become more competitive. The Meat and Livestock Commission has chaired a forum involving MOD, '3663' and farming union representatives. These meetings have been highly productive and through them, the MOD has increased volumes of British meat purchased at competitive prices and of a quality standard consistent with the requirements of the British armed forces.

Unified Diversity Strategy

Mrs. Humble: To ask the Secretary of State for Defence if he will place a copy of the departmental Unified Diversity Strategy in the Library. [26292]

Mr. Touhig: Yes.

Welfare Services

Mrs. Humble: To ask the Secretary of State for Defence how frequently *(a)* the Armed Forces Policy Strategy Group, and *(b)* the Tri-Service Welfare Working Group have met in the past 12 months; and what conclusions each forum has reached on the merits of the creation of an in-house (i) magazine and (ii) website to address welfare issues at training establishments. [26308]

Mr. Touhig: I assume my hon. Friend is referring to the Accommodation, Families and Welfare Policy Steering Group that meets four times a year; and reporting to it a Tri-Service Welfare Working Group which meets three times a year. Their remit does not take into consideration creation of an in-house magazine or website to address welfare issues at training establishments, which remain single service responsibilities.

Mrs. Humble: To ask the Secretary of State for Defence what the terms of reference are of the tri-service review into the provision of welfare support in the armed services; what external bodies have been involved in the compilation of the final report; and if he will place the outcome of the review in the Library. [26286]

Mr. Touhig: The review into the provision of welfare support to the greater Service community was established to identify best practice and the potential for its application across the three Services. The following have been identified as key issues that will receive specific attention:

Welfare Provision to Service personnel and their families who reside away from Service units.

Welfare Provision on Tri-Service Units.

Employment Risk associated with Non-Public Funded Organisations.

Public/Non-Public/Charitable Funding Provision.

Changes to Charities Law and how these will affect the armed forces.

The review has consulted widely, including service charities. I will place a copy of the outcome in the Library of the House

EDUCATION AND SKILLS

Adult Education

Philip Davies: To ask the Secretary of State for Education and Skills (1) which further education colleges in West Yorkshire will receive *(a)* a decrease and *(b)* an increase in their funding for adult education, not including for basic skills courses, in 2005–06 compared to 2004–05; [22307]

(2) what assessment she has made of the level of funding provided by the Learning and Skills Council to *(a)* Shipley College and *(b)* other further education colleges in West Yorkshire to meet the non-basic skills needs of adults and employers in the locality; and if she will make a statement; [22308]

(3) when each further education college in West Yorkshire was informed of its funding allocation for 2005–06. [22315]

Bill Rammell: The Government's Skills Strategy, reaffirmed in the White Paper published on the 22 March, sets clear priorities for public funding to support the drive to ensure that employers have the skills they need to be successful, and individuals have the skills they need to be employable and personally fulfilled. Funding for Further Education (FE) increased by 4.4 per cent. in 2005/06. Funding for non-vocational learning opportunities for adults, delivered mainly through local authority adult education services, has also increased. In 2004/05 we provided over £207 million to the Learning and Skills Council (LSC) in support of this learning. This has risen to £210 million in 2005/06. This funding will enable colleges and other providers to deliver a wide range of learning opportunities to meet the needs of adults in local communities but those who are able to do so will need to pay higher fees in the future. I set out the Government's priorities for the learning and skills sector and the impact on funding in 2006–07 and 2007–08 on the 21 October and full details can be found in "Priorities for Success" on the LSC's website.

The Department allocates funds for education and training in the post-16 learning and skills sector, including adult education, to the Learning and Skills Council (LSC). The LSC was established in 2001 bringing the planning and funding of post-16 education together under one body. My Department does not hold details of funding figures for FE colleges in West Yorkshire. As the timing and level of funding allocations in local areas relates to the LSC's operational responsibilities, the LSC's Chief Executive, Mark Haysom, has written to the hon. Member with the information requested. A copy of his reply will be placed in the Library.

A-level Grades

Mr. Iain Wright: To ask the Secretary of State for Education and Skills how many sixth form colleges in England achieved A level pass rates of above 99.0 per cent. in the summer 2005 examinations. [25679]

Jacqui Smith: Figures for the academic year 2003/04 show eight of the 101 sixth form colleges in England achieved a GCE A Level pass rate of above 99 per cent. 2003/04 figures have been provided as 2004/05 data are provisional and currently being checked by schools, therefore, cannot be released at school level.

Apprenticeships

John Bercow: To ask the Secretary of State for Education and Skills for what reason the costs of the provider contracts for the apprenticeships introduced by her Department were higher than expected; and if she will make a statement. [27194]

Phil Hope: I refer the hon. Member to the reply given by my hon. Friend the Minister for Higher Education and Lifelong Learning on 12 October 2005, *Official Report*, column 528W.

Building Schools for the Future

John Bercow: To ask the Secretary of State for Education and Skills if she will list the Building Schools for the Future projects which are in progress. [27191]

Jacqui Smith: Information on the Building Schools for the Future projects currently in progress is as follows.

There are 38 projects (39 authorities) currently in progress in Waves 1–3 of Building Schools for the Future:

Pathfinder and Wave 1 Projects

Bradford
Bristol
Greenwich
Knowsley
Lancashire
Leeds
Leicester
Lewisham
Manchester
Newcastle-upon-Tyne
Sheffield
Solihull
South Tyneside and Gateshead
Stoke-on-Trent
Sunderland
Waltham Forest

Wave 2
Birmingham
Hackney
Haringey
Islington
Kingston upon Hull
Lambeth
Liverpool
Middlesbrough
Nottingham City
Tower Hamlets
Newham

Wave 3
Barnsley
Bradford
Derbyshire
Durham
Kent
Luton
North Lincolnshire
Salford
Sandwell
Southwark
Tameside
Westminster.

Class Sizes

Shona McIsaac: To ask the Secretary of State for Education and Skills what the average class size was in each primary school in Cleethorpes in each year since 1997. [24755]

Jacqui Smith: The data requested is shown in the table.

Maintained primary schools: average class size taught by one teacher[1], position as at January each year: 1997 to 2005, Cleethorpes parliamentary constituency

LEA	Estab	School name	1997	1998	1999	2000	2001

Annual Schools Census.

Education Funding

Michael Fabricant: To ask the Secretary of State for Education and Skills what the average *(a)* primary and *(b)* secondary formula spending share per pupil is in each local education authority for 2006–07, listed in descending order of secondary formula allocations. [26968]

Jacqui Smith: We will be implementing new arrangements for school funding from 2006–07, including the introduction of a ring-fenced Dedicated Schools Grant (DSG). We will announce details of local authorities' allocations of DSG for 2006–07 later in the autumn.

Education Initiatives

John Bercow: To ask the Secretary of State for Education and Skills if she will make a statement on the Vocational Learning Diploma to be introduced in 2008. [27185]

Phil Hope: There will be five lines of specialised diplomas available for teaching from September 2008: in ICT; Health and Social Care; Engineering; Creative and Media; and Construction and the Built Environment. A further five lines will be available from September 2009: in Land Based and Environmental; Manufacturing; Hair and Beauty; Business Administration; and Finance and Hospitality and Catering. The final four lines will be available from September 2010: in Public Services; Sport and Leisure; Retail; and Travel and Tourism.

We have set up multi-agency partnerships, led by Sector Skills Councils, to specify the content of the diplomas within their line of learning. Awarding bodies will subsequently develop the qualification on the basis of this. The Qualifications and Curriculum Authority has been providing advice on the overarching design of the diplomas. My right hon. Friend will announce further details shortly.

John Bercow: To ask the Secretary of State for Education and Skills if she will make a statement on the operation of the school improvement partner scheme. [27188]

Jacqui Smith: The role of School Improvement Partners (SIPs) who are mostly headteachers is to challenge and support schools. Their work forms part of the new accountability and support arrangements called the New Relationship with Schools. SIPs will be searching and constructive about the key issues that each school faces without imposing unnecessary bureaucratic burdens. For anybody wishing to become an SIP, there is a demanding national assessment and accreditation process. The process started in the spring and has so far accredited 243 people.

Schools and local authorities are responding positively to becoming involved in the SIP programme. We now have SIPs allocated to secondary schools in 27 local authorities. SIPs will be allocated to the rest of secondary schools in two further waves in April and September 2006. There is a pilot of SIPs in primary schools in six local authorities, to be followed by a phased national roll-out. We are also trialling school improvement partners in special schools in seven local authorities before deciding on a wider roll-out. At the same time, we are developing national arrangements to make sure SIPs are well managed and well supported, and to assure the quality of their work.

John Bercow: To ask the Secretary of State for Education and Skills what changes in the Ofsted inspection process are to be introduced as part of the New Relationship with Schools. [27189]

Jacqui Smith: The Education Act 2005 provided the legislative base for changing the school inspection system in line with other aspects of the New Relationship with Schools. The new inspection arrangements, which were tested extensively during the last academic year, came into effect in September.

Inspection is an integral part of the New Relationship, which links to other elements in a number of ways. Inspections will now take place with minimal notice and will be shorter in duration. They will draw on enhanced data and will use schools' own self evaluation as the basis for planning and conducting the inspection. Schools will report on progress to parents through the new School Profile and will be supported and challenged by School Improvement Partners in planning and taking forward their improvement priorities.

The new system will reduce burdens on schools whilst ensuring that parents benefit from more frequent information about the quality and standard of education provided by schools.

Education White Paper

Helen Jones: To ask the Secretary of State for Education and Skills what account she took of recent findings on the effects of increased choice in a school system on social segregation in drawing up her proposals in the recent White Paper; and if she will make a statement. [26767]

Jacqui Smith: In drawing up the proposals in the recent White Paper the Secretary of State took account of the relevant issues and discussions in the current academic literature on school choice and social segregation.

Our White Paper "Higher Standards, Better Schools For All—More choice for parents and pupils" outlines our proposals to extend choice and open up access to schools for more parents, underpinned by a fair admissions system. These proposals will reduce social segregation.

There are a number of approaches that admission authorities can adopt to ensure fair access for children. Some schools use random allocation, while others use banding. The White Paper proposes making it easier to introduce pupil banding. This provides a means of ensuring that a school's intake is representative of the full ability range of either applicants for a particular school, of children in the area as a whole, or of the national ability profile—depending on the type of banding adopted.

Furthermore, all proposals for new schools must set out their proposed admission arrangements, and indicate how these will promote community and social integration and choice. Successful schools will also be allowed to expand if they can show their admission arrangements are in line with the School Admissions code of practice, which recommends that admission arrangements should be, as far as possible, inclusive of all elements of the local community.

We also propose to extend entitlement to free transport for disadvantaged children, so that parental choice is not restricted by concerns about the cost and availability of transport.

Employment Programmes

John Bercow: To ask the Secretary of State for Education and Skills to how many regions the entitlement to a platform of employability skills has been extended. [27032]

Phil Hope: The second skills White Paper, "Skills: Getting on in business, getting on at work", published in March 2005, reaffirmed our commitment to the Level 2 entitlement. We undertook to use the experience of the Level 2 trials in the North East and South East in 2004/05 to develop the capacity of the further education sector during 2005/06. The White Paper confirmed that we would expand the availability of fully funded first Level 2 qualifications in all regions, using 2005/06 as a transition year, so that a wide range of colleges and training providers could offer the entitlement nationally from 2006/07.

2005/06 transition will allow FE providers time to re-shape their programmes before national roll out in 2006/07. This does not imply that some regions can opt

out of the Level 2 entitlement during 2005/06. We expect that all regions will deliver an increased volume of first full level 2s in 2005/06; however, we anticipate a marked increase in the delivery and achievement of first full level 2s from 2006/07.

John Bercow: To ask the Secretary of State for Education and Skills how many 16 to 18-year-olds took part in the entry to employment programme in 2004–05; and what assessment has been made of the results. [27195]

Jacqui Smith: Entry to Employment (E2E) is the main programme for young people not yet ready to enter an apprenticeship, employment or learning opportunities directly. The Learning and Skills Council (LSC) guarantees all young people for whom E2E is appropriate a place on the programme. This is in addition to the commitment that every 16 to 18-year-old can have a place in post-16 education and training.

The LSC collects data by academic year. In 2003/04, 10,430 left E2E for employment. In 2004/05, 11,226 left E2E for employment. In 2004/05, 43 per cent. of E2E leavers went into a positive destination (jobs, further education or work based learning). This has risen from 35 per cent. in 2003/04. The number of places made available in England in 2004/05 was 49,523. Of these 47,702 were taken up based on provisional 2004/05 data.

Free School Meals

Mr. Dismore: To ask the Secretary of State for Education and Skills if she will rank English local education authorities according to the percentage of children entitled to receive free school meals. [24231]

Jacqui Smith: The information requested is shown in the following table.

Maintained nursery and primary schools[1]: school meal arrangements[2]—January 2005
Ranked by local authority in England

		Number on roll	Number known to be eligible for free meals	% known to be eligible for free meals
England[3]		4,243,110	717,230	16.9
211	Tower Hamlets	22,697	12,264	54.0
205	Hammersmith and Fulham	10,069	4,488	44.6
352	Manchester	40,941	18,083	44.2
206	Islington	14,684	6,287	42.8
202	Camden	11,576	4,816	41.6
204	Hackney	18,136	7,382	40.7
207	Kensington and Chelsea	7,321	2,962	40.5
213	Westminster	11,228	4,411	39.3
208	Lambeth	20,271	7,684	37.9
210	Southwark	23,608	8,608	36.5
316	Newham	31,519	11,192	35.5

Annual Schools' Census

Mr. Dismore: To ask the Secretary of State for Education and Skills what the average percentage of statutory school age children entitled to free school meals was in *(a)* London and *(b)* England in (i) grammar schools, (ii) local authority maintained schools, (iii) denominational schools and (iv) other schools excluding special schools in 2004–05. [24232]

Jacqui Smith: The available information is shown in the tables.

Maintained primary and secondary schools, city technology colleges and academies: number and percentage of pupils known to be eligible for free school meals[1]—January 2005, London Government Office Region and England

	Pupils of compulsory school age[2]					
	London			England		
	Number on roll	Number of pupils known to be eligible for free school meals	Percentage of pupils known to be eligible for free school meals	Number on roll	Number of pupils known to be eligible for free school meals	Percentage of pupils known to be eligible for free school meals

Annual Schools' Census

Gershon Review

Mr. Davey: To ask the Secretary of State for Education and Skills what she has assessed as being the 10 most successful ways in which individual schools are making efficiency savings as part of the Gershon review; and how much each measure is expected to save. [25528]

Bill Rammell: We expect schools will make efficiency gains in a number of ways. Those will depend on decisions made at school level, but are likely to include improved procurement, more effective use of staff, improved financial management, improved use of ICT, reduced bureaucracy through the New Relationship with Schools and more efficient exams procedures. The amounts realised in each way will depend on schools' own decisions.

The Department is currently considering the best way of disseminating best practice in schools to the wider schools sector.

Holland Park Secondary School

Derek Wyatt: To ask the Secretary of State for Education and Skills what plans there are to support Holland Park Secondary School through the Building Schools for the Future initiative. [27249]

Jacqui Smith: Building Schools for the Future is our long-term programme to provide 21st-century facilities for all secondary pupils. We aim to do this in 15 waves of investment from 2005–06, subject to future public spending decisions. The Royal Borough of Kensington and Chelsea has submitted an expression of interest for its schools, including Holland Park School. We have indicated to the authority that it may join the programme in waves 4 to 6, which we hope to announce in 2007 after the next spending review.

Home-educated Children

Annette Brooke: To ask the Secretary of State for Education and Skills pursuant to the answer of

2 November 2005, *Official Report*, column 1179W, what notification arrangements are in place between local authorities when the parents of a home-educated child move from a local education authority which is aware that a child is being home-educated. [26391]

Jacqui Smith *[holding answer 8 November 2005]:* We expect local authorities to have protocols for transferring information about home educated children who move to another authority, where the local authority is aware that home education is taking place. These protocols should be similar to those covering the transfer of information about children who are on the roll of a maintained school.

Annette Brooke: To ask the Secretary of State for Education and Skills pursuant to the Answer of 2 November to Question 23237, what consideration she has given to the introduction of a legal requirement for parents or carers to notify their local authority of a decision to home educate. [26392]

Jacqui Smith *[holding answer 8 November 2005]:* We have no plans to introduce a legal requirement for parents or carers to notify their local authority of a decision to home educate. However, we recommend that parents home educating their children inform their local authority. This will assist local authorities in targeting their resources as efficiently as possible in identifying children missing education.

Juvenile Learning and Skills

John Bercow: To ask the Secretary of State for Education and Skills if she will make a statement on roll out of the pilot of the new means of service delivery for juvenile learning and skills. [26675]

Phil Hope: New arrangements for delivering learning and skills to offenders were introduced in three development regions, the South West, North West and North East, from 1 August 2005. The new offenders' learning and skills service covers juvenile offenders held in Young Offender Institutions. Action research is being carried out on the new service in order to inform the planned roll-out of the new service across the rest of England from August 2006.

The new arrangements emphasise early, intense focus on assessing the offender learner's needs, formulating them into an individual learning plan and addressing those needs in a joined-up way as the offender moves through the criminal justice system and into mainstream learning and skills. A new curriculum for offender learners is described in the "Offender's Learning Journey", of which there are separate adult and juvenile versions. (See http://www.dfes.gov.uk/offenderlearning/uploads/docs/05%200111%20Juvenile%20OLJ%20v0.4.doc) This more integrated service is particularly important for juvenile offenders, many of whom will continue their education on release.

The new service is planned and funded by the Learning and Skills Council, working in close collaboration with the National Offender Management Service and, in the case of juvenile offenders, with the Youth Justice Board. These close working arrangements will ensure the learning and skills service commissioned meets the needs of the learners and, for those of working age, the needs of employers in the areas within which they will be resettled.

Learning and Skills Council

Miss McIntosh: To ask the Secretary of State for Education and Skills if she will make a statement on the restructuring of the Learning and Skills Council. [24376]

Bill Rammell: This week the LSC announced more details of its restructuring exercise which will make it a smaller, more dynamic and more customer-focused organisation. This will build upon its existing strengths; further develop its relationships with providers and with its partners, and help push the highest proportion of its funding out through colleges and providers into front line delivery. At local level, the LSC will develop small teams of professional staff who will support the delivery of its priority objectives through strategic relationships with colleges, providers and other key stakeholders and so ensure that the needs of local employers and learners are met.

The LSC are consulting fully with staff and Trades Unions, in line with best industrial relations practice. Redundancy will be offered on a voluntary basis where possible. Where this is not possible, redeployment opportunities should be investigated fully, consistent with Cabinet Office guidelines.

The effects on organisation and staffing are matters for the LSC. I have therefore asked Mark Haysom, the LSC's chief executive, to write to the hon. Lady with further information. A copy of his reply will be placed in the Library.

Modern Apprenticeships

John Bercow: To ask the Secretary of State for Education and Skills what percentage of young people started a modern apprenticeship by the age of 22 years in 2004/05; and if she will make a statement. [26797]

Phil Hope: Learning providers have until the end of November 2005 to register new apprenticeship starts for the 2004/05 academic year with the Learning and Skills Council (LSC). As in previous years this is to take account of delays in reporting starts to the council. We will then make an assessment of the percentage of young people entering an apprenticeship by age 22, and make a statement.

Nursery Places

Shona McIsaac: To ask the Secretary of State for Education and Skills how many children in Cleethorpes constituency attended nursery in each of the past 10 years; and how many have taken up free nursery places since the policy was introduced. [26505]

Beverley Hughes: All four-year-olds have been entitled to a free early education place since 1998 and from April 2004 this entitlement was extended to all three-year-olds. The free entitlement consists of a minimum of five two and a half hour sessions per week for 33 weeks of the year for six terms before statutory school age, which is the term following their fifth birthday.

Some local authorities may additionally offer subsidised child care places but this information is not collected centrally.

Figures for January 2005 show that all four-year-old children receive some form of free entitlement. The figure for three-years-olds is 96 per cent. This covers all maintained, private, voluntary and independent providers and represents 535,100 three-year-olds and 568,300 four-year-olds.

The available information on the number of free nursery education places taken up by three and four-year-olds in Cleethorpes parliamentary constituency area and North East Lincolnshire local authority is shown in the tables.

For 2005, information for private and voluntary providers is available for North East Lincolnshire but not currently available for Cleethorpes constituency.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release 43/2005 "Provision for children under five years of age in England—January 2005 (final)" in September, which is available on my Department's website www.dfes.gov.uk/rsgateway/

Number of free nursery education places[1] taken up by three and four-year-olds. Local authority North East Lincolnshire

Position in January each year

	Three-year-olds		
	Maintained nursery and primary schools[2]	*Other maintained and private, voluntary and independent providers*	*Total three-year-olds*
1997	920	n/a	920
1998	980	n/a	980

[2] Headcount of children aged three at 31 December in the previous calendar year from the Annual Schools' Census.

[3] Part-time equivalent number of children aged three at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.

Changes in pupil figures may arise from changes to the underlying population in the local authority area and other factors. However, my Department does not publish population figures for individual age cohorts at sub-national level because of the unreliability of the underlying population estimates. The Office for National Statistics publish sub-national population estimates in five-year age bands.

Part-time Students

Mike Penning: To ask the Secretary of State for Education and Skills what measures her Department is taking to increase numbers of part-time students. [25947]

Bill Rammell: This Government were the first to introduce statutory support for students studying on a part-time basis. We are determined to see the vibrant part-time sector sustained. To this end we recently announced an improved package of support for part-time students in 2006/07 that seeks to ensure access for those on lower incomes so that the part-time sector can continue this strong performance. The new package raises the maximum level of grant for fees by 27 per cent. from £885 to £1,125, while maintaining the course grant at £250. Furthermore, resource from the Access to Learning Fund will increase from £3 million to £12 million to provide still greater additional fee support and general hardship support for students in the most challenging financial circumstances.

We have also recently announced, in connection with the Higher Education Funding Council for England, an additional £40 million in institutional funding in 2006/07 to encourage participation and improve provision for part-time students from the most under-represented groups.

Qualifications and Curriculum Authority

Mr. Gibb: To ask the Secretary of State for Education and Skills whether it is her Department's policy to move away from a knowledge-based culture in science

education as set out on page 36 of the Qualifications and Curriculum Authority's document "Futures: Meeting the Challenge". [23449]

Jacqui Smith: The KS4 science programme of study for 2006 developed with input from the scientific community is based on the science process ("how science works") but the amount of factual knowledge defined in the breadth of study section is only slightly less than at present which allows for the development of skills and understanding. The new programme of study moves away from a predominantly knowledge-based approach to one in which the balance between knowledge and process is more even. Skills, knowledge and understanding of the science process ("how science works") usually become meaningful only when they are set in the context of (factual knowledge) about science.

School Exclusions

Mr. Ruffley: To ask the Secretary of State for Education and Skills how many students have been excluded permanently from schools in Suffolk in each year since 1997. [25178]

Jacqui Smith: The information requested is shown in the table.

Maintained primary, secondary and all special schools: number of permanent exclusions, Suffolk local authority

	Primary[1]		Secondary[1]		Special[2]		Total[3]	
	Number of permanent exclusions	Percentage of the school population[4]	Number of permanent exclusions	Percentage of the school population[4]	Number of permanent exclusions	Percentage of the school population[4]	Number of permanent exclusions	Percentage of the school population[4]
1996/97	13	0.03	98	0.20	5	0.59	120	0.12
1997/98	13	0.03	104	0.21	12	1.38	130	0.13
1998/99	18	0.04	106	0.21	0	0.00	120	0.12
1999/2000	23	0.05	77	0.15	0	0.00	100	0.10
2000/01[5]	13	0.03	133	0.25	[6]	[6]	150	0.14
2001/02[5]	26	0.05	135	0.25	0	0.00	160	0.16
2002/03[5]	22	0.05	126	0.23	[6]	[6]	150	0.15
2003/04[5]	32	0.07	161	0.30	[6]	[6]	200	0.19

[1] Includes middle schools as deemed.
[2] Includes maintained and non-maintained special schools.
[3] Totals across school types have been rounded to the nearest 10.
[4] The number of permanent exclusions expressed as a percentage of the number (headcount) of all pupils (excluding dually registered pupils) in January each year.
[5] From 2000/01 some schools are known to have under reported the number of permanent exclusions in their Annual Schools' Census return, so the Department carried out a separate data checking exercise at local authority level.
[6] Less than 3, or a rate based on less than 3

Schools

Mr. Evans: To ask the Secretary of State for Education and Skills how many pupils attend each *(a)* primary and *(b)* secondary school in (i) Ribble Valley and (ii) Lancashire. [24313]

Jacqui Smith: The information requested has been placed in the Library.

Mike Penning: To ask the Secretary of State for Education and Skills how much has been spent on counselling services in schools in *(a)* Hemel Hempstead constituency and *(b)* Hertfordshire in each of the last five years. [25568]

Jacqui Smith: The information requested is not collected centrally.

Justine Greening: To ask the Secretary of State for Education and Skills which schools in the Putney constituency are included in the Building Schools for the Future Programme; which wave of the programme each school will be in; what the agreed funding is for each school; and what stage each project already under way has reached. [27245]

Jacqui Smith: Building Schools for the Future (BSF) is our long-term programme to provide 21st-century facilities to all secondary pupils. We aim to do this in 15 waves of investment from 2005–06, subject to future public spending decisions. All schools in Putney serving secondary-age pupils will be eligible for investment, as part of the London borough of Wandsworth's single BSF project. We have indicated to Wandsworth that its project may start in waves 4 to 6, which we hope to announce in 2007 after the next spending review. The funding and time scales for individual schools will not be agreed until after the project has started.

Science Teaching

Stephen Hammond: To ask the Secretary of State for Education and Skills if she will publish the syllabus used for the Twentieth Century Science and Science for the Citizen pilots. [27227]

Jacqui Smith: A copy of the Twenty-First Century Science pilot specification is available on request from OCR, 9 Hills Road, Cambridge, CB2 1PB. This pilot has informed the development of OCR's GCSE Science Suite A, which is available on OCR's website. A copy has been placed in the House of Commons Library. The term "science for the citizen" refers to the approach taken through the new specifications and examinations to develop scientific literacy and does not refer to a particular qualification or pilot.

Sure Start

Colin Challen: To ask the Secretary of State for Education and Skills how many children have benefited from the Sure Start scheme in Morley and Rothwell constituency; and what plans she has to extend such schemes in the constituency. [26170]

Beverley Hughes: There are currently no Sure Start local programmes in Morley and Rothwell. From March 2006 a designated Sure Start Children's Centre will be based at the Seven Hills Primary School and Queen St. Early Years Centre. It will provide services to children and families in the area and is expected to work with around 1,100 children aged under 5 and their families. It will also provide 50 additional full day care places.

Leeds city council is currently consulting key stakeholders as part of the process of planning for further possible children's centres in the second phase of their development from 2006–08.

Under-achievement

John Bercow: To ask the Secretary of State for Education and Skills what representations she has received on tackling the impact of socio-economic status upon educational performance. [26033]

Beverley Hughes: The Secretary of State regularly meets individuals and representatives of organisations throughout the education system who share the priorities she set out in her speech to IPPR on 26 July 2005. This detailed the Government's commitment to maintaining a genuinely comprehensive education system—a system that meets the needs of all children, whatever their backgrounds, their preferences or their ability.

The White Paper "Higher Standards, Better Schools for All" sets out our proposals for ensuring that a good education is available to every child in every community. We look forward to continued representations on how these proposals can improve social mobility as we discuss the White Paper and when we introduce the associated legislation.

John Bercow: To ask the Secretary of State for Education and Skills (1) what assessment she has made of the potential impact of the provision of extended schooling upon under achievement by children from low socio-economic backgrounds; [26061]

(2) what assessment she has made of the capacity of schools to provide extended schooling; [26062]

(3) what steps are being taken by her Department to improve the *(a)* availability and *(b)* accessibility of extra-curricular activities, including sports for children from low socio-economic backgrounds. [26046]

Beverley Hughes: Since 2002 my Department has supported three evaluations of extended schools. The reports of these evaluations have shown that it is likely that extended services accessed through schools generate a range of educational benefits for pupils, families and communities in disadvantaged areas. These include: raised pupil attainment; improved pupil attendance, behaviour and attitudes towards learning; and increased parental involvement in their children's

education. Access to extended services at or through schools can reduce barriers to learning through multi-agency working to support vulnerable children and families, help develop learning cultures in deprived communities, and support non-working parents back into work, so reducing child poverty.

The latest of these reports, of the first year of the evaluation of full service extended schools, was published on 29 September 2005. The evaluation involved schools in areas of disadvantage and shows that there is considerable anecdotal evidence of positive outcomes from extended services accessed through schools. Although this does not yet amount to robust evidence of effectiveness it suggests that there will be longer term and wide-ranging outcome for pupils and families from low socio-economic backgrounds. Furthermore, the schools involved in the evaluation said that the extended schools initiative allowed them to address issues previously beyond their reach, such as drug problems and malnutrition, but which affect their pupils' achievement and other outcomes. This evaluation will continue until 2007 by which time we hope to have more substantial evidence on impacts.

We know, through a base line survey of extended services in schools published in September 2005, that the vast majority of schools, 95 per cent. of secondary and 87 per cent. of primary schools, are already offering after schools activities or childcare. The extended schools agenda is not about increasing the workload of existing school staff or schools providing all these services directly themselves on the school site. The evaluation of extended schools has shown that when managed properly the provision of extended services could free heads and teachers to concentrate on their core business. Schools are being encouraged to work with existing providers from both the private and voluntary sectors, other children's services and other nearby schools to deliver extended services and to make good use of their expertise and skills.

A package of support is in place to support schools develop extended services. We have made available £680 million over the period 2006–08 to local authorities and schools. This is additional to the £160 million we have provided to date. This funding can be used flexibly by local authorities and schools to help overcome barriers to developing extended services. The National Remodelling Team has been appointed to work with local authorities and schools to help them develop extended services and in a way that is consistent with school workforce reform.

By 2010 we want all schools to provide a varied range of study support activities with half of all primary schools and a third of all secondary schools doing so by 2008. Funding for a school's or local authority's study support (out of school hours learning) programme is available through their base budgets, and the School Development Grant. Furthermore, the recently published White Paper: "Higher Standards, Better Schools for All", announced that £335 million has been earmarked for 2007–08 to support the personalised learning agenda, of which study support will form an intrinsic part. Helping children from deprived families is a priority for this funding.

The Government are also implementing the national school sport strategy. The strategy is delivering an ambitious public service agreement target to increase the percentage of 5–16 year olds who spend a minimum of two hours a week on high quality PE and school sport within and beyond the curriculum to 75 per cent. by 2006 and then 85 per cent. by 2008. The long-term ambition, by 2010, is to offer all children at least four hours of sport every week. This will comprise at least two hours of PE and sport at school and at least an additional 2–3 hours of sport beyond the school day (delivered by a range of school, community and club providers). In the five years to 2008 over £1.5 billion is being invested to implement the strategy. The 2004/05 school sport survey results found that overall, 69 per cent. of pupils were participating in at least two hours of high quality PE and school sport a week. The results were published on 2 September 2005 and copies have been placed in the House Libraries.

John Bercow: To ask the Secretary of State for Education and Skills what steps are being taken by her Department to improve the home literacy environment for children from low socio-economic backgrounds. [26092]

Jacqui Smith: With Government funding, Bookstart is now extending to reach all children in England at six to nine months with a baby bag, at 18 to 24 months with a toddler bag, and at three years old with the 'My Bookstart Treasure Chest'. The objective is to encourage parents to read with their children. The scheme promotes the important role libraries play in supporting children's early learning. In addition the Family Literacy, Language and Numeracy programme enables parents and their children to improve their literacy, language and numeracy skills together. It is funded by the Learning and Skills Council and delivered locally mainly in schools and is focused on the most deprived LEAs in England to help parents and children from low socio-economic backgrounds.

FOREIGN AND COMMONWEALTH AFFAIRS

Alan John Davies

David Mundell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the detention of Alan John Davies in a Thai jail. [26131]

Ian Pearson: We are currently supporting Mr. Davies' second Royal Pardon Petition. The outcome of clemency pleas is unpredictable. The Thai authorities have assured our embassy in Bangkok that the petition will be considered as quickly as possible. Our staff in Thailand continue to raise Mr. Davies' case with the Thai authorities at every appropriate opportunity, and visit him regularly to monitor his welfare.

British Nationals (Death Sentences)

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British nationals have been convicted and sentenced to death for drug smuggling in *(a)* Thailand and *(b)* Singapore in the last five years. [25207]

Dr. Howells: In the last five years, two British nationals have been convicted and sentenced to death for drug smuggling in Thailand. There have been none in Singapore.

Burma

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on bilateral relations with Burma. [25605]

Ian Pearson: We remain deeply concerned by the situation in Burma.

We regularly raise our concerns with the Burmese authorities. On 26 October, our ambassador in Rangoon drew the attention of the Burmese Home Minister, Colonel Tin Hlaing, to the concerns of both Houses over the situation in Burma and raised human rights again with the Burmese Ministers for Labour and Foreign Affairs on 31 October.

We continue to believe that it is essential for the State Peace and Development Council (SPDC) to enter into a constructive dialogue with all legitimate representative bodies, including Aung San Suu Kyi and the National League for Democracy, and the ethnic groups to promote national reconciliation.

Human rights violations have been highlighted by successive highly critical UK co-sponsored UN Resolutions on Burma, most recently at the UN Commission on Human Rights in April. These issues remain a focus for the UN Special Rapporteur for Human Rights in Burma, Professor Sergio Pinheiro, and the UN Secretary-General's Special Envoy to Burma, Tan Sri Razali Ismail, whom we urge the SPDC to allow to return to Burma.

Congestion Charge

Mr. Burstow: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department has taken to advise diplomatic missions to the UK that the congestion charge does not constitute a form of direct taxation under the Vienna Convention. [25420]

Mr. Straw: We informed all missions by Note Verbale in March 2002 of our sustained view that there were no legal grounds to exempt diplomatic missions from payment of the congestion charge. Since then, in formal and informal exchanges, we have informed missions of our view that the congestion charge does not constitute a form of direct taxation under the Vienna Convention, but is a charge analogous to a motorway toll, and that they are expected to pay.

ECOWAS

Mark Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the *(a)* effectiveness, *(b)* transparency and *(c)* accountability of ECOWAS. [24435]

Ian Pearson: The Economic Community of West African States (ECOWAS) has shown good leadership on governance and security issues in recent years, evidenced by successful interventions in Guinea Bissau and Togo in 2005. ECOWAS is also making progress in trade related areas, particularly on establishing a common external tariff.

But the institution remains weak, particularly in its financial management and administrative systems. The UK is working with international partners to strengthen the ECOWAS Secretariat, and is providing technical and financial assistance to improve budgetary planning and management. A UK military liaison officer has also been seconded to assist with development of ECOWAS conflict management capability.

Embassy Closures

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what criteria are used when deciding to close an embassy; and in what ways the criteria applied to *(a)* Paraguay, *(b)* Lesotho, *(c)* Swaziland, *(d)* Madagascar, *(e)* Bahamas, *(f)* Kiribati, *(g)* Tonga, *(h)* Vanatu and *(i)* Timor Leste. [26439]

Mr. Straw: In deciding the changes to the network I announced on 15 December 2004, which included the closure of these posts, the key factors I took into account in each case were the contributions of the post towards Foreign and Commonwealth Office priorities, including service delivery, the practicality of cover from elsewhere and the potential savings.

European Court of Human Rights

Mr. Laws: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 24 October 2005, *Official Report*, column 76W, on the European Court of Human Rights, how many cases have been defended by Government Departments at the European Court of Human Rights since 1997; and which was the lead Department in each case. [25111]

Dr. Howells: The number of cases communicated to the Government by the European Court of Human Rights since 1 November 1998, when a single full-time court was established under Protocol 11, is 789. There are no records of the lead Department for each of these cases.

Holy See

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) pursuant to the answer of 1 November 2005, *Official Report*, column 954W, on the Holy See, why no advertisement inviting applications for the post of UK Ambassador to the Holy See was published in any national newspaper of Wales; [25532]

(2) pursuant to the answer of 1 November 2005, *Official Report*, column 954W, on the Holy See, why no advertisement inviting applications for the post of UK Ambassador to the Holy See was published in any national newspaper of Northern Ireland. [25533]

Mr. Straw: I refer my hon. Friend to the answer I gave on 7 November 2005, *Official Report*, columns 171–72W.

India

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he

has held with the government of India about *(a)* sex-selective abortion and *(b)* infanticide; and if he will make a statement. [25740]

Dr. Howells: There has not been any ministerial discussion with any member of the Indian Government on either of these issues.

Officials at our High Commission in New Delhi monitor the situation and raise our concerns regularly, most recently on 5 October at a meeting between our Deputy High Commissioner and the Chairman of the National Commission for Women. We have also supported the work of the Centre for Women's Development Studies to combat pre-natal sex selection in Karnataka and Tamil Nadu.

Iraq

Andrew George: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of expenditure by the coalition provisional authority of *(a)* Iraqi funds and *(b)* US funding since the occupation of Iraq. [25935]

Dr. Howells: United Nations Security Council Resolution (UNSCR) 1483 (22 May 2003) established the Development Fund for Iraq (DFI) and the International Advisory and Monitoring Board (IAMB) to oversee it. All revenues from the export of Iraq's oil are transferred into the DFI account, with the exception of 5 per cent. of revenues, which are deposited in a fund used to finance legitimate claims for compensation following Iraq's unlawful invasion and occupation of Kuwait in 1990. UNSCR 1483 authorised the coalition provisional authority (CPA) to act as the administrator of the DFI. The CPA performed this role until 28 June 2004, when control of the DFI was transferred to the sovereign Government of Iraq. Our information indicates that between July 2003 and June 2004 the CPA allocated approximately $6.9 billion in contract awards.

Media reporting has focused on recent reports by the US Office of the Special Inspector General for Iraq Reconstruction (SIGIR) and the external auditor KPMG. SIGIR was established under the CPA to provide oversight of CPA operations and programmes.

SIGIR's report on the period 22 May 2003 to 28 June 2004 examines whether the CPA established and implemented adequate controls over disbursements made to Iraqi ministries. SIGIR found 'less than adequate controls' for approximately $8.8 billion funds in the Development Fund for Iraq (DFI) allocated to Iraqi ministries by the CPA.

Although procedures did not meet the standards of western Governments, we feel the SIGIR report fails to take account of two important factors.

Firstly, there was an imperative to get ministries up and running quickly against the background of a chaotic bureaucratic legacy bestowed by the Ba'athist regime. This meant relying on the ability of the Iraqi civil service to get ministries functioning and reconstruction projects started. The alternative would have been to institute a system that could have delayed expenditure for months.

Secondly, the SIGIR report fails to take account of the progress made by the CPA to improve financial management in Iraqi ministries and of the budget process. Under the former regime, budgets and economic data were kept secret. In contrast, the CPA published the Iraqi national budgets for 2003 and 2004 and designed a transparent framework for management of the national budget. It also took measures to improve reporting and record keeping.

We and coalition partners continue to work with the Iraqi Government, the International Monetary Fund and the World Bank to ensure transparency and accountability in Iraqi public finances.

US funding for reconstruction in Iraq is managed by the Iraq Reconstruction Management Office (IRMO). IRMO was established in May 2004 to co-ordinate the US reconstruction programme in Iraq, in co-operation with the Iraqi Government. Accounting for the financial management of US funds in Iraq is a matter for the US Government.

Jim Cousins: To ask the Secretary of State for Foreign and Commonwealth Affairs what approaches have been made to the UK by President Talabani or other representatives of the Iraqi Government to limit UK forces to the guarding of oil pipelines and other strategic installations. [26188]

Dr. Howells: The Government have received no such representations.

Israel/Palestine

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to assist the tackling of terrorism in Israel and Palestine. [25904]

Dr. Howells: We continue to call upon the Palestinian Authority (PA) to take action against those who commit terrorist acts. Following the suicide bombing in Hadera on 26 October we continue to urge the Palestinians to make progress in meeting their commitments on security under the roadmap and the Sharm al-Shaikh agreement. I recently discussed the security situation with the Palestinians during my visit to the region on 27–30 September.

We continue to work closely with the US Security Co-ordinator General Ward to help the PA build its capacity on security. We have taken the lead in the EU Co-ordinating Office for Palestinian Police (EUCOPPS), which is helping to improve Palestinian police effectiveness in delivering law and order.

Maldives

Mr. MacShane: To ask the Secretary of State for Foreign and Commonwealth Affairs what meetings ministers have held with representatives of the Maldive Islands Government in respect of Mohamed Nasheed. [25830]

Dr. Howells: Ministers have not held any meetings with the Government of the Maldives on this subject. The British High Commission in Colombo, accredited to the Maldives, is monitoring Mohamed Nasheed's trial closely. The High Commissioner has raised our concerns about the trial with the Government of the Maldives on several occasions.

Mr. Streeter: To ask the Secretary of State for Foreign and Commonwealth Affairs what action he is taking to bring pressure on the Government of the Maldives to ensure that Mohammed Nasheed receives a fair trial. [25929]

Dr. Howells: The Government monitors developments in the Maldives closely, and we have a regular dialogue with the Government of the Maldives about their democratic and human rights obligations.

Following the disturbances in August during which Mohammed Nasheed was arrested, the British High Commission in Colombo led an EU fact-finding mission to the Maldives, meeting Government Ministers, officials and detainees, including Mohammed Nasheed. On 2 September, the EU issued a statement that reiterated to the Maldivian authorities their responsibility to uphold the right of political parties to meet freely and to carry out peaceful political activities. It also underlined that it was essential for the fundamental rights of all detainees to be upheld and for the Maldivian authorities to ensure due process in the trial of Nasheed and others. The statement underlined that trials would come under close scrutiny.

The High Commission in Colombo has since raised these issues regularly at a senior level with the Government of the Maldives. The High Commissioner did so on 26 September with President Gayoom and on 31 October with Foreign Minister Dr. Ahmed Shaheed. The Deputy High Commissioner also raised these issues with Foreign Minister Shaheed on 27 October following Mr. Nasheed's first court appearance.

We will continue to monitor events closely and make our concerns known. On 8 November I met with senior colleagues of Mr. Nasheed from the Maldivian Democratic Party to hear their views.

Poland

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has extended his congratulations to the newly elected *(a)* Prime Minister and *(b)* President of Poland. [26069]

Mr. Douglas Alexander: No, it is my right hon. Friend the Prime Minister who has congratulated the new Polish Prime Minister and President. I have, however, congratulated the new Polish Foreign Minister and look forward to working with him and the rest of the new Polish Government in developing the excellent relations that exist between our two countries.

Sub-Saharan Africa

Emily Thornberry: To ask the Secretary of State for Foreign and Commonwealth Affairs how many of the UK missions in sub-Saharan Africa get their water and sanitation services through *(a)* piped networks and *(b)* tankers or other non-network providers. [25759]

Mr. Straw: Of the Foreign and Commonwealth Office's 29 posts in sub-Saharan Africa, 17 receive both their water and sewerage services through mains piped networks from local utility companies. Unreliable or non-existent mains water supply at many missions necessitates that tanks are used for storage, and replenished by tankers, or from our own boreholes. Similarly the lack of main sewers requires some posts to use septic tanks or other private arrangements, some of which require emptying by tankers.

Emily Thornberry: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations UK missions in sub-Saharan Africa have made to their host Governments in 2005 on improving water and sanitation services for the population of the country concerned. [25760]

Mr. Straw: Through the Department for International Development, UK missions are actively engaged in policy dialogue with host Governments about improving water and sanitation services for the poor in 12 African countries: Ethiopia; Nigeria; Sudan; Democratic Republic of Congo; Ghana; Sierra Leone; Tanzania; Uganda; Rwanda; Zambia; Mozambique; and Malawi.

In March this year, my right hon. Friend the Secretary of State for International Development (Hilary Benn) announced a doubling of funding over the next three years for improvements to water and sanitation in Africa: up to at least £95 million in 2007–08.

Sudan

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on Darfur. [25319]

Ian Pearson: We remain seriously concerned about the situation in Darfur. In his latest report on Darfur, the UN Secretary-General noted a deterioration in the security situation in September and stated that attacks have increased in cruelty and violence. All parties, except the Justice and Equality Movement, were responsible for ceasefire violations. But banditry remains the greatest cause of insecurity, accompanied by frequent harassment and assaults on humanitarian aid workers. The UN Secretary-General stated that, despite this, a greater number of people requiring humanitarian assistance are being reached by UN agencies and non-governmental organisations, who are increasingly and consistently supporting vulnerable people and remote communities. These agencies are doing an excellent job in difficult and often dangerous circumstances.

This increase in violence, and particularly attacks on humanitarian workers, are entirely unacceptable. We are encouraging anyone with information on the perpetrators to pass it to the relevant bodies for consideration under United Nations Security Council Resolutions 1591 and 1593. We continue to press the parties to rein in their fighters and to reach a political agreement in Abuja when talks reconvene on 21 November. We continue to provide practical assistance to the African Union's monitoring mission in Darfur.

Travellers (Advice)

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what advice to travellers to *(a)* the United States, *(b)* Israel and *(c)* Bali was being issued on the Foreign Office website in September. [25741]

Dr. Howells: Foreign and Commonwealth Office travel advice is constantly updated. In September 2005 the travel advice for the United States was updated 28 times, for Israel and the Occupied Territories three times and for Indonesia three times.

United States

The travel advice was updated 28 times to reflect changes due to Hurricanes Katrina and Rita. There were no other amendments other than for this reason.

Israel and the Occupied Territories

The travel advice was updated on 6 September to reflect an explosion on 5 September in Gaza City that killed four and injured at least 20 others and an update of the disengagement of settlers from the Gaza Strip and parts of the West Bank. The travel advice was updated again on 7 September to reflect the murder of Mousa Arafat, and to advise that the security situation in Gaza may deteriorate further. The travel advice was updated again on 13 September to advise against all but essential travel to Gaza City and against all travel to Gaza City at night, including overnight stays.

Indonesia

The travel advice was updated on 6 September with minor amendments including one concerning the Indonesian police campaign against illegal drug use. The travel advice was further amended on 21 September with further information about avian influenza, in particular Ragunan Zoo in Jakarta was closed on 19 September after bird flu was detected in caged birds. The travel advice was updated again on 29 September with details of large public demonstrations that were being planned in Jakarta and other cities in Indonesia to protest against fuel shortages and fuel price rises which were to take effect on 1 October.

Uzbekistan

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Uzbekistan regarding the treatment in detention of opposition leader Sanjar Umarov. [26770]

Mr. Douglas Alexander: Our Ambassador in Tashkent, David Moran, discussed the case of Sanjar Umarov, leader of the opposition group the Sunshine Coalition, on 25 October with First Deputy Foreign Minister Mustafayev and on 2 November with Foreign Minister Ganiev. David Moran raised our concerns at the treatment of Mr. Umarov in detention and requested medical treatment for Mr. Umarov.

As Presidency of the EU, we issued a statement on 25 October seeking clarification of the charges against Mr. Umarov and calling on the Uzbek authorities to treat Mr. Umarov according to international norms and to allow him full access to his lawyers, his family and others concerned about his wellbeing.

West Papua

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to support a UN-sponsored democratic self-determination referendum to be held in West Papua. [26133]

Ian Pearson: The UK supports the territorial integrity of Indonesia. We believe the best solution to the internal differences in Papua is to be found through peaceful dialogue between the Government of Indonesia and representatives of the Papuan people, and the implementation of the Special Autonomy Law of 2001. We welcome President Yudhoyono's recent statement that he is committed to a "just, comprehensive and dignified solution", including through "consistent implementation" of Special Autonomy.

CABINET OFFICE

Political Guidelines

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster what guidelines exist for executive agencies and non-departmental public bodies on making public comments on party political matters. [27237]

Mr. Jim Murphy: Staff in executive agencies are civil servants, and are therefore required to conduct themselves in accordance with the requirements of the Civil Service Code.

Staff in non-departmental public bodies (NDPBs) are generally not civil servants. However, Cabinet Office guidance on NDPBs requires that they have a staff Code of Conduct, which should include the requirement for staff of public bodies to conduct themselves with impartiality, as well as integrity and honesty.

WORK AND PENSIONS

Pensions

Adam Afriyie: To ask the Secretary of State for Work and Pensions what role his Department has played in recent negotiations about the reform of public sector pensions. [24171]

Mr. Timms: I refer the hon. Member to the written answer I gave to the hon. Member for East Antrim (Mr. Wilson) on 31 October 2005, *Official Report*, column 741W.

MINISTER FOR WOMEN

Women in Politics

Lynda Waltho: To ask the Minister for Women and Equality what steps the Government is taking to increase women's representation in politics at all levels. [24109]

Meg Munn: In 2002 we introduced the Sex Discrimination (Election Candidates) Act allowing positive measures towards women's increased participation.

There are now:

127 women in the House of Commons;

133 female Peers;

6 female Cabinet Ministers;

50 per cent. of the Welsh Assembly are women;

39.5 per cent. of the Scottish Parliament are women.

NORTHERN IRELAND

Call Centres

Mr. Laws: To ask the Secretary of State for Northern Ireland how many call centres were run by his Department and its agencies in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; and how many and what proportion of calls (i) were handled by an adviser, (ii) were received but abandoned and (iii) received an engaged tone in each year. [23298]

Mr. Hanson: No call centres were run by the Northern Ireland Office or its Agencies.

Correspondence

Mike Penning: To ask the Secretary of State for Northern Ireland what steps he is taking to improve the Department's performance in replying to hon. Members' correspondence. [21909]

Mr. Hain: Every effort is made to handle all correspondence effectively and efficiently. All correspondence from hon. Members and Peers is handled in accordance with the principles set out in "Handling Correspondence from Members of Parliament, Members of the House of Lords, MEPs and Members of Devolved Assemblies: Guidance for Departments". The same principles apply when handling correspondence from members of the public.

Information relating to the performance of Departments in replying to Members/Peers correspondence is published on an annual basis. The report for 2004 was published on 6 April 2005, *Official Report*, columns 137–40WS.

Departmental Consultations

Mr. Peter Ainsworth: To ask the Secretary of State for Northern Ireland if he will list formal consultations being sponsored by his Department and its agencies; and what the *(a)* commencement date and *(b)* deadline for responses is in each case. [22574]

Mr. Hanson: The information requested is as follows:

Title of Consultation	*Commencement date*	*Deadline for response*
Consultation paper on Electoral Registration in Northern Ireland	5 August 2005	14 October 2005
Consultation paper on proposals on the future of donations to political parties in Northern Ireland	5 August 2005	14 October 2005
Amendment to Code D of the Codes of Practice under the Police and Criminal Evidence (Northern Ireland) Order 1989 and Part 2 of the Section 99 Code of Practice issued under the Terrorism Act 2000	19 September 2005	12 December 2005
Consultation on Equality Impact Assessment into the terms of the Police Voluntary Severance Scheme	6 May 2005	[1]

[1] Deadline deferred pending the outcome of on-going legal proceedings in respect of the Severance Scheme.

Domestic Violence

Sammy Wilson: To ask the Secretary of State for Northern Ireland (1) how many incidents of domestic violence have been recorded in each of the district command units in Northern Ireland in each of the last five years; [24046]

(2) how many incidents of domestic violence reported in Northern Ireland have been violence *(a)* by men against women and *(b)* by women against men in each of the last five years. [24047]

Mr. Hanson: PSNI are the only organisation that record domestic violence incidents and it is believed that the very nature of domestic violence abuse—in that much of the abuse takes place behind closed doors with victims often living in fear—that most of the incidents of this crime go unreported.

The number of domestic violence incidents reported to the Police Service of Northern Ireland continues to rise annually. The number of incidents reported rose from 16,926 in 2003–04 to 20,959 in 2004–05 (an increase of 24 per cent.). It is recognised that there is considerable under reporting of incidents of domestic violence and an increase in reports is a welcome indication in confidence in the police to take effective action and support victims. PSNI figures for domestic incidents across District Command Units are available for the last three years only.

PSNI Information is available only on the total number of male and female victims. Figures from the Northern Ireland Crime Survey 2003–04 indicate that 20 per cent. of all females claim to have been victims of domestic violence at some time in their lives, while the victimisation rate in males is lower at 11 per cent.

PSNI statistics are available in the tables.

The Government have recently launched a new Domestic Violence Strategy for Northern Ireland.

Domestic incidents, crimes by District Command Unit and number of victims for April 2002 to March 2005

	2002–03				
			Total number of:

Sammy Wilson: To ask the Secretary of State for Northern Ireland what strategies the Police Service of Northern Ireland has put in place to deal with incidents of domestic violence. [24048]

Mr. Hanson: The number of domestic violence incidents reported to the Police Service of Northern Ireland continues to rise annually. The number of incidents reported rose from 16,926 in 2003–04 to 20,959 in 2004–05 (an increase of 24 per cent.). The number of incidents reported where offences were identified fell slightly from 8,565 in 2003–04 to 8,508 in 2004–05. These figures do not include breaches of non-molestation orders (1,148 breaches are recorded).

The PSNI is represented on the regional steering group on domestic violence and worked in partnership with all the other agencies in the development of the Government strategy 'Tackling Violence at Home'. The strategy was launched in October 2005 and aims to develop and implement a multi-agency co-ordinated response to domestic violence across Northern Ireland. The Police Service is also represented at various regional and local domestic violence forums and has been

involved in training provided to probation officers, participants in the men overcoming domestic violence programme, and to staff in the Northern Ireland Court Service.

In September 2004 the Police Service introduced a new domestic violence policy. The policy aims to:

record, respond and investigate effectively all reported incidents of domestic violence in a consistent, robust and proactive manner;

maintain specialist domestic violence investigators in every police district;

ensure that every reported domestic violence investigation is appropriately supervised;

ensure that, where a power of arrest exists, then only in exceptional circumstances will that power not be used;

ensure that every reported victim of domestic violence is offered the services of a Police Service domestic violence officer and provided with information relating to local statutory and voluntary support agencies;

take adequate steps to protect children (including unborn children) who may be at risk from domestic violence by engaging with the appropriate authority;

remove access to all licensed and personal protection firearms where domestic violence has been reported or identified; and

identify and meet the needs of members of minority and vulnerable groups who report domestic violence.

This policy is currently the subject of an annual review.

To date the Police Service have trained 61 specialist domestic violence investigators with a further course being planned for the new year. These officers in addition to supporting victims will investigate serious physical assaults and repeat offences. In addition to the existing corporate literature the Service has published a small pocket information booklet, which provides extensive information on safety advice, Police Service policy and details of support agencies. To date over 40,000 pocket booklets have been circulated to police districts, health trusts, solicitors, voluntary and statutory support agencies. Further work is ongoing to develop risk assessment procedures and guidance.

It is recognised that there is considerable under reporting of incidents of domestic violence and an increase in reports is a welcome indication in confidence in the police to take effective action and support victims.

Education Opt-outs

Sammy Wilson: To ask the Secretary of State for Northern Ireland what percentage of *(a)* males and *(b)* females in the Province opted out of both education and training at 16 years of age in each of the last five years. [25772]

Angela E. Smith: The proportion of 16-year-olds not in education or training in Northern Ireland is set out as follows (N.I. census data 2001):

Proportion of 16-year-olds not in education and training in 2001

	Percentage
Males	9.6
Female	4.7
Total	7.2

Housing

Mr. Dodds: To ask the Secretary of State for Northern Ireland whether *(a)* the Department and *(b)* the Housing Executive maintains a (i) mandatory and (ii) voluntary register of landlords of privately rented residential property in Northern Ireland. [25347]

Mr. Hanson: The Housing Executive maintains the rent register, which contains prescribed information in relation to registered tenancies under the Rent (Northern Ireland) Order 1978 and a register of the names and addresses of persons who are managers of houses in multiple occupation.

Mr. Dodds: To ask the Secretary of State for Northern Ireland what plans he has to extend the licensing scheme for houses in multiple occupancy to the whole of the private rented residential sector in Northern Ireland. [25348]

Mr. Hanson: There are no plans at this time to extend the current licensing system for houses in multiple occupancy (HMD's) to the rest of the private rented sector in Northern Ireland.

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many Housing Executive properties there are in each Northern Ireland housing district. [25151]

Mr. Hanson: The information requested, as at October 2005, is as follows:

NIHE district	*Total stock*
Belfast 1	2,209
Belfast 2	3,728
Belfast 3	3,283
Belfast 4	3,676
Belfast 5	3,813

Illegal Fuel

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many people have been responsible for testing for illegal fuel in Northern Ireland in each of the last five years; and where they were based. [25222]

Dawn Primarolo: I have been asked to reply.

In each of the last four financial years the total number of staff responsible for testing illegal fuel in Northern Ireland was:

	Number
2001–02	116
2002–03	[1]144
2003–04	126
2004–05	116

[1] Includes 18 fixed term contract staff and 10 strike force staff specifically used for oils work.

All of the above staff were based in Belfast and were deployed across Northern Ireland. In addition to these officers testing illegal fuel, officers were also deployed in intelligence, criminal investigation and assurance activity in relation to the supply and use of illegal fuel.

Justice (Northern Ireland) Act

Mr. Lidington: To ask the Secretary of State for Northern Ireland what plans he has to amend section 57 of the Justice (Northern Ireland) Act 2002. [24408]

Mr. Hanson: Section 57 of the Justice (Northern Ireland) Act 2002 inserts provision for youth conferences and youth conference plans in the Criminal Justice (Children)(Northern Ireland) Order 1998.

I have no plans to amend this provision.

Property Valuations

Mrs. Spelman: To ask the Secretary of State for Northern Ireland what plans the Government have to conduct a new valuation of properties in Northern Ireland for *(a)* domestic local taxation purposes and *(b)* water rates. [24591]

Angela E. Smith: A revaluation of domestic property in Northern Ireland on a capital value basis is currently under way. The capital values will be published in April 2006 and will be used to determine household rates bills and the variable element of water charges from April 2007.

Race Crimes

Mark Durkan: To ask the Secretary of State for Northern Ireland whether the Public Prosecution Service for Northern Ireland will include in its annual report statistics on the number of *(a)* reported race crimes, *(b)* cases prosecuted, *(c)* cases securing convictions and *(d)* cases not prosecuted. [24735]

Mr. Hanson: The Government take racially motivated crime very seriously. The Racial Equality Strategy, published on 19 July 2005, sets a framework to allow the Government to tackle the issues of racial inequality in Northern Ireland and to eradicate racism and hate crime. In addition, The Criminal Justice (No. 2) (Northern Ireland) Order 2004 made provisions for increased penalties for offences motivated by hostility towards a person's race.

The Public Prosecution Service for Northern Ireland (PPS) is currently in the process of developing a recording and monitoring mechanism in cases where, in the judgment of a Public Prosecutor, there was a racial motivation behind offences. Statistics will however not be available for the 2005–06 PPS Annual Report.

Special Schools

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many special schools have *(a)* opened and *(b)* closed in the Province since 1997. [25787]

Angela E. Smith: One new special school opened in June 2005 and 15 units attached to mainstream schools have also been established over the period since 1997.

Three school amalgamations (involving 7 special schools) have also been announced. There have been two special school closures since 1997. The following tables contain detail of this information.

Special school closures

Education and Library Board area	*School*	*Date of closure*
Belfast	Jaffe Centre	31 August 2001
Southern	Fe"owfield Special	31 August 2002

New schools

Education and Library Board area	*Schools*	*Date of opening*
Western	Strabane—multi-functional: moderate learning difficulties, severe learning difficulties, speech and language	June 2005

Special school amalgamations

Education and Library Board area	*Schools*	*Date of amalgamation*
Western	Heatherbank and Cranny	1 September 2003
Western	Limegrove and Glasvey	When new school is completed—estimated 2008
North-Eastern	Beechgrove, Dunfane and Loughan	Recently published proposal—objection period ends on 8 December 2005

Special units

Education and Library Board area	*Schools*	*Type of unit*	*Date opened*
Southern	St. Patrick's HS, Keady	Unit for pupils with moderate learning difficulties	1 September 1998
Belfast	Taughmonagh PS	Speech and Language Unit	1 September 1999
South-Eastern	Clandeboye PS, Bangor	Unit for pupils with moderate learning difficulties	1 September 1999
Belfast	Belvoir Park PS	Speech and Language Unit	1 September 1999
North-Eastern	Ballymoney Model PS	Partial Hearing Unit closed, Speech and Language Unit opened	1 September 2001
Southern	St. Patrick's PS, Keady	Speech and Language Unit	1 September 2001
Southern	St. Patrick's PS, Dungannon	Speech and Language Unit	1 September 2002
South-Eastern	Clough PS	Speech and Language Unit	1 September 2002
South-Eastern	St. Mary's PS, Kircubbin	Unit for pupils with moderate learning difficulties	1 September 2002
Western	Gibson PS	I Can Pre-school Unit	1 September 2003
North-Eastern	Moyle PS	Transfer of MLD Unit from former Antiville PS	1 September 2005
Southern	Christian Bros. PS, Armagh	Unit for pupils with autistic spectrum disorder	1 September 2005
Southern	St. Mary's PS, Banbridge	Unit for pupils with autistic spectrum disorder	1 September 2005
Southern	Primate Dixon, Coalisland	Unit for pupils with autistic spectrum disorder	1 September 2005
Southern	St. Joseph's Convent PS, Newry	Conversion to a unit for pupils with autistic spectrum disorder plus new unit for pupils with moderate learning difficulties	1 September 2005

Spiked Drinks

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what information he collects on the prevalence of spiking drinks in the Province. [24923]

Mr. Hanson: A range of statutory and voluntary sector organisations work together to raise awareness of the dangers of drink spiking. This has included beer mat and poster campaigns in pubs and clubs funded by the Police Service of Northern Ireland and the Health Promotion Agency.

It is difficult to estimate the prevalence of drink spiking in Northern Ireland. Spiking drinks can take many forms and includes the addition of alcohol, prescription drugs and illegal drugs (eg Ecstasy) as well as the so called date rape drugs such as Rohypnol. Victims may not realise their drink was spiked, and even when a more serious offence has occurred the victim may not be aware until some time after the incident. In some cases the victim may not tell anyone what has happened to them.

Drink spiking may constitute an offence under the Offences Against The Persons Act 1861 (Section 22, administering poison to endanger life; and Section 23, administering poison to aggrieve). In 2004–05 a total of six cases were recorded under these Sections of the Act. However it is not possible to easily differentiate between cases of drink spiking and other poisonings. Drink spiking is difficult to prove and is often connected with more serious offences such as sexual assaults. Consequently in many cases the more serious offence will be recorded rather than those offences under Sections 22 and 23 of the Act.

Substitute Teachers

Sammy Wilson: To ask the Secretary of State for Northern Ireland what estimate he has made of the spending by each education and library board in the Province on substitute teachers in each of the last five years. [25771]

Angela E. Smith: The amount spent by each of the education and library boards and grant maintained integrated schools on substitute teachers in the last five years is in the following table.

£

Board area	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
BELB	6,824,662	7,182,863	8,053,759	8,242,900	7,594,513
NEELB	8,247,465	8,891,204	9,851,452	10,064,914	9,328,754
SEELB	7,160,509	7,910,645	8,583,079	9,106,492	8,393,759
SELB	7,922,653	8,719,900	9,110,143	9,617,584	9,650,490
WELB	6,335,935	6,864,352	7,704,919	8,164,700	8,114,576
GMI	1,255,746	1,392,574	1,457,037	1,481,661	1,629,538
Total	37,746,970	40,961,538	44,760,389	46,678,251	44,711,630

Women Sector (Funding)

Mark Durkan: To ask the Secretary of State for Northern Ireland what changes he plans to make to the funding arrangements for the Northern Ireland women'sector. [26685]

Mr. Hanson: The Government has provided initial financial support and established a cross Departmental Review Group to consider longer term support to women's organisations delivering services following the end of previous funding streams in the first financial year.

Following consideration of the report of the review group I extended the short term programme and with ministerial colleagues have set in motion potential longer term support for these organisations. This means that we have been able to provide an additional £1,850,000 in the current financial year to protect these key organisations.

With regard to the future women's centres will have to demonstrate and provide supporting evidence of need for these services and will have to compete with others that may want to deliver the same services, however given the capacity of the centres I am confident that they will continue to serve those in most need for many years to come.

Warm Homes Scheme

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many households received funding from the Warm Homes Scheme in the last 12 months in each district council area in the Province. [24890]

Mr. Hanson: Under the Warm Homes Scheme, eligible applicants are provided with insulation measures. The Warm Homes Plus scheme provides heating and insulation measures for all eligible pensioners.

The information is as follows:

District council	*Number of households in receipt of insulation measures*[1]	*Number of households in receipt of heating measures*[1]
Antrim	160	100
Ards	239	85
Armagh	320	166
Ballymena	236	93
Ballymoney	85	53
Banbridge	224	79
Belfast	1,285	553
Carrickfergus	89	55
Castlereagh	238	105
Coleraine	155	106
Cookstown	308	140
Craigavon	467	217
Derry	628	232
Down	259	139
Dungannon and South Tyrone	370	232
Fermanagh	240	186
Larne	100	50
Limavady	175	74
Lisburn	342	146
Magherafelt	140	86
Moyle	77	46
Newry and Mourne	643	286
Newtownabbey	359	201
North Down	363	131
Omagh	316	120
Strabane	183	90

[1] These columns include those households which received both heating and insulation measures.

Written Answers to Questions

Friday 11 November 2005

CONSTITUTIONAL AFFAIRS

Electoral Registration

Chris Ruane: To ask the Minister of State, Department for Constitutional Affairs what the percentage of electoral registration rate for each local authority in the UK is in descending order; and if she will make a statement. [26409]

John Healey: I have been asked to reply.

The Information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell to Mr. Chris Ruane, dated 11 November 2005:

As National Statistician I have been asked to reply to your question concerning the percentage electoral registration rate in each Local Authority area. (26409)

The Office for National Statistics is not able to calculate percentage electoral registration rates: the resident population aged 18 and over is not the same as the number of people eligible to vote. However, the Office for National Statistics does on occasion publish comparisons of the resident population of voting age (aged 18 and over) and the number of people who are registered to vote. These comparisons provide the closest available approximations to the information you requested.

The tables, which will be placed in the House of Commons Library, give comparisons between the number of registered electors and the estimated mid-2004 population for local authorities in the UK. Table 1 shows a comparison against parliamentary electorate and Table 2 against local/European electorate. Please note Table 1 refers to Great Britain only as Northern Ireland are unable to provide Parliamentary electorates for local authority areas. In order to give an estimate of the number of electors at the mid-year point, 30 June 2003, a weighted average is taken of the 1 December 2002 and 1 December 2003 electoral data.

The local/European electorate gives a better comparison than parliamentary electorate to resident population as EU citizens are included and UK citizens resident abroad are excluded from the local/European electorate. However, a number of other difficulties remain when comparing these sources. For example not everyone who is usually resident is entitled to vote (foreign citizens from outside of the EU and Commonwealth, prisoners, etc. are not eligible) and people who have more than one address may register in more than one place. These factors may have a different impact from place to place.

There is inevitably some double counting of the registered electorate (both parliamentary and local/European) as electoral registration officers vary in how quickly they remove people from the registers after they have moved away from an area or after they have died. This is the main reason some areas show apparent rates in excess of one hundred per cent.

Any comparison of these data with figures for previous years should be made carefully as electoral legislation and other changes (such as EU expansion) can change the size of the electorate.

CULTURE, MEDIA AND SPORT

Departmental Sponsorship

Mrs. May: To ask the Secretary of State for Culture, Media and Sport if she will list guidelines she has issued on how her Department interacts with public bodies sponsored by her Department. [22599]

Tessa Jowell: My Department's relationship with each of its executive non-departmental public bodies is set out in a Management Statement and Financial Memorandum. That standing document is complemented by a funding agreement, for each Spending Review period, that explains how the Department and the sponsored body will work together and what will be delivered with public expenditure during the period.

Apart from those key control documents, the Department has issued the following guidance bearing on how it interacts with its sponsored bodies:

Serving on the Boards of DCMS Public Bodies (April 2005) this sets out, for Board members, the respective roles of the Department and the body's Board and executive;

Guidance on Key Appointments Stages for making a Public Appointment (June 2004) this explains the division of responsibilities between Department and sponsored body during the process of making Board appointments.

Digital Switchover

Mike Penning: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the progress towards digital switchover. [25943]

Tessa Jowell: Good progress continues to be made. The Government has confirmed the regional timetable for the switchover to digital television and announced support schemes to help the most vulnerable households to make the switch.

Digital UK, an independent, not-for-profit company set up by the broadcasters, commercial multiplex operators and involving the supply chain digital switchover has been launched to co-ordinate the implementation of digital switchover and ensure that consumers have timely and accurate information about switchover.

Intellectual Property Forum

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport whether the remit of the Intellectual Property Forum project announced by the Minister for Creative Industries on 16 June includes consideration of the extension of the term for sound copyright. [21579]

Alan Johnson: I have been asked to reply.

The remit of the intellectual property forum project does not include consideration of the extension of the term for sound copyright. This will be considered separately, and how it will be done will be announced shortly.

Olympic Games

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what assessment has been made of the impact of financing the Olympic Games on the amount of lottery money available for sports other than Olympic sports in the years to 2012. [25025]

Tessa Jowell *[holding answer 7 November 2005]:* We have allowed for up to £1.5 billion to be raised from the lottery, some of which will be raised by new lottery games solely for this purpose. We expect the non-Olympic good causes to receive up to 5 per cent. less in income, as a result of sales diversion, over the eight-year period from 2005 to 2013. In addition, up to £410 million will be redirected from the proceeds of non-Olympic lottery games after 2009.

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what costs will be met of those businesses relocating from the Marshgate Lane area to make way for Olympic development; and what criteria will be applied to determine reasonable costs. [25651]

Tessa Jowell: The businesses or parties with an interest in the land to be acquired under a confirmed Compulsory Purchase Order are compensated under the statutory Compensation Code.

They receive the market value of their premises or other land interests. In addition they are entitled to a disturbance payment for either the business' relocation or extinguishment and the reasonable costs of their legal advisors and surveyors. A statutory loss payment can be made to commercial and residential owners/occupiers based on a percentage of market value of their property or interests.

Each party with a compensateable interest is entitled to appoint a chartered surveyor to negotiate the compensation on their behalf with the acquiring authority.

Disputes as to the level of compensation payable are referred to the Lands Tribunal.

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what percentage of the operating profit from the 2012 Olympic Games will go to the British Paralympic Association. [25655]

Tessa Jowell: In accordance with the Host City Contract, any surplus from the 2012 Olympic Games will be divided between the National Olympic Committee (20 per cent.), the International Olympic Committee (20 per cent.), and will be used for the general benefit of sport in the host country as may be determined by the Organising Committee for the Games in consultation with the NOC (60 per cent.). This could include funding for disability or Paralympic sport.

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what plans the Government has for public transport in London to accommodate the increased number of passengers during the London Olympics in 2012. [25866]

Tessa Jowell: The Olympic Park will be extremely well connected, and will be served by 10 railway lines which will collectively carry up to 240,000 passengers an hour into and out of the Olympic Park. During the games, one train every 15 seconds, or 240 trains an hour, will serve the Olympic Park.

Beyond this, there will be significant investment in London's transport infrastructure in the lead up to 2012. This investment will bring improvements to London's roads, buses, rail and underground networks, giving added resilience and reliability to the system. Planned improvements include the new £5.2 billion Channel Tunnel Rail Link between St. Pancras and Stratford which will open in 2007 and will take passengers into the heart of the Olympic zone in under seven minutes, and over £1 billion a year until 2010 invested in the tube resulting in real improvements—including a 45 per cent. increase in Jubilee line capacity.

Also it should be noted that the games will be held at a time when many Londoners take their summer holidays and use of public transport drops significantly as a result.

Olympic Lottery Games

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport what plans her Department has to publicise the new Olympic lottery games. [26476]

Tessa Jowell: Camelot Group plc, the national lottery operator, is responsible for publicising the new Olympic lottery games in line with the terms of its licence. My Department supports this at appropriate opportunities.

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport what discussions her Department has had with the national lottery regarding the new Olympic scratchcard. [26477]

Tessa Jowell: Licensing of specific national lottery games is the responsibility of the National Lottery Commission (NLC). The Department fully supported efforts by the NLC and Camelot Group plc, the national lottery operator, to make the necessary preparations for a prompt launch of the first Olympic lottery game, the Go for Gold scratchcard, as soon as possible after the IOC decision to award the 2012 Games to London.

TV Licences

Mike Penning: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the likely cost of the television licence in the period covered by the next BBC Charter; and if she will make a statement. [21468]

Tessa Jowell: In line with our commitment set out in the Green Paper: A strong BBC, Independent of Government, we are currently conducting a review of BBC funding to determine the future level of the licence fee. We will announce the outcome in due course.

CABINET OFFICE

Criminal Offences

Simon Hughes: To ask the Chancellor of the Duchy of Lancaster if he will list the criminal offences created in legislation sponsored by his Department from May 1997 up to and including April 2005, broken down by Act. [27589]

Mr. Jim Murphy: No offences have been created by primary legislation introduced by the Cabinet Office.

SCOTLAND

Asylum Seekers

Mr. McGovern: To ask the Secretary of State for Scotland what discussions he has had with the Scottish First Minister about the use of dawn raids in asylum cases. [25313]

David Cairns: My right hon. Friend has regular discussions with the First Minister on a range of subjects, including issues which come under the responsibility of the Home Office.

TRADE AND INDUSTRY

Call Centres

Mr. Laws: To ask the Secretary of State for Trade and Industry how many call centres were run by his Department and its agencies in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; and how many and what proportion of calls (i) were handled by an adviser, (ii) were received but abandoned and (iii) received an engaged tone. [23304]

Alan Johnson: The Department of Trade and Industry has one call centre (defined as an operation where 10 or more people work in a structured telephone environment) which was operational in 2003–04, 2004–05 and 2005–2006.

	How many calls handled	*How many calls received but abandoned*	*How many callers received an engaged tone*
2003–04	227,023	27,447	[1]
2004–05	210,455	8,419	[1]
2005–06	165,276	7,665	[1]

[1] Information not available.

Company Accounts

Charles Hendry: To ask the Secretary of State for Trade and Industry what representations he has received on his proposals that a named individual should sign off a company's accounts. [27001]

Alun Michael *[holding answer 10 November 2005]:* This proposal reflects widespread agreement following consultation. The European Commission's draft Audit Directive (latest text 2004/0065(COD)) contains a provision requiring the signature of a named individual auditor on each audit report. The Department consulted on this directive in September 2004 and published the results of the consultation in February 2005 (available on the DTI website at http://www.dti.gov.uk/consultations/consultation-1370.html).

Separately in early 2005, the Audit Quality Forum, which involves UK auditors, their clients and investors, recommended that the lead audit partner should sign his or her own name on each audit report. The March 2005 White Paper "Company Law Reform" contained proposals to this effect, and in July the Department published draft clauses for consultation.

About a dozen consultees commented specifically on this proposal. Most supported it in principle and made suggestions for improvements to clarify the draft clauses. Some of these suggestions have been incorporated in the Company Law Reform Bill that was introduced to Parliament last week.

Departmental Skills Development Plan

Mr. Gibb: To ask the Secretary of State for Trade and Industry if he will place in the Library a copy of his Department's Skills Development Plan. [23861]

Alan Johnson: Copies of the Skills Development Plan for Department of Trade and Industry will be placed in the Libraries of the House.

Doha Trade Talks

John Bercow: To ask the Secretary of State for Trade and Industry what assessment he has made of the prospects for progress in the Doha trade talks. [26974]

Ian Pearson: The Government is committed to achieving an ambitious, pro-development outcome at the WTO Ministerial Conference in Hong Kong in December, which will allow conclusion of the Doha Development Agenda by the end of 2006. While meetings in London and Geneva this week have shown the distance that remains between several WTO Members, there remains a shared commitment to an ambitious result from the round. Hong Kong still has the potential to mark a significant step forward towards an early conclusion of the round.

ECJ Judgment

Mike Penning: To ask the Secretary of State for Trade and Industry if he will make a statement on ECJ case C-127/05, 2005/C 143/26, with particular reference to *(a)* assessed liabilities ensuing for business and *(b)* the principle of proportionality in UK legislation. [16661]

Mrs. McGuire: I have been asked to reply.

The European Commission has brought infraction proceedings against the United Kingdom for allegedly failing to fulfil its obligations under article 5(1) and (4) of Council Directive 89/391/EEC of 12 June 1989 on the introduction of measures to encourage improvements in the safety and health of workers at work (the framework directive on health and safety) in its implementation of these provisions.

The Government have lodged a defence of our implementation of the directive with the European Court of Justice as being in full compliance with our community law obligations.

Literacy and Numeracy

Mr. Gibb: To ask the Secretary of State for Trade and Industry what steps he is taking to promote uptake of the national tests in adult literacy and numeracy among employees of his Department. [23440]

Alan Johnson: The Skills for Life Programme and National Testing information is made available to employees that have identified need. We offer the chance to pursue the Skills for Life Numeracy and Literacy programme at an independent educational establishment such as 'LearnDirect' on day release for employees if they so choose.

Mr. Gibb: To ask the Secretary of State for Trade and Industry what proportion of new recruits to his Department do not have a level 2 qualification in English and mathematics. [23769]

Alan Johnson: Recruitment to my Department is competence based and there may not be a specific requirement for new recruits to hold a particular type of qualification. This type of data is not therefore collected centrally and could be obtained only at disproportionate cost.

Mr. Gibb: To ask the Secretary of State for Trade and Industry what methods of assessment of *(a)* literacy and *(b)* numeracy skills are used as part of the recruitment process by employees of his Department. [23793]

Alan Johnson: Recruitment to my Department is competency based. Where literacy and numeracy skills are required, processes are in place to assess these skills through the application process. These include verification of formal qualifications, skills based questions and skills based tasks.

Mobile Communications

Mr. Mark Field: To ask the Secretary of State for Trade and Industry if he will assess the contribution to the City of London's productivity of mobile communications; and if he will make a statement. [27262]

Alun Michael: I have no information for the City of London that would allow the assessment of the contribution mobile communications has made to its productivity. The mobile network operator, O2 commissioned a study from the Centre for Economic and Business Research in July 2004 to assess how the contribution of mobile phones to the UK economy was likely to change over the next 10 years. A final report on the regional contribution of mobile communications, provided figures broken down by region. For the South East it found that mobile communications contributes 3.23 per cent. of GDP, which is £1,573 per household per year. It also found that mobile communications accounts for 1.15 per cent. of all jobs in the South East.

We have no plans to undertake a further assessment specific to the City of London.

The mobile phone sector contributes to both the UK GDP and Government finances. According to research by the Centre for Economic and Business Research (CEBR), mobile contributed £22.9 billion to UK GDP in 2003, 2.3 per cent. of total GDP. Mobile network operator, O2 commissioned a study from CEBR in July 2004 that assessed how the contribution of mobile phones to the UK economy was likely to change over the next 10 years. The report shows how the mobile phone sector now contributes as much to GDP as the total oil and gas extraction industry.

The research shows that the mobile sector is making a major contribution to national productivity both through sustaining a high level of productivity in the sector itself and through enabling higher productivity in the rest of the economy but no specific figures are available specifically for the City of London, although the City probably has the highest concentration of mobile telecommunications use in the country.

Work and Families Bill

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what discussions he has had with the Secretary of State for Education and Skills concerning the Work and Families Bill. [25094]

Mr. Sutcliffe: My right hon. Friend the Secretary of State regularly speaks to my right hon. Friend the Secretary of State for Education and Skills on a variety of subjects. There have been no specific meetings to discuss the Work and Families Bill.

TREASURY

Birth Rates

Rosie Cooper: To ask the Chancellor of the Exchequer how many births there were to women resident in the Cheshire and Merseyside Strategic Health Authority area at *(a)* individual maternity hospitals, *(b)* midwife-led units, *(c)* home and *(d)* other locations in each year since 2000. [26373]

Mr. Ivan Lewis: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell to Rosie Cooper, dated 11 November 2005:

As National Statistician, I have been asked to reply to your request for the number of births to women resident in the Cheshire and Merseyside Strategic Health Authority at *(a)* individual maternity hospitals, *(b)* midwife-led units, *(c)* home and *(d)* other locations in each year since 2000. (26373)

The table below relates to babies born in England and Wales to women usually resident in the Cheshire and Merseyside Strategic Health Authority area at the time of the birth. Figures are presented for categories *(a)* and *(b)* combined, *(c)* and *(d)*. Information is not available centrally on which of these institutions are mid-wife led units, so these are not listed separately.

Hospitals where more than 30 live births took place over the period 2000 to 2004 have been shown individually; the remaining ones have been aggregated in the 'Other hospitals' sub-total. Births in the 'Elsewhere' category are mainly those occurring on the way to hospital or at a private residence which is not that of the mother.

Live births by place of occurrence for women resident in Cheshire and Merseyside SHA area 2000–04

Place of occurrence	Year of occurrence 2000	2001	2002	2003	2004
(a) and (b) Maternity hospital/unit					
Liverpool Women's Hospital	5,894	5,793	5,808	6,111	7,674
Arrowe Park Hospital	3,158	3,076	3,012	3,252	3,273
Warrington Hospital	3,055	2,828	2,871	2,948	3,015
Whiston Hospital	2,696	2,549	2,424	2,548	2,730
Leighton Hospital	2,365	2,513	2,351	2,490	2,646
Countess of Chester Hospital	2,371	2,371	2,349	2,388	2,495
Macclesfield District General	1,422	1,367	1,387	1,431	1,525
Ormskirk District General Hospital	167	177	184	733	1,328
Fazakerley Hospital	2,565	2,252	2,228	2,189	322
Wythenshawe Hospital	220	227	220	238	213
Stepping Hill Hospital	152	137	114	106	137
Christiana Hartley Maternity Hospital, Southport	909	894	876	420	134
Billinge Hospital	260	249	235	249	132
Royal Albert Edward Infirmary, Wigan	0	0	0	0	83
North Staffordshire Maternity Hospital	92	85	82	77	82
St. Marys Hospital, Whitworth Park	48	58	56	60	68
Ysbyty Maelor, Wrexham	26	31	38	43	26
Hope Hospital	13	23	15	20	18
Trafford General Hospital	16	25	16	19	14
Other hospitals[1]	53	60	52	64	67
(c) At home	252	217	254	266	299
(d) Elsewhere	23	26	30	38	30
Total	25,734	24,932	24,572	25,652	26,281

[1] There were 115 hospitals/units in the 'Other' category where there was at least one birth in the period 2000 to 2004.

Duty Free Allowance

Mr. Amess: To ask the Chancellor of the Exchequer how many *(a)* men and *(b)* women were (i) charged with and (ii) convicted of carrying goods above the duty free allowance in each of the last 10 years for which figures are available. [26361]

John Healey: HMRC records do not differentiate between criminal offences concerned with duty-free and duty-paid goods, nor do they distinguish between men and women. However, the consolidated figures for all prosecutions for smuggling of alcohol or tobacco for the years between 1993 and 2000 are:

	Number
1993–94	44
1994–95	515
1995–96	438
1996–97	502
1997–98	531
1998–99	575
1999–2000	645
2000–01[1,2]	884
2001–02[1,2]	431
2002–03[2]	429
2003–04[2]	484

[1] Figures relate to those sentenced for tobacco offence only.
[2] Figures include those sentenced or convicted for fraudulent evasion as well as those guilty of smuggling.

The figures for 2004–05 will be published later this year in the HMRC Annual Report.

Mr. Amess: To ask the Chancellor of the Exchequer how many items confiscated by customs officers as a result of the driver carrying goods above the duty free allowance are disposed of; and if he will make a statement. [26363]

John Healey: Vehicles seized by HM Revenue and Customs when the duty-free allowances are exceeded (or when alcohol and tobacco products are seized from travellers from elsewhere in the European Community) are either sold or, if in poor condition, scrapped in accordance with current environmental requirements. The proceeds from sale are passed to the Treasury. Confiscated alcohol is separated out from packaging and converted into fertilizer or animal feed. Tobacco is shredded and converted into fuel pellets.

Wherever possible, all packaging is recycled.

EC Directives

Mr. Spring: To ask the Chancellor of the Exchequer (1) what discussions he has had with HM Revenue and Customs concerning policy changes for the repayment of VAT under the 8th and 13th EC directives; [27003]

(2) what assessment he has made of the impact on *(a)* inward investment into the UK and *(b)* the UK hotel industry of changes to VAT collection under the 8th and 13th EC directives; [27004]

(3) if he will make a statement on the proposed policy changes for repayment under the 8th and 13th EC directives that will come into effect on 1 January 2006; and what assessment his Department has made of the likely effects of these changes on *(a)* UK companies and *(b)* non-EU companies. [27053]

Dawn Primarolo: HM Revenue and Customs (HMRC) have been receiving an increasing number of claims for repayment of VAT under the 8th and 13th EC VAT Directives which have not been supported by all the required documentation, including valid VAT invoices. HMRC have found that the previous controls for dealing with such claims are not sufficiently robust and are being abused. HMRC have therefore decided that they must tighten their procedures and have recently reminded businesses that claims must be supported by all the required documentation, and about what details a valid VAT invoice must contain. These rules apply equally to all businesses and are no different to the rules that apply domestically for businesses seeking to recover VAT incurred on their purchases.

Film Industry

Adam Afriyie: To ask the Chancellor of the Exchequer what assessment he has made of the impact of the Government's tax policy on film production in England. [26341]

Mike Penning: To ask the Chancellor of the Exchequer what assessment he has made of the impact of the Government's tax policy on film production; and if he will make a statement. [25970]

Dawn Primarolo: The Government recognises the cultural and economic contribution that the film industry makes and the role that tax incentives play in encouraging the production of culturally British films. The Government launched a consultation, "Reform of

Film Tax Incentives" in July 2005, which closed in October 2005. The responses that we received are being carefully considered.

Inland Revenue/Customs and Excise

Adam Afriyie: To ask the Chancellor of the Exchequer if he will make a statement on progress with the merger of the Inland Revenue and HM Customs and Excise. [26340]

Dawn Primarolo: I refer the hon. Gentlemen to my answer on 24 October 2005, *Official Report*, column 54W to the hon. Member for Hemel Hempstead (Mike Penning).

IT Projects

Dr. Cable: To ask the Chancellor of the Exchequer what assessment he has made of the spare capacity in the Inland Revenue's computer systems. [26596]

Dawn Primarolo: As part of the normal course of their business both former Departments (Inland Revenue and HM Customs and Excise) together with their IT Partners conducted on-going reviews of their IT systems' capacity. These reviews have continued following the integration of the two Departments in April 2005 to create HMRC. HMRC is using the opportunity of the integration to conduct a widespread review of the capacity of the IT systems, to identify opportunities for rationalisation and efficiency savings; taking into account past trends and known future work.

Dr. Cable: To ask the Chancellor of the Exchequer how many of the IT projects costing over £1 million in use in his Department and introduced since 1997 have been scrutinised by the Public Accounts Committee; and if he will list them. [26598]

John Healey: None of the following IT projects costing over £1 million is believed to have been scrutinised by the PAC (Public Accounts Committee). The projects are:

Delivery (past and imminent)	*Projects*
2001	Updating the Treasury's desktop to incorporate MS Windows and Office 2000 products (includes: Oasis Build 6 implementation)
2001	Provision of IT services in support of HMT Business Continuity Plan (BCP)
2002	Move and provision of new IT facilities in new HMT building, 1 Horse Guards Road
2005	Integration of three government financial data systems to form a single data system in HMT. "COINS"
2005	Enhancing document and records management in HM Treasury. "Jigsaw"

Dr. Cable: To ask the Chancellor of the Exchequer how many IT projects which cost over £1 million and were introduced since 1997 are in use in his Department. [26599]

John Healey: Five IT projects which cost over £1 million have been undertaken by the Treasury since 1997; three are IT systems software and two provide IT service infrastructure. All five are still in use.

Pensions

Mr. Newmark: To ask the Chancellor of the Exchequer what the public sector pension deficit is if calculated using a discount rate based on index linked gilts; and what rate was used for the calculation. [26224]

Stephen Hammond: To ask the Chancellor of the Exchequer (1) pursuant to the Answer of 10 October 2005, *Official Report*, column 36W on pensions, what discount rate was used to calculate the deficit; what the estimate of the deficit would be if a discount rate of 2.5 per cent. were used; and what assumptions underlay the calculation of the deficit with particular reference to life expectancy; [27117]

(2) pursuant to the Answer of 10 October 2005, *Official Report*, column 360W, on pensions, what the public sector pension deficit would be if the discount rate used was equivalent to that of a 25-year gilt. [27118]

Mr. Des Browne: The deficits and surpluses of funded statutory public service pension schemes such as the local government pension scheme, and those of funded pension schemes in the wider public sector, are not calculated centrally. Discount rates within the range specified by FRS 17 will be used for their individual accounts according to the circumstances of the scheme. To recalculate the liabilities of individual funds would involve disproportionate costs.

Most public service pensions schemes are unfunded and funding deficits do not arise. However, information on the liabilities of unfunded schemes is collected and held centrally. The total liabilities of unfunded pension schemes as at 31 March 2004 are estimated to be £460 billion.

This figure is based largely on pension scheme resource accounts for 2003–04, which used a discount rate of 3.5 per cent. real for that year. Assumptions used were consistent with those the latest actuarial analysis of each scheme's experience. Significant allowance was made for future improvement in mortality, drawing on national population projections and mortality studies undertaken by the actuarial profession.

Government do not as a matter of course re-calculate liabilities published in audited accounts to show what they would have been had discounting assumptions been different from those that were in fact used. However, for the purposes of this question, based on the information held on the liabilities of unfunded public service schemes, the Government Actuary's Department have estimated:

(a) Using a discount rate of 2.5 per cent. per annum net of price inflation, the total liabilities of unfunded schemes would have been around £560 billion as at 31 March 2004.

(b) Using a discount rate of 1.9 per cent. per annum net of price inflation, which was the market yield on the FTSE index of longer-dated index linked gilts as at 31 March 2004, the total liabilities of unfunded public service schemes would have been around £630 billion as at 31 March 2004.

(c) Using a discount rate of 1.7 per cent. per annum net of price inflation, the yield published by the Debt Management Office for the index-linked gilt in issue on 31 March 2004 with duration to redemption closest to 25 years, the total liabilities of unfunded schemes would have been around £650 billion as at 31 March 2004.

The discount rate used to express the net present value of public service pension liabilities does not affect future government cash expenditure on pension payments to former public servants and their dependants.

Projections of cash expenditure on unfunded public service pensions as a proportion of GDP are published alongside the pre-Budget report in the Long-term Public Finance Report as part of Government strategy to monitor the long-term sustainability of public expenditure.

PFI Contracts

Mr. Newmark: To ask the Chancellor of the Exchequer if he will list private finance initiative (PFI) contracts which were originally off-balance sheet, but which the Government has taken on-balance sheet at a later date; and how much new public debt each contract represents. [26228]

John Healey: The specific balance sheet treatment of private finance initiative contracts is not determined by the Government, but through the application of established independent accounting standards by the respective independent audit bodies for the public authority—the National Audit Office, the Audit Commission or the audit bodies of the devolved administrations. The balance sheet treatment of private finance initiative contracts, including any changes, is reflected in the audited accounts of the procuring authority.

Public Service Pensions

Mr. Willetts: To ask the Chancellor of the Exchequer what estimate he has made of the projected savings over the next 50 years from *(a)* the December 2004 proposed reforms of public service pensions and *(b)* the revised proposals for public service pensions announced on 18 October. [27050]

Mr. Des Browne: I refer the hon. Member to my answer to the hon. Member for Yeovil on 25 October 2005, *Official Report*, columns 313–14W.

Shellfishing (Morecambe Bay)

Geraldine Smith: To ask the Chancellor of the Exchequer what the tax revenue was from shellfishing in Morecambe Bay in each year since 2000–01. [27396]

Dawn Primarolo: Statistical information on tax revenue at this level of detail is not available.

Tax Credits

Mr. Frank Field: To ask the Chancellor of the Exchequer which specialist teams working on complicated tax credit cases at the Tax Credit Office, were referred to in correspondence of 4 October between the Tax Credit Office and the hon. Member for Birkenhead regarding the tax credits of his constituent of Corporation Road, Birkenhead; and what the size of each is. [21147]

Dawn Primarolo *[holding answer 24 October 2005]:* The specialist team referred to in the Tax Credit Office's letter to the right hon. Gentleman is a technical advice team. Team members provide technical advice and support to TCO staff. The team consists of around 12 full-time equivalent staff.

Valuation Office Agency

Mrs. Spelman: To ask the Chancellor of the Exchequer how many full-time equivalent staff were employed by the Valuation Office Agency in each year since 1997; and what the estimated established staff for *(a)* 2005–06 and *(b)* 2006–07 is. [26931]

Dawn Primarolo: The numbers of full-time equivalent staff, employed by the Valuation Office Agency, in each year since 1997, are shown in the table. Staff numbers rose to a peak of 5,416 in August 2005 to support the council tax revaluation. The estimate of established staff for *(a)* 2005 to 2006 is 4,800 and although the final figure is yet to be determined for *(b)* 2006 to 2007 it is expected to be approximately 4,300.

	Number of staff
1996–97	4,563
1997–98	4,346
1998–99	4,063
1999–2000	4,016
2000–01	3,948
2001–02	3,814
2002–03	3,843
2003–04	4,436
2004–05	4,955

Mrs. Spelman: To ask the Chancellor of the Exchequer how much the Valuation Office Agency has spent in total on its computer assisted mass appraisal system. [26932]

Dawn Primarolo: Approximately £10 million has been spent on procuring and developing the automated valuation model, which is a key component of a computer assisted mass appraisal (CAMA) system.

Mrs. Spelman: To ask the Chancellor of the Exchequer what powers *(a)* staff and *(b)* contractors of the Valuation Office Agency have to forcibly inspect a property for a council tax valuation in circumstances where the resident refuses entry to the (i) inside of the premises and (ii) land surrounding the property. [26933]

Dawn Primarolo: None.

Vehicle Excise Duty

Mr. Amess: To ask the Chancellor of the Exchequer what the cost of the vehicle excise duty was in each year since 1976. [26295]

John Healey: DVLA publish a leaflet (V149) each year detailing current vehicle excise duty rates. I have arranged for copies of these leaflets going back to 1976 to be placed in the Library of the House.

TRANSPORT

A Road Improvements

Gregory Barker: To ask the Secretary of State for Transport how much his Department has spent on improvements to A roads in the UK since 1997; and if he will list the transport budgets for each region for 2005–06. [27686]

Dr. Ladyman: The Department does not retain records of how much the Highways Agency or local authorities have spent specifically on 'A' roads in the UK since 1992.

Our allocations for local transport capital investment for 2005–06 to regions (excluding London) are set out in the following table. This covers expenditure on local authority major transport schemes, integrated transport block and local road capital maintenance funding.

2005–06: Local authority

£ million

Region	*Major schemes*[1]	*Integrated transport block allocation*[2]	*Local road capital maintenance*
Eastern	33,999	64,950	91,119
South West	32,315	57,815	107,685
East Midlands	18,102	47,100	65,178
Yorkshire and the Humber	49,921	79,635	76,588
West Midlands	62,271	72,600	82,105
North West	26,653	112,848	88,144
North East	27,989	33,400	44,170
South East	51,661	84,580	105,008

[1] Schemes costing more than £5 million which have been fully approved for funding.
[2] Improvement schemes costing less than £5 million.

A21 Upgrade

Gregory Barker: To ask the Secretary of State for Transport what plans he has to consult people in East Sussex affected by the proposed A21 upgrade. [27687]

Dr. Ladyman: Public consultation on the proposed upgrade of the A21 from Pembury to Hastings was carried out in 2002–03. The consultation included specific proposals for the Flimwell to Robertsbridge section. The Highways Agency and East Sussex county council held further consultation during February/March 2004 for the A21 Baldslow Link at Hastings, which included proposals for the Bexhill to Hastings Link Road. There are no immediate plans to carry out public consultation on specific proposals for the section between Robertsbridge and Baldslow.

Air Links

Andrew Rosindell: To ask the Secretary of State for Transport what plans there are to improve air links in the South West of England. [26460]

Ms Buck: The Air Transport White Paper supports the growth of regional airports to serve local and regional demand, and includes a range of measures designed to facilitate their development.

Airports throughout the South West are engaging with airlines with a view to building on the significant increase in scheduled services from the region that has taken place in recent years.

Banned Aircraft

Andrew Rosindell: To ask the Secretary of State for Transport what types of aircraft used by civilian airlines are banned from UK airspace. [26449]

Ms Buck: There are no aircraft types currently banned from UK airspace.

Any airline from outside the EU, Iceland, Norway or Switzerland which wishes to pick up or put down passengers or cargo in the UK requires a permit from the Secretary of State for Transport. It is a condition of the permit that the airline's aircraft should be operated in accordance with international safety standards. Any individual aircraft that does not meet those standards would be refused a permit.

In addition, it is a condition of the permit that aircraft meet the environmental standards in Annex 16 to the Chicago Convention. Aircraft unable to meet the current ICAO noise certification requirements (Chapter 3 of Annex 16, Volume 1 or better) are not permitted unless there are exceptional circumstances.

Channel Tunnel

Mrs. Dunwoody: To ask the Secretary of State for Transport (1) if he is satisfied that the Channel Tunnel Safety Authority has a sufficient number of qualified safety experts among its managerial staff; [24084]

(2) how many safety experts were employed by the Channel Tunnel Safety Authority in *(a)* 2001, *(b)* 2002, *(c)* 2003 and *(d)* 2004. [24085]

Derek Twigg: The Channel Tunnel Safety Authority (CTSA) is not a body that directly employs safety experts. It has, however, access to safety experts employed by the Health and Safety Executive and the Kent Fire and Rescue Service, some of whom spend a significant proportion of their time on CTSA work, and from similar organisations in France.

It also has access to safety expertise in other British and French organisations. The Channel Tunnel Safety Authority's Annual Report indicates the bodies that have provided advice during the year covered by the report.

The time spent by safety experts on CTSA work in any year will depend on the needs of the Authority for advice and assistance in that year. I am satisfied that the CTSA has adequate access to qualified safety experts.

Mrs. Dunwoody: To ask the Secretary of State for Transport what the results were of bi-national exercises to test emergency procedures held on *(a)* 15 April 2004 at Folkestone Fire Station (UK COMEX), *(b)* 30 June 2004 on the French side of service tunnel (VALEX) and *(c)* 19 September 2004 in the UK led annual exercise BINAT 15; and if he will place reports of these results in the Library. [24089]

Derek Twigg: The results of these exercises, which are to test emergency procedures, are summarised in the Channel Tunnel Safety Authority Annual Report 2004–05 at paragraph 53. Given that the full reports, which are agreed between the French and British emergency response organisations and Eurotunnel, detail the preparedness of the organisations concerned in respect of emergency situations including those arising from terrorist attack, it is not proposed to make them public.

Mrs. Dunwoody: To ask the Secretary of State for Transport (1) what assessment he has made of whether the reliability rate of the crossover doors in the channel tunnel is at levels deemed reasonable by the Channel Tunnel Safety Authority; [24090]

(2) if he will make a statement on the instances of the monthly target failure rate of 5 per cent. of crossover doors in the channel tunnel being exceeded. [24091]

Derek Twigg: In the year from 1 April 2004 to 31 March 2005, the reliability rates of the crossover doors have been better than the figure regarded as acceptable by the Channel Tunnel Safety Authority (a 5 per cent. probability that the doors would fail when required to operate). The failure rates have been, on average, lower than this, at 3.7 per cent. on the UK side and 4.7 per cent. on the French side of the tunnel. A programme of modification of the doors, which is under way, is leading to a further improvement in the situation.

The Channel Tunnel Safety Authority's Annual Report for 2004–05 notes that there have been occasions when the target monthly failure rate has been exceeded, but points out the limited number of operations and the fact that overall, the failure rate is lower than the target and is decreasing.

Crossrail (Train Running Times)

Adam Afriyie: To ask the Secretary of State for Transport if he will estimate the running times of trains from Twyford, Maidenhead and Slough to Paddington before and after the Crossrail construction. [23121]

Derek Twigg: The following estimated table describes journey times to Paddington. Many passengers who travel beyond Paddington will have shorter overall journey times as Crossrail will run directly to central London interchange stations avoiding the need for some people to change trains at all, and providing others with alternative interchange opportunities.

	Twyford	*Maidenhead*	*Slough*
Current services			
Average journey time (mins)	47	38	26.5
Services after Crossrail opens			
Crossrail normal times (mins)	[1]—	40	31
Residual slow line services average (mins)	[2]40	[2]32	[2]24

[1] Crossrail does not run as far as Twyford

[2] The residual services are planned to be complementary to Crossrail services and also run on the slow lines. The figures exclude services that, as at present, operate on the fast lines. A comparison including fast line services cannot be made at this stage not least because of the current franchise-letting process for the Great Western line.

Cycling

Mr. George Howarth: To ask the Secretary of State for Transport if he will assess the effectiveness of the cycling demonstration towns. [26522]

Derek Twigg: The Department is working closely with our expert advisory body, Cycling England, to agree a robust monitoring framework in each of the six cycling demonstration towns.

In partnership with Department of Health, we are investigating how we can fully measure the resulting health benefits of increasing cycling levels in these towns.

A finalised monitoring programme will be agreed with each cycling town by 31 March 2006.

Mr. George Howarth: To ask the Secretary of State for Transport what discussions have taken place with cyclists on the making of public transport accessible to those using bicycles. [26528]

Derek Twigg: My predecessor, the hon. Member for Staffordshire Moorlands (Charlotte Atkins) met with the CTC (Cyclist Touring Club) in December 2004 and discussed a range of cycling issues including bike and rail; and I was delighted to present the Association of Train Operating Companies Rail Cycle Awards on 8 November which recognises integrated bike and rail innovations.

In August 2004 the Department and the Countryside Agency published "Bike and Rail: a good practice guide" highlighting good practice and encouraging a partnership approach between train operators, local authorities and cycle groups. The Strategic Rail Authority published their Cycling Policy in November last year. Copies of both these publications have been placed in the Libraries of the House.

Foreign Lorries (Road Wear)

Mr. Duncan: To ask the Secretary of State for Transport what estimates his Department has made of the cost of road wear by foreign lorries operating in England; and if he will make a statement. [27524]

Mr. Darling: The Department has not made an estimate of this cost in recent years.

Light Rail Schemes

Mr. Duncan: To ask the Secretary of State for Transport what the usage figures have been for each light rail scheme currently in operation in each year since they commenced operation. [27505]

Mr. Darling: The following tables show the figures requested.

Passenger journeys per year for modern light rail systems in England

Million

System	*1985*	*1986*	*1987*	*1988*	*1989*	*1990*	*1991*	*1992*	*1993*	*1994*

Nottingham Tram	—	—	—	—	—	—	—	—	0.4	8.5

M3 (Junctions 6 and 7)

Mrs. Maria Miller: To ask the Secretary of State for Transport what assessment he has made of the need to increase vehicle capacity of junctions 6 and 7 of the M3. [27503]

Dr. Ladyman: As part of their ongoing Local Plan Review process, Basingstoke and Deane borough council assessed the capacity of the M3 in the Basingstoke area, including junctions 6 and 7. This assessment was discussed with Hampshire county council and the Highways Agency. Agreement was reached in principle on the need to accommodate traffic resulting from the Local Plan proposals by a combination of management measures and capacity increases.

The Highways Agency will review the situation when the outcome of the Local Plan Review becomes clearer.

Quiet Tyres

Mr. Paul Goodman: To ask the Secretary of State for Transport when directive 2001/43/EC on quiet tyres will be transposed into UK law. [27587]

Dr. Ladyman: The directive was transposed into UK law by Statutory Instrument 2002 No. 1835, made on 12 July 2002.

Railways

Mrs. Dunwoody: To ask the Secretary of State for Transport what the average percentage change in annual rail fares over the previous year was in each year between 1997 and 2004; and if he will make a statement. [26945]

Derek Twigg: Regulated fares were limited to an average annual increase equal to inflation until 1998, 1 per cent. less than inflation from 1999 until 2003, and by 1 per cent. above inflation from 2004 onwards. Information on both regulated and unregulated fares levels is collated by the Office of Rail Regulation and published in their publication "National Rail Trends".

Mr. Hollobone: To ask the Secretary of State for Transport what assessment he has made of the effectiveness of *(a)* Network Rail and *(b)* the British Transport Police in preventing trespassing onto railway lines (i) in England and (ii) in the Kettering constituency; and what further steps are planned. [23189]

Derek Twigg: No assessments have been made by the Secretary of State. The primary responsibility for preventing trespass on the national rail network lies with Network Rail, who work closely with the British Transport Police, others in the rail industry and the wider community.

Network Rail will write directly to my hon. Friend about work to prevent trespassing on the network in Kettering.

Mrs. Dunwoody: To ask the Secretary of State for Transport what elements of the European Railway Safety Directive (2004/49/EC) remain to be implemented by the Channel Tunnel Safety Authority. [24083]

Derek Twigg: The requirements of the European Railway Safety Directive (2004/49/EC) on the independent investigation of accidents and incidents, including their application to the UK section of the Channel Tunnel, have been transposed in the UK by The Railways (Accident Investigation and Reporting) Regulations 2005.

The remaining elements of the Directive cover the development and management of safety, safety certification of railway undertakings and safety authorisation of infrastructure managers, and the appointment and functions of Safety Authorities. These are being transposed to the Channel Tunnel by a binational Regulation of the Channel Tunnel Intergovernmental Commission (which will be given effect in the UK by Statutory Instrument). The Intergovernmental Commission aims to complete its transposition by the Directive's deadline of 30 April 2006.

Gregory Barker: To ask the Secretary of State for Transport (1) what assessment he has made of the implications for safety of over-crowding on trains along *(a)* the Hastings to London Victoria and *(b)* Brighton to London Victoria lines; and what steps he plans to take to reduce the impact of overcrowding on train services; [25437]

(2) what estimate he has made of the volume of passengers using peak time train services along the *(a)* Brighton to London Victoria and *(b)* Hastings to London Victoria line in 2004–05; and if he will make a statement; [25441]

(3) what assessment he has made of the over-crowding on trains along *(a)* the Hastings to London Victoria and *(b)* Brighton to London Victoria lines; and if he will make a statement. [25472]

Derek Twigg *[holding answer 7 November 2005]:* Crowding on all London passenger services, including between Hastings-London Victoria and Brighton-London Victoria are measured against Passengers in Excess of Capacity Rules (PIXC) rules. This is against the number of seats on longer-distance services and against total capacity (seats plus, standing) for services where the first stop where passengers alight (or last stop where passengers [illegible]) is not more than 20 minutes from the terminal station. This allows for the scheduled stops within the 20 minute threshold at Clapham Junction and East Croydon in both directions.

The latest available count data (2004) show that all morning and evening peak Brighton to Victoria and Hastings to Victoria services are within their official passenger capacities, except for the 1632 Victoria to Brighton service. The Train Operating Company has allocated less carriages to the 1632 Victoria to Brighton train in order to provide longer trains to meet the greater passenger demand in the high peak period after 1700. However, an alternative service between Victoria and Brighton is scheduled shortly after this service at 1636, and this does provide spare capacity.

Ultimately the responsibility for the day-to-day safety and welfare of passengers using the railway rests with the Train Operating Companies. Focus is being given to improve timetabling, infrastructure maintenance and renewals and other factors that can impact on reliable delivery of train services, which will in turn impact on crowding levels.

Mr. George Howarth: To ask the Secretary of State for Transport what procedures are in place to assess the level of investment required in the infrastructure of the railways to ensure its safe operation against the commercial requirements of those operating the franchises. [26515]

Derek Twigg: Under the Health and Safety at Work Act etc 1974 it is for Network Rail and the train operators to ensure that they operate their undertakings to reduce risks "so far as is reasonably practicable" and to ensure that safety benefits are taker into account in their investment plans. The Health and Safety Executive is responsible for ensuring that train operators comply with appropriate health and safety law.

Road Accidents

Mr. Kidney: To ask the Secretary of State for Transport what research he has *(a)* commissioned and *(b)* evaluated on the effect on the number of additional deaths and serious injuries on roads each year of turning back the clocks in October. [27094]

Dr. Ladyman: I refer my hon. Friend to my answer of 9 November 2005, *Official Report*, column 514W.

Road Resurfacing

Mr. Drew: To ask the Secretary of State for Transport what assessment he has made of the use of stone mastic asphalt materials for road resurfacing; and if he will make a statement. [28029]

Dr. Ladyman: The use of stone mastic asphalt materials (SMA) for road resurfacing was assessed by the Highways Agency in the 1990s. As a result of concern regarding the loss of surface texture required for high-speed skid resistance, its use was prohibited as a surfacing on trunk roads including motorways in England. Proprietary materials based on SMA, known as 'thin surfacings', have been developed to address the surface texture concern and these are now widely used on the trunk road and motorway network. The Department, on behalf of the UK Roads Board has commissioned best practice guidance for local authorities on how and where thin surfacings and SMA can be applied. The results of this research will be available early next year.

Train and Bus Services

Sammy Wilson: To ask the Secretary of State for Transport what the average frequency of *(a)* train and *(b)* bus services in England was in the most recent year for which figures are available. [25652]

Ms Buck: Data are not available in the form requested.

The National Travel Survey asks respondents about the frequency of services from their nearest railway station and their nearest bus stop. Results for households in England in 2004 are given in the table.

Frequency of train and bus services from nearest railway station or bus stop—England, 2004

	Percentage of households
Frequency of train service	
Frequent services[1] throughout the day	88
Frequent services[1] only during rush hours	5
Less frequent service	7
Frequency of bus service	
At least one every quarter of an hour	37
At least one ever half hour (but less than one every quarter of an hour)	37
At least one an hour (but less than one every half hour)	19
At least one a day (but less than one an hour)	6
Less than one a day	1

[1] Frequent services are defined as at least one train per hour.

WORK AND PENSIONS

Asbestos Contractors

Mr. Nicholas Brown: To ask the Secretary of State for Work and Pensions how many licensed asbestos contractors have had their licences revoked in each year since 2000. [23577]

Mrs. McGuire: Since 2000 one licensed asbestos contractor has had their licence revoked. The revocation took place in February 2005.

Although only one licence has been revoked since 2000, revocation proceedings have been initiated on several occasions. The revocation process was not concluded previously as the licences expired before the revocation decision was reached and the applicants either did not reapply for a licence or their licence renewal application was refused.

Mr. Nicholas Brown: To ask the Secretary of State for Work and Pensions how many field inspectors employed by the Health and Safety Executive are *(a)* trained, *(b)* equipped and *(c)* authorised to inspect on-site enclosures during asbestos removal work. [23578]

Mrs. McGuire: As at 28 October 2005, 40 personnel employed by the Health and Safety Executive (HSE) and Health and Safety Laboratory (i.e. inspectors, specialists and scientists) are trained, equipped and authorised to inspect and enter live asbestos enclosures during asbestos removal work. Of these 40, 33 are general and specialist field inspectors, and seven are scientific personnel.

The majority of asbestos work is inspected by operational inspectors in the Construction Division (CD) of HSE's Field Operations Directorate. Most inspections do not require enclosure entry as the work activity can be observed through viewing panels incorporated into the structure of the enclosure. The majority of CD's 124 operational inspectors have been trained to inspect asbestos removal work without entering enclosures. Of these 124, 18 are currently nominated, trained, equipped and authorised to enter enclosures, but only when necessary to secure compliance or collect evidence.

Mr. Nicholas Brown: To ask the Secretary of State for Work and Pensions how many premises the Health and Safety Executive estimates will be covered by the requirements in the Management of Asbestos in Building Regulations. [23579]

Mrs. McGuire: Regulation 4 of the Control of Asbestos at Work Regulations 2002 places duties on those responsible for maintenance and repair of non-domestic premises to manage the risk from any asbestos in those premises.

The Health and Safety Executive estimates that 500,000 commercial, industrial and public buildings, plus the common areas of some 4 million rented residential premises, are likely to contain asbestos.

Mr. Nicholas Brown: To ask the Secretary of State for Work and Pensions how many licensed asbestos contractors have had enforcement action taken against them for dry stripping in each year since 2000. [23583]

Mrs. McGuire: Due to the way in which this information is stored, it is not possible to identify easily the enforcement action for uncontrolled dry stripping taken against licensed asbestos contractors. The following table indicates the level of enforcement activity since 2000 against licensed contractors and the number of occasions uncontrolled dry stripping was identified as a matter of concern by inspectors. The Health and Safety Executive's policy is to consider enforcement action when uncontrolled dry stripping is encountered. As such, either prohibition notices, or consideration of prosecution, would have occurred in the majority of these occasions.

	Notices	*Prosecutions*	*Uncontrolled dry stripping incidents*
2004-05	40	5	8
2003-04	57	6	5
2002-03	63	6	9
2001-02	40	7	2
2000-01	40	5	10

Mr. Nicholas Brown: To ask the Secretary of State for Work and Pensions what steps the Health and Safety Executive has taken to ensure that client organisations understand the requirement to wet strip asbestos-containing materials. [23585]

Mrs. McGuire: The Health and Safety Executive (HSE) has provided guidance to client organisations on the need for wet stripping of asbestos-containing materials in its 2002 publication 'A comprehensive guide to Managing Asbestos in premises' (HSG 227)—ISBN 0717623815, which is available in the Library.

This guidance, together with other advice for clients, is promoted through HSE's on-going asbestos campaign.

Mr. Nicholas Brown: To ask the Secretary of State for Work and Pensions what steps the Health and Safety Executive has taken to ensure that licensed asbestos contractors *(a)* understand and *(b)* comply with the requirement to wet strip asbestos-containing materials. [23586]

Mrs. McGuire: Before contractors are granted a licence to work with asbestos, they must demonstrate to the Health and Safety Executive (HSE) that they have sound knowledge of the relevant legislation and related guidance and that they have the necessary competence to do the work safely, so that the health of their employees, or others who may be affected by the work, is not endangered. The applicant's knowledge includes their having an understanding of and the competence to apply controlled asbestos removal techniques.

Having granted a licence, HSE expects the licence holder to comply with the Control of Asbestos at Work Regulations 2002 and the Asbestos (Licensing) Regulations 1983 as amended. In order to monitor the performance of licence holders, inspectors carry out a programme of site visits. If, during these visits, inspectors encounter work being carried out without using proper controls, such as wet injection, then they will take appropriate action to achieve compliance.

Benefit Expenditure

Mrs. Spelman: To ask the Secretary of State for Work and Pensions what measure of council tax inflation the Department uses for its long-term projections of benefit expenditure. [22405]

Mr. Plaskitt: HM Treasury's long-term assumption for council tax inflation is that it is rising in line with average earnings.

Benefit Fraud

Mr. Bone: To ask the Secretary of State for Work and Pensions what steps he plans to take to measure fraud and error in those benefits that are not regularly monitored. [23180]

Mr. Plaskitt: Measurement of fraud and error in benefits is complex and expensive, therefore the Department concentrates on those benefits with the highest level of risk. We carry out continuous measurement of loss through fraud and error in jobseeker's allowance, income support, pension credit and housing benefit and we conduct reviews of other benefits. For example a national benefit review of disability living allowance was conducted in 2004 and the results published in July 2005 as "Fraud, Error and other Incorrectness in disability living allowance", which is available in the Library.

We are committed to continuing these reviews, and over the next few years we will be carrying out a series on other benefits which have a high level of expenditure and potential risk of loss. We envisage that this will enable us to publish a more accurate figure for loss through fraud and error.

Gordon Banks: To ask the Secretary of State for Work and Pensions how many inspectors the Department has employed for the investigation of benefit fraud in each of the last 10 years. [27638]

Dr. Tony Wright: To ask the Secretary of State for Work and Pensions how many fraud investigators are in post; and what the equivalent figures were in the previous two years. [16588]

Mr. Plaskitt: The available information is in the table.

DWP fraud investigators

	Full time equivalents
June 2004	1,900.1
June 2005	1,870.1

Note:
Information is not available in the above format prior to 2004.
Source:
Fraud Business Report (latest figure available from quarter ending June 2005).

Benefit Receipt (Kingston and Surbiton)

Mr. Davey: To ask the Secretary of State for Work and Pensions how many people in the Kingston and Surbiton constituency have *(a)* applied for and *(b)* received the disability living allowance in each year since 1997. [23886]

Mrs. McGuire: The administration of disability living allowance and attendance allowance is a matter for the chief executive of the Disability and Carers Service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

Letter from Terry Moran to Mr. Edward Davey, dated 11 November 2005:

The Secretary of State has asked me, as Chief Executive of the Disability and Carers Service, to reply to your question concerning how many people in the Kingston and Surbiton constituency have *(a)* applied for and *(b)* received the disability living allowance in each year since 1997.

The information requested at part *(a)* of your question is unavailable. This information is not retained at any geographical level other than for Great Britain and therefore cannot be produced.

The information requested at part *(b)* of your question is as follows:

Disability living allowance for Kingston and Surbiton parliamentary constituency as at May in each year from 1997 to 2005

Thousand

	Cases in Kingston and Surbiton parliamentary constituency
2005	2.4
2004	2.2
2003	2.1
2002	2.0
2001	1.6
2000	1.6
1999	1.5
1998	1.7
1997	1.5

Notes:
1. Totals show the number of people in receipt of an allowance, and excludes people with entitlement where the payment has been suspended, for example if they are in hospital or abroad for prolonged periods.
2. Parliamentary constituencies are assigned by matching postcodes against the relevant postcode directory.
3. Numbers are rounded to the nearest hundred and are expressed in thousands.
4. "-" Nil or negligible.
5. ".." Not applicable.
6. Caseload figures are rounded to the nearest hundred. Totals may not sum due to rounding.
Source:
DWP Information Directorate, Work and Pensions Longitudinal Study for totals and 5 per cent. samples for detail long time series.

I hope this is helpful.

Benefits

Mr. Frank Field: To ask the Secretary of State for Work and Pensions if he will list the quarterly off-flows from *(a)* incapacity benefit and *(b)* severe disability allowance for each quarter from February 2003 to the latest available date, broken down by (i) Jobcentre Plus district and (ii) reason for termination. [24327]

Mrs. McGuire *[holding answer 3 November 2005]:* The information has been placed in the Library.

Carbon Monoxide Poisoning

Jon Trickett: To ask the Secretary of State for Work and Pensions how many carbon monoxide poisoning incidents have occurred in public places in each of the last 10 years. [14788]

Mrs. McGuire: The Health and Safety Executive (HSE) has responsibility for the safe installation, maintenance and use of gas systems in domestic and commercial premises. It maintains statistics on gas-related carbon monoxide (CO) poisoning only in domestic premises. It also maintains statistics on work related poisonings reported to it, which may arise from exposure to substances including CO.

However, HSE has no responsibility for other domestic use of fossil fuels, such as coal, wood or oil, which can also be sources of CO poisoning. It also has no responsibility for air quality in public places.

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions on how many occasions payments have been made under the authority of the Chief Executive or the Deputy Chief Executive of the Child Support Agency but without their personal written authorisation; how much these payments have amounted to; for what reasons they were made; and if he will make a statement. [2009]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive, Mr Stephen Geraghty. He will write to the hon. Member separately.

Letter from Stephen Geraghty to Mr. David Laws:

You asked the Secretary of State for Work and Pensions, on how many occasions payments have been made under the authority of the Chief Executive or the Deputy Chief Executive of the Child Support Agency but without their personal written authorisation; how much these payments have amounted to; for what reasons they were made.

All payments made by officers of the Child Support Agency are made under the authority of the Chief Executive as the Accounting Officer for the Agency. There are delegated authority levels and controls in place throughout the Agency to support these arrangements. In certain exceptional circumstances, the personal written authorisation of the Chief Executive or his Deputy is required before payment of redress can be made.

I hope you find this useful.

Rosie Cooper: To ask the Secretary of State for Work and Pensions how many formal complaints his Department has received from West Lancashire about the Child Support Agency. [27667]

Mr. Plaskitt: I refer my hon. Friend to the answer given to the hon. Members for Berwickshire, Roxburgh and Selkirk (Michael Moore) and for Hornsey and Wood Green (Lynne Featherstone) on 25 October 2005, *Official Report*, column 279W.

Construction Industry

Mrs. Villiers: To ask the Secretary of State for Work and Pensions what steps the Government are taking to ensure that health and safety measures are properly enforced in relation to agency workers in the construction industry; and who bears the responsibility of ensuring that health and safety laws are observed in cases where such workers are employed by composite companies rather than directly by the company carrying out the construction work. [16546]

Mrs. McGuire: The Government, through the Health and Safety Executive, enforces health and safety legislation through a combination of enforcement and advisory techniques such as site inspection and the publication of guidance. Health and safety legislation affords protection to both direct employees and those employed through agencies.

A construction company employing agency workers is subject to the general duties contained in sections 2 and 3 of the Health and Safety at Work etc. Act 1974 (HSWA). Section 2 HSWA places a general duty on all employers to ensure, so far as is reasonably practicable, the health and safety of their employees. Where a worker is not employed directly by the company carrying out work on site, section 3 HSWA imposes a duty on employers such as that company to ensure, in so far as is reasonably practicable, the health, safety and welfare of those other than his employees, such as that worker. Responsibilities regarding the sharing of information about risks and their control between hirers, employment agencies and workers are clarified in the Management of Health and Safety at Work Regulations 1999.

Additionally, in construction, the Construction (Design and Management) Regulations 1994 impose duties on principal contractors to manage and co-ordinate all construction activity whether undertaken by their employees, subcontractors, the self-employed or agency workers. The Construction (Health, Safety and Welfare Regulations) 1996 also imposes a duty to safeguard construction site health and safety on any person, whether they are the employer or not, who is in control of workers.

Correspondence

Mike Penning: To ask the Secretary of State for Work and Pensions (1) what steps he is taking to improve the Department's performance in replying to correspondence from members of the public; [21917]

(2) what steps he is taking to improve the Department's performance in replying to hon. Members' correspondence. [21908]

Mrs. McGuire: Every effort is made to handle all correspondence effectively and efficiently. All correspondence from hon. Members and Peers is handled in accordance with the principles set out in 'Handling Correspondence from Members of Parliament, Members of the House of Lords, MEPs and Members of Devolved Assemblies: Guidance for Departments'. The same principles apply when handling correspondence from members of the public.

Information relating to the performance of departments in replying to Members/Peers correspondence is published on an annual basis. The report for 2004 was published on 6 April 2005, *Official Report*, columns. 137–40WS.

Departmental Consultation

Mr. Peter Ainsworth: To ask the Secretary of State for Work and Pensions if he will list formal consultations being sponsored by his Department and its agencies; and what the *(a)* commencement date and *(b)* deadline for responses is in each case. [22580]

Mrs. McGuire: Current formal consultations are listed as follows.

Title of consultation	*Commencement date*	*Deadline for responses*
Pensions: disclosure of information consultation on draft regulations—the Occupational Pensions Schemes (Disclosure of Information) Regulations 2006	9 September 2005	2 December 2005
British Coal Staff and Mineworkers' Pensions (The Occupational Pensions Schemes (Transfer values, Pension Credit Benefit and Pension Sharing Valuation) (Amendment) Regulations 2005)	13 October 2005	25 November 2005
The Occupational Pension Schemes (Modification of Subsisting Rights) Regulations 2006	19 October 2005	16 December 2005
The Occupational Pension Schemes (Exemption) Regulations 2006	26 October 2005	16 December 2005

Disability Living Allowance

Mr. Hollobone: To ask the Secretary of State for Work and Pensions how many people in the Kettering constituency *(a)* applied for and *(b)* received the disability living allowance in each year since 1997. [22604]

Mrs. McGuire *[holding answer 28 October 2005]:* The administration of disability living allowance and attendance allowance is a matter for the Chief Executive of the Disability and Carers Service, Mr Terry Moran. He will write to the hon. Member with the information requested.

Letter from Terry Moran to Mr. Philip Hollobone, dated 11 November 2005:

The Secretary of State has asked me, as Chief Executive of the Disability and Carers Service, to reply to your question concerning how many people in the Kettering constituency have *(a)* applied for and *(b)* received the Disability Living Allowance in each year since 1997.

The information requested at part *(a)* of your question is unavailable. This information is not retained at any geographical level other than for Great Britain and therefore cannot be produced.

The information requested at part *(b)* of your question is as follows:

Disability living allowance for Kettering Parliamentary Constituency as at May in each year from 1997 to 2005

	Cases in Kettering Parliamentary Constituency
May 2005	3.6
May 2004	3.4
May 2003	3.3
May 2002	3.1
May 2001	3.2
May 2000	2.9
May 1999	2.8
May 1998	2.6
May 1997	2.5

Notes:

1. Totals show the number of people in receipt of an allowance, and excludes people with entitlement where the payment has been suspended, for example if they are in hospital or abroad for prolonged periods.
2. Parliamentary Constituencies are assigned by matching postcodes against the relevant postcode directory.
3. Numbers are rounded to the nearest hundred and are expressed in thousands.
4. "-" Nil or Negligible.
5. "." Not applicable.
6. Caseload figures are rounded to the nearest hundred. Totals may not sum due to rounding.

Source:

DWP Information Directorate: Work and Pensions Longitudinal Study for totals and 5% samples for detail/long time series.

Roger Berry: To ask the Secretary of State for Work and Pensions how many people under the age of 60 years were receiving *(a)* the middle rate of the care component, *(b)* higher rate of the care component and *(c)* the higher rate of the mobility component of disability living allowance stopped receiving these benefits due to death in each month of the last five years. [24471]

Mrs. McGuire: Information is not available in the form requested. The information that is available is in the table.

Disability living allowance: number of awards in Great Britain which included a higher rate care component, or a middle rate care component, or a higher rate mobility component in which payment was terminated by the death of recipients under 60 years of age at the time of their death in the 12 month periods ending on 31 May in each year from 2001 to 2005.

Disability living allowance component	*Number of awards (thousands) terminated by the death of recipients under 60 years of age*				
	2001	*2002*	*2003*	*2004*	*2005*
Higher rate care and higher rate mobility	2.9	3.3	2.8	3.7	3.7
Higher rate care and lower rate mobility	[1]0.1	[1]0.1	[1]0.1	[1]0.1	[1]0.2
Higher rate care only	[1]0.2	[1]0.2	[1]0.1	[1]0.1	[1]0.2
Middle rate care and higher rate mobility	[1]0.5	[1]0.4	0.7	[1]0.5	[1]0.5
Middle rate care and lower rate mobility	[1]0.3	[1]0.1	[1]0.2	[1]0.3	[1]0.3
Middle rate care only	—	—	—	—	—
Lower rate care and higher rate mobility	[1]0.3	[1]0.2	[1]0.2	[1]0.3	[1]0.2
Higher rate mobility only	[1]0.3	[1]0.3	[1]0.2	[1]0.2	[1]0.3
Total	4.7	4.7	4.4	5.3	5.4

'—'denotes nil or negligible.

[1] Less than 500 and subject to a high degree of sampling variation.

Note:

Figures are rounded to the nearest hundred and expressed in thousands. Totals may not sum due to rounding.

DWP Information Directorate: Work and Pensions Longitudinal Study for totals and 5 per cent. samples for detail/longtime series.

Document Terminology

Andrew Selous: To ask the Secretary of State for Work and Pensions what his policy is on the use of the word spouse in official documents; if he will encourage the use of the term spouse/partner; and if he will make a statement. [24777]

Mrs. McGuire: The Department currently applies the word 'spouse' or 'partner' according to the existing eligibility criteria for the benefit in question. From 5 December 2005, the Civil Partnership Act comes into force and terminology used in documentation will be expanded where appropriate. The existing use of 'spouse' and 'partner' will continue, but the definition of partner will be expanded to include reference to 'civil partner'.

EU Committees

Angus Robertson: To ask the Secretary of State for Work and Pensions how many meetings of the *(a)* EU Committee of senior labour inspectors, *(b)* EU Scientific Committee for Occupational Exposure Limits to chemical agents, *(c)* EU Confidentiality of Statistics Committee and *(d)* EU Committee on the harmonisation of the compilation of gross national product at market prices are planned for the UK presidency of the EU; who will be presiding over each meeting; what other UK representatives will be present; what provision is in place for representation of the devolved Governments; and if he will make a statement. [16459]

Mrs. McGuire: The Senior Labour Inspectors Committee will be meeting once during the UK presidency of the European Union between 9 and 10 November 2005. A senior official from the European Commission's Directorate General for Employment, Social Affairs and Equal Opportunities will be presiding over the meeting. Senior operational officials from the Health and Safety Executive (HSE) will attend the meeting. Health and safety is a matter for central UK Government and is not a devolved responsibility.

The European Commission's Scientific Committee for Occupational Exposure Limits (SCOEL) has held one meeting during the period 1 July to 31 December 2005, on 21 and 22 September. A second meeting, originally planned for December, has been postponed to late January 2006. The Chair of SCOEL is chosen from among the membership and does not reflect the presidency. The current chair is Professor Vito Foá, who is Italian. SCOEL members act as independent scientific experts, not as representatives of national Governments. HSE currently nominates two members to SCOEL on behalf of the UK Government. The current UK nominees are a senior toxicologist at the Medical Research Council Institute for Environment and Health, and the head of the Health and Safety Executive's Industrial Chemicals Unit. There is no provision for representation of devolved Governments on SCOEL.

The Commission (EUROSTAT) presides over both the Committee on Statistical Confidentiality (CSC) and the Committee on the harmonisation of the compilation of gross national product (GNI). During the term of the UK presidency of the Council of the European Union the CSC plans to meet on 2 December 2005. The GNI met on 5–6 July 2005 and plans to meet again on 27 October 2005. Meetings will be attended by appropriate UK officials who will consult with Devolved Administrations as appropriate.

Howell Opinion

Gordon Banks: To ask the Secretary of State for Work and Pensions what assessment he has made of the impact of the Howell Opinion in *(a)* the UK and *(b)* Scotland. [27641]

Mr. Plaskitt: The Howell Opinion prevents local authorities prosecuting cases involving DWP administered benefits. Local authorities and this Department may conduct a joint investigation. Such cases would require an element of duplicated working within the local authority and the Department. Alternatively, if it is not possible to conduct a joint investigation there is a risk that the Department and the local authority might investigate or prosecute the same individual twice for a similar offence.

We intend to introduce at the earliest opportunity, amendments to primary legislation to enable local authorities to investigate and prosecute national benefits alongside housing or council tax benefit.

Income Support

Mr. Laws: To ask the Secretary of State for Work and Pensions how many and what proportion of income support recipients receiving a disability premium have been on the benefit for *(a)* less than one year, *(b)* less than two years, *(c)* less than five years and *(d)* less than eight years. [25259]

Mr. Plaskitt: The information is in the table.

Income support claimants with a disability premium by duration: Great Britain, May 2005

Duration	*Income support claimants with a disability premium*	*Percentage*
All	1,115,700	100.0
Up to 1 year	89,800	8.0
1 year and up to 2 years	140,300	12.6
2 years and up to 5 years	306,500	27.5
5 years and up to 8 years	202,400	18.1
8 years and over	376,600	33.8

Notes:
1. Caseloads are rounded to the nearest hundred.
2. Percentages are given to one decimal place.
3. For comparison purposes, the 1997 figure excludes pensioners. Pensioners have not been able to claim income support since October 2003.
4. Totals may not sum due to rounding.

Source:
DWP Information Directorate Work and Pensions Longitudinal Study(WPLS).

In-work Credit (Kettering)

Mr. Hollobone: To ask the Secretary of State for Work and Pensions (1) how many people in Kettering constituency have received the in-work credit; [22232]

(2) how many people in Kettering constituency have received the lone parent work search premium. [22233]

Margaret Hodge *[holding answer 27 October 2005]:* The lone parent in work credit and work search premium are not available in Kettering.

The in work credit is designed to help lone parents cope with the financial aspects of moving from welfare to work, and ensure they are better off in work. It is being piloted in 23 Jobcentre Plus districts and has been rolled out in four phases from April 2004 to October 2005.

The areas covered are: Bradford; North London; South East London; Cardiff; Central London; Dudley and Sandwell; Edinburgh, Lothian and Borders; Lancashire West; Leeds; Leicestershire; Staffordshire; West London; Brent, Harrow and Hillingdon; City and East; Lambeth; Southwark and Wandsworth; South London; Bedfordshire and Hertfordshire; Berkshire, Buckinghamshire and Oxfordshire; Essex; Hampshire; Kent; and Surrey and Sussex.

The work search premium helps remove the disincentive for lone parents in the costs of looking for work. It is being piloted in eight Jobcentre Plus districts: Bradford, Cardiff and Vale, Dudley and Sandwell, Edinburgh, Lancashire West, Leicestershire, South East London, and West London.

An interim evaluation of the pilots is being conducted and we expect to publish a report in autumn 2006.

Jobcentre Plus (Staffordshire)

Joan Walley: To ask the Secretary of State for Work and Pensions what additional facilities are proposed to assist those using the Job Centre in Burslem. [21833]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Ms Joan Walley, dated 11 November 2005:

The Secretary of State has asked me to reply to your question about what additional facilities are proposed to assist those currently using the Jobcentre in Burslem. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

As you will be aware, Burslem Jobcentre is scheduled to close in March 2007. Those customers currently claiming jobseeker's allowance through Burslem Jobcentre will have access to services provided by the new, purpose-built premises, planned for Hanley, only three miles away from the current Burslem Jobcentre location. Burslem customers claiming Incapacity Benefit and Income Support already use the Hanley site for all their dealings with Jobcentre Plus.

A feasibility study of alternative local locations options has been undertaken and negotiations are currently under way with the local authority over the introduction of telephone facilities in Burslem library to allow our customers to access our services direct, free of charge.

Consideration is also being given to the possibility of routing the Staffordshire JobsBus through Burslem. The JobsBus is a mobile unit offering customers access to vacancy information, telephone and fax facilities and also an employment information computer package. Specialist advisers often join the regular JobsBus staff to offer specific advice, for example to lone parents, people returning to work after ill health or people who have health problems that affect the work that they can do. I have asked Julie Carruthers, the District Manager for Jobcentre Plus in Staffordshire, to contact you when a decision on this is reached.

I hope this information is helpful.

Myasthenia Gravis

Mr. Flello: To ask the Secretary of State for Work and Pensions if he will make a statement on the benefit entitlements for people diagnosed with myasthenia gravis. [25746]

Mrs. McGuire: We do not pay benefits solely based on a particular medical diagnosis.

Incapacity benefit is intended to provide a source of income for sick and disabled people of working age who are unable to work.

Entitlement to disability living allowance is based on mobility difficulties and/or the need for personal care which results from severe disability. Attendance allowance is available to those disabled after the age of 65. The customer's medical condition is not, necessarily, the key factor; rather it is the disablement that results from it and the effects of that disablement.

New Deal

Norman Lamb: To ask the Secretary of State for Work and Pensions if he will list the Jobcentre Plus districts identified for the pilot the Building on New Deal programme; which of the districts have since been dropped from the pilot programme; and what assessment he has made of the likely effects of the changes in the number of pilots. [17405]

Margaret Hodge: Since the original announcement of 11 Building on New Deal (BoND) pilot districts in November 2004, we have undertaken a detailed planning and impact analysis to ensure that the measures detailed in the BoND strategy paper can be tested as originally envisaged, and that the design is affordable. Given this and our proposals to reduce the number of Jobcentre Plus districts, we have decided that seven areas are sufficient to test the effectiveness of BoND. This allows for the robust evaluation needed to inform decisions on national implementation.

The seven chosen areas allow us to test BoND in different types of labour markets across the country, including urban and rural locations, and areas with a greater concentration of people from black and minority ethnic communities. Seven comparator areas have been chosen using the same criteria, enabling a clear comparison of performance between BoND and comparator areas.

The Jobcentre Plus districts identified to pilot BoND from October 2006 are: Ayrshire, Dumfries, Galloway and Inverclyde; Buckinghamshire and Oxfordshire; Cardiff and Vale; Cheshire and Warrington; Cornwall; Northamptonshire; and North East London.

The BoND comparator areas are: Highlands, Islands and Clyde Coast; Bedfordshire and Hertfordshire; Staffordshire; Kent; Cumbria ; Hampshire and Isle of Wight; and South East London.

Calderdale and Kirklees; Gateshead and South Tyneside; Norfolk; and The Marches have now been removed from the pilots. This change will not affect the validity of the evaluation.

Mr. Boswell: To ask the Secretary of State for Work and Pensions if he will make a statement on progress on Building on New Deal for Work, with particular reference to *(a)* decentralisation of decision making, *(b)* specialist programmes for individual needs and *(c)* the establishment of pilot areas. [21572]

Margaret Hodge: We have achieved significant success in our new deal programmes, helping over a million people in to work. We are determined to build on this achievement to deliver more support for those people who face the most difficult barriers to work.

Building on new deal will give personal advisers and local managers greater flexibility, allowing them to provide tailored support to better meet the needs of individuals and of local labour markets. It will also give them more scope to work in partnership with employers and other agencies to tackle local problems that prevent more people moving from benefit dependency to work.

Personal advisers will be able to select from a range of programme provision to address the individual needs of our customers. This will include specialist provision, such as Access to Work, offering a grant to disabled people and those with health conditions to help them overcome the particular barriers they face in the workplace, and progress2work and progress2work LinkUP, which have been developed to provide further support for those facing the greatest disadvantages in the labour market, including recovering alcohol misusers, ex-offenders and homeless people.

The seven Jobcentre Plus districts identified to pilot BoND from October 2006 are: Ayrshire, Dumfries, Galloway and Inverclyde; Buckinghamshire and Oxfordshire; Cardiff and Vale; Cheshire and Warrington; Cornwall; Northamptonshire, and North East London.

Seven comparator areas have been chosen using the same criteria, enabling a clear comparison of performance between BoND and comparator areas. The BoND comparator areas are: Highlands, Islands and Clyde Coast; Bedfordshire and Hertfordshire; Staffordshire; Kent; Cumbria; Hampshire and Isle of Wight, and South East London.

The seven chosen areas will allow us to test BoND in different types of labour market across the country, including urban and rural locations, and areas of high ethnicity.

Office for Disability Issues

Malcolm Bruce: To ask the Secretary of State for Work and Pensions what assessment he has made of the level of publicity for his Department's recent consultation on the establishment of the Office for Disability Issues; and whether this process was compatible with the Cabinet Office code of practice for public consultations. [22185]

Mrs. McGuire: The consultation referred to was an informal exercise, and was publicised in the disability press and on a number of disability related websites. In addition I wrote to over 60 leading disability organisations notifying them of the exercise, and issued a press release. We contacted a range of interested organisations and individuals using contact details held by this Department, and Central Office of Information, passing on information about the consultation, and asking them to cascade the information further.

Officials are currently analysing the results of this consultation exercise; and once this analysis is complete, the results will be published. I am confident that the publicity for this exercise was compatible with the Cabinet Office code of practice for public consultations, although it was not a formal consultation exercise, and therefore was not subject to the code.

EDUCATION AND SKILLS

Adoptions

Tim Loughton: To ask the Secretary of State for Education and Skills how many adoptions of *(a)* children under three years and *(b)* all children have been completed in each of the last five years. [18842]

Maria Eagle: The number of adoption orders made for all children in England and Wales for 1 January 1999 to 31 December 2003 (latest figures available) is set out in the following table. A breakdown of these figures by age could be provided at only disproportionate cost.

	Number
1999	4,987
2000	5,086
2001	5,384
2002	5,485
2003	5,354

Source:
Office for National Statistics

Statistical information on the total number of adoptions is included in the Statistics Series "Marriage, divorce and adoptions", Volume FM2, published by the Office for National Statistics. A copy of this publication is available in the House of Commons Library and on the Office for National Statistics' website at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=581&Pos=1&ColRank=2&Rank=192

Tim Loughton: To ask the Secretary of State for Education and Skills how many adoptions were completed in the last 12 months in each local authority area. [18843]

Maria Eagle: Information on all adoptions that were completed in the last 12 months by local authority area is not collected centrally.

However, information is available on the number of looked after children, by local authority area, adopted in 2003–04. This information may be found in table 18 of "Children Looked After by Local Authorities, Year Ending 31 March 2004" available on the Department's website at: http://www.dfes.gov.uk/rsgateway/DB/VOL/v000569/vweb01-2005_2.pdf.

Departmental Skills Development Plan

Mr. Gibb: To ask the Secretary of State for Education and Skills which individual is responsible for developing and implementing her Department's Skills Development Plan. [23847]

Maria Eagle: I refer the hon. Member to the reply given by my right hon. Friend, the then Chancellor of the Duchy of Lancaster on 2 November 2005, *Official Report*, column 1074W. In the Department of Education and Skills, the Human Resources Director is responsible for ensuring the development and implementation of the DfES Skills Development Plan.

Gershon Review

Dr. Cable: To ask the Secretary of State for Education and Skills how many full-time equivalent employee reductions as a result of the Gershon review have been made; what *(a)* cost savings relating to IT projects and *(b)* total value of efficiency savings (i) were achieved in 2004–05 and (ii) are expected to be achieved in 2005–06; and if she will make a statement. [23992]

Maria Eagle *[holding answer 2 November 2005]:* As at September 2005 my Department had made 774 full-time equivalent employee reductions. Further progress will be reported in the Department's Autumn Performance Report.

In 2004–05 my Department realised efficiencies of some £30.56 million in procurement of ICT related goods and services. My Department has an efficiency target for 2007–08 but no intermediate targets.

We do however expect to realise significant efficiencies through our IT related programmes. Progress will be reported in the Department's Autumn Performance Report. The Department has an efficiency target for 2007–08 but no intermediate target for 2005–06.

Learning and Skills Council

Mr. Grogan: To ask the Secretary of State for Education and Skills if she will list in ascending order the percentage change in 16 to 18 years participation budgets for education in Learning and Skills Council sub-regions between 2003–04 and 2004–05. [20290]

Bill Rammell *[holding answer 21 October 2005]:* The Department allocates funds for further education and training in the post-16 learning and skills sector, including 16 to 18 years participation, to the Learning and Skills Council (LSC) working through 47 local offices. The LSC was established in 2001 bringing the planning and funding of post-16 education together under one body within a framework set by Government.

In 2003–04 the LSC spent £2,073 million on 16 to 18 years provision nationally. In 2004–05 this increased to £2,342 million—an increase of 9 per cent.

My Department does not hold figures at local or regional levels. Mark Haysom, the Council's Chief Executive has responded to you with further details about the specific issues you have raised. A copy of his reply will be placed in the Library.

Letter from Mark Haysom to Mr. John Grogan, dated 9 November 2005:

I write in response to your recent Parliamentary Questions to the Secretary of State for Education and Skills referred to the Learning and Skills Council (LSC) by Bill Rammell regarding the percentage change in 16 to 18 years and adult participation

budgets for education in local Learning and Skills Councils and Regions between 2003–04 and 2004–05.

The LSC allocates funds for further education through the 47 local Learning and Skills Councils. The funds are allocated on an academic year basis.

The attached spreadsheets show the distribution of the FE funding in ascending order by local Council and at regional level showing the cash and percentage variance between 2003/04 and 2004/05.

I hope you find this helpful.

Local council level

Local council	*Region*	*2003/04 16–18 allocation*	*2004/06 16–18 allocation*	*2003/04–2004/05 16–18 cash variance*	*2003/04–2004/05 16–18 % variance*

Mr. Grogan: To ask the Secretary of State for Education and Skills if she will list in ascending order the percentage change in the adult participation in further education budgets for each Learning and Skills Council sub-region between 2003–04 and 2004–05. [20291]

Bill Rammell *[holding answer 21 October 2005]:* The Department allocates funds for further education and training in the post-16 learning and skills sector, including adult participation, to the Learning and Skills Council (LSC) working through 47 local offices. The LSC was established in 2001 bringing the planning and funding of post-16 education together under one body within a framework set by Government.

In 2003–04 the LSC spent £1,756 million on adult participation nationally. In 2004–05 this increased to £1,847 million—an increase of 10 per cent.

My Department does not hold figures at local or regional levels. Mark Haysom, the council's chief executive has responded to you with further details about the specific issues you have raised. A copy of his reply will be placed in the Library.

Letter from Mark Haysom to Mr. John Grogan, dated 9 November 2005:

I write in response to your recent Parliamentary Questions to the Secretary of State for Education and Skills referred to the Learning and Skills Council (LSC) by Bill Rammell regarding the percentage change in 16 to 18 years and adult participation budgets for education in local Learning and Skills Councils and Regions between 2003–04 and 2004–05.

The LSC allocates funds for further education through the 47 local Learning and Skills Councils. The funds are allocated on an academic year basis.

The attached spreadsheets show the distribution of the FE funding in ascending order by local Council and at regional level showing the cash and percentage variance between 2003/04 and 2004/05.

I hope you find this helpful.

Looked-after Children

John Bercow: To ask the Secretary of State for Education and Skills what steps she is taking to ensure the target is met on the proportion of looked-after children placed for adoption within 12 months of the decision that adoption is in the child's best interests. [26781]

Maria Eagle: Performance on this measure remained stable between 2002–03 and 2003–04. Statistics for 2004–05 will be published on 24 November 2005. We will be reviewing factors that influence performance on this measure in light of the full implementation of the Adoption and Children Act 2002. The Act and its associated regulations and statutory guidance will come into effect on 30 December 2005.

John Bercow: To ask the Secretary of State for Education and Skills what steps she is taking to reduce the percentage of looked-after children subject to a final warning or reprimand. [26782]

Maria Eagle: The percentage of looked-after children convicted or subject to a final warning or reprimand fell from 10.3 per cent. in 2001 to 9.3 per cent. in 2004. Our work to raise educational achievement and improve placement stability will contribute towards continued reductions in offending and improvements in other outcomes for looked after children. Funded by the Government, MACRO have recently published a good practice guide on reducing offending by looked-after children, which reinforces the message that looked-after children must be provided with constructive supervision and guidance to reduce the risk of offending, and that those who have offended must be offered appropriate services to minimise the likelihood of re-offending. This publication has been distributed to all Directors of Children's Services and all YOT managers. We intend to consult early in 2006 on further wide ranging proposals for transforming outcomes for looked-after children.

Lyons Review

Dr. Cable: To ask the Secretary of State for Education and Skills how many people in her Department were relocated in 2004–05 as a result of Sir Michael Lyons' independent review of public sector relocation, broken down by location; to which location they have been relocated; how many are expected to be relocated in 2005–06; and if she will make a statement. [23691]

Maria Eagle *[holding answer 1 November 2005]:* My Department and sponsored organisations are implementing the Lyons Review recommendations to relocate around 800 posts from the Department and its non-department public bodies out of London and the South East by 2010.

In 2004–05, 58 posts in DfES itself were relocated from London to our existing offices in Runcorn, Sheffield and Darlington. So far in 2005–06, 21 posts have been relocated and up to a further nine posts will have relocated by the end of period. The breakdown of posts relocated by location is: 43 to Runcorn, 32 to Sheffield and four to Darlington. A further four posts will move to Runcorn and two posts to Sheffield. The locations of the remaining three posts have not been confirmed.

There have been no transfers of DfES staff out of London to fill these posts.

Public Service Agreements

John Bercow: To ask the Secretary of State for Education and Skills when she will assess progress on the Public Service Agreement target to narrow the gap in educational achievement between looke' after children and their peers. [26790]

Maria Eagle: Progress towards the achievement of the Department's Public Service Agreement Targets is reported in our Spring Departmental Report and our Autumn Performance Report. The Spring Departmental Report was published on 20 June 2005 and the Autumn Performance Report is due to be published on or before 19 December 2005.

Copies of Departmental Reports and Autumn Performance Reports are available from the House of Commons Library.

Schools (Putney)

Justine Greening: To ask the Secretary of State for Education and Skills which schools in Putney will receive funding as part of the Schools Access Initiative; and how much has been allocated to each school in *(a)* 2004–05 *(b)* 2005–06 *(c)* 2006–07 and *(d)* 2007–08. [27263]

Maria Eagle *[holding answer 10 November]:* The Schools Access Initiative provides resources to local authorities to help make mainstream schools accessible to pupils with disabilities. £300 million has been made

available for the first access planning period under Disability Discrimination Act 1995 (2003–2006), with a further £100 million per annum announced for both 2006–07 and 2007–08. The funding is allocated to local authorities and it is for each authority to decide its priority schemes in light of the local needs and circumstances detailed in their accessibility strategy. They are not required to provide us with information detailing how they have spent their allocation of the School Access Initiative on the schools they are responsible for.

Special Educational Needs

Andrew Selous: To ask the Secretary of State for Education and Skills what level of *(a)* qualifications and *(b)* experience is required to be a school Special Educational Needs Co-ordinator; and if she will make a statement. [27072]

Maria Eagle: The Department's Special Educational Needs (SEN) Code of Practice, published in November 2001, makes it clear that the SEN co-ordinator should be closely involved with the head teacher, senior management and teachers, in the strategic development of a school's SEN policy. Once it has been agreed, the SENCO should have responsibility for the day-to-day operation of the policy and for co-ordinating provision for pupils with SEN, particularly through "School Action" and "School Action Plus".

SENCOs are selected and appointed by head teachers. There are no specific qualifications which a SENCO has to have, although we would normally expect a head to appoint someone with a proven track record of successful working with children with SEN and disabilities.

Working in collaboration with the National Association for Special Educational Needs, the Department has recently arranged a series of discussion sessions for primary and secondary SENCOs designed to identify aspects of good practice in relation to the SENCO role, for dissemination through NASEN publications and otherwise.

Trust Schools

Mr. Fallon: To ask the Secretary of State for Education and Skills pursuant to the answer of 7 November 2005, *Official Report*, column 132W, on trust schools, how many schools have *(a)* applied for, *(b)* received and *(c)* been refused permission to borrow against their assets in each year since 1997; and what the current total amount is of such borrowing, broken down by category of maintained school. [27359]

Jacqui Smith: We have not received any applications for permission to borrow. Guidance to schools sets out our policy that we think such borrowing will rarely represent value for money. This is because the cost of a commercial loan, which includes an element of profit and an allowance for risk, will always tend to be more expensive than the alternative of direct funding by Government. A small number of schools and local authorities have made inquiries, but we do not keep records of this.

Under-achievement

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the capacity of schools to provide mentoring for pupils from low socio-economic backgrounds. [26060]

Beverley Hughes: The Excellence in Cities Programme introduced Learning Mentor support to schools and colleges, with the funding targeted towards disadvantaged groups and areas of under-achievement (through around 60 full partnerships and 78 smaller clusters).

The Excellence in Cities programme was specifically introduced to tackle years of under-achievement in our most socially and economically disadvantaged areas. The additional support and funding provided by the Excellence in Cities programme has significantly increased the capacity of schools in deprived areas to address the socio economic factors of under attainment. Partnership working has allowed schools to target resources and strategies to raise attainment across whole communities. Strands such as Gifted and Talented, Learning Mentors, Learning Support Units, City Learning Centres, Aimhigher and Study Support have, among other things, pioneered personalised learning programmes; tackled barriers to learning; extended study opportunities for pupils, providing access to state of the art ICT; enabled ICT led innovation in the delivery of the curriculum; fostered new approaches to teaching and learning; kept at risk pupils in school and engaged in the curriculum; and enhanced continuing professional development for teachers.

This funding will become part of mainstream provision from 1 April 2006 as an element of the ring fenced and index linked Dedicated Schools Grant. The Dedicated Schools Grant will be available to all schools and will enable Learning Mentor and other related provision to spread more broadly, reflecting local need.

It is important to bear in mind that there are additional forms of mentoring provided within schools which are not provided by school learning mentors (employed by the school/local authority) e.g. peer and voluntary mentoring. There is also the work carried out by the Mentoring and Befriending Foundation http.www.mandbf.org.uk/.

HEALTH

Alcohol-related Hospital Admissions

Mr. Holloway: To ask the Secretary of State for Health how many alcohol-related admissions there were to Darent Valley hospital and its predecessor hospitals that served the Gravesham constituency in each year since 1997. [24135]

Caroline Flint: The information requested is not collected at hospital level. However, the following table shows the number of finished admission episodes for alcohol-related diseases for residents of Gravesham local authority, for which the Dartford and Gravesham national health service trust was the treatment provider.

Counts of finished admission episodes where there was a primary diagnosis code for selected alcohol-related diseases[1]. Local authority district of residence: Gravesham. Provider of treatment: RN7 Dartford and Gravesham NHS trust. NHS hospitals England, 1997–98 to 2003–04

	Finished admission episodes
1997–98	19
1998–99	23
1999–2000	26
2000–01	16
2001–02	35
2002–03	39
2003–04	43

[1] Alcohol related diseases defined as following ICD-10 codes recorded in primary diagnosis:
F10: Mental and behavioural disorders due to use of alcohol.
K70: Alcoholic liver disease.
T51: Toxic effect of alcohol.
Notes:
1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. The primary diagnosis is the first of up to 14, seven prior to 2002–03, diagnosis fields in the hospital episode statistics (HES) data set and provides the main reason why the patient was in hospital. Figures have not been adjusted for shortfalls in data, that is, the data is ungrossed.
Source:
HES, NHS Health and Social Care Information Centre.

Alzheimer's Disease

David Taylor: To ask the Secretary of State for Health what assessment she has made of the benefits of *(a)* Donepezil, *(b)* Galantamine, *(c)* Memantine and *(d)* Rivastigamine for people with Alzheimer's disease. [26395]

Jane Kennedy *[holding answer 8 November 2005]:* The National Institute for Health and Clinical Excellence (NICE) is currently assessing the clinical and cost-effectiveness of Donepezil, Galantamine, Memantine and Rivastigamine for the treatment of Alzheimer's disease. Information about NICE'S current work programme is available on the NICE'S website at www.nice.org.uk.

Asthma

Mr. Barron: To ask the Secretary of State for Health what the Government's plan is for phasing out CFC asthma inhalers; and what the timetable is for that phase-out. [21521]

Jane Kennedy: The Government's plan for phasing out chlorofluorocarbons (CFC) asthma inhalers is set out in the "UK Transition Strategy for CFC-based MDIs", which was published by the Department and the Department for the Environment, Transport and the Regions in 1999. The strategy states that when an adequate number and range of CFC-free metered dose inhalers (MDIs) to meet patient needs are available for an individual drug, the use of CFCs will no longer be considered essential for that drug product.

Manufacturers are developing CFC-free alternatives for other products, and, in accordance with the transition strategy, the availability of these will determine the timescale for the phase out. The European Commission, with member states, is currently reviewing the scope for further declarations of non-essentiality in relation to a number of other drug products used in inhalers.

Avian Influenza

Bill Wiggin: To ask the Secretary of State for Health what discussions the Government have had with the Chinese authorities regarding the human health implications of recently reported outbreaks of avian influenza in central Hunan, Inner Mongolia and Anhui provinces. [23275]

Ms Rosie Winterton: The United Kingdom Government have not had any specific discussions with the Chinese authorities regarding the avian influenza outbreaks in central Hunan, Inner Mongolia and Anhui provinces. The World Health Organisation has been taking the lead on the worldwide response to avian influenza including discussion with affected countries.

I recently attended an international meeting of health ministers in Ottowa, which discussed avian and pandemic influenza issues. The Chinese Health Minister was also present.

Cancer

Mr. Lansley: To ask the Secretary of State for Health whether her Department plans to monitor the uptake of Herceptin among women with *(a)* advanced breast cancer and *(b)* early-stage breast cancer. [23971]

Jane Kennedy: The National Cancer Director, Professor Mike Richards, will be publishing a report in the new year on the uptake of National Institute for Health and Clinical Excellence (NICE) approved cancer drugs. This report will cover Herceptin for women with advanced breast cancer.

Herceptin for early breast cancer has not been approved by NICE so will not be covered by Professor Richard's report. However, if Herceptin for early breast cancer is approved by NICE, progress on its uptake will then be assessed by the Healthcare Commission who have responsibility for monitoring the implementation of NICE guidance.

Mr. Amess: To ask the Secretary of State for Health what information her Department holds on the United Kingdom morbidity and mortality rates for skin cancer in each year since 1979; and if she will make a statement. [20784]

Ms Rosie Winterton: The latest available figures for the incidence and mortality of melanoma skin cancer in England and Wales are for the year 2003. Age-standardised incidence and mortality rates by sex for the years 1979 to 2003 are shown in the table.

Age-standardised rates[1] of melanoma skin cancer[2] in England and Wales, by sex, 1979–2003

Rates per 100,000

	Incidence		*Mortality[3]*

Office for National Statistics

Welsh cancer intelligence and surveillance unit.

Mrs. James: To ask the Secretary of State for Health (1) if she will make a statement on *(a)* prevention, *(b)* diagnosis and *(c)* treatment of skin cancer; [20810]

(2) what *(a)* guidance her Department has issued and *(b)* campaigns her Department is undertaking to raise awareness of skin cancer. [20814]

Caroline Flint: The Department and the other United Kingdom health Departments have commissioned Cancer Research UK to run SunSmart, which was launched in 2003, as the national skin cancer prevention and sun protection campaign. The SunSmart campaign includes raising both public and professional awareness of skin cancer through providing information about it and guidance on preventative measures to reduce the risks associated with skin cancer and exposure to sunlight. The campaign raises awareness through support for health promotion events, the provision of printed resources, media briefings and through the SunSmart website at http://cancerresearchuk.org/sunsmart/. SunSmart also supports schools in developing their own sun protection policies through school guidelines and curriculum resources.

SunSmart's printed resources and the website contain prevention messages on avoiding excess sunlight and ultraviolet rays and using protective screening methods including covering up in the sunlight and the use of effective sunscreen products. The campaign also provides information to help recognise the symptoms of the different types of skin cancer and on seeking medical advice if necessary.

The National Institute for Health and Clinical Excellence (NICE) has recently issued updated referral guidelines for suspected cancer to assist general practitioners in determining those patients who need to be referred urgently to see a specialist within two weeks. The guidance addresses skin cancers.

The Department and the Welsh Assembly have also commissioned NICE to produce service guidance for skin tumours including melanoma. This guidance is due for publication in January 2006 and will address area such as diagnosis, treatment and follow up.

Coenzynme Q

Tim Loughton: To ask the Secretary of State for Health what research she has commissioned on the effects of the supplement coenzyme Q on those suffering from schizophrenia. [24317]

Ms Rosie Winterton: The Department has not commissioned research on the effects of the supplement coenzyme Q on those suffering from schizophrenia.

Departmental Spending

David T.C. Davies: To ask the Secretary of State for Health how much her Department spent on items of art in 2004–05. [23470]

Jane Kennedy: The Department did not purchase any items of art in 2004–05.

Departmental Staff

Mike Penning: To ask the Secretary of State for Health how many staff were employed in her Department on 30 September; and if she will make a statement. [24830]

Jane Kennedy: The number of staff employed by the Department on 30 September 2005 is shown in the table. This figure includes staff on loan into the Department. It does not include staff on a career break who are not currently paid by the Department. The figure also includes staff who are designated to transfer out of the Department and staff who are on secondment to other organisations; these staff remain on the Department's payroll, although in most cases, the Department is reimbursed for their salary.

Staff employed by the Department of Health, September 2005

	Total
Employee	
Headcount	2,450
Full-time equivalent (FTE)	2,361.1
Fixed term appointment	
Headcount	62
FTE	58.6
Total headcount	2,512
Total FTE	2,419.8

Easyway (International) Ltd

Tim Loughton: To ask the Secretary of State for Health whether her Department has received a request for a meeting from Allen Carr's Easyway (International) Ltd. [24210]

Caroline Flint: The Department has received several requests to meet the Allen Carr Easyway (International) Ltd.

The Department regularly receives approaches about smoking cessation techniques and recognises that there are a number of methods that may help smokers to quit. In terms of national policy, the focus is on those methods with accumulated independent evidence of efficacy.

The Department, following guidance from the National Institute for Health Clinical Excellence (NICE), endorsed the use on the national health service of nicotine replacement therapy (NRT) and bupropion (Zyban) as effective stop smoking aids. Used in conjunction with trained support through the NHS stop smoking service, smokers are up to four times more likely to quit successfully than using willpower alone.

I am aware that Allen Carr's Easyway (International) Ltd is in contact with NICE to make their case and I am sure that, in deciding what should be available on the NHS, this is the appropriate route.

Emergency Preparedness

Damian Green: To ask the Secretary of State for Health what plans she has to institute a national chemical biological radiation network alerting system; and if she will make a statement. [22687]

Ms Rosie Winterton: The Department works together with the Home Office and other Government Departments in responding to chemical, biological, radiological and nuclear incidents or events. The Department has instituted protocols for receiving alerts on a wide range of emergency situations. These alerts may arise from surveillance systems in operation, principally on infectious diseases and dangerous pathogens, or from other organisations that operate surveillance systems or from responders to incidents. Standard operating procedures are in place to ensure onward alerting to Government Departments and agencies and to others who need to know.

Surveillance systems operate on a local, regional and national level and based on 24/7 service. The national network system is connected to the European Union alerting mechanisms and, through the World Health Organisation, to global alerts.

Eye Prescription Vouchers

Mr. Lancaster: To ask the Secretary of State for Health if the Government will increase the value of eye prescription vouchers for those on incapacity benefit. [26112]

Ms Rosie Winterton: Financial help towards the cost of glasses or contact lenses, via an optical voucher, is available to children under 16, those aged under 19 in full-time education and those on a low income. The voucher value varies according to the individual's prescription. There are currently eight voucher bands ranging from £32.90 to £181.40.

Individuals are not entitled by virtue of incapacity benefit on its own to help towards the cost of glasses, as incapacity benefit is not an income related benefit. Individuals in receipt of incapacity benefit may, however, be entitled to help via the national health service low income scheme.

Optical voucher values are reviewed annually and any increases take effect from 1 April.

Fraud

Steve Webb: To ask the Secretary of State for Health pursuant to the answer of 12 September 2005, *Official Report*, column 2690W, on fraud, when she expects an estimate of the outstanding amount of fraud in all areas of NHS spending to be available. [18888]

Jane Kennedy: The Counter Fraud and Security Management Service (CFSMS) risk measurement methodology is applied to accurately measure losses to fraud in areas of national health service spending in order to identify the scale of the problem and take firm action to prevent this from occurring. CFSMS is currently working on measuring losses in major areas of the NHS budget and has for example been actively involved in seeking to fraud-proof the new general practitioner contract. Continued measurements of losses to fraud will take place as weaknesses are identified and substantive budgets affected. This is and must be an ongoing process as spending areas and budget allocations will continue to change. As such, there can be no accurate overall estimate of the outstanding amount of fraud in the NHS, only a continuous effort to identify weaknesses as budgets and policies change and evolve.

Gas/Electricity Supplies

Mr. Jenkin: To ask the Secretary of State for Health how many hospitals have interruptible contracts for gas and electricity supply; and if she will make a statement. [25545]

Jane Kennedy: In 2003, the total number of national health service interruptible sites stood at around 130 for England. In 2005, the NHS Purchasing and Supply Agency arranged contracts for 109 interruptible sites.

There are a further 15 to 20 interruptible sites which are not contracted for centrally but via the local facilities management or private finance initiative provider.

Hospital-acquired Infections

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 12 September 2005, *Official Report*, column 2695W, on mandatory surveillance, how many incidents of *(a)* the glycopeptide resistant enterococci, *(b)* orthopaedic surgical site infections and *(c)* serious untoward incidents associated with infection there have been in (i) England, (ii) each region, (iii) each strategic health authority and (iv) each NHS trust. [20751]

Jane Kennedy: Mandatory reporting of glycopeptide resistant enterococcal blood stream infections (bacteraemias) was introduced in October 2003 and a total of 620 bacteraemias were reported in the year from October 2003 to September 2004. Data for England and its regions was published in the "Communicable Disease Report (CDR) Weekly" on 25 August 2005[1] and information on individual trusts was published on the Department's website[2]. Data for individual strategic health authorities (SHAs) have not been published.

Mandatory reporting of orthopaedic surgical site infections was introduced in April 2004 and in the first year of reporting data on 41,242 orthopaedic operations were analysed and 593 infections reported. Data for individual trusts were published on the Department's website on 28 October 2005[3] and a fuller report has been published by the Health Protection Agency[4]. Data are not available by region or SHA.

Reporting of serious untoward incidents associated with hospital infections was introduced in September 2003 and a report will be published later this year.

www.hpa.org.uk/infections/topics_az/hai/SSI_mandatory_0405report.pdf.

Infection Control

Mr. Lansley: To ask the Secretary of State for Health if she will summarise the results of the *(a)* national observational study of the effectiveness of the cleanyourhands campaign and *(b)* cluster-randomised controlled trial of the effectiveness and cost-effectiveness of feedback in intensive care units and acute general medical wards; and what plans she has to commission further research on compliance with hand hygiene in the NHS. [23033]

Jane Kennedy: The research projects to which the hon. Member refers began earlier this year. The results of the national observational study will become available in 2006, and final results from the randomised controlled trial in 2008.

The Department does not at present have plans for further research on compliance with hand hygiene.

Influenza

Bill Wiggin: To ask the Secretary of State for Health how many people in *(a)* Herefordshire, *(b)* Worcestershire and *(c)* England have received a free influenza vaccine. [24939]

Ms Rosie Winterton: The first monitoring uptake data for Staffordshire and England will be available on 14 November.

Information (South Asian Patients)

Mr. Lansley: To ask the Secretary of State for Health what steps she is taking to improve the quality of information provided to patients, with particular reference to patients of South Asian origin. [23108]

Ms Rosie Winterton: Standards are the main drivers for continuous improvement in quality in health care. Independent inspections by the Healthcare Commission are designed to drive up standards by identifying areas for improvement.

Last year, the Department published "National Standards, Local Action". This sets out that primary care trusts should ensure that adequate patient information and support processes are set up and, particularly, provide targeted support that addresses the needs of individuals and communities, including black and minority ethnic groups.

The Department also published "Better information, better choices, better health" at the end of last year; a three-year strategy to enhance accessibility and quality of health care information for everyone. The strategy contains measures to improve the information available, as well as support to access and use it, in particular focusing on groups that have difficulty accessing health care information, including patients of South Asian origin.

Kettering General Hospital

Mr. Hollobone: To ask the Secretary of State for Health how many *(a)* in-patients and *(b)* out-patients have been treated at Kettering general hospital in each year since 1997. [24750]

Ms Rosie Winterton: The information requested is shown in the following table.

Number of finished consultant episodes (FCEs) and patients at the Kettering general hospital national health service trust for each year between 1997–98 and 2003–04

	FCEs	*Patient counts*
1997–98	59,793	34,983
1998–99	62,318	36,976
1999–2000	63,485	37,414
2000–01	64,701	38,685
2001–02	64,101	39,724
2002–03	60,141	37,168
2003–04	65,229	39,888

Notes:
1. A FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
2. Patient counts are based on the unique patient identifier HESID. This identifier is derived based on patient's date of birth, postcode, sex, local patient identifier and NHS number, using an

agreed algorithm. Where data are incomplete, HESID might erroneously link episodes or fail to recognise episodes for the same patient. Care is therefore needed, especially where duplicate records persist in the data. The patient count cannot be summed across a table where patients may have episodes in more than one cell.
3. Figures have not been adjusted for shortfalls in data—that is, the data are ungrossed. Hospital episode statistics, NHS Health and Social Care Information Centre.

Mr. Hollobone: To ask the Secretary of State for Health how many beds have been available at Kettering general hospital in each year since 1997, broken down by major category. [24751]

Ms Rosie Winterton: The information requested is shown in the following table.

Average daily number of available beds by sector, Kettering general hospital national health service trust, 1997–98 to 2004–05

	Total	*General and acute*	*Acute*	*Geriatric*	*Mental illness*	*Learning disability*	*Maternity*
1997–98	481	446	446	0	0	0	35
1998–99	482	440	440	0	0	0	42
1999–2000	482	435	435	0	0	0	47
2000–01	496	445	445	0	0	0	51
2001–02	517	452	452	0	0	0	65
2002–03	533	468	468	0	0	0	65
2003–04	527	470	470	0	0	0	57
2004–05	512	456	456	0	0	0	56

Department of Health form KH03.

Market Research

Tim Loughton: To ask the Secretary of State for Health how much has been paid to *(a)* Opinion Leader Research and *(b)* market research companies by her Department in each of the last three years. [24315]

Jane Kennedy: A list of expenditure on market research in each of the last three years could be provided only at disproportionate costs.

The Department is committed to consulting and involving the public to help inform both policy formulation and the delivery of better quality public services. Responsive public services are an important part of the Modernising Government initiative.

The Department only conducts or commissions market research when it is justified by the needs of the policy programme and is the most economical, efficient and effective way to achieve the purpose.

Mental Health

Dr. Gibson: To ask the Secretary of State for Health which recommendations of the Government's working group on the Mental Health Act 1983 were *(a)* adopted and *(b)* rejected; and if she will list the members of the working group. [22202]

Ms Rosie Winterton: An expert committee was appointed in October 1998 to review the Mental Health Act 1983. This was chaired by Professor Genevra Richardson and the committee is generally referred to as the Richardson Committee.

The Richardson Committee produced its Report in July 1999, which was published along with the November 1999 Green Paper, "Reform of the Mental Health Act 1983", which sought views on the various recommendations of the Richardson Committee. The Green Paper was followed by the White Paper, "Reforming the Mental Health Act 1983" and a draft Bill for consultation in 2002.

The responses from this consultation and further work resulted in a revised draft Mental Health Bill, which was published in September 2004. This was the subject of pre-legislative scrutiny, which resulted in a report in March 2005, a response to which was published in July 2005. The recommendations from the Richardson Committee have, therefore, been subject to considerable discussion and development over the course of the last five years and it is not possible to assess each of the recommendations in terms of whether they have been adopted or rejected.

The Richardson Report lists all members. This is available on the Department's website at www.dh.gov.uk/assetRoot/04/06/26/14/04062614.pdf

Mr. Graham Stuart: To ask the Secretary of State for Health what estimate she has made of the number of people likely to be eligible for placement under community treatment orders under proposals in the draft Mental Health Bill. [23152]

Ms Rosie Winterton: The Government's modelling assumption is that around 10 per cent. of treatment orders will be community-based in the early years of the new Mental Health Act. Ensuring that professionals use involuntary community-based treatment appropriately is more critical than arbitrarily specifying the number of people who will be subject to community treatment orders.

Mr. Lansley: To ask the Secretary of State for Health pursuant to her Department's press release dated 20 October, on capital investment in mental health services, whether capital investment will be made available to NHS mental health trusts which are anticipating year-end financial deficits on their income and expenditure account. [25302]

Ms Rosie Winterton: We expect the £130 million capital investment in mental health services announced on 20 October to be distributed to national health service mental health trusts in 2006–07 and 2007–08, based on need and investment plans. Until this allocation process is under way, we cannot say which trusts will receive this funding.

Andrew Rosindell: To ask the Secretary of State for Health what action is being taken by the Government to improve the standards of mental health hospitals. [26473]

Ms Rosie Winterton: We published the national service framework for mental health (NSF) in 1999, which sets out a comprehensive vision for transforming mental health care in England to 2009. Since 1999, we have increased spending on mental health services by more than £1 billion, from £4.07 billion in 1999–2000 to £5.09 billion in 2003–04. On 20 October, we announced a £130 million capital investment programme, which will be allocated to strategic health authorities from 2006.

This funding will help to update acute in-patient wards and psychiatric intensive care units (PICUs). Standard five of the NSF, "Hospital and Crises Accommodation", is dedicated to mental health hospitals and it signals our determination to improve the experience of service users who require hospital or PICU admission. This has been followed by departmental guidance, "National Minimum Standards for General Adult Services in PICUs and Low Secure Environments" (2002). The National Institute of Mental Health in England is implementing this guidance as one of its core programmes.

Methylphenidate

Tim Loughton: To ask the Secretary of State for Health what the annual percentage change was in prescriptions of methylphenidate to children since 1995. [24026]

Jane Kennedy: The Department do not hold information on who receives medication and so does not have information by age. However we do have data, which are sample based, for exemption categories not required to pay a charge. This is shown in the table.

Estimates of annual percentage increase in prescriptions of methylphenidate to children since 2000

	Percentage
2000	18.2
2001	21.4
2002	19.7
2003	22.6
2004	12.6

The data include children under 16 years and young people in full-time education aged 16 to 18. Information is not available for the earlier period requested.

Ministerial Visits

Steve Webb: To ask the Secretary of State for Health at what time she *(a)* arrived at and *(b)* left the Your Health, Your Care, Your Say event in Birmingham on 29 October. [25538]

Ms Hewitt *[holding answer 7 November 2005]:* I arrived at the 'Your Health, Your Care, Your Say' citizens' summit in Birmingham before 9 am on Saturday 29 October and left at 4.45 pm. I opened the event at 9.30 am with some introductory remarks and ended the day with reflections on what was heard.

MMR Vaccines

Tim Loughton: To ask the Secretary of State for Health from which countries United Kingdom registered companies that provide MMR vaccines to the NHS source their products. [24316]

Caroline Flint: Measles, mumps and rubella (MMR) vaccines are supplied to the national health service by GlaxoSmithKline and Sanofi Pasteur MSD. GlaxoSmithKline's MMR vaccine is manufactured in Belgium. Sanofi Pasteur MSD manufactured their MMR vaccine in the United States of America and the Netherlands.

NHS Dentistry

Mr. Hepburn: To ask the Secretary of State for Health how much her Department spent per capita on NHS dentistry in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [21045]

Ms Rosie Winterton: The estimated spend per capita on the general dental service (GDS) in Jarrow constituency in the year ending 31 March 2001 was £23.38. Figures for other years are not available because population estimates for other years are not available.

Estimates of spend per capita on the GDS in South Tyneside, the North East Government office region (GOR), Northumberland, Tyne and Wear strategic health authority (SHA) and in England for the years ending as at 31 March for 1998 to 2004 are shown in the table.

These estimates do not include expenditure on national health service dental services for pilot personal dental services agreements or the community (salaried) dental service.

Estimated spend per capita on GDS dentistry in Northumberland, Tyne and Wear SHA area, North East GOR and England as at year end 31 March for each year

£

	South Tyneside local authority area	Northumberland, Tyne and Wear SHA	North East GOR	England
1998	22.18	18.98	19.31	18.07
1999	23.85	20.28	20.58	19.00
2000	25.15	20.88	21.26	19.54
2001	26.99	21.38	22.00	20.23
2002	27.26	23.22	23.84	21.66
2003	28.21	24.25	24.64	22.19
2004	28.76	25.46	26.09	23.42

Notes:

1. Figures have been provided by the NHS Health and Social Care Information Centre. The data sources are the Dental Practice Board and the Office of National Statistics.

2. South Tyneside local authority area includes Jarrow and South Shields constituency areas.

3. Spend per capita was calculated by taking the total fees plus commitment payments less revenue from patient charges divided by the population.

Mr. Jenkins: To ask the Secretary of State for Health how much her Department has spent per capita on NHS dentistry in *(a)* the Tamworth constituency, *(b)* Staffordshire, *(c)* the West Midlands and *(d)* England in each year since 1997. [22474]

Ms Rosie Winterton: The estimated spend per capita on the general dental service (GDS) in Tamworth constituency in the year ending 31 March 2001 was £11.83. Figures for other years are not available because population estimates for other years are not available.

Estimates of spend per capita on the GDS in Staffordshire, the West Midlands Government office region (GOR), Shropshire and Staffordshire strategic health authority (SHA) and in England for the years ending as at 31 March for 1998 to 2004 are shown in the table.

These estimates do not include expenditure on national health service dental services for pilot personal dental services agreements or the community (salaried) dental service.

Estimated spend per capita on GDS dentistry in Shropshire and Staffordshire SHA area, West Midlands GOR and England as at year end 31 March for each year

£

	Staffordshire local authority area	Shropshire and Staffordshire SHA	West Midlands GOR	England
1998	14.44	13.72	16.66	18.07
1999	14.99	14.24	17.64	19.00
2000	15.39	14.71	18.35	19.54
2001	15.93	15.36	18.86	20.23
2002	16.52	16.58	20.37	21.66
2003	16.89	16.99	21.31	22.19
2004	17.41	17.87	22.86	23.42

Notes:

1. Figures have been provided by the NHS Health and Social Care Information Centre. The data source is the Dental Practice Board and the Office of National Statistics.

2. Staffordshire local authority area includes Burton, Cannock Chase, Lichfield, Newcastle-under-Lyme, South Staffordshire, Stafford, Staffordshire Moorlands, Stoke-on-Trent North, Stone and Tamworth constituency areas.

3. Spend per capita was calculated by taking the total fees plus commitment payments less revenue from patient charges divided by population.

Mr. Holloway: To ask the Secretary of State for Health how many NHS dentists have been practising in the Gravesham constituency in each year since 1997. [24134]

Ms Rosie Winterton: The number of dentists in the Gravesham parliamentary constituency area as at 30 September each year are shown in the table.

General dental services and personal dental services dentists practising in Gravesham, 1997 to 2005

	Number
1997	40
1998	40
1999	36
2000	35
2001	32
2002	31
2003	35
2004	34
2005	41

Source:

National Health Service Health and Social Care Information Centre.

Mr. Andrew Turner: To ask the Secretary of State for Health pursuant to the answer of 13 July 2005, *Official Report*, column 1139W, on dentistry, how many NHS dentists were in place in each of the primary care trusts covering *(a)* the Isle of Wight, *(b)* Milton Keynes, *(c)* South West Devon, *(d)* Torbay, *(e)* Plymouth, Devonport, *(f)* Teignbridge, *(g)* Romsey, *(h)* West Hampshire, *(i)* Broxbourne and *(j)* Hitchin and Harpenden constituency at the most recent date for which information is available; and what proportion of the resident (i) under 18 and (ii) over 18 years population was known to be registered with an NHS dentist at the most recent date for which information is available in each case. [25710]

Ms Rosie Winterton *[holding answer 8 November 2005]:* The information requested on the number of dentists in the primary care trusts (PCTs), broken down by geographical area, as at September 2005, is shown in table 1.

Information on the number of patients under and over the age of 18 registered with a national health service dentist, as at September 2005, is shown in table 2.

Table 1: General dental services (CDS) and personal dental services (PDS): number of dentists in the specified geographical areas as at 30 September 2005

	PCT	Number
5CQ	Milton Keynes PCT	116
5CV	South Hams and West Devon PCT	49
5CW	Torbay PCT	74
5DG	Isle of Wight PCT	56
5F1	Plymouth Teaching PCT	126
5GG	Welwyn Hatfield PCT	68
5GH	North Hertfordshire and Stevenage PCT	97
5GJ	South East Hertfordshire PCT	99
5GX	St. Albans and Harpenden PCT	97
5FY	Teignbridge PCT	54
5LY	Eastleigh and Test Valley South PCT	88
5DF	North Hampshire PCT	96
	Hitchin and Harpenden Parliamentary constituency	63

Notes:

1. The dentists include principals, assistants and trainees. Prison contracts are excluded from the data.

2. The postcode of the dental practice was used to allocate dentists to specific geographical areas. Parliamentary constituency and PCT areas have been defined using the Office for National Statistics all fields postcode directory.

Table 2: NHS dentistry registrations and estimated registrations rate in specific geographical areas, by adult and child, as at 30 September 2005

		CDS and PDS registration[1]			Estimated registration rates[2] (percentage)		
		Adult	Child	All	Adult	Child	All
5CQ	Milton Keynes	58,983	31,976	90,959	36	59	41
5CV	South Hams and West Devon	18,625	13,290	31,915	21	57	29
5CW	Torbay	41,496	16,078	57,574	40	61	44
5DG	Isle of Wight	24,432	13,888	38,320	22	51	28
5FI	Plymouth	89,943	42,343	132,286	47	81	55
5GG	Welwyn Hatfield	35,215	14,792	50,007	46	68	51
5GH	North Hertfordshire and Stevenage	67,121	30,146	97,267	48	71	54

Notes:
1. Registration data include personal dental service counts of patients seen in the past 15 months as a proxy for registrations for some schemes. This is to give greater consistency with registrations data for the GDS, which has a 15 month re-registration period. Many PDS schemes use longer periods and some, such as dental access centres, do not require patients to register.
2. Registration rates (the percentage of the population registered with a dentist) have been estimated by including registrations in the area of the dentist, that is according to the postcode of the dental surgery and not the patient's address. So the registration rates for some areas may be affected by some patients receiving dental treatment in a different area from the one in which they live. The figures were calculated using population estimates for the primary care trust areas for the nearest year for which data is available.
Source:
NHS Health and Social Care Information Centre.

Mr. Vaizey: To ask the Secretary of State for Health how many NHS dentists there were per 1,000 people in *(a)* Oxfordshire and *(b)* Wantage constituency in (i) 1997 and (ii) 2005. [25356]

Ms Rosie Winterton: The information requested on the number of dentists in Oxfordshire and Wantage is shown in the following table.

General dental services and personal dental services: numbers of dentists and dentists per 1,000 population

	Number of dentists		Number of dentists per 1,000 population	
	1997	2005	1997	2005[1]
Oxfordshire County	221	343	0.4	0.6
Wantage parliamentary constituency	31	50	[2]n/a	[2]n/a

[1] 2005 data has been calculated on 2004 population data, as this is the latest available.
[2] Population data at parliamentary constituency area is not available.

Daniel Kawczynski: To ask the Secretary of State for Health (1) how many dentists serve the Shropshire Primary Care Trust; [25333]

(2) how many dentists in Shrewsbury and Atcham constituency *(a)* operate fully within the NHS and *(b)* only offer NHS treatment for children. [25336]

Ms Rosie Winterton: As at 30 September 2005, there were 153 national health service dentists with a general dental services (GDS) or personal dental services (PDS) contract within Shropshire County Primary Care Trust (PCT).

As at 30 September 2005, there were 80 NHS dentists with either a GDS or PDS contract within Shrewsbury and Atcham parliamentary constituency.

The data source is the Dental Practice Board. A dentist with a GDS or PDS contract may provide as little or as much NHS treatment as he or she chooses or has agreed with the relevant PCT. The Dental Practice Board has no information concerning the amount of time dedicated to private or NHS work by individual dentists.

Information about who dentists offer to treat is not collected centrally. However, an analysis of NHS patient registrations data as at 1 June 2005 shows that within Shropshire County PCT there were six dentists having only children registered. This analysis is not available at parliamentary constituency area.

NHS Finance

Mr. Lansley: To ask the Secretary of State for Health what the budgets for *(a)* recurrent operating costs, excluding capital charges but including income from other sources, and *(b)* all operating costs, including both revenue and capital, of the (i) Health Protection Agency, (ii) National Radiological Protection Board and (iii) Public Health Laboratory Service have been in each year since 1997–98 in (A) nominal and (B) real terms. [23110]

Caroline Flint: The published accounts of each body give details of its operating costs, including revenue and capital, as well as income from other sources. The relevant accounts, which are available in the Library, are as follows:

Health Protection Agency (special health authority) 2003–04, 2004–05.

Public Health Laboratory Service: 1997–98, 1998–99, 1999–2000, 2000–01, 2001–02, 2002–03, 2003–04. The 2004–05 accounts will be available shortly.

National Radiological Protection Board: 1997–98, 1998–99, 1999–2000, 2000–01, 2001–02, 2002–03, 2003–04, 2004–05.

Expressing the data in real terms would be likely to be misleading, owing to changes in functions over the extended periods involved.

NHS Services

Mr. Laurence Robertson: To ask the Secretary of State for Health how much of the £250 million efficiency savings planned for the NHS will be re-directed to front-line services; what proportion will be allocated to Gloucestershire; and if she will make a statement. [24931]

Ms Rosie Winterton: The £250 million savings in management and administration costs will be re-directed in total to front-line services. The required savings have been apportioned over the 28 strategic health authorities (SHAs). The total apportioned required savings for the Avon, Gloucestershire and Wiltshire SHA is £10 million. It is for each SHA to determine with its primary care trust (PCT) how the required savings should be apportioned over the SHA and each PCT in the area and this will depend on the configuration of the SHA and PCTs which is subject to public consultation over the coming weeks.

Parliamentary Question

Steve Webb: To ask the Secretary of State for Health when she will answer the question on *Clostridium difficile*, reference 9380, tabled by the hon. Member for Northavon on 29 June. [20131]

Jane Kennedy: I replied to the hon. Member on 17 October 2005, *Official Report*, column 763W.

Pharmaceutical Price Regulation Scheme

Mr. Hollobone: To ask the Secretary of State for Health (1) if she will delay the standard branded generics review until the completion of the Office of Fair Trading market study into the Pharmaceutical Price Regulation Scheme; [25351]

(2) when a decision is expected on the current standard branded generics; and whether the Office of Fair Trading inquiry into the Pharmaceutical Price Regulation Scheme has an impact on its outcome; [25352]

(3) what discussions she has had with the Office of Fair Trading regarding its inquiry into the Pharmaceutical Price Regulation Scheme; [25353]

(4) whether standard branded generics are covered by the Pharmaceutical Price Regulation Scheme. [25360]

Jane Kennedy *[holding answer 7 November 2005]:* Standard branded generics are covered by the provisions of the pharmaceutical price regulation scheme (PPRS), subject to the outcome of a public consultation on proposals to transfer them to arrangements for the reimbursement for generic medicines. The Department is currently reviewing the responses to proposals that a specified list of oral solid dose standard branded generics should be removed from the PPRS. These responses require, and will be given, careful consideration. The Department will not rush to a conclusion or set any deadline that may constrain its deliberations.

Departmental officials have held preliminary discussions with the Office of Fair Trading on its market study into the PPRS.

Primary Care Trusts (Oxfordshire)

Tony Baldry: To ask the Secretary of State for Health (1) who will be responsible for the drafting of contracts between the Thames Valley Strategic Health Authority and private sector providers of management services for the Primary Care Trust in Oxfordshire; who will take responsibility for ensuring that such contracts comply with existing NHS rules on consultation and patient and public involvement; and if she will make a statement; [20398]

(2) what discussions she has had with the *(a)* chairman and *(b)* chief executive of the Thames Valley Strategic Health Authority on proposals to transfer the management of primary care trusts in Oxfordshire to the private sector; and if she will make a statement; [20406]

(3) under what statutory provision the Thames Valley Strategic Health Authority will appoint a board of non-executive directors to the Oxfordshire Primary Care Trust to oversee the awarding of a contract for the procurement of the management of primary care trust services in Oxfordshire; [20407]

(4) whether contracts for the commissioning of the management of primary care trust services in Oxfordshire will be *(a)* available for public scrutiny and *(b)* treated as commercial in confidence. [20408]

(5) what discussions her Department has had with the Royal College of Nursing on putting the management of the proposed new Oxfordshire primary care trust out to tender to the private sector. [20896]

Ms Rosie Winterton: No decision has yet been taken on the possibility of any strategic health authority (SHA) tendering for the private sector provision of management services for future primary care trusts (PCTs). Accordingly, no moves to facilitate this option, such as creating frameworks for drawing up tendering contracts or appointing non-executive directors have been taken, either.

SHAs, not the Department, are to lead discussions locally with stakeholder groups regarding options for the reconfiguration of PCTs, as they can give greater consideration to local contexts and nuances when developing proposals. As such, no discussions have been held with either the Royal College of Nursing or the chair and chief executive of Thames Valley SHA on the content of their proposals. All proposals will shortly be assessed by an independent panel representing a wide range of stakeholders, against the criteria identified in the document, "Commissioning a Patient-Led NHS". If proposals are adjudged to have met these criteria, they will be subject to a full, three month public consultation. Decisions on the suitability of any proposal will not be taken until this process has been completed.

Public Opinion Surveys

Steve Webb: To ask the Secretary of State for Health how many public opinion surveys were conducted by her Department and its arm's length bodies in the last six months; what the *(a)* subject matter, *(b)* date, *(c)* cost and *(d)* company used to conduct the research was in each case; and if she will place copies of the results of each survey in the Library. [26548]

Jane Kennedy: The Department commissions public opinion surveys on various subjects when this is the most effective and appropriate means of building up an evidence base on which to take policy development forward. The information requested could be obtained only at disproportionate cost.

The Department does not monitor the number, cost or subject matter of public opinion surveys commissioned by its arm's length bodies.

Rehabilitation (Milton Keynes)

Mr. Lancaster: To ask the Secretary of State for Health what was the average number of specialist rehabilitation beds per 1,000 people in North East Milton Keynes in the latest year for which figures are available. [22714]

Ms Rosie Winterton: Information about the number of specialist rehabilitation beds is not collected or held centrally by the Department. All data relating to bed provision which are collected by the Department are shown on its website at:

www.performance.doh.gov.uk/hospitalactivity/data_requests/beds_open_overnight.htm

SARS

Andrew Rosindell: To ask the Secretary of State for Health what discussions she has had with Havering council regarding contingency plans in the event of a SARS or tuberculosis epidemic in that area. [22968]

Jane Kennedy: The Department has not had any direct contact with Havering council to discuss contingency plans for an epidemic of severe acute respiratory syndrome (SARS) or tuberculosis (TB).

The Department's emergency preparedness division has regular liaisons and discussions with the strategic health authorities' (SHAs) emergency planning leads. The SHAs have responsibility for ensuring that all national health service trusts have major incident plans in place and are prepared to deal with a range of incidents that include SARS and other infectious diseases. These plans are developed with multi-agency input and are regularly tested and reviewed.

With regard to TB, the Chief Medical Officer launched the TB action plan in October 2004. The plan is a commitment to tackle rising rates of TB through 10 key areas of work, and identifies some of the underlying reasons for the rise in TB rates. This is a national plan for England and local TB services are expected to develop their own plans reflecting local conditions.

Local TB outbreaks are managed in accordance with standard procedures by local health protection units, which are part of the Health Protection Agency. In the event of a TB outbreak, the local consultant in communicable disease control would trace contacts of people who had significant exposure to someone with TB. Those contacts would be screened for disease and treated as appropriate.

The plan is available on the Department's website at

www.dh.gov.uk/PublicationsAndStatistics/Publications/PublicationsPolicyAndGuidance/PublicationsPolicyAndGuidanceArticle/fs/en?CONTENT_ID=4090417&chk=DsgbSP

SARS is not currently regarded as being a world-wide problem. The last cases were in China in 2004. However, the possibility of SARS re-emerging remains and there is a need for continuing vigilance. Clinicians and other healthcare professionals have been asked to remain vigilant to the possibility of SARS, even though the threat to the United Kingdom remains low at this time.

Information on SARS and guidance documents are available on the Health Protection Agency's website at

www.hpa.org.uk/infections/topics_az/SARS/menu.htm

and also on the Department's website at

www.dh.gov.uk/PolicyAndGuidance/HealthAndSocialCareTopics/SevereAcuteRespiratorySyndrome/SARSGeneralInformation/fs/en

Smoking

Mr. Lansley: To ask the Secretary of State for Health what evidence was used to inform paragraph 45 of the individual regulatory impact assessment on the smoke free aspects of the Health Bill, presented on 27 October 2005, with particular reference to the statement that the Department does not consider these measures will disadvantage any group; and if she will make a statement. [25268]

Caroline Flint: The assessment in the "Equity and Fairness including race equality assessment" section of the partial regulatory impact assessment reflects issues raised during the development of choosing health. The particular issue of hookah pipes has been highlighted in response to concerns raised previously. Any additional evidence brought forward will be included in informing the final regulatory impact assessment.

Staff Dismissals

Mike Penning: To ask the Secretary of State for Health how many staff employed in her Department in *(a)* 2003–04, *(b)* 2004–05 and *(c)* in the six months to 30 September have been dismissed, or have had their employment contract otherwise terminated, for failure to perform to the standard expected; and if she will make a statement. [24720]

Jane Kennedy: The numbers of staff who have been dismissed by the Department through either reasons of inefficiency or discipline are shown in the following table.

Year dismissed	*Total*
April 2003 to March 2004	5
April 2004 to March 2005	2
April 2005 to September 2005	1
Grand total	8

Sun Beds

Mrs. James: To ask the Secretary of State for Health (1) what regulations apply to the operation of *(a)* sun bed tanning retail outlets with staff and *(b)* coin-operated outlets with no staff; and if she will make a statement; [20809]

(2) what guidance is given to local authorities on the operation of sun tanning beds in council-owned leisure and sports centres. [20812]

Caroline Flint: There are no specific regulations that apply to sun bed establishments with or without staff. The Health and Safety Executive however issued guidelines in 1995 on the use of sun beds for both operators and customers, including those operated in facilities owned by local authorities. The guidance was developed in consultation with the Department and leading experts. Cancer Research UK is in discussions with the sun bed industry to review industry practices and self-regulation. This involves improving information for both staff and customers, including the displaying of information about the use of sun beds and their risks to health.

Swale Primary Care Trust

Derek Wyatt: To ask the Secretary of State for Health when the Kent and Medway strategic health authority was first informed of the deficit at Swale primary care trust; what action it took; and how many meetings it has since held of non-executive directors of the board to discuss the matter. [24621]

Caroline Flint *[holding answer 3 November 2005]:* Kent and Medway strategic health authority (SHA) was aware toward the end of financial year 2004–05 that Swale primary care trust (PCT) had underlying financial problems. The PCT reported an audited year-end position of £0.45 million overspent.

The SHA therefore required the PCT to develop a robust financial recovery plan to deliver financial balance this year (2005–06).

Delivery of the financial recovery plan has been monitored and performance managed through formal monthly performance meetings, and through individual meetings between officers of the SHA and the PCT, including the direct engagement of the SHA's chief executive. Meetings have also taken place between the SHA's chair and both the current and former chairs of Swale PCT.

This is a local matter. Responsibility for decisions about funding and the provision of local health services now rest with PCTs. It is for PCTs, in conjunction with SHAs to plan and develop services according to the needs of local people.

National health service bodies must live within their means. It is the responsibility of SHAs to deliver both overall financial balance for their local health communities and to ensure each and every body achieves financial balance.

Uterine Fibroids

Jessica Morden: To ask the Secretary of State for Health what research her Department has conducted into the long-term economic and social effects of minimally invasive technologies for the treatment of uterine fibroids. [24365]

Jane Kennedy: None.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Avian Influenza

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how much the UK Government has spent on preventing Avian influenza being brought into the UK in each year from 1998 to 2005. [22861]

Mr. Bradshaw: There is no dedicated funding spent on preventing Avian influenza from entering the UK. Guarding against Avian influenza is part of a wider disease prevention programme (including border controls and quarantine procedures). To enhance emergency preparedness against Avian influenza, Defra is planning to spend over £6 million in 2005–06.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance her Department has issued to the public concerning *(a)* the Government's policy on Avian influenza, *(b)* the length of the ban on poultry at markets, shows and fairs determined by Decision 2005/745/EC, *(c)* the provisions under which the ban as determined by Decision 2005/745/EC can be (i) renewed and (ii) revoked, *(d)* which species of birds are affected, *(e)* the circumstances under which events such as market, shows and fairs can proceed subject to a veterinary risk assessment and *(f)* the details of how a veterinary risk assessment can be obtained; for what reasons this information is not available on her Department's website; and if she will make a statement. [24843]

Mr. Bradshaw: The information requested is as follows:

(a) The Department has distributed guidance materials on Avian influenza to our partners in the industry—including the British Poultry Council, the British Egg Industry Council and the National Farmers Union—who are helping to distribute this material to their members, who cover the majority of birds. A simple one-page leaflet on biosecurity and surveillance for smaller concerns and back yard keepers has also been produced and is being distributed widely including to all veterinary practices and placed in trade and specialist press targeting the same audience. All this information is available on my Department's website and I am placing copies in the Library of the House.

(b) Commission Decision 2005/734 amended by 2005/745 prevent the gathering of birds and is in place until 30 November, but in view of the current disease situation is likely to be rolled forward. These decisions are implemented in the UK by The Avian Influenza (Preventive Measures) Regulations 2005 and is not time limited.

(c) The Standing Committee on Food Chain and Animal Health (SCoFCAH) together with member states will consider whether the decision should be reviewed or revoked based on their assessment of the veterinary risk.

(d) The legislation covers all species of birds.

(e) The Department, on veterinary advice, has carried out a preliminary risk assessment which takes a precautionary approach to the risk of transmission of highly pathogenic Avian influenza attached to

gatherings of birds. This has shown that gathering of specified types of birds may be permitted under certain conditions.

At present low risk gatherings can be licensed. This means the gathering can only consist of budgerigars, canaries, zebra finches, Bengalese finches and birds classed by fanciers as "British" birds (i.e. captive bred birds of species native to the British Isles, not including pigeons, poultry and waterfowl). The show organiser must agree to meet a number of conditions such as record keeping and biosecurity measures before a licence is granted. Sales from licensed gatherings are not permitted.

Gatherings of other birds including poultry, waterfowl, pigeons and exotic species are considered to be higher risk. Conditions under which shows of higher risk birds might be permitted to take place are still under consideration. Such gatherings will not be licensed until we are confident that they can take place without undue risk.

(f) Information about how to apply for a licence is available from local Animal Health Divisional Offices and comprehensive guidance has been available on the Defra website since the beginning of November.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will introduce further control on the importation of wild birds as pets. [20945]

Mr. Bradshaw *[holding answer 24 October 2005]:* On 28 October, the EU introduced an extensive ban on imports into the Community of captive birds, along with new restrictions on the importation of pet birds. UK import rules have been amended to reflect this. In line with EU-wide measures, we had previously banned imports of all live birds and products from countries with the H5N1 strain of avian influenza.

Bird Markets

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government had plans to ban bird markets, fairs and shows prior to the European Commission decision. [27560]

Mr. Bradshaw: The Government had discussed with stakeholders, and placed on the Defra website, an analysis of the possible precautionary measures that could be adopted, but there were no plans to ban bird markets, fairs and shows prior to the European Commission decision.

Cars (Air Conditioning)

Mr. Spellar: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment her Department has made of the effects of the use of air conditioning on the *(a)* fuel efficiency and *(b)* carbon dioxide emissions of cars. [27429]

Mr. Morley: The 2002 report by TNO Automotive for the European Commission, "Options to integrate the use of mobile air conditioning systems and auxiliary heaters into the emission type approval test and the fuel consumption test for passenger cars" found that in Northern Europe an average car fitted with an air conditioner consumed an extra 0.21 litres per 100 kilometres. This corresponds to an additional fuel requirement of about 3 per cent. on average fuel consumption for a new car sold today. Carbon dioxide emissions are almost directly proportional to fuel consumption implying that the average vehicle would see a carbon dioxide penalty of about 5g/km over its lifetime.

Circus Animals

Mr. Byers: To ask the Secretary of State for Environment, Food and Rural Affairs if she will introduce legislation to ban the use of animals in circuses. [27059]

Mr. Bradshaw *[holding answer 10 November 2005]:* There are no plans to ban the use of animals in circuses in the absence of evidence that it is not possible to meet their welfare needs in a circus environment. However, the introduction of a welfare offence under the Animal Welfare Bill will require the person responsible for an animal to take reasonable steps to ensure its welfare. In addition we propose to overhaul the existing legislation in relation to performing animals. We consider that our proposed changes will lead to significant improvements in the welfare of animals used in circuses.

Emissions Trading Scheme

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the progress being made towards the inclusion of aviation in the EU Emissions Trading Scheme, with particular reference to *(a)* the date this is likely to occur and *(b)* the emissions ceiling to be applied. [27910]

Mr. Morley: The European Commission adopted a Communication on reducing the climate change impact of aviation, favouring the inclusion of the climate impact of aviation into the EU Emissions Trading Scheme (EU ETS). They aim to bring forward a legislative proposal by the end of 2006. This is a key step in progressing work on this agenda and we have made this a priority for the UK Presidency of the EU. Our aim is to reach a consensus on the way forward at the December Environment Council.

An emissions ceiling or cap like other scheme details will be subject to negotiation with other member states. The Commission have set up an Aviation Working Group under the European Climate Change Programme, which will begin to consider the cap and allocation methodology at its meeting on 17 February.

Energy Efficiency

Peter Law: To ask the Secretary of State for Environment, Food and Rural Affairs if she will place in the Library copies of papers distributed at the conference jointly held in London with the European Commission on 2 November entitled Europe and an Energy Efficient World: Acting and Learning Together; what assessment she has made of the benefits which will accrue to companies in *(a)* Wales and *(b)* Blaenau Gwent from the new initiatives proposed; and if she will make a statement. [25863]

Mr. Morley: Conference proceedings are being collated in time for the United Nations Climate Change Conference (COP 11 and COP/MOP1) in Montreal, which commences on 28 November. I have asked for copies to be placed in the Library. All papers will be placed on the conference website: http://olive360.com/defra/energyefficiency together with the many case studies that participants have forwarded to us.

The purpose of the conference was to bring together representatives from a wide range of countries and with a wide range of backgrounds in energy efficiency and to learn from the richness of their experiences. The conference considered policy issues surrounding the promotion of energy services, better products standards and labelling and how better to engage with and involve citizens in energy efficiency. Summary papers of the discussions will be used to inform several activities.

It will inform debate on the European Commission's Green Paper on Energy Efficiency; the development of the EU Action Plan on Energy Efficiency and the wider EU framework of legislation and programmes, including R&D into energy efficiency, which will have a direct impact on UK energy efficiency policy and hence potentially on individual firms and businesses. No assessment has been made of the specific benefits to companies in Wales or Blaenau Gwent.

It will inform the UK's preparations for the UN Commission on Sustainable Development's review of the energy commitments in the Johannesburg Plan of Implementation in 2006–07.

Furthermore, members of the Task Force on Sustainable Products under the UNEP Framework Programme on Sustainable Consumption and Production were present at the conference and used the debate on international product policy to inform their meeting held on 4 November in London.

We will use the conclusions in our discussions on practical measures to support our G8 commitments to increase efforts on energy efficiency domestically and across the world. We will also ensure that the conference proceedings are circulated to G8 colleagues, in recognition of the importance of energy efficiency in the Gleneagles Plan of Action.

Environmental Noises

Mr. Paul Goodman: To ask the Secretary of State for Environment, Food and Rural Affairs when Directive 2002/49/EC on assessment and management of environmental noises will be transposed into UK law. [27586]

Mr. Bradshaw: Following public consultation earlier on in the year, the adoption of regulations for the transposition of the environmental noise directive (2002/49/EC) in England is currently being finalised. A draft of the regulations is currently being sent out to environmental noise specialists for a short, technical consultation. This was considered a useful further step to take in light of the very technical nature of the subject matter. Following the conclusion of the second consultation around the end of November, the draft regulations will be finalised and then laid before Parliament. The Government are working towards an adoption date of the end of this year/beginning of next.

Greenhouse Gasses

Mr. George Howarth: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the level of greenhouse gas emissions generated by the powering of street lights in 2004–05. [28075]

Mr. Morley: The 2005 Digest of UK Energy Statistics (DUKES) indicates that electricity consumption by public lighting was 1,991 Gigawatt-hours in 2004. This implies that street lighting was responsible for emissions of about 0.3 million tonnes of carbon in 2004.

Warm Front Scheme (Milton Keynes)

Mr. Lancaster: To ask the Secretary of State for Environment, Food and Rural Affairs how many residents in the North-East Milton Keynes constituency were *(a)* eligible for and *(b)* received grants under the Warm Front Scheme in each of the last five years. [27202]

Mr. Morley: Information on the exact number of residents in North-East Milton Keynes eligible for Warm Front is not available. However, on the basis of the statistical modelling used by the Warm Front Scheme Manager it is estimated that around 4,800 households in North-East Milton Keynes could currently be eligible for assistance from the Scheme.

Between the launch of the Warm Front Scheme in June 2000 and the end of March 2005, the number of households assisted in each year in Nort-East Milton Keynes are as follows:

	Households assisted
2000–01	155
2001–02	210
2002–03	170
2003–04	206
2004–05	119
Total	860

DEPUTY PRIME MINISTER

0870 Numbers

Dr. Cable: To ask the Deputy Prime Minister if he will list the occasions in the last five years on which 0870 telephone numbers have been used by his Department as contact numbers for members of the public; and how much revenue was received from the use of 0870 contact numbers in each of the last five years for which records are available. [24462]

Jim Fitzpatrick: Over the last five years, the Office of the Deputy Prime Minister has not used any 0870 telephone numbers as contact numbers for members of the public.

Energy Efficiency

Mr. Chaytor: To ask the Deputy Prime Minister what proportion of current building stock in England meets the thermal insulation standards established by part J of the building regulations; what steps are being taken to

increase this proportion; and when he estimates the building stock will meet fully the new building standards. [23087]

Yvette Cooper: Part L applies whenever buildings are constructed, altered, extended or subjected to a material change of use. A further improvement in standards will come into effect next April. We estimate that around 2 to 4 per cent. of existing dwellings meet current (2002) part L insulation standards.

Separately, the Warm Front and Decent Homes programmes and the Energy Efficiency Commitment are increasing standards for existing homes. We are also undertaking a further review to consider how best to improve the sustainability of existing dwellings.

For buildings other than dwellings, around 4 per cent. of the total floor area meets current insulation standards, with up to a further 4 per cent. being upgraded each year. It is not economic or practical to improve all buildings to new building standards.

Fire Precautions Regulations

John McDonnell: To ask the Deputy Prime Minister what assessment has been made of the financial effects on the Transport industry of the revocation of the Fire Precautions (Sub-Surface Railway Stations) Regulations 1989. [26554]

Jim Fitzpatrick: The potential costs and benefits to businesses of operating under the Regulatory Reform (Fire Safety) Order 2005 were published in the Regulatory Impact Assessment (RIA) when the Order was laid before Parliament in May 2004. The analysis within the RIA analysis did not discuss the impact on particular business sectors. Copies of this document have been made available in the Library of the House.

Home Information Packs

Mrs. Spelman: To ask the Deputy Prime Minister what assessment he has made of whether larger or older homes are likely to incur higher costs in producing a home information pack than small or recently built houses; and if he will make a statement. [24674]

Yvette Cooper: Most of the documents required in the pack will not cost any more for a larger or older property than they would for a smaller or recently built house. For example, evidence of title and copies of warranties will be unaffected by the age or size of the property.

Searches are charged at a rate set by the local authority, irrespective of the size or location of the house. Consumers will, however, be able to have searches undertaken by a private search company which will charge at a market rate.

The cost of the Home Condition Report (HCR) will be determined by the market and will vary depending on the size and possibly the location and type of property.

Housing

Mr. Dismore: To ask the Deputy Prime Minister what the average weekly rent was for a new two-bed letting in a registered social landlord property in 2005. [24268]

Yvette Cooper: The average weekly rent, excluding service charges, for RSL lettings for two bedroom registered social landlord properties in the first six months of 2005 was £64.48. Information on rents charged by registered social landlords on new lettings is available from the Continuous REcording (CORE) of new lettings of the housing corporation.

Information on the average weekly rent, excluding service charges, for RSL lettings for two bedrooms at 31 March 2005 is for those dwellings for which a size breakdown is available was £61.13. This information is based on data collected by the housing corporation via the annual regulatory and statistical return.

Mr. Barstow: To ask the Deputy Prime Minister how many *(a)* short-term and *(b)* long-term empty properties there were in (i) England, (ii) each region and (iii) each London borough in each year since 1997. [24374]

Yvette Cooper: The available information has been placed in the Library of the House. Long TermVacant (LTV) dwellings are those that have been vacant for over six months.

The figures are based on two sources. The first is the council tax band 1 (CTB1) return data for the years from 2002 onwards. Council tax data collected before this year are considered unreliable. So from 2001 back to 1997, the combined data from the following two sources are used: local authorities' housing strategy statistical appendix (HSSA) returns for empty council and private sector dwellings; and housing corporation's regulatory statistical return (RSR) for empty registered social landlords (RSLs) properties. Since RSLs did not collect LTV data until 2005, only total vacant dwelling figures are available from this combined source. Therefore separate answers for *(a)* and *(b)* are not possible for 1997 to 2001.

Mr. Sheerman: To ask the Deputy Prime Minister what steps he is taking to provide affordable housing in *(a)* Huddersfield, *(b)* Yorkshire and *(c)* England. [24426]

Yvette Cooper: 'Sustainable Communities: Homes for All' sets out the Office of the Deputy Prime Minister's plans to deliver more affordable housing over the next five years. Measures include assisting around 100,000 first time buyers and key workers nationally to achieve their home ownership aspirations and, through investment and efficiency savings, to deliver 75,000 social rented homes by 2008. Future delivery of social housing after 2007–08 will be dependent on the outcome of the Spending Review 2007.

The 2003–05 Yorkshire and the Humber Regional Housing Strategy identified the provision of affordable housing in high demand areas as one of its priorities. Through the Regional Housing Board's 2004–06 investment programme over £57 million is being invested in affordable housing in West Yorkshire and £6.7 million in Kirklees. Of this, around £3.9 million has been invested in affordable housing schemes in Huddersfield and 104 affordable homes are being provided.

The provision of affordable housing in high demand areas remains a priority in the 2005 Regional Housing Strategy. The Housing Corporation are currently

working with sub-regional partnerships and local authorities to put together an affordable housing programme for 2006–08, which will lead to between £41 million and £45 million being invested in new affordable homes in West Yorkshire.

The Regional Housing Strategy also sets out other options for local authorities and their partners to consider in order to provide affordable homes, such as alternative sources of funding and capacity through the planning system. We have approved a PFI (Private Finance Initiative) scheme in Kirklees which is intended to provide 550 affordable housing units up to 2010. There will be 400 units for small households and 150 units for people requiring extra care housing. Kirklees council are also delivering around 100 affordable units a year through the planning system and section 106 agreements.

Mrs. Spelman: To ask the Deputy Prime Minister what process the Government plan to adopt in relation to the procedure for an owner reclaiming property seized by a local authority under an empty dwelling management order. [24588]

Yvette Cooper: Provisions in the Housing Act 2004 provide that an Empty Dwelling Management Order may be revoked before the order is due to cease either on the initiative of a local authority, or on application to the authority by a relevant person, provided the authority:

(a) conclude there are no steps they could appropriately take to secure occupation of the dwelling;

(b) is satisfied the dwelling will either become or continue to be occupied following revocation;

(c) is satisfied the dwelling is to be sold;

(d) a final or further final Empty Dwelling Management Order is to be made;

(e) conclude that revocation would be appropriate to prevent or stop interference with the rights of a third party;

(f) consider there are other circumstances for revoking the order.

If the dwelling is occupied at the time the revocation is proposed, the order may only be revoked with the consent of the relevant proprietor. A local authority may make revocation subject to payment of any expenditure properly incurred that has not already been recouped from rental income. A relevant person may appeal to a residential property tribunal against a decision of a local authority to revoke or refuse to revoke an Empty Dwelling Management Order.

Rosie Cooper: To ask the Deputy Prime Minister how many vacant homes there are in West Lancashire; and for what average period houses were vacant in each of the last three years. [27699]

Yvette Cooper: There were 1,386 empty homes in West Lancashire as at November 2004, the latest date for which figures are available. The data are as reported on CTB1 and CTB1S forms submitted by billing authorities to the Office of the Deputy Prime Minister each year. The figure includes both long and short-term empty properties.

Details of the average period for which houses were vacant are not held centrally and could be provided only at disproportionate cost.

Julia Goldsworthy: To ask the Deputy Prime Minister how many affordable housing units expected to be built or procured through the Housing Corporation Approved Development Programme were *(a)* mixed funded social rented housing, *(b)* temporary social rented housing, *(c)* homebuy general market purchase, *(d)* homebuy general new build, *(e)* mixed funded low cost home ownership for sale, *(f)* miscellaneous works to registered social landlord (RSL) stock, *(g)* reimprovements to rented RSL stock, *(h)* works-only rehabilitation of rented RSL stock, *(i)* works-only rehabilitation of RSL stock for sale, *(j)* intermediate rent for key workers, *(k)* homebuy market purchase for key workers, *(l)* homebuy new build for key workers, *(m)* mixed funded sale for key workers, *(n)* right to acquire, *(o)* voluntary purchase grant, *(p)* starter home initiative, *(q)* do-it-yourself shared ownership and *(r)* temporary intermediate and market rent housing in the South West Region in (i) 2005–06, (ii) 2006–07 and (iii) 2007–08; and how much was spent on each category in each year. [25548]

Yvette Cooper *[holding answer 7 November 2005]:* The tables show the latest estimated completions and expenditure in the South West region for 2005–06 through the Housing Corporation's Approved Development Programme for categories from *(a)* to *(r)*. Funding and completions are not directly comparable, as funding will relate to projects running, not necessarily units completed, in any one year.

Estimated completions for South West Region in 2005–06

		Units
(a)	Mixed Funded Social Rent	2,163
(b)	Temporary Social Rent	20
(c)	Homebuy Market Purchase	248
(d)	Homebuy New Build	17
(e)	Mixed Funded for Sale	737
(f)	Misc works to RSL stock	408
(g)	Reimprovements to RSL rented stock	21
(h)	Works only rehabilitation of RSL rented stock	35
(i)	Works only rehabilitation of RSL stock for Sale	0
(j)	Intermediate rent for Key Workers	0
(k)	Homebuy Market Purchase for Key Workers	0
(l)	Homebuy New Build for Key Workers	0
(m)	Mixed Funded for Sale for Key Workers	0
(n)	Right to Acquire	7
(o)	Voluntary Purchase Grant	14
(p)	Starter Home Initiative	0
(q)	Do-it-yourself-shared Ownership	0
(r)	Temporary intermediate and Market rent housing	0

Estimated expenditure in South West Region for 2005–06

		£ million
(a)	Mixed Funded Social Rent	68.106
(b)	Temporary Social Rent	0.463
(c)	Homebuy Market Purchase	8.615
(d)	Homebuy New Build	0.261
(e)	Mixed Funded for Sale	10.785
(f)	Misc works to RSL stock	1.957
(g)	Reimprovements to RSL rented stock	0.995
(h)	Works only rehabilitation of RSL rented stock	0.300
(i)	Works only rehabilitation of RSL stock for Sale	0.205
(j)	Intermediate rent for Key Workers	0.000
(k)	Homebuy Market Purchase for Key Workers	0.000
(l)	Homebuy New Build for Key Workers	0.000
(m)	Mixed Funded for Sale for Key Workers	0.000

Estimated expenditure in South West Region for 2005–06

		£ million
(n)	Right to Acquire	0.082
(o)	Voluntary Purchase Grant	0.151
(p)	Starter Home Initiative	0.000
(q)	Do-it-yourself-shared Ownership	0.000
(r)	Temporary intermediate and Market rent housing	0.000

Note:
Categories *(f)*, *(g)*, *(h)*, and *(i)* are not counted as completions and figures are only provided for illustrative purposes. The Key Worker Living Scheme does not include the South West region.
Source:
Housing Corporation Information Management System as at 12 October 2005.

For 2006–07 and 2007–08 Regional Housing Boards have made recommendations to Ministers for the allocation of Regional Housing Pots funds. The South West Regional Housing Board has recommended that from their allocation of £361 million for the two years a total of £281 million should be allocated to the provision of affordable housing. However, the exact distribution of funding between programmes for 2006–08 will not be known until the completion of the Housing Corporation's bidding process.

In August 2005 the Housing Corporation launched the bidding round for the 2006–08 Affordable Housing Programme (AHP). This invited both registered social landlords and non-registered bodies to apply for funds to develop affordable housing based on priorities set by the Regional Housing Boards. The outcome of this bidding round will not be known until early in 2006.

Local Government

Mrs. Spelman: To ask the Deputy Prime Minister (1) whether councils graded *(a)* excellent and *(b)* good under the Comprehensive Performance Assessment (CPA) are subject to (i) future CPA inspections and (ii) inspections from inspectorates other than the Audit Commission; and whether they are required to submit best value performance (A) information and (B) plans; [24683]

(2) if he will list the freedoms that local authorities graded *(a)* excellent and *(b)* good under the Comprehensive Performance Assessment received in relation to local government inspection. [24684]

Mr. Woolas: All councils are and will continue to be subject to inspection. Key targets for reductions in the inspection of local authorities were set out in the November 2002 announcement on Freedoms and Flexibilities. These include an exemption from virtually all inspection for councils in the excellent CPA category and a 25 per cent. reduction for councils in the good category.

Overall, significant reductions have been secured in the inspection burden placed on English single tier and county councils, with the greatest reductions focussed on excellent and good councils.

Between 2001–02 and 2004–05 the number of days inspectors from the Audit Commission, Ofsted, Commission for Social Care Inspection (CSCI) and Benefit Fraud Inspectorate (BFI) spent in councils had reduced by over one third and the number of inspections undertaken had reduced by more than 50 per cent.

The Audit Commission, which the Office of the Deputy Prime Minister (ODPM) sponsors, anticipates that by 2006–07, the volume of inspections needed for CPA, including the corporate assessments planned for that year, should fall by 68 per cent. from the 2002–03 level. Excellent councils will only be subject to inspection where there are grounds for serious concern in a particular service, and good councils will continue to receive a significant reduction in inspection.

In accordance with ODPM Circular 02/2004, authorities categorised in CPA as excellent and good only need to provide the minimum essential information for Government to monitor performance, namely:

outturn data for Best Value Performance Indicators (BVPIs);

targets for BVPIs in the current year and subsequent 2 years; and

confirmation that they are adopting the Code of Practice in their approach to workforce matters and contracting.

They are also able to annex the information to their annual corporate plan, rather than producing a separate Best Value Performance Plan.

London Underground (Fire Regulations)

Mrs. Spelman: To ask the Deputy Prime Minister whether fire regulations on the London underground are a devolved matter; and if he will make a statement. [26906]

Jim Fitzpatrick: Legislation dealing with general fire safety on the London underground is not devolved. At present the legislation for which the Office of the Deputy Prime Minister has responsibility consists of the Fire Precautions Act 1971, the Fire Precautions (Sub-surface Railway Stations) Regulations 1989 (as amended) and the Fire Precautions (Workplace) Regulations 1997 (as amended).

Pathfinder Areas

Mrs. Spelman: To ask the Deputy Prime Minister what the estimated public expenditure in each of the Pathfinder areas is in 2005–06. [22470]

Yvette Cooper: Information on total public expenditure in Pathfinder areas is not available. Total payments to the housing market renewal pathfinders to date for 2005–06 are shown as follows:

Pathfinder	£ million
Birmingham Sandwell	7.42
East Lancashire	23.62
Hull and East Riding	1.01
Manchester Salford	24.90
Merseyside	30.75
Newcastle Gateshead	13.25
North Staffordshire	9.20
Oldham Rochdale	13.06
South Yorkshire	15.29
Total	138.50

Rented Property (Hemel Hempstead)

Mike Penning: To ask the Deputy Prime Minister what the average weekly rent was for a two-bedroom *(a)* registered social landlord and *(b)* local authority property in the constituency of Hemel Hempstead in the last year for which figures are available. [25579]

Yvette Cooper: Figures for Hemel Hempstead are not available centrally. The average weekly rent in Dacorum district council area two bedroom properties at the end of March 2005 are given in the table for those properties for which a property size is available:

Average weekly rent for two bedroom social properties

	£
Registered Social Landlords	73.24
Local Authority Landlords	62.14

Note:
Registered Social Landlord data are based on data collected by the Housing Corporation via the annual Regulatory and Statistical Return. Local authority data based on un-audited returns from the Second Subsidy Claim form and are provisional for 2005.

Student Dwellings

Grant Shapps: To ask the Deputy Prime Minister if he will move the time when a local authority area reports the number of student dwellings for council tax purposes from the autumn to the spring. [26846]

Mr. Woolas: Information on a billing authority's taxbase for council tax purposes needs to be collected in the autumn so that up-to-date statistics can be used for the purposes of the formula grant settlement. Information on the number of dwellings occupied solely by students, and therefore exempt from council tax, is a part of a consolidated return from the billing authority and it would not be practical to receive information on student dwellings separately at a different time of year.

Sustainable Development

David Howarth: To ask the Deputy Prime Minister what sustainable development requirements he has placed on his Department's *(a)* executive agencies, *(b)* advisory non-departmental bodies, *(c)* executive non-departmental bodies, *(d)* tribunals, *(e)* public corporations and *(f)* other bodies; and if he will make a statement. [24399]

Jim Fitzpatrick: The UK Sustainable Development Strategy commits Departments and their executive agencies to producing Action Plans setting out the steps they are taking to implement the Strategy. The Office of the Deputy Prime Minister will be publishing its Sustainable Development Action Plan in December 2005 and it is intended that this will cover steps being taken across the Office and its three executive agencies to promote Sustainable Development.

The Office of the Deputy Prime Minister (ODPM), its Executive Agencies and the Government Offices for the Regions are covered by the requirements of the Framework for Sustainable Development on the Government Estate (FSDGE) which requires Departments and their Executive Agencies to improve their performance in utility, land and resource use across their estates.

The guidance on sustainable development in Cabinet Office's "Non-Departmental Public Bodies: A Guide for Departments" applies directly to all of ODPM's executive and advisory non-departmental public bodies. Other sponsored bodies are aware of this guidance and would apply it as appropriate.

HOME DEPARTMENT

Antisocial Behaviour

Michael Jabez Foster: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been imposed in Hastings and Rye in the past three years. [26145]

Hazel Blears: The available information is given in the table.

Number of antisocial behaviour orders issued at all courts, as notified to the Home Office, where restrictions have been imposed within the local government authority areas of Hastings and Rother, by period

	Hastings borough council	*Rother district council*
2002	2	3
2003	5	—
2004	9	5
Total	16	8

Asylum Seekers

John Bercow: To ask the Secretary of State for the Home Department what percentage of new substantive asylum applications received in 2004–05 received a final decision, including appeal, within six months. [26663]

Andy Burnham: The latest published information on cases receiving a final decision within six months is published in the Asylum Statistics: 2nd Quarter 2005 United Kingdom. Copies are available from the Library of the House and on the Home Office research development and statistics directorate website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Information on the proportion of new substantive asylum applications in 2004–05, that were decided, including final appeal, within six months, is not yet available.

British Transport Police

Mrs. May: To ask the Secretary of State for the Home Department how many prosecutions were made by the British Transport police in each British Transport police area, for *(a)* selling alcohol or attempting to sell alcohol to a person who is drunk, *(b)* selling alcohol or attempting to sell alcohol to an individual under 18 years, *(c)* being drunk and disorderly, *(d)* being drunk and incapable and *(e)* violence against the person in each year for which figures are available. [24967]

Hazel Blears: It is not possible to identify prosecutions made by the British Transport police on the Home Office court proceedings database as the prosecuting authority cannot be identified.

Citizenship Tests

Mr. Hollobone: To ask the Secretary of State for the Home Department whether people from abroad with only limited English need to pass the Life in the UK test to gain British citizenship. [25428]

Andy Burnham: All those applying for naturalisation as UK citizens will need to demonstrate that they have a sufficient knowledge of life in this country unless they are exempt, for instance on grounds of age. As first set out in the written statement dated 15 June 2005, *Official Report*, columns 15–16WS, there are two ways of doing this. An applicant may qualify by passing the Life in the UK test, or by successfully completing an accredited ESOL (English for Speakers of Other Languages) course which includes approved teaching materials on the theme of citizenship.

Crime

Mike Penning: To ask the Secretary of State for the Home Department how many cases of antisocial behaviour have been reported to police in Hemel Hempstead constituency in each year since 1997. [25582]

Hazel Blears: There is currently no data on the number of incidents of antisocial behaviour (ASB) due to the subjective nature of ASB itself. The latest data collected on ASB relates to the public perception of ASB in England and Wales and is measured by the British Crime Survey

Mr. Amess: To ask the Secretary of State for the Home Department how many convictions for each category of crime there have been in *(a)* Essex, *(b)* the Metropolitan police area of London and *(c)* Hertfordshire in each of the last five years for which figures are available; what the (i) conviction rate and (ii) clear-up rate for each category was in that period; and if he will make a statement. [20093]

Hazel Blears: Information on the number of defendants proceeded against at magistrates courts and found guilty at all courts for each category of offence in Essex, the Metropolitan police force area and Hertfordshire, 1999 to 2003, is given in the table together with the conviction rates. Statistics for 2004 will be published in late November.

The detections rate statistics are based on the number of offences recorded and detected by the police in England and Wales. These data are not comparable with those for convictions, which look at the actual number of defendants found guilty. Data on detection rates are provided in table 2.

Detection rates by offence group and police force area

Percentage

Police force area	*Total*	*Violence against the person*	*Sexual offences*	*Robbery*	*Burglary*	*Theft and handling stolen goods*	*Fraud and forgery*	*Criminal damage*	*Drug offences*	*Other offences*

Deepcut Barracks

Lembit Öpik: To ask the Secretary of State for the Home Department if he will make a statement on the Devon and Cornwall police Report into the Surrey police's investigation into the deaths of four recruits at the Deepcut Army Barracks between 1995 and 2002. [25731]

Hazel Blears *[holding answer 10 November 2005]*: Devon and Cornwall police have completed their review of Surrey police's investigation into the deaths of the soldiers at Deepcut Barracks. This was submitted to Surrey police on 31 August 2005. The report is a Surrey police document which is not normally subject to publication as they have a duty of care to other interested parties who may be named in the report with regards to sensitive or protected information. However, they have advised us that they intend to provide the families of the deceased soldiers with as much information as possible. They have written to each of the families informing them that they have received the report and explaining the next stage of the process.

Deportation

Mrs. Gillan: To ask the Secretary of State for the Home Department how many individuals were deported from the United Kingdom between 1 January and 2 November, broken down by *(a)* nationality and *(b)* destination. [26436]

Andy Burnham: The Home Office produces quarterly bulletins on the number of asylum seekers removed from the UK, broken down by nationality. The latest available figures cover the second quarter of 2005. Figures for the third quarter of 2005 will be published on

22 November. Information on the destination of asylum removals for the first six months of 2005 is given in the following table.

Statistics on the number of non-asylum cases removed from the UK are published annually. Figures for 2005 will be published in the summer of 2006. The published statistics are available on the Home Office's Research Development and Statistics website:

http://www.homeoffice.gov.uk/rds/immigration1.html.

Removals and voluntary departures[1] of principal asylum applicants, by destination: January to June 2005[2,3]

[1] Includes persons departing "voluntarily" after enforcement action had been initiated against them, persons leaving under the Assisted Voluntary Return Programme run by the International Organisation for Migration, and removals on safe third country grounds.
[2] Figures have been rounded to the nearest 5 with * = 1 or 2. Data may not sum due to rounding.
[3] Provisional figures.

Passport Service

Mr. Drew: To ask the Secretary of State for the Home Department if he will list the bidders that have been shortlisted for the UK Passport Service Abl tender; and when a decision on the successful bidder is expected. [26067]

Andy Burnham: For reasons of commercial confidentiality it is not possible, at this time, to disclose those bidders shortlisted under the Authentication by Interview estates procurement. It is anticipated that preferred bidder status will be announced late November 2005.

Police Helicopters

Lynne Featherstone: To ask the Secretary of State for the Home Department what criteria are used by the Metropolitan police in deciding whether to order the launch of a police helicopter; and if he will make a statement. [21991]

Hazel Blears: Each launch of a police helicopter in the Metropolitan police area will fall within the criteria set out and is subject to due consideration being given to the environmental impact of each flight:

public/police safety
armed incident
critical incident
vehicle pursuit
crime reduction
counter terrorism
photo/video surveillance
public order
security escorts
security searches.

Road Safety

Mr. Duncan: To ask the Secretary of State for the Home Department how many road traffic police officers there were in each year between 1990 and 2005; and if he will make a statement. [25190]

Hazel Blears *[holding answer 7 November 2005]:* Data are provided in the table. Figures are only available from 2003 onwards.

Police officers whose main function is Traffic[1], 2003 to 2005

Total for England and Wales	*Full-time equivalent[2]*
As at 31 March:	
2003	6,901.89
2004	6,702.40
2005	7,103.93

[1] Staff with multiple responsibilities (designations) are recorded under their 'primary' role or function.
[2] Full-time equivalent includes those on career breaks or maternity/paternity leave.

Speed Limits

Bill Wiggin: To ask the Secretary of State for the Home Department what statistics his Department collects on the number of police officers deployed to stop motorists who exceed speed limits. [24933]

Hazel Blears: The Home Office collects statistics on the main function of police officers. Staff with multiple responsibilities are recorded under their primary role or function.

There is a 'traffic—operational' function which includes all police officers who are predominantly employed on motor cycles or patrol vehicles for the policing of traffic and motorway related duties. This does not include officers employed in accident investigation, vehicle examination and radar duties. As at 31 March 2005 there were 6,428 (full-time equivalents) police officers recorded under the 'traffic—operational' function.

West Mercia Constabulary

Peter Luff: To ask the Secretary of State for the Home Department if he will make a statement on the performance of West Mercia constabulary. [22107]

Hazel Blears: The Police Performance Assessments published by the Home Office and Her Majesty's inspectorate of constabulary on 27 October show that in 2004–05 West Mercia police achieved a very positive assessment of its performance across the range of its core policing activity.

West Mercia police received the following assessment. All delivery grades are either good or excellent and most direction grades are improved—there are no deteriorated grades.

In particular, the force showed strong performance for the excellent and improved gradings in investigating crime—notably for its overall detection rate and offences brought to justice performance; and for its performance in resource use—notably in the areas of leadership and performance management.

Performance Area	*Delivery*	*Direction*
Reducing crime	Good	Improved
Investigating crime	Excellent	Improved
Promoting safety	Good	Stable
Providing assistance	Good	Stable
Citizen focus	Good	Improved
Resource use	Excellent	Improved
Local policing	Good	Improved

DEFENCE

Departmental Expenditure

Mr. Ancram: To ask the Secretary of State for Defence (1) if he will place in the Library copies of his Department's Chart of Accounts for financial years 1997–98 to 2005–06; [24601]

(2) if he will list his Department's top level budget holders and their related intermediate and working level management groupings for financial year 2005–06. [24605]

Mr. Ingram: Yes. I will provide copies from financial year 2000–01 when the Chart of Accounts was first adopted for financial management purposes in the Ministry of Defence. This will also provide the budgetary structure down to basic level Budget. It will take some time for all the information to be collated. Once this has been done, I will place copies in the Library of the House.

Future Aircraft Carriers

Mr. Hepburn: To ask the Secretary of State for Defence what the timetable is for the Department's aircraft carrier programme. [26572]

Mr. Ingram: The Future Aircraft Carrier (CVF) project is in its assessment phase, the aim of which is to balance the key parameters of performance, cost and time. The main investment decision will be taken when we know with confidence the risks involved in building the carriers, when we have a proper understanding of the costs involved and the implications in terms of the wider interface with other projects. At that time, ship build time scales and consequent in-service dates (ISDs) will be set.

Iraq

Adam Price: To ask the Secretary of State for Defence (1) what estimate *(a)* he has made and *(b)* the Iraqi authorities have made of the number of civilian casualties during the events of 19 September 2005 in Basra; [20522]

(2) whether he has requested the return of the *(a)* car and *(b)* equipment seized at the time of the arrest of the two military intelligence officers on 19 September 2005 in Basra; [20521]

(3) whether the raid on the Jamiyat prison on 26 September 2005 was approved in advance by *(a)* Officials and *(b)* Ministers in his Department; [20520]

(4) what reports he has received of torture being conducted at the Jamiyat prison in Basra; [20519]

(5) whether either of the two military intelligence officers arrested in Basra on 19 September 2005 were *(a)* carrying non-UK passports and *(b)* not of UK nationality; [21098]

(6) whether compensation will be offered to Iraqi citizens affected by British military action in Basra on 19 September 2005; [20835]

(7) what reasons have been given by Iraqi police for their arrest of the two British officers in Basra on 19 September 2005; [20834]

(8) whether Basra's principal council has requested that the two military intelligence officers arrested on 19 September 2005 handed over to Iraqi authorities. [20833]

John Reid *[holding answer 21 October 2005]:* Commanders in the field have full authority to take action to protect life. On 19 September, a day of fast moving events, the Ministry of Defence was consulted throughout. The acting commander of British forces in MND (SE) was able to take the difficult decision to mount the operation to enter the police station in the knowledge that he had the full support of the chain of command. The two British soldiers arrested in Basra on 19 September by the Iraqi Police Service are both UK nationals and were not carrying the passports of any other nation.

The car that the two British soldiers were travelling in was not seized. Although some of the personal equipment worn or carried by the British soldiers was removed by the Iraqi Police Service, most was recovered. All the equipment subsequently found in the police station was retrieved.

Due to the difficulty in obtaining reliable information it is not our policy to comment on civilian casualties. In this case, although we are aware of media reports, we have not been provided with any evidence relating to the deaths of Iraqis.

The Ministry of Defence has well-established procedures for handling claims for compensation in Multi-National Division (South East) and indeed any other theatre in which we operate. If there are any legitimate claims for negligence that arise out of the events of 19 September, they will be considered in the normal way.

I am aware of serious allegations of prisoner abuse at the Jameat including two alleged deaths in custody. UK support to the Iraqi Police Service in Basra and elsewhere is designed among other things to enhance police governance, accountability and respect for human rights. We take this very seriously. We have been pressing the Iraqi authorities very hard in both Basra and Baghdad to investigate these allegations thoroughly and then to take appropriate action and we will continue to do so.

The Iraqi Government have said that the two soldiers were arrested because the Iraqi Police Service initially believed them to be terrorists and they were not able to immediately confirm their status as British soldiers. Having confirmed their identity we were extremely concerned when they were not released in accordance with Iraqi law. We have subsequently agreed with the Iraqi Government that in future any such incident will be dealt with in accordance with the relevant articles of Iraqi law, which affirm that the UK retains sole jurisdiction over its armed forces personnel.

We never received a formal request from either Basra's principal council or the Iraqi Government to hand the individuals over to the Iraqi authorities. Furthermore an Iraqi judicial inquiry concluded that under Iraqi law there were no grounds for such action, given the immunity of Multinational forces personnel from the Iraqi legal process.

British forces were fully within their rights to act in the way they did and I fully support their actions.

Landing Ships Dock (Auxiliary) Programme

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether he has received further requests from Swan Hunter for additional funding to complete the two ships being built by Swan Hunter as part of the Landing Ships Dock (Auxiliary). [24834]

Mr. Ingram: I refer the hon. Member to my reply of 3 November 2005, *Official Report*, column 1264W.

RMP Historic Investigation Team

Mr. Robathan: To ask the Secretary of State for Defence (1) on whose authority it was decided to set up 6 Royal Military Police Historic Investigation Team; and which *(a)* Government Ministers and *(b)* Law Officers were involved in discussions leading to its creation, with specific reference to discussions between Defence Ministers and Ministers in the Northern Ireland Office; [27058]

(2) what the remit is of 6 Royal Military Police Historic Investigation Team; and what circumstances have led to its mission and co-operation with the Police Service of Northern Ireland; [27057]

(3) how many cases and operations 6 Royal Military Police Historic Investigation Team is expected to investigate; and how many soldiers and former soldiers are expected to be involved in those investigations; [27056]

(4) what the estimated annual budget is of the 6 Royal Military Police Historic Investigation Team; and if he will make a statement. [27086]

Mr. Ingram: The 6th Regiment, Royal Military Police (6 RMP) Historic Inquiry Team (HIT) have been established as the HQNI focal point for providing information to support the Police Service of Northern Ireland (PSNI) review of all 'troubles' related deaths. They are not undertaking any investigative responsibilities in relation to this review.

The RMP maintain close liaison with all Home Office police forces and routinely assist both in civil police investigations and requests for information involving service personnel. The current PSNI review is no different from any other Home Office police investigation and requests for information are being met with full and open disclosure.

The PSNI are expected to review some 2,000 cases, though each case-file may contain more than one incident of death. The RMP have approximately 930 military police case files, which contain information relevant to these deaths. In addition, 6 RMP maintain the Northern Ireland Operational Archive, which stores material such as patrol reports, log sheets and patrol data. The RMP HIT remit is to trawl this material in response to requests for information from the PSNI. The number of cases involving military personnel has not yet been quantified.

The 6 RMP HIT was formed by means of a routine internal reorganisation of existing manpower in order to meet changing priorities within an existing area of

military police support. The Commanding Officer of 6 RMP made the decision to form the 6 RMP HIT so that the support to the PSNI inquiries could be delivered in the most effective way possible, and this decision was endorsed by the Chief of Staff, Headquarters Northern Ireland.

As the 6 RMP HIT has been created through an internal reorganisation of existing regimental resources, no additional cost has been incurred and an increase to the extant 6 RMP budget is not considered necessary at this stage.

Terrorism

Gregory Barker: To ask the Secretary of State for Defence what representations he has received about the size of the British armed forces and their ability to meet the threats of terrorism in *(a)* the United Kingdom and *(b)* the rest of the world. [27500]

John Reid: I have received no representations specifically linking the size of the armed forces and their role in the Government's comprehensive counter-terrorism strategy.

The role of the armed forces in meeting the threat of terrorism was set out clearly in the New Chapter to the Strategic Defence Review (Cmnd 5566) and the two Defence White Papers 'Delivering security in a changing world' and 'Future capabilities' in 2003 and 2004 (Cmnd 6041 and Cmnd 6269).

The armed forces continue to provide a number of specialist capabilities in support of the civil authorities in the United Kingdom. Although there is no military solution to terrorism, the Government have demonstrated that when necessary they are willing and able to deploy significant forces overseas as part of their counter-terrorism strategy.

I have received a number of representations relating to the Government's decision to disband the three Home Service battalions of The Royal Irish Regiment when their role in support of the Police Service of Northern Ireland ends as a result of the process of security normalisation which began on 1 August 2005.

Thailand

Mr. Steen: To ask the Secretary of State for Defence whether an agreement is in place between the Thai and the British Governments, whereby arms and munitions are supplied by the British in return for chickens from Thailand; and if he will make a statement. [26266]

Mr. Ingram *[holding answer 9 November 2005]:* No such agreement exists. The Government are, however, supporting BAE Systems to work with the Government of the Kingdom of Thailand to assist with the modernisation of the Royal Thai Armed Forces. This was affirmed in a Joint Statement on 13 October by my right hon. Friend the Prime Minister and Prime Minister Thaksin Shinawatra. The text of the Joint Statement can be found at http://www.number-10.gov.uk/output/Page8306.asp

FOREIGN AND COMMONWEALTH AFFAIRS

British Nationals (Drug Smuggling)

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British nationals have been convicted and been given life sentences for drug smuggling in *(a)* Thailand, *(b)* Singapore, *(c)* Turkey, *(d)* Morocco, *(e)* Tunisia and *(f)* the Netherlands in the last five years. [25275]

Dr. Howells: The following table provides figures for the number of British nationals we are aware of who have been convicted and given life sentences for drug smuggling in each of these countries in the last five years.

Country	*Number of British nationals*
Thailand	4
Singapore	0
Turkey	0
Morocco	0
Tunisia	0
Netherlands	0

Burundi

Justine Greening: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the new government in Burundi regarding the killing of British citizen Charlotte Wilson in December 2000; and if he will press the Burundian Government to take action to bring the perpetrators to justice. [27634]

Ian Pearson: We have raised the case of Charlotte Wilson on several occasions with the new Burundian Government. We continue to press the Burundian authorities for progress in bringing Charlotte's killers to justice, and to remind them of the importance we attach to a resolution of the case.

Most recently, my right hon. Friend the Secretary of State for International Development raised this case with President Nkurunziza in Bujumbura on 1 November. President Nkurunziza said that his Government was committed to investigating this and many similar cases. We will maintain pressure on the Burundian authorities to bring the perpetrators of this case and similar atrocities to justice.

EU Council of Ministers

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the British Presidency of the EU would support a proposal that the Council of Ministers should meet in public. [27527]

Mr. Douglas Alexander: The UK Presidency supports finding ways for the Council to improve Council transparency. As my right hon. Friend the Prime Minister said before the European Parliament on 23 June

> "Mr. Watson challenged me over Council transparency and, certainly in relation to legislating, there is a strong case for that. Let us consider that under our Presidency".

We held an initial discussion with partners in October and we will continue to work on the issue of improving Council transparency during the UK Presidency.

Foreign Students

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs how many foreign students have been granted visas to study in the United Kingdom in each of the last five years, broken down by nationality. [26115]

Dr. Howells: The number of student visas issued in each of the last five years, broken down by post:

Maldives

Mr. MacShane: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the high commissioner in the Maldive Islands has made to the Maldive authorities on the treatment of Mohamed Nasheed and the Maldivian Democratic Party. [25831]

Dr. Howells: The British high commissioner in Colombo, accredited to the Maldives, has raised our concerns on the trial of Mohamed Nasheed and current political events on several recent occasions. He did so on 26 September with President Gayoom of the Maldives and on 31 October with the Foreign Minister, Ahmed Shaheed.

The deputy high commissioner also raised these issues with Foreign Minister Ahmed Shaheed in August 2005, shortly after Mr. Nasheed's arrest, and on 27 October, following his first court appearance.

The British high commission is active in co-ordinating EU action locally. It led an EU fact-finding mission to the Maldives in August that met Government Ministers, officials and detainees, including Mohamed Nasheed. An EU statement was issued on 2 September, emphasising the responsibility of the Maldivian authorities to uphold the right of political parties to meet freely and to carry out peaceful political activities. It noted the seriousness of the charges against detainees, called for due process, and made clear that the credibility of such trials would be scrutinised closely. We will continue to underline to the Government of the Maldives its democracy and human rights obligations, both bilaterally and with our EU partners.

Poland

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policy is on the timetable for Poland's adoption of the euro. [27528]

Mr. Douglas Alexander: Each new member state will pursue a strategy for adoption of the Euro appropriate to its circumstances, and in line with its obligations under the Treaty establishing the European Community. The new Polish Prime Minister, Mr. Marcinkiewicz, has said that his Government will not seek to adopt the Euro during the current Parliament. Polish President-elect, Lech Kaczynski, has said that he favours holding a referendum before adoption of the Euro.

Republic of Congo

Mr. Pelling: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of the hostilities in the Republic of Congo following the visit of the former Prime Minister, Mr. Kolelas. [26232]

Ian Pearson: There have been several reports of clashes between Government forces and rebels known as "Ninjas" before and since the return to the Republic of Congo of Bernard Kolelas. The Bacongo district of the capital, Brazzaville, was most affected by the violence. Several people are reported to have died in these clashes including Government security forces, rebel fighters and civilians.

On 20 October, the Congolese army said that the rebels had been forced to flee the Bacongo area. Brazzaville is now said to be calm, although we continue to monitor the situation.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Sudan on coordinated offensive operations undertaken by the Government of Sudan and the Janjaweed Arab militia in Darfur *(a)* on 18 September in Khartoum Djadeed, Sandego, Khasantongur, Tary, Martal and Djabain and *(b)* on 28 September, in Arusharo, Acho and Gozmena. [25598]

Ian Pearson: On 18 and 28 September respectively, Arab Militias attacked the towns and surrounding areas of Khartoum Djadet and Aro Sharrow. We also received unconfirmed reports that the Government of Sudan's airforce acted in co-ordination with the militias during these attacks. The African Union is investigating these incidents and we await their report. Offensive military overflights by the Government of Sudan would constitute a breach of its obligations under the Abuja Security Protocol and, under United Nations Security Council Resolution 1591, those responsible are liable to be targeted with a travel ban and assets freeze.

We have made clear that the recent increase in violence is unacceptable, and that those responsible must be held to account. During the recent EU Ministerial Troika meeting in Sudan on 8 October, both my noble Friend Lord Triesman, the Foreign and Commonwealth Office Minister for Africa, and the High Representative for the Common Foreign and Security Policy, Secretary-General of the Council of the European Union, Javier Solana, raised recent attacks with the Sudanese Government. The UK, as EU Presidency, has also issued three statements condemning the recent increase in violence and calling on all sides to

rein in the belligerents, and to work for a peaceful solution to the conflict.

Tibet

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the human rights situation in Tibet. [24215]

Ian Pearson: The Government remain concerned about the human rights situation in Tibet. Issues of specific concern include interference by the Chinese/Tibetan authorities in the religious activities of the Tibetan people. The Government support some project work in Tibet and we monitor developments in the region closely.

Written Answers to Questions

Monday 14 November 2005

INTERNATIONAL DEVELOPMENT

UNAIDS

Mr. Hunt: To ask the Secretary of State for International Development pursuant to the answer of 17 October 2005, *Official Report*, column 724W, on access to treatment, when his Department expects UNAIDS to establish its taskforce; when it expects UNAIDS to set its intermediate targets; and if he will make a statement. [27857]

Mr. Thomas: The Joint United Nations Programme on HIV/AIDS (UNAIDS) is in the process of establishing a Global Steering Committee for scaling up towards universal access. The UK has recently agreed to be co-chair, alongside the UNAIDS. The Committee will determine whether intermediate targets will be set. We expect the Committee to report to the United Nations General Assembly Special Session on HIV/AIDS in 2006.

Cheap Food Exports

Anne Snelgrove: To ask the Secretary of State for International Development what assessment he has made on the impact of cheap food exports to developing countries from the EU on the economies of those countries; and if he will make a statement. [26097]

Mr. Thomas: The Department for International Development supports a range of research on the impacts of developed countries agricultural policies on developing countries. One current programme is with the United Nations Food and Agricultural organisation (FAO) on the impacts of the Organisation for Economic Co-operation and Development (OECD) agricultural policies on developing countries. The research outputs are available at: www.fao.org/trade. The Government recognise the damaging impact that trade-distorting subsidies in the EU and other OECD countries have on developing countries and we are committed to securing reductions in these subsidies, through the reform of the common agricultural policy and the World Trade Organisation talks.

The most recent common agricultural policy reform package agreed in 2003–04 marks a significant shift in the EU's agricultural policy. The de-coupling of subsidies from production should increase the market orientation of European farmers, leading to reductions in production and disposal of subsidised surpluses abroad.

The Government also fully support the commitment made as part of the WTO's Doha Development Agenda 'to reduce, with a view to phasing out, all forms of export subsidies, and substantial reductions in trade-distorting domestic support'.

We are pushing strongly for progress towards this at the upcoming WTO ministerial meeting in Hong Kong.

Criminal Offences

Simon Hughes: To ask the Secretary of State for International Development if he will list the criminal offences created in legislation sponsored by his Department from May 1997 up to and including April 2005, broken down by Act. [27590]

Mr. Thomas: No legislation introduced by the Department for International Development since 1997 has contained criminal law provisions.

Fair Trade

Mr. Bone: To ask the Secretary of State for International Development what his Department's policy is on trade with developing countries; and if he will make a statement. [27628]

Mr. Thomas: The UK Government are committed to the development of an open and rules-based international trading system that fulfils its potential to contribute to the reduction of poverty in poorer countries. Our key policy commitments on trade and development, as well as our objectives for the current round of multilateral trade talks, are set out in the Government's White Papers, "Making Globalisation a Force for Good" (July 2004) and "Eliminating World Poverty: Making Globalisation Work for the Poor" (December 2000). The UK Government are working hard to support the poorest and most vulnerable producers, be it through multilateral negotiations in the World Trade Organisation (WTO) or regional trade agreements such as the Economic Partnership Agreements.

At the G8 summit in Gleneagles in July, we made real and substantial progress for developing countries on more and better aid, deeper debt relief, and re-affirmed our commitment to a successful conclusion to the current round of WTO trade talks. The G8 also agreed to provide increased funds for trade related capacity building to assist developing countries take advantage of the new opportunities from a positive conclusion to the round. There is increased international support for increased 'Aid for Trade' as reflected at the recent World Bank and International Monetary Fund (IMF) meetings and the G8 summit in Gleneagles. It is important that we build rapidly on the outcome of these meetings.

The forthcoming WTO Ministerial Conference in Hong Kong represents an important opportunity to make a significant contribution to reducing global poverty. The UK Government are working to achieve an outcome that delivers real gains for developing countries, including the poorest. These gains should include improved participation by developing countries in the world trading system, through substantially increased market access for developing countries and the dismantling of trade-distorting agricultural subsidies by industrialised countries.

Illegal Logging

Mr. Drew: To ask the Secretary of State for International Development what recent representations he has made *(a)* directly and *(b)* through the EU to the Governments of (i) Indonesia and (ii) Cameroon regarding illegal logging. [25365]

Mr. Thomas: The UK has been closely engaged with Indonesia concerning illegal logging since preparing for the Ministerial Forest Law Enforcement and Governance (FLEG) Ministerial Conference in Bali in September 2002. The resulting declaration led to the UK-Indonesia Memorandum of Understanding (MoU) which aims to tackle illegal logging in Indonesia and ultimately eliminate trade in illegally harvested timber between the two countries.

Our ambassador in Jakarta and DFID officials have maintained frequent and direct contact with the Indonesian Minister of Forestry and his officials concerning implementing the MoU and we are making steady progress.

My most recent direct contact with the Minister of Forestry was to invite him to visit the UK in September to discuss progress and future activities. Unfortunately the Minister had to postpone his visit.

Since the trade issues must be dealt with at the EU level, these cannot be tackled under the MoU and DFID, together with the Department for the Environment, Food and Rural Affairs (DEFRA) and the Foreign and Commonwealth Office, have been working to put in place the EU forest law enforcement, governance and trade (FLEGT) action plan. These will provide for voluntary partnership agreements between the EU and timber producing countries with a licensing scheme to control illegal trade as their focus. The European Commission is leading on preparations for such an agreement with Indonesia, which we hope will supersede and strengthen our MoU. Our ambassador underlined the importance of such an agreement in a meeting with the Indonesian Minister of Forestry last July and DFID officials, through the commission in Brussels and its delegation in Jakarta, are lending practical support to the current preparations.

The UK has been working closely with the Government of Cameroon over a number of years to tackle illegal logging and forest governance problems. We have supported the Government to develop a comprehensive national programme to address illegal logging and improve forest management and have also supported an independent monitor in Cameroon to help the Government combat forest crime. We worked closely with the Minister of Forests and Prime Minister to support Cameroon hosting the Pan African Ministerial Conference on Forest Law Enforcement and Governance in 2003. Most recently DFID officials met the Minister responsible for Forestry and Ministry of Finance in October to finalise plans for our support to the national programme and to further understanding about the opportunities afforded by the voluntary partnership agreement with Europe for the timber trade.

The UK has been supporting the Cameroon Government in preparing for negotiations with the European Commission for such an agreement alongside Germany, who co-ordinates this work for the member states. The Forest Minister recently indicated to us that they would like to negotiate a partnership agreement in July 2006 when work reviewing the legal code is completed.

Immunisation

Mark Simmonds: To ask the Secretary of State for International Development what steps his Department is taking to encourage more countries to pledge money to the International Finance Facility for Immunisation. [28414]

Hilary Benn: DFID is continuing to work alongside HM Treasury and the Foreign Office to encourage more donors to pledge to the International Finance Facility for Immunisation (IFFIm) through one-on-one meetings and discussions and international conferences. Italy, France, Sweden and Spain remain the core committed European donors, but we are now holding discussions with Norway, Belgium, and Austria and hope that they might also contribute. Outside Europe, we are holding discussions with South Africa, India, Brazil and Japan, all of whom are expressing some interest in participating.

Kenya

Norman Baker: To ask the Secretary of State for International Development what assessment he has made of the potential danger to workers involved in the flower industry in Kenya due to exposure to chemicals; and if he will make a statement. [28097]

Hilary Benn: DFID has been working with stakeholders in the Kenyan flower industry since 2003, in the face of a possible boycott by European buyers on the grounds of labour rights abuses on flower farms.

DFID, together with the Dutch, is supporting the Kenyan Ethical Horticultural Business Initiative (HEBI). This is a 'not for profit' organisation with a board comprising all those involved in the industry as well as Government, human rights organisations and unions representing the workers. Pilot audits, which include assessments of exposure to chemicals, on eight farms, revealed that while some problems exist the industry generally is socially responsible. But to ensure that internationally recognised social business practices are being followed, the HEBI has produced a code of practice for flower farmers. This includes a regular independent audit and inspection of flower farms and a better understanding by growers and workers of their social and legal rights and obligations.

South Asian Earthquake

Andrew George: To ask the Secretary of State for International Development how many tents have been sent from the UK as part of the UK's contribution to the South Asian earthquake emergency relief response from *(a)* UK Government Departments, *(b)* NGOs and others through the Disasters Emergency Committee and *(c)* NGOs and charities which did not use the DEC as the conduit for delivery of aid. [27854]

Mr. Thomas: DFID has sent 5,500 winterised family tents in response to the South Asian earthquake. The Government of Pakistan reports that 335,393 tents have been distributed in total, and the Government of

Pakistan and the United Nations are confident that up to a further 300,000 tents will be delivered by the end of the month. DFID does not have figures for the number of tents delivered by the independent agencies of the Disasters Emergency Committee or other non-governmental organisations.

Sir Michael Spicer: To ask the Secretary of State for International Development how many UK helicopters are helping with the relief following the earthquake in Pakistan; and what plans he has to increase this number in the immediate future. [26148]

Mr. Thomas: The Ministry of Defence has three CH-47 Chinook helicopters, operational since 28 October, assisting with the relief effort at DFID's request. DFID has also channelled £2 million through the International Committee of the Red Cross and £1 million through the World Food Programme which includes support to helicopter provision. DFID has channelled a further £1.5 million through the United Nations Humanitarian Air Service also for helicopter provision. As of 9 November, there were 102 helicopters in operation with an additional 16 in the pipeline. We are monitoring the overall situation with regard to helicopter provision and examining options to ensure appropriate numbers and types are available.

Palestinian Authority

Mr. David Jones: To ask the Secretary of State for International Development how much aid from the UK has been committed to *(a)* the Palestinian Authority and *(b)* non-governmental organisations operating in Palestine since the inception of the Authority. [26509]

Hilary Benn: During the period 1994 to 2004, the UK provided a total of £104 million official development assistance to the West Bank and Gaza. Nearly £31 million of this assistance was channelled through non-governmental organisations. A further £153 million humanitarian assistance was given to the United Nations Relief and Works Agency over the same time period.

Palm Oil

Mr. Hancock: To ask the Secretary of State for International Development what recent discussions he has had with *(a)* the Secretary of State for Trade and Industry and *(b)* others on the destruction of the habitat of the orang-utan due to the increased demand for palm oil in the UK. [28000]

Mr. Thomas: Neither I nor my right hon. Friend the Secretary of State for International Development have discussed this issue with the Secretary of State for Trade and Industry.

The UK Government are in discussion with EU member states about the threats to tropical rainforests caused by oil palm expansion and is taking the following steps to tackle this problem.

My right hon. Friend and the Under-Secretary with responsibility for rural affairs, landscape and biodiversity, my hon. Friend the Member for South Dorset (Jim Knight), recently represented the UK at an inter-governmental meeting on the Great Apes Survival Project (GRASP) which covers orang-utans. The Kinshasa intergovernmental meeting in September, formally adopted a Global Great Apes Conservation Strategy and an aspirational declaration. This commits range states of great apes to a number of actions and targets, including slowing the loss of great apes and their forest habitats by 2010.

The UK has been wholly supportive of the GRASP mission. The Government, through the Foreign and Commonwealth Office (FCO) and the Department of Environment, Food and Rural Affairs (DEFRA), has committed around £600,000 to the Great Apes Survival Project.

The UK Government also support the conservation and sustainable management of rainforests. DFID, together with DEFRA and FCO, is helping developing countries to address the governance and market failures that drive illegal and unsustainable logging of forests. DFID supports the Multistakeholder Forestry Programme in Indonesia which is strengthening forest management and helping to protect forest habitats, including those of the orang-utan.

Defra, through the Darwin Initiative, is also helping countries to design and implement conservation measures to address the loss of forest biodiversity and rare natural habitats.

Republic of Yemen

Mr. David Jones: To ask the Secretary of State for International Development what the value of grants in aid made to the Republic of Yemen was in each of the last five years for which figures are available. [26434]

Hilary Benn: Grants in aid, including grants to voluntary organisations, form one part of DFID's larger bilateral assistance package. The latest figures of the value of grants in aid provided by DFID to the Republic of Yemen in each of the last financial years is as follows:

	£ million
2000–01	0.964
2001–02	2.192
2002–03	2.103
2003–04	3.721
2004–05	4.422

Tuberculosis

Julie Morgan: To ask the Secretary of State for International Development what percentage of funding for all countries to which the Department gives direct budget support is attributable to the control and treatment of TB in 2005–06. [25501]

Mr. Thomas: It is not currently possible to give a percentage figure for funding spent directly on TB control and treatment from total direct budget support which DFID provides. This is because national governments do not have financial accounting systems that trace the proportion of direct budget support spent on individual diseases. However, DFID provides a significant part of its funding directly to government budgets in support of their overall strategies for poverty reduction ('Poverty Reduction Budget Support'). DFID provided £423 million in 2004–05 in this way, partner

governments may use some part of this directly for TB control activities, or for building up health services to diagnose and treat TB as well as other major causes of ill health.

Water and Sanitation (Funding)

Ms Dari Taylor: To ask the Secretary of State for International Development (1) if he will use the UK's presidency of the EU to ensure that the commitments in the United Nations Millennium Review Summit Outcome Document for better targeting of aid are applied by all EU member states to their aid for water and sanitation; [26104]

(2) if he will use the UK's presidency of the EU to ensure that the recommendation of the Commission for Africa for a reversal starting in 2005 of the decline in aid for water and sanitation is adopted by all member states. [26103]

Hilary Benn: The UK presidency is actively engaged in negotiations with the European Commission and European Parliament to agree a new Development Policy Statement that will set the framework within which all EU aid is spent. DFID is working to ensure that the Statement agrees that aid is focused on poverty reduction, meeting the Millennium Development Goals (MDG)s—including those related to water and sanitation—and the needs identified by partner countries. I chaired a debate about the statement at the informal meeting of EU Development Ministers in Leeds on 25 October. It is hoped that we will reach final agreement at the meeting of EU Development Ministers that I will chair in Brussels 22 November.

I have also tabled a paper on EU aid effectiveness that will be debated at the same meeting. This includes language on promoting a more effective allocation of resources and asking member states to publish projections of aid by type, including water and sanitation, and country over the next three years and if possible longer.

The 22 November Council will also agree a contribution to a new EU Strategy for Africa that should be agreed at the December European Council. The Strategy will include action on water and sanitation. We are hopeful that this will result in member states increasing their allocations to water supply and sanitation.

World Trade

Andrew George: To ask the Secretary of State for International Development what steps he is taking to ensure that the December World Trade Organisation talks will produce an outcome which is beneficial to *(a)* the development of less developed countries, *(b)* poverty eradication in those countries and *(c)* capacity to meet the millennium development goals. [27664]

Mr. Thomas: Working with the Department for Trade and Industry (DTI) and other Government Departments, and in line with the aims and objectives set out in the 2004 Trade and Investment White Paper, DFID is actively pursuing an outcome to the World Trade Organisation (WTO) talks which delivers real development gains for developing countries.

DFID works with the poorest group of developing countries, the G90, to ensure their views are represented in the WTO through technical assistance where we provide considerable support to help developing countries participate in the negotiations, through policy research on issues of key concern for developing countries such as special products and through direct engagement with key WTO members such as the least developed country (LDC) chair. We try to ensure that developing country views are heard loud and clear, and that policy proposals in Geneva and elsewhere are based on sound evidence and with development at their core.

Mr. Alan Reid: To ask the Secretary of State for International Development what the Government's policy is on encouraging countries to privatise public services in return for other changes to world trade rules which would benefit the countries concerned. [27668]

Mr. Thomas: Increasing the access, coverage and quality of water, education and health services is vital if countries are to reach the Millennium Development Goals. In March 2005, DFID published a policy paper entitled "Partnerships for Poverty Reduction: changing aid 'conditionally'". The policy commits us to only using conditionality to ensure that aid is used effectively for the purposes intended and can be accounted for to the UK Parliament.

We are committed to supporting governments in developing countries to make their own decisions about how to develop their economies and provide services to their people, based on evidence of what works best to reduce poverty. DFID will not make aid conditional on specific policy decisions by partner governments or attempt to impose policy choices on them, including in sensitive economic areas such as privatisation or trade liberalisation.

DFID also encourages developing countries to make their own decisions about service delivery, including whether or not to open their service sectors to foreign providers. However, developing countries are not obliged to accept any request or to open up their services sectors. It all comes down to which option is the most effective in reducing poverty, a decision for governments of developing countries to make through their own political process. Nothing in the General Agreement on Trade in Services (GATS) forces them to privatise or prevents them from establishing appropriate regulation.

Mrs. Moon: To ask the Secretary of State for International Development if he will assess the impact on poor countries were they to be enabled to provide 1 per cent. of world trade by value. [26985]

Mr. Thomas: Based on data from the World Trade Organisation for 2004, the value of total world trade in both goods and services was $11 trillion. Therefore any group of countries, whether they are the least developed countries or the wider group of developing countries, would capture an extra $110 billion of exports by value if they increased their share of world trade by 1 per cent.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Avian Influenza

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether a flock will be slaughtered if it is *(a)* found to be positive to avian influenza (i) High Path and (ii) Low Path and *(b)* not positive but in (A) a slaughter zone and (B) a movement restriction zone. [26889]

Mr. Bradshaw: Powers to slaughter in the event of an outbreak of avian influenza are contained in Section 16A and Schedule 3 of the Animal Health Act 1981 (as amended).

This allows the slaughter of:

(i) any diseased poultry;

(ii) any poultry suspected of having disease; and

(iii) any poultry with a view to preventing the wider spread of avian influenza. This power can be exercised whether or not the poultry is affected with avian influenza or suspected of being so affected.

These powers apply to both poultry with HPAI and LPAI.

Any action taken to control avian influenza would be proportionate and decided upon in the light of an overall assessment of the risks, costs and benefits in a particular situation. However, it is a requirement under EU obligations that poultry on an infected premises must be slaughtered.

Biomass Industry

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs what representations the Government have received on possible regulatory barriers to the development of the biomass industry; and if she will make a statement. [22079]

Margaret Beckett: The Department has received a number of representations on possible regulatory barriers. The Biomass Task Force, led by Sir Ben Gill, was set up a year ago to identify the barriers to developing biomass energy and to recommend ways to overcome the problems. Their report was published on 25 October and copies have been placed in the House Library. The Government have committed themselves to publishing a full response to the report within the next six months.

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs which biomass *(a)* products and *(b)* by-products have been reclassified as waste since 1997. [22080]

Margaret Beckett: No biomass products or biomass by-products have been reclassified as waste since 1997.

The definition of "waste" in force in Great Britain since May 1994 is the definition in Article 1*(a)* of the Waste Framework Directive (as amended) which provides that waste is

" . . . any substance or object . . . which the holder discards or intends or is required to discard."

Whether or not a substance is discarded as waste is a matter which must be determined on the facts of the case and the interpretation of the law is a matter for the courts. The European Court of Justice (ECJ) has issued several judgments on the interpretation of the definition of waste and the meaning of "discard". ECJ judgments are binding on member states and their "competent authorities".

It rests in the first place with the producer or holder of a substance to decide whether it is being discarded as waste. However, the Environment Agency is designated as a competent authority for the purposes of implementing the directive in England and Wales. It is the agency's view that residues from the incineration or co-incineration of biomass (e.g. poultry litter) disposed of as waste in compliance with the EU Animal By-products Regulation are waste within the meaning of the directive.

The classification of a substance as waste does not preclude its use. For example, waste ash from the incineration or co-incineration of biomass may be used as a fertiliser and spread to land for benefit to agriculture. The Government continue to encourage the recovery of waste by means of recycling, re-use and reclamation. This encouragement includes the use of the Government's discretion under Article 11 of the waste framework directive to provide exemptions from waste management licensing. Licensing exemptions for the recovery of certain kinds of waste ash are provided in paragraphs 9A, 13 and 19A of Schedule 3 to the Waste Management Licensing Regulations 1994 (as amended).

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs which Government body is the main source of advice for the biomass industry. [22081]

Margaret Beckett: In common with other policies and issues which are wide-ranging in their impact on the UK, there are a number of Government bodies which offer advice to the biomass industry. Defra and the Department of Trade and Industry advise on Government policy and the grants available to farmers and biomass developers. Defra also issues best practice guidance on growing energy crops and the Forestry Commission provides advice on woodfuel production and management. The Environment Agency advises on pollution control. Advice on developing local biomass projects is available from the Regional Development Agencies. Advice is also available from private bodies which received Government funding, such as the Community Renewables Initiative local support teams, which help to promote local biomass projects, and the Carbon Trust, which advises on the development of low carbon technologies and businesses.

The Biomass Task Force report, published on 25 October, recommends that the Carbon Trust should be the national focus of knowledge and analysis on biomass energy, with dissemination by the Regional Development Agencies. The report also recommends that technical, economic and best practice information is brought together and made available to stakeholders. The Government have committed themselves to publishing a full response to the report within the next six months.

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs what was the average size of grants made for biomass energy projects in each year since 1997. [22208]

Margaret Beckett: The average size of grants for Defra and Forestry Commission biomass energy grant schemes are as follows:

Grant scheme

£

	Energy crops scheme			
	Establishment grants	*Producer groups*	*Woodland grant scheme*	*Community energy programme*
1997	—	—	2,276	—
1998	—	—	2,185	—
1999	—	—	6,584	—
2000	—	—	13,235	—
2001	17,245	—	948	—
2002	11,193	—	480	—
2003	4,137	22,199	253	47,459
2004	12,626	13,565	304	445,196

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs how much government funding was allocated to biomass crop breeding programmes in 2004–05; and how much has been allocated for 2005–06. [22336]

Margaret Beckett: Defra allocated £841,000 in 2004–05 and £732,000 in 2005–06 to R and D in support of the genetic improvement of dedicated bio-energy crops.

SOLICITOR-GENERAL

Corruption

Malcolm Bruce: To ask the Solicitor-General pursuant to the answer of 7 November 2005, *Official Report*, column 1W, on corruption, whether the Serious Fraud Office was contacted by the Department of Trade and Industry in connection with the allegations of corruption involving a DTI employee prior to 13 October; and if he will make a statement. [27875]

The Solicitor-General: The Serious Fraud Office (SFO) was contacted by the Department of Trade and Industry (DTI) in September 2004 in connection with allegations of corruption involving a DTI employee. The matter is being considered by the SFO.

Countryside Alliance

Mr. Gordon Prentice: To ask the Solicitor-General whether the Government have asked the House of Lords to award costs in respect of the legal action from the Countryside Alliance in relation to the Parliament Act 1949; and how much was awarded. [26894]

The Solicitor-General: This matter is currently before the Judicial Committee of the House of Lords. By resolution of the House, this question is therefore inadmissible on the ground that it relates to a case in which proceedings are active in a United Kingdom court. I am not at liberty to answer any questions on this issue until the Judicial Committee has recorded an Order in the House of Lords' Minutes. My understanding is that this will not be until 18 November 2005 at the earliest. My hon. Friend will then be able to get a better view of the issue he raises.

HOUSE OF COMMONS COMMISSION

Artefacts (Irish Parliament)

Andrew Mackinlay: To ask the hon. Member for North Devon, representing the House of Commons Commission what information the Commission has on whether works of art, furniture, books, records and other artefacts known to be within the ownership or custody of the House were originally owned by or displayed in the Parliament of Ireland prior to the Act of Union 1801; and if he will make a statement. [22148]

Nick Harvey: I have checked with those responsible in the House for looking after the works of art, furniture, books and records. There is no evidence that any material which the House currently owns, or has custody of, came originally from the Parliament of Ireland. The remaining records of the Parliament of Ireland perished when the Irish Public Record Office was destroyed by fire in 1922.

Carriage Gates

Mr. Philip Hammond: To ask the hon. Member for North Devon, representing the House of Commons Commission for what reasons the wrought iron gates at Carriage Gates have been removed; and when they are expected to be replaced. [27625]

Nick Harvey: The wrought iron "Out" gates at Carriage Gates were removed for repair following an accident, and for installation of improved hinges. They were returned on 5 October.

Television System

Michael Fabricant: To ask the hon. Member for North Devon, representing the House of Commons Commission whether the Commission plans to digitise the internal House television distribution system; and if he will make a statement. [27261]

Nick Harvey: Yes. Provisional plans have been made to move from analogue to digital broadcast on the annunciator system. This is programmed for a phased changeover from the year 2010–11 through to 2014–15 to coincide with the expected difficulties in maintaining the existing analogue displays and equipment. The exact nature and phasing of the changeover is yet to be determined.

TREASURY

Alcohol/Tobacco Tax Revenue

Mr. Laurence Robertson: To ask the Chancellor of the Exchequer how much was received in taxation from *(a)* alcoholic drinks, *(b)* public houses and *(c)* tobacco products in Northern Ireland during the last year for which figures are available. [28222]

John Healey: Relevant information on Alcohol and Tobacco products in the UK are included in Table 1.1 of the HM Revenue and Customs Factsheets for Alcohol and Tobacco, which can be found on a HM Revenue and Customs website address at: http://www.uktradeinfo.com/index.cfm?task = factindex

Similar information on public houses is not available.

Statistical information on tax revenue at the level of detail requested is not available for Northern Ireland.

Carers (Devon)

Mr. Sanders: To ask the Chancellor of the Exchequer how many full-time carers there were in each local authority area in the county of Devon as recorded by the 2001 census; how many provided more than 50 hours care per week; and what estimate the Government have made of those figures since the census. [27005]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell to Mr. Adrian Sanders, dated 14 November 2005:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking how many full-time carers there were in each local authority area in the county of Devon as recorded by the 2001 Census; how many provided more than 50 hours care per week; and what estimate the Government has made of those figures since the Census. (27005)

We have interpreted the ambiguous phrase "carer" to mean any person who provides unpaid care.

The table below shows the number of people in each local authority in the county of Devon on Census day (29 April 2001) who were providing unpaid care, and of those how many were providing more than 50 hours of unpaid care per week. The data have been taken from table KS08 in Census 2001 Key Statistics for local authorities in England and Wales which is available in the House of Commons Library.

The Office for National Statistics has not conducted a survey since the 2001 Census which specifically asked questions about the provision of unpaid care.

Number of people in each local authority in the county of Devon providing unpaid care—Census day (29 April 2001)

		Provision of unpaid care	
Area	*All people*	*All people who provide unpaid care*	*All people who provide unpaid care: 50 or more hours of care a week*
Devon county	704,493	72,969	14,491
East Devon	125,520	13,764	2,542
Exeter	111,076	9,896	2,036
Mid-Devon	69,774	6,942	1,314
North Devon	87,508	8,993	1,839
South Hams	81,849	9,109	1,625
Teignbridge	120,958	12,785	2,709
Torridge	58,965	6,249	1,401
West Devon	48,843	5,231	1,025

Source:
Table KS08 Census 2001 Key Statistics for local authorities in England and Wales.

Citizens Advice Bureaux

Mrs. James: To ask the Chancellor of the Exchequer what guidance is given to local authorities by his Department about the funding of citizens advice bureaux. [27213]

Mr. Ivan Lewis: The Treasury does not provide guidance to local authorities about funding citizens advice bureaux.

Mrs. James: To ask the Chancellor of the Exchequer what financial assistance is given to citizens advice bureaux by his Department. [27214]

Mr. Ivan Lewis: The Treasury does not provide any direct financial assistance to citizens advice bureaux

Consumer Debt

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer if he will break down the £1.130 billion of consumer debt in the United Kingdom confirmed by the Bank of England into categories of expenditure. [27391]

Mr. Ivan Lewis: The Bank of England's lending to individuals figures show that the total debt stock in September 2005 was £1,130 billion. This figure can be broken down into two major components; consumer credit stock (£190.795 billion) and secured stock (£939.456 billion).

Consumer credit stock consists of that on credit cards (£55.895 billion) and other (£134.863 billion).

The majority of secured lending is used for house purchases, but there are no figures available as to the eventual use of consumer credit.

Criminal Offences

Simon Hughes: To ask the Chancellor of the Exchequer if he will list the criminal offences created in legislation sponsored by his Department between the end of the 2003–04 session and the end of April 2005, broken down by Act. [28473]

John Healey: The following provisions created criminal offences in primary legislation sponsored by HM Treasury between the end of the 2003–04 session and the end of April 2005:

Finance Act 2004

Schedule 1—New Schedule 2A to the Alcoholic Liquor Duties Act 1979

Paragraph 5—Offences of possession, sale, etc. of unstamped containers

Paragraph 6—Offence of using premises for sale of liquor in or from unstamped containers

Commissioners for Revenue and Customs Act 2005

Section 19—Wrongful disclosure

Section 21(4)—Disclosure to a prosecuting authority

Section 29(4)—Confidentiality

Section 30—Impersonation

Section 31—Obstruction

Section 32—Assault

Section 40(3)—Confidentiality

Customs Duties

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer what steps he is taking to ensure that people buying goods from abroad on the internet pay the appropriate customs duties; and if he will make a statement. [27535]

John Healey: HM Revenue and Customs operate import controls at UK ports of entry, and international postal depots on consignments containing goods entering the UK from outside the European Union.

These controls are applied to all consignments using well-established risk assessment techniques to identify those for examination.

For consignments imported via the Royal Mail, HMRC examines declarations affixed to packets to ensure that the correct customs duty, excise duty and import VAT is charged and collected. This process includes examining the contents of packets with incomplete or missing declarations.

Economic and Monetary Union

Andrew Rosindell: To ask the Chancellor of the Exchequer how many officials in his Department are assigned to work on the potential integration of the UK with European economic and monetary union; and what the salary of each is. [27150]

Mr. Ivan Lewis: Budget 2005 noted that the Government did not propose a euro assessment be initiated at this time. The Chancellor's statement to the House on 9 June 2003 on UK membership of the single currency set out a reform agenda of concrete and practical steps to address the policy requirements identified by the assessment of the five economic tests. A range of officials from across the Treasury contribute to this work. Disaggregated information relating to the salaries of the officials concerned is not available.

Economic Performance

Mr. Bone: To ask the Chancellor of the Exchequer what recent assessment he has made of the UK's economic performance in comparison with other major European countries. [27627]

Mr. Ivan Lewis: This year we have faced the highest sustained oil prices for a quarter of a century and a slow-down in our main export markets. In any previous decade anyone of these would have pushed the UK economy into recession. In contrast, this year the economy has not only continued to grow, but grown faster than any other major European economy.

The Treasury paper on "Global Europe: Full employment Europe" set out the need for Europe, with growth at 1.2 per cent. this year and unemployment approaching 10 per cent., to become outward not inward looking, focused on external competition, and to combine flexibility with fairness.

Euro

Mr. Hayes: To ask the Chancellor of the Exchequer if he will make a statement on the estimated cost to date of preparations for possible euro entry by the UK. [27741]

Mr. Ivan Lewis: The latest estimate of Government spending on preparations for possible entry to the single currency is set out in paragraph 2.5, on page 8, of the report on Euro Preparations, December 2004.

Copies of the document are in the Library of the House and on the Treasury's euro website www.euro.gov.uk

House Insurance

Miss McIntosh: To ask the Chancellor of the Exchequer what recent discussions he has had with the Financial Services Authority on the regulation of house insurance. [28247]

Mr. Ivan Lewis: HM Treasury Ministers and Officials have regular discussions with the Financial Services Authority on a wide variety of subjects, including general insurance regulation.

House Prices

Mrs. Spelman: To ask the Chancellor of the Exchequer what the average change in UK house prices since May 1997 was in *(a)* cash and *(b)* percentage terms; and what the change in inheritance tax threshold in (i) cash and (ii) percentage terms over the same period was. [26942]

Dawn Primarolo: Housing comprises one element of overall wealth representing around 40 per cent. of the value of the average estate on death.

Since 1997, household sector net wealth has risen by around 50 per cent. in real terms. Despite this significant rise in net wealth during this period, only around 6 per cent. of estates paid any IHT during the last tax year—94 per cent. of estates were not subject to any IHT. And in order to provide certainty for hardworking families with estates valued at around the threshold, in the Budget earlier this year the Chancellor announced that the IHT tax-free threshold would rise from £263,000 to £275,000 in 2005/06, £285,000 in 2006–07 and £300,000 in 2007–08, a faster rise than statutory indexation.

Private Finance Initiative

Mr. Newmark: To ask the Chancellor of the Exchequer how many private finance initiative (PFI) contracts have a duration of more than 25 years; and whether the value of these contracts is included in the 2005 Budget Red Book estimated PFI expenditure of £138.4 billion. [26225]

John Healey: The Treasury does not hold specific information on how many signed PFI contracts have a duration of more than 25 years. The estimated unitary charges of all PFI projects are included in table C19 of the Financial Statement and Budget Report 2005. The format of this table is in line with the Dear Accounting Officer letter "Reporting PFI Contracts to Parliament" published by the Treasury Officer of Accounts in 2000.

The quoted figure of £138.4 billion represents an aggregation of estimated nominal payments that cannot be interpreted as Government's present liability. Payments that have been made within signed PFI projects are included within departmental accounts.

Stephen Hammond: To ask the Chancellor of the Exchequer in respect of which private finance initiative projects the obligations on either party have failed to be met and consequently *(a)* the contract has been renegotiated and *(b)* the contract has failed and the project has been taken back into public hands. [27039]

John Healey: The Treasury does not hold information centrally on contract negotiations across all PFI projects.

Stephen Hammond: To ask the Chancellor of the Exchequer whether the 2005 Budget Red Book estimates for payments under private finance initiative contracts between 2005–06 and 2030–31 include payments for *(a)* capital and interest payments and *(b)* maintenance and service contracts. [26887]

John Healey: Table C19 of the 2005 Budget Red Book sets out the estimates for payments under private finance initiative contracts between 2005–06 and 2030–31. These figures are an aggregation of the projected annual unitary charge payments on PFI projects signed to date. Unitary charge payments under an individual PFI project are the public authority's payments for the service it has contracted for to deliver the specified outputs. The contractors' aim to recoup their costs over the life of the contract through the unitary charge, including capital, operating and finance costs.

Revenue and Customs

Mr. Laws: To ask the Chancellor of the Exchequer if he will publish the transcript of the recent interview given by Mr. David Varney, Chairman of HM Revenue and Customs, to the *Financial Times* on 5 July 2005; and if he will make a statement. [13596]

Dawn Primarolo: The *FT* story of July wrongly asserted that David Varney had said the structure of tax credits "may have to change". A transcript of his remarks to the *FT* is available in the Library of the House.

SIPPs

Mr. Laws: To ask the Chancellor of the Exchequer (1) whether an individual with a second home held within a self-invested personal pension which is let rent free to *(a)* a grandparent, *(b)* a sibling, *(c)* a son or daughter and *(d)* a spouse will have to pay a commercial level of rent into the pension fund from 6 April 2006; [25976]

(2) if an individual who currently lets a second property rent free to *(a)* a grandparent, *(b)* a sibling, *(c)* a son or daughter and *(d)* a spouse and who transfers ownership of the property to their self-invested personal pension on 6 April 2006 will have to pay capital gains tax; [25977]

(3) which family members living rent free in a second home held within a self-invested personal pension from 6 April 2006 will not be subject to a benefits in kind tax. [25978]

Mr. Ivan Lewis: From April 2006, if a commercial level of rent is not paid on a residential property held within a SIPP, the SIPP member will face a benefit in kind charge if the property is available for their own use or if certain family members stay in the property cheaply. Additionally, if a lease is granted to any connected person, whether a family member or not on less than commercial terms, this will trigger the unauthorised payment rules which impose a tax charge of 40 per cent. on the SIPP member and 15 per cent. on the SIPP provider. And any individual transferring a second property to a SIPP on or after 6 April will be subject to capital gains tax under the normal rules, regardless of the current letting arrangements.

The Government keep all aspects of the tax system under review. Where there is evidence of abuse, it will take appropriate action to stop it.

Tax Credits

Rosie Cooper: To ask the Chancellor of the Exchequer when he expects the analysis of the household survey data for 2003–04 to provide an estimate of families in West Lancashire eligible for, but not claiming, child tax credits. [27708]

Dawn Primarolo: I refer my hon. Friend to my reply to the hon. Member for Edinburgh, West (John Barrett) on the 25 October 2005, *Official Report*, column 318W. Due to sample size constraints, it will not be possible to produce estimates at parliamentary constituency level.

Rosie Cooper: To ask the Chancellor of the Exchequer (1) how many people in West Lancashire have received tax credits in 2005 to date; [27709]

(2) what his latest estimate is of the number of tax credit overpayments in 2004–05 in West Lancashire; what their total value is; and if he will make a statement; [27748]

(3) how many people in West Lancashire local authority area are in receipt of *(a)* child tax credit and *(b)* working tax credit; [27751]

(4) if he will make a statement on the National Audit Office Report on the Accounts of the Inland Revenue 2004–05, with particular reference to tax credit overpayments in 2004–05 in West Lancashire. [27752]

Dawn Primarolo: I refer my hon. Friend to my reply to my right hon. Friend the Member for West Dunbartonshire (Mr. McFall) on the 28 June 2005, *Official Report*, column 1429W.

Travel (Economic Value)

Mr. Spring: To ask the Chancellor of the Exchequer what the economic value of *(a)* EU-based and *(b)* non-EU based travel into the UK in each of the last eight years was; and what his Department's estimate is for the next financial year. [27054]

John Healey: Spending by overseas residents in the UK is described as 'earnings' (by UK residents) rather than 'expenditure' (by overseas residents). The figures for the last eight years are shown in the following table.

Overseas residents visits to the UK: Earnings by UK residents at current prices

£000

	EU-25	Non-EU
1997	5,305	6,939
1998	5,374	7,297
1999	5,057	7,441
2000	4,858	7,947
2001	4,344	6,962
2002	4,742	6,995
2003	5,018	6,837
2004	5,677	7,370

HM Treasury provide forecasts for volumes of exports of goods and services, but do not make forecasts for individual components of these exports.

Valuation Office Agency

Mrs. Spelman: To ask the Chancellor of the Exchequer what assessment the Valuation Office Agency has made of the effect on a property's notional valuation if that property is assigned a value significance code of US (utility: adj. radio mast, sub-station, pylon, etc). [26935]

Dawn Primarolo: When assigning dwellings to council tax bands, the Valuation Office Agency have to consider the characteristics of each property, which may affect value. The agency have sought to capture information about proximity to radio masts etc under one of the "value significant codes " as a characteristic that may affect value. Whether the value is affected, and to what extent, depends on the circumstances of individual case.

VAT

Mrs. Spelman: To ask the Chancellor of the Exchequer what estimate the Government have made of the cost of exempting *(a)* homes built on previously developed land and *(b)* property conversions from value-added tax. [26936]

Dawn Primarolo: No estimates have been made specifically of the cost of a VAT exemption for homes built on previously developed land and property conversions.

However, estimates have been made for existing VAT reliefs. The cost of the zero rate for construction of new dwellings is estimated at around £6.7 billion in 2004–05 and the reduced rate for certain residential conversions at £150 million. These estimates are published by HM Revenue and Customs in the VAT Factsheet which can be found at www.uktradeinfo.co.uk.

Mrs. Spelman: To ask the Chancellor of the Exchequer if he will estimate the revenue to be raised from imposing value-added tax on new housing at *(a)* 5 per cent. and *(b)* 7 per cent. [26937]

Dawn Primarolo: A 5 per cent. rate of VAT on new housing might raise up to £1.9 billion.

A 7 per cent. rate of VAT on new housing might raise up to £2.7 billion.

TRADE AND INDUSTRY

Electricity

Norman Baker: To ask the Secretary of State for Trade and Industry what proportion of an average electricity bill covers the costs of electricity generated but subsequently lost in *(a)* production, *(b)* transmission, *(c)* distribution and *(d)* energy inefficiency within the household. [27851]

Malcolm Wicks: The price of electricity varies over time. The value of losses will be dependent on the value of electricity at the time the losses occurred. This means it is very difficult to determine an accurate value of the level of losses in England and Wales.

A certain amount of electricity is used by generators to operate their businesses. Generators have strong financial incentives to restrict their losses as any electricity lost means they have less to sell. Approximately 1.5 per cent. of the electricity put on to the transmission network is lost. This represents approximately 0.6 per cent. of the average standard credit electricity bill. The level of electricity lost on the distribution networks varies from network to network. The simple average of losses on distribution networks is 6.3 per cent. This equates to about 2.4 per cent. of the average standard credit electricity bill. There are no figures available to answer the fourth part of this question. Energy inefficiency in the household is being tackled and the Government support the Energy Savings Trust's save 20 per cent. campaign.

Energy Efficiency

David Taylor: To ask the Secretary of State for Trade and Industry when the Sustainable Energy Policy Network last discussed household energy efficiency; and what the outcome of those discussions was. [26964]

Malcolm Wicks *[holding answer 10 November 2005]:* The Sustainable Energy Policy Network frequently discusses energy efficiency, particularly in the context of the forthcoming Climate Change Programme Review. On a monthly basis the SEPN Programme Board discusses progress against all Energy White Paper commitments including energy efficiency. The outcome of these discussions is to exchange information between Departments about progress and effectiveness of policies and to ensure that approaches are properly co-ordinated.

Additionally the Sustainable Energy Policy Advisory Board discussed energy efficiency at its meeting in June and the minutes of that meeting are available on the Department's website.

Liquid Natural Gas Importation Facilities

Bob Spink: To ask the Secretary of State for Trade and Industry what liquid natural gas importation facilities there are in the UK; and what sites are under consideration for development. [27199]

Malcolm Wicks: A new liquefied natural gas (LNG) import facility on the Isle of Grain was commissioned this summer. Two new LNG import terminals are under construction at Milford Haven, South Wales. Sites for LNG import terminals are under consideration at Canvey Island and Anglesey. Development of further import sites is a commercial matter for the market.

Low Carbon Buildings Programme

Ian Lucas: To ask the Secretary of State for Trade and Industry when he expects to be able to announce the start date for the low carbon buildings programme. [25604]

Malcolm Wicks: I made an announcement about the new programme on Wednesday 2 November, *Official Report*, column 47WS.

The new programme will begin in April 2006, subject to EU state aids approval.

Robert Key: To ask the Secretary of State for Trade and Industry when he expects to announce *(a)* the outcome of the consultation on the Low Carbon Buildings Programmes and *(b)* the start date of the new programme. [23851]

Malcolm Wicks: Officials are currently working up plans for the Low Carbon Buildings programme and this will take account of the consultation exercise, which closed 23 September 2005. We will consult industry further on developments later this year before finalising details of the new programme early next year.

We aim to start the programme in April 2006, subject to EU State Aids clearance and I recently announced a budget of £30 million over three years.

Microgeneration Promotion

Bill Wiggin: To ask the Secretary of State for Trade and Industry what progress he has made in drawing up a strategy for microgeneration promotion; and if he will make a statement. [26833]

Malcolm Wicks: A public consultation on the Government strategy to promote microgeneration was held between 23 June and 23 September this year. In addition a study into the costs and benefits of microgeneration was commissioned and is expected to report shortly. The findings of this study and the responses to the consultation are being fed into the process of developing the final strategy, which will be published in April 2006.

Miners' Compensation

Peter Law: To ask the Secretary of State for Trade and Industry pursuant to the answer of 31 October 2005, *Official Report*, column 710W, on miners' compensation, if he will *(a)* place in the Library and *(b)* post on his Department's website the details of the efficiency improvement programme on miners' compensation to which reference is made. [25685]

Malcolm Wicks: The efficiency improvement programme includes six work streams:

People

attrition, career development, employment terms;

Productivity improvement

'fast track' offers, development of compensation calculators;

Quality

service level agreement;

Strategic and operations planning

establishment of a programme office, additional claims handling offices;

Systems and business intelligence

electronic data management, website allowing case tracking and access to calculators; and

Financial management

enhanced review and audit procedures.

Improvements against benchmarks are regularly reported and monitored. This detailed information is commercially confidential and inappropriate for publication.

Ministerial Travel

Mike Penning: To ask the Secretary of State for Trade and Industry how many *(a)* flights and *(b)* helicopter flights have been taken by Ministers within his Department for (i) UK and (ii) overseas visits in each year since 1995; on how many occasions (A) charter flights were used and (B) first and club class tickets were obtained; and who accompanied the Ministers on each trip. [27806]

Alan Johnson: The answer to this question could be obtained only at disproportionate cost.

Nuclear Power

Norman Baker: To ask the Secretary of State for Trade and Industry how much has been levied in fines by the Nuclear Inspectorate against *(a)* companies, *(b)* local authorities and *(c)* individuals with regard to incidences of pollution (i) in total, (ii) in each region and (iii) per fine in each year since 1995, broken down by the type of pollution incidence. [27792]

Malcolm Wicks: The Nuclear Installations Inspectorate does not impose fines. This is a matter for the courts.

Norman Lamb: To ask the Secretary of State for Trade and Industry if he will list meetings *(a)* he and *(b)* other Ministers in his Department attended in the last three months at which nuclear power was discussed; and who attended each meeting. [17406]

Malcolm Wicks: Following is a list of meetings in the last three months at which DTI Ministers specifically discussed nuclear power.

Secretary of State

19 October

Meeting to discuss Sellafield and safety issues

Irish Minister for the Environment

Minister of State for Energy

11 July 2005

Meeting to discuss Sellafield MOX Plant

DTI officials

14 July 2005

Meeting to discuss nuclear industry issues

Representatives of the Nuclear Industry Association

21 July 2005

Meeting to discuss Sellafield

DTI officials

8 September 2005

Meeting to discuss nuclear issues

Representative of the US Nuclear Energy Institute

11 October 2005

Meeting to discuss nuclear industry issues

Representatives of British Energy

Parliamentary Under Secretary of State

5 September 2005

Meeting to discuss nuclear industry issues

Representatives of BNFL

13 October 2005

Meeting to discuss nuclear industry issues

Representatives of British Energy.

Radioactive Material

Norman Baker: To ask the Secretary of State for Trade and Industry how many movements of spent nuclear fuel occurred in each year since 1997 *(a)* by air within UK airspace, *(b)* by sea within UK waters, *(c)* by rail and *(d)* by road. [27666]

Malcolm Wicks: The movement of spent nuclear fuel is regulated by the Nuclear Industries Security Regulations 2003 (NISR 2003) which became effective on 22 September 2003. Information concerning the number of movements of spent nuclear fuel prior to this date is not held centrally and could be provided only at disproportionate cost and by reference to individual nuclear operators. Since 22 September 2003 individual sea, rail and road carriers of nuclear material have been required to provide the Office for Civil Nuclear Security with a seven-day notification of movement and the number of movements notified are as follows:

Financial year	*Sea*	*Rail*	*Road*
2003–04[1]	16	405	568
2004–05	6	852	875
2005–06[2]	1	471	487

[1] September 2003 to March 2004.
[2] To date.

The NISR 2003 do not cover the movement of nuclear material by air, but since 22 September 2003, there have been no recorded movements of spent nuclear fuel by road or rail to or from a UK airport.

Renewable Energy

Dr. Alasdair McDonnell: To ask the Secretary of State for Trade and Industry what arrangements exist to manage the supply of electricity from Snugborough wind farm in County Cavan in the Republic of Ireland to Northern Ireland, with particular reference to the renewables obligation certificate scheme; and if he will make a statement. [25525]

Malcolm Wicks: Renewables obligation certificates (ROCs) can be claimed by generators where the electricity is generated and supplied in Great Britain and Northern Ireland using technologies eligible under the renewables obligation. Under this scheme Snugborough wind farm is not eligible to claim ROCs as it is located in the Republic of Ireland.

Mr. Lancaster: To ask the Secretary of State for Trade and Industry if he will include energy-from-waste technology in the renewables obligation. [26114]

Malcolm Wicks: Waste from pure biomass, e.g. agricultural waste, food wastes and forestry material are all currently eligible under the renewables obligation. In addition mixed waste from non-fossil derived energy is eligible when electricity is generated using pyrolysis, gasification or anaerobic digestion technologies.

The Government are consulting within the renewables obligation review on a proposal to extend eligibility to the conventional combustion of mixed wastes for projects using good quality combined heat and power.

Wind Energy

Mrs. Moon: To ask the Secretary of State for Trade and Industry what statistics are kept by his Department in regard to wind farm applications in each region. [26991]

Malcolm Wicks: The Department does not hold statistics in regard to wind farm applications broken down by region.

Applications for wind farms that do not fall to the DTI to deal with under sections 36 of the Electricity Act 1989 (ie wind farms with a capacity of less than 50 MW onshore) are normally dealt with through the local planning system.

Mr. Lancaster: To ask the Secretary of State for Trade and Industry what the average level of subsidy given to companies applying for planning permission to erect *(a)* onshore and *(b)* offshore wind turbines has been since 1997. [27178]

Malcolm Wicks: The Department of Trade and Industry does not provide subsidies for companies applying for planning permissions to erect onshore and offshore wind turbines.

Onshore and offshore wind which are generating electricity are able to benefit from the Renewables Obligation (RO) which along with exemption from the climate change levy will provide support of £1 billion per year by 2010 to the renewable industry.

Mr. David Jones: To ask the Secretary of State for Trade and Industry whether an application has been made by npower renewables in relation to the development of the Gwynt-y-Mor wind farm off the coast of North Wales. [27196]

Malcolm Wicks: No application has been received.

Mrs. Moon: To ask the Secretary of State for Trade and Industry what percentage of wind farm planning applications have been successful to date. [27339]

Malcolm Wicks: The Department does not hold information on the percentage of wind farm planning applications that have been successful to date.

Applications for wind farms that do not fall to the DTI to deal with under Sections 36 of the Electricity Act 1989 (i.e. wind farms with a capacity of less than 50MW onshore) are normally dealt with through the local planning system.

Mr. Pelling: To ask the Secretary of State for Trade and Industry what estimate he has made of the number of turbines required to generate the 10 per cent. energy from wind power expected by the Government; and how many grid connections are planned to facilitate this. [26231]

Malcolm Wicks: The Government's target of renewable energy sources contributing 10 per cent. of our electricity by 2010 is for all forms of renewables, not just wind. However it is clear that wind will make the main contribution. At this stage it is difficult to predict precise numbers. There are already just under 1,450 wind turbines of various sizes, currently in operation. These turbines are sited both offshore and onshore.

Generating 10 per cent. of UK electricity from renewables could mean an increase of possibly another one and halt times that number.

As with the number of turbines it is not possible to calculate the number of grid connections that are required to facilitate the meeting of the 10 per cent. renewables target. This will depend on where windfarms are located and the grid infrastructure in those areas.

TRANSPORT

A14

Mr. Hollobone: To ask the Secretary of State for Transport what estimate he has made of the average daily number of vehicles which use *(a)* junction 7, *(b)* junction 8 and *(c)* junction 9 of the A14; and what estimate he has made of the average daily number of vehicles which will use each junction in (i) 2011, (ii) 2021 and (iii) 2031. [28107]

Dr. Ladyman: Junctions 7, 8 and 9 of the A14 are the three junctions on the Kettering Bypass. Following the recommendations of the London to South Midlands multi-modal study in July 2003 to widen the A14 through the East Midlands to dual three lanes, the Secretary of State asked the Highways Agency to carry out further work on the A14 Kettering Bypass section of the route.

A study is currently under way of possible options for this route. This will take into account the growth in local development set out in the Milton Keynes and South Midlands sub-regional strategy.

Traffic counts are being undertaken as part of the study which will provide estimates of the traffic flows using these junctions. The study is expected to report in February 2006.

A21

Gregory Barker: To ask the Secretary of State for Transport what decisions have been taken by the Highways Agency on public consultations with representatives of interest groups related to the proposed A21 upgrade. [28219]

Dr. Ladyman: We announced the preferred route in February 2005 having taken into account the views expressed during and following the public consultation held in 2002–03. Following my meeting with the hon. Member on 20 October 2005, I asked the Highways Agency to meet with representatives of interest groups and I understand they have arranged a meeting for the 28 November.

A27 Lewes Bypass

Norman Baker: To ask the Secretary of State for Transport if he will make it his policy to have the A27 Lewes bypass resurfaced with a quieter material in the next financial year. [27679]

Dr. Ladyman: Whenever a road needs to be resurfaced for safety and maintenance reasons, quieter surfacing is used as a matter of course. Last year a 1 km stretch of the A27 Lewes bypass was repaired using low noise material.

The bypass is now in good condition and there are no plans to resurface the remainder in the next financial year. However a technical survey is programmed for next financial year and any works identified as a result of the survey, such as resurfacing with a quieter material, would be carried out in financial year 2008–09, subject to allocation of funds.

A43

Mr. Hollobone: To ask the Secretary of State for Transport what recent assessment he has made of congestion on the A43 Kettering-Northampton road at peak times; and what estimate he has made of the expected level of congestion in *(a)* 2011, *(b)* 2021 and *(c)* 2031. [28104]

Dr. Ladyman: The A43 between Kettering and Northampton is the responsibility of Northamptonshire county council, as local highway authority. The Department for Transport has, therefore, made no assessment of congestion on this section of road.

A45

Mr. Anthony Wright: To ask the Secretary of State for Transport what the traffic levels were on the A47 Acle Straight in each of the last five years for which figures are available. [28044]

Dr. Ladyman: The Annual Average Daily Traffic (AADT) 24 hour traffic flows for A47 Acle Straight between 1999 and 2004 are as follows:

	AADT (Westbound)	*AADT (Eastbound)*
1999	10,796	9,713
2000	10,850	10,089
2001	11,435	10,803
2002	11,664	11,349
2003	13,129	12,267
2004	12,723	11,821

A63

Ms Diana R. Johnson: To ask the Secretary of State for Transport what Highways Agency funding is triggered by recognition of the A63 as a trans-European network route by the European Commission. [26836]

Dr. Ladyman: The presence of the A63 on the European Union's trans-European transport network does not trigger Highways Agency funding for potential projects on that road. While trans-European network funding may in principle be available from the EU, it is in the first instance for the region to consider its own regional road network priorities within the framework of its regional funding allocation.

Air Pollution

Tom Brake: To ask the Secretary of State for Transport what targets his Department has set for air levels of *(a)* carbon monoxide, *(b)* lead, *(c)* nitrogen dioxide, *(d)* particles, *(e)* benzene and *(f)* 1.3 butadiene. [27607]

Dr. Ladyman: The Government and Devolved Administrations air quality policies are set out in detail in the "Air Quality Strategy for England, Scotland, Wales and Northern Ireland", published in January 2000. An Addendum to the Strategy was published in February 2003. Copies of both documents are available in the Library of the House.

The strategy sets objectives for nine main air pollutants to protect human health and two objectives to protect vegetation and ecosystems. The air pollutants covered by the strategy are benzene; 1,3-butadiene; carbon monoxide; lead; nitrogen dioxide; particles (PM10); ozone; sulphur dioxide and polycyclic aromatic hydrocarbons.

Buses

Mr. Duncan: To ask the Secretary of State for Transport (1) what are the passenger use figures for each of the 43 bus schemes that will receive funding under the scheme announced by his Department on 1 November, for each year since 1997; [28313]

(2) if he will list the 43 bus schemes that will receive funding under the scheme announced by his Department on 1 November. [28314]

Mr. Darling: I refer the hon. Member to the written statement of 1 November 2005 announcing the results of the Kickstart competition. A list of the schemes was placed in the Libraries of the House.

The schemes are for new, or in some cases substantially enhanced, services which will begin operation in the new few months, now that funding has been announced. The question of passenger use figures in prior years for the services concerned does not therefore arise.

Congestion (Urban Areas)

Tom Brake: To ask the Secretary of State for Transport what targets his Department has set for reducing congestion in urban areas. [27564]

Dr. Ladyman: In July 2005 the Government published a new public service agreement target for urban congestion that, by 2010–11, the 10 largest urban areas will meet the congestion targets set in their Local Transport Plan relating to movement on main roads into city centres.

Local Transport Plans will be published in March 2006.

Correspondence

Gregory Barker: To ask the Secretary of State for Transport when he will respond to the letter of 19 October from the hon. Member for Bexhill and Battle on train services from Bexhill to London Victoria. [28218]

Derek Twigg: We have no record of a letter of 19 October. I have written to the hon. Member today in response to his letter of 14 September.

Driving Licences

Mr. Evans: To ask the Secretary of State for Transport how many people have had their driving licences removed due to their use of illicit substances since 1997. [28038]

Dr. Ladyman: Data are only immediately available for the past and current financial year. They are as follows:

April 2004 to March 2005—976 licences refused or revoked for drug misuse/dependence

April 2005 to October 2005—784 licences refused or revoked for drug misuse/dependence

These figures do not include licences revoked by the courts.

Mr. Letwin: To ask the Secretary of State for Transport how many applications for driving licences had documents lost *(a)* by and *(b)* in transit to the Driver and Vehicle Licensing Agency in 2004–05. [27325]

Dr. Ladyman: During the financial year 2004–05 the number of documents in support of driving licence applications lost by DVLA was 734 (0.01 per cent. of the 6.8 million driving licences issued last year). Holders of digitised UK passports now need only to quote the number on the application form and do not need to forward the document to DVLA.

No record of non-receipt of applications (including associated documents) is kept. Drivers are advised that the responsibility for their delivery rests with Royal Mail.

Highways Agency

Tom Brake: To ask the Secretary of State for Transport what assessment the Highways Agency makes of the likely impact on traffic on Agency-controlled roads *(a)* before and *(b)* after construction of major schemes on surrounding roads which are not operated by the agency. [26765]

Dr. Ladyman: The Highways Agency is consulted on all developments, including road schemes, that impact on the strategic road network. All major proposals are required by the planning system to have a full transport and environmental impact appraisal carried out. The agency can and does comment on these impacts.

The agency does not specifically assess other authorities' schemes after construction but regularly monitors traffic flows on the strategic network.

Inter-urban Congestion

Tom Brake: To ask the Secretary of State for Transport what the level of inter-urban congestion was *(a)* in 2000 and *(b)* at the latest date for which figures are available; and what the predicted level for 2010 is. [27481]

Dr. Ladyman: In 2000, congestion was measured on the basis of average vehicle delay, using data derived from floating car surveys, and comparing actual traffic speeds with those that would be achievable by a car in the absence of other traffic. Full details of the methodology are available on the Department's website at:

www.dft.gov.uk/stellent/groups/dft_transstats/documents/page/dft_transstats_021863.pdf

Under this measure, the estimated average vehicle delay in 2000 in England was 3.2 seconds lost per vehicle kilometre (sec/vkm) on inter-urban motorways and trunk roads.

The Government published predictions of the level of average vehicle delay in the "Transport Ten Year Plan 2000: Delivering better transport—progress report" (December 2002) to which I refer the hon. Member. The Progress Report also announced that the Government were developing new indicators of congestion that would be more meaningful to road users and capture important aspects of congestion such as journey time reliability.

In July 2005 the Department announced a new indicator of congestion looking at the reliability of journey times. Details are on the Department's website at http://www.dft.gov.uk/stellent/groups/dft_about/documents/page/dft_about_030578-01.hcsp#P61_1195.

The first data using the new indicator will be published in November 2005.

Learner Drivers (First Aid)

Mr. Laurence Robertson: To ask the Secretary of State for Transport if he will assess the merits of introducing an element of first aid training for people learning to drive; and if he will make a statement. [28214]

Dr. Ladyman: I refer the hon. Member to my answer of 27 October 2005, *Official Report*, column 504W.

Marine Pollution

Norman Baker: To ask the Secretary of State for Transport if he will list *(a)* marine, *(b)* oil and *(c)* other pollution incidences recorded in United Kingdom waters in each year since 1990 from shipping registered in (i) the UK, (ii) the EU and (iii) other countries; what actions were taken to clean up in each case; what the cost was; by whom this was paid; what fines were levied; and if he will make a statement. [27773]

Dr. Ladyman: Information is not available in the form requested.

The Advisory Committee on Protection of the Sea (ACOPS) produced a report entitled "Long-term analysis of oil spill statistics for the waters around the British Isles 1964 to 1995". For this period the trend was for a consistent and continuing decline in the numbers of pollution incidents in UK waters accompanied by reductions in the annual total number of incidents attributed to the handling and transportation of oil around the UK coastline. The annual reports that have been produced between 1995 and 2004 have shown a continuation in these trends.

The United Kingdom follows the internationally recognised 3-tiered classification of marine pollution. A Tier-3 spill would require a national response and activation of the national contingency plan.

The Maritime and Coastguard Agency (MCA) has a robust cost recovery regime that ensures, where possible, the polluter pays principle is applied. A recent example of this principle followed the grounding of the tug Vanguard in the Inner Sound between the Isle of Skye and the mainland in September 2004. MCA resources including equipment from national stockpiles were deployed. All costs incurred by the MCA have been recovered.

Norman Baker: To ask the Secretary of State for Transport if he will list the occasions since 1975 when ships have lost dangerous cargoes overboard in *(a)* United Kingdom waters, *(b)* the English channel and *(c)* the North sea; what cargo was lost in each case; and what was subsequently recovered. [27774]

Dr. Ladyman: The Maritime and Coastguard Agency uses data provided by the Advisory Committee on Protection of the Sea (ACOPS) and statistics are not available in the form requested. It can however be confirmed that such instances are few in number. coastguard experience suggests that around five or six incidents of cargo being lost overboard occur over the course of one year in United Kingdom waters and only a few of these can be listed as dangerous or harmful. In a circumstance where a dangerous or harmful cargo has been reported to have been lost overboard in UK waters the Maritime and Coastguard Agency would execute recovery where necessary and operationally possible.

Motorway Repairs

Andrew Mackinlay: To ask the Secretary of State for Transport what assessment has been made of the health and safety implications of *(a)* how and *(b)* where motorists repair a punctured tyre on a motorway hard shoulder; if he will include guidance in the Highway code; and if he will make a statement. [27643]

Dr. Ladyman: Guidance on breakdowns and accidents is already included in the Highway Code. Rule 249 of the Code (additional rules for the motorway) advises that road users should not attempt even simple repairs. They are further advised to use an emergency telephone in order to seek help.

Ports

Tom Brake: To ask the Secretary of State for Transport how many UK ports are subject to the International Ship and Port Facility Security code regulations. [26337]

Dr. Ladyman: There are currently 524 separate UK port facilities that are subject to the regulations. A port can comprise one or more port facilities.

Tom Brake: To ask the Secretary of State for Transport how frequently UK ports are required to be inspected under the International Ship and Port Facility Security Code. [26338]

Dr. Ladyman: The International Ship and Port Facility Security Code does not specify inspection frequencies for port facilities.

Tom Brake: To ask the Secretary of State for Transport how many ports in the UK exclusively serve ships of less than 500 tonnes gross. [28187]

Dr. Ladyman: This information is not held by the Department.

Private Motoring Costs

Norman Baker: To ask the Secretary of State for Transport what estimate he has made of the external costs associated with private motoring, with particular reference to environmental costs; and if he will make a statement. [27777]

Dr. Ladyman: A study[1] was undertaken for the Department in 1998 which made estimates of the external costs associated with surface transport. The table presents the estimates of the marginal external costs (cost per additional vehicle kilometre) associated with car use for 1998 as found by this study. The presentation of high and low values reflects the uncertainty associated with estimation of external costs.

	Marginal cost (p/vkm), 1998 prices	
	Low cost estimate	*High cost estimate*
Infrastructure	0.05	0.07
Congestion	8.98	10.44
Accidents	0.79	1.38
Air pollution	0.18	0.88
Noise	0.01	0.52
Climate change	0.12	0.47

The pence per kilometre values for climate change found in the study were based on the recommended values at the time—£27/tonne of carbon in the low scenario and £106/tonne of carbon in the high scenario. Guidance from DEFRA that was published after the surface transport study was published advises that values of £35 per tonne of carbon be used for the low scenario and £140 per tonne for the high scenario. Therefore the values for climate change in the table should be uprated by around 30 per cent. to reflect the latest Defra values.

[1] Surface Transport Costs and Charges: Great Britain 1998. Final Report to DETR. Institute of Transport Studies and AEA Technology Environment (Sanson, T., Nash, C., Mackie, P., Shires, J., and Watkiss, P. (2001))

Railways

Mrs. Dunwoody: To ask the Secretary of State for Transport how many franchises were operated under a management only contract in each year between 1997 and 2004; and if he will make a statement. [26949]

Derek Twigg: Management only contracts are those where the DfT Rail Group takes the full risk for the operation and pays the train operating company a management fee.

Between 1997 and 2000 there were no such contracts. In 2001 there was one, between 2002 and 2004 there were two in each year.

Mrs. Dunwoody: To ask the Secretary of State for Transport on how many occasions the Office of Passenger Rail Franchising was forced to discharge its duty under section 30 of the Railways Act 1993 to ensure the continuity of railway services as the operator of last resort in *(a)* 1997, *(b)* 1998, *(c)* 1999, *(d)* 2000, *(e)* 2001, *(f)* 2002, *(g)* 2003 and *(h)* 2004; and if he will make a statement. [26954]

Derek Twigg: The Strategic Rail Authority terminated the Connex South Eastern franchise in 2003. This resulted in the only occasion that Section 30 of the Railways Act 1993 has been used since the privatisation of the railways.

Gregory Barker: To ask the Secretary of State for Transport what assessment he has made of train overcrowding along the Hastings to Charing Cross line; and if he will make a statement. [28217]

Derek Twigg: The latest available figures show that passenger loadings on the Hastings to Charing Cross line are within the permitted limits.

Mr. George Howarth: To ask the Secretary of State for Transport (1) in light of the improved performance of South East Trains since it was returned to public hands, what lessons can be learned by private sector franchises; [26520]

(2) what assessment he has made whether there is a case for South East Trains to remain in public hands given its improvement in performance since its private sector franchise was removed. [26921]

Derek Twigg: The Future of Rail White Paper made it clear that our policy would be for rail franchises to continue to be operated by the private sector. Recent improvements in the performance of South East Trains (SET) have been encouraging, as has been the performance of other train operating companies. The improved performance of Network Rail has played a significant role in this.

Mrs. Dunwoody: To ask the Secretary of State for Transport if he will make a statement on the availability to the public of contracts between the Government and the train operating companies. [26955]

Derek Twigg: Franchise agreements and associated documents which form the contracts between train operating companies and the Government are publicly available through the Department of Transport's Public Register. Members of the public can either consult the register in person or request register material from the Department.

Reversing Vehicles

Tom Brake: To ask the Secretary of State for Transport what regulations apply to the use of audible warning devices on reversing vehicles; whether the inclusion of advertising in such warnings is permitted; and if he will make a statement. [27566]

Dr. Ladyman: Legislation governing the use of audible warning devices on reversing vehicles is contained in Road Vehicles (Construction and Use) Regulations 1986. Regulation 37 states that a reversing alarm should not be strident, whilst Regulation 99 restricts such devices for use on goods-vehicles over two tonnes gross weight, buses, engineering plant, refuse vehicles and works trucks. The regulations do not specifically prohibit advertising in the warnings.

Road Accidents

Tom Brake: To ask the Secretary of State for Transport by how much the number of individuals killed and seriously injured on roads changed in *(a)* 2000 and *(b)* 2005 to date compared with 1994 to 1998 levels (i) in England and (ii) in relation to (A) children aged under 16 years and (B) adults, broken down by social class; and what the predicted levels are for 2010. [27565]

Dr. Ladyman: The numbers of child (aged 0 to 15) and adult killed and seriously injured casualties in personal injury road accidents in England for the years 2000 and 2004 (the latest year for which figures are available), compared with the 1994–98 baseline average and the percentage change are shown in following table.

	Child KSI	Adult KSI
1994–98[1]	5,729	35,085
2000	4,417	31,449
2004	3,353	26,418
2002[2]	-23	-10
2004[2]	-41	-25

[1] Average
[2] Percentage change over.

Information on social class of casualties is not available. The Department's projection is that it remains on track to achieve the casualty reduction targets set out in the March 2000 road safety strategy "Tomorrow's roads—safer for everyone".

School Transport (Cycling)

Mr. Duncan: To ask the Secretary of State for Transport (1) how many cycle journeys were made to schools in the 12 months *(a)* prior to the establishment of the Bike It scheme and *(b)* since the establishment of the scheme; [28321]

(2) what assessment he has made of the effectiveness of the Bike It scheme; how many school travel advisers have been appointed under the scheme; and what is the average cost of employing a school travel adviser. [28322]

Mr. Darling: Cycle journeys at the 40 Bike It schools increased from 2 per cent. before the scheme was established in May 2004 to 8 per cent. in June 2005. A report from Sustrans who manage the scheme has been placed in the House Library. The Department's new expert advisory body on cycling, Cycling England, has made an assessment of the scheme and has decided it has been sufficiently successful to include in their work plan for the next three years. The scheme did not appoint any school travel advisers but did appoint four Bike It officers who add value to the work of local authority school travel advisers. The average cost to employ an officer is £45,000 per annum. This includes salary and all overheads.

Mr. Duncan: To ask the Secretary of State for Transport how much was spent developing the Bike for All website; and what assessment has been made of its effectiveness. [28323]

Mr. Darling: In total, the Department for Transport has invested £30,000, excluding VAT, on developing the Bike For All cycling portal.

Cycling England, through DFT funding, is also committed to making a contribution of £11,200 in the current and next financial years towards the editorial content and maintenance of the site.

Success has primarily been measured by the number of visitors, which over the last 3 months has averaged just under 500 a day.

Seatbelts Legislation

Mike Penning: To ask the Secretary of State for Transport if he will make a statement on planned changes at *(a)* national and *(b)* EU level to legislation relating to the installation and wearing of seatbelts. [27720]

Dr. Ladyman: Recently published European legislation will extend the mandatory requirement for the installation of seat belts to buses (except urban buses), coaches and goods vehicles. This is broadly in line with UK requirements in place since October 2001. European legislation will also prohibit the installation of sideways facing seats in new types of vehicle. Certain types of coach used to provide conferencing facilities are exempt from this until October 2010. Accident data will then be reviewed to determine whether the exemption should be extended. Otherwise, these requirements will apply to new types of vehicle being brought to the market from October 2006 and to all newly registered vehicles from October 2007.

Regulations are in preparation to come into force in 2006 (subject to Parliamentary approval) which will introduce a requirement for passengers in buses and coaches aged three years and above to wear seat belts where they are available when in seats other than the front. This follows a Departmental consultation in 2004 about changes needed in seat belt wearing regulations to transpose the requirements of European Directive 20/2003/EC into domestic legislation. The consultation document and the subsequent decision letter are available on-line at www.dft.gov.uk/stellent/groups/dft_rdsafety/documents/divisionhomepage/039143.hcs.

The Department is considering the results of consultation about changes needed to transpose the same Directive's requirements for the compulsory use of child restraints in cars and goods vehicles, and related issues. The consultation document is available at www.dft.gov.uk/stellent/groups/dft_control/documents/contentservertemplate/dft_index.hcst?n=13759&l=2.

SCOTLAND

Criminal Offences

Simon Hughes: To ask the Secretary of State for Scotland if he will list the criminal offences created in legislation sponsored by his Department between May 1997 and the end of April 2005, broken down by Act. [28258]

David Cairns: The Scotland Office was formed on 1 July 1999 and has sponsored two pieces of primary legislation between then and the end of April 2005, the Sunday Working (Scotland) Act 2003 and the Scottish Parliament (Constituencies) Act 2004. Neither Act created criminal offences.

DEFENCE

Afghanistan

1. **Mr. Flello:** To ask the Secretary of State for Defence what assessment he has made of the impact of British armed forces' presence in Afghanistan on the supply of heroin to the UK. [27264]

John Reid: First let me extend my condolences to the family and friends of Lance Corporal Steven Sherwood of the Royal Gloucestershire Berkshire and Wiltshire Regiment who was killed in a shooting incident at Mazar-e-Sharif last month, and to the family and

friends of Sergeant Christian Hickey of the 1st Battalion the Coldstream Guards who was killed by an improvised explosive device in Basra last month.

British forces are in Afghanistan to deny terrorists a base by helping the Government to develop their democracy, security, and economy. If the economy is to thrive we must help the Afghan Government to tackle the narcotics trade which also feeds 90 per cent. of the heroin supply in the UK. This is in the interests of both our countries.

My right hon. Friend the Minister for the armed forces has today issued a statement on contingency planning for phase three of ISAF.

Deepcut Barracks

12. **Meg Hillier:** To ask the Secretary of State for Defence if he will make a statement on the release to Parliament of the review by Nicholas Blake QC into the deaths of young soldiers at Deepcut. [27275]

Mr. Ingram: Nicholas Blake's plan is to publish his report before Christmas; if that proves to be impracticable, the report will be published in January. When I announced that Mr. Blake would conduct the review I confirmed that his report would be published in full, together with my response to it.

Shipbuilding

13. **Mr. Davidson:** To ask the Secretary of State for Defence if he will take steps to ensure a regular supply of defence work for the shipbuilding industry. [27276]

Mr. Ingram: A joint and detailed view of the forward maritime programme is being developed with industry. This has been done in order to create a potentially more balanced and stable industrial demand within affordability and capability constraints. The detail will be refined as work continues to develop a strategy to sustain key industrial capabilities and to improve efficiency in the United Kingdom maritime sector.

Arctic Convoys

15. **Mr. Allen:** To ask the Secretary of State for Defence if he will discuss with the Prime Minister further recognition of those who served in the Arctic convoys. [27278]

Mr. Touhig: The Government have the greatest respect for all those who served at sea during the Second World War, whether they were transporting the supplies to or from the United Kingdom or protecting the sea lanes. Their gallant efforts and their many sacrifices have not been forgotten.

On 7 March 2005, the Prime Minister announced the introduction of a new Arctic Emblem, which could be worn as a unique addition to medals. There are no plans to seek further recognition.

Recruitment

16. **Anne Main:** To ask the Secretary of State for Defence if he will make a statement on trends in recruitment for the armed forces. [27279]

Mr. Touhig: In the first five months of this financial year the armed forces gained 6,190 new recruits from civilian life. This represents 32 per cent. of the recruiting target and is comparable to the position at the same point in the last financial year.

Mrs. Humble: To ask the Secretary of State for Defence what recent measures have been taken by the Defence Recruiting Committee to promote recruitment from members of minority ethnic groups; and what targets for minority ethnic recruitment have been set for each of the services. [26273]

Mr. Touhig: The Defence Recruiting Committee, through its Diversity Recruiting Sub-Committee, undertakes many and varied recruiting and outreach activities to promote recruitment from minority ethnic groups.

All three services have specialist Diversity Action Teams aimed at promoting armed forces careers. These teams continue to engage with all ethnic minority groups to raise awareness of service careers and to improve representation. Religious leaders from minority faiths have been appointed to act as advisers on matters of religious requirements and to ensure that personnel from minority faiths receive appropriate pastoral and spiritual care.

The Specialist Recruitment Teams continue to concentrate their efforts on high ethnic minority population areas, especially Greater London, and to create new and build on existing ethnic minority community partnerships. These partnerships involve links with secondary schools, local/borough councils, community organisations, religious organisations, employment groups, youth centres, festival organisers and the ethnic media.

The recruiting goal for this financial year is for each service to increase incrementally the proportion of UK ethnic minority recruits by 0.5 per cent. above last year's goal. To this end, the financial year 2005–06 goals are: naval service 3.5 per cent.; Army 3.9 per cent.; RAF 3.6 per cent.

Mrs. Humble: To ask the Secretary of State for Defence what the minimum entry criteria are for recruitment into the armed services. [26277]

Mr. Touhig: Details of the basic entry eligibility criteria can be found on each Service's careers website. The website addresses are:

www.royalnavy.mod.uk

www.army.mod.uk

www.rafcareers.com

Cadet Forces (Kettering)

17. **Mr. Hollobone:** To ask the Secretary of State for Defence what assessment he has made of the contribution made by cadet forces in Kettering constituency. [27280]

Mr. Touhig: Like all members of the cadet forces, the cadets in Kettering make a positive contribution to their local community through being actively involved in local events and supporting both local and national charities and local community projects.

Royal Regiment of Scotland

18. **Gordon Banks:** To ask the Secretary of State for Defence If he will make a statement on the progress made to date on the formation of the Royal Regiment of Scotland. [27281]

Mr. Ingram: The Royal Regiment of Scotland will be formed from the current battalions within the Scottish Division around March of next year. The amalgamation of the 1st Battalion The Royal Scots (The Royal Regiment) with the 1st Battalion The King's Own Scottish Borderers will occur later in the same year.

The new cap badge of the Royal Regiment of Scotland was announced during the Edinburgh Military Tattoo on 16 August and symbolises a distinctive Scottish identity. The final decisions on the basing, regimental headquarters and dress of the Royal Regiment of Scotland are still being considered.

Defence Industrial Strategy

19. **Mr. Borrow:** To ask the Secretary of State for Defence what consultation his Department undertook in preparing the defence industrial strategy. [27284]

Mr. Touhig: The Defence Industrial Strategy is a top priority for the Government and is designed to ensure that the capability requirements of the UK armed forces can be met, now and in the future. Work is progressing apace, with the intention to publish before Christmas. In conducting the work, we have been taking the views of a very broad spectrum of stakeholders, including industry at many levels.

Reserve Forces

20. **Richard Ottaway:** To ask the Secretary of State for Defence if he will make a statement on the manning levels of the reserve forces. [27285]

Mr. Touhig: Based on our current plans, manning levels in the reserve forces are sufficient to support current and future operations.

Service Family Associations

21. **Vera Baird:** To ask the Secretary of State for Defence what recent meetings he has had with associations representing service families; [27286]

23. **Mr. Russell Brown:** To ask the Secretary of State for Defence what meetings he has had recently with associations representing service families. [27288]

Mr. Touhig: I have had regular contact with Service Families Federations, most recently in the Families Forum in September, when I heard from and discussed with the chairs of the Families Federations many of the most compelling families issues. I am pleased to say that the representations of the federations on behalf of all service families form an integral part of our work for them.

Iraq

22. **Bob Spink:** To ask the Secretary of State for Defence what troop movements are anticipated in Iraq during the next three months. [27287]

John Reid: The routine roulement of UK forces in Multi-National Division (South-East) (MND(SE)), began in October, and is due to complete by the end of November. The next routine roulement of UK forces is expected to take place in May 2006, and will be announced in due course.

Mr. Ancram: To ask the Secretary of State for Defence (1) how many *(a)* Sea King, *(b)* Merlin and *(c)* Lynx helicopters are deployed to Iraq; and if he will make a statement; [23054]

(2) what the helicopter flying hours are for Multi-National Division South East for each month since May; and if he will make a statement; [23052]

(3) what proportion of British troop movements within Multi-National Division (South-East) in Iraq is conducted by *(a)* air and *(b)* road; and if he will make a statement. [23312]

John Reid: We currently have 20 helicopters in the Multi-National Division (South-East). For reasons of operational security we do not comment upon the exact breakdown of these aircraft by type, the flying hours for the Multi National Division (South-East) or on the proportion of British movements overall in MND (SE) that are conducted by air. Information on the proportion of British movements conducted by air and road is not held centrally. Priority for the allocation of helicopter use is an operational decision.

Adam Price: To ask the Secretary of State for Defence whether he has received evidence of involvement by the Mujaheddin for Islamic Revolution in Iraq in the death of British service personnel. [23950]

Mr. Ingram *[holding answer 1 November 2005]:* The deaths of British forces in Iraq are investigated by the Special Investigations Branch. We do not disclose the detail of this work in order not to compromise any potential prosecutions. Where an evidential case can be built against individuals, appropriate measures will be taken, irrespective of their affiliation to any particular organisation.

Mr. Ancram: To ask the Secretary of State for Defence what recent discussions he has had with his US counterpart regarding the future of the Iraqi port of Umm Qasr; and if he will make a statement. [27172]

Mr. Ingram: We hold regular discussions with our coalition partners, including the United States, about progress in Iraq. The Iraqi port authorities assumed responsibility for the ports at Umm Qasr North and Umm Qasr South in summer 2004 and, as such, decisions on the future of the ports will be a matter for the Iraqi authorities. The United Kingdom will continue, as part of our wider security sector reform work, to provide training to the Iraqi port security guards until they achieve the level of capability required to provide security themselves.

1st Battalion Royal Highland Fusiliers

Mrs. Humble: To ask the Secretary of State for Defence how many soldiers from the 1st Battalion Royal Highland Fusiliers have gone absent without leave in the past 12 months. [21527]

Mr. Ingram: Unit records provide details of individuals who have been absent for a period of more than seven days. In the last 12 months, this information shows 18 soldiers from the 1st Battalion Royal Highland Fusiliers recorded as absent without leave.

Advisory Bodies

Mr. Amess: To ask the Secretary of State for Defence if he will list his Department's advisory non-departmental public bodies which the Government is required to *(a)* consult prior to legislative proposals and *(b)* publish their response to advice from. [27258]

Mr. Touhig: The MOD has no Advisory Non-Departmental Public Bodies (ANDPBs) which the Government are required to consult prior to legislative proposals being made.

The Government are required to publish their responses to recommendations made by the Armed Forces Pay Review Body. Government and ANDPBs are subject to the provisions of the Freedom of Information Act.

Mr. Amess: To ask the Secretary of State for Defence which of the advisory non-departmental public bodies sponsored by his Department have a statutory base; which of his Department's non-departmental public bodies *(a)* publish their advice to Government, *(b)* publish an annual report and *(c)* lay an annual report before Parliament; and if he will indicate in each case whether this is a statutory requirement. [27259]

Mr. Touhig: The MOD has no Advisory Non-Departmental Public Bodies (ANDPBs) with a statutory basis.

The situation in relation to the publication of advice and reports for each of MOD's 11 ANDPBs is set out as follows.

The Central Advisory Committee on Conscientious Objectors (ACCO).

Advice to the MOD is not published. Annual reports are available on request. They are not laid before Parliament. There is no statutory requirement to publish advice or annual reports.

The Advisory Group on Medical Countermeasures (AGMC).

Advice to the MOD is not published. Annual reports are published. They are not laid before Parliament. There is no statutory requirement to publish advice or annual reports.

The Animal Welfare Advisory Group (AWAC).

Some AWAC advice to MOD is published in minutes of their meetings. Annual reports are published and laid before Parliament. There is no statutory requirement to publish advice or annual reports.

The Armed Forces Pay Review Body (AFPRB).

The AFPRB publishes its advice to Government through an annual report which is laid before Parliament. There is no statutory requirement to publish advice or annual reports.

Central Advisory Committee on War Pensions and War Pensions Committees.

Advice and reports to MOD are not published or laid before Parliament although general information on the activities of the War Pensions committees is published in the Veteran's Agency annual War Pensioner's Report. There is no statutory requirement to publish advice or annual reports.

Dartmoor Steering Group (DSG).

There is no formal publication of the DSG's advice to MOD although it informs the strategic management of the Dartmoor Training area. An Annual Report is submitted to the Secretaries of State for Defence and the Environment and a copy laid in the House of Commons Library. This is a statutory requirement.

Defence Nuclear Safety Committee (DNSC).

Advice to MOD is not published. Annual reports are not published or laid before Parliament. There is no statutory requirement to publish advice or annual reports.

Nuclear Research Advisory Committee (NRAC).

Advice to MOD is not published. Annual reports are not published or laid before Parliament. There is no statutory requirement to publish advice or annual reports.

National Employers Advisory Board (NEAB).

Advice to MOD is not published. Annual reports are published and copies are placed in the Libraries of the House. There is no statutory requirement to publish advice or annual reports.

Defence Scientific Advisory Council (DSAC).

Advice to MOD is not published. Annual reports are published. They are not laid before Parliament. There is no statutory requirement to publish advice or annual reports.

Review Board for Government Contracts (RBGC).

The recommendations of the RGBC to MOD concerning the pricing of non competitive Government contracts are normally published. Such reports together with annual reports on running costs are placed in both Libraries of the House. There is no statutory requirement to publish advice or annual reports.

Mr. Amess: To ask the Secretary of State for Defence which of the advisory non-departmental public bodies sponsored by his Department *(a)* hold public meetings, *(b)* conduct public consultation excercises, *(c)* conduct consultation excercises with outside commercial interests, *(d)* publish a register of member's interests, *(e)* publish agendas for meetings and *(f)* publish the minutes of meetings; and whether in each case this is a statutory requirement. [27260]

Mr. Touhig: Information on *(a)*, *(d)* and *(f)* is published in the Cabinet Office's Public Bodies Directory at http://www.knowledgenetwork.gov.uk/ndpb

The remaining information requested for each of MOD's 11 Advisory Non Departmental Public Bodies (ANDPBs) is as follows.

Central Advisory Committee on Conscientious Objectors (ACCO)

ACCO does not conduct public consultation exercises or consultation exercises with outside commercial interests. It does not publish agendas for meetings (it holds hearings that are listed in the building to hold the hearing). There is no statutory requirement to hold meetings, conduct consultation with the public or outside commercial interests, publish a register of members' interests or agendas and minutes.

Advisory Group on Medical Countermeasures (AGMC)

AGMC does not conduct public consultation exercises, consultation exercises with outside commercial interests or publish agendas. There is no statutory requirement to hold meetings, conduct consultation with the public or outside commercial interests, publish a register of members' interests or agendas and minutes.

Animal Welfare Advisory Committee (AWAC)

The AWAC does not conduct public consultation exercises, consultation exercises with outside commercial interests or publish agendas. There is no statutory requirement to hold meetings, conduct consultation with the public or outside commercial interests, publish a register of members' interests or agendas and minutes.

The Armed Forces Pay Review Body (AFPRB)

The AFPRB does not conduct public consultation exercises. It may commission independent research from external consultants. It does not publish agendas for meetings. There is no statutory requirement to hold meetings, conduct consultation with the public or outside commercial interests, publish a register of members' interests or agendas and minutes.

Central Advisory Committee on War Pensions and War Pensions Committees

They do not conduct public consultation exercises, consultation exercises with outside commercial interests or publish agendas. There is no statutory requirement to hold meetings, conduct consultation with the public or outside commercial interests, publish a register of members' interests or agendas and minutes.

Dartmoor Steering Group (DSG)

The DSG does not conduct public consultation exercises, consultation exercises with outside commercial interests or publish agendas for its annual meeting. There is no statutory requirement to hold meetings, conduct consultation with the public or outside commercial interests, publish a register of members' interests or agendas and minutes.

Defence Nuclear Safety Committee (DNSC)

The DNSC does not conduct public consultation exercises, consultation exercises with outside commercial interests or agendas. There is no statutory requirement to hold meetings, conduct consultation with the public or outside commercial interests, publish a register of members' interests or agendas and minutes.

Defence Scientific Advisory Committee (DSAC)

The DSAC does not conduct public consultation exercises, consultation exercises with outside commercial interests or publish agendas. There is no statutory requirement to hold meetings, conduct consultation with the public or outside commercial interests, publish a register of members' interests or agendas and minutes.

National Employers Advisory Board (NEAB)

NEAB does not conduct public consultation exercises. Individual NEAB members may consult with outside agencies when forming their input to NEAB advice. It does not publish agendas for meetings. There is no statutory requirement to hold meetings, conduct consultation with the public or outside commercial interests, publish a register of members' interests or agendas and minutes.

Nuclear Research Advisory Committee (NRAC)

The NRAC does not conduct public consultation exercises. Individual NEAB members may consult with outside agencies when forming their input to NEAB advice. It does not publish agendas for meetings. There is no statutory requirement to hold meetings, conduct consultation with the public or outside commercial interests, publish a register of members' interests or agendas and minutes.

Review Board for Government Contracts (RBGC)

The RBGC does not conduct public consultation exercises. During their periodic reviews of the profit, formula for non-competitive Government contracts the RBGC invites submissions from the Joint Review Board Advisory Committee (JRBAC). The JRBAC, a committee whose membership is drawn from UK defence contractors, acts under delegation from the Confederation of British Industry, to represent industry on review board matters. The Review Board may, in conducting its reviews, take account not only of submissions made by the Government or industry, but also any representations made to it by any person or body it wishes to consult. It does not publish agendas.

There is no statutory requirement to hold meetings, conduct consultation with the public or outside commercial interests, publish a register of members' interests or agendas and minutes.

Armed Services (Training)

Mrs. Humble: To ask the Secretary of State for Defence what the terms of reference were for research he has undertaken into the impact of poor basic skills on drop out rates from Phase I and Phase II training in the armed services; what the principal conclusions were of this research; and if he will place a copy of the results in the Library. [26281]

Mr. Touhig: To date, no studies have been undertaken specifically looking at the impact of poor basic skills on the drop out rates from Phase 1 and 2 training, although the Army plans to conduct one in 2006.

Mrs. Humble: To ask the Secretary of State for Defence what the wastage rates were in each of the four largest army Phase II training establishments in each of the last four years for which figures are available. [26283]

Mr. Touhig: The information requested is not held in the format requested. The table covers the last four financial years and shows the number of soldiers entering the four largest Army Phase 2 training establishments: Infantry Training Centre (Catterick) (ITC(C)), Defence College of Logistics (DCL), Royal School of Military Engineers (RSME) and the Defence College of Electrical and Mechanical Engineers (DCEME) and the level of wastage from training over the same period.

	2001-02		2002-03		2003-04		2004-05	
Unit	*Input*	*Wastage*	*Input*	*Wastage*	*Input*	*Wastage*	*Input*	*Wastage*
ITC(C)	4,080	420	4,100	970	5,250	1,180	3,240	950
DCL	1,520	200	2,140	250	1,860	200	1,480	170
RSME	940	10	1,390	40	1,150	130	1,280	140
DCEME	760	170	1,230	240	1,220	140	1,300	140

Note:
Figures have been rounded to the nearest 10.

Direct comparison between the input and wastage figures in any particular year can be misleading because of varying course lengths and fluctuations in numbers under training. The overall underlying wastage rate at Phase 2 over the last few years has, however, shown a slight increase. It should also be noted that, since April 2002, the Infantry has run a combined Phase 1 and 2 course at ITC(C); figures since this date therefore include numbers for Phase 1 where generally the level of wastage is higher.

Mrs. Humble: To ask the Secretary of State for Defence what guidance he has issued to the Army Personnel Centre in Glasgow concerning vetting procedures for military and civilian instructors at initial training establishments. [26289]

Mr. Touhig: While no specific guidance has been issued to the Army Personnel Centre (APC) concerning vetting for military instructors at initial training establishments, the APC has procedures in place to confirm the suitability of an individual selected for this type of employment.

Civilian instructors are managed by the Army Training and Recruiting Agency and screened for their suitability by the Defence Vetting Agency.

There is currently no requirement for either military or civilian instructors to undergo Criminal Records Bureau Employment Checks. However, this policy is currently under review.

Mrs. Humble: To ask the Secretary of State for Defence what recent changes he has made to the content of induction courses for staff and trainees at initial training establishments to identify at risk behaviour of trainees. [26299]

Mr. Touhig: Training to help instructors identify 'at risk' behaviour in trainees is provided in the 'Train the Trainer' (TTT) courses currently offered by the Defence Centre of Training Support. A new TTT package providing enhanced coverage of the subject will be mandated for all instructors, including staff in initial training establishments, from April 2006. The Department is currently piloting elements of this new course with the Army.

Concurrently all three services have introduced enhancements to induction training for new staff and to the arrival briefings given to trainees. New training staff now receive guidance from appropriately qualified personnel on how to recognize symptoms of at risk behaviour in trainees, including suicide, self-harm and bullying, and what corrective or referral action to take. In addition, arrival briefings for trainees have now been revised to include more emphasis on diversity and potential self-harm and bullying issues, including how to look out for each other and how to take appropriate referral action.

Armoured Protection

Keith Vaz: To ask the Secretary of State for Defence whether his Department plans to ensure the provision of *(a)* fully armoured vehicles and *(b)* body armour to all UK troops in combat. [26628]

Mr. Ingram: We issue body armour to all UK troops on operations. We deploy vehicles with a level of protection commensurate with their operational role and with the threat, which we keep under continuous review.

Bullying

Mrs. Humble: To ask the Secretary of State for Defence what the findings were of the Special Investigation Branch investigation of allegations of bullying involving soldiers of the Royal Highlands Fusiliers at Fort George Barracks, Inverness and on overseas duty in Cyprus. [25361]

Mr. Touhig: The Special Investigation Branch investigation into anonymous allegations of bullying covered in several newspapers has been completed and found no evidence to substantiate the allegations. During the course of the investigation, a number of additional allegations were made. These were pursued separately; most have been concluded with no evidence of wrongdoing, but some are still ongoing.

Civil Contingency Reaction Force

Mr. Ancram: To ask the Secretary of State for Defence (1) how many of the reservists who are part of the civil contingency reaction force have been deployed to Iraq; and if he will make a statement; [27167]

(2) how many of each of the civil contingency reaction force contingents are available to be deployed in the event of an emergency; and if he will make a statement. [27168]

Mr. Ingram: Details of those members of the civil contingency reaction force (CCRF), who have been deployed to Iraq, are not held centrally and could be provided only at disproportionate cost. However, I can confirm that, when CCRF members are mobilised for overseas commitments, they are immediately replaced by other personnel.

All CCRF contingents would be available to be deployed, if required, in the event of an emergency.

Courts Martial

Mr. Gordon Prentice: To ask the Secretary of State for Defence what discussions he has had with the Attorney-General about the operation and supervision of the system of courts martial; and if he will make a statement. [26838]

Mr. Ingram: My right hon. Friend the Secretary of State for Defence and the Attorney-General have a strong mutual interest in the military criminal justice system. The three Service prosecuting authorities are subject to the general superintendence of the Attorney-General in their independent discharge of their statutory functions. A major Bill concerning the military justice system is to be introduced by my right hon. Friend, the Secretary of State, shortly. It is therefore clearly appropriate that given their respective roles and responsibilities, the Secretary of State and Attorney-General exchange views on the subject of the military justice system.

Bob Russell: To ask the Secretary of State for Defence pursuant to the oral Answer of 7 November 2005, *Official Report*, columns 21–30, on courts martial, what the cost was of converting the court martial building at Colchester for trial of serving and former members of the Parachute Regiment accused of murdering an Iraqi citizen. [27103]

Mr. Ingram: The final cost of converting the building used for this court martial is expected to be in the region of £77,000. This covered basic repairs to the building including roof repair, lighting, heating and access for the disabled. On current plans, the building will be used for at least one other multiple defendant trial.

Damages

Mr. Hayes: To ask the Secretary of State for Defence if he will list the 10 largest amounts of damages paid out by his Department in the last year for which figures are available, indicating in each case the nature of the claim. [27730]

Mr. Touhig: The information requested is contained in the Ministry of Defence's Claims Annual Report 2004–2005, a copy of which is available in the Library of the House.

Defence Aviation and Repair Agency

Andrew Rosindell: To ask the Secretary of State for Defence if he will make a statement on the future of the Defence Aviation and Repair Agency. [27621]

Mr. Ingram: I refer the hon. Member to the statement I made to the House on 8 November 2005.

Departmental Consultants/Special Advisers

Mike Penning: To ask the Secretary of State for Defence how many *(a)* consultants and *(b)* special advisers were employed by his Department in each year since 1997; what the cost of each was in each year; and if he will make a statement. [27413]

Mr. Touhig: Specific data on the number of consultants employed by the Ministry of Defence is not held centrally and could be provided only at disproportionate cost. However, summaries of MOD expenditure on External Assistance, of which consultancy is a part, are available in the Library of the House for the years 1995–96 to 2004–05.

With respect to Special Advisers, this information is collated separately and is announced to the House at the end of each Parliamentary session. My right hon. Friend the Prime Minister announced on 21 July 2005, *Official Report*, column 161WS, that the MOD had two Special Advisers who were employed within Special Advisers Pay Band 2 and 3 respectively.

Departmental Staffing

Mr. Ancram: To ask the Secretary of State for Defence for what reasons the average number of whole-time equivalent persons employed by his Department increased in financial year 2004–05 compared with 2003–04. [24598]

Mr. Touhig: The increase in the average number of full time equivalents from 2003–04 to 2004–05 was due to a temporary increase in the number of permanent and casual civilian staff and an increase in the number of locally employed civilians in Iraq and Sierra Leone. The overall trend, however, is downwards. Since April 2004, the total number of civilians employed by the Department (including its trading funds) has reduced from 109,050 full time equivalents to 106,270 (1 October 2005).

Future Aircraft Carriers

Mr. Hoyle: To ask the Secretary of State for Defence what the exact roles and responsibilities of each member of the Future Carrier Alliance are; when he will have a clear indication of the accurate costings of building the two new aircraft carrier ships; what the current budget for building the two new aircraft carriers is; whether French shipyards will have a role in the building of the hulls of the two aircraft carriers; and what meetings he has held with other Government Departments on the Defence Industrial Strategy work. [26182]

Mr. Ingram: Roles and responsibilities within the Carrier Alliance will be underpinned by commercial arrangements designed to align all parties to common project objectives. The industrial participants will agree contracts which will set out clearly their responsibilities in terms of areas of work related to the Carriers and the interface between the various parties, the risk that each party is taking on and where the accountability for each of these lies. These will form part of the overall shipbuild strategy and will be finalised when the main investment decision is taken.

Estimated costs are being constantly refined and will not be bound until the main investment decision, though we are confident that the continuing work to mature our cost, schedule and risk information will ensure the capability required is affordable.

Given that both the UK and France are embarking on major, complex carrier procurement projects, we are examining areas of mutual benefit and opportunities to deliver economies. It is for industry to put forward proposals which will be judged on their merits and in light of national policies.

As one would expect in the development of any Government strategy which requires the perspective of several Government Departments, there have been a number of meetings at ministerial level with Ministers and officials from other Government Departments. These have included the Department of Trade and Industry, Her Majesty's Treasury and the Foreign and Commonwealth Office.

Generals

Mr. Gordon Prentice: To ask the Secretary of State for Defence how many serving generals have never had operational responsibilities in a conflict zone; and how many have had no such responsibilities since 1995. [26825]

Mr. Ingram: There are currently 56 General officers serving in the Regular Army, of whom 12 have never had any operational responsibilities in a conflict zone. All except one of the remaining 44 have had such responsibilities since 1995. The definition of a conflict zone excludes peace-keeping operations with the United Nations in Cyprus and service in support of the civil police in Northern Ireland.

Gulf War Immunisations

Dr. Julian Lewis: To ask the Secretary of State for Defence what research his Department is carrying out to establish whether the combination of immunisations against chemical and biological weapons given to service personnel before and during the 1990–91 Gulf war was medically harmful; and what the findings of the research have been to date. [27250]

Mr. Touhig: A programme of research, overseen by an independent panel of experts, has investigated the possible adverse health effects of the combination of vaccines and tablets which were given to UK personnel to protect them against the threat of biological and chemical warfare during the 1990–91 Gulf conflict.

The core study in the programme has been undertaken at Defence Science and Technology Laboratory (Dstl), Porton Down and involved monitoring for a range of effects in marmosets for up to 18 months following the administration of vaccines and/or pyridostigmine bromide (the active ingredient in nerve agent pre-treatment tablets). Interim results, announced on 1 April 2003, *Official Report*, column 55WS, have been published and showed no apparent adverse health consequences. Final results are expected to be submitted for peer-reviewed publication shortly.

A second study has investigated the specific combination of anthrax and pertussis vaccines. This work was carried out by the National Institute for Biological Standards and Control. Publication of the final results was announced on 21 July 2005, *Official Report*, column 117WS. In mice, pertussis vaccine combinations, or aluminium salt caused illness; anthrax vaccine produced little effect; diluted vaccine combinations produced less serious side effects of shorter duration. As the researchers pointed out, caution should be exercised in applying these results to humans because of the relatively high dosage used in the tests and the very different sensitivity to these vaccines in mice and humans.

A third study has examined whether staff from Dstl Porton Down who received multiple vaccinations, including anti-biological warfare vaccinations, in the course of their duties have higher levels of recorded sick leave than their unvaccinated colleagues. The results of this study will also be submitted for publication shortly.

Further details are on our website at:
www.mod.uk/issues/gulfwar/research/interact.htm

Dr. Julian Lewis: To ask the Secretary of State for Defence what changes were made to the *(a)* number and *(b)* nature of the immunisations against chemical and biological weapons given to service personnel for service in the 2003 Gulf War compared with those given for service in the 1990–91 Gulf war. [27251]

Mr. Touhig: A total of two immunisations against chemical and biological weapons were offered to service personnel deploying on Operation Granby ("1990–1 Gulf war"). The immunisations were for anthrax (which was administered with a pertussis adjuvant) and for plague.

A total of two immunisations against chemical and biological weapons were offered to service personnel deploying on Operation Telic ("2003 Gulf war"). The immunisations were for anthrax (without a pertussis adjuvant) and for smallpox. The latter was only offered to a small cohort of personnel which included nuclear biological and chemical specialists and medical personnel who would have been part of the first response in the event of a smallpox incident.

IT Projects

Dr. Cable: To ask the Secretary of State for Defence how many of the IT projects costing over £1 million in use in his Department and introduced since 1997 have been scrutinised by the Public Accounts Committee; and if he will list them. [26602]

Mr. Touhig: None.

Landing Ships Dock (Auxiliary) Project

Mr. Gerald Howarth: To ask the Secretary of State for Defence why the Integrated Project Team leader for the Landing Ships Dock (Auxiliary) Project has resigned. [25502]

Mr. Ingram: The Integrated Project Team leader for the Landing Ships Dock (Auxiliary) Project has not resigned.

Married Quarters

Mr. Ancram: To ask the Secretary of State for Defence what the cost was in each of the last five years of upgrading properties in his Department's married quarters estate; and what the planned expenditure is for the next five years. [23326]

Mr. Touhig: I can confirm that the costs of upgrading service families accommodation for the last five financial years were:

Financial year	*£ million*
2000–01	62.8
2001–02	78.0
2002–03	53.6
2003–04	43.9
2004–05	23.2

These figures do not include new build properties.

In accordance with departmental policy, the detail of forward spending plans is being withheld because it relates to the formulation of policy.

Medical Negligence

Andrew Rosindell: To ask the Secretary of State for Defence how many *(a)* full-time and *(b)* part-time members of the armed forces have sued the Department for medical negligence in each of the past five years. [27618]

Mr. Touhig: The MOD does not record the information in a format which will readily identify full-time and part-time members of the armed forces who make claims.

The number of claims for compensation received in each of the past five years in which allegations of clinical negligence have been made is shown in the table:

Financial year	*Number of claims received*
2004–05	86
2003–04	92
2002–03	119
2001–02	142
2000–01	128

Military Afloat Reach and Sustainability Project

Mr. Kevan Jones: To ask the Secretary of State for Defence if he will make a statement on the Military Afloat Reach and Sustainability project. [26021]

Mr. Ingram: The Military Afloat Reach and Sustainability (MARS) project has been established to investigate a wide range of solutions to provide the capability to meet the future logistic support requirements of the Royal Navy and to provide sea-based support to deployed forces. It is too early to say what the final designs and specifications for the vessels might be. We will use the Assessment Phase to look into the potential options before any decisions are made at the Main Gate investment point.

Military Bases (Designated Areas)

Norman Baker: To ask the Secretary of State for Defence if he will list the bases which are designated areas under the terms of the Anti-terrorism, Crime and Security Act 2001. [25009]

Mr. Ingram: There is no provision for such designations under the Anti-terrorism, Crime and Security Act 2001.

Military Establishments (Incidents)

Mrs. Humble: To ask the Secretary of State for Defence on what dates he *(a)* received and *(b)* agreed protocol between service police forces and Home Department police forces on dealing with deaths or injuries likely to result in death on military establishments; and if he will place a copy of the protocol in the Library. [26303]

Mr. Ingram: Following detailed negotiations which began in December 2004, a protocol between the Secretary of State for Defence and the Association of Chief Police Officers has recently been finalised. The protocol reinforces the fact that primacy for conducting investigations into all deaths, or serious deaths where death is likely, on military establishments in the UK rests with the chief officer of the Home Department police force under whose jurisdiction the death occurs. The protocol, which covers England, Wales and Northern Ireland, was signed on behalf of the Secretary of State and a representative from the Association of Chief Police Officers on 7 November 2005. Copies of the protocol will be placed in the Library in the near future. An identical but separate protocol is being drawn up between a representative of the Secretary of State and the Association of Chief Police Officers (Scotland). Copies will be placed in the Library once this has been signed.

Military/Police Assistance

Roger Berry: To ask the Secretary of State for Defence what information his Department has published on military and related police assistance provided to foreign governments since 27 February 1998. [17086]

Mr. Ingram: The information requested is not held centrally and could be provided only at disproportionate cost.

However, I refer my hon. Friend to the answers given on 22 June 2005, *Official Report*, columns 1062–64W; 20 July 2005, *Official Report*, column 1751W; 10 October 2005, *Official Report*, columns 19–20W; and 24 October 2005, *Official Report*, column 26W, all of which provide relevant information.

The Ministry of Defence regularly publishes general information on military assistance to foreign governments, most recently in Delivering Security in a Changing World, Supporting Essays (Cm 6041–11) and the Ministry of Defence Annual Reports and Accounts 2004–2005 (HC 464).

Missing Weapons

Mr. Crabb: To ask the Secretary of State for Defence how many Army *(a)* handguns, *(b)* rifles and *(c)* other weapons went missing in the UK in each year since 1997; and how many were recovered over the same timescale. [25714]

Mr. Ingram: The information requested for the period 1 January 1997 to 15 October 2005 is detailed in the table.

	Handguns lost	Handguns recovered	Rifles lost	Rifles recovered	Other weapon losses	Other weapons recovered
1997	1	0	5	3	0	0
1998	5	1	1	0	0	0
1999	2	1	5	1	0	0
2000	20	3	6	1	3	0
2001	3	1	7	1	4	0
2002	1	0	1	0	0	0
2003	1	0	2	2	6	2
2004	1	0	4	1	4	0
2005	5	1	5	1	0	0
Total	39	7	36	10	17	2

Noise-induced Hearing Loss

Mike Penning: To ask the Secretary of State for Defence how much was spent on *(a)* war disablement pensions and *(b)* Armed Forces Compensation Scheme payments for noise-induced hearing loss, in each year since 1990. [26860]

Mr. Touhig *[holding answer 10 November 2005]:* War pensions are not awarded for individual conditions, but for the total degree of disablement due to service, assessed on a percentage basis. This overall assessment takes account of all conditions that are attributable to or aggravated by service. We cannot therefore separately identify amounts paid in respect of one particular condition. The information requested is not therefore available for war disablement pensions.

The Armed Forces Compensation Scheme only applies to injuries or illnesses caused on or after 6 April 2005, and there have been no awards made for noise-induced hearing loss under the Scheme since it came into force.

Mike Penning: To ask the Secretary of State for Defence how many people are in receipt of a war disablement pension for noise-induced hearing loss. [26861]

Mr. Touhig *[holding answer 10 November 2005]:* A war pension is awarded based on the overall percentage disablement due to service of an individual, not on particular medical conditions.

Our war pensions database indicates that there were approximately 80,000 people entitled to an on-going payment under the War Pensions Scheme at 30 June 2005 who had had a claim accepted for noise induced hearing loss.

In about half of these cases, there were no claims for any other medical conditions recorded.

Royal Anglian Regiment

Mike Penning: To ask the Secretary of State for Defence whether it is his intention to post the *(a)* 1st and *(b)* 2nd Battalion of the Royal Anglian Regiment for tours of duty in (i) Iraq and (ii) Afghanistan in the next 12 months; and if he will make a statement. [26253]

Mr. Ingram *[holding answer 8 November 2005]:* The latest roulement (Operation TELIC 7) of UK troops in Iraq was announced by my right hon. Friend the Secretary of State, to the House, on 10 October 2005, *Official Report*, column 26. As a result of this roulement, the 1st Battalion The Royal Anglian Regiment has recently returned from Iraq. The next routine roulement of UK forces in Iraq is expected to take place in May 2006, and an announcement will be made in due course. Announcements on future deployments to Afghanistan will be made once final decisions have been taken.

Royal Military Police Historic Investigation Team

Mr. Gerald Howarth: To ask the Secretary of State for Defence what legal assistance his Department will make available to those *(a)* serving and *(b)* former servicemen who face prosecution by the six Royal Military Police Historic Investigation Team; and what budget has been provided for this purpose. [27101]

Mr. Ingram: The Ministry of Defence will provide whatever assistance is appropriate for serving and former servicemen who are required to assist the Police Service of Northern Ireland (PSNI) with their review of unresolved deaths in Northern Ireland. No separate budget has been provided for this purpose. The six RMP Historic Inquiries Team is not undertaking any investigative responsibilities in relation to this review.

Royal Navy (Caribbean)

Mr. Hancock: To ask the Secretary of State for Defence if he will reconsider the decision to reduce the Royal Navy presence in the Caribbean station. [26883]

Mr. Ingram: British military commitments and the tasking of military assets, including the Royal Navy presence in the Caribbean during the core hurricane months, are reviewed regularly. There are no plans to change these at present.

Mr. Hancock: To ask the Secretary of State for Defence what recent research he has *(a)* commissioned and *(b)* evaluated on the effect on the international drugs trade of having Royal Navy ships stationed in the Caribbean; and if he will make a statement. [26884]

Mr. Ingram: None. The primary purposes of the RN deployment in the Caribbean (Atlantic Patrol Task (North)) are the promotion of UK interests in the region and the provision of security to UK Overseas Territories, including support to humanitarian operations and disaster relief. Counter-drugs activities are carried out as part of deployments to provide a tangible presence as one element of the UK's broader counter-drugs engagement in the region. These are co-ordinated by HM Revenue and Customs.

Mr. Hancock: To ask the Secretary of State for Defence what amount of drugs the Royal Navy has been responsible for seizing in the Caribbean in each of the last five years; and what the estimated value was of such seizures in each year. [26885]

Mr. Ingram: I refer the hon. Member to the answer I gave on 9 November 2005, *Official Report*, column 558W, to the hon. Member for Kettering (Mr. Hollobone).

Royal Ordnance

Ann Winterton: To ask the Secretary of State for Defence what goods have been supplied *(a)* to his

Department and *(b)* to his Department's sub-contractors by BAE Systems plc from the former Royal Ordnance factory in Bridgwater, Somerset, in the last five years. [26364]

Mr. Ingram: The Bridgwater site supplies a range of explosive compounds and products including fillings for warheads, propellants and demolition stores.

A list of the individual items supplied over the last five years to the Ministry of Defence or MOD prime contractors by the BAE Systems Land Systems facility at Bridgwater is as follows. MOD deals with prime contractors only. Relations with any sub-contractors is a matter for the prime contractor.

Ann Winterton: To ask the Secretary of State for Defence on what date and on whose authority did the project of joint subsidiary take place between the Société National des Poudres et Explosifs and Royal Ordnance for the manufacture of military powders and explosives. [26365]

Mr. Ingram: The Ministry of Defence is aware that discussions took place some years ago between Royal Ordnance (now BAE Systems Land Systems) and Société National des Poudres et Explosifs with a view to a joint venture. No final agreement was reached between the two companies.

Ann Winterton: To ask the Secretary of State for Defence what military powders will be manufactured in the UK up to the end of 2007; and who the majority shareholders of the explosive manufacturers are. [26366]

Mr. Ingram: The Ministry of Defence procures a large range of explosive products (including primer compositions and energetic materials) from a number of manufacturers, both in the United Kingdom and abroad. Details of each type of explosive substance provided are not held centrally and it would incur disproportionate costs to produce a comprehensive list. The identities of the majority shareholders of the various businesses are an issue for the companies themselves.

Ann Winterton: To ask the Secretary of State for Defence what does the BAE Systems plc factory at Chorley, Lancashire, produce; and from where will future production be sourced when that factory closes. [26367]

Mr. Ingram: The main production output of BAE System's factory at Land Systems Chorley is initiators for various natures of munitions. Production at the site has been suspended since an industrial incident in March 2005. Current production remains limited to filling and assembling a small number of stores using stocks of previously manufactured compositions.

Following is a list of those items which have, until recently, been manufactured at the Chorley site:

Item

TVE L4
Cap Conducting. CC No. 1
Cap and Holder (TV23 AF)
L106 2.25grn RWY
L106 2.1grn L
L106 Delay.
MDF items and End Fittings for warheads
6.5grn LZY Detonator and Housing
Igniter CC
IEBW 222
CLC Charge Line Cutting
7.62mm SAA Cap—Air
7.62mm SAA Cap—Land
5.56mm SAA Cap
IEBW 302, Detonator Nl6
CERU 201/Cap EBW No l Mk2
Primer 52
Cartridge Cable Cutter
IEBW 213
Detonator EEBW Nl Mk2

BAE Systems Land Systems are responsible for the security of supply of these items and will remain so after the closure of the Chorley site. They have provided detailed plans on how they intend to achieve this and we remain confident in their ability to do so. These plans are of a commercial nature and it would not be to the benefit of the company or the Ministry of Defence to release them.

Ann Winterton: To ask the Secretary of State for Defence what guarantee of continuity of supply does his Department secure for ammunitions sourced outside the UK. [26368]

Mr. Ingram: It is common practise for all contracts let to foreign based ammunition suppliers to include a clause whereby if supply could not be met, the manufacturing data is passed to the Ministry of Defence to allow manufacture elsewhere.

Staff Relocations

Dr. Cable: To ask the Secretary of State for Defence how many people in his Department *(a)* were relocated in 2004–05 and *(b)* are expected to be relocated in 2005–06 as a result of the Lyons review of public sector relocation; to which places they have been relocated; and if he will make a statement. [24639]

Mr. Touhig *[holding answer 7 November 2005]:* Between August 2004 and March 2005 1,230 posts were relocated when the Army Technical Foundation college, at Arborfield, closed and its function moved to the Army Foundation college at Harrogate. The closure was part of a fundamental restructuring of the way in which the Army conducts its junior training. The restructuring meant that the posts relocated to a number of establishments throughout the country.

No relocations from the south east are likely to take place in 2005–06.

Terrorism

Mr. Robathan: To ask the Secretary of State for Defence what the remit is of the Terrorist Investigation Unit (TIU); what contact there is between the TIU and 6 Royal Military Police Historic Investigation Team; and how many members of the TIU there are. [27354]

Mr. Ingram *[holding answer 11 November 2005]:* The Tribunals and Inquiries Unit (TIU) manages the Ministry of Defence's contribution to public inquiries and other investigations, and arranges assistance to former and serving MOD employees who are involved in them. The TIU provides policy guidance to 6 Royal Military Police Historic Inquiries Team on their assistance to the Police Service of Northern Ireland's review of unresolved deaths during the troubles. Currently there are six members of the TIU, which is headed by a senior civil servant.

Type 23 Frigates

Ann Winterton: To ask the Secretary of State for Defence pursuant to the Answer of 1 November 2005, *Official Report*, column 919W, on Type 23 frigates, what repairs are taking place to the three vessels' platforms, systems and equipment in order to comply with maritime regulations; what the findings of the previous stability tests for the three ships were; and *(a)* when and *(b)* by whom the next stability tests will be undertaken. [26370]

Mr. Ingram: The Type 23 frigates are currently certified in class by Lloyd's Register survey and comply with maritime regulations. Following the relevant Inclining Experiment (stability test) and subsequent stability calculations each ship was demonstrated to meet MOD Type 23 Stability Standard for the following 10 years. Certificates of Safety—Stability were issued for each ship with the following expiry dates: HMS Norfolk valid until 6 August 2006, HMS Marlborough 6 August 2006 and HMS Grafton 7 November 2006.

As part of their reactivation for sale to the Republic of Chile the prime contractor, BAE Systems, intend to contract Lloyd's Register to survey each ship (between January 2006 and July 2007) and recommend any repair work required to maintain certification to meet maritime regulations. The prime contractor will also conduct Inclining Experiments on HM Ships Norfolk (July 2006) and Grafton (December 2006) and stability calculations to confirm that all three ships continue to meet the Type 23 Stability Standard. HMS Marlborough being of the same stability batch as HMS Norfolk will not require to undergo an Inclining Experiment. Certification of class will be issued by Lloyd's Register to support the transfer to the Republic of Chile.

Yorkshire Regiment

Mr. Greenway: To ask the Secretary of State for Defence (1) where the three battalions of the new Yorkshire Regiment will be based when it is formed in June 2006; [25691]

(2) what specific roles and operational functions he intends to allocate to the three battalions of the new Yorkshire Regiment to the end of 2007; [25690]

(3) if he will make it his policy for recruitment to the new Yorkshire Regiment to be restricted to people living in the Yorkshire and Humber region. [25689]

Mr. Touhig: All battalion names are provisional and subject to Royal assent but, under current plans: the 1st Battalion the Yorkshire Regiment (Prince of Wales's Own) will be based in Catterick and will be a light-role battalion; the 2nd Battalion the Yorkshire Regiment (Green Howards) will be based near Chepstow until mid-2007 when they will relocate to Weeton, Lancashire. They will also be a light-role battalion, and the 3rd Battalion the Yorkshire Regiment (Duke of Wellington's) will be based in Warminster and will be an armoured battalion.

Current policy allows an infantry recruit, irrespective of where he resides, to join whichever regiment he wishes provided there are spaces within that regiment and he passes the associated selection criteria and training course. There are no plans to change this policy.

PRIME MINISTER

China

Peter Law: To ask the Prime Minister what discussions he had with Chinese President Hu Jintao on *(a)* climate change and *(b)* energy technology support during his visit to London. [28953]

The Prime Minister: President Hu and I agreed that climate change and energy were important global issues on which we could work together more closely in future. The UK-China Sustainable Development Dialogue, signed in the margins of the President's visit, and the EU-China Partnership on Climate Change signed in Beijing in September provide a solid platform for future co-operation. I am keen to engage with China on the potential for a workable framework on future action after Kyoto at next month's UN climate change conference.

Climate Change

Bill Wiggin: To ask the Prime Minister if he will list the speeches he has made regarding climate change since becoming Prime Minister. [26832]

The Prime Minister: I regularly give speeches on a wide range of domestic and international issues, including environmental issues. Copies of my speeches are available on the Number 10 website.

Bill Wiggin: To ask the Prime Minister if he will list policy commitments he has made relating to climate change since 1997. [27522]

The Prime Minister: The UK Climate Change Programme, published in November 2000, sets out the Government's strategic approach to tackling climate change, including our policies to reduce greenhouse gas emissions to ensure we meet our target under the Kyoto Protocol and to move us towards our domestic goal to reduce carbon dioxide emissions by 20 per cent. below 1990 levels by 2010. Significant policies the Government have put in place to reduce emissions include the renewables obligation, the climate change levy and climate change agreements, and the voluntary greenhouse gas emissions trading scheme—the first such economy-wide trading scheme in the world.

The programme also explained how climate change will affect the UK and the action we are taking to prepare for this. We are reviewing the programme, looking at how existing policies are performing and the range of policies that we might put in place in future. In the Energy White Paper, published in February 2003, we said we would put the UK on a path towards a reduction in carbon dioxide emissions of some 60 per cent. by about 2050.

Dedicated Government Vehicle

David T.C. Davies: To ask the Prime Minister (1) on what date the Government first provided a dedicated government vehicle to members of the family of the serving Prime Minister; and for what reason; [28066]

(2) when the most recent assessment of *(a)* his and *(b)* his family's security was carried out. [28067]

The Prime Minister: I refer the hon. Member to the answer given by my noble Friend Lord Bassam on Monday 7 November 2005, *Official Report*, column WA62.

It has been the practice of successive governments not to comment on security issues.

Departmental Contracts (Direct Mail)

Norman Baker: To ask the Prime Minister how many contracts for direct mail were signed by his Department in *(a)* 2005–06 to date and *(b)* 2004–05; and what the value was in each case. [27672]

The Prime Minister: For these purposes my office forms part of the Cabinet Office. I have therefore asked my hon. Friend the Parliamentary Under-Secretary for the Cabinet Office to reply. A copy of the reply will be placed in the Library of the House.

Iraq

Lynne Jones: To ask the Prime Minister whether, prior to giving his statement to the House of 24 September 2002, he communicated to *(a)* the then British ambassador to the United States, Sir Christopher Meyer and *(b)* his then personal foreign policy adviser Sir David Manning that his policy in respect of Iraq was to achieve regime change. [27084]

The Prime Minister: I refer my hon. Friend to the answer I gave to the hon. Member for Belfast, North (Mr. Dodds) on 1 November 2004, *Official Report*, column 112W.

Mr. Kilfoyle: To ask the Prime Minister what assessment he has made of the *(a)* benefits and *(b)* costs to the United Kingdom of its participation in the Iraq War and occupation. [27478]

The Prime Minister: I refer my hon. Friend to the answer my hon. Friend the Minister of State for the Foreign and Commonwealth Office (Dr. Howells) gave to the hon. Member for Lewes (Norman Baker) on 1 November 2005, *Official Report*, columns 948–49W.

London Bombings

Mr. Drew: To ask the Prime Minister who the attendees were at the meeting he held with representatives of the Muslim community following the London bombings of 7 July; if he will publish the notes of the meeting; and what action he plans to take as a result of that meeting. [26961]

The Prime Minister: I refer my hon. Friend to the answer I gave my hon. Friend the Member for Leeds, North-East (Mr. Hamilton) on 10 October 2005, *Official Report*, column 165W.

I also refer my hon. Friend to the comments made by my right hon. Friend the Member for Salford (Hazel Blears), the Minister of State for the Home Office on 10 November 2005, which set out the follow-up action the Government have taken in partnership with representatives of the Muslim community. Copies are available on the Home Office website.

Ministerial Travel

Peter Bottomley: To ask the Prime Minister what the cost was of each Minister's unplanned return journey to London for the Terrorism Bill debate and votes on Wednesday 9 November. [28748]

Mr. Philip Hammond: To ask the Prime Minister what the total cost to public funds was of Ministers and accompanying officials *(a)* returning to Westminster for parliamentary votes on 9 November and *(b)* returning thereafter to resume official duties away from Westminster. [28609]

The Prime Minister: Since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. Copies of these lists are available in the Library of the House. Information on the number of officials accompanying Ministers on overseas visits is included in the list. All Ministers' travel arrangements are in accordance with the arrangements for official travel set out in Chapter 10 of the Ministerial Code, and the accompanying guidance document, "Travel by Ministers".

Information for the year 2005–06 will be published as soon as it is ready after the end of the financial year.

Ministers (Severance Payments)

John Hemming: To ask the Prime Minister how many severance payments a resigning Minister is entitled to within any 12 month period. [25500]

The Prime Minister: Severance pay is payable in accordance with section 4 of the Ministerial and other Pensions and Salaries Act 1991.

Typhoon Fighter Planes

Lynne Featherstone: To ask the Prime Minister what the total cost was of his trip in July to discuss the sale of BAE Systems' Typhoon fighter planes to the Saudi Arabian defence forces; and if he will make a statement. [25287]

The Prime Minister: I visited Saudi Arabia in July 2005 to have talks with HRH Crown Prince Abdullah and other senior Ministers and officials. We discussed a wide range of issues including the Middle East Peace Process, Iraq, our bilateral relationship and the issues facing the G8 Summit at Gleneagles.

Since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. Copies of these lists are available in the Library of the House. Information on the number of officials accompanying Ministers on overseas visits is included in the list. All Ministers travel arrangements are in accordance with the arrangements for official travel set out in chapter 10 of the Ministerial Code, and the accompanying guidance document, "Travel by Ministers". Information for the year 2005–06 will be published as soon as it is ready after the end of the financial year.

EDUCATION AND SKILLS

Adoption

Tim Loughton: To ask the Secretary of State for Education and Skills how many children were adopted from overseas in each of the last 10 years, broken down by country. [28227]

Maria Eagle: This information is not available centrally. The following table shows the number of applications to adopt, including a home study assessment, broken down by year and country, received since 1995 by the Department of Health and since June 2003 by the Department for Education and Skills.

	1995	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*Total*

[1] To date.

Adult Further Education

Mr. Davey: To ask the Secretary of State for Education and Skills how much of the adult further education budget was allocated to *(a)* all level 3, *(b)* full level 3, *(c)* part level 3 and *(d)* first full level 3 qualifications in each year between 2000–01 and 2004–05. [25724]

Bill Rammell *[holding answer 7 November 2005]:* The following table shows how much of the adult further education (FE) budget was spent on level 3 qualifications between 2002/03 and 2004/05[1].

[1] In 2000/01 and 2001/02 the data source for funding information was the Individualised Student Record. The Further Education Funding Council (FEFC)/Learning and Skills Council (LSC) used units as their currency for funding rather than cash. To obtain an accurate cash figure for 2000/01 and 2001/02 would take a disproportionate amount of time. For this reason figures for 2000/01 and 2001/02 have not been included.

	2002/03	*2003/04*	*2004/05*
All level 3 (£ million)	396	410	418
Of which			
Full level 3	174	200	212
AS level	24	24	26
Notional level 3	198	186	181
Distribution (percentage)			
Full level 3	43.9	48.7	50.6
AS level	6.0	5.9	6.1
Notional level 3	50.1	45.4	43.3

The DFES and Learning and Skills Council (LSC) jointly commissioned research into the prior qualifications of adult learners in further education (FE). This survey showed that 45 per cent. of adults on full level 3 courses were studying for their first full level 3.

John Bercow: To ask the Secretary of State for Education and Skills how many learners have applied successfully for the adult learning grant. [27031]

Phil Hope: Since the Adult Learning Grant pilots commenced in September 2003, there have been 10,811 successful applications received from learners. In academic year 2005/06 there have been 3,027 successful applications so far.

Mr. Davey: To ask the Secretary of State for Education and Skills what the average level of individual contributions was to fees for adults in further education in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06. [25475]

Bill Rammell: In 2003/04 and 2004/05 adult learners in Further Education (FE) were assumed to contribute 25 per cent. of the basic course cost of their learning unless fees were remitted because the learner was receiving an income based benefit or on a Skills for Life programme. This proportion increased to 27.5 per cent. in 2005/06, and will rise again in 2006/07 to 32.5 per cent. and to 37.5 per cent. in 2007/08. In average terms, this means a rise from an hourly rate of £1.42 this year to £1.94 by 2007/08.

However, we know that historically many FE providers choose to waive the fees for some of these 'fee-paying' learners:

In 2003/04, FE providers collected £152 million out of an 'expected' £261 million.

In 2004/05, £159 million was collected out of an expected £277 million.

The Skills Strategy White Paper set out a vision for transforming the way in which the Learning and Skills sector can support higher national investment in skills, which included ensuring that the state, employers and individuals all contribute towards the costs of their learning, in line with the benefits received by each.

In order to increase the levels of fees collected, from 2005/06 the LSC agreed a fee income measure with each FE funded provider. To assist providers in developing a strategic approach to, the Learning and Skills Council (LSC) published a good practice guide to fee income earlier this year.

Clearly, with the increase in the fee assumption, it will be important that FE providers recover as much money as possible from learners as employers..

A-level Grades

Mr. Wills: To ask the Secretary of State for Education and Skills how many A and A* grades at GCSE were achieved in schools serving the 2,000 least deprived wards in the country in each year from 1997. [25923]

Jacqui Smith: The following table gives the numbers of A* and A grades in GCSEs[1] achieved by students in schools in the 25 per cent. least deprived Super Output Areas[2].

[1] These figures relate to full course GCSEs only.
[2] Deprivation classified within the English Indices of Deprivation.

	*A**	*A*
2005[1]	117,476	226,141
2004	110,753	220,822
2003	98,610	214,377
2002	95,611	204,293
2001	92,644	199,045
2000	83,833	192,152
1999	78,856	182,950
1998	71,280	175,456
1997	48,206	131,761

[1] 2005 figures are provisional; figures for previous years are final.

Anti-bullying Initiatives

Mr. Davey: To ask the Secretary of State for Education and Skills (1) how many initiatives the Government have announced to combat bullying in schools since 1997; [25383]

(2) how much the Department has spent on anti-bullying measures and campaigns in each year since 1997; [25379]

(3) how the Department assesses the effectiveness of anti-bullying initiatives. [25377]

Jacqui Smith: The Department is deeply concerned about the distress bullying causes and the effect it has on lives and we are determined to help schools reduce and respond to bullying.

Since 1997 our work has included conferences and events to disseminate good practice, alongside the development of guidance and resources for schools. The anti-bullying Charter for Action has fostered a wide consensus among schools, the voluntary sector, and professional associations. We have supported an award scheme to share and celebrate the excellent work of schools and children and young people in this area. We have given funding to the voluntary sector to embed effective practice and offer training and support to schools, children and young people and their parents. We have run a number of public information campaigns encouraging children to 'tell someone' and to support their friends. Anti-bullying work is embedded in the Primary and Secondary National Strategies Behaviour and Attendance strand, including through the Social and Emotional Aspects of Learning (SEAL) materials. Details of specific initiatives follow.

2000 and 2002 updated anti-bullying guidance folder for schools, 'Don't suffer in silence'

September 2003 public information film 'Tell Someone' launched, to encourage children who are being bullied to tell someone, and not suffer in silence.

November 2003 anti-bullying Charter for Action for schools launched

2003–04 'Make The Difference' campaign conferences held in each Government office region, targeted at head teachers and Chief Education Officers. Postcards and posters in English and a range of other languages created to encourage children and young people to tell someone if they are being bullied, and to support parents and schools in helping bullied children

July 2004 Anti-Bullying Alliance work, funded by DfES, to sustain momentum of 'Make The Difference', launched. Funding announced for dedicated anti-bullying Diana Award

November 2004, during the first national Anti-Bullying Week, blue anti-bullying bands campaign—Make A Stand, Wear The Band—launched by the Department, Radio One and the Anti-Bullying Alliance (ABA), all working in partnership. This has been a significant success, with 1 million children and young people making a stand and wearing a band.

November 2004 second public information film, 'I Am', produced to coincide with the campaign. In this celebrities read lines from a poem written by a child who had been bullied to show young people that they are not alone if they are being bullied and can get help.

March 2005 conference on countering racist bullying

The figures for the anti-bullying strand of the Improving Behaviour and Attendance strategy are given as follows:

	£
2005/06	1,145,000
2004/05	1,612,560
2003/04	1,054,027
2002/03	183,749

Figures for earlier years are not available because the anti-bullying strand of behaviour work was not disaggregated.

We assess the success and effectiveness of our anti-bullying work as follows.

Qualitative evidence of success and effectiveness.

The Department's 2003–04 Make the Difference conference series was heavily over subscribed.

Delegates told us that they left feeling inspired and motivated to promote continuing changes and improvement in their schools.

The overall evaluations for the London conference were 100 per cent. positive, and for the series overall 97 per cent. positive.

The web statistics of a workshop used at the Wembley conference reflect the enthusiasm and interest generated by this conference. The number of hits on their site increased to over 20,000 the week following the conference, compared with 48 hits in their own launch week.

Last year's Beat Bullying campaign received support from a large number of famous personalities. Originally 100,000 blue bands were earmarked for the three-month-long campaign but within just 36 hours of the launch all had been allocated. By the end of December 2004 Radio One received the order for the millionth band.

The anti-bullying Charter for Action that was launched in November 2003 has been signed and returned to the ABA by about 4,000 schools. We believe that other schools have adopted the charter, but have not returned it to the ABA, and that more still have used it as the basis for developing their school anti bullying policies.

The two anti-bullying public information films ('Tell Someone', 2003, and 'I am', 2004) are the two most watched public information films created by the Department. It seems reasonable to assume that such a volume of interest has led to increased awareness, both of the need for children and young people to tell someone if they are being bullied, and of the fact that the person being bullied is not to blame.

We have no statistical evidence, for example of a decline in incidents, available to show the impact and effectiveness of our strategy. This is because nationwide statistics on bullying are not available and we think it would be very unwise to make an estimate (although racist incidents in schools do have to be reported).

Bullying cases appear to be reported more often now than previously but we have no hard evidence that bullying is increasing or that it is affecting more children. Indeed it could be seen as a measure of effectiveness that as more children feel confident enough to report bullying it is likely that the number of recorded cases will rise.

Apprenticeships

John Bercow: To ask the Secretary of State for Education and Skills how many 14 to 16-year-olds have *(a)* started and *(b)* completed young apprenticeships since their introduction in May 2004; and if she will make a statement. [27193]

Jacqui Smith: A total of 3,000 pupils have started the two-year Young Apprenticeship programme since it began in September 2004. The first cohort of 1,000 pupils will complete the programme in July 2006.

Basic Skills

Mr. Holloway: To ask the Secretary of State for Education and Skills what steps the Government are taking to reach its target of reducing by at least 40 per cent. the number of adults in the workforce who lack basic skills. [28380]

Bill Rammell: The target for tackling basic skills in England is to 'Improve the basic skills levels of 1.5 million adults by 2007 and 2.25 by 2010' (since the launch of the Skills for Life Strategy in 2001). The 40 per cent. target refers to the Government's ambitions for 'Level 2': to reduce by at least 40 per cent. the number of adults in the workforce who lack NVQ2 or equivalent qualifications.

In 2001 the Government published the Skills for Life Strategy to tackle basic skills needs across England. Basic skills are a long term priority for the Government and basic literacy and numeracy learning is free to learners with skills below Level 2. Since 2001, we have put in place national standards and core curricula. We are continuing to focus on driving up quality of provision and are professionalising the workforce and extending the reach of the strategy. Since the strategy was launched in 2001, we have helped 1,130,000 adults achieve first qualifications in literacy, language or numeracy. In total, 3.7 million adults have taken up 7.8 million learning opportunities. Tackling basic skills underpins our Skills Strategy, 14–19 reforms, primary and secondary strategies, and our agenda set out in Every Child Matters.

Child Care

Greg Clark: To ask the Secretary of State for Education and Skills what *(a)* recent representations she has received and *(b)* meetings she has had about allowing a salary sacrifice child care voucher scheme for teachers; when she expects salary sacrifice to be permitted; and if she will make a statement. [28425]

Jacqui Smith: A number of representations about salary sacrifice have been received in the Department. My right hon. Friend has had no meetings specifically about salary sacrifice. She is currently giving careful consideration to the issue.

Children (Parental Access)

Ms Keeble: To ask the Secretary of State for Education and Skills what recent estimate she has made of the number of children who have suffered non-accidental injuries during unsupervised access with their absent parent. [27090]

Maria Eagle *[holding answer 9 November 2005]:* We do not hold data on the number of children who are harmed during unsupervised contact with their non-resident parent, whether court ordered or otherwise. However, we take the issues of child protection and domestic violence extremely seriously and have taken a number of steps to ensure the safety of children involved in contact disputes.

On 31 January this year, we introduced new 'Gateway forms' designed to ensure that any issues of domestic violence can more readily be raised at the very start of Children Act 1989 private law court proceedings. We have also commenced section 120 of the Adoption and Children Act 2002, which clarified the definition of 'harm' in the Children Act 1989, which now makes explicit that it includes any impairment suffered as a result of seeing or hearing the ill treatment of another. In addition, section 1 of the Children Act 1989, which applies whenever the court is considering an application for a contact order, requires the court to have the welfare of the child as its paramount consideration. This is reinforced by the welfare checklist at section 1(3) of that Act, which requires the court to have regard to any harm the child has suffered, or is at risk of suffering.

Citizenship

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will make a statement on the post-16 citizenship pilot 2004–05. [28182]

Phil Hope: I am pleased to acknowledge the continuing success of this programme in encouraging active participation by young people—both in their learning and in their local and wider communities. This success was recognised most recently in the joint report by Ofsted and the Adult Learning Inspectorate. We are currently considering the recommendations in that report.

Class Sizes

Mr. Ruffley: To ask the Secretary of State for Education and Skills what the pupil-teacher ratio in *(a)* Suffolk, *(b)* Cambridgeshire, *(c)* Essex and *(d)* Norfolk has been in each year since 1997. [25180]

Jacqui Smith: The following table provides the pupil teacher ratios for primary and secondary schools in the requested local authorities for each year since 1997.

Maintained primary and secondary schools[1]: pupil:teacher ratios: 1997–2005 position in January each year—Suffolk, Cambridgeshire, Essex and Norfolk local authorities

	Maintained Primary								
	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*
Suffolk	22.3	22.2	22.0	22.1	22.0	21.5	21.7	21.7	21.5

[1] Includes middle schools as deemed.
[2] Before local government reorganisation.
[3] After local government reorganisation.
[4] Not applicable.
Source:
Annual School Census

Classics

Mr. Gibb: To ask the Secretary of State for Education and Skills how many and what proportion of specialist humanities colleges have chosen classics as a subsidiary specialist subject. [28301]

Bill Rammell: Humanities specialism was first introduced in 2004. There are 83 operational Humanities Colleges of which: 60 have humanities as a main specialism, 11 chose humanities as part of a combined specialism, and 12 schools chose humanities as a second specialism. Two out of the 83 operational Humanities Colleges have chosen classics as a subsidiary specialist subject. This represents 3 per cent. of schools with humanities as a main specialism or 2 per cent. of all operational Humanities Colleges.

Counselling Services

Mr. Evans: To ask the Secretary of State for Education and Skills how much has been spent on counselling services in *(a)* Ribble Valley and *(b)* Lancashire schools in each of the last five years. [24129]

Jacqui Smith: The information requested is not collected centrally.

Departmental Skills Development Plan

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will place in the Library a copy of her Department's skills development plan. [23870]

Maria Eagle: I have placed the skills development plan for 2005–06 in the House Libraries.

Education

Mr. Lancaster: To ask the Secretary of State for Education and Skills what the most recent truancy levels are for *(a)* secondary and *(b)* primary schools in Milton Keynes. [27204]

Jacqui Smith: The information requested on unauthorised absence[1] in Milton Keynes local authority 2004/05 can be found in table 2 of SFR 40/2005, Pupil Absence in Schools in England 2004/05 (Provisional). This can be found at the following website: http://www.dfes.gov.uk/rsgateway/DB/SFR/s000602/index.shtml

[1] Unauthorised absence includes other forms of absence such as lateness, holidays during term-time not authorised by the school, absence where reason is not yet established and truancy.

Mr. Jenkins: To ask the Secretary of State for Education and Skills how much funding has been allocated to homework clubs in schools in Tamworth constituency in each year since 1997. [27487]

Jacqui Smith: The information requested is not available. Homework clubs may form part of a school's or local authority's study support (out of school hours learning) programme, for which funding is available through their base budgets, and the School Development Grant (SDG). Schools and local authorities may use their SDG for any purposes linked to school improvement, and it is for them to determine the amount to be allocated to study support.

Study support forms an integral part of the government's extended services agenda, which will require schools to offer a varied menu of activities from 8am to 6pm year round, including during school holidays. Additional funding of £680 million is being made available up to 2008 to support the start up of extended services in schools.

Rosie Cooper: To ask the Secretary of State for Education and Skills how many children in West Lancashire have been removed from the Admissions Register because of *(a)* extended family holidays and *(b)* long-term absence in each year since 1997. [27656]

Jacqui Smith: I refer my hon. Friend to my reply to the early question from the hon. Member for Fareham (Mr. Hoban) on 24 October 2005, *Official Report*, column 150W.

Rosie Cooper: To ask the Secretary of State for Education and Skills how many school children in West Lancashire whose families are in receipt of child tax credit are eligible for free school meals. [27701]

Jacqui Smith: The information is not collected centrally.

Free school lunch eligibility is limited to children whose parents receive:

Income support (IS);

Income based jobseekers allowance (IBJSA);

Support under Part VI of the Immigration and Asylum Act 1999;

Child Tax Credit, provided they are not entitled to working tax credit and have an annual income, as assessed by the Inland Revenue that does not exceed £13,910 2005/06 FY);

Guaranteed element of state pension credit.

Children receiving IS or IBJSA in their own right are also entitled to a free school lunch.

Prior to 2003, the numbers known to be eligible for a free school meal were those pupils who had, or whose parents had, satisfied the relevant authority that they were receiving income support (IS) or income based jobseekers allowance (IBJSA) or support provided under Part 6 of the Immigration and Asylum Act 1999. From 6 April 2003 onwards this definition was modified:

to include the necessity for a request for the provision of a free lunch to be made by, or on behalf of a pupil; and to take account of changes made in 2003 to the tax credit and welfare payments' system, adding an additional eligibility category relating to the receipt of specified tax credits.

From April 2005 an additional eligibility category was added—parents who receive the guaranteed element of state pension credit.

Rosie Cooper: To ask the Secretary of State for Education and Skills how many pupils in West Lancashire have re-taken A-level modules *(a)* once and *(b)* more than once in each of the last five years, broken down by subject. [27710]

Jacqui Smith: The Department does not hold information on the number of students re-taking modules at A Level.

Rosie Cooper: To ask the Secretary of State for Education and Skills what proportion of children in the West Lancashire area left school at the minimum age in each of the last five years, broken down by ward. [27712]

Jacqui Smith: The earliest that a young person can leave school is on the last Friday in June after they turn 16. There is no information available on how many pupils leave from this point in the academic year. The most readily available figures are for young people in post-compulsory education at the end of the calendar year.

The percentages of 16-year-olds not in post-compulsory education or work-based learning (WBL—e.g. apprenticeships) in Lancashire local authority (LA) are given in the table. Figures are provided for 1999/2000 to 2003/04 (the latest available). Participation estimates are not available below LA level.

Participation by 16-year-olds in Lancashire LA

Percentage

As at end of the calendar year:	*1999*	*2000*	*2001*	*2002*	*2003*[1]
Full-time Education	66	66	65	66	66
Work-based Learning (WBL)	12	11	11	10	10
Part-time Education	5	5	5	4	4
Total in Education and WBL[2]	82	82	80	80	80
Not in Full-time Education	34	34	35	34	34
Not in Education or WBL	18	18	20	20	20

[1] Provisional.
[2] Total of all full-time and part-time education and WBL, less WBL provision in education institutions.
Source:
The latest Statistical First Release "Participation in education and training by 16 and 17-year-olds in each local area in England".

Kelvin Hopkins: To ask the Secretary of State for Education and Skills how many hon. Members have written to *(a)* her, *(b)* the Minister of State for Lifelong Learning, Further and Higher Education and *(c)* the Parliamentary Under-Secretary of State for Skills since February about (i) adult education and (ii) funding for 16 to 19-year-olds in schools and colleges. [23621]

Bill Rammell: Since February *(a)* the Secretary of State for Education and Skills has received 178 letters from hon. Members on adult education and 108 on funding for 16 to 19-year-olds in schools and colleges, *(b)* the Minister of State for Lifelong Learning, Further and Higher Education has received 188 on adult education and 40 on funding for 16 to 19-year-olds in schools and colleges, and *(c)* the Parliamentary Under-Secretary of State for Skills has received 149 on adult education and 49 on funding for 16 to 19-year-olds in schools and colleges.

John Bercow: To ask the Secretary of State for Education and Skills if she will make a statement on the funding of the new National Employer Training programme to be introduced from 2006–07. [27184]

Bill Rammell: The National Employer Training programme (NETP) will be funded through the Learning and Skills Council and will be rolled out across the country from 2006–07. The programme will be a powerful, demand-led mechanism for changing the way in which training for adults is delivered. Employers will have greater choice of high quality provision, and colleges and providers will need to deliver high quality training programmes at a time, place and pace determined by the employer. A sum of £230 million has been made available for the programme for 2006–07 and £399 million for 2007–08.

By 2010 the programme should have delivered over half a million first full level 2 qualifications representing a significant contribution to the PSA target to reduce by 40 per cent. the number of adults without a qualification at that level.

John Bercow: To ask the Secretary of State for Education and Skills how many schools are part of education improvement partnerships. [27186]

Jacqui Smith: We believe that education improvement partnerships are best run at local level by schools for schools based on local needs. Education improvement partnerships are not a centrally run programme and this Department does not operate a process of official approval, nor maintain records of participating schools.

John Bercow: To ask the Secretary of State for Education and Skills what improvements to the data collection system have been made as part of the New Relationship with Schools. [27187]

Jacqui Smith: There have been a number of improvements based on the principle of collecting data once and sharing many times, primarily to help reduce burdens. The introduction of the Pupil Level Annual

School Census (PLASC) in 2002 has enabled individual pupil data to be collected electronically from schools and simplified the pupil registration process for national curriculum tests. The quality of data for both local and central use has also improved.

My Department is continuing a programme to streamline data collections and include them wherever possible within an enhanced school census. By 2007, six separate surveys will have been brought within the school census.

My Department has also developed a process by which data can be transferred automatically and securely between schools, local authorities and other agencies. The site is used to transfer statutory returns, national curriculum teacher assessments, and relevant data when a pupil moves to a new school. For the latter the New Relationship with Schools programme has facilitated every school being able to access missing information about their pupils to aid their learning plans.

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the effect of the issue by her Department of a non-statutory national framework for teaching religious education. [27192]

Jacqui Smith: The non-statutory national framework for religious education was introduced in October 2004. Local authorities are now working to embed the framework in their locally agreed syllabuses. We expect preliminary data on its implementation to be available by spring 2006.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how many students who failed to obtain a Level 2 qualification at their first attempt studied *(a)* five, *(b)* six, *(c)* seven, *(d)* eight, *(e)* nine, *(f)* 10, *(g)* 11, *(h)* 12, *(i)* 13, *(j)* 14, *(k)* 15 and *(l)* 16 or more GCSE subjects or equivalent qualifications in the last year for which figures are available. [25036]

Jacqui Smith: This information is not centrally available.

Foreign Language Teaching

Mr. Gibb: To ask the Secretary of State for Education and Skills (1) what steps her Department is taking to promote best practice in the teaching of foreign languages; [28299]

(2) what research has been conducted by her Department into best practice in foreign language teaching. [28300]

Jacqui Smith: The most recent research on foreign language teaching has focused on practice in primary schools—this includes research led by Christ Church University College Canterbury, published in 2004, and research led by the University of Warwick and published last month on the evaluation of our Key Stage 2 Language Pathfinder programmes. The outcomes of this research have informed the development of new materials, and most importantly the Key Stage 2 Framework for Languages which was launched on 27 October. The Framework includes learning objectives, advice on delivering language programmes, and from early 2006 it will be accompanied by a website hosting good practice video clips and planning tools.

At secondary level, a separate modern foreign languages programme forms part of the Secondary National Strategy. It includes a Framework of objectives, accompanied by guidance materials, based on good practice and aimed at strengthening provision. We are also currently tendering for a research project at Key Stage 3, which will look at provision and practice in language learning, in order to understand better the impact of the Key Stage 3 Framework and other current initiatives on the curriculum, and to guide future policy.

Free School Meals

Helen Jones: To ask the Secretary of State for Education and Skills (1) how many pupils in *(a)* city academies, *(b)* city technology colleges, *(c)* foundation schools and *(d)* all other types of school in the last year for which figures are available, broken down by local authority, were entitled to free school meals; [25554]

(2) what proportion of students in *(a)* city academies and *(b)* other schools were entitled to free school meals in the last year for which figures are available, broken down by local authority area. [25555]

Jacqui Smith: *[holding answer 7 November]:* The information requested has been placed in the House Libraries.

Mr. Jenkins: To ask the Secretary of State for Education and Skills (1) how many children in *(a)* England and *(b)* Tamworth are eligible for free school meals; and what the take-up rate has been in each of the last five years; [26165]

(2) how many children in *(a)* England, *(b)* Staffordshire and *(c)* Tamworth receive free school meals. [26166]

Jacqui Smith: The information requested is shown in the tables.

Maintained nursery, primary and secondary schools[1]: school meal arrangements[2], position in January each year: 2001 to 2005—Tamworth parliamentary constituency

Maintained nursery and primary

Annual schools' census

GCSEs

Mr. Hoban: To ask the Secretary of State for Education and Skills what proportion of *(a)* boys, *(b)* girls and *(c)* all children aged 15 years at the end of the 2004/05 academic year achieved five A*-C grades at GCSE including mathematics and English, broken down by type of school. [21692]

Jacqui Smith *[holding answer 25 October 2005]:* The information requested can be found in the following table. This is compiled from the provisional data used for Statistical First Release 46/2005 (published on 20 October) and is currently in the process of being checked by schools.

This year a higher volume of GNVQ results were missing from the data initially supplied to the Department. This may affect the GCSE and equivalent indicators—for this reason the provisional nature of these figures should be emphasised and any conclusions drawn from the figures, including comparisons between school types, should be treated with caution.

GCSE and equivalent attempts and achievements of 15-year-old pupils[1] by school type

School type[3]	1998/99[2] Number of 15-year-old pupils[1]	1998/99[2] Percentage who achieved at GCSE/GNVQ: 5+ A*-C grades	1998/99[2] Percentage who achieved at GCSE/GNVQ: 5+ A*-C grades inc. [1] Number of pupils on roll aged 15 at the start of the academic year, ie 31 August.

[2] Including attempts and achievements by these pupils in previous academic years.

[3] Institution type as recorded through Secondary School Achievement and Attainment tables.

[4] Independent Special School approved to take pupils with special educational needs.

[5] Including community and foundation hospital schools and pupil referral units.

Figures for 1998/99 have been provided for comparison (1998/99 is the earliest that this classification of school types can be provided).

Mr. Holloway: To ask the Secretary of State for Education and Skills what further progress has been made on the functional skills aspect of GCSEs. [28378]

Jacqui Smith: Achieving functional skills in English, maths and ICT underpins all the reforms for the education of 14 to 19-year-olds. We have been working since the publication of the White Paper with our partners towards a clear definition of what we expect the new functional skills units to cover. We will set out this definition in our forthcoming Implementation Plan.

The Qualifications and Curriculum Authority have prepared a draft set of standards that set out their recommendations for the content of each skill at each level and they will be consulting on these draft standards in December 2005. The agreed definition and standards for functional skills will then inform the development of new units in functional skills.

Mr. Holloway: To ask the Secretary of State for Education and Skills what discussions she has had with schools about the introduction of the new science GCSE in September 2006. [28379]

Jacqui Smith: The Qualifications and Curriculum Authority (QCA) and the National Foundation for Educational Research carried out widespread consultation on proposals to introduce a revised programme of study at Key Stage 4. The science and science education communities and a sample of schools, colleges and universities were included in the consultation. The majority of respondents supported the changes.

The QCA has also recently issued guidance to schools on the Key Stage 4 and GCSE changes and has run, together with other delivery partners, various dissemination conferences. Reactions to the changes have been very positive.

Geography Development Fund

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the adequacy of the allocation to the Geography Development Fund in improving continuing professional development for non-specialist primary teachers. [26780]

Jacqui Smith: The Geography Development Fund was established in 2004, to improve the teaching, learning and status of geography in schools. We judge the allocation to be sufficient to lay the foundations for subject development. The Fund is targeting strategic priorities identified by the subject community. In 2004/05 a significant part of the Fund was devoted to supporting primary teachers. The 'Geography from Square One' project provides accessible teaching ideas, particularly for non-specialists and the pilot 'Primary Geography Quality Mark' helps schools deliver quality geography and be recognised for doing so. These developments have been well received by teachers and will be built on through further work supported by the Geography Development Fund in 2005/06.

Gifted and Talented Youth

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to the answer of 7 November 2005, *Official Report*, column 118W, on gifted and talented youth, how many members of the National Academy for Gifted and Talented Youth there are in the Bognor Regis and Littlehampton constituency, broken down by school. [28186]

Jacqui Smith: 67 members of the National Academy for Gifted and Talented Youth are resident in the Bognor Regis and Littlehampton constituency. These pupils attend The Angmering School in Littlehampton in the neighbouring constituency of Arundel and South Downs.

Holland Park Secondary School

Derek Wyatt: To ask the Secretary of State for Education and Skills if she will make a statement on the plans to sell off Holland Park Secondary School; and whether the governors of Holland Park Secondary School had apprised her Department of their proposal to sell off the school. [27248]

Jacqui Smith *[holding answer 10 November 2005]:* In January 2004, the Royal Borough of Kensington and Chelsea applied, with the knowledge and consent of the Governors of Holland Park Secondary School, to dispose of part of the school site. The land to be sold consists of a hard play court, a gymnasium and a small swimming pool. Only the sale of the hard play court needs the Secretary of State's consent.

The proceeds of sale of this land will be used towards the costs of redeveloping the school on its northern site. The outcome will be a brand new state-of-the art school with some first class sports facilities. Consent was given on 25 March 2004.

Learning and Skills Council

Kelvin Hopkins: To ask the Secretary of State for Education and Skills if she will ask the regional offices of the Learning and Skills Council to base the allocation of public funding to each qualification level available to adults on an assessment of the skills needs of their respective regions. [23612]

Bill Rammell: The Department allocates funds for education and training in the post-16 learning and skills sector to the Learning and Skills Council (LSC) to meet agreed national priorities and targets. We do not agree specific regional budgets with the LSC for adult learning. It is for the LSC to determine for itself the most appropriate balance of investment in adult learning provision, within the funds allocated to it and within the overall framework set by Government. The LSC works closely with Regional Skills Partnerships, whose role is to bring together key partners including the regional development agencies, the Skills for Business Network, Jobcentre Plus, local authorities, and the LSC, to ensure that emerging skills needs are identified and addressed.

As part of its agenda for change work the LSC is considering how it might simplify its processes for allocating regional budgets.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills pursuant to the answer of 18 October 2005, *Official Report*, column 962W, to the hon. Member

for Fareham (Mr. Hoban), on the Learning and Skills Council, how many learners will be funded in *(a)* 2005–06, *(b)* 2007–08 and *(c)* 2008–09. [24985]

Bill Rammell: We are broadly maintaining the overall public funding that the LSC will be able to allocate to support adult learning on average through to 2007–08. But the pattern of that learning will change. To meet our national priorities, we need to shift the pattern so that we provide a greater number of longer and more expensive courses for adults, to equip them with the range of skills they need for employability and further progression to higher levels of training.

As a consequence, the number of publicly funded places on shorter courses which do not lead to national qualifications is likely to fall by around 500,000. But set against this, there will be some 400,000 places available through the National Employer Training Programme and over 260,000 places for adults taking full Level 2 programmes in mainstream further education—which is a total increase of 274,000 full Level 2 places compared with 2005–06. So while maintaining the overall volume of adult training, we estimate there will be a net reduction in publicly-funded places of around 230,000 (about 6 per cent.). That will result in a total of some 3.5 million places available for adults by 2007–08. We expect that this reduction can be offset by colleges and other providers offering a wider range of programmes at full cost. In addition, public funding will support an expected additional 46,000 16 to 19-year-olds in learning in FE colleges and schools by 2007/08 compared with 2005/06, and maintain the numbers on apprenticeships while increasing the numbers successfully completing the full apprenticeship framework.

Offender Learning Schemes

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills pursuant to the answer of 7 November 2005, *Official Report*, column 124W, on offender learning schemes, when new offender learning and skills delivery arrangements will be extended to the rest of England. [28948]

Phil Hope: The new offender learning and skills delivery arrangements will be extended to the rest of England on 31 July 2006.

Parenting Contracts

Mr. Lancaster: To ask the Secretary of State for Education and Skills how many parenting contracts have been issued in Milton Keynes since their inception. [27203]

Jacqui Smith: My Department began collecting data on parenting contracts (in cases of non-attendance and exclusions from school) from September 2004. Between September 2004 and 31 July 2005 local authorities in England have reported that 5,717 parenting contracts in cases of non-attendance have been agreed with parents. During the same period 418 parenting contracts in cases of exclusion from school were agreed with parents. Milton Keynes local authority has reported no parenting contracts between September 2004 and 31 July 2005. Data for this autumn term will be published in March 2006.

Positive Learning Environment

John Bercow: To ask the Secretary of State for Education and Skills what steps are being taken by her Department to promote a pro-achievement ethos, culture and environment within *(a)* schools and *(b)* communities. [26175]

Jacqui Smith: The Government have introduced a wide range of reforms which have promoted substantial improvements in achievement rates since 1997. These include our Specialist Schools policy which enables some of our best schools to drive innovation and play a leading role in the system; the introduction of Academies to raise attainment in communities in the areas of greatest need; and the targeted challenge and support provided through the National Strategies to raise achievements in the core subjects. These reforms have been supported by an unprecedented level of investment in better teachers' pay; in more support staff; in new computers and other equipment; and in new school buildings.

Real improvements have followed. Compared with 1997, around 84,000 more 11-year-olds started secondary school this year with the basic literacy and numeracy skills to do well; and 50,000 more 14-year-olds achieved the target standard in English and mathematics this year than did so in 2001, when the Key Stage 3 Strategy was introduced. Schools in the most deprived communities have achieved faster than average improvements, especially in the proportion of good passes at GCSE, thanks to programmes such as London Challenge and Excellence in Cities which has also promoted collaboration between schools to raise standards.

The Schools White Paper published last month sets out our plans to improve the school system further, in particular by putting parents and the needs of their children at the heart of it, freeing up schools to innovate and succeed, bringing in new dynamism and external support and ensuring that failure or coasting is not an option for any school.

Predictive Diallers

John Hemming: To ask the Secretary of State for Education and Skills how many calls were made from call centres in her Department in 2004–05 using predictive diallers; how many such calls resulted in contact being made with the recipient without a Government agent available to talk to them; and what assessment she has made of the likely impact of Ofcom's policy on silent calls on the use of predictive diallers in departmental call centres. [28169]

Bill Rammell: The Department for Education and Skills does not use predictive diallers within call centres. No calls were made using this facility in 2004–05.

Prison Education

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the funding is for 2005–06 courses for prisoners at *(a)* entry level, *(b)* levels 1–3 and *(c)* levels 4–7 separately indicating the amount being spent on Open University courses under *(c)*. [27718]

Phil Hope: Expenditure on learning and skills for offenders in custody is planned to be £110.9 million in financial year 2005–06. Within that total, £1.05 million

is available for higher education and access to higher education courses. The budget is not otherwise hypothecated for provision at particular levels. Actual spend will be determined by the assessed needs of offender learners.

Public Service Agreements

John Bercow: To ask the Secretary of State for Education and Skills (1) if she will make a statement on progress towards the public service agreement target to raise standards in English and mathematics so that, by 2006, 85 per cent. of 11-year-olds achieve level 4 or above; [26791]

(2) if she will make a statement on progress towards the public service agreement target to raise standards in English, mathematics, ICT and science in secondary education so that by 2007 85 per cent. of 14-year-olds achieve level 5 or above. [26792]

Jacqui Smith: Progress against the Department's outstanding public service agreements (PSAs) was most recently reported in the 2005 departmental report, published in June 2005, together with the Department's assessment towards achievement of the targets. A copy of the report is available from the House of Commons Library.

Provisional results for 2005 key stage 2 tests were published in a Statistical First Release (SFR) on 23 August 2005. The provisional data show 79 per cent. of pupils achieved level 4 and above in English, and 75 per cent. of pupils achieved level 4 and above in mathematics. The corresponding figures for 2004 are 78 per cent. and 74 per cent. respectively. In 1997, 63 per cent. of pupils achieved level 4 and above in English, and 62 per cent. of pupils achieved level 4 and above in mathematics. This year's results mean that compared with 1997, around 84,000 more 11-year-olds started secondary school this year with the basic literacy and numeracy skills to do well.

Provisional results for 2005 key stage 3 tests were published in an SFR on 8 September 2005. The provisional data show: 74 per cent. of pupils achieved level 5 and above in English; 74 per cent. in mathematics; 70 per cent. in science; and 69 per cent. in ICT. The corresponding figures for 2004 are: 71 per cent.; 73 per cent.; 66 per cent. and 67 per cent. respectively. In 1997, 57 per cent. of pupils achieved level 5 and above in English; 60 per cent. in mathematics; 60 per cent. in science; and 50 per cent. in ICT. Approximately 103,000 more 14-year-olds in English and 86,000 more in maths achieved the target level at key stage 3 this year than did so in 1997.

John Bercow: To ask the Secretary of State for Education and Skills if she will make a statement on the steps she is taking to ensure the public service agreement target for the percentage of children in all schools achieving five GCSEs at grades A*-C is met. [26793]

Jacqui Smith: Provisional 2005 results show that 55.7 per cent. of pupils achieved five or more GCSEs or equivalent at grades A*-C. This represents an increase of two percentage points compared with 2004 and an increase of 10.6 percentage points compared with 1997. The Department has a number of initiatives to ensure that schools receive the resources, advice and support that they need to raise attainment further at key stage 4. The key stage 3 national strategy has extended to become a full secondary national strategy for school improvement designed to raise standards, particularly in the core subjects, for all secondary school pupils. It is introducing excellent teaching and learning practices into every classroom through CPD, teaching materials and consultancy support. In addition, the secondary performance project draws on the expertise of successful schools and the Specialist Schools Trust to work in partnership with around 400 schools underperforming in value added terms.

The White Paper "Higher Standards, Better Schools for All" published last month sets out our plans to improve standards further, particularly by providing significant new incentives for schools to tailor education to the needs of every child and focus on the basics of English and mathematics.

John Bercow: To ask the Secretary of State for Education and Skills when she will assess progress on the Public Service Agreement target to increase the proportion of 19-year-olds who achieve at least level 2 by three percentage points between 2004 and 2006. [26794]

Bill Rammell: The next formal assessment of this PSA target is due in February 2006. Final reporting on the target will be due in February 2007, when we will have matched data on level 2 attainment for all qualification types for young people who will be 19 in 2006.

John Bercow: To ask the Secretary of State for Education and Skills what steps she is taking to ensure the target is met in respect of science in the public service agreement target to raise standards in secondary schools. [26796]

Jacqui Smith: Through the secondary national strategy we are providing all schools with advice, guidance and teaching materials together with training and targeted consultancy support to improve the quality of teaching and learning in science and to raise standards. In partnership with the Welcome Trust, we have also established a network of science learning centres to enable teachers to enhance their professional skills.

New programmes of study for science are also being introduced at key stages 3 and 4, which are intended to maintain the breadth, depth and challenge of the current curriculum, while ensuring that science teaching is effective, motivating and relevant.

At key stage 3, provisional 2005 results show that 70 per cent. of pupils achieved level 5 and above in science. Provisional 2005 figures at key stage 4 show 50 per cent. of pupils achieved grade A*-C in science. The corresponding figures for 2004 are 66 per cent. and 48.2 per cent. respectively.

Register of Learning Providers

Mr. Gibb: To ask the Secretary of State for Education and Skills what procedures are in place to ensure only genuine *(a)* language schools and *(b)* education providers are admitted into the UK Register of Learning Providers. [28162]

Phil Hope: The UK Register of Learning Providers is a voluntary register and has a robust system in place to validate all learning providers who wish to register. Learning providers, including language schools, must

be a legal entity and their status is checked through the appropriate channel such as Companies House and the Charity Commission.

Schools

Mr. Gibb: To ask the Secretary of State for Education and Skills when she expects to publish draft regulations for the implementation for the proposed new School Admissions Code of Practice. [28234]

Jacqui Smith: We have recently consulted on changes to the School Admissions Code of Practice and on Regulations covering the admission of looked after children, infant class size appeals and selection by aptitude. We expect to lay the regulations and the code before Parliament later this month, with both coming in to force in the new year.

Mr. Drew: To ask the Secretary of State for Education and Skills what criteria were used to assess the bids from *(a)* Rednock and *(b)* Cleeve school in Gloucestershire for the last round of Building Schools for the Future; and if she will make a statement. [25375]

Jacqui Smith: Gloucestershire county council bid to our Targeted Capital Fund for projects at Cleeve and Rednock schools. The Cleeve bid was successful and the Rednock bid, unsuccessful. I am putting a copy of the bidding guidance, which contains the criteria, in the House Libraries. We have provided feedback to the authority on its unsuccessful bid.

We increased the size of the fund from £493 million to £1.1 billion over two years and this enabled us to support about 45 per cent. of local authority bids, compared to 33 per cent. in the previous round. The fund is, however, very competitive and it is not possible to support all the worthwhile bids we receive.

Building Schools for the Future is our long-term strategic programme to transform the facilities for all secondary pupils over 15 years, subject to future public spending decisions. It does not involve bidding either by local authorities or individual schools. As Gloucestershire does not start in the programme until after 2011, we have just allocated the authority around £20 million to rebuild one of its worst condition schools as a 'school of the future'.

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will list the subjects that are compulsory in secondary schools for each year group. [28184]

Jacqui Smith: The compulsory subjects of the National Curriculum at Key Stage 3, years 7–9, are: English; Mathematics; Science; Design and Technology; Information and Communication Technology; History; Geography; Modern Foreign Languages: Art and Design; Music; Physical Education; and Citizenship. Schools must also provide Religious Education, Careers Education and Sex Education.

The compulsory subjects of the National Curriculum at Key Stage 4, years 10–11, are: English; Mathematics; Science; Information and Communication Technology; Physical Education; and Citizenship. Schools must also provide Religious Education, Careers Education, and Sex Education. In addition at Key Stage 4, all pupils must undertake work-related learning. Pupils are also entitled if they wish to follow a course in one or more of the four entitlement areas of the arts, design and technology, humanities and modern foreign languages.

Lynne Featherstone: To ask the Secretary of State for Education and Skills if she will list *(a)* infant, *(b)* primary and *(c)* secondary schools which had a deficit in 2004–05; what estimate she has made of the number of schools likely to have a deficit by the end of 2005–06; and if she will make a statement. [24614]

Jacqui Smith: The information requested is not yet available. The Department is awaiting a complete dataset relating to the 2004–05 financial year. I shall write to the hon. Member as soon as the information is to hand.

Sarah Teather: To ask the Secretary of State for Education and Skills how many *(a)* primary and *(b)* secondary school pupils did not have a school place on (i) 1 August, (ii) 1 September and (iii) 1 October in each London borough. [24474]

Jacqui Smith: The information requested is not collected centrally. However, we do know that co-ordination of the secondary admissions process has resulted in fewer parents receiving multiple offers of school places and fewer being left with no offer at all. By giving local authorities a central role in co-ordinating the process for their areas, we have enabled them to obtain better information on children who have not had any offer, and this has led to them being able to intervene earlier to find school places. Local authorities estimated that, compared with the same stage in the process last year, on 1 March 2005 (the national offer date for secondary schools) the number of children in London without an offer of a school place had reduced by 40 per cent.

Mr. Cameron: To ask the Secretary of State for Education and Skills what steps she is taking to ensure that schools have adequate printing facilities which allow them to print out documents for use in classrooms. [19696]

Jacqui Smith: Each maintained school has the freedom to choose the solution that best meets its local needs for printing out documents for use in the classroom. Such facilities will form part of the school's information and communications technology package, which is currently funded through the ICT in Schools Standards Fund, Devolved Formula Capital Grant and other funding that the school or local authority chooses to make available.

Tony Baldry: To ask the Secretary of State for Education and Skills further to her oral statement of 25 October 2005, *Official Report*, column 171, on the Schools White Paper, if she will set out her proposals for improving transport to schools, with particular reference to the cost barriers for the most deprived pupils; and what estimate she has made of the cost of such proposals. [23713]

Jacqui Smith: Research published by my Department in 2004 suggests that nearly two thirds of pupils who currently travel to school by bus or taxi have their fares paid by their family, not their local authority, at an average cost of £7.29 per pupil per week. Only around

10 per cent. of children entitled to free school meals travel three or more miles to school compared to 18 per cent. of children not entitled to free school meals.

The White Paper proposes to improve transport arrangements for the most deprived pupils by extending entitlement to free home to school transport for secondary aged pupils to any one of the three nearest suitable schools, where the distance travelled is between two and six miles. For the most deprived primary aged pupils, the entitlement to free transport will be extended so that they will receive free transport to their nearest school where this is more than two miles from their home. The estimated cost of these two extensions of entitlement is £40 million per annum. Full costings and related assumptions will be included in the regulatory impact assessment that will accompany the Bill.

Mr. Gibb: To ask the Secretary of State for Education and Skills what estimate she has made of the number of school-age children who reside within six miles of three secondary schools. [25668]

Jacqui Smith: The information requested has been provided in the following table.

Number of school-age children who reside within six miles[1] of three secondary schools[2]—England

	Number	*Percentage*
5 to 10-year-olds	3,163,619	91.7
11 to 15-year-olds	2,738,714	91.5
5 to 15-year-olds	5,902,333	91.6

[1] Distances calculated are straight line and take no account of the route pupils follow in order to get to school.

[2] Includes maintained secondary schools, CTCs and Academies.

Annual School Census 2005 Final.

Science

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills pursuant to the answers to the hon. Member for Mid-Bedfordshire, of 2 November 2005, *Official Report*, columns 1203–04W, on science, whether the figures in Table 2 are included in the figures in Table 1. [28940]

Jacqui Smith: The figures in Table 2 were not included in Table 1. Table 1 includes recruitment to initial teacher training in universities and other higher education institutions, school centred initial teacher training (SCITT) and the Open university but excludes recruitment to employment based routes.

Mrs. Dorries: To ask the Secretary of State for Education and Skills how many science departments there have been in state schools in each year since 1997; and if she will make a statement. [23283]

Jacqui Smith: All secondary schools have a science department. Primary schools are not organised by subject departments. Most primary schools appoint a science coordinator to lead, manage and guide the teaching of science in their schools.

Mr. Hoban: To ask the Secretary of State for Education and Skills pursuant to the answer of 7 November 2005, *Official Report*, column 131W, on special schools, what the complex issues are; and if she will make a statement. [28267]

Maria Eagle: There are clear advantages to special schools acquiring trust status but we also need to consider carefully the role of local authorities given that they have statutory responsibilities for identifying, assessing and making provision for children with SEN. We intend to consult special school head teachers, local authority and other representative bodies before coming to a final decision on this issue. We will announce how we intend to proceed in due course.

Selection

Mr. Gibb: To ask the Secretary of State for Education and Skills what definition of *(a)* selection by aptitude and *(b)* selection by ability she used in her recent White Paper. [25664]

Jacqui Smith: 'Ability' is defined in statute by section 99(5)*(b)* of the School Standards and Framework Act 1998 as

"either general ability or ability in any particular subject or subjects".

Paragraph 7.11 of the statutory school admissions code of practice defines a pupil with aptitude as

"one who is identified as being able to benefit from teaching in a specific subject, or who demonstrates a particular capacity to succeed in that subject".

Sure Start

Tim Loughton: To ask the Secretary of State for Education and Skills what assessment she has made of the effects of Sure Start on *(a)* parents and *(b)* children. [18841]

Beverley Hughes: There is a comprehensive national level evaluation of Sure Start local programmes in place which began in January 2001. It examines the impact of Sure Start on children, parents, families and communities, both in the short, medium and long term by tracking a sample of 8,000 children and their families over time. The first information on the effects of Sure Start on children and families will be available by the end of the year.

John Bercow: To ask the Secretary of State for Education and Skills if she will make a statement on the steps she is taking to meet the Sure Start target to reduce the proportion of young children living in households where no one is working. [26784]

Beverley Hughes: Sure Start Local Programmes (and now children's centres) work closely with Jobcentre Plus in providing a range of initiatives to encourage and support parents of young children in moving towards the labour market. Childcare Partnership Managers in all Jobcentre Plus districts are fostering closer working in all local authority areas, including focusing on meeting the childcare needs of unemployed parents. Progress is good with the most recent data (2003–04) showing a 7.3 per cent. drop against the overall target of a 12 per cent. drop by March 2006.

John Bercow: To ask the Secretary of State for Education and Skills if she will make a statement on progress towards the Sure Start target to reduce the proportion of mothers who smoke during pregnancy. [26785]

Beverley Hughes: Our target is to reduce the number of women in Sure Start local programme areas who smoke during pregnancy by 6 per cent. between 2003 and 2006. Up until March 2004 we have achieved a reduction of 1.4 per cent.

Programmes carry out a wide range of activities to reduce smoking from work with pregnant mothers to "smoke free homes initiatives" and preventative work with school children. Some programmes have performed particularly well, reporting up to 25 per cent. reductions in some areas and we are encouraging them to share good practice. This is a challenging target with many programmes working in communities where smoking is the cultural norm. We know that programmes find this work easier where the PCT takes a strong strategic lead, for example, by providing training, advice or help with funding for programmes smoking cessation workers or midwives.

Teaching Standards

John Bercow: To ask the Secretary of State for Education and Skills what percentage of schools have had unsatisfactory standards of teaching in each of the last five years. [26084]

Jacqui Smith: This is a matter for Ofsted. HM Chief Inspector, David Bell, has written to the hon. Member and a copy of his letter has been placed in the House Libraries.

*Letter from David Bell to Mr. John Bercow, dated * November 2005:*

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for reply.

Attached is a table which shows the percentage of schools judged to have the unsatisfactory/poor teaching, for the academic years 2000/01 to 2004/05.

A copy of this reply has been sent to Jacqui Smith and will be placed in the Library of both Houses.

Table 1: Percentage of schools with unsatisfactory/poor teaching: 2000/01 to 2004/05

	Percentage of primary schools	*Percentage of secondary schools*
2000/01	4	4
2001/02	3	4
2002/03	3	5
2003/04	3	9
2004/05	3	5

Note:
Framework changes occurred in January 2000 and September 2003. These changes mean that the data are not fully comparable from one framework to another.

Under-achievement

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of the accessibility of extra-curricular activities, including sports, upon under-achievement *(a)* nationally and *(b)* by children from low socio-economic backgrounds. [26029]

Jacqui Smith: Research shows that there are significant benefits for young people participating in study support (out of school hours learning) activities. In June 2001, my Department published "The Impact of Study Support", which set out the findings of a three-year longitudinal study of around 8,000 pupils in 52 secondary schools. The research found that pupils participating in study support do better than their peers who do not in three key areas—attainment, attitudes to school and attendance at school. The study also indicated that minority ethnic pupils and pupils from disadvantaged backgrounds gain most benefit, and that participation increases the likeljhood of subsequent participation. Young people can benefit from a wide range of activities, not just those which are linked to curriculum subjects.

A recent MORI survey by my Department showed that the most popular study support activities are PE and sport. In addition to the health and fitness benefits, the medium of sport can be used to enhance young people's numeracy and literacy skills, as well as contributing to improved motivation and behaviour.

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of a positive learning environment upon under-achievement *(a)* nationally and *(b)* by children from low socio-economic backgrounds. [26030]

Jacqui Smith: There are a range of factors, in both the home and school, which are shown to influence a positive learning environment. Many of these factors are shown to particularly focus on supporting low achieving children, who disproportionately tend to be from lower socio-economic backgrounds.

Research shows that the quality of the home environment in the pre-school years has the strongest impact on child development at start of school and beyond, and is therefore the most important influence on child development in the pre-school period. The Department's effective provision of pre-school education (EPPE) study has shown that, for all children, the type and range of learning activities that parents undertake with their pre-school children (for example, reading, singing nursery rhymes and playing with numbers) are more important for intellectual and social development than parental occupation, education or income.

Research also highlights that school related factors such as, personalisation of learning, mentoring and tailoring the curriculum for pupils who are gifted and talented all contribute to a positive learning environment. Early findings from the excellence in cities programme and pupil learning credits pilot suggest an impact on attitudes, attendance and key stage 3 mathematics results. The research shows that the most progress in mathematics was made by pupils from the most deprived schools.

School organisation and ethos is also important in developing a positive learning environment. The behaviour improvement programme indicates that effective combinations of measures including behaviour

audits, development of behaviour and attendance strategies, learning mentors, learning support units and multi-agency working, are effective in improving behaviour and attendance.

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of low level classroom disruption on under-achievement *(a)* nationally and *(b)* by children from low socio-economic backgrounds. [26040]

Jacqui Smith: The Department has made no formal assessment of the impact of low level classroom disruption on under-achievement However, research evidence indicates that there is a complex relationship between behaviour, attainment and social class. Research shows that being in a school where there are high levels of disruption can impact negatively on pupils' learning and there is some evidence that it may have more of an impact on pupils from low socio-economic groups. In addition the Department's data shows that schools with higher levels of permanent exclusions tend to have lower levels of attainment as do young people who have been excluded.

Evidence also suggests that there is a link between social class and behaviour both at an individual and a school level. Pupils from low socio-economic groups are more likely to report having been punished or excluded from school; and evidence from teachers suggests that schools with high levels of children on free school meals have higher levels of classroom disruption.

We have made clear our support for schools to take a zero tolerance approach in tackling low level disruption in the classroom. We are further strengthening our programme of work to combat such disruption by taking forward the recommendations of an experienced group of heads and teachers, led by Sir Alan Steer, who had a specific remit to address the impact of low level disorder on teaching and learning. A number of these recommendations feature in the recent Schools White Paper.

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the potential impact of setting by ability upon underachievement by children from low socio-economic backgrounds. [26054]

Jacqui Smith: Effective grouping of pupils by ability can raise standards and better engage pupils in their own learning. Putting children in different ability groups within a class is now commonplace in primary schools and over a third of classes are set by ability in secondary schools including the majority of lessons in English, maths, science and modern foreign languages.

It is for schools to use their own professional judgment to determine for themselves how and when to set or group pupils so as to ensure that it helps to raise the attainment of all pupils, including those from low socio-economic backgrounds. We set out proposals in our recent schools' White Paper, for support for schools to tailor education so that no child falls behind and no child is held back from achieving their potential. Our proposals include helping schools to learn from the best practices around setting and grouping as well as investing an additional £60 million a year, and targeting £335 million within the new dedicated schools grant to support personalisation in key stage 3, over the next two years.

John Bercow: To ask the Secretary of State for Education and Skills (1) what assessment she has made of the capacity of schools to provide one-to-one teaching to tackle under-achievement by pupils from low socio-economic backgrounds; [26063]

(2) what assessment she has made of the potential impact of one-to-one teaching upon under-achievement by pupils from low socio-economic backgrounds; [26058]

(3) what assessment she has made of the potential impact of tailored teaching upon under-achievement by pupils from low socio-economic backgrounds; [26049]

(4) what assessment she has made of the potential impact of personalised learning upon under-achievement by pupils from low socio-economic backgrounds; [26048]

(5) what action is being taken by her Department to ensure that children from low socio-economic backgrounds in secondary education *(a)* attain the necessary skills and *(b)* achieve the best possible results; [26035]

(6) what action is being taken by her Department to promote opportunity for children from low socio-economic backgrounds. [26034]

Jacqui Smith: Good schools have been personalising their teaching and learning, with great success for many years to raise standards and meet the learning needs of their pupils. We know that personalising learning, which includes assessment for learning; high quality tailored whole class, small group and one-to-one teaching; a flexible curriculum, effective school organisation and strong partnerships beyond the school, can raise pupil achievement particularly for low achieving pupils who disproportionately tend to be from low socio-economic backgrounds. We now want this to be common practice across all schools, particularly for children at either end of the ability spectrum whose needs can be the most challenging to meet.

We will therefore allocate £335 million by 2007–08, specifically earmarked within our Dedicated Schools Grant, to provide the resources secondary schools need to start delivering personalised learning for pupils in Key Stage 3, focusing funding on deprived areas, particularly for those who have fallen behind in literacy and numeracy and for those who are gifted or talented. For those schools with the highest numbers of children who have fallen behind we will provide a further targeted £60 million in each of 2006–07 and 2007–08, shared across the primary and secondary sectors, to provide more effective one-to-one and small group tuition. We will also provide all schools with best practice materials, guidance and access to training on the most effective teaching and learning strategies to personalise learning to the needs of each pupil.

Through School Improvement Partners and the new OFSTED inspection regime we will challenge every school to demonstrate they are planning and delivering effective tailored teaching and learning for every child,

particularly for under-achieving groups of pupils, including those from low socio-economic backgrounds, as well as overall school performance.

John Bercow: To ask the Secretary of State for Education and Skills what problems are faced by her Department when trying to increase parental involvement in education. [26081]

Jacqui Smith: We know that the way schools currently involve parents is varied. For example, we know that in primary schools there is a much more inclusive approach to parents, resulting in parents of primary school children feeling more confident about engaging with their child's school. However, we know this is not always the case with secondary schools, where establishing such a relationship is more difficult. Further, we know that some parents, due to the complexities of their own lives or their own educational history, are more reluctant to engage with their children's school.

We want to help parents and schools to work well together and raise children's achievement. We know that the key to improving parental involvement in children's education is changing attitudes and moving towards a situation where parents are accepted as co-educators and partners in their children's learning, not only in schools but also in local authorities. It is crucial we ensure that the importance of parental involvement is embedded throughout the education chain to establish a culture of parental involvement and encourage a positive, two-way partnership.

To enable this, we are actively encouraging parents to become more closely involved in their children's education and learning at home and at school. Since 1997, we have sought to enhance parental involvement through a range of measures. These include information for parents such as videos, DVDs, the "Learning Journey" guides and the Parents Centre website; and materials for schools such as the Involving Parents, Raising Achievement toolkit.

Parental involvement is not only key to the standards agenda, but is equally central to creating a culture of lifelong learning and high aspirations in communities and families, regardless of background. This message has been reinforced by the White Paper "Higher Standards, Better Schools for All".

Universities (Bureaucracy)

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how many pages of *(a)* guidance and *(b)* other paperwork universities received from (i) her Department and (ii) non-departmental public bodies in the sector on each day in 2004. [25093]

Bill Rammell: It is not possible to provide information for each day in 2004, so I am providing the information on an annual basis.

The Government conducts their relationship with the university sector in England through three non-departmental public bodies: the Student Loans Company (SLC), the Higher Education Funding Council for England (HEFCE) and the Office for Fair Access (OFFA).

During 2004, the SLC issued 5,000 posters to universities about the move paying loans by direct credit to student bank accounts instead of by payment by cheque, asking that these should be displayed to help students.

HEFCE issued in printed form 11 guidance documents; 26 other publications, concerning different aspects of university core business and policy development; six HEFCE newsletters; four newsletters from the Joint Costing and Pricing Group; three Research Assessment Exercise documents; and 21 Circular letters to Vice-Chancellors and heads of HEIs. This came to a total of 1,573 pages.

OFFA issued one guidance document 2004, totalling 18 pages in length.

FOREIGN AND COMMONWEALTH AFFAIRS

Abdel Karim Taghouti

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what account his Department has taken of the recommendation of immigration Judge Maurice Cohen given in his determination of 14 September 2005, Appeal No. OA/00652/2005, in respect of the appeal of Abdel Karim Taghouti that entry clearance be granted to the appellant without further delay; and if he will make a statement; [28022]

(2) for what reasons the decision of Asylum and Immigration Tribunal determined on 14 September 2005 in respect of Mr. Abdel Karim Taghouti, Appeal No. OA/00652/2005, has not yet been sent by the Government to the UK embassy in Tunis; when it will be sent; when a spouse's visa will be issued; and if he will make a statement. [28023]

Mr. Douglas Alexander: The visa section at our embassy in Tunis received Mr. Taghouti's appeal determination from the Home Office on 31 October 2005. There was a public holiday between 3–7 November 2005, which prevented the embassy from contacting Mr. Taghouti. However, he approached the visa section on 8 November 2005 with his passport and was issued with his spouse visa.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs for what reasons the UK embassy entry clearance office in Tunis has disregarded the submission of two faxed copies of the successful appeal of Abdel Karim Taghouti, Appeal No. OA/00652/2005, against their refusal to grant him a spouse's visa submitted to them by Messrs. Marziano Khatry Mak Solicitors; and if he will make a statement. [28024]

Mr. Douglas Alexander: The visa section at our embassy in Tunis received faxed copies of Mr. Taghouti's appeal determination from Marziano Khatry Mak Solicitors on 15 September 2005 and 25 October 2005. On receipt of the first fax, the visa section replied by e-mail to explain that an entry clearance officer must receive an appeal determination directly from the Home Office.

The visa section received Mr. Taghouti's appeal determination from the Home Office on 31 October 2005. There was a public holiday between 3–7 November 2005, which prevented the embassy from contacting Mr. Taghouti. However, he approached the visa section on 8 November 2005 with his passport and was issued with his spouse visa.

China

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he plans to have with President Hu of China during his visit to the UK regarding China's use of political psychiatry. [27024]

Ian Pearson: My right hon. Friend the Prime Minister raised human rights issues with President Hu during his visit. My right hon. Friend the Foreign Secretary did not hold a separate meeting with the President.

Craig Alden

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance his Department has provided to Mr. Craig Alden, a British citizen imprisoned in Brazil; and if he will make a statement. [26087]

Dr. Howells: British embassy officials visit Craig Alden on a regular basis. The British consul last visited him on 3 November 2005. In addition embassy officials regularly speak to Mr. Alden by telephone.

My right hon. Friend the Foreign Secretary met Craig Alden's mother in 2004 and my noble Friend, the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (FCO), Lord Triesman of Tottenham, met Mrs. Alden in July 2005. Consular officials in London and Brasilia have met Mrs. Alden on a number of occasions.

As a result of concerns about the fairness of the trial proceedings leading to Craig Alden's conviction in 2002, the FCO offered Craig Alden the services of a member of the FCO pro bono lawyers panel, Jeremy Richardson QC.

Jeremy Richardson produced two reports on the Alden case, as a result of which the Foreign Secretary made a decision to support an application to the Brazilian Government, for presidential expulsion. He wrote to the Brazilian Foreign Minister in March 2005 referring to some of the concerns highlighted by Jeremy Richardson. In August 2005, the Brazilian authorities informed British embassy officials of their intention to reject Craig Alden's request for presidential expulsion. The British ambassador in Brasilia continues to press the Brazilian authorities for a full response.

Criminal Offences

Simon Hughes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the criminal offences created in legislation sponsored by his Department from May 1997 up to and including April 2005, broken down by Act. [27588]

Mr. Straw *[holding answer 11 November 2005]*: The following criminal offences have been created in legislation for which the Foreign and Commonwealth Office has been responsible from May 1997 to April 2005:

International Criminal Court Act 2001: Sections 51, 52, 54, 58, 59 and 61; genocide, crimes against humanity and war crimes, ancillary offences, offences in relation to the International Criminal Court.

Landmines Act 1998: Sections 2, 12, 14, 17, 18 and 19; offences relating to anti-personnel landmines, offences relating to destruction, fact finding missions, notices, unlawful obstruction and disclosure of information.

Nuclear Explosions (Prohibition and Inspections) Act 1998: Sections 1 and 7; causing a nuclear explosion, offences in connection with on-site inspections.

Indonesia

Mr. David Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the UK Government has made to the Indonesian Government over incidents of violence against the Christian community in Central Sulawesi. [27198]

Ian Pearson: Immediately after the recent beheadings in Central Sulawesi, President Yudhoyono condemned what he described as a "sadistic crime", and sent extra police to the area to ensure that violence did not flare up. The British ambassador in Jakarta has discussed the issue with senior Indonesian officials and expressed the UK's shock at the incident.

In September this year, President Yudhoyono stressed that the state guaranteed every citizen religious freedom and called on the police and members of the public to act to prevent violence against any faith. We co-sponsored, with the Indonesian Government in Bali in July, an international conference to promote inter-faith understanding and harmony. We will continue to co-operate with them on this important objective.

Iran

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs from which organisations the Government have received intelligence reports on the situation in Iran. [28325]

Dr. Howells: It is not the Government's policy to comment on intelligence matters.

Somalia

Mrs. James: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the ambush of Somalian interim Prime Minister Ali Muhammad Gedi in Mogadishu on 7 November. [27224]

Ian Pearson: As EU presidency we issued a statement condemning in the strongest terms the attack, deeply regretting the killing and wounding of several people and conveying condolences to the families of the victims.

We continue to engage with partners in the international community to support the Transitional Federal Institutions and urge the Somalis to resolve their differences peacefully and return to good governance.

Sudan

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the US Administration regarding the decision to reduce US funding for the African Union mission in Darfur. [26971]

Ian Pearson: We have raised this issue with the US Administration who have told us that no decision has been taken to reduce funding for the African Union mission in Darfur, contrary to press accounts.

United States (Prince of Wales's Visit)

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer of 31 October 2005, *Official Report*, column 754W, on HRH Prince of Wales (US visit), whether it is intended that, in respect of the 60 per cent. balance of other costs referred to in his reply, *(a)* HRH the Prince of Wales' Household shall be billed for these amounts and *(b)* the charities shall be billed directly for these amounts; and what amounts will be paid by each charity. [26870]

Mr. Straw: The estimated costs included in the 60 per cent. have been or will be met directly by The Prince of Wales' Household or associated charities and no recharging is therefore required. The Foreign and Commonwealth Office does not have details of the amounts incurred by individual charities.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer of 31 October 2005, *Official Report*, column 754W, on HRH the Prince of Wales (US visit), what the *(a)* details and *(b)* amounts are of the other costs referred to in his reply; and if he will make a statement. [26873]

Mr. Straw: Exact costs of the visit will not be known until the final accounts are completed. However, we estimate that the total costs to be met by the Foreign and Commonwealth Office from public funds to be £180,000.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs how much of the cost of HRH the Prince of Wales's visit to the US was met out of the UK ambassador's frais allowance. [26874]

Mr. Straw: We are unable to provide this breakdown until all the final costs of the visit are accounted for. I will write to my hon. Friend once the figures are available, which will be by the end of December, and will place a copy of the letter in the Library of the House.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what proportion of the UK Embassy's press office staff accompanied HRH the Prince of Wales during his official visit to the US; on what occasions; how many person hours were involved; what proportion of the press office person hours were in connection with events relating to the Prince's charities; on what occasions; and if he will make a statement. [26875]

Ian Pearson: Two out of the five Press Office staff from the British Embassy in Washington accompanied Their Royal Highnesses at all times throughout the tour. The following elements required additional support from the press office: White House dinner and reception—1 additional press officer; Visit to SEED school—2 additional press officers; Visit to National Institutes of Health—1 additional press officer; Seminar at Georgetown University—1 additional press officer; Reception at the Ambassador's Residence—1 additional press officer; and visit to Folger Shakespeare Library—1 additional press officer.

The Embassy estimates that 177 hours were spent in total on the press element for the duration of the visit. There were three events with which His Royal Highnesses' Foundations were associated: The National Building Museum event, the Reception hosted by Her Majesty's Ambassador and the Business and Environment Event in San Francisco. Seven hours were spent doing press work for these events.

CABINET OFFICE

Damages

Mr. Hayes: To ask the Chancellor of the Duchy of Lancaster if he will list the 10 largest amounts of damages paid out by his Department in the last year for which figures are available, indicating in each case the nature of the claim. [27739]

Mr. Jim Murphy: The last year for which figures are available is 2004–05. During that period, four cases of injury claims were settled by the Department. The amounts involved were:

£65,629.30

£6,258.70

£2,125.00

£700.64

Departmental Assets

Mike Penning: To ask the Chancellor of the Duchy of Lancaster if he will list the 10 most valuable *(a)* movable and *(b)* immovable assets owned by his Department. [27390]

Mr. Jim Murphy: The top five most valuable movable assets are information technology hardware and software relating to e-Government projects (development of the Government Gateway, Delivering on the Promise, Knowledge Network and Directgov) and to Scope (cross-departmental information strategy.)

The next five most valuable movable assets are items of art and antique furniture located in buildings within the Cabinet Office's estate.

The top 10 most valuable immovable assets are freehold properties on the Cabinet Office's estate.

Departmental Salaries

Mike Penning: To ask the Chancellor of the Duchy of Lancaster if he will list the 10 highest-paid employees in his Department, broken down by *(a)* job title and *(b)* salary including bonuses; and whether the individual concerned is (i) a civil servant and (ii) a contractor in each case. [27570]

Mr. Jim Murphy: Details of the remuneration of the senior management in the Cabinet Office are published in the Department's Annual Report and Resource Accounts 2004–05 at paragraph 3.3, beginning on page 35. A copy is available in the Library.

Smoking

Michael Fabricant: To ask the Chancellor of the Duchy of Lancaster if he will publish the findings of the Better Regulation Task Force on the provisions on smoking in public places contained in the Health Bill; and if he will make a statement. [28069]

Mr. Jim Murphy: The Better Regulation Task Force (BRTF) is an independent body, set up to advise Government on action to ensure that regulation and its enforcement comply with the five principles of good regulation. The Cabinet Office sponsors the BRTF but does not speak for it.

HEALTH

Alliance Medical

Mr. Kevan Jones: To ask the Secretary of State for Health what the average amount of time taken is for Alliance Medical to provide extra scanning capacity in the NHS from winning the contract for the service to the services coming on-line. [19846]

Mr. Byrne *[holding answer 20 October 2005]:* The contract was awarded to Alliance Medical Limited in June 2004. The first unit was scanning national health service patients five weeks later and the full service of 12 mobile scanners became operational by December 2004.

Carbon Monoxide Poisoning

Mr. Hancock: To ask the Secretary of State for Health pursuant to the answer of 28 October 2005, *Official Report*, column 573W, on carbon monoxide poisoning, how many leaflets will be available for distribution to general practitioner surgeries. [25063]

Caroline Flint: 186,500 leaflets will be printed in total and 20 leaflets will be distributed to each of the approximately 93,000 general practitioner surgeries in England. 50 leaflets will be provided for each of the endorsers and 100 will be provided for CO-Gas safety. The remainder will be stored for distribution in response to individual requests. The leaflet is also being made available on the Department's website.

Correspondence

Mr. Swayne: To ask the Secretary of State for Health when she will respond to the letter of 12 September 2005 from Mr. Hewson of Ashley Lane, New Milton, regarding his family's recent experience of NHS provision. [23816]

Jane Kennedy: We have no record of receiving Mr. Hewson's original letter; however he did send a copy of the letter on 25 October 2005 and a reply was sent on 1 November 2005.

Data Protection

Mr. Dismore: To ask the Secretary of State for Health if she will investigate the Royal Free hospital's complaints handling arrangements; and if she will take steps *(a)* to remind the hospital authorities of the exemption of hon. Members from data protection rules

concerning patient confidentiality and *(b)* to encourage them to deal with hon. Members' complaints more promptly. [26095]

Jane Kennedy: While Members of Parliament are not prevented from accessing patient records by the Data Protection Act 1998, it is important to distinguish between this Act and the separate common law obligations of confidentiality under which patients records are held. Access to records held in confidence must be with the consent of the patient concerned. Right hon. and hon. Members should ensure that they have this consent prior to undertaking investigations on behalf of their constituents.

The Department has published a code of practice on confidentiality for the national health service that provides comprehensive guidance on the use and disclosure of patient health information. This states that:

"Careful consideration of any written authorisation and prompt action are key, e.g. where an MP states, in writing, that she/he has a patient's consent this may be accepted without further resort to the patient."

Departmental Estate

Mr. Hollobone: To ask the Secretary of State for Health what *(a)* land and *(b)* property her Department owns in Kettering constituency. [24383]

Jane Kenpedy *[holding answer 3 November 2005]:* Northfield House at Kettering General Hospital is in the ownership of the Secretary of State for Health.

Departmental Skills Development Plan

Mr. Gibb: To ask the Secretary of State for Health which individual is responsible for developing and implementing her Department's Skills Development Plan. [23843]

Jane Kennedy: The Director of Human Resources is responsible for developing and implementing the skills development plan.

Mr. Gibb: To ask the Secretary of State for Health if she will place in the Library a copy of her Department's Skills Development Plan. [23867]

Jane Kennedy: The information requested has been placed in the Library.

Departmental Staff

Mike Penning: To ask the Secretary of State for Health how many new staff started employment in the Department during the year ending 31 March 2005 *(a)* 2001, *(b)* 2002, *(c)* 2003, *(d)* 2004 and *(e)* 2005; and if she will make a statement. [24663]

Jane Kennedy: The number of staff who joined the Department over the last five years is shown in the table. Many of these staff would have been on a fixed term contract, or on loan/secondment into the Department, therefore the number of staff who remain employed by the Department is also shown.

As at 1 February to 31 March:	*Total number of new staff in Department of Health*	*Still employed*	*No longer employed*
2000–01	815	168	647
2001–02	738	188	550
2002–03	635	201	434
2003–04	369	114	255
2004–05	263	170	93

As at 1 February to 31 March:	*Total number of new staff in Department of Health*	*Still employed (percentage)*
2000–01	815	20.6
2001–02	738	25.5
2002–03	635	31.7
2003–04	369	30.9
2004–05	263	64.6

Total number of full-time equivalent staff in Department of Health[1]

As at 31 March:	
2001	3,632
2002	3,809
2003	3,390
2004	2,964
2005	2,189

[1] Figures taken from 2005 departmental report.

Diabetes

Mr. Swayne: To ask the Secretary of State for Health how many insulin pumps have been prescribed to NHS patients since the National Institute for Health and Clinical Excellence Guidance was issued in February 2003. [25953]

Jane Kennedy *[holding answer 10 November 2005]:* This information is not held centrally.

HIV/AIDS

John Bercow: To ask the Secretary of State for Health (1) what assessment she has made of the cost-effectiveness of the refusal to grant free HIV treatment of some migrants; [25845]

(2) what representations she has received regarding the provision of free HIV treatment to migrants in the UK. [25911]

Jane Kennedy: Diagnostic testing for HIV, and any associated counselling is free to all. However, subsequent treatment should the test prove positive is not and those people who are not ordinarily resident in the United Kingdom, or otherwise exempt from charges, are expected to pay for any national health service hospital treatment provided. This has always been the case since the NHS (Charges to Overseas Visitors) Regulations were introduced in 1989. We believe that the overseas visitors charging regime is about more than just the protection of NHS resources. Equally important is the protection of the principle that the NHS exists primarily for the benefit of those who are living legally in the UK, and not for those who are not. The Government have to balance public health responsibilities, and

responsibilities to individual patients, with its wider responsibilities in terms of immigration and asylum policy. Such responsibilities cannot be assessed in purely monetary terms.

A number of voluntary bodies and other organisations with an interest in HIV/AIDS have written to Ministers on this matter in recent months. In addition, the Health Select Committee covered this issue in its report "New Developments in Sexual Health and HIV/AIDS Policy" published in March 2005, to which the Government responded in July 2005.

Mr. Lansley: To ask the Secretary of State for Health what plans she has to update the HIV Testing Kits and Services Regulations 1992 to *(a)* legalise and *(b)* regulate home testing for HIV/AIDS; and what representations she has received on this subject. [26006]

Caroline Flint: We have no current plans to update the HIV Testing Kits and Services Regulations 1992 and have received no representations on this subject. We keep policy on HIV testing under ongoing review.

Mr. Lansley: To ask the Secretary of State for Health what plans she has to evaluate the costs and benefits to the NHS of exempting the continuing treatment of HIV/AIDS on the NHS from charges for those who are not otherwise entitled to treatment free of charge. [26020]

Jane Kennedy: The national health service is first and foremost for people who live in the United Kingdom (UK). Anyone who is not ordinarily resident in the UK is subject to the NHS (Charges to Overseas Visitors) Regulations 1989, as amended, and will be liable to pay for any hospital treatment they receive, including HIV treatment, unless they meet the criteria for one of many exemption categories listed in the regulations. This has always been the case since these regulations were introduced in 1989.

We have no plans to carry out a specific cost/benefit analysis of this long-standing policy at this time. We believe that the overseas visitors charging regime is about more than just the protection of NHS resources. Equally important is the protection of the principle that the NHS exists primarily for the benefit of those who are living legally in the UK, and not for those who are not. The Government has to balance public health responsibilities, and responsibilities to individual patients, with its wider responsibilities in terms of immigration and asylum policy. Such responsibilities cannot be assessed in purely monetary terms.

Hospital Acquired Infection

Mr. Lansley: To ask the Secretary of State for Health what progress has been made by the Office for National Statistics and the Health Protection Agency in the study of the proportion of deaths which may be associated with hospital acquired infections. [25288]

Jane Kennedy: The Health Protection Agency and the Office for National Statistics are undertaking this national study of deaths associated with healthcare-associated infections (HCAIs). The study will investigate a proportion of the deaths that occur, to identify potentially avoidable factors and lessons to be learned from them.

This study consists of two main parts, a confidential study of deaths following HCAI and a separate quantitative analysis to estimate the proportion of patients with a defined HCAI who die within specified periods. A six-month pilot phase of the confidential qualitative study is underway and an interim report is expected next year. The main phase will be completed in the 18 months following and a report will be submitted to the Department and published at the end of the study. The quantitative study will be undertaken over the same period.

Hospital Closures

Mr. Laurence Robertson: To ask the Secretary of State for Health how many hospitals are proposed for closure in England; and if she will make a statement. [17744]

Mr. Byrne: It is for local national health service organisations to decide on hospital closures. This Government has given local authority overview and scrutiny committees the power to review and scrutinise health services from the perspective of their local populations. NHS bodies are under a duty to consult overview and scrutiny committees on any plans to make substantial variation to NHS services. Those committees have the powers to refer any proposal to the Secretary of State if they believe the plans are not in the interests of the health service.

Hospital Restaurants

Andrew Rosindell: To ask the Secretary of State for Health how many patients have been offered a hospital subsidy to visit the hospital restaurant in each year since 1997; and how many of these patients were waiting in the accident and emergency department. [25877]

Jane Kennedy: The information requested is not collected by the Department. It is for local determination to decide if, and when, it is appropriate to offer patients the means to purchase food from the hospital restaurant. Clinical advice will influence any decisions taken with regard to patients within accident and emergency departments.

Literacy and Numeracy

Mr. Gibb: To ask the Secretary of State for Health what methods of assessment of *(a)* literacy and *(b)* numeracy skills are used as part of the recruitment process by employees of her Department. [23789]

Jane Kennedy: I refer the hon. Member to the reply I gave him on 7 November 2005, *Official Report*, column 250W. Where a numeracy test is carried out, it usually takes the form of a written paper comprising a set of numerical questions. Where literacy tests are carried out, they usually comprise a spelling test, a word usage test, a drafting test and an English comprehension test.

Locum Doctors

Mr. Lansley: To ask the Secretary of State for Health what estimate she has made of the number of locum doctors working in the NHS in each year since 1997. [18356]

Mr. Byrne: I refer the hon. Member to the answer given on 22 February 2005, *Official Report*, column 131W to the Member for North Southwark and Bermondsey (Simon Hughes).

Lyons Review

Dr. Cable: To ask the Secretary of State for Health how many people in her Department *(a)* were relocated in 2004–05 and *(b)* are expected to be relocated in 2005–06 as a result of the Lyons review of public sector relocation; to which place they have been relocated; and if she will make a statement. [24330]

Jane Kennedy *[holding answer 3 November 2005]:* The Department has committed to relocate at least 1,110 posts by March 2010, with 80 from the core Department and 1,030 from arms length bodies.

No Departmental staff were relocated from London to Leeds during 2004–05 as a result of the Lyons Review and none are expected to relocate during 2005–06. However, the following posts have been relocated, or are expected to relocate, from our arms length bodies in those periods, which is shown in the table.

Posts relocated from arm's length bodies

2004–05	*Number*
Healthcare Commission	165
General Social Care Council	88
Total	253
2005–06	
NHS Connecting for Health	75
Health and Social Care Information Centre	76
NHS Institute for Innovation and Improvement	170
NHS Professionals	40
Total	361

Malnourishment (Portsmouth)

Mr. Hancock: To ask the Secretary of State for Health what recent research she has *(a)* commissioned and *(b)* evaluated on the number of people suffering from malnourishment in Portsmouth; and if she will make a statement. [26134]

Caroline Flint: There has been no specifically commissioned research into malnourishment in Portsmouth or the number of people affected by this. However, there is a strong local awareness of this issue and a range of initiatives has been introduced in the city accordingly. Work is in progress to evaluate a fruit and vegetable delivery scheme in one of the city's target regeneration areas. Work is also under way, again in targeted regeneration areas, to increase cookery skills through schools and community centres.

NHS Direct

Julia Goldsworthy: To ask the Secretary of State for Health what assessment she has made of the effects of NHS Direct on recruitment in accident and emergency. [18314]

Mr. Byrne: I refer the hon. Member to the reply given to her on 28 June 2005, *Official Report*, column 1521W.

NHS Property

Steve Webb: To ask the Secretary of State for Health what the total value is of property owned by the NHS which is allocated for sale but has not yet been sold; and what the total cost is per month of retaining this property in *(a)* England and *(b)* each strategic health authority. [26288]

Jane Kennedy: The information requested is not held centrally by the Department.

NICE (Drug Approvals)

Mr. Paterson: To ask the Secretary of State for Health what steps the National Institute for Health and Clinical Excellence (NICE) can undertake before final market authorisation has been granted to a drug by the European Medicines Evaluation Agency in order that final approval by NICE can be accelerated. [19912]

Jane Kennedy: Information about the National Institute for Health and Clinical Excellence's (NICE) processes is available on their website at www.nice.org.uk. Once a drug is formally referred to NICE, the Institute can begin the initial stages of the appraisal process before United Kingdom approval is given. However, I understand that NICE is not able to produce guidance or release consultation documents on any drug that has not received UK regulatory approval.

Helen Jones: To ask the Secretary of State for Health what steps she is taking to ensure that appraisals of new drugs are carried out in a timely and expeditious manner. [26581]

Jane Kennedy *[holding answer 9 November 2005]:* I refer my hon. Friend to the Written Ministerial Statement I gave on 3 November 2005, *Official Report*, columns 51–52SW.

Obesity Clinics

Mr. Amess: To ask the Secretary of State for Health how many specialist obesity clinics are operated by the national health service in England, broken down by region; what the *(a)* address and *(b)* contact details of each are; whether contact information will be included within the forthcoming Weight Loss Guide; and what steps she intends to take to encourage the development of further clinics. [26683]

Caroline Flint: Details of national health service operated obesity clinics for children and adults are shown in the tables.

Health professionals are made aware of these clinics by their primary care trusts (PCTs). It is also up to PCTs as local commissioners and providers of services to determine the most appropriate methods to deliver health care to their populations, based on clinical need and effectiveness, as well as local circumstance, drawing on the available evidence.

Obesity clinics for children in England

East of England	Luton and Dunstable Hospital	Centre for Obesity Research Lewsey Road Luton LU4 ODZ
East of England	Addenbrooke's Hospital	Hills Road Cambridge CB2 2QQ

Primary Care Trusts (Oxfordshire)

Mr. Andrew Smith: To ask the Secretary of State for Health what discussions there were between her Department and the Thames Valley Strategic Health Authority on putting primary care trust commissioning in Oxfordshire out to tender prior to its announcement. [26270]

Caroline Flint *[holding answer 9 November 2005]:* No discussions were held with Thames Valley Strategic Health Authority (SHA) regarding their proposals prior to their submissions. We wanted SHAs, in partnership with local stakeholders, to identify various options for the reconfiguration of PCTs locally, which would then be assessed by the external panel against the criteria in "Commissioning a Patient-led NHS". If the proposals are adjudged to meet these, they will be subject to full public consultation.

Primary Schools

Andrew Rosindell: To ask the Secretary of State for Health what her Department's policy is on healthy eating in primary schools. [25211]

Caroline Flint: The Department encourages both primary and secondary schools to take a whole school approach to healthy eating and drinking and would like to see all schools become healthy schools. A number of initiatives are in place to support primary schools in achieving this.

The Department is supporting the Department for Education and Skills led work to develop new school food standards. Proposals which set out new nutrient and food based standards for school lunches are currently out for consultation. There is also an intention to extend these standards to cover other food and drink across the school day. The Government are investing £235 million over the next three years to support the transformation in school food—£130 million for local authorities, £90 million for schools and £15 million for a new school food trust, to provide independent advice and support to schools.

The national healthy schools programme has been strengthened to include healthy eating and physical activity as core components. 50 per cent. of schools should achieve the new national healthy school status by December 2006, with all schools participating in the programme by 2009.

The recently launched food in schools toolkit provides resources and guidance to inspire and support schools in developing a range of healthy eating initiatives such as healthier breakfast clubs, vending machines, lunch boxes through to after school cookery and growing clubs. Healthy schools coordinators have been trained on the toolkit, and are now supporting schools through local training events.

As part of the school fruit and vegetable scheme all four to six-year-old children in local education authority maintained infant, primary and special schools throughout England are now eligible to receive a free piece of fruit or vegetable.

Silicone Ankle Foot Orthoses

Mike Penning: To ask the Secretary of State for Health whether silicone ankle foot orthoses are available free of charge to sufferers of Charcot Marie Tooth disease; and if she will make a statement. [27210]

Jane Kennedy: Orthoses, including silicone ankle foot orthoses, are provided free of charge to users on the national health service on the basis of assessed clinical need. Patients are encouraged to discuss their orthoses prescription with the orthotist and health care professional team concerned.

HOME DEPARTMENT

Alcohol Sales

Tim Loughton: To ask the Secretary of State for the Home Department how many alcohol retailers have lost their licences in each of the last five years as a result of selling alcohol to children. [18846]

James Purnell: I have been asked to reply.

These statistics are not held centrally. Licensing statistics are collected from the courts every three years and the last DCMS Statistical Bulletin on liquor licensing in England and Wales covers the period 2003 to 2004. Prior to 2004, these statistics were collated and published by the Home Office. Figures for the number of alcohol licences revoked in the year to 30 June for 2001 and 2004 are available and shown in the table.

Year to 30 June	Total on-licensed premises	Total off-licensed premises	Total on- and off-licensed premises
2001	132	51	183
2004	273	81	354

No breakdown is available for the reasons why the licensing justices decided to revoke these licences and it is not therefore known what percentage were the result of selling alcohol to children.

In addition, under the Licensing Act 1964, following a second or subsequent conviction of a justices' licence holder for selling alcohol to children, the convicting court may declare the licence forfeit. There are no centrally held records of the number of licences forfeited for this reason.

Asylum Seekers/Immigration

Mr. Clegg: To ask the Secretary of State for the Home Department how many juvenile asylum seekers are being held in *(a)* reception centres, *(b)* detention centres and *(c)* removal centres. [19033]

Mr. McNulty: The number of children detained with their families under Immigration Act powers will change from day to day. However, internal management information shows that, as at 12 October, there were 53 children detained with their families under Immigration Act powers. These figures are not broken down into asylum and non-asylum cases.

The Home Office produces a quarterly snapshot of the number of persons held under Immigration Act powers for the last Saturday of each quarter. The number of persons who had claimed asylum at some stage and were under the age of 18 on 25 June 2005, and where they were detained, is shown in the table.

Information on the total number of persons detained under Immigration Act powers are published on the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Asylum seekers under 18 recorded as being in detention in the United Kingdom solely under Immigration Act powers as at 25 June 2005, by place of detention[1,2]

Place of detention	Total detainees
Immigration Service removal centres	
Yarl's Wood	40
Oakington Reception Centre	30
Immigration short term holding facilities	
Manchester airport	*
Total	70

[1] Figures rounded to the nearest five, with * = 1 or 2, and exclude persons detained in police cells and those in dual detention.
[2] Persons detained under Immigration Act powers who are recorded as having sought asylum at some stage.

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on the quality assurance systems for management of the asylum process, referred to on page 107 of the 2005 departmental report. [26644]

Mr. McNulty: A comprehensive Decision Quality Action Plan is in place to address identified needs for improvement in the quality of initial asylum decisions. Additionally, we are working closely with the UNHCR, through the Quality Initiative Project, to further improve the decision-making processes. Information on the quality of initial asylum decisions is published annually. Information relating to asylum decisions in 2004 was published in the annual bulletin Asylum Statistics 2004. Copies are available from the Library of the House and on the Home Office Research Development and Statistics Directorate website at www.homeoffice.gov.uk/rds/immigration1.html >

John Bercow: To ask the Secretary of State for the Home Department what percentage of asylum applications are being considered through fast-track detained processes. [26669]

Mr. McNulty: Information on the percentage of asylum claims being considered through fast-track detained processes is not currently available. However, the maximum capacity of the detained fast track is approximately 988 a month.

Information on cases accepted at Oakington Reception Centre and Harmondsworth Fast Track are published quarterly and annually. Copies of which are available from the Library of the House and on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. McGovern: To ask the Secretary of State for the Home Department how many dawn raids have been undertaken in asylum cases in Scotland in each of the last four years. [25314]

Mr. McNulty *[holding answer 3 November 2005]:* Records relating to the number of enforcement visits conducted are only readily available since 1 April 2005.

Between 1 April 2005 and 30 September 2005 records show that 112 enforcement home visits were conducted in Scotland. The vast majority of these relate to failed asylum seekers. The times when the actual visits conducted will occur after the teams have commenced their duties and this will vary from operation to operation.

Enforcement operations are intelligence led. The time at which they are conducted is decided on a case by case basis and is designed to give maximum opportunity of locating the individual.

Mr. Carswell: To ask the Secretary of State for the Home Department what estimate he has made of the number of people who have settled permanently *(a)* legally and *(b)* illegally in the UK in each year since 1980. [25448]

Mr. McNulty: Statistics on persons granted settlement in the United Kingdom since 1960 was published in Table 5.6 of the annual Command Paper "Control of Immigration: Statistics United Kingdom 2003". Copies are available from the Library of the House and on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

The 2004 edition is due to be published on 22 November 2005.

No government has ever been able to produce an accurate figure for the number of people who settle in the UK illegally, during the course of a year.

Mr. Hollobone: To ask the Secretary of State for the Home Department what assessment he has made of the level of working by illegal immigrants in the Kettering constituency. [17680]

Mr. McNulty *[holding answer 14 October 2005]:* Information on the numbers or level of illegal migrants working in the Kettering area is not available. It is not possible to collect data on illegal migrants as by their very nature they remain hidden.

David Davis: To ask the Secretary of State for the Home Department how many employers have been prosecuted for employing illegal immigrants in each year since 1997. [21841]

Mr. Charles Clarke: Information on the number of persons proceeded against under section 8 of the Immigration and Asylum Act 1996 for employing a person subject to immigration control is published annually in the Control of Immigration Command Paper. The 2004 Command Paper, which will contain the number of persons proceeded against in 2004 will be published on 22 November.

The published statistics are available on the Home Office's Research Development and Statistics website:

http://www.homeoffice.gov.uk/rds/immigration1.html.

China

Andrew Mackinlay: To ask the Secretary of State for the Home Department if he will ensure that peaceful protests on human rights abuses in China are allowed during the state visit of the President of China; and if he will make a statement. [22231]

Mr. Charles Clarke *[holding answer 25 October 2005]:* The policing of the state visit of the President of China is operational matter for the Commissioner of Police of the Metropolis. He tells me that it is the intention of the Metropolitan police to facilitate lawful assembly and legitimate protest during the visit.

Correspondence

Mr. Burstow: To ask the Secretary of State for the Home Department how many letters to his Department from hon. Members in session *(a)* 2004–05 and *(b)* 2005–06 remain unanswered, broken down by those which are (i) one month old, (ii) two months old, (iii) three months old, (iv) four months old and (v) over six months old. [13865]

Mr. Charles Clarke: No centrally tracked correspondence from MPs received by the Home Office in 2004 or earlier remains outstanding. In the period 1 January to 30 September 2005 the Home Office (including the Immigration and Nationality Directorate but excluding agencies) had received 37,348 items of correspondence from MPs which required a reply from the Home Office and as at 19 October 2,487 (7 per cent.) are overdue and remain outstanding as follows:

391 letters received in September (one month old); 619 letters received in August (two months old); 841 letters received in July (three month old); 614 letters received in June (four months old) ; 21 letters received in May (five months old); one letter received in April or earlier (six months or older).The remainder of the letters received in 2005 are less than one month old. The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of departments in replying to Members/ Peers correspondence. The Report for 2004 was published on 6 April 2005, *Official Report*, columns 137–140WS).

Court Orders

Andrew Rosindell: To ask the Secretary of State for the Home Department how many persons in Greater London have been issued with a detention and training order in each of the last five years; and how many 12 to 17-year-olds have breached antisocial behaviour orders in Greater London in each year. [26440]

Hazel Blears: The information on detention and training orders in each of the last five years for Greater London is shown in the table.

Data on convictions for breach of an antisocial behaviour order (ASBO) are currently available from 1 June 2000 to 31 December 2003 and for juvenile and adult age groups only. Within Greater London during this period, of the 53 ASBOs issued to persons aged 10 to 17 years, as reported to the Home Office, 11 breached their ASBO on one or more occasion.

Persons sentenced to detention and training orders (DTOs) in Greater London[1] 2000–04

	Number sentenced to DTOs
2000	738
2001	980
2002	1,023
2003	759
2004	794

[1] The data shown for Greater London is made up from the two police force areas of Metropolitan police and City of London.

RDS NOMS 8/11/2005

Crimestoppers

Sarah Teather: To ask the Secretary of State for the Home Department what the cost of the Crimestoppers scheme has been in each year since its inception. [24477]

Paul Goggins: The Crimestoppers Trust is an independent charitable organisation and its general financial position is a matter for its trustees and senior management. Since its inception in 1988 it has been funded by private donors and business. The Government have contributed core funding since 2001, as set out in the table:

	Amount (£)
2001–02	341,000
2002–03	826,000
2003–04	846,000
2004–05	846,000
2005–06	900,000

Departmental Staff

Andrew Rosindell: To ask the Secretary of State for the Home Department what the rates of employee absence in his Department have been in each year since 1997. [21018]

Mr. Charles Clarke: I refer the hon. Member to the figures contained in the annual report Analysis of Sickness Absence in the Civil Service published by the Cabinet Office. Table A of the report gives details of both the average working days absence per staff year and the number of staff years on which that calculation is based on. The most recent report for the calendar year 2003 was published on 1 November 2004, copies of which are available in the Library. This report and those for 1999, 2000, 2001 and 2002 are available on the Cabinet Office website at:

http://www.civilservice.gov.uk/management_of_the_civil_service/conditions_of_service/occupational_health/publications/index.asp

Departmental Consultation

Mr. Peter Ainsworth: To ask the Secretary of State for the Home Department if he will list formal consultations being sponsored by his Department and its agencies; and what the *(a)* commencement date and *(b)* deadline for responses is in each case. [22570]

Mr. Charles Clarke: Updated information on Home Office formal consultation may be found on the Home Office website:

http://www.homeoffice.gov.uk/about-us/haveyoursay/

As at 31st October, the information was as follows:

	Publication date	*Closing date for responses*
Restructuring Probation to Reduce Re-offending	27 October 2005	20 December 2005
Preventing Extremism Together: Places of Worship	6 October 2005	11 November 2005
Consultation on Standard Powers for Community Support Officers	31 August 2005	26 October 2005
Possession of Extreme Pornographic material	30 August 2005	2 December 2005
Private Security Industry Act 2091:Approved Contractor Scheme—Partial RIA	25 August 2005	—
Cross Government Guidance—Sharing Information on Children and Young People	23 August 2005	15 November 2005
Consultation on European Commission proposal for a Council Framework Decision on taking account of convictions in the course of new criminal proceedings	17 August 2005	17 November 2005
Non-statutory consultation on broadening exclusion and deportation powers	5 August 2005	19 August 2005
Proposed Changes to the Misuse of Drugs Legislation	28 July 2005	21 October 2005
Selective Admission: Making Migration Work for Britain	19 July 2005	7 November 2005

Departmental Vehicles

Bill Wiggin: To ask the Secretary of State for the Home Department how many vehicles for which the Department is responsible are fitted with retreaded tyres. [17986]

Mr. Charles Clarke: For information on the use of retread tyres in vehicles provided to the Department by the Government Car and Despatch Agency I refer the hon. Member to the letter of 11 October 2005 which he received from the Chief Executive of the GCDA, reference UIN15087 & UIN15088. Copies of this letter are available in the Library.

Departmental Energy Consumption

Norman Lamb: To ask the Secretary of State for the Home Department how much energy has been consumed by his Department in each of the last five years; and how much was spent on energy in each year. [22453]

Mr. Charles Clarke: The tables show consumption data and expenditure on energy for the years 2000–01 to 2004–05.

Energy Costs

£

	Home Office (non prisons)[1]	*Public sector prisons*	*Total*
2000–01	2,853,523	23,778,727	26,632,250
2001–02	3,499,541	27,234,995	30,734,536
2002–03	3,446,772	28,745,834	32,192,606
2003–04	3,540,139	32,579,862	36,120,001
2004–05	4,469,782	34,462,450	38,932,232

Energy consumption (weather corrected kWh)

	Home Office (non prisons)[1]	*Public sector prisons*	*Total*
2000–01	102,714,825	1,362,678,852	,465,393,677
2001–02	127,394,562	1,369,096,678	11,496,491,240
2002–03	92,893,512	1,541,275,375	1,634,168,887
2003–04	100,125,828	1,358,398,490	1,458,524,318
2004–05	104,814,403	1,413,544,834	1,518,359,237

[1] These figures relate to key buildings only and the total number of properties varies from year to year.

Detention

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department by whom he was advised that the proposals for detention without charge for 90 days would be compliant with the European convention on human rights. [27119]

Mr. Charles Clarke: It has been a long standing convention that Governments do not disclose the legal advice that they have received.

Driving Prosecutions

Mr. Ruffley: To ask the Secretary of State for the Home Department how many drivers were prosecuted for driving without insurance in each police authority area in each year since 1997. [25039]

Paul Goggins: Available data taken from the Home Office Court Proceedings Database for the offence of using a motor vehicle uninsured against third party risks, 1997 to 2003 (latest available) is given in the table. Data for 2004 will not be available until early in 2006.

Proceedings at magistrates courts for the offence of using a motor vehicle uninsured against third party risks[1], England and Wales 1997 to 2003

Number of offences

Police force area	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*

[1] An offence under the Road Traffic Act 1988 s. 143 (2)

Sir Alan Haselhurst: To ask the Secretary of State for the Home Department how many people were prosecuted for *(a)* driving while uninsured *(b)* driving while banned and *(c)* driving without having passed a test in the Humberside police area in each of the past five years. [24760]

Paul Goggins: The available information taken from the Home Office Court Proceedings Database on prosecutions for the specific offences of, using a motor vehicle uninsured against third party risks, driving while disqualified and driving or causing or permitting another person to drive other than in accordance with a licence within the Humberside police force area 1999 to 2003 (latest available) is given in the table. 2004 data will not be available until early in 2006.

Proceedings at magistrates courts for specific motoring offences1 within Humberside police force area, 1999 to 2003

Offence type	Number of defendants 1999	2000	2001	2002	2003
(a) Using motor vehicle uninsured against third party risks [RTA88 s. 143 (2)]	4,894	5,024	4,730	4,464	5,509
(b) Driving whilst disqualified from holding or obtaining a licence [RTA88 s. 103 (1)]	895	888	783	888	1,195
(c) Driving or causing or permitting another person to drive other than in accordance with a licence (full or provisional) [RTA88 s. 87 (1) and (2) as amended]	2,779	3,040	3,082	2,984	3,567

[1] Covers offences under legislation pertaining to the involvement of a motor vehicle (i.e. mechanically propelled vehicle intended or adapted for use on roads, and includes motor cycles, motor scooters, mechanically propelled invalid carriages, road rollers and tractors).

E-borders

David Davis: To ask the Secretary of State for the Home Department when he expects to have fully implemented e-borders in *(a)* seaports and *(b)* airports. [21851]

Mr. Charles Clarke: e-Borders capabilities began to roll out to selected air routes through Project Semaphore in December 2004. They will roll out incrementally to major air sea and rail ports to ensure complete coverage of international services in and out of the UK by 2010.

The remaining small air and sea ports will be covered in the last stage of the programme from 2010–14. Full coverage of all ports will be achieved by March 2014.

Fixed Penalty Fines

Mr. Carswell: To ask the Secretary of State for the Home Department what percentage of fixed penalty fines issued by the police were unpaid in the Tendring district in the most recent 12 month period for which data are available. [25445]

Hazel Blears: It is not possible to identify the number of fixed penalty notices which were unpaid in the Tendring district as figures are not collected at this level of detail.

Literacy and Numeracy

Mr. Gibb: To ask the Secretary of State for the Home Department what steps he is taking to promote uptake of the national tests in adult literacy and numeracy among employees of his Department. [23411]

Mr. Charles Clarke: The Department offers a wide range of job related training which includes both literacy and numeracy skills development relevant to staff jobs.

Staff in the main Home Office have access to a range of 'Key skills for work courses' which embed literacy and numeracy skills to at least level 2 national standard.

Immigration and Nationality Directorate have offered basic skills courses for some time as part of its ongoing programme of development offered to all staff.

Prison Service staff are encouraged to use either a Prison Officer Association (POA) or HMPS learning centre, or a local provider, to address any developmental needs arising from a formal assessment, including, when appropriate, the promotion of the national tests in adult literacy and numeracy.

Mr. Gibb: To ask the Secretary of State for the Home Department (1) how many employees in his Department requested training to improve their *(a)* literacy and *(b)* numeracy skills in each year since 2002; [23419]

(2) what training in *(a)* literacy and *(b)* numeracy is offered to employees of his Department. [21116]

Mr. Charles Clarke: The Departments internal training providers IND College and the Centre for Learning and Development keep records of attendees on their courses but do not keep central records of training arranged locally through external providers.

The Department seeks to embed literacy and numeracy as part of the job related development opportunities available to staff. It is therefore difficult to assess all staff development offered that embed literacy and numeracy skills but details of the numbers of staff who have attended training for 2002 to 2004 are in the following table.

Table 1: Applications for internal provision of literacy development opportunities

	Course type	Number of applications 2002	2003	2004
IND	"Back to Basics"[1]	150	108	72
Non-IND, Non-Agency	"Key Skills for Work-courses[1]	136	129	82

[1] These courses have a core literacy element.

Mr. Gibb: To ask the Secretary of State for the Home Department what proportion of new recruits to his Department do not have a level 2 qualification in English and mathematics. [23774]

Mr. Charles Clarke: The Home Office does not maintain a central record of staff qualifications. The information required therefore could be obtained only at a disproportionate cost.

Mr. Gibb: To ask the Secretary of State for the Home Department what methods of assessment of *(a)* literacy and *(b)* numeracy skills are used as part of the recruitment process by employees of his Department. [23790]

Mr. Charles Clarke: In accordance with Cabinet Office guidance, the Home Office uses a variety of methods to assess an applicant's literacy and numeracy skills during the recruitment process. These include competency based application forms, the use of specific tests of ability, aptitude or potential and assessment centres for staff entering the service at Higher Executive Officer (HEO) and grade 7 level. For both of our assessment centres, candidates are presented with materials in written form and this provides a substantial test of literacy skills. Certain of the exercises we also use include numerical material.

London Bombings

Mr. Khan: To ask the Secretary of State for the Home Department how many people have been arrested in connection with the 7 July attacks; how many were

(a) detained for between seven and 14 days, *(b)* charged and *(c)* released without charge in each case, broken down by (i) age, (ii) sex, (iii) ethnicity and (iv) religion. [24950]

Mr. Charles Clarke: In the period immediately following the London attacks on 7 July 2005, five males were arrested. One aged 29 was released after 10 days. Four aged 26, 27, 31 and 41 were released in less than seven days. None were charged.

At a later date, a sixth male, aged 26, was arrested in connection with the ongoing investigation. He was charged with wasting police time.

The Home Office does not have information on the individuals' ethnicity and religion.

Management Consultants

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department if he will list the consultants employed by his Department in each of the last three years. [13569]

Mr. Charles Clarke: Information on individual consultants employed by the Department is not held centrally and to obtain this information would incur disproportionate cost.

The Department awards contracts in open competition according to the EU Procurement Regulations based on best value for money. The use of external consultants in the Home Office provides the Department with specialist knowledge, skill, capacity and technical expertise that is not otherwise available in-house.

Ministerial Travel

Norman Baker: To ask the Secretary of State for the Home Department how many air miles were accrued through departmental ministerial travel in 2004–05, broken down by Minister; how many were *(a)* foregone and *(b)* donated to charity, broken down by charity; and whether air miles accrued by officials were required to be (i) foregone and (ii) given to charity. [17331]

Mr. Charles Clarke: No Ministers accrued air miles through ministerial travel. Ministerial travel is conducted in accordance with the Ministerial Code and Travel by Ministers. Guidance for Ministers on the use of Air Miles is set out in the Ministerial Code. The guidance makes clear that Air Miles should be used only for official purposes or else foregone.

However, if it is impracticable to use the benefits for Government travel, there is no objection to Ministers donating them to charity if this is permissible under the terms of the airline's scheme and the charity is one chosen by the airline.

Neighbourhood Policing

Mr. Walker: To ask the Secretary of State for the Home Department what steps he is taking to promote neighbourhood policing; and if he will make a statement. [26403]

Hazel Blears: The Government are committed to every area in England and Wales benefiting from dedicated, visible, accessible and responsive neighbourhood policing teams by 2008. A key aim of these teams will be to build more effective engagement with the public, and for the public to know who their local police officer is and how to contact them.

The Government are working closely with the Police Service to develop neighbourhood policing, initially within 43 pathfinder areas—one per force in England and Wales. The Neighbourhood Policing Fund will support the recruitment of Community Support Officers—we expect their numbers to reach 24,000 by 2008. To support this the Home Office and the Association of Police Authorities convened the National Practitioner Panel for Community Engagement in Policing.

The panel has created a Guide to Community Engagement which is a resource for all policing practitioners.

John Bercow: To ask the Secretary of State for the Home Department what action he has taken in 2005 to support the spread of dedicated neighbourhood policing teams. [26695]

Hazel Blears: The Government have been working closely with a police-led neighbourhood policing programme team to implement neighbourhood policing in every area in England and Wales by 2008. Initially there will be a pathfinder basic command unit in each of the 43 police forces in England and Wales. The £465 million Neighbourhood Policing Fund has been set up to help provide for up to 24,000 CSOs by 2008. In addition, a full evaluation of the neighbourhood policing programme has been designed and is underway.

Following the report by Her Majesty's Inspectorate of Constabulary on improving protective services, I have also asked police forces and police authorities to develop options for restructuring forces and to submit their final reports, including their final options, to the Home Office by 23 December 2005. Larger, more strategic forces will support neighbourhood policing as they will have the resilience to prevent the abstraction of neighbourhood policing teams to major incidents. To support neighbourhood policing further, the Home Office and the Association of Police Authorities convened the National Practitioner Panel for Community Engagement in Policing. The panel has created a Guide to Community Engagement which is a resource for all policing practitioners.

Non-departmental Public Bodies

Mr. Amess: To ask the Secretary of State for the Home Department which of the advisory non-departmental public bodies sponsored by his Department have a statutory base; which *(a)* publish their advice to Government, *(b)* publish an annual report and *(c)* lay an annual report before Parliament; and whether it is a statutory requirement in each case. [20097]

Mr. Charles Clarke: The information requested is given in the table.

Name of Advisory NDPB	(a) statutory base on which to publish their advice to Government	and whether it is a statutory requirement	(b) statutory base to publish an annual report	and whether it is a statutory requirement	(c) statutory base to lay an annual report before Parliament	and whether it is a statutory requirement

Offensive Weapons

Richard Younger-Ross: To ask the Secretary of State for the Home Department how many people have been *(a)* fined or *(b)* imprisoned for (i) illegally selling knives to under 16-year-olds and (ii) marketing a bladed product in a manner which (A) indicates that it is suitable for combat and (B) likely to promote the simulation of violent behaviour since the Knives Act 1997. [25882]

Fiona Mactaggart: The information available is shown in the table.

Defendants sentenced to fines and imprisonment for offences under the Knives Act 1997 (England and Wales)

		1997	1998	1999	2000	2001	2002	2003	2004
Unlawful marketing of knives (selling or hiring)[1]	Sentenced	1	1	0	1	0	1	0	0
	Fine	1	1	0	1	0	1	0	0
	Immediate custody	0	0	0	0	0	0	0	0
Unlawful marketing of knives (offering or exposing to sell or hire)[1]	Sentenced	0	1	0	1	0	0	0	0
	Fine	0	0	0	1	0	0	0	0
	Immediate custody	0	0	0	0	0	0	0	0
Unlawful marketing of knives—having in possession for the purpose of sale or hire[1]	Sentenced	0	0	0	0	0	1	0	1
	Fine	0	0	0	0	0	0	0	0
	Immediate custody	0	0	0	0	0	0	0	0
Publication of any written pictorial or other material in connection with the marketing of any knife—the material suggesting/indicating knife suitable for combat September 1997[1]	Sentenced	0	0	0	0	0	0	0	0
	Fine	0	0	0	0	0	0	0	0
	Immediate custody	0	0	0	0	0	0	0	0
Publication of any written pictorial or other material in connection with the marketing of any knife—the material is otherwise likely to stimulate or encourage violent behaviour involving use of the knife as a weapon[1]	Sentenced	0	0	0	0	0	0	0	0
	Fine	0	0	0	0	0	0	0	0
	Immediate custody	0	0	0	0	0	0	0	0
Selling a knife etc. to a person under 16 years[2]	Sentenced	2	2	2	0	8	10	17	9
	Fine	1	2	1	0	8	10	14	6
	Immediate custody	1	0	0	0	0	0	0	0

[1] These sections of the Act came into force in September 1997.

[2] This offence is not included in the Knives Act 1997. It is covered by the Offensive Weapons Act 1996 s. 6.

Source:

RDS-NOMS 7 November 2005

Richard Younger-Ross: To ask the Secretary of State for the Home Department how many knives designed for use in hunting and leisure pursuits have been used in violent crimes since the coming into force of the Knives Act 1997. [25893]

Hazel Blears: The types of weapon used in violent crime cannot be separately identified on the Home Office Court Proceedings Database.

Party Conferences

Tim Loughton: To ask the Secretary of State for the Home Department how much was spent on publicly-funded security measures in the current year's *(a)* Labour party conference, *(b)* Conservative party conference and *(c)* Liberal Democrat party conference. [19015]

Mr. Charles Clarke: I have approved special police grants of up to £3.692 million for Sussex police and up to £1.4 million for Lancashire constabulary, as a contribution to the additional costs incurred in policing this year's Labour party and Conservative party conferences.

Any other security costs incurred cannot be disclosed in line with the standard policy not to release these.

Passports

Jenny Willott: To ask the Secretary of State for the Home Department what compensation is available to foreign nationals whose passports or identity cards have been lost by his Department; and if he will make a statement. [18971]

Mr. McNulty: Where the Immigration and Nationality Directorate has lost passports or other valuable documents belonging to applicants, we will offer an ex-gratia payment for the cost of replacing the documents and any additional costs associated with their replacement or arising from the loss of the documents. We would also consider whether it was appropriate to offer a consolatory payment for any distress or inconvenience caused by the loss of the documents.

Police

Mr. Crabb: To ask the Secretary of State for the Home Department how many police *(a)* handguns and *(b)* rifles went missing in the UK during the last year for which figures are available; and how many were recovered in the same period. [25864]

Hazel Blears *[holding answer 7 November 2005]*: This information is not collected centrally.

Mr. Walker: To ask the Secretary of State for the Home Department how many IT systems for recording and collating information are deployed by police forces in England and Wales; and if he will make a statement. [26405]

Hazel Blears: The Home Department together with the Police Information Technology Organisation (PITO) and the Association of Chief Police Officers (ACPO) as part of the Police Science and Technology Strategy have developed a Police Technology Database (PTD) to allow for the sharing of information on IT projects and programmes across the criminal justice community. Presently PITO have developed and provided at least 10 national IT systems for recording and collating information to police forces in England and Wales.

Decisions relating to the development and deployment of IT systems for recording and collating information are based on local operational needs of the individual forces.

Andrew Rosindell: To ask the Secretary of State for the Home Department how much was spent on advertising for the recruitment of police officers for each of the last 10 years. [26448]

Hazel Blears: Home Office spend on police recruitment advertising including regulars and special constables for each of the last 10 years (there was no spend in 1995–96) is as follows.

£

	Spend
1996–97	1,765,748
1997–98	370,049
1998–99	315,261
1999–2000	845,771
2000–01	6,020,844
2001–02	5,917,686
2002–03	4,360,476
2003–04	4,169,590
2004–05	1,885,559

Police Employees (Muslim Women)

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department how many Muslim women are employed by police forces in England as *(a)* police officers and *(b)* civilian employees. [26835]

Hazel Blears: This information is not collected centrally.

Prisons

John Bercow: To ask the Secretary of State for the Home Department what steps his Department is taking to tackle the incidence of escapes from Springhill prison. [25851]

Fiona Mactaggart: Given that there is no physical security to prevent prisoners leaving Springhill, prisoners abscond rather than escape from the open estate. In the last three years the trend for absconds from Springhill has reduced significantly. During 2003–04, 64 prisoners absconded, during 2004–05 42 prisoners absconded and so far this year 28 prisoners have absconded.

During the last two years, management at Springhill has taken a number of measures to seek to reduce absconds. For instance, all prisoners are seen on induction by a governor who warns them about the implications of absconding. In addition, a protocol has been introduced with Thames Valley Police to prosecute through the courts all prisoners who abscond. Moreover, significant improvements have been made to the regime with the opening of a job club and two vocational learning centres offering industrial based qualifications in computing and bricklaying. Vocational qualifications have been introduced in catering and horticulture.

John Bercow: To ask the Secretary of State for the Home Department what representations he has received regarding the granting of open conditions to unsuitable prisoners. [25858]

Fiona Mactaggart: There are approximately 5,000 prisoners held in open conditions or resettlement prisons where a significant number of prisoners spend time outside the prison. To establish what representations there have been would therefore involve disproportionate cost. Prisoners are moved to open conditions only after a rigorous risk assessment, which determines whether a prisoner is suitable for open conditions.

Private Members' Bills

Mr. Amess: To ask the Secretary of State for the Home Department on what occasions since 1997 Ministers from his Department *(a)* authorised parliamentary counsel to assist in preparing amendments to private Members' Bills on behalf of other private Members and *(b)* authorised officials to instruct parliamentary counsel to prepare amendments which were subsequently passed to private Members. [20092]

Mr. Charles Clarke: The information requested is not collected.

Road Safety

Mike Penning: To ask the Secretary of State for the Home Department how many unpaid speeding fines in Hertfordshire are owed by people who are not British citizens. [25748]

Paul Goggins: Information is not collected centrally on the nationality of offenders who are given speeding fines.

Mrs. Dunwoody: To ask the Secretary of State for the Home Department how many road safety violations by *(a)* domestic and *(b)* non-domestic heavy goods vehicles in England and Wales were recorded by the police in (i) 2002, (ii) 2003 and (iii) 2004. [25133]

Paul Goggins: Information collected by my Department on motoring offences recorded by the police does not distinguish between the characteristics of the vehicles involved.

Sex Offenders

Andrew Rosindell: To ask the Secretary of State for the Home Department what punishments are available for serious sex offenders. [25263]

Paul Goggins: The punishments available for serious sexual offences are set out in the Sexual Offences Act 2003.

They include the possibility of life imprisonment for the offences of rape, rape of a child under 13 and assault by penetration; up to 14 years imprisonment for sexual activity with a child and trafficking for sexual exploitation; and up to 10 years for meeting a child following sexual grooming and engaging in sexual activity in the presence of a child.

The Act can be accessed through www.ospi.gov.uk/acts/acts2003/20030042.htm

Andrew Rosindell: To ask the Secretary of State for the Home Department how many sex offenders have been in prison in each year since 1997. [25264]

Fiona Mactaggart: The requested information for England and Wales is given in the following table, as recorded on the Prison Service IT system.

Population of sex offenders in prison establishments by type of custody and year England and Wales 30 June

	Remand	*Immediate custodial sentence*
1997	629	4,077
1998	761	4,795
1999	702	4,946
2000	588	5,090
2001	492	5,107
2002	590	5,294
2003	559	5,540
2004	623	5,773

Terrorism

Mr. Holloway: To ask the Secretary of State for the Home Department how many of the people held for more than seven days under Schedule 8 to the Terrorism Act 2000 were arrested for activity related to terrorism in Northern Ireland. [24053]

Mr. Charles Clarke: Police records show that since 20 January 2004, when the maximum period available to police to detain suspects without charge under the Terrorism Act 2000 was increased from seven to 14 days, 25 persons have been detained in Great Britain for periods between seven and 14 days. I can confirm that none of these were for activity related to terrorism in Northern Ireland. The Northern Ireland Office has confirmed that the same question has been asked to them and they will reply regarding arrests there.

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department if he will place in the Library the opinion he received from the Attorney General on whether the 90-day detention provisions of the Terrorism Bill are compatible with the European Convention on Human Rights. [25612]

Mr. Charles Clarke *[holding answer 7 November 2005]:* It has been a longstanding convention over many Governments that the fact that the Law Officers have or have not advised on any matter and the content of their advice should not be disclosed.

Mr. Bellingham: To ask the Secretary of State for the Home Department if he will make a statement on the number of criminal prosecutions that have resulted from arrests made under section 41 of the Terrorism Act 2000. [16376]

Mr. Charles Clarke: The latest figures requested are published on the Home Office website: www.homeoffice.gov.uk/security/terrorism-and-the-law/terrorism-act/

These statistics have been supplied by the police. They are compiled from recent police records and are therefore subject to adjustment as cases go through the system.

Many terrorist offences are outside the scope of the Terrorism Act. Offences such as murder, grievous bodily harm, use of firearms or explosives are covered by general criminal law. A simplistic quote from the Terrorism Act statistics is therefore not the best way to evaluate the success of the police and the security services.

Mr. Khan: To ask the Secretary of State for the Home Department what research his Department undertook on the nature of activities which constitute glorifying, exalting or celebrating the instigation of acts of terrorism in drawing up the draft Terrorism Bill. [16923]

Mr. Charles Clarke: The Terrorism Bill which was introduced on 12 October, makes it clear that the offence of glorification of terrorism is only committed if a person making a statement believes, or has reasonable grounds for believing that the statement in question will be seen by those to whom it is made as a direct or indirect inducement to commit acts of terrorism.

Mr. Oaten: To ask the Secretary of State for the Home Department if he will publish the advice he has received from the Attorney General regarding the legality of the Government's proposed anti-terrorism legislation. [18259]

Mr. Charles Clarke: It has been the practice of successive Governments not to disclose the content of Law Officer advice or whether or not such advice exists.

Visas

Mr. Benyon: To ask the Secretary of State for the Home Department what proportion of applications for indefinite leave to remain under the ancestral visa scheme has been successful in each of the last five years, broken down by Commonwealth country of origin. [25344]

Mr. McNulty: Information on the number of decisions made on UK ancestry indefinite leave to remain applications is only available since 2003. The number of decisions made since 2003 and the total number of applicants granted settlement is given in the accompanying table.

Decisions on UK ancestry[1] applications for settlement, by nationality, excluding dependants, 2000–04[2]—United Kingdom

Geographical region and nationality	Number of decisions					Total granted

Work Permits

David Davis: To ask the Secretary of State for the Home Department how many work permits have been issued in each of the last eight years. [21849]

Mr. Charles Clarke: The number of work permits issued by Work Permits (UK) in each of the last eight years is displayed in the table. These figures exclude approvals of extension and change of employment applications for existing permit holders.

	Total
1997	31,734
1998	37,564
1999	41,965
2000	64,570
2001	85,144
2002	88,622
2003	93,021
2004	105,205
Total	547,825

Worker Registration Scheme

Jon Cruddas: To ask the Secretary of State for the Home Department (1) how many people have come to the UK under the Worker Registration Scheme; [19159]

(2) if he will list employment sectors in which successful applicants under the Worker Registration Scheme are employed. [19160]

Mr. McNulty: On 1 May 2004 the Government set up the Worker Registration Scheme (WRS) to regulate Accession eight nationals' access to the labour market and to restrict access to benefits.

The Government committed to publish data from the Worker Registration Scheme (WRS) on a quarterly basis. The latest quarterly statistics for the period 1 May 2004 to 30 June 2005 were published on 23 August 2005. The report includes the number of people registering on the WRS and gives details of the employment sectors in which Accession nationals are registered.

A copy of the report is available on the IND website: http://www.ind.homeoffice.gov.uk/ind/en/home/0/reports/accession_monitoring.html

Youth Justice Board

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on the study undertaken by the Youth Justice Board with the courts to explore the factors that influence sentences. [26672]

Ms Harman: I have been asked to reply.

The Youth Justice Board has commissioned research which seeks to identify:

(a) best practice by Youth Offending Teams in the provision of pre-sentence reports to judges and magistrates when young people under 18 are sentenced;

(b) the factors influencing custodial or community sentences being given, especially in cases which are on the "cusp" of custody; and to

(c) understand any regional differences in sentencing in cases which appear similar.

The research is being undertaken by the Policy Research Bureau working with MACRO. It is taking place in 16 Youth Offending Team areas and includes interviews with magistrates and judges in those areas. It is similar in nature to earlier research undertaken in the adult criminal courts by Professor Mike Hough, Dr. Andrew Millie and Dr. Jessica Jacobson. Their findings were published in the report "The Decision to Imprison, Sentencing and the Prison Population" in 2003 by the Prison Reform Trust. It also supports a three year longitudinal study being undertaken by RDS section of the Home Office, using court records to explore the factors influencing sentencing decisions within both adult and youth courts. This study will be tracked to examine the relationship between offender characteristics, sentence content and outcome.

It is expected that the Youth Justice Board will publish the findings of the current research in the autumn of 2006.

CONSTITUTIONAL AFFAIRS

Agency Staff

Mr. Llwyd: To ask the Minister of State, Department for Constitutional Affairs how many agency staff are employed by her Department; and what the cost of employing them was in the last year for which figures are available. [27506]

Bridget Prentice: The Department has a national contract for the provision of agency workers. Information regarding the number of agency workers provided to the Department under this contract and the associated expenditure is provided as follows.

Average number of agency workers for the financial year 2004-05 was 395.

Expenditure for employing agency workers for the financial year 2004-05 was £8,688,141.

Information relating to workers employed through other agencies is not held centrally and can be provided only at disproportionate cost.

Ballot Papers

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 2 November 2005, *Official Report*, column 1165W, on ballot paper descriptions, whether *(a)* the five descriptions will allow a generic locality description to be registered permitting a candidate to use a description comprising constituency name and party name in each constituency and *(b)* only a specific named locality may be registered. [27228]

Ms Harman: Further to my answer of 2 November, under clause 47 of the Electoral Administration Bill registered political parties would be permitted to register up to five descriptions with the Electoral Commission. There is no provision for a generic locality description. It would be for the party to decide whether they wished to register a description including a specific named locality.

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 2 November 2005, *Official Report*, column 1165W, on ballot paper descriptions, for what reasons the number of descriptions is limited to five. [27229]

Ms Harman: Clause 47 of the Electoral Reform Bill provides for there to be up to five alternative party descriptions registered with the Electoral Commission. This implements the Electoral Commission's recommendation in "Standing for election in the United Kingdom", published in June 2003. It would allow one description each for England, Northern Ireland, Scotland, Wales and the United Kingdom as a whole and would simplify the use of party descriptions for the benefit of candidates and returning officers.

Bills (Supporters)

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs if she will list right hon. and hon. Members who *(a)* presented and *(b)* supported the Bills for the (i) Representation of the People Act 2000, (ii) Registration of Political Parties Act 1998, (iii) Political Parties Elections and Referendums Act 2000, (iv) Elections Act 2001 and (v) Election Publications Act 2001. [25591]

Ms Harman: The information requested is as follows:

(i) Representation of the People Act 2000

Presented by: Mr. Secretary Straw

Supported by: The Prime Minister, Mr. Secretary Prescott, Mr. Secretary Reid, Mr. Secretary Murphy, Mr. Secretary Mandelson and Mr. Mike O'Brien

(ii) Registration of Political Parties Act 1998

Presented by: Mr Secretary Straw

Supported by: The Prime Minister, Mr. Secretary Prescott, Mr. Chancellor of the Exchequer, Secretary Margaret Beckett, Mr. Secretary Dewar, Mr. Secretary Davies, Mr. George Howarth.

(iii) Political Parties Elections and Referendums Act 2000

Presented by: Mr. Secretary Straw

Supported by: The Prime Minister, Mr. Secretary Prescott, Mr. Secretary Byers, Mr. Secretary Reid, Mr. Secretary Murphy, Mr. Secretary Mandelson and Mr. Mike O'Brien.

(iv) Elections Act 2001

Presented by: Mr. Secretary Straw

Supported by: The Prime Minister, Mr. Chancellor of the Exchequer, Mr. Secretary Prescott, Mr. Secretary Murphy, Mr. Secretary Reid and Mr. Mike O'Brien.

(v) Election Publications Act 2001

Presented by: Lord Bassam of Brighton.

Call Centres

Mr. Laws: To ask the Minister of State, Department for Constitutional Affairs how many call centres were run by her Department and its agencies in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; and how many and what proportion of calls (i) were handled by an adviser, (ii) were received but abandoned and (iii) received an engaged tone in each year. [23309]

Ms Harman: Two call centres are currently operated by the Department for Constitutional Affairs or its agencies.

(i) The Asylum and Immigration Tribunal Call Centre, Leicester.

(ii) The Magistrates Court Fines Collection Call Centre., Gwent.

The following tables set out the performance information sought for both centres.

Asylum and Immigration Tribunals Call Centre	*2003–04*	*2004–05*	*2005–06 to date*
Calls received	289,941	262,957	177,695
Calls handled by an adviser	282,687	253,826	158,393
Calls received but abandoned	7,254	9,131	19,302
Engaged tone received by caller	[1]—	[1]—	[1]—

[1] Information not available

Gwent Magistrates Fines Centre	*2003–04*	*2004–05*	*2005–06 to date*
Calls received	[1]—	[1]—	3,620
Calls handled by an adviser	[1]—	[1]—	2,087
Calls received but abandoned	[1]—	[1]—	1,533
Engaged tone received by caller	[1]—	[1]—	[2]—

[1] New monitoring software was only installed recently. No information is available prior to 1 April 2005.
[2] Information not available

Following the installation of monitoring software, the high abandonment rate at Gwent Magistrates Court Fines Centre was identified and investigated, with remedial measures put in place on 2 October 2005. The number of lines has been increased threefold (from six to 21) and the situation is being closely monitored to ensure performance improves.

Claims Farmers

Dr. Kumar: To ask the Minister of State, Department for Constitutional Affairs what measures are being taken to regulate claims farmers. [26485]

Ms Harman: The Compensation Bill, introduced in the House of Lords on 2 November 2005, sets out a statutory framework for the regulation of claims management services.

The legislation will require those providing claims management services to be authorised by a regulator and abide by rules and a code of conduct, raising standards of service for the consumer. It will also provide a clear mechanism for making complaints.

Consultancy Fees

Mr. Llwyd: To ask the Minister of State, Department for Constitutional Affairs how much was spent by her Department on consultancy fees in *(a)* 2004–05 and *(b)* 2005–06; what the 2006–07 projected figure is; and if she will make a statement. [27507]

Bridget Prentice: Information on expenditure on consultancy is not held centrally by my Department but is collected on an annual basis. The data collection exercise relating to 2004–05 is currently under way, and, on completion, details will be sent to the hon. Member.

Projected figures for 2005–06 and 2006–07 could be obtained only at disproportionate cost.

Elections

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs pursuant to her answer of 2 November 2005, *Official Report*, column 1165W, on independent candidate descriptions, what assessment she has made of the impact of clause 23 of the Electoral Administration Bill on the ability of independent candidates to run as Independent Labour, Independent Conservative or Independent Liberal Democrat. [27235]

Ms Harman: Clause 23 of the Electoral Administration Bill states that it would be a matter for the returning officer, having regard to any guidance issued by the Electoral Commission, to decide whether a description proposed by an independent candidate would be permissible. However, it should be noted that clause 23 specifies that the description must not be the same as the name or description of a registered political party, nor be so similar as to confuse with or lead an elector to associate the candidate with a registered political party. The intention therefore is that names such as those suggested would not be permissible.

Mr. Andrew Turner: To ask the Minister of State, Department for Constitutional Affairs (1) what the elections timetable, including the postal votes timetable, is for each type of election; [25483]

(2) what electoral timetable is proposed under the Electoral Administration Bill for each type of election, including for postal votes. [25919]

Ms Harman: The full details of national, local, and European election timetables can be found in Section D of the independent Electoral Commission's guidance, 'Managing Electoral Services', published in August 2005. Section D of the guidance can be found on the Commission's website at: http://www.electoralcommission.gov.uk/files/dms/SectionD-Electionmanagement_18105-6672_E_.pdf

The Electoral Administration Bill will remove Maundy Thursday as a disregarded day—dies non—for the purposes of all national and local elections, except local elections in Scotland. The Bill makes no further changes to either national or local electoral timetables.

Chris Ruane: To ask the Minister of State, Department for Constitutional Affairs how much was raised by each local authority from the sale of electoral registers in each of the past 10 years. [26416]

Ms Harman: Electoral services are delivered by local electoral registration officers and returning officers. The information sought is held by individual local authorities, and is not collected by central Government.

Chris Ruane: To ask the Minister of State, Department for Constitutional Affairs what the recommended electoral registration rate is for each local authority. [26412]

Ms Harman: At present, there are no such recommended rates set centrally. The Electoral Administration Bill currently before Parliament will allow for performance standards for the delivery of electoral services in order to promote best practice and consistency in the delivery of these services. Performance standards may be set for electoral registration officers in the performance of their functions. The Electoral Commission will be responsible for setting performance standards following consultation with the Secretary of State and any other person it thinks appropriate.

Expert Witnesses

Mrs. Curtis-Thomas: To ask the Minister of State, Department for Constitutional Affairs if she will take steps to accredit medical experts who give evidence in trials. [26632]

Ms Harman: It would not be appropriate for a medical expert to be certified as meeting required standards for the purpose of giving evidence in a specific area of expertise, given the wide range of subject areas and substrands on which such a witness might be called to give expert testimony. It is for the trial judge to determine if any witness being called to give expert evidence, including medical evidence, has acquired by study or experience sufficient knowledge of the particular subject to render his opinion of value in resolving the issues before the court.

Government Websites

Charles Hendry: To ask the Minister of State, Department for Constitutional Affairs (1) what steps the Government are taking to ensure that .gov.uk websites attain the AAA standard of accessibility; and what target date has been set to meet these standards; [26994]

(2) which Government websites, have achieved the AAA standard as specified in the world wide web consortium's web content accessibility guidelines. [27102]

Mr. Jim Murphy: I have been asked to reply.

There is no centralised monitoring of UK Government websites for compliance with the W3C's "Web Content Accessibility Guidelines" and the accessibility levels they define.

The Cabinet Office published the "Guidelines for UK Government websites" in 2002 to assist public sector web developers with the application of the World Wide Web Consortium's Web Content Accessibility guidelines. The Department has extensively promoted accessibility awareness and continues to keep web accessibility standards and technical developments under review. Responsibility for the application of accessibility guidelines rests with individual Government Departments, agencies and local authorities.

Hereditary Peers

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 2 November 2005, *Official Report*, column 1166W, on hereditary peers, whether the Government plan to lower the candidacy age for hereditary peer by-elections to 18. [27230]

Ms Harman: The Government made clear how they intend to proceed with the reform of the Lords in their 2005 manifesto, which includes legislation to remove the remaining hereditary peers. While there remain a wide range of views on the proper way forward, it is

important to determine the part the second chamber plays in the parliamentary processes before other issues, including membership qualifications.

Judges

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs how many serving judges were originally *(a)* barristers and *(b)* solicitors. [26629]

Ms Harman: The table gives a breakdown of the former professions of the judicial officers currently in post in the courts and for the Lords of Appeal in Ordinary. The first part of the table shows judges who hold full-time appointments, while the second part shows the present professions of those judges who hold fee-paid appointments. Figures have been obtained from the DCA Judicial Database and reflect the information held on the system.

Part 1—Full-time judicial officers

Serving judges/gender	*Former barristers*	*Former solicitors*	*Total*
Lords of Appeal in Ordinary			
Women	1	0	1
Men	11	0	11
Total	12	0	12
Lord Chief Justice

Magistrates Courts (Fines)

Mr. Jenkins: To ask the Minister of State, Department for Constitutional Affairs how much has been collected in fines at magistrates courts in Staffordshire in each of the last five years. [26162]

Ms Harman: Information on fines imposed and collected is provided by the 42 HMCS Areas in England and Wales. The table shows the total amounts collected and the payment rate in Staffordshire for the last five financial years:

Financial year	*Collections (£)*	*Payment Rate (percentage)*
2000–01	5,961,893	90
2001–02	4,553,633	73
2002–03	4,533,341	57
2003–04	4,254,355	78
2004–05	4,856,129	87

Prior to April 2003, confiscation order and civil amounts were also included in enforcement data in addition to fines, and direct comparisons with previous years are not therefore possible. The payment rate for 2004–05 demonstrates the improvement in performance in relation to the enforcement of fines made since the beginning of 2003–04.

Mentors

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs how many mentors will be *(a)* identified and *(b)* trained by her Department in the next two years. [26631]

Ms Harman: The Department for Constitutional Affairs has a mentoring scheme for staff which has been in operation since March 2003. The scheme is open to all

staff on a voluntary basis, so no mentors are specifically identified or trained, although staff are encouraged to participate.

The Secretary of State and Lord Chancellor announced on 2 November that a pilot judicial mentoring scheme will be established in the north-east, where circuit judges will mentor district judges who want to apply for a more senior judicial post. My Department is working with the judiciary to decide an appropriate number of mentor judges to participate in the mentoring pilot and to receive appropriate training.

Parliamentary Boundaries

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what the timetable is for the introduction of the order to amend parliamentary boundaries in Wales; and whether the revised boundaries will be in operation for the forthcoming Welsh Assembly elections. [27234]

Ms Harman: The Boundary Commission for Wales submitted its report on Welsh parliamentary boundaries to the Government in January this year. We hope to lay the report and associated order before Parliament by the end of the year. The revised boundaries will come into force for 2007 Welsh Assembly elections.

Policy Development Grant

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 2 November 2005, *Official Report*, column 1168W, on policy development grant, whether the Government plan to change the audit requirements for policy development grant to reflect its decision to treat and report the grant as a donation. [27231]

Ms Harman: The decision to treat and report the policy development grant as a donation should have no effect on the audit requirements of the scheme.

Political Party Funding

David Taylor: To ask the Minister of State, Department for Constitutional Affairs what guidelines cover financial donations to political parties. [28470]

Ms Harman: Part IV of the Political Parties, Elections and Referendums Act 2000 specifies the controls on donations to registered political parties and their members. It imposes restrictions on the sources of donations so as to prohibit foreign and anonymous donations to political parties and make registered parties subject to reporting requirements in respect of donations above a certain value. The Act also provides that the Electoral Commission regulate the system. They secure compliance by regulated parties, provide advice, guidance and assistance to individuals and regulated bodies.

Postal Voting

Mr. Hollobone: To ask the Minister of State, Department for Constitutional Affairs what the Department's policy is on all-postal vote elections. [27371]

Ms Harman: I refer the hon. Member to the reply I gave on 7 June 2005, *Official Report*, column 535W.

Public Authorities

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs if she will designate the English Regional Chambers as public authorities for the purposes of the Freedom of Information Act 2000. [27232]

Ms Harman: There are three ways in which a body can be a public authority for the purposes of the Freedom of Information Act 2000:

it can be listed in Schedule 1 to the Act;

it can be designated as a public authority by order under section 5 of the Act; or

it can be a publicly-owned company as defined by section 6 of the Act.

The English Regional Chambers are not listed in schedule 1 to the Act and are not publicly owned companies. No organisation has yet been designated by order under section 5 of the Act. The chambers are therefore not covered by the Act. They do not meet the conditions specified in section 4 of the Act and therefore cannot be added to schedule 1. The only way that they can be brought under the Act is by being designated by order under section 5 as a public authority for the purposes of the Act.

The scope of the power in section 5 is very wide ranging, enabling the designation of bodies that appear to the Secretary of State to be exercising functions of a public nature and those that are providing under contract with a public authority services whose provision is a function of that authority.

We are currently building up evidence of how freedom of information has impacted on the bodies that meet the existing criteria as specified in sections 4 and 6 of the Act. We feel that it is important to gain such evidence to inform consideration of how section 5 might be used.

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what guidelines she has issued to *(a)* Network Rail, *(b)* the Association of Train Operating Companies, *(c)* individual train operating companies, *(d)* the Office of Rail Regulation, *(e)* the Health and Safety Executive, *(f)* the Strategic Rail Authority, *(g)* the Rail Passengers Council, *(h)* the passenger transport authorities, *(i)* the International Rail Regulator, *(j)* the Channel Tunnel Safety Authority, *(k)* Rail Safety and Standards Board, *(l)* the Rail Accident Investigation Branch and *(m)* the Health and Safety Commission's Railway Industry Advisory Committee on whether they are public authorities for the purposes of the Freedom of Information Act 2000. [27233]

Ms Harman: Specific guidelines have not been issued by the Department of Constitutional Affairs to these bodies on whether they are covered by the Freedom of Information Act 2000.

There are three ways in which a body can be a public authority for the purposes of the Act:

it can be listed in Schedule 1 to the Act;

it can be designated as a public authority by order under section 5 of the Act; or

it can be a publicly-owned company as defined by section 6 of the Act.

As schedule 1 has been amended by order, an update version of Schedule 1 is available on http://www.foi.gov.uk/coverage.htm#schedule1.

My Department has produced general guidance on coverage of the Act, which is publicly available on our website: http://www.foi.gov.uk/coverage-guide.htm.

Voter Turnout

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs what steps the Government are taking to increase voter turnout in the next *(a)* local and *(b)* general elections. [26235]

Ms Harman: Tacking low turnout at elections is a complex issue and one we cannot deal with through legislation alone. However, some of the measures in the Electoral Administration Bill—particularly giving returning officers the power to promote elections and providing funding for them to do so, and also enabling people to register after an election has been called—should help to improve turnout. These measures will apply to all elections.

The Electoral Commission also has a statutory responsibility to promote public awareness of elections.

WORK AND PENSIONS

Access to Work Scheme

Mr. Betts: To ask the Secretary of State for Work and Pensions what the average period of time taken to process travel cost reimbursement under the Access to Work scheme was in the last period for which figures are available; how many claims are awaiting payment; and what the *(a)* average and *(b)* total value is of outstanding claims. [15969]

Mrs. McGuire: The majority of Access to Work travel cost claims are processed by Regional Access to Work Business Centres on the day they are received, with an average national processing time of 1.4 days.

The majority of Access to Work Business Centres do not have 'outstanding' claims. On the day information was collated [1] there were 485 claims awaiting payment, and these claims would then be processed on the day of receipt or on the following day—in an average of 1.4 days. The average value of the travel claims awaiting payment was £201.42, and the total value of those claims was £97,690.65.

Once the paperwork has been processed by the Business Centres, claims are sent to an external contractor, Liberia, for payment. Liberia has an operating agreement to pay claims within five working days. In the three months to the end of August 2005, 24,200 claims were processed, of which 99.2 per cent. were processed within the terms of the operating agreement.

DWP Finance Division

Disability and Rehabilitation Division

Benefits

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many *(a)* incapacity benefit and *(b)* severe disability allowance claimants there were in each quarter since February 2003, broken down by Jobcentre Plus district. [24080]

Mrs. McGuire: The information has been placed in the Library.

Mr. Lancaster: To ask the Secretary of State for Work and Pensions (1) how many incapacity benefit claims from the North East Milton Keynes Region were *(a)* registered and *(b)* successful in each year since 2000; [17018]

(2) what percentage of incapacity benefit claims were successful in each of the last three years. [17019]

Mrs. McGuire: Information is not available at constituency level. The available information is in the table.

Incapacity benefit claims awarded as a percentage of those received: Great Britain

Financial year	*Claims awarded as a % of claims received*
July 2002-March 2003	35.15
April 2003-March 2004	33.76
April 2004-March 2005	34.50
April 2005-August 2005	34.49

Notes:

1. Information is not available prior to July 2002.
2. The most recent available information is August 2005.
3. "Claims awarded" are those claims where an actual amount of benefit was awarded.

Source:

Central Data Unit for figures up to and including July 2004 and Management Information Systems Programme 04 (MISP04) from August 2004 to August 2005.

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions what percentage of incapacity benefit claimants have been receiving the benefit for more than five years; and what percentage this was in May 1997. [22191]

Mrs. McGuire: Incapacity benefit was introduced in April 1995; five year duration figures are not available for 1997. As at May 2005, 47.6 per cent. of claimants had been claiming for five years or more.

Dr. Starkey: To ask the Secretary of State for Work and Pensions what mileage rate is used to reimburse incapacity benefit claimants travelling to a medical test centre; when the rate was set; when he last reviewed the rate; and what recent assessment he has made of the impact of the change in petrol prices on the adequacy of the rate. [24421]

Mrs. McGuire: A rate of 6.5p per mile is paid towards meeting the fuel costs of customers attending a medical examination centre for an incapacity benefit medical examination when public transport is not available. This rate, which was set in 1998, is currently being reviewed.

Roger Berry: To ask the Secretary of State for Work and Pensions how many people under the age of 60 years stopped receiving *(a)* incapacity benefit and *(b)* severe disablement allowance due to death in each month of the last five years. [24470]

Mrs. McGuire: The figures are not available for each month. The quarterly information is in the table.

Claimant off-flows due to death of claimant: at quarters shown	*Number*
Incapacity benefit	
May 2001	4,600
August 2001	4,300
November 2001	4,600
February 2002	4,400
May 2002	3,900
August 2002	4,300
November 2002	4,700
February 2003	4,600
May 2003	4,000
August 2003	4,100
November 2003	4,400
February 2004	4,900

February 2005	500
May 2005	700

[1] Figures are subject to a high degree of sampling error and should only be used as a guide.

Notes:

1. Figures are rounded to the nearest hundred.
2. Incapacity benefit figures include incapacity benefit credits-only cases.
3. Figures for the latest quarter do not include any late notifications and are subject to major changes in future quarters.
4. Earlier quarters have been updated to include late notifications.

Source:

DWP Information Directorate, 5 per cent. samples.

Geraldine Smith: To ask the Secretary of State for Work and Pensions how many people are claiming incapacity benefit in Morecambe and Lunesdale. [24557]

Mrs. McGuire: As at May 2005, there were 5,300 people claiming incapacity benefit or severe disability allowance in the Morecambe and Lunesdale parliamentary constituency.

Call Centres

Mr. Laws: To ask the Secretary of State for Work and Pensions how many call centres were run by his Department and its agencies in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; and how many and what proportion of calls (i) were handled by an adviser, (ii) were received but abandoned and (iii) received an engaged tone. [23293]

Mrs. McGuire: The information requested is in the following table:

	2003–04	*2004–05*	*2005–06*
Number of call centres	153	98	[1]85
Number of calls handled by an adviser	29,437,890	38,481,314	18,564,666
Number of calls abandoned	3,927,351	6,342,046	4,071,625
Proportion of calls abandoned (%)	11.7	14.1	17.9
Number of calls receiving the engaged tone	[2]21,985,562	[3]29,009,230	[4]509,446
Proportion of calls receiving the engaged tone (%)	39.7	30.9	2.2

[1] The number of centres is reducing rapidly as small local telephony teams, particularly in Jobcentre Plus, are being replaced by larger call and contact centres.

[2] This excludes 19,978,016 calls to the DLA/AA helpline that received the engaged tone during 2003–04.

[3] This excludes 18,526,578 calls to the DLA/AA helpline that received the engaged tone during 2004–05.

[4] The 22,403 calls to the DLA/AA helpline that have received the engaged tone during 2005–06.

Child Poverty

Mr. Laws: To ask the Secretary of State for Work and Pensions if he will make a statement on progress towards meeting the Government's 2005 child poverty targets. [21960]

Margaret Hodge: The Government has set an ambitious target to reduce the number of children in low-income households by at least a quarter by 2004–05, as a contribution towards the broader target of halving child poverty by 2010–11 and eradicating it by 2020–21.

Since 1997 the number of children in low-income households has fallen by 700,000 and we are on course to meet the target to reduce the number of children in low-income households by at least a quarter by 2004–05. Data to report on the target will be available in spring 2006.

We have recently published 'Opportunity for all—seventh annual report' that comprehensively describes the Government's strategy and progress in tackling poverty and social exclusion. A copy is available in the Library.

Departmental Estate

Mr. Hollobone: To ask the Secretary of State for Work and Pensions what *(a)* land and *(b)* property his Department owns in Kettering constituency. [24781]

Mrs. McGuire: The Department for Work and Pensions does not own any land or property in the Kettering constituency. The majority of the buildings occupied by DWP have been transferred (for value) to Land Securities Trillium under the terms of the PRIME (Private Resource Initiative for Management of the Estate) contract. We currently occupy one property in Kettering, Derbyshire House in Lower Street.

Departmental Spending

David T.C. Davies: To ask the Secretary of State for Work and Pensions how much his Department spent on items of art in 2004–05. [23459]

Mrs. McGuire: The Department for Work and Pensions has had no expenditure on items of art in 2004–05.

Departmental Staff

Mr. Gibb: To ask the Secretary of State for Work and Pensions what assessment he has made of the *(a)* literacy and *(b)* numeracy skills of new recruits to his Department. [21006]

Mrs. McGuire: Literacy and numeracy skills are assessed as a mandatory part of the recruitment process. Applicants are required to pass literacy and numeracy tests that have been chosen or designed for the Department based on an analysis of the requirements of our jobs.

Mr. Gibb: To ask the Secretary of State for Work and Pensions what proportion of new recruits to his Department do not have a level 2 qualification in English and mathematics. [23765]

Mrs. McGuire: This information is not available.

Mr. Gibb: To ask the Secretary of State for Work and Pensions what methods of assessment of *(a)* literacy and *(b)* numeracy skills are used as part of the recruitment process by employees of his Department. [23798]

Mrs. McGuire: Literacy and numeracy skills are assessed through psychometric tests which have been chosen or designed specifically for the Department.

DNA-related Work

Mr. Laws: To ask the Secretary of State for Work and Pensions how many firms are being assessed by *(a)* his Department and *(b)* its agencies for DNA-related work; and if he will make a statement. [25227]

Mrs. McGuire: The Department for Work and Pensions and its agencies are not currently assessing any firms, as a part of the contracting process, for DNA-related work. However, the Health and Safety Executive (a DWP non-departmental public body) regularly assess firms registered to carry out DNA-related work under the Genetically Modified Organisms (Contained Use) Regulations 2000.

Jobcentres

Mr. Stephen O'Brien: To ask the Secretary of State for Work and Pensions what assessment he has made of the effect of changes in the funding of Jobcentre Plus on the number of *(a)* directly employed staff and *(b)* contracted staff. [25173]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Mr. Stephen O'Brien, dated 14 November 2005:

The Secretary of State has asked me to reply to your question concerning what assessment he has made of the effect of changes in the funding of Jobcentre Plus on the number of directly employed staff and contracted staff. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

At 1 March 2004, Jobcentre Plus employed the equivalent of 80,897 full time staff. At the end of September 2005, this figure has been reduced to 72,835 full time equivalents.

Separate information on the number of staff contracted to work for Jobcentre Plus through agencies or as consultants is not held.

I hope this is helpful.

Mental Health

Mrs. Maria Miller: To ask the Secretary of State for Work and Pensions how many people living in *(a)* Basingstoke, *(b)* Hampshire and *(c)* Great Britain who are not working due to mental health problems are in receipt of (i) incapacity benefit, (ii) income support and (iii) incapacity benefit and income support. [26203]

Mrs. McGuire: Figures are not available for income support-only cases by diagnosis. The available information is in the table.

Incapacity benefit (IB) and severe disablement allowance (SDA) claimants with a diagnosis in the 'mental and behavioural disorders' category at May 2005

	All IB/SDA cases with a mental and behavioural disorder diagnosis	*IB/SDA with no income support*	*IB/SDA with income support*
Great Britain	1,084,400	493,800	590,600
Hampshire	13,000	6,600	6,400
Basingstoke parliamentary constituency	1,000	600	400

Notes:
1. Figures are rounded to the nearest hundred. Totals may not sum due to rounding.
2. 'Claimant' figures include all incapacity benefit and severe disability allowance (including incapacity benefit credits only cases).
3. 'Hampshire' includes the following local authorities: Basingstoke and Deane, East Hampshire, Eastleigh, Fareham, Gosport, Hart, Havant, New Forest, Rushmoor, Test Valley and Winchester.

Source:
DWP Information Directorate, Work and Pensions Longitudinal Study 100 per cent. data.

Parliamentary Questions

Malcolm Bruce: To ask the Secretary of State for Work and Pensions when he will answer the question reference 22185, tabled on 24 October by the hon. Member for Gordon. [27873]

Mrs. McGuire: An answer was given on 11 November.

Pathways to Work

Mr. Laws: To ask the Secretary of State for Work and Pensions how many and what proportion of the *(a)* new recipients and *(b)* stock of recipients of incapacity benefit in (i) Pathways to Work pilot areas and (ii) the UK have moved into sustained employment in each month since the Pathway pilots were launched. [23681]

Margaret Hodge: It is too early in the life of the pilots to provide robust information on sustainability.

This will be examined as part of the evaluation of the Pathways to Work pilots and we will publish this information once it becomes available.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many and what percentage of *(a)* incapacity benefit and *(b)* severe disability living allowance claims have been terminated in the UK excluding the Pathways to Work pilot areas in each quarter since the first pilot areas came into operation. [27244]

Mrs. McGuire: The information is in the tables.

Number of incapacity benefit claims that have been terminated in the UK excluding Pathways to Work pilot areas

Quarter ending	All terminations (Thousand)	Terminations outside Pathways to Work areas (Thousand)	Percentage of terminations outside Pathways to Work areas
November 2003	180.5	173.1	95.9
February 2004	165.7	158.7	95.8
May 2004	168.5	151.2	89.7
August 2004	170.7	153.3	89.8
November 2004	170.8	154.7	90.6
February 2005	171.9	155.7	90.6
May 2005	128.1	115.9	90.5

Number of severe disability allowance claims that have been terminated in the UK excluding Pathways to Work pilot areas

Quarter ending	All terminations (Thousand)	Terminations outside Pathways to Work areas (Thousand)	Percentage of terminations outside Pathways to Work areas
November 2003	3.5	3.4	97.7
February 2004	2.8	2.7	93.7
May 2004	2.4	2.2	91.7
August 2004	2.9	2.8	97.9
November 2004	2.6	2.4	93.1
February 2005	3.1	2.8	91.5
May 2005	1.3	1.2	93.8

Notes:

1. Figures are shown in thousands and rounded to the nearest hundred. Totals may not sum due to rounding. Percentages are shown to one decimal place.
2. Figures for the latest quarter do not include any late notifications and are subject to major changes in future quarters.
3. Earlier quarters have been updated to include late notified terminations, including terminations for state pension.
4. Pathways to work pilot areas were introduced in October 2003 and updated in April 2004. The areas relevant to each quarter have been used i.e Bridgend, Renfrewshire and Derbyshire for all quarters, plus Gateshead and South Tyneside, Somerset, Essex and East Lancashire from quarter ending May 2004.

DWP Information Directorate, 5 per cent. Samples

Pensions

Mr. Laws: To ask the Secretary of State for Work and Pensions what percentage of *(a)* newly retired women, *(b)* retired women, *(c)* newly retired men and *(d)* retired men are eligible for a full state pension in their own right. [18635]

Mr. Timms: The available information is in the table.

Great Britain-financial year 2005–06	Percentage entitled to a full basic state pension in their own right
Newly retired women	30
Retired women	47
Newly retired men	85
Retired men	87

Notes:

1. Percentages are rounded and relate to the pensioner population.
2. "Full basic state pension" equals 100 per cent. entitlement and includes those who are entitled to a full basic state pension based fully or partly on their late or former spouse's contribution records. It also includes those who are entitled to a full basic state pension but choose to defer it.
3. "Newly retired" means those reaching state pension age in 2005–06.
4. "Retired" means all those over state pension age including those who are "newly retired".

Source:

Government Actuary's Department

Remploy

Dr. Iddon: To ask the Secretary of State for Work and Pensions what percentage of the total work force of Remploy are not disabled. [21712]

Mrs. McGuire: 17 per cent. of total Remploy workforce (including the interwork business) are not disabled.

Source:

Remploy

Dr. Iddon: To ask the Secretary of State for Work and Pensions what percentage of turnover is represented by management costs in Remploy. [21714]

Mrs. McGuire: In 2004–05, management costs represented 16.4 per cent. of the company's business turnover.

Dr. Iddon: To ask the Secretary of State for Work and Pensions how many shop floor workers have proceeded to management grades in Remploy since 1997. [21715]

Mrs. McGuire: Since April 1997, 129 Remploy shop floor workers have moved into management grades within the company businesses (excluding Remploy Interwork).

Sema/Atos Origin

Lynne Jones: To ask the Secretary of State for Work and Pensions what assets were transferred to Sema/Atos Origin in the 1998 Benefits Agency Medical Services Contract; whether *(a)* offices and *(b)* other premises were transferred assets in that contract; and what assets were transferred to Atos Origin in the 2005 Benefits Agency Medical Services Contract. [24943]

Mrs. McGuire: Under the terms of the 1998 outsourcing contract all assets previously owned and used by Benefits Agency to deliver the medical services were offered to Sema (now Atos Origin) as the successful bidder for purchase.

Sema purchased assets that included all office furniture, IT hardware and office and medical equipment located in Medical Services Centres and Medical Service Examinations Centres located throughout the country.

A contractual provision was made for Sema to use existing DWP and other Government Department

premises to deliver the medical services. Sema/ Atos Origin occupy these premises under a formal lease arrangement.

In 2005 there was no transfer of assets from the Department to Atos Origin under the Medical Services Agreement.

Unum Provident

Harry Cohen: To ask the Secretary of State for Work and Pensions whether his Department has entered into a contract with Unum Provident. [25926]

Mrs. McGuire: DWP has not entered into a contract with Unum Provident.

Winter Fuel Payments

Mr. Jenkins: To ask the Secretary of State for Work and Pensions how many people have received winter fuel payments in *(a)* Tamworth constituency, *(b)* Staffordshire, *(c)* the West Midlands and *(d)* the UK in each year since 1997. [22152]

Mr. Timms: Information relating to the 1997–98 and 1998–99 winters is not available. The information from winter 1999–2000 onwards is in the table. These figures are also available in the Library. Information on payments made in Northern Ireland is a matter for my right hon. Friend, the Secretary of State for Northern Ireland.

Constituency/region	*Payments made*					
	1999–2000	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Tamworth	12,515	14,475	14,845	15,225	15,710	15,940
Staffordshire	138,255	157,750	161,340	165,620	169,930	170,975
West Midlands	935,060	1,033,555	1,043,580	1,059,210	1,073,350	1,065,460
Great Britain	10,084,130	11,105,745	11,201,895	11,348,040	11,468,235	11,401,170

Notes:
1. Totals may not sum due to rounding.
2. Figures are rounded to the nearest five.
3. Local authorities and parliamentary constituencies are assigned by matching postcodes against the relevant ONS postcode directory.

Source:
Information Directorate, 100 per cent. sample.

NORTHERN IRELAND

Agenda for Change

Mark Durkan: To ask the Secretary of State for Northern Ireland which costs of the implementation of "Agenda for Change" will fall to local health and personal social serviee trusts; what additional resources the Department of Health, Social Services and Public Safety plans to provide to those trusts for that purpose; and if he will make a statement. [26755]

Mr. Woodward: The total costs to HPSS organisations of the implementation of "Agenda for Change" in 2005–06 is estimated at some £69 million, although the full effect will vary depending on the details of each trust's circumstances. The Department has made £58.583 million available to health and social services boards, trusts and agencies for the implementation of "Agenda for Change" in the current year 2005–06. Additional funding of £70 million in 2006–07 and £80 million in 2007–08 has been proposed within the draft Budget as published recently.

Antisocial Behaviour

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many antisocial behaviour orders have been issued to individuals from each district council area in the Province. [24865]

Mr. Hanson: I refer the hon. Lady to the reply I gave on 2 November 2005, *Official Report*, column 1220W to her question concerning the number of antisocial behaviour orders issued in each constituency in Northern Ireland. Information is not held centrally on the addresses of individuals.

Arlene Arkinson

Lady Hermon: To ask the Secretary of State for Northern Ireland what recent discussions he has had with the Attorney-General on the case of Arlene Arkinson. [25376]

Mr. Hain: I have written recently conveying my condolences to the Arkinson family and in response to their request for a public inquiry into the handling of Robert Howard's cases by the criminal justice system. The Police Ombudsman and the Lord Chief Justice have both indicated that they are addressing the serious issues affecting their respective areas of responsibility. I have undertaken to consider carefully the different aspects of these cases, including any conclusions the Ombudsman and the Lord Chief Justice may reach. I shall also engage with the Attorney-General before taking a final decision on the request.

Artefacts (Irish Parliament)

Andrew Mackinlay: To ask the Secretary of State for Northern Ireland whether works of art, furniture, books, records and other artefacts are known to be located in *(a)* the Stormont Parliament buildings and *(b)* other locations for which he has ministerial responsibility that were originally (i) located or owned by the United Kingdom Parliament at Westminster and (ii) owned or displayed in the Parliament of Ireland, Dublin, prior to the Act of Union 1801; and if he will make a statement. [22149]

Angela E. Smith: None of the items listed is known to be located in either Parliament buildings, Stormont or other buildings owned or maintained by the Northern Ireland Office or the 11 Departments of the NI Administration.

Teachers (Assaults)

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many assaults there have been on *(a)* male and *(b)* female teachers in the Province in each of the last 10 years. [25788]

Angela E. Smith: The Department of Education does not collect the requested information. However, from the 2002–03 school year, statistics on the reasons for suspensions have been gathered annually from each Education and Library Board. The following table illustrate the number of suspensions for verbal abuse of, and physical attacks on, staff for the 2002–03 and 2003–04 school years:

Number of suspensions for abuse of staff by pupils in the school year

Reason for suspension	*Male*	*Female*	*Total*
2002–03			
Verbal abuse of staff	1,683	343	2,026
Physical attack on staff	320	45	365
2003–04			
Verbal abuse of staff	1,867	403	2,270
Physical attack on staff	281	39	320

It should be noted that these figures relate to the number of individual suspensions not to the number of pupils suspended. A split by gender is not available.

These figures are available on the Department's website at http://www.deni.gov.uk/index/21-pupils_parents-pg/pupils_parents-suspensions_and_expulsions_pg.htm. Statistics are not yet available for the 2004–05 school year.

Brownlow College, Portadown

Lembit Öpik: To ask the Secretary of State for Northern Ireland what the reasons are for the refusal to fund the development proposal for a sixth form proposed by Brownlow Controlled Integrated College in Portadown; and if he will make a statement. [23171]

Angela E. Smith: An examination of the proposal from Brownlow Integrated College did not convince the Department that sufficient consideration and planning had been given to the issue.

The College proposed to initially offer 10 academic 'A' level courses, which are also available in various combinations through other local post-primary and further education providers. The Department has also reservations about the viability of the sixth form and the proposal failed to provide sufficient statistical evidence to support the view that numbers could be sustained.

Business Aid

Dr. Alasdair McDonnell: To ask the Secretary of State for Northern Ireland how many businesses in the Dungannon district have been grant-aided by Invest Northern Ireland during *(a)* 2002–03 and *(b)* 2003–04; how much financial aid was granted; and how many new jobs were created as a result. [25527]

Angela E. Smith: The number of businesses and amount of financial assistance offered within Dungannon district council area during 2002–03 and 2003–04 is presented in table 1 as follows:

Table 1: Businesses assisted by Invest NI in Dungannon district council area

	2002–03	*2003–04*
Number of businesses offered assistance by Invest NI	48	105
Amount of assistance offered (£ million)	2.4	2.7
Net change in employment within Invest NI clients	55	192

Invest NI measures employment change within its active client base. During the years 2002–03 and 2003–04 there was a net change in employ merit of 247.

In addition to this support, 181 offers of assistance were made to new businesses through the Start a Business Programme (SABp), which is jointly administered by Invest NI and Enterprise Northern Ireland. Details are provided in table 2 as follows:

Table 2: Start a Business Programme activity in Dungannon district council area

	2002–03	*2003–04*
Offers of assistance made through the Start a Business Programme	75	106
Amount of assistance offered (£)	60,000	74,250
Jobs expected to be created	135	191

Civil Service

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what the percentage change in civil servant salaries in Northern Ireland has been in each of the last 10 years. [25224]

Angela E. Smith: The annual pay rises awarded to *(a)* the Northern Ireland civil service and *(b)* the Northern Ireland Office in each year since 1995 are as follows:

Percentage

	NICS below the senior civil service	*NIO below the senior civil service*
2004	[1]4.65	3.49
2003	3.67	3.0
2002	5.5	5.5
2001	4.85	4.8
2000	4.5	4.5
1999	3.97	3.5
1998	3.2	3.5
1997	3.2	3.2
1996	5.5	5.7
1995	4.7	4.7

[1] 16 month pay deal

Mr. Lidington: To ask the Secretary of State for Northern Ireland how many civil service posts there were in each Department, agency and non-departmental public body in Northern Ireland at *(a)* April 2004 and *(b)* April 2005; how many such posts he expects there to be in each case by April 2006; and if he will make a statement. [25837]

Angela E. Smith: The number of civil service posts, expressed as whole time equivalent staff-in-post plus vacancies, in each of the 11 Northern Ireland Departments and the NIO, and their agencies at April 2004 and April 2005, and the expected number at April 2006 are set out in the following table.

With the exception of two non-departmental public bodies (highlighted in the table) figures relating to NDPBs have not been included as they are not civil service posts.

Number of civil service posts in Northern Ireland by Department

Department	April 2004		April 2005		April 2006 (expected)	
	Department	Agencies	Department	Agencies	Department	Agencies
Agriculture and Rural Development (DARD)	3,347	803	3,347	803	2,530	767
Enterprise, Training and Investment (DETI)	647	97	640	97	625	94
Education (DE)	720	n/a	720	n/a	692	n/a
Rural Development (DRD)	583	4,625	565	4,570	555	4,412
Environment (DOE)	242	2,555	255	2,587	250	2,567
Finance and Personnel (DFP)	1,635	1,362	1,588	1,269	1,543	1,314
Health, Social Services and Public Safety (DHSSPS)	900	154	887	149	876	149
Culture, Arts and Leisure (DCAL)	213	264	206	263	198	262
Employment and Learning (DEL)	1,748	n/a	1,748	n/a	1,721	n/a
Social Development (DSD)	703	7,560	703	7,292	703	7,025
Office of the First Minister and Deputy First Minister (OFMDFM)	460	n/a	451	n/a	449	n/a
Sub total	11,198	17,420	11,110	17,030	10,142	16,590
Northern Ireland Office (NIO)	2,593	2,337	2,423	2,376	2,513	2,441
Grand total	13,791	19,757	13,533	19,406	12,655	19,031

Notes:

1. DARD April 2006 expected reduction mainly due to creation of Agri-Food Bio-Sciences Institute (AFBI) as a non-departmental public body (NDPB) affecting about 700 staff. DARD Agencies: Forest Service and Rivers Agency.
2. DETI Agencies figure refers to the NDPB Health and Safety Executive for NI which is staffed by civil servants.
3. DRD Agencies: Roads Service and Water Service.
4. DOE Agencies: Driver and Vehicle Licensing NI, Driver and Vehicle Testing Agency, Environment and Heritage Service and Planning Service.
5. DFP Agencies: Business Development Service, Land Registers for NI, NI Statistics and Research Agency and Rate Collection Agency.
6. DHSSPS Agencies figure includes Health Estates (Agency) and the NDPB Mental Health Commission which is staffed by civil servants.
7. DCAL Agencies: Ordnance Survey NI and Public Record Office NI.
8. DSD figures include staff working on DWP services (Belfast Benefit Centre, CSA Eastern Business Unit and Paid Order Store, Lisahally) which are fully funded by DWP. DSD Agencies: Child Support Agency and Social Security Agency.
9. NIO figures exclude all home civil service posts, but include all temporary staff as time did not allow detailed analysis to exclude temporary staff not blocking permanent posts. The NIO Agencies: NI Prison Service, Youth Justice Agency, Forensic Science for NI, and the Compensation Agency.

Mr. Lidington: To ask the Secretary of State for Northern Ireland what the total number of civil service posts in the Northern Ireland civil service was in *(a)* April 2004 and *(b)* April 2005; and what his working assumption is for the number of such posts in April 2006. [25838]

Angela E. Smith: The total number of civil service posts, expressed as whole time equivalent staff-in-post plus vacancies, in the Northern Ireland civil service on the requested dates was as follows;

	Total number of civil service posts
April 2004	33,443
April 2005	32,834

The figures in the table relate to the 11 Northern Ireland Departments and the NIO, including their agencies, but exclude home civil service staff and staff in non-departmental public bodies.

The working assumption is that the numbers of posts will continue to reduce to an estimated level of around 31,584 in April 2006.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland pursuant to the answer of 25 October 2005, *Official Report*, columns 108–09W, on Northern Ireland Civil Service, which departments employed those people referred to in the recruitment figures under the heading 'Northern Ireland Civil Service'. [22934]

Angela E. Smith: The following table provides details of appointments to departments for the year 1 April 2004 to 31 March 2005.

Department/General service grades	Protestant		Roman Catholic		Non-determined		Total

Coroner Services

Mark Durkan: To ask the Secretary of State for Northern Ireland in how many cases the remains of deceased people from Foyle constituency have been retained in Belfast for three days or more since the amalgamation of the Derry Coroner's District with the Greater Belfast Coroner's District. [24730]

Mr. Hain: The Derry Coroner's District amalgamated with the Greater Belfast Coroner's District on 26 September 2005. From 26 September until 4 November 20 bodies from the Derry area were referred for post mortem examination. One body was held for more than three days, a suspicious death which required a second post mortem by a pathologist for the defence.

Disability Services

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what percentage of funding that makes up the learning disability programme of care is allocated to each aspect of the programme. [25213]

Mr. Woodward: The answer is detailed in the following table.

Learning disability 2003–04 expenditure

Sector/Speciality name	Percentage of funding
Acute	
Mental Handicap—Adults and children	22.8
Community	
Allied Health (OT, Physiotherapy, SLT, Podiatry)	3.3
Community Medical / Dental	1.5
Direct Payments	1.8

Learning disability 2003–04 expenditure

Sector/Speciality name	*Percentage of funding*
Incontinence Products	0.1
Nursing Costs	2.2
Personal Social Services	
Day care Facilities	20.8
Grants, Goods and Services	4.8
Domiciliary Care	3.8
Nursing Homes	11.3
Adult Residential Homes	17.1
Children's Residential Homes	2.5
Social Work	5.1
Supported and Other Accommodation	2.9
Total spend	100.0

Early Release

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many prisoners who have applied for early release following the signing of the Belfast Agreement for crimes committed prior to that agreement have been *(a)* released and *(b)* refused release. [25688]

Mr. Woodward: Under the terms of the Northern Ireland (Sentences) Act 1998, 447 prisoners have been released early; 127 applications for release under the Act have been unsuccessful. Among those 127 there were 14 prisoners who were released, having served their sentence, before the Sentence Review Commissioners reached a decision on their application.

Eglinton Primary School

Mark Durkan: To ask the Secretary of State for Northern Ireland if he will make a statement on *(a)* (i) pupil numbers and (ii) condition of the building at Eglinton primary school and *(b)* the prospects for a new school building. [27243]

Angela E. Smith: The current enrolment of Eglinton primary school is 212 pupils.

The Department inspected the school in July 2004 and is aware that it has a number of shortcomings. Among those noted were poor condition of walls and windows; need for re-wiring; re-plumbing and replacement of toilets. There is a serious shortage of storage space. There are three mobile classrooms.

The Western education and library board has submitted an economic appraisal to the Department for a capital major works scheme. While the school's needs are recognised it is not possible at this stage to say when a new building would be approved.

Grammar Schools

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many individuals who were considered to come from the *(a)* Protestant, *(b)* Roman Catholic and *(c)* other communities have attended each grammar school in the Province in the last 10 years.[25796]

Angela E. Smith: The information has been placed in the Library.

Housing

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many homes were sold to the tenant and subsequently repurchased by the Northern Ireland Housing Executive from the tenant, in each of the past five years. [27021]

Mr. Hanson: The information requested for each of the last five financial years (1 April to 31 March each year) is as follows;

	Number
2000–01	12
2001–02	33
2002–03	31
2003–04	18
2004–05	11
2005–06 (9 November 2005)	20

Insurance Premiums

Mr. Dodds: To ask the Secretary of State for Northern Ireland what estimate he has made of the change in insurance premiums for small and medium-sized businesses in 2004–05. [27765]

Angela E. Smith: A survey of business insurance premiums in Northern Ireland is undertaken annually by the Department of Enterprise Trade and Investment. The last survey was undertaken at the end of 2004 and showed a reduction of 16.1 per cent. in the average (median) insurance premiums for small and medium businesses compared to the previous year.

The next set of results from the survey which will provide an estimate of the change in insurance premiums between 2004 and 2005 will be published in spring 2006.

Irish League Premier Division

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what progress is being made in funding the improvements in facilities for customer safety and comfort at each of the Irish league premier division grounds. [27019]

Mr. Hanson: Responsibility for funding improvements to facilities for customer safety and comfort at Irish league premier division grounds rests with the venue operators. Assistance in funding such improvements is available from the Sports Council for Northern Ireland (SCNI). SCNI has already provided the following assistance:

£

Club	*Award total*
Portadown Football Club	331,192
Glentoran Football Club	267,597
Cliftonville Football Club	275,000
Coleraine Football Club	225,000
Ballymena UTD Football Club	245,000
Linfield Football Club	256,590
Newry City Football Club	290,000
Glenavon Football Club	330,000
Institute Football Club	41,900
Limavady United Football Club	30,000
Dungannon Swifts Football Club	25,366

£

Club	Award total
Larne Football Club	15,000
Lisburn Distillery Football Club	12,384
Ards Football Club	40,000
Total	2,385,029

SCNI is currently considering applications for further assistance to improve customer safety and comfort at three Irish league premier division grounds.

Literacy and Numeracy

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many employees in his Department have requested training to improve their *(a)* literacy and *(b)* numeracy skills in each year since 2001. [25784]

Mr. Hanson: Since 2001, one member of staff in the Northern Ireland Office has requested training to improve their literacy skills. The applicant was interviewed to assess their training requirement and an appropriate course was identified with a local college. Ongoing support is being provided to the student. No staff have sought assistance with numeracy skills although basic numeracy skills are included in the Department's financial training courses.

M2

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what assessment he has made of changes in commuter travel time at peak times from junction 5 of the M2 motorway to Belfast city centre over the last five years. [27015]

Mr. Woodward: The Chief Executive of Roads Service (Dr Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin to Mr. Gregory Campbell, dated 14 November 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding what assessment he has made of changes in commuter travel time at peak times from junction 5 of the M2 motorway to Belfast City Centre over the last five years. I have been asked to reply as this issue falls within my responsibility as Chief Executive of Roads Service.

Roads Service monitors journey times on the strategic routes in Northern Ireland including the routes from Larne to Belfast to Newry (A8, M2, M1 and A1). These surveys commenced in 1996 and the most recent information available is for 2003.

Unfortunately, we have no journey time information that relates to the specific journey between junction 5 (Templepatrick) and Belfast City Centre. However, a comparison of journey times between Templepatrick and the Divis Street junction on Westlink would suggest that the average journey time in the morning peak over this section has increased by 3 to 4 minutes between 1998 and 2003.

We fully appreciate the significant delays experienced by southbound traffic approaching Sandyknowes on the M2. Roads Service acknowledges that these delays are a direct result of capacity restrictions downstream of Sandyknowes where only 2 traffic lanes are available to cater for both mainline M2 traffic and the considerable flow joining the motorway from the Sandyknowes roundabout. Consequently we plan to widen the Belfast-bound carriageway of the M2 motorway to create an additional southbound lane between the Sandyknowes and Greencastle junctions. This will make it easier for traffic to join the M2 from the Sandyknowes junction, particularly during the morning peak traffic, and also provide greater capacity on the Belfast-bound section of the M2 towards Greencastle. Construction of these improvements on the M2 is expected to start during 2008.

The £30 million M2 Widening Scheme is one of three schemes forming part of the £100 million Roads Service Design, Build, Finance and Operate Package 1, along with the M1/Westlink Project and the Antrim Hospital slip roads.

I can also advise that the Belfast Metropolitan Transport Plan proposes modifications to the Sandyknowes roundabout to minimise conflicts between different traffic movements and afford greater priority to the strategic M2 and A8 movements. Roads Service is currently investigating various design options.

I hope this information is helpful.

Medical Students

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many medical students have studied in Northern Ireland in each year since 2000; and how many were entrants from *(a)* the independent and *(b)* the state education sector. [25777]

Angela E. Smith: Total student enrolments on medicine courses at Northern Ireland Higher Education Institutions which lead towards eligibility to register for practice as a doctor in each year since 2000.

Academic year	Enrolments on first courses degree medicine
2000–03	887
2001–02	915
2002–03	914
2003–04	918

The Department for Employment and Learning does not hold data on entrants to HEIs according to type of institution previously attended.

Non-departmental Public Bodies

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the overall cost to public funds of all non-departmental public bodies in Northern Ireland has been in each of the last five years. [22856]

Angela E. Smith: The cost to the public purse of all non-departmental public bodies sponsored by Departments in the NI Administration and the Northern Ireland Office is set out in the following table:

£ million

	Current expenditure	Capital investment
2001–02	1,369.4	91.0
2002–03	1,644.8	63.5
2003–04	1,662.6	95.5
2004–05	1,683.4	119.0
2005–06	1,847.1	175.2

PFI Schools

Dr. McCrea: To ask the Secretary of State for Northern Ireland what *(a)* controlled, *(b)* maintained and *(c)* integrated sector schools have been built in Northern Ireland using private finance initiative schemes in each year since 2001; and where each is located. [25782]

Angela E. Smith: There have been three controlled schools and one maintained school built in Northern Ireland using the private finance initiative. Three of these have become operational since 2001. Wellington College, Belfast and Balmoral High School, Belfast, both controlled schools, opened in January 2002 and St. Genevieve's High School, Belfast, a maintained school, opened in February 2002.

In addition, PPP schemes have been announced each year since 2001 as follows:

Controlled	*Maintained and Voluntary*[1]	*Integrated*
2001		
Coleraine College	Holy Cross College, Strabane	
Bangor Academy and Sixth Form College	St. Cecilia's College, Londonderry	
Comber High School	St. Mary's College, Londonderry	
2002		
Tor Bank Special School, Dundonald	Our Lady and St. Patrick's College, Knock	Lagan College Belfast
	St. Patrick's GS, Downpatrick	
	St. Mary's PS, Portglenone	
	St. Joseph's PS, Carryduff	
2003		
Orangefield PS, Belfast		
Orangefield HS, Belfast		
Ashfield Girls' HS, Belfast		
Belfast Boys' Model		
Belfast Model School for Girls		
Grosvenor GS Belfast		
2004		
Greenwood Assessment Centre, Belfast	Holy Trinity College, Cookstown	
Mitchell House Special School, Belfast	Loreto GS, Omagh	
Rosetta PS, Belfast	Rainey Endowed, Magherafelt	
Ballymoney HS, Ballymoney		
Devenish College, Enniskillen		
Belmont House Special School, Londonderry		
Erne Special School, Enniskillen		
Amalgamation of Limegrove Special School, Limavady /Glasvey Special School, Ballykelly		
Strabane GS		

[1] Includes maintained and voluntary grammar schools.

Procurement Policy

Mark Durkan: To ask the Secretary of State for Northern Ireland whether *(a)* he and *(b)* another Minister was advised of the impact in terms of the valid consideration of wider policy objectives consistent with EU rules of the Procurement Policy Review commissioned by the Northern Ireland Executive. [24738]

Angela E. Smith: Following a review of public procurement, the new procurement policy was announced in the Northern Ireland Assembly in May 2002. The overall aim of the policy is to achieve "best value for money" in the procurement of goods, works and services over the lifetime of a contract. Best value for money does not mean the lowest initial cost. It means securing a procurement that meets the user's needs and achieves a balance between quality and cost throughout the life of the asset. Within this definition the policy allows for the consideration of wider policy objectives into procurement, that meet the tests of need, affordability and cost-effectiveness and comply with the UK's EC and international obligations.

All Northern Ireland Ministers are very aware of the concept of "best value for money" in the context of public procurement in Northern Ireland and Lord Rooker, through chairmanship of the Procurement Board, has specific responsibility for procurement policy.

Regional Rates

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland by how much and what percentage the regional rate has changed in each of the last 20 years.[25164]

Angela E. Smith: The following table gives the increases in pence and in percentage terms in the domestic and the non-domestic regional rates from the 1986–87 financial year.

Domestic and non-domestic regional rate: changes (pence) and percentage change

	Domestic regional rate change		*Non-domestic regional rate change*	
	Pence	*Percentage*	*Pence*	*Percentage*
1986–87	9.51	10.7	9.51	9.4
1987–88	3.15	3.2	3.15	2.9
1988–89	9.06	8.9	9.06	8.0
1989–90	15.48	14.0	15.48	12.6
1990–91	10.20	8.1	10.20	7.4
1991–92	[1]- 64.87	-47.6	17.13	11.6
1992–93	-4.23	-5.9	- 12.23	-7.4
1993–94	-1.19	-1.8	- 13.19	-8.6
1994–95	8.70	13.2	8.70	6.2
1995–96	5.22	7.0	5.22	3.5
1996–97	6.41	8.0	4.41	2.9
1997–98	6.66	7.7	[2]—	n/a
1998–99	6.22	6,7	0.65	2.5
1999–2000	7.94	8.0	1.47	5.5
2000–01	8.57	8.0	1.30	4.6
2001–02	8.10	7.0	0.97	3.3
2002–03	8.67	7.0	1.00	3.3
2003–04	7.95	6.0	[3]—	n/a
2004–05	12.36	8.8	0.84	3.3
2005–06	13.75	9.0	0.87	3.3

[1] Domestic Rate Aid Grant increased from 12p to 94p due to Chancellor's Budget in line with the Great Britain Community Charge reduction.
[2] Not applicable—non-domestic revaluation (4th general revaluation)
[3] Not applicable—non-domestic revaluation (5th general revaluation)

Royal Mail

Dr. McCrea: To ask the Secretary of State for Northern Ireland what discussions he has had with the Royal Mail on the recent removal of local post office services within Northern Ireland to private premises. [11114]

Angela E. Smith: There have been no such discussions. Decisions on individual closures and conversions of directly managed (Crown) post offices are operational and commercial matters for Post Office Ltd.

Sentencing Framework

Mr. Dodds: To ask the Secretary of State for Northern Ireland if he will publish the conclusions of the review on the sentencing framework in Northern Ireland. [27762]

Mr. Hanson: A summary of the responses to the public consultation on the review of the sentencing framework was published on the Northern Ireland Office website in September 2005. Policy options are currently under consideration. I will make an announcement in due course.

Social Care Studies

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many individuals commencing social care study in the Province *(a)* failed to complete and *(b)* completed their university course in each of the last five years. [24905]

Angela E. Smith: The information is as follows:

Academic year	*Students gaining social work qualifications*
1999–2000	420
2000–01	508
2001–02	448
2002–03	486
2003–04	389

The Department does not hold data, by subject area, on those students who fail to complete or on students who complete the course but fail to gain the qualification.

Truancy

Sammy Wilson: To ask the Secretary of State for Northern Ireland how much has been spent on tackling truancy in the Province since 1997. [25794]

Angela E. Smith: The information requested is not available. The money spent on tackling truancy in schools in the province is subsumed within the operating cost of the Education Welfare Service of the education and library boards. From 1 January 2004 the Department has collected information on the cost of the Education Welfare Service and the cost for the 2004 calendar year amounts to approximately £5.6 million.

Sammy Wilson: To ask the Secretary of State for Northern Ireland if he will estimate the level of truancy among *(a)* males and *(b)* females at (i) primary and (ii) secondary schools in the Province. [25795]

Angela E. Smith: The Department of Education does not collect the requested information. However, information on referrals of pupils to the Education Welfare Service is collected from each of the Education and Library Boards on an annual basis. Referrals can be for a variety of reasons, including truancy.

The following table shows the percentage of pupils referred to the Education Welfare Service at each key stage in Northern Ireland from 2000–01 to 2003–04:

	Percentage pupils referred			
	2000–01	*2001–02*	*2002–03*	*2003–04*
Key Stage 1	0.89	1.27	1.53	1.05
Key Stage 2	1.72	1.88	2.14	1.61
Key Stage 3	4.85	5.02	5.12	4.40
Key Stage 4	8.12	8.46	8.92	6.42

Unfilled Jobs

Sammy Wilson: To ask the Secretary of State for Northern Ireland what estimate he has made of the percentage of unfilled jobs in the Province that are the result of skills shortages among potential applicants. [25773]

Angela E. Smith: Results from the most recent Skills Monitoring Survey published by the Department for Employment and Learning in 2003 show that 7.3 per cent. of vacancies reported by employers, were unfilled due to external skills shortages.

University Entrants

Sammy Wilson: To ask the Secretary of State for Northern Ireland what estimate he has made of entrance to university by students from less well-off families in the Province in each of the last five years. [25789]

Angela E. Smith: The following tables set out social class and socio-economic classification data collected by the Universities and Colleges Admissions Service for Ni domiciled applicants accepted to degree courses at UK Higher Education Institutions by year of entry. 2002 was the first year data were supplied according to National Statistics Socio-Economic Classification. It replaced the social class measure which was available until 2001,

Social Class	*2000*	*Percentage (excluding unknown)*	*2001*	*Percentage (excluding unknown)*
I Professional	964	10.2	1,034	10.4
II Intermediate	3,871	41.1	4,108	41.3
III Skilled Non-manual	1,676	17.8	1,709	17.2
IIIM IM Skilled Manual	1,939	20.6	2,099	21.1

Social Class	2000	Percentage (excluding unknown)	2001	Percentage (excluding unknown)
IV Partly Skilled	725	7.7	734	7.4
V Unskilled	242	2.6	253	2.5
Not Known	955	—	1,171	—
Total	10,372	—	11,108	—

Socio-Economic Classification (SEC)	2002	Percentage (excluding unknown)	2003	Percentage (excluding unknown)	2004	Percentage (excluding unknown)
1. Higher managerial and professional occupations	1,456	14.5	1,416	13.6	1,436	13.5
2. Lower managerial and professional occupations	2,916	29.1	3,030	29.1	3,113	29.4
3. Intermediate occupations	1,825	18.2	1,820	17.5	1,915	18.1
4. Small employers and own account workers	1,438	14.3	1,446	13.9	1,436	13.5
5. Lower supervisory and technical occupations	553	5.5	648	6.2	673	6.3
6. Semi-routine occupations	1,092	10.9	1,240	11.9	1,244	11.7
7. Routine occupations	745	7.4	796	7.7	789	7.4
Unknown	1,667	—	1,860	—	2,088	—
Total	11,692	—	12,256	—	12,694	—

Youth Services (Funding)

Mark Durkan: To ask the Secretary of State for Northern Ireland what plans he has to consult directly with *(a)* children, *(b)* young people and *(c)* their families on priorities and possibilities for the funding package announced in Budget and Priorities 2006–08. [24851]

Angela E. Smith: Public consultation on the Draft Priorities and Budget 2006–08 commenced on 25 October, and will run until 5 December. In the course of this process we would welcome input from any and all interested parties, particularly in respect of the new funding packages. Comments may be made in writing, or by attending one of a series of consultation events, open to all members of the public.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much was spent on children's services in the Province in each of the last five years. [24893]

Angela E. Smith: Children's services cover a wide and varied range of activities across a number of Departments. Expenditure on activities which benefit children, either directly or indirectly, cannot be easily identified as budgets and expenditure lines are constructed to identify functions and programmes rather than target groups. The information sought could, therefore, be provided only at disproportionate cost.

DEPUTY PRIME MINISTER

Call Centres

Mr. Laws: To ask the Deputy Prime Minister how many call centres were run by his Department and its agencies in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; and how many and what proportion of calls (i) were handled by an adviser, (ii) were received but abandoned and (iii) received an engaged tone. [23297]

Jim Fitzpatrick: Both the Office of the Deputy Prime Minister (ODPM) and its agencies do not use call centres.

The number of calls received to the main ODPM switchboard prior to January 2003 is unavailable. However, a total of 24,833 calls were received January 2003 to March 2003, 118,773 during 2003–04, 129,209 during 2004–05 and 61,408 from the start of 2005–06 to the end of September 2005. Abandoned call data are available only from October 2004, since when, out of 106,823 calls received, only 0.2 per cent. were abandoned by the caller after 15 seconds. Rather than receive an engaged tone when waiting for an operator to become available, the call continues to ring until answered.

The Fire Service College have received 15,703 calls since July 2005 (no data available prior to this date). Out of those received, 14,388 (92 per cent.) were answered within the Fire Service College's performance target of 15 seconds. All calls to the main Fire Service College switchboard are handled by advisers: no data are available concerning abandoned calls. Calls to the switchboard continue to ring until answered rather than receive an engaged tone.

The Queen Elizabeth II Conference Centre receives approximately 110,000 calls annually which none are handled by advisers: no data are held concerning abandoned calls. Calls to the main switchboard do not receive an engaged tone, but go straight to voicemail if unanswered after a short period of time.

Call data volume for the Planning Inspectorate are not held nor are statistics relating to abandoned calls. All calls to the switchboard are handled by advisers and calls are placed into a queue until an advisor is available.

Council Housing

Mr. Betts: To ask the Deputy Prime Minister what proportion of Sheffield's council housing stock has been sold under the right-to-buy scheme since 1980. [26344]

Yvette Cooper: It is estimated that approximately 35 per cent. of Sheffield's local authority housing stock has been sold through the right-to-buy scheme up to the end of March 2005.

Mr. Betts: To ask the Deputy Prime Minister how many council homes were sold under the right-to-buy scheme in Sheffield in 2004-05. [26345]

Yvette Cooper: Sheffield reported 1,323 local authority dwellings were sold under the right-to-buy scheme in 2004–05.

Dr. Iddon: To ask the Deputy Prime Minister how many council homes were sold under the right-to-buy scheme in Bolton in each year since 1980. [26351]

Yvette Cooper: The number of local authority dwellings sold under right-to-buy since 1980, as reported by Bolton is tabled as follows:

Bolton: right-to-buy sales

	Number
1979–80	0
1980–81	4
1981–82	383
1982–83	290
1983–84	209
1984–85	233
1985–86	216
1986–87	47
1987–88	24
1988–89	356
1989–90	645
1990–91	668
1991–92	263
1992–93	151
1993–94	136
1999–95	114
1995–96	87
1996–97	89
1997–98	133
1998–99	138
1999–2000	150
2000–01	231
2001–02	240
2002–03	347
2003–04	654
2004–05	774

Dr. Iddon: To ask the Deputy Prime Minister what proportion of Bolton's council housing stock has been sold under the right-to-buy since 1980. [26352]

Yvette Cooper: It is estimated that approximately 25 per cent. of Bolton's local authority housing stock has been sold through the right-to-buy scheme up to the end of March 2005.

Dr. Iddon: To ask the Deputy Prime Minister if he will break down the total number of right-to-buy sales in Bolton since 1980 by *(a)* bedsit, *(b)* one-bed, *(c)* two-bed, *(d)* three-bed and *(e)* four or more bedrooms. [26353]

Yvette Cooper: Information is not held centrally on the numbers of bedrooms of local authority dwellings sold through right-to-buy, and could be provided only at disproportionate cost.

Dr. Iddon: To ask the Deputy Prime Minister if he will set out the total capacity receipts generated from right-to-buy sales in *(a)* Bolton and *(b)* the north-west region in each year since 1980. [26354]

Yvette Cooper: The total capital receipts from right-to-buy sales of local authority dwellings in Bolton and the north-west region in the years from 1996–97 onwards are tabulated as follows. These figures are net of discounts and are as reported by local authorities.

Capital receipts

	Bolton	*£ million North-west*
1996–97	1.4	57.8
1997–98	2.1	74.0
1998–99	2.2	69.4
1999–2000	2.4	89.6
2000–01	3.7	105.0
2001–02	4.1	120.1
2002–03	6.1	168.3
2003–04	13.4	271.7
2004–05	19.8	251.2

Source:
Quarterly P1(A/B) return received from local authorities

The information for years prior to 1996–97 is not centrally available.

Council Tax

Mrs. Spelman: To ask the Deputy Prime Minister if he will place in the Library preliminary *(a)* analysis, *(b)* studies and *(c)* estimates conducted before the announcement of the revaluation postponement by (i) his Office and (ii) the Valuation Office Agency on the distribution and number of gainers and losers from the council tax revaluation in England. [24678]

Mr. Woolas: As my right hon. Friend said on 20 September, Sir Michael Lyons will set out his work so far later this year.

Departmental Skills Development Plan

Mr. Gibb: To ask the Deputy Prime Minister which individual is responsible for developing and implementing his Department's Skills Development Plan. [23846]

Jim Fitzpatrick: I refer the hon. Member to the answer given by my right hon. Friend the Member for Barrow and Furness (Mr. Hutton) on 2 November 2005, *Official Report*, column 1074W.

Domestic Violence

Lynda Waltho: To ask the Deputy Prime Minister what plans he has to improve the services offered to women seeking refuge from domestic violence. [24082]

Yvette Cooper: The Office of the Deputy Prime Minister plays an important part in the Government's action to tackle domestic violence. Specific action taken recently includes:

Investing more than £30 million over three years for new refuge provision and refurbishment of existing refuge schemes.

Investing £1.4 million over three years to develop a new national domestic violence helpline (0808 2000 247) supported by UKRefugesonline an internet based UK wide database of domestic violence services.

Providing £200,000 in 2005–06 for the development of minimum service standards for the Women's Aid network of domestic violence services, a programme of accredited training and support the regional network of women's refuges.

Introducing a substantially revised domestic violence Best Value Performance Indicator from 1 April 2005, the purpose of which is to assess overall provision and effectiveness of local authority services designed to help victims of domestic violence.

Establishing the Supporting People programme from 1 April 2003, providing a more strategic basis for funding and commissioning housing related support services for victims of domestic violence. A consultation seeking views on the future direction of the programme will be launched shortly and will be a vehicle for improving services for those fleeing domestic violence.

Energy Efficiency

Mr. Boswell: To ask the Deputy Prime Minister what action he is taking to improve the energy efficiency of community buildings. [26215]

Yvette Cooper: The energy efficiency provisions in Part L of the Building Regulations apply whenever buildings, including community buildings, are constructed, altered, extended or subjected to a material change of use. In September the Office of the Deputy Prime Minister announced further improvements to these energy efficiency requirements that will come into effect next April.

Fire-related Deaths

Rosie Cooper: To ask the Deputy Prime Minister how many fire-related deaths there have been in West Lancashire in each of the last three years. [27835]

Jim Fitzpatrick: Lancashire fire and rescue service have supplied the following information on the number of fire-related deaths in the constituency of West Lancashire from 2002 to 2004.

	Number of deaths in fires
2002	0
2003	0
2004	1

Mrs. Spelman: To ask the Deputy Prime Minister what changes the Government have made to targets for reducing the number of *(a)* accidental fire-related deaths in the home and *(b)* deliberate fires since 1997. [26924]

Jim Fitzpatrick: The Government made changes to the Service Level Agreement Targets covering the period 1998–99 to 2010 when we introduced a Public Service Agreement (PSA) Target for the Fire and Rescue Service in April 2005.

The Service Level Agreement Target for reducing the number of accidental fire related deaths in the home was:

"To reduce the incidence of accidental fire-related deaths in the home by 20 per cent. averaged over the five-year period to March 2004 compared with the average recorded in the five year period to March 1999."

The current PSA target for reducing the number of accidental fire related deaths in the home is:

"To reduce the number of accidental fire related deaths in the home by 20 per cent. by 31 March 2010."

This includes a floor target:

"That no local fire and rescue authority has a fatality rate, from accidental fires in the home, more than 1.25 times the national average by 2010."

The Service Level Agreement for reducing the number of deliberate fires was:

"To reduce by 30 per cent. the number of deliberate fires by March 2009 from the 1998–09 baseline."

The current PSA target for reducing the number of deliberate fires is:

"To achieve a 10 per cent. reduction in the number of deliberate fires by 31 March 2010 from the 2001–02 baseline."

Home Information Packs

Mrs. Spelman: To ask the Deputy Prime Minister if he will list the required elements of home information packs. [24676]

Yvette Cooper: The draft regulations specifying the contents of the home information pack were published for public comment on the Office of the Deputy Prime Minister's website on 31 October. The proposed required documents are listed in Regulation 8

Mrs. Spelman: To ask the Deputy Prime Minister what the timetable is for the introduction of home information packs. [24679]

Yvette Cooper: The intention of the Office of the Deputy Prime Minister is to introduce home information packs early in 2007, and we are discussing with our key stakeholders how best this can be achieved.

Housing

Mr. Greenway: To ask the Deputy Prime Minister what plans he has to increase the number of *(a)* affordable homes and *(b)* social housing units in rural areas. [24102]

Yvette Cooper: The Housing Corporation is currently considering bids from registered social landlords and others to support the increased provision of both social rented and low cost home ownership products over 2006–08. The Office of the Deputy Prime Minister expects (subject to satisfactory bids coming forward) that some £424 million of grant will be allocated to bids in rural areas. The results of the bidding round will be announced in early 2006.

Mr. Greenway: To ask the Deputy Prime Minister when he expects to publish a revised planning policy guidance note 3 on the provisions of affordable housing in rural areas. [24103]

Yvette Cooper: The Office of the Deputy Prime Minister intends to publish by the end of this year a draft new Planning Policy Statement 3 (PPS3) for consultation. Final PPS3 will be published as soon as practicable after the consultation period has closed.

Mr. Dismore: To ask the Deputy Prime Minister how many *(a)* studio and one-bed, *(b)* two-bed, *(c)* three-bed and *(d)* four-bed units of social housing there were in each London local authority in (i) 1980, (ii) 1990, (iii) 2000 and (iv) 2005. [24271]

Yvette Cooper: For 1980 and 1990, information on registered social landlord housing stock or local authority stock by size for each London borough is not held centrally. The information for 2000 and 2005 for those properties for which a breakdown is available is given as follows.

Table 1: Social stock by size for London boroughs—2000

	One bedroom and bedsits	Two bedrooms	Three or more bedrooms
Barking and Dagenham	6,364	10,666	8,383
Barnet	4,596	6,892	4,467
Bexley	3,351	2,889	3,846
Brent	7,769	7,807	5,668
Bromley	5,618	5,475	5,370
Camden	14,884	10,629	8,764
City of London	1,154	687	466
Croydon	6,600	7,959	8,400
Ealing	8,618	7,676	5,880
Enfield	5,563	6,570	5,558
Greenwich	10,561	11,896	12,113
Hackney	13,997	14,675	12,880
Hammersmith and Fulham	10,227	7,597	5,931
Haringey	10,018	9,058	8,057
Harrow	2,858	2,400	2,405
Havering	4,811	4,755	4,059
Hillingdon	5,242	5,476	4,461
Hounslow	5,848	7,159	6,256
Islington	16,776	13,335	10,388
Kensington and Chelsea	8,998	5,819	3,551
Kingston upon Thames	2,531	2,230	1,669
Lambeth	16,301	16,281	14,957
Lewisham	12,260	14,727	12,405
Merton	3,418	3,686	4,098
Newham	10,315	11,009	10,325
Redbridge	3,367	2,436	2,087
Richmond-upon-Thames	4,237	2,774	2,638
Southwark	21,442	20,793	17,323
Sutton	3,894	4,404	3,546
Tower Hamlets	12,308	14,589	12,216
Waltham Forest	6,875	6,313	6,738
Wandsworth	9,710	9,569	7,735
Westminster	13,191	7,195	4,401

Notes:

1. Figures are given for those registered social landlord general needs dwellings for which the landlord has provided size from the Regulatory and Statistical Return of the Housing Corporation.
2. The dwelling stock figures exclude non-self contained properties and staff homes.
3. Local authority information comes from the Housing Revenue Account Subsidy Audit Base Return and does not include non-self contained units and may exclude stock owned by the local authority outside their area even if it is in another borough.

Table 2: Social stock by size for London boroughs—2005

	Bedsit	One bedroom	Two bedrooms	Three bedrooms	Four or more bedrooms
Barking and Dagenham	476	5,047	9,496	7,237	288
Barnet	338	3,762	6,763	3,993	515
Bexley	350	2,810	3,393	3,781	565
Brent	583	5,957	7,575	4,684	978
Bromley	552	3,261	5,643	4,722	618

Wandsworth	1,146	7,464	8,953	5,909	1,416
Westminster	2,313	9,240	7,050	3,717	652

Notes:

1. Figures are given for those general needs dwellings for which the landlord has provided size from the Regulatory and Statistical Return of the Housing Corporation.

2. The dwelling stock figures exclude non-self contained properties and staff homes.
3. The information for local authority stock comes from the Housing Second Subsidy Claim form and are provisional and un-audited figures.
4. Information for local authority stock in Sutton is not yet available.

Mr. Dismore: To ask the Deputy Prime Minister how many households *(a)* made a homelessness application and *(b)* were accepted as homeless in each London local authority in (i) 1990, (ii) 2000 and (iii) 2004–05. [24272]

Yvette Cooper: The available information is given in the following table. This presents information reported by each London borough on the number of households about whom a decision regarding their homelessness application was made, and the number of these accepted which were accepted as eligible for assistance, unintentionally homeless and in priority need, and consequently owed a main homelessness duty.

The duty owed by the local authority is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available. As an alternative to the provision of temporary accommodation some authorities arrange for households to remain in their current accommodation (homeless at home), until a settled solution becomes available.

Decisions on applications from households for assistance under homelessness legislation, as reported by London boroughs

	1990		2000		April 2004 to March 2005	
	Total Decisions[1]	of which Accepted[2]	Total Decisions[1]	of which Accepted[2]	Total Decisions[1]	of which Accepted[2]

Westminster	3,458	2,614	5,270	1,037	3,968	1,112

[1] Decisions prior to 1997 were made under the 1985 Housing Act; subsequent decisions were made under the 1996 Housing Act, although figures include any residual 1985 Act cases. Includes applications found to be ineligible.
[2] Households found to be eligible for assistance, unintentionally homeless and in a priority need category and, under 1996 Housing Act provisions, consequently owed a main homelessness duty.
[3] Denotes an authority failed to provide a return for one or more quarters.

Note:
Data shown where four quarterly returns were received.

Source:
ODPM P1E Homelessness returns (quarterly)

Mr. Dismore: To ask the Deputy Prime Minister how many households were being accommodated in temporary accommodation in each London authority in September. [24273]

Yvette Cooper: Information about local authorities' activities under homelessness legislation, including the number of households in temporary accommodation in each local authority and London borough as at the end of September, will be available from the Statistical Release on statutory homelessness for the third quarter of 2005 to be published on 12 December.

Results for the second quarter of 2005, including the number of households in temporary accommodation as at the end of June, were presented in Supplementary Tables to Statistical Release published on 12 September. Information as reported by London boroughs is in the following table:

Households in temporary accommodation secured by London boroughs under homelessness legislation as at 30 June 2005

	Reported total
Barking and Dagenham	488
Barnet	[1]
Bexley	370
Brent	4,510
Bromley	451
Camden	2,147
City of London	31
Croydon	3,161

ODPM P1E homelessness returns (quarterly)

Mr. Dismore: To ask the Deputy Prime Minister what the average rent is for a two-bed unit of temporary accommodation in London. [24274]

Yvette Cooper: The information requested is not held centrally and could be provided only at a disproportionate cost.

Mr. Hands: To ask the Deputy Prime Minister what assessment he has made of the effectiveness of the Notting Hill Housing Trust as a provider of affordable housing over the last five years; and if he will make a statement. [24527]

Yvette Cooper: The Housing Corporation assesses the performance of Registered Social Landlords (RSLs) against the Regulatory Code and publishes its findings in the Housing Corporation Assessment (HCA). The Audit Commission inspects and reports on an RSL's service delivery. The most recent HCA for Notting Hill Housing Group was published in May 2005 and confirms satisfactory performance in all areas. The Audit Commission published the report of its May 2005 inspection of service delivery at Notting Hill Housing Trust in August 2005, and concluded that the Trust provided a fair service that has excellent prospects for improvement.

Mr. MacShane: To ask the Deputy Prime Minister how many houses and other dwellings were built in *(a)* Hertfordshire, *(b)* Surrey, *(c)* Sussex and *(d)* Hampshire in each year since 2000. [25442]

Yvette Cooper: The annual number of new build completions reported for *(a)* Hertfordshire, *(b)* Surrey, *(c)* Sussex (East and West Sussex) and *(d)* Hampshire in each year since 2000are tabled as follows:

Number of new build completions

	2000–01	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Hampshire	3,234	3,617	3,651	4,638	4,800
Hertfordshire	2,426	2,196	1,919	2,961	3,342
Surrey	2,526	2,616	2,848	3,318	3,207
East Sussex	1,272	1,394	1,384	1,147	1,220
West Sussex	1,587	1,436	2,200	2,010	1,847

Source:
Returns (P2/NHBC) to ODPM on building control completions

Figures for the County of Hampshire exclude Southampton and Portsmouth Unitary Authorities and figures for East Sussex exclude figures for Brighton and Hove unitary authority.

Shona McIsaac: To ask the Deputy Prime Minister how many vacant homes there were in *(a)* North East Lincolnshire and *(b)* North Lincolnshire in each of the past five years. [25444]

Yvette Cooper: The number of vacant homes in North East Lincolnshire and North Lincolnshire in each of the past five years are shown in the table as follows.

Data as at:	*North East Lincolnshire*	*North Lincolnshire*
1 November 2000	2,890	3,361
1 November 2001	3,001	3,020
16 October 2002	2,628	2,522
16 October 2003	2,689	2,143
11 October 2004	2,727	2,035

The data are as reported on CTB1 and CTB1S forms submitted by billing authorities to the Office of the Deputy Prime Minister each year. The figure includes both long-term and short-term empty properties.

Lynne Jones: To ask the Deputy Prime Minister if he will require all new housebuildings to be built to the EcoHomes standard. [26189]

Yvette Cooper: EcoHomes is a commercially available environmental assessment system so it is not appropriate to specify that all new houses be built to this system. However, Government agencies are the main users of the EcoHomes system. The Housing Corporation currently require all publicly funded social

housing to be designed to meet the 'Good' standard. The English Partnerships Millennium Communities and Design for Manufacture Programmes specify the 'Very Good' standard. Statutory requirements for all new house construction are set out in the Building Regulations and we have announced improvements to minimum energy efficiency requirements that will come into effect next April.

Mr. Betts: To ask the Deputy Prime Minister how many *(a)* bedsit, *(b)* one-bed, *(c)* two-bed, *(d)* three-bed and *(e)* four or more bed right-to-buy sales there have been in Sheffield since 1980. [26343]

Yvette Cooper: Information is not held centrally on the numbers of bedrooms of local authority dwellings sold through right-to-buy, and could be provided only at disproportionate cost.

Mike Penning: To ask the Deputy Prime Minister what proportion of the proposed new houses for Hertfordshire he expects to be built on brownfield sites. [26349]

Yvette Cooper: The East of England Plan, which is currently being tested through an Examination in Public, will determine how many homes should be built in Hertfordshire taking into account the availability of previously developed land.

Dr. Iddon: To ask the Deputy Prime Minister pursuant to the answer of 31 October 2005, *Official Report*, column 760W to the right hon. Member for Birkenhead (Mr. Field), on housing, what assessment he has made of the impact of the right-to-buy on the number of households on Bolton's housing waiting list. [26355]

Yvette Cooper: No such assessment has been made. It is for each housing authority to manage its stock in the light of local circumstances.

Dr. Iddon: To ask the Deputy Prime Minister how many right-to-buy applications Bolton metropolitan borough council has received that remain under consideration. [26483]

Yvette Cooper: Information is not held centrally on the number of right to buy applications that remain under consideration by local authorities, and could be provided only at disproportionate cost.

Dr. Iddon: To ask the Deputy Prime Minister how many applicants are on the Bolton housing waiting list. [26484]

Yvette Cooper: The number of households on the Bolton housing waiting list as at 1 April 2005 is 16,096.

Local authorities in England report the numbers of households on their housing waiting list as at 1 April in their annual Housing Strategy Statistical Appendix returns. Local authorities sometimes maintain a common waiting list with the Housing Association/s in their district. However, information is not held centrally where a Housing Association maintains a separate waiting list to the local authority.

Mr. Lancaster: To ask the Deputy Prime Minister what steps he is taking to provide affordable housing in North East Milton Keynes. [27173]

Yvette Cooper: The Milton Keynes and South Midlands (MKSM) Sub-Regional Strategy states that Milton Keynes should accommodate an additional 44,900 dwellings over the period 2001–21, of which 30 per cent. should be affordable. This follows the recommendations of the independent Panel which conducted a Public Examination into the Strategy.

Detailed consideration of housing opportunities in the North East of Milton Keynes, including affordable housing, is a matter for Milton Keynes Council and local partners.

Mr. Hollobone: To ask the Deputy Prime Minister what his policy is on encouraging the residential use of unoccupied dwellings above shops and commercial premises. [27372]

Yvette Cooper: The release of vacant space over shops and commercial premises has a part to play in meeting housing supply demands and in reviving town centre living. There are however a number of barriers preventing much of this potential from being realised, including the complex ownership patterns in high street property. We are considering a number of ways in which these barriers might be overcome, and we will announce how we intend to take this forward in due course.

Housing Act 2004

Mrs. Spelman: To ask the Deputy Prime Minister what the timetable is for *(a)* the laying of secondary legislation and *(b)* the publication of guidance in relation to the Housing Act 2004. [24680]

Yvette Cooper: Please see the following table.

Housing Act 2004: Timetable for secondary legislation and guidance

Provision/Part	*Proposed laying of SIs*	*Proposed publication of guidance*
Part 1—Housing Conditions	End November 2005	Statutory guidance will be laid with the Regulations. Subject to the parliamentary procedure, estimated to be ready for publication in March.
Parts 2, 3, 4 and 7—HMO and Selective Licensing	End January 2006	The Act does not provide for formal guidance but explanatory information will be made available for landlords and tenants in February and March 2006. The intention is to issue informal advice to local authorities in due course.
Part 4—Empty Dwelling Management Orders	End January 2006	March 2006
Part 5—Home Information Packs	Early 2006 Draft SIs published in full on 31 October 2005	Guidance on draft SI to be published w/b 8 November 2005
Part 6—remaining Right to Buy modifications	Commenced July 2005	
Clarification of application of Right to Buy provisions to Preserved Right to Buy and Right to Acquire schemes	December 2005	
Part 6—Suspension of certain rights in connection with antisocial behaviour	Commenced June 2005	To be confirmed

Housing Act 2004: Timetable for secondary legislation and guidance

Provision/Part	*Proposed laying of SIs*	*Proposed publication of guidance*
Part 6—Extension to introductory tenancies	Commenced June 2005	
Part 6—Gypsy and Traveller accommodation needs assessments	Spring 2006	Draft guidance on Gypsy and Traveller accommodation needs assessment will be issued shortly Guidance on Gypsy and Traveller accommodation strategies: spring 2006
Part 6—Tenant Deposit Protection	July 2006	Explanatory information to be issued from May 2006 onwards.
Part 6—Additional power to give grants for social housing	End November 2005	
Part 6—Allocation of housing accommodation by local authorities	Commenced April 2005	

Lea Valley Park Authority

Andrew Rosindell: To ask the Deputy Prime Minister how much *(a)* Havering council and *(b)* the Lea Valley councils allocated to the Lea Valley Park Authority in 2004–05. [25869]

Yvette Cooper: The information requested is not held centrally and could be obtained only at disproportionate cost.

Local Area Agreements

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 26 October 2005, *Official Report*, column 449W, on local area agreements (LAAs), (1) if he will place a copy of each agreed LAA in the Library; and why the website page referred to in the answer does not provide access to copies of each LAA; [24671]

(2) if he will list the measures which can be applied should certain targets not be met for each of the agreed LAAs. [24677]

Mr. Woolas: Copies of all LAAs signed to date are in the Libraries of both Houses. The signed LAAs can be found online as part of the LAA toolkit, accessible through both the Office of the Deputy Prime Minister's website and at:

http://www.idea-knowledge.gov.uk/idk/core/page.do?pageId=627986

I have also placed a copy of the document "Local Area Agreements Guidance" in the Libraries of the House. This document contains a range of detailed information on the creation and operation of LAAs, including performance management.

Local Government Finance

Mrs. Spelman: To ask the Deputy Prime Minister how the Valuation Office Agency forecast the number of council tax banding appeals. [25622]

Mr. Woolas: The Valuation Office Agency forecast council tax banding appeals in the light of knowledge of levels of appeals received in successive years to date. The clearance targets published annually in its business plan, contained in the Agency's Annual Reports and Forward Plan, reflect these forecasts. The Annual Reports and Forward Plan can be viewed on www.voa.gov.uk. In the current year the Agency expects to receive and clear some 28,000 appeals against the 1993 council tax lists.

Mr. Borrow: To ask the Deputy Prime Minister (1) what the percentage increase in *(a)* Government grant and *(b)* council tax was for each county council between 1996–97 and 2005–06; [26143]

(2) what the percentage increase was in *(a)* Government grant and *(b)* council tax for each county council between 2004–05 and 2005–06. [26144]

Mr. Woolas: Tables have been made available in the Library of the House showing the percentage increases in Government grant and council tax for each county council in each year between 1996–97 and 2005–06.

Local Government Pensions

Mr. Newmark: To ask the Deputy Prime Minister what the total amount is of unfunded local government pension liabilities. [26227]

Mr. Woolas: I refer the hon. Member to the answers I gave to the hon. Member for Meriden (Mrs. Spelman) on 16 June 2005, *Official Report*, column 548W.

Mobile Phone Masts

Mike Penning: To ask the Deputy Prime Minister how many planning permission applications have been granted for mobile phone masts in Dacorum since 1997. [25818]

Yvette Cooper: The information requested is not held centrally and could be provided only at disproportionate cost. However, during September and October every year the mobile network operators write to every local authority with details of their network rollout for the year ahead. When they write to the local authority they also provide details of their existing sites within the local authority area. The hon. Member may want to contact the network operators for copies of their plans.

Mr. Lancaster: To ask the Deputy Prime Minister how many planning permission applications have been granted for mobile phone masts in North East Milton Keynes since1997. [27174]

Yvette Cooper: The information requested is not held centrally and could be provided only at disproportionate cost.

However, during September and October every year the mobile network operators write to every local authority with details of their network rollout for the year ahead. When they write to the local authority they also provide details of their existing sites within the local authority area. My hon. Friend may want to contact the network operators for copies of their plans.

Mr. Hollobone: To ask the Deputy Prime Minister how many planning permission applications for mobile telephone masts in the Kettering constituency have been *(a)* granted, *(b)* granted on appeal and *(c)* refused in each year since 1997. [27296]

Rosie Cooper: To ask the Deputy Prime Minister if he will list the planning applications which have been granted for mobile phone masts in West Lancashire since 1997. [27700]

Yvette Cooper: I refer the hon. Members to the answer given on 2 November 2005, *Official Report*, column 1066W to my hon. Friend the Member for Coventry, South (Mr. Cunningham).

Outdoor Advertising

Mrs. Spelman: To ask the Deputy Prime Minister what plans the Government have to amend planning regulations on outdoor advertising controls; and if he will make a statement. [26917]

Yvette Cooper: The Office of the Deputy Prime Minister will be consulting on amended regulations on outdoor advertisement control later this year. We expect the new advertisements regulations to be introduced in 2006.

Park Homes

Mr. Lidington: To ask the Deputy Prime Minister if he will make a statement on the Government's policy on the charging by park home operators of commission on sale. [24411]

Yvette Cooper: Paragraph 8(2) of schedule 1 to the Mobile Homes Act 1983 entitles park owners to receive a commission on the sale of a park home, not exceeding a rate specified by the Secretary of State. The current maximum rate is 10 per cent. and is specified in the Mobile Homes (Commissions) Order 1983.

The Office of the Deputy Prime Minister is planning to issue a consultation paper early next year exploring the basis for changes to the commission rate. This will draw on the research report on the Economics of the Park Homes Industry, published in 2002.

Pathfinder Projects

Mrs. Spelman: To ask the Deputy Prime Minister for what reasons the Government are demolishing homes in the Pathfinder project areas; and if he will publish the criteria used for such decisions. [17253]

Yvette Cooper: The nine pathfinders are working in parts of our northern cities and towns where three years ago the prices of houses fell well below their apparent worth. Those who could do so moved out. Homes were abandoned and some of the most disadvantaged in our society became trapped in neighbourhoods characterised by dereliction, crime, anti-social behaviour and poor services. This market collapse was an extreme manifestation of a wider problem of low demand which the Housing Market Renewal Fund addresses.

The Government are investing £1.2 billion up to March 2008 to tackle the mismatch of supply and demand in these areas, providing people with a choice of good quality housing fit for the 21st century and re-creating sustainable communities. Refurbishment, new build and some demolition are part of this approach as well as action with partners to improve economic and job prospect, education, crime and behaviour and health, tackle dereliction, provide high quality public space and capitalise on the rich heritage of many areas.

Each pathfinder has in place its own arrangements to assess options and appraise projects.

Jim Cousins: To ask the Deputy Prime Minister whether Housing Market Renewal Pathfinder schemes are permitted to make their minutes and papers available to hon. Members who represent pathfinder areas; and whether they are covered by the Freedom of Information Act 2000. [24255]

Yvette Cooper: The Housing Market Renewal Pathfinders are permitted to make their minutes and papers available to hon. Members who represent their pathfinder areas.

For Freedom of Information purposes the pathfinders should be considered part of the local authority which acts as its 'accountable body'. Therefore the legal duty to respond to an FOI request falls to the accountable body.

Planning

Mr. Letwin: To ask the Deputy Prime Minister if he will make a statement on the discretion of local authority planning committees to delegate decisions to unelected officers. [27322]

Yvette Cooper: The Office of the Deputy Prime Minister (ODPM) regards the delegation of suitable decisions to officers as an effective way to improve timeliness of decision making, which is why ODPM encourages all local authorities to adopt a comprehensive system of delegation.

Decisions can only be delegated to officers by elected members and so they determine the terms on which a delegated agreement operates, the level of member involvement, and the circumstances in which an officer's delegated power to make a decision may not be exercised.

The LGA and ODPM have jointly published revised guidance on schemes of delegation called "Delivering Delegation". Apart from re-affirming policy on delegation, the new document will give details on the types of decisions that can be delegated and best practice models of delegation schemes.

Mike Penning: To ask the Deputy Prime Minister if he will review planning policy guidance; and if he will make a statement. [24078]

Yvette Cooper: I refer the hon. Member to the answer given to the hon. Member for Meriden (Mrs. Spelman) on 11 July 2005, *Official Report*, column 810W.

Regional Fire Control Centres

Mark Pritchard: To ask the Deputy Prime Minister what progress has been made towards establishing the West Midlands Regional Fire Control Centre; and if he will make a statement. [26841]

Jim Fitzpatrick: Good progress has been made on all aspects of the project. In August, Wolverhampton Business Park was chosen as the site for the West Midlands regional fire control centre, following a fair

and transparent procurement process. The building has recently received full planning permission. The West Midlands Regional Management Board have indicated their willingness to set up a local authority company as the governing entity for the centre, subject to a full consultation on the detailed proposals. Meanwhile, the procurement for the technology/infrastructure services that will supply all the new regional controls is well under way, and should be completed by spring 2006.

Mark Pritchard: To ask the Deputy Prime Minister for what reasons the Outline Business Case for the Regional Fire Control Centres has not yet been published. [26842]

Jim Fitzpatrick: The Fire Control Outline Business Case was published in January 2005, and is available on the project website at www.firecontrol.odpm.gov.uk

Respect Unit

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to his answer of 27 October 2005, *Official Report*, column 489W, on respect, which of the programmes listed are within the remit or responsibility of the Home Office. [24701]

Jim Fitzpatrick: Two of the four programmes listed in my earlier answer are ODPM programmes entirely and the Home Office have no remit or responsibility for them. The Safer and Stronger Communities Fund is a joint Home Office and ODPM programme, which also now incorporates the ODPM programme 'Cleaner, Safer, Greener' referred to in my earlier answer.

Self-invested Personal Pensions

Mr. Greenway: To ask the Deputy Prime Minister what steps he is taking to protect houses in rural areas from purchase as second homes by holders of self invested personal pensions. [24101]

Yvette Cooper: The Office of the Deputy Prime Minister does not envisage that changes to self-invested personal pensions (SIPPs) introduced by colleagues in the Treasury will have any significant effect on housing markets in either rural or urban areas. In July we launched the Affordable Rural Housing Commission and invited it to consider the evidence and reach consensus on the relevant issues around affordable housing needs in rural areas. It is likely that the Commission will wish to consider the positive and negative aspects of second homes. The Commission will report next year.

Smoke Alarms

Mike Penning: To ask the Deputy Prime Minister whether his Department plans to issue guidance to fire services on the need to ensure smoke alarms provided to deaf and hard of hearing people meet the British Standard BS 5446–3.2005. [26774]

Jim Fitzpatrick: The Government is funding free smoke alarms for 1.25 million vulnerable households in England under the £25 million Home Fire Risk Check initiative over the period 2004–08. Many FRSs are fitting alarms for the deaf and hard of hearing under this initiative. Specific advice is already included in guidance prepared by the Chief Fire Officers Association. In summary, people who use hearing aids may be able to hear conventional interconnecting alarms, but if this is found not to be the case, specialist alarms should be fitted. We would expect all smoke alarms to meet appropriate British Standards.

Regeneration (North Northamptonshire)

Mr. Hollobone: To ask the Deputy Prime Minister what assessment he has made of the potential for a merger between Catalyst Corby and North Northants Together. [19477]

Yvette Cooper: The Government believe that a merger between Catalyst Corby and North Northants Together would be beneficial to regeneration and sustainable growth in North Northamptonshire and has invited local partners to consider this. It would give a clear single voice to the area on growth and regeneration issues and strengthen delivery capacity for capital infrastructure projects.

The Government recently received the formal merger proposals from both bodies and are considering their response.

Written Answers to Questions

Tuesday 15 November 2005

WALES

Airports

Mrs. James: To ask the Secretary of State for Wales if he will make a statement on the development of regional airports in Wales. [27215]

Mr. Hain: The Transport (Wales) Bill will give the Assembly a specific power to provide financial assistance in respect of air services and airport facilities, where these would not otherwise be provided. The Bill received its Second Reading in another place on 1 November.

The Assembly Government are keen to exploit the potential of air transport within Wales. Following an extensive consultation exercise, it proposes to take forward a service from Swansea and Cardiff to Valley on Anglesey. This service would operate two flights a day in each direction. It would provide significant time savings for passengers and improve business links. The Assembly Government will be working with their partners to launch this service in 2006, subject to obtaining the necessary approvals and consents.

Criminal Offences

Simon Hughes: To ask the Secretary of State for Wales if he will list the criminal offences created in legislation sponsored by his Office from May 1997 broken down by act. [28987]

Nick Ainger: The information is as follows:

Government of Wales Act 1998: (Responsibility of Welsh Office)

Section 96-Offence relating to preservation of order;

Section 72-Offence relating to integrity;

Section 75-Offence relating to witness and documents;

Section 145C-Offence relating to studies relating to registered social landlords;

Schedule 13-Offence relating to Welsh Development Agency disclosure of information.

Public Audit (Wales) Act 2004: (Responsibility of Wales Office)

Section 5-Offence relating to studies relating to registered social landlords;

Section 19-Offence relating to Auditor's rights to documents and information;

Section 27-Offence relating to Additional publicity for immediate reports;

Section 29-Offence relating to inspection of statements of accounts and auditors' report;

Section 39-Offence relating to accounts and audit regulations;

Section 47-Offence relating to publication of information as to standards of performance;

Section 53-Offence relating to rights of Auditor General for Wales to documents and information;

Section 54-Offence relating to restriction on disclosure of information;

Section 54A-Offence relating to restriction on disclosure of information by or on behalf of public authority.

Public Services Ombudsman (Wales) Act 2005 (Responsibility of Wales Office)

Section 17-Offence relating to publishing reports;

Section 26-Offence relating to disclosure of information.

IT Projects

Mr. Laws: To ask the Secretary of State for Wales how many IT projects have been developed for his Department since 2001; and whether he has agreed to make public Gateway Reviews for these projects *(a)* in full and *(b)* in part. [23495]

Mr. Hain: None.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Abandoned Cars

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many abandoned cars *(a)* were recorded in each local authority in England in 2004–05 and *(b)* are predicted for 2005–06. [27891]

Mr. Bradshaw: The data on how many abandoned cars were recorded in each local authority in 2004–05 are still being collated and we intend to make this information available as soon as possible.

It is not possible to predict the number of cars abandoned for future years, as several variables such as the price of scrap metal can have significant impacts on the number of cars abandoned.

Avian Influenza

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs if she will compensate poultry keepers who report a possible infection with avian influenza who are then affected by further cases during the time taken by the Department to carry out the necessary tests. [27523]

Mr. Bradshaw: In the event of an avian influenza outbreak, compensation would be payable under Schedule 3 of the Animal Health Act 1981 against the number of healthy birds destroyed at time of slaughter.

Anne Main: To ask the Secretary of State for Environment, Food and Rural Affairs what financial resources have been made available by her Department to publicise the procedures that should be followed by local authorities who suspect the presence of Avian influenza; and if she will make a statement. [27525]

Mr. Bradshaw: Existing legislation requires that any person including a local authority who suspects the presence of Avian influenza in poultry must report it to the local office of the State Veterinary Service.

No additional funding has been made available to local authorities for this purpose. However, consideration is being given to the way work following an outbreak that local authorities may undertake should be funded.

Rosie Cooper: To ask the Secretary of State for Environment, Food and Rural Affairs what contingency planning has been undertaken in West Lancashire to protect against an outbreak of avian influenza, with particular reference to Martin Mere; and if she will make a statement. [27657]

Mr. Bradshaw: The Government have significantly enhanced the arrangements for surveillance of wild birds, including the investigation of die-offs and sampling at shoots and wetlands. These arrangements have been agreed as part of coordinated efforts across the European Union.

Martin Mere is a wildfowl and wetlands trust that is fully aware of avian influenza and what to look for. They would notify their local Animal Health Office should they suspect avian influenza or other notifiable disease.

Defra has recently reviewed and updated its contingency plans and, following a period of public consultation, the Exotic Animal Disease Generic Contingency Plan, which includes a section dealing specifically with an outbreak of avian influenza. The plan is regularly tested and was laid before Parliament on 21 July 2005. It is also available on the Defra website. In the event of an outbreak in GB the plan would be invoked immediately.

Mr. Graham Stuart: To ask the Secretary of State for Environment, Food and Rural Affairs what plans the Government have *(a)* to prevent the release of game birds and *(b)* to ban driven shooting in the event of an outbreak of avian influenza. [24450]

Mr. Bradshaw: There are no plans to treat game bird activity any differently from the remainder of the poultry industry. Restrictions on the movement of poultry in the event of an outbreak are contained within the Diseases of Poultry Order 2003. Game birds fall within the definition of poultry within this Order if they are reared or kept in captivity.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what is the current average period between a bird's death in quarantine and a veterinary investigation taking place into the cause of the bird's death. [24649]

Mr. Bradshaw: Guidelines to the state veterinary service allow a local veterinary inspector (LVI) to hold dead birds in a fridge or freezer for up to 10 days, if they do not suspect the presence of a notifiable disease, prior to sending them for testing.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs in how many bird deaths in quarantine which were investigated was a specific cause of death identified in 2004–05. [24650]

Mr. Bradshaw: All birds dying in quarantine must be tested for the presence of the avian influenza and Newcastle disease viruses. No other tests are routinely performed. An importer, however, may carry out other tests privately.

Since November 2001 there have been four cases of highly pathogenic Newcastle disease and three cases of low pathogenic Newcastle disease (PMV1) in quarantine. There has been one case of avian influenza (H5N1), identified on the 21 October 2005.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what guidance she has issued to workers in *(a)* the commercial care of birds sector and *(b)* bird quarantine centres on whether they should attend events where there are large collections of birds; [25686]

(2) what guidance she has issued to workers in *(a)* the commercial care of birds sector and *(b)* bird quarantine centres who are also engaged in employment within the NHS. [25687]

Mr. Bradshaw: DEFRA has distributed guidance materials on avian influenza to a range of industry groups-including the British Poultry Council, the British Egg Industry Council and the National Farmers Union-who are helping to distribute this material to their members, who cover the majority of birds. A simple one-page leaflet on biosecurity and surveillance for smaller concerns and backyard keepers has also been produced and has been distributed widely including to all veterinary practices and placed in trade and specialist press targeting the same audience .

DEFRA take very seriously and liaises closely with Department of Health, Health Protection Agency and the Health and Safety executive, who lead in this area. Guidance on worker protection has been issued by an industry and cross departmental working group and is available on the avian influenza pages of the DEFRA website.

Gatherings of birds at markets, shows, fairs and similar events are currently prohibited except under license following a veterinary risk assessment and which impose strict biosecurity requirements.

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs how many licensed quarantine sites for birds there are in *(a)* the Hemel Hempstead constituency and *(b)* Hertfordshire. [25813]

Mr. Bradshaw: According to the records we have, there are currently no licensed quarantine sites for birds within either the Hemel Hempstead constituency or Hertfordshire.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs under what circumstances the Government will pay for the testing of poultry for avian influenza. [26831]

Mr. Bradshaw: All imported poultry must be accompanied by a health certificate, as laid down in EU legislation. The health certificate contains an official statement confirming that the birds are healthy and the premises and area of origin are free from avian influenza. Poultry is not required to be tested prior to export to the UK.

Where samples are taken from poultry for the purposes of ascertaining if those poultry are infected with the avian influenza virus, the tests carried out in the official laboratory are not charged directly to the owner of the poultry. Similarly, for any poultry that dies within 14 days of arrival the cost of testing for avian influenza would be borne by the Government.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department has identified strains of avian influenza closely

related to H5N1 already in England; and what assessment she has made of the epidemiological implications of co-infection with H5N1 in a single host. [24009]

Mr. Bradshaw: The last H5 avian influenza virus to be isolated in England was the H5N1 virus responsible for the outbreak of highly pathogenic avian influenza in turkeys in Norfolk in 1991–92. This virus is genetically distinguishable from the H5N1 viruses currently causing the problems in East Asia and the virus isolated recently in quarantine birds in Essex.

The genetic material (RNA) of influenza viruses is segmented into eight distinct genes, which code for 10 proteins. Because this viral RNA is segmented, genetic reassortment can occur in mixed infections with different strains of influenza A viruses. This means that when two viruses infect the same cell, progeny viruses may inherit sets of eight RNA segments made up of combinations of segments from either of the parent viruses. The epidemiological significance of this for humans is that in theory if, for example, an H5N1 virus and a human influenza virus infect the same animal and same cell a reassortant virus could emerge that possessed the virus genes that enabled it to be transmissible in humans, but with the H5 haemagglutinin gene, which would mean that humans had no immunity to this virus. This mechanism is thought to have been the way the H2N2 and the H3N2 pandemic viruses emerged in 1957 and 1968 respectively.

Beef Exports

Mr. Crabb: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she has taken since May to promote the export of British beef; and what recent assessment she has made of the prospects for beef exports. [17482]

Mr. Bradshaw: Promotion of beef exports is undertaken primarily by the Meat and Livestock Commission (MLC), their devolved bodies such as Hybu Cig Cymru in Wales and the beef industry itself. The Government recently fully supported their efforts to promote British beef at the International Food Fair, ANUGA, in Cologne in early October. On 14 October, Lord Bach held a high level meeting with the industry, agreeing to work together on opening up export markets for beef once the export ban is lifted.

The European Commission has acknowledged that the essential preconditions for lifting the EU export ban have been fulfilled. We are now awaiting proposals from the Commission for legislation to lift the ban. Such proposals would have to be submitted to EU member states to consider in the Standing Committee for the Food Chain and Animal Health (SCoFCAH). If the member states were to vote in favour of the proposals in SCoFCAH, they would be translated into all EU languages and presented to the College of Commissioners for formal adoption. We hope that these processes will be completed in early 2006. but this is a best case scenario. We will continue to argue for an early resumption of beef exports.

The MLC estimate that UK beef exports could be about 40,000 tonnes, divided equally between prime beef and cow beef, in the first year after the ban is lifted.

Biodegradable Waste Pilot Schemes

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs where the 10 pilot plants funded by the Waste Implementation Programme for new waste technologies for the treatment of biodegradable municipal waste will be sited; and what types of technology will be used. [27099]

Mr. Bradshaw: The information requested is as follows:

Defra's Waste Implementation Programme—New Technologies Demonstration Programme

Subject to contractual closure and also planning, permitting and licensing requirements the following projects have been identified as possible demonstration projects:

ADAS—In-vessel composting sited in Somersham, Cambridgeshire

Novera Energy—Gasification situated near Frog Island, East London

South Shropshire/Greenfinch—Anaerobic Digestion sited at Ludlow, South Shropshire

Bioganix—In-vessel composting situated at Leominster, Herefordshire

SITA/Golder—MBT/Anaerobic digestion sited at Packington Landfill site, Warwickshire

Compact Power—Pyrolysis/Gasification sited at Avonmouth, Bristol

Yorwaste—Gasification sited at Seamer, Scarborough, North Yorkshire.

Premier Waste—Aerobic digestion sited in County Durham

Energos—Gasification sited on the Isle of Wight.

Biofuels

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what support is available to farmers to grow crops for biofuels. [22176]

Mr. Morley: Help is available to farmers to grow crops for use in the generation of biomass heat and electricity and transport biofuels. £29 million was made available under the Energy Crops Scheme to support the planting of short rotation coppice (SRC) and miscanthus, and the setting up of producer groups to supply SRC to biomass heat and electricity end-users. The £3.5 million Bio-energy Infrastructure Scheme, which is now closed for applications, provides grants to develop the supply chain for purpose-grown energy crops, straw and woodfuel from harvest through to delivery to biomass energy end-users. Defra-funded research projects on crops for biomass heat and electricity are looking to develop disease resistant varieties and increase yields. Best practice guidance is available for growing SRC and miscanthus. Farmers growing crops for biomass heat and electricity and transport biofuels can receive the Single Payment for certain crops grown on set-aside or where the 45/ha Energy Aid payment is claimed for crops on non set-aside land. It was announced on 10 November that the Government will introduce a Renewable Transport Fuels Obligation which will require 5 per cent. of transport fuel sold in the UK to come from a renewable source by 2010. This may open up opportunities for farmers to supply crops to be used to produce biofuels.

Bird Markets

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what compensation will be offered to those who cannot hold bird markets and auctions as a result of the European Commission's Decision 2005/745/EC. [27521]

Mr. Bradshaw: It is not Government policy to compensate for losses consequent upon the implementation of EU legislation.

Bovine Tuberculosis

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with the Prime Minister on a policy towards bovine tuberculosis. [28033]

Mr. Bradshaw: My right hon. Friend the Secretary of State holds regular meetings with the Prime Minister and other colleagues on a range of issues.

Cetacean By-catch

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with *(a)* the European Commission, *(b)* France and *(c)* other EU member states regarding actions necessary to reduce cetacean by-catch. [27402]

Mr. Bradshaw *[holding answer 11 November 2005]:* Previous discussions with the European Commission and other member states, following pressure from the UK, resulted in the adoption in April 2004 of Community measures to address cetacean by-catch (Council Regulation EC No. 812/2004). These measures include the mandatory use of observers to widen knowledge of where by-catch occurs and the use of pingers to deter porpoises from gill nets. A review of the effectiveness of these measures is due to take place in 2007–08.

More recently, pressure from the UK in relation to common dolphin by-catch in the Western Channel secured agreement at the Agriculture and Fisheries Council of Ministers' meeting in March 2005 to an early review by the International Council for the Exploration of Sea (ICES) of the interaction of fisheries and common dolphins in the North East Atlantic. Following publication of this ICES advice, Commissioner Borg has written in September 2005 to all member states stressing the urgent need to provide timely reports to the Commission on the results from the observer schemes required under the council regulation to ensure that any future by-catch reduction measures can be targeted effectively.

Climate Change

Lynne Featherstone: To ask the Secretary of State for Environment, Food and Rural Affairs if she will support legally binding targets to tackle climate change. [28798]

Mr. Morley: As yet, there have been no formal intergovernmental discussions of the design of a future commitment period under the Kyoto protocol. The UK will chair the EU at the UN climate change conference at the end of this year at which the first formal discussion will take place when the parties of the Kyoto protocol meet for the first time.

The EU is also looking forward to using this discussion to initiate a process among all parties to explore how to implement better the UN Framework Convention on Climate Change. Following this conference, next year we plan to start discussions to prepare the UK position on further action.

The UK Government and the EU want to build on the Kyoto protocol and its key elements such as targets and timetables, monitoring and reporting, compliance and the flexibility mechanisms for the period after 2012. At the March meeting of the European Council of Ministers, the European Heads of Government stated that the EU looks forward to exploring with other parties strategies for achieving necessary emission reductions and believes that in this context, reduction pathways for the group of developed countries in the order of 15–30 per cent. by 2020, compared to the baseline envisaged in the Kyoto protocol and in the spirit of the conclusions of the Environment Council should be considered.

Peter Law: To ask the Secretary of State for Environment, Food and Rural Affairs what proposals the United Kingdom plans to put to the 11th Session of the Conference of the Parties to the Climate Change Convention to be held in Montreal from 28 November to 9 December. [28950]

Mr. Morley: The EU agreed its negotiating strategy for the upcoming Montreal conference at the Environment Council of 17 October. Its priority is to get the Kyoto Protocol off to a good start and ensure it is operating efficiently. This includes adoption of the Marrakech Accords, the rule book for the protocol. The EU confirmed its determination to meets its commitments under the UN Framework Convention and Protocol, including on funding to assist developing countries. The EU also set an objective to launch discussions on a process to determine further action after the Kyoto Protocol first commitment period.

Energy Efficiency

Rosie Cooper: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are being taken to encourage progress in promoting household energy efficiency in West Lancashire. [27837]

Mr. Morley: The Government funds the Energy Saving Trust to deliver energy efficiency solutions to household consumers. Through its network of local Energy Efficiency Advice Centres, the Trust provides advice on energy efficiency to consumers and refers them to any grants or offers for energy efficiency measures available in their area. The Lancashire Energy Efficiency Advice Centre provides advice and support to West Lancashire.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what changes Ofgem has made in the last six months to its scoring and value of insulation measures when assessing measures being taken under the energy efficiency commitments. [27849]

Mr. Morley: Ofgem has made no changes in the last six months to the improvements in energy efficiency that it determines for insulation measures under the Energy Efficiency Commitment 2005–08.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact of fuel suppliers being able to carry over unlimited energy savings from Energy Efficiency Commitment 2002–05 to Energy Efficiency Commitment 2005–08 upon the number of homes which will have to be insulated in order to meet the reduction targets; and if she will make a statement. [27918]

Mr. Morley: Ofgem's report to the Secretary of State on the Energy Efficiency Commitment (EEC) 2002–05 includes an assesment of the transitional provisions to the EEC 2005–08, which enabled energy suppliers to start work early on their targets for EEC 2005–08 and energy efficiency activity to continue without interruption. We will take account of the impact of these provisions both in our monitoring of the EEC 2005–08 and in our consideration of proposals for the EEC 2008–11, including the transitional provisions to that phase. It is open to energy suppliers how they will meet their targets for the promotion of improvements in energy efficiency under EEC 2005–08.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how much has been provided to the HEAT project through the energy efficiency commitment in each year of its operation; [27922]

(2) how many dwellings have had energy efficiency measures installed through the HEAT programme, broken down by *(a)* type of measure and *(b)* total funding provided; and what proportion of these were assessed as fuel poor. [27923]

Mr. Morley: While I understand that H EAT is an energy supplier's scheme under the Energy Efficiency Commitment (EEC), Ofgem, who administers the EEC does not report on an individual scheme basis. Ofgem's report to the Secretary of State "A Review of the Energy Efficiency Commitment 2002–05" sets out for each energy supplier the percentage of energy savings achieved towards its target according to the types of measures delivered—insulation, heating, appliances and lighting. For each type of measure the percentage of savings achieved in the priority group of low-income consumers is specified.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many dwellings have been insulated in each year since the inception of the energy efficiency commitments; what percentage of the target set for each year this represents; and how many she estimates will be insulated through the second round of energy efficiency commitments of 2005 to 2008. [27924]

Mr. Morley: Under the Energy Efficiency Commitment (EEC), it is open to energy suppliers how they meet their targets for the promotion of improvements in energy efficiency. During the EEC 2002–05, 367,070 cavity wall insulation, 224,521 loft insulation (professional), 330,274 loft insulation (DIY) and 17,689 solid wall insulation measures were installed. The target for the EEC 2002–05 was set for the three-year period and these measures represent 38 per cent. of the target. (Figures are not available on an annual basis and do not reflect the number of dwellings insulated, since some may have received both loft and wall insulation.)

Mr. Anthony Wright: To ask the Secretary of State for Environment, Food and Rural Affairs how many households in *(a)* Great Yarmouth constituency and *(b)* Norfolk have received assistance under the Warm Front Scheme in each of the last five years. [28041]

Mr. Morley: Between the launch of the Warm Front Scheme in June 2000 and the end of March 2005, the number of households assisted in each year in the Great Yarmouth constituency was as follows:

	Number
2000–01	163
2001–02	464
2002–03	471
2003–04	246
2004–05	474
Total	1,818

During the same period, the number of households assisted in Norfolk was:

	Number
2000–01	1,007
2001–02	3,795
2002–03	2,608
2003–04	1,912
2004–05	2,835
Total	12,157

Essential Chlorofluorocarbons

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the UK's position relative to that of other countries in respect of Annex I of Commission Decision 2005/626/EC, OJ L 224 volume 48 of 30 August on the definition of essential chlorofluorocarbons. [27754]

Mr. Morley: Under the Montreal Protocol, which phases out chlorofluorocarbons (CFC's), CFC's can continue to be used in pharmaceutical metered dose inhalers (MDI's), until the party concerned declares that use to be non-essential. The EU (and corresponding UK) Transition Strategy for the Phase Out of CFC's in MDI's sets out how the transition away from CFC's in MDI's will be managed.

The Transition Strategy states that when an adequate number and range of CFC-free metered dose inhalers (MDIs) to meet patient needs are available for an individual drug, the use of CFCs will no longer be considered essential for that drug product. To date, the UK has declared salbutamol as non essential.

The variations between EU member states, shown in Annex 1 of Commission Decision 2005/626/EC, are partly dependent on clinical practice which varies from country to country. The majority of products listed in Annex 1 are either not marketed in the UK or are not available as MDI's, hence the UK has had no need to declare the use of CFCs as non-essential.

The European Commission, with member states, is currently reviewing the scope for further declarations of non-essentiality in relation to a number of other drug products used in inhalers. Following this review the UK may be in a position to declare further drug products non-essential.

Fishing

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what the Government's policy is on the use of fixed bolt rigs in lakes in England. [27134]

Mr. Bradshaw: The use of fixed bolt rigs is legal if used in conjunction with a licensed rod and line and in accordance with fishery byelaws.

To encourage anglers to take a responsible approach to their sport, the National Angling Alliance has produced a Code of Conduct for Coarse Anglers. This has been endorsed by the Environment Agency. This code includes advice on how bolt rigs should be used to minimise the risk to fish.

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what the Government's policy is on whether fishing lakes and rivers should have a closed season. [27135]

Mr. Bradshaw: Fishing close seasons in England and Wales are specified in the Salmon and Freshwater Fisheries Act, 1975, and byelaws made under that Act. The rationale for the statutory close seasons is to protect fisheries from the impacts of angling during the spawning season. Coarse fish are returned alive to fisheries and therefore a close season for these species may no longer be justified on all waters.

The close season for coarse fish runs from 15 March to 15 June inclusive on all rivers, the Norfolk Broads and on some stillwater Sites of Special Scientific Interest. It also applies to several canals which have multiple connections with neighbouring rivers.

The statutory coarse fish close season has been removed on canals and on all other stillwaters.

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government is taking to stop the poaching of *(a)* carp, *(b)* bream, *(c)* pike and *(d)* tench in lakes in England. [27137]

Mr. Bradshaw: "Poaching", whether for these or other fish species, generally refers to taking fish using illegal methods, and/or taking fish without the owner's permission, i.e. theft. It cuts across the roles and responsibilities of the fishery owner, the Environment Agency and the Police.

The Environment Agency is responsible for regulating fishing methods, under the Salmon and Freshwater Fisheries Act, 1975. Individual fishery owners and the police are responsible for enforcing the Theft Act, 1968.

The Environment Agency does not have the powers to prosecute under the Theft Act, but will work with the police to bring prosecutions where both theft and illegal fishing offences are committed.

The Environment Agency takes an intelligence-led approach to programming enforcement and offence detection. It will respond to reports of illegal fishing in line with its customer charter. When it detects an offence and can gather sufficient evidence, it will take further action in line with its enforcement and prosecution policy.

The Environment Agency and the police support local "fishwatch" schemes, whereby fishery owners share information on suspicious activity.

Flooding/Flood Defences

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost of flooding to the economy was in 2004–05; and how this is predicted to change in future years. [27880]

Mr. Morley: Defra has made no estimate of the cost of actual damage due to flooding in 2004–05. Our latest National Assessment of Defence Needs and Costs study estimated average annual damages from flooding at some £1 billion per year. However it must be emphasised that this is an expected average over the very long term derived by combining the potential damages from a wide range of possible events from the rare and extreme to the very frequent with their probabilities to provide an estimate of the annual expected average. It is not a useful estimate for any specific year.

Climate change has the potential to increase probability of flooding due to increases in sea level and potential changes in the frequency, duration and intensity of storms. Increased economic wealth will also tend to increase the value of losses. In 2004 the Foresight 'Future Flooding' report, sponsored by the Office of Science and Technology, estimated that, taking these and other factors into account, annual average flood damages could increase by between two and 20 times by the end of the century. The actual increases will be highly dependent on actual patterns of growth, development and future flood management activity.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what research the Department and its related agencies has commissioned on flood defence policy since 1997; and how much this research has cost. [25459]

Mr. Morley: The Department and the Environment Agency have a joint user-oriented thematic programme of research and development addressing the management of risks from flooding and coastal erosion.

This joint R&D programme covers all aspects of flood and coastal erosion risk management, from design, planning, monitoring and appraisal, through to research to support development of flood and coastal policy and guidance.

Defra and the Environment Agency have commissioned around 200 projects with a range of academic and non-academic establishments since 1997. The details of most projects, including all recent technical reports, are available from http://www.defra.gov.uk/environ/fcd/research/RandDProjects.htm

Approximately £26 million was spent on this research between 1997–98 and 2004–05. Defra has provided approximately two thirds of the funding in each year.

Foot and Mouth

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the recent foot and mouth emergency exercise held in Truro. [28031]

Mr. Bradshaw: The exercise in Truro was routine, and one in an on-going programme of exercises held every year by the State Veterinary Service.

Some of our major stakeholders attended the exercise as observers and we received very positive and constructive feedback from them. Those stakeholders included representatives from the National Farmers' Union, the Police, and Cornwall County Council Trading Standards and Emergency Planning Department.

FTSE 350 (Environmental Performance)

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will place in the Library the latest list of FTSE 350 companies that report on their environmental performance. [27893]

Mr. Morley: The most up to date information of which I am aware was published in the 2004 'Directions' report by Salterbaxter; I shall have a copy placed in the Library. 145 of the FTSE250 report to some extent on their environmental performance.

The new Operating and Financial Review and the EU Accounts Modernisation Directive are designed to improve company reporting, and require companies to consider their environmental impacts. In addition, my Department will shortly be publishing a suite of Key Performance Indicators (KPIs) which will help companies manage and communicate the links between environmental and financial performance.

Greenhouse Gases

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether it is the Government's policy to seek international agreement for a successor to the Kyoto Protocol containing binding greenhouse gas reduction targets. [27912]

Mr. Morley: As yet, there have been no formal inter-governmental discussions of the design of a future commitment period under the Kyoto Protocol. The UK will chair the EU at the UN climate change conference at the end of this year at which the first formal discussion will take place when the Parties of the Kyoto Protocol meet for the first time.

The EU is also looking forward to using this discussion to initiate a process among all parties to explore how to implement better the UN Framework Convention on Climate Change. Following this conference, next year we plan to start discussions to prepare the UK position on further action.

The UK Government and the EU want to build on the Kyoto Protocol and its key elements such as targets and timetables, monitoring and reporting, compliance and the flexibility mechanisms for the period after 2012. At the March meeting of the European Council of Ministers, the European Heads of Government stated that the EU looks forward to exploring with other parties strategies for achieving necessary emission reductions and believes that in this context, reduction pathways for the group of developed countries in the order of 15 to 30 per cent. by 2020, compared to the baseline envisaged in the Kyoto Protocol and in the spirit of the conclusions of the Environment Council should be considered.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what research the Government have commissioned into the viability of an international agreement to reduce greenhouse gas emissions that does not contain binding targets. [27913]

Mr. Morley: Currently no such research has been commissioned by this Government. As yet, there have been no formal intergovernmental discussions of the design of a future commitment period under the Kyoto Protocol. The UK will chair the EU at the UN climate change conference at the end of this year at which the first formal discussion will take place when the parties of the Kyoto Protocol meet for the first time.

The EU is also looking forward to using this discussion to initiate a process among all parties to explore how to implement better the UN Framework Convention on Climate Change. Following this conference, next year we plan to start discussions to prepare the UK position on further action.

The UK Government and the EU want to build on the Kyoto Protocol and its key elements such as targets and timetables, monitoring and reporting, compliance and the flexibility mechanisms for the period after 2012. At the March meeting of the European Council of Ministers, the European Heads of Government stated that the EU looks forward to exploring with other parties strategies for achieving necessary emission reductions and believes that in this context, reduction pathways for the group of developed countries in the order of 15 to 30 per cent. by 2020, compared to the baseline envisaged in the Kyoto Protocol and in the spirit of the conclusions of the Environment Council should be considered.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what scientific advice the Government have received on the level of greenhouse gas reductions required by 2050 to avoid unacceptable risk of extreme climate change. [27914]

Mr. Morley: The ultimate objective of the United Nations Framework Convention on Climate Change is stabilisation of greenhouse gas concentrations in the atmosphere at a level that avoids "dangerous anthropogenic interference with the climate system". As yet there is no consensus on what constitutes this level. It is, however, accepted that dangerous levels will be different for different impact sectors and for different regions.

The Environment Council stated in 1996 that adaptation to a global temperature rise of 2C would be possible, but that the impacts associated with a temperature rise greater than 2°C are likely to be severe enough to be classified as 'dangerous'. A 2°C temperature rise was the starting point for the analysis carried out in preparation for the Energy White Paper, underpinning the conclusion by the Royal Commission

on Environmental Pollution Secretariat that we should put the UK on a path to reducing carbon emissions by 60 per cent. by 2050.

Our scientific understanding of the links between atmospheric greenhouse gas concentration, the scale of emissions reductions required and the risk of extreme climate change is rapidly developing, but still uncertain. The issue of stabilisation levels of atmospheric greenhouse concentrations was addressed at the Defra-funded international science conference, Avoiding Dangerous Climate Change, held in Exeter in February this year. The report of the steering committee concluded that:

"Compared with the [Intergovernmental Panel on Climate Change's] IPCC's Third Assessment Report (TAR) there is greater clarity and reduced uncertainty about the impacts of climate change across a wide range of systems, sectors and societies. In many cases the risks are more serious than previously thought".

Home Information Packs

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what representations her Department has made to the Office of the Deputy Prime Minister in relation to contaminated land information in home information packs. [26929]

Mr. Bradshaw: A submission was provided to the Office of The Deputy Prime Minister regarding the proposed inclusion of contaminated land reports in the home information pack, shortly before publication of the draft regulations for public consultation.

Illegal Logging

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking in respect of the UK Government's EU presidential role to build a multilateral approach under the Forests Law Enforcement Governance and Trade Action Plan; what other steps her Department is taking to tackle illegal logging effectively; and if she will make a statement. [27584]

Mr. Morley: The Government have used its presidencies of the G8 and EU to really focus on the issue of illegal logging and to promote the FLEGT Action Plan.

The Government see the bilateral approach of the Forests Law Enforcement Governance and Trade (FLEGT) dossier as an important way to develop experience in tacking illegal logging and to build the consensus that could lead to a multilateral agreement. The dossier, recently agreed under the UK presidency of the EU, allows for Partnership Agreements which will involve the establishment of a licensing scheme to ensure that only legal timber from Partner Countries is allowed into the EU.

Illegal logging was also one of two topics of discussion at the first ever G8 Environment and Development Ministerial meeting in Derbyshire in March 2005. Ministers agreed to a range of actions and officials will meet in 2006 to review progress.

The UK has also led in promoting and supporting Regional Forest Law Enforcement and Governance (FLEG) processes in order to intensify national efforts and strengthen bilateral, regional and multi-lateral collaboration to address violations of forest law and forest crime. The UK has, from late 2004, been working with Russia to develop the European and North Asia FLEG regional process. The first Ministerial meeting is taking place in St Petersburg this month, November 2005. Other regional processes which the UK supports are the East Asian and African FLEG processes, the Asia Forest Partnership and the Congo Basin Forest Partnership.

The UK Government also recognise that Government purchasing policies can also send a strong signal to the market and timber suppliers. Since 2000 the UK Government have committed its central departments to seek to procure products made from timber that has been legally harvested and grown in a sustainably managed forest or plantation. The UK timber trade tells us that this policy has been the single most important driver of change of behaviour in the UK private sector. As a leader in this field, this year the Government committed to extend guidance on legal and sustainable timber procurement to the wider public sector, and to share our knowledge on procurement with the G8 and other countries.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the content of the negotiation mandate agreed by EU member states to accompany the EU's new Forest Law Enforcement Governance and Trade Action Plan. [27784]

Mr. Morley: The Negotiating Mandate contains relevant guidelines that will contribute to the negotiation of successful Partnership Agreements with timber producing countries designed to achieve the ultimate elimination of illegally-produced timber from a partner country's trade. As it forms the basis of negotiations it is a restricted Community Document.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the EU to deliver the report on further legislative options to tackle the import of illegal timber into the EU; what steps she is taking to ensure that this report is delivered before the end of the UK presidency of the EU; and when she expects this report to go to public consultation. [27785]

Mr. Morley: Government are frustrated at the time that it has taken the European Commission to produce its report on additional options which is already delayed. Unfortunately due to time-tabling issues the report is now unlikely to be delivered until the Austrian presidency in early 2006 and should go for public consultation at the same time.

The Royal Institute of International Affairs, Chatham House are producing a report on the additional options available in the UK and my officials have been working with the Commission to support them to deliver the EU report.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what contribution her Department is making to the proposed

establishment of an EU Advisory Group to facilitate consultation on the Forest Law Enforcement Government and Trade Action Plan with civil society groups. [27818]

Mr. Morley: Government has valued the many opportunities they have had to consult with civil society in the development of the Forest Law Enforcement Government and Trade Action (FLEGT) Plan both at the UK and European level. This opportunity for consultation will continue and my officials will raise the proposal for an advisory group with EU colleagues.

Government are also supporting development in all prospective FLEGT partner countries of a better understanding of the FLEGT Action Plan and co-ordination of input from civil society in these countries.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions her Department has had with EU counterparts on independent monitoring and third party verification of the new EU Licensing Regulation under the EU Forest Law Enforcement Government and Trade Action Plan; and what assessment she has made of the effectiveness of the process. [27819]

Mr. Morley: Discussions on third party monitoring took place in the EU Forest Working Group during the development of the EU Forest Law Enforcement Government and Trade (FLEGT) Action Plan and are a feature of the EU's plans for implementing FLEGT.

The associated FLEGT licensing scheme will be implemented through voluntary partnership agreements, which will specify that timber products exported from timber-producing countries that sign these agreements to the EU must be covered by a FLEGT licence issued by each such country. These licences will state that the timber products have been produced from timber that was legally harvested or legally imported into the partner country in accordance with its national laws. The process of verifying that timber has been legally produced and properly licensed will be subject to third party monitoring. In addition independent monitors will have access to certain records concerning imports of licensed products into the EU.

DFID has supported a number of studies on third party monitoring, including the development of guidance for practitioners. The European Commission is currently funding additional work.

Junk Mail

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the proportion of junk mail which can be recycled; what estimate she has made of the proportion of paper waste represented by junk mail in the last year for which figures are available; and what steps the Government are taking to reduce the volume of junk mail. [27878]

Mr. Bradshaw: It is estimated that 550,000 tonnes of direct mail are produced each year. This represents approximately 4 per cent. of paper waste. In theory, all direct mail can be recycled. However, certain adhesives that are used in the production of some direct mail can contaminate the recycling process and consequently make recycling difficult and expensive in certain cases.

To reduce the volume of direct mail, the Government signed a voluntary agreement with the Direct Marketing Association (DMA) in July 2003, which set recycling targets to increase the recycling of direct mail to 70 per cent. by 2013. The agreement also encourages producers of direct mail to avoid using materials that contaminate the recycling process. In addition, the agreement aims to improve the targeting of direct mail, thereby reducing the volume of direct mail that is distributed in the first place by encouraging the use of suppression files, which are lists of people who have opted out of receiving direct mail.

Lakes

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to ensure lakes are well oxygenated. [27176]

Mr. Morley: In advance of implementation of the Water Framework Directive, there is no general requirement to ensure lakes are well oxygenated. It is worth noting that under natural conditions, upland lakes will tend to be well oxygenated and lowland lakes less well oxygenated. However, there are various measures to address the effects that human activities can have on the natural status of waters.

In England we have met the requirements of the EU Urban Waste Water Treatment Directive to provide secondary treatment for significant sewage discharges to lakes and other inland waters. This is the generally expected standard of treatment to protect the water environment, including the maintenance of dissolved oxygen levels, from the adverse effects of sewage discharges.

The Freshwater Fish Directive contains provisions for the monitoring of oxygen levels in waters designated under that Directive. Where water sample results do not comply with specified concentrations there may be a requirement to take appropriate measures, depending on whether non-compliance is a result of chance, natural phenomena, or anthropogenic pollution.

The EU Water Framework Directive which requires member states to achieve good ecological status for lakes by 2015. This will require that oxygen levels are either maintained or restored at appropriate levels in lakes to support the ecology as set out in the Directive.

Marine Environment (Monitoring)

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to determine the *(a)* levels of fluoxetine and norfluoxetine residues in UK aquatic environments and *(b)* impact on the environment. [27881]

Mr. Morley: The Environment Agency has published a briefing note on fluoxetine, and developed analytical methods for the detection of fluoxetine and norfluoxetine in river water. Investigational monitoring for these substances was undertaken in spring 2005 downstream of a small number of large sewage works in the North

West and Midlands. For the great majority of samples fluoxetine and norfluoxetine levels were below the limit of detection.

Further investigational monitoring downstream of sewage works is presently under way at a wider range of rivers sites across England and Wales. No results are available yet.

The Environment Agency briefing note on fluoxetine is available at: http://www.environment-agency.gov.uk/commondata/acrobat/fluoxetine__1068996.pdf.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what research has been carried out *(a)* by and *(b)* on behalf of her Department to establish the background levels of (i) cocaine, (ii) LSD, (iii) cannabis and (iv) other recreational drugs in (A) the aquatic environment and (B) drinking water; [27883]

(2) what steps she is taking to assess the impact on the environment of recreational drug residues in UK aquatic environments. [27884]

Mr. Morley: Recreational drugs will be subject to substantial dilution in the aquatic environment, resulting in concentrations many times lower than the doses taken, and background levels which are not thought to present a threat to the aquatic environment. This is supported by the EU "Poseidon" research report on endocrine disruptor and pharmaceutical residues, and the Environment Agency has not undertaken further research.

Ozone and carbon treatment installed at drinking water treatment works to remove traces of pesticides is also effective for a wide range of trace organic substances such that no significant quantities of recreational drugs will be detectable in tap water. No research has been commissioned or carried out by Defra.

Meat Imports

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what steps have been taken to ensure that imports of beef do not enter the United Kingdom from regions of Brazil which accept movements of beef from those regions where foot and mouth has been detected in cattle. [28800]

Mr. Bradshaw: Each consignment of imported meat must be accompanied by appropriate health certification. The certificate confirms the territory from which the animals originated. In addition the animal must have been subjected to ante- and post-mortem inspection and the meat must be deboned and matured. This process ensures that imported meat does not present a risk.

All meat imported into the EU from third countries must enter at designated Border Inspection Posts (BIPs) where it is subject to veterinary inspections. All consignments are subject to documentary and identity checks and at least 20 per cent. of consignments undergo physical checks. These ensure import conditions are met and that the products remain in a satisfactory condition during transport.

Nappies

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of how many families use washable nappies; and how many tonnes of waste disposable nappies have accounted for in each year since 1997. [25454]

Mr. Bradshaw: The Environment Agency's Life Cycle Assessment estimated that 6 per cent. of households with babies in nappies used washable nappies to some extent and that 94 per cent. used disposable nappies only.

We do not collect information on the amount of disposable nappies used nor of the disposal route.

The Strategy Unit report "Waste Not Want Not" estimated that in 2000–01 nappies comprised around 2 per cent. of household waste, equivalent to 350,000 tonnes.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate she has made of how many tonnes of disposable nappy waste have been saved through the use of washable nappies since 1997; [25455]

(2) what estimate she has made of how many tonnes of disposable nappy waste have been diverted from landfill since the Waste and Resources Action Programme Real Nappy Programme began in 2003. [27098]

Mr. Bradshaw: The Strategy Unit report "Waste Not Want Not" estimated that in 2000–01 nappies comprised around 2 per cent. of household waste, equivalent to 350,000 tonnes in England.

The WRAP programme has the objective of diverting 35,000 tonnes of nappy waste from landfill over the period of the programme up to 2006.

WRAP reports annually on its overall progress in meeting targets, including work under the Real Nappy Programme.

It is scheduled to report on its achievements for the business plan period up to 2006 next year. At the outset of the programme 91 per cent. of expectant parents said they intended to use disposable nappies. Work done for the environment agency suggested the figure may be higher at 94 per cent. WRAP intends to survey parents again at the end of the programme and to establish the change in intended behaviour. An estimate of the diversion will be made and published by WRAP at that time taking account of the survey and other quantitative evidence.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government plan to continue funding the Waste and Resources Action Programme Real Nappy Programme when the current funding for the three years from 2003 expires. [27097]

Mr. Bradshaw: I refer the hon. Member to the answer given on 14 July 2005, *Official Report*, column 1156W.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government have commissioned the Environment Agency to carry out further work on the environmental impacts of modern reusable nappies. [27114]

Mr. Bradshaw: The Environment Agency recognised, when it published its Life Cycle Analysis in May, that further work would be required to take account of changes in the market for reusable nappies and other developments since the survey work for the study was undertaken. The scope and timing of this further work is currently under discussion.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many disposable nappies she estimates were *(a)* used and *(b)* disposed of by (i) landfill, (ii) incineration and (iii) other means in the last year for which figures are available. [27885]

Mr. Bradshaw: I refer the hon. Member to the reply given to him on 12 July 2005, *Official Report*, column 955W.

Pesticides

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are taken to monitor the impact of pesticides on those living in localities where spraying occurs. [25511]

Mr. Morley *[holding answer 8 November 2005]:* Anyone who feels their health may have been affected by pesticides, whether by a one-off or a longer term exposure, should report it to the Health and Safety Executive (HSE). Health and Safety Executive staff investigate complaints involving ill health arising as a result of a work activity. Once an investigation is complete details of investigated cases are sent for examination by the HSE's Pesticides Incident Appraisal Panel (PIAP). PIAP reviews all the reports and publishes its conclusions in an annual report which is reviewed by the Advisory Committee on Pesticides. Following recommendations in the recent report by the Royal Commission on Environmental Pollution (RCEP) on "Crop Spraying and the Health of Residents and Bystanders" the Government will be reviewing these arrangements.

Pet Cemeteries

Mr. Andrew Turner: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to reach a conclusion on the Environment Agency's recommendation on the treatment of pet cemeteries under the EU landfill directive. [26960]

Mr. Bradshaw: The Department is currently investigating the scope for taking an alternative approach to the regulation of pet cemeteries. My officials are working with their Environment Agency counterparts to assess the potential benefits of each alternative option identified.

Pigeons

Anne Main: To ask the Secretary of State for Environment, Food and Rural Affairs what is the expected response time to a report of unusual die-off in pigeons or other wild birds to the departmental help-line by a departmental representative; and if she will make a statement. [27526]

Mr. Bradshaw: During normal office hours, following a call to the Defra help line, an immediate initial assessment is made and if necessary the caller is referred to a VLA (Veterinary Laboratories Agency) laboratory in England and Wales or an SAC (Scottish Agricultural College) laboratory in Scotland. Outside normal office hours, if necessary, the caller will be referred to the State Veterinary Service. If required, carcase collection by a representative from the State Veterinary Service or Rural Development Service will be arranged. The response time will depend on an overall assessment of the die off.

Radioactive Waste

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the volume in cubic metres of *(a)* high level, *(b)* intermediate level and *(c)* low level stocks of radioactive waste in (i) 2010, (ii) 2020 and (iii) 2030, assuming projected closure of nuclear power stations occurs. [27827]

Mr. Morley: The estimated volumes, expressed in cubic metres of conditioned *(a)* high level and *(b)* intermediate levels stocks of radioactive waste in 2010, 2020 and 2030 respectively are given in the table. It has been assumed that the projected closure of nuclear power stations occurs.

Cubic metres

Date	*High level*	*Intermediate level*
2010	1,350	107,000
2020	1,510	128,000
2030	1,510	143,000

Since it is anticipated that the approximate annual arisings of 10,000 cubic metres of low level radioactive waste will be disposed of as it arises, the stocks in storage will remain low, but not quantified, over this time period.

Regional Advisory Council for North Western Waters

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on UK participation in the Regional Advisory Council for North Western Waters. [27820]

Mr. Bradshaw: A wide range of the UK catching sector (such as producer organisations and those who represent processors) and other interest groups (such as consumer and conservation groups) are participating in the Regional Advisory Council for North Western Waters, on the General Assembly, the Executive Committee and various working groups.

Defra and the Devolved Administrations have been actively supporting the establishment process (I attended the inaugural General Assembly meeting on

30 September 2005) and participating as active observers in the first set of meetings that were held on 7 and 8 November.

Renewable Heat Obligation

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs for what reason the Task Force on Biomass ruled out a renewable heat obligation. [25234]

Mr. Morley: The Task Force's views on this subject are set out in its report which was published on 25 October and in the earlier emerging conclusions and draft recommendations report of August 2005. They considered a scheme whereby an obligation would be held by the suppliers of the fossil fuels from which heat is produced, and renewable heat certificates would be granted to heat producers and users who could demonstrate that they had substituted renewable heat for fossil-fired heat. However, they judged that such a scheme would be complex since most heat is not supplied by commercial companies but is produced by domestic and industrial/commercial end-users by using purchased fuel in boilers which they themselves own. They reported that a fundamental flaw in the proposal was that the obligation would rest with a supplier who had no control over the many, varied and often small users and producers of heat. In view of the complexities, they also noted that it would take considerable time to draw up a suitable scheme. They concluded that quicker progress would be achieved by offering capital grants to aid all biomass heating boilers and the heat element of combined heat and power (CHP) biomass-fuelled plants.

Secondments

Norman Lamb: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the secondees from British Nuclear Fuel Group *(a)* working and *(b)* who have worked during the last 12 months in her Department; what their (i) job role and title and (ii) grade is; and what the responsibilities were of each of the secondees. [28670]

Mr. Morley: There are no secondees from British Nuclear Fuel Group working, or who have worked, during the last 12 months in the Department.

Sewerage Discharges

Mr. Sanders: To ask the Secretary of State for Environment, Food and Rural Affairs, how many sewerage discharges into the sea were permitted in each of the last five years at *(a)* Goodrington beach, *(b)* Paignton beach, *(c)* Preston beach, *(d)* Torre Abbey Sands, *(e)* Meadfoot beach and *(f)* Oddicombe beach; and how many sewerage discharges have been recorded at each location in each year. [25922]

Mr. Morley: The following table presents the intermittent sewer overflows discharging to sea associated with the beaches in the question. Sewer overflows are needed to prevent flooding, and the overloading of the sewage treatment works, when the additional rainwater run-off collected by the Torbay sewerage system exceeds its design capacity.

Beach name	*Associated combined sewer overflows (CSOs) to sea*
(a) Paignton beach	Roundham Road Paignton Green Tank
(b) Preston beach	Preston Green Tank
(c) Torre Abbey Sands	Beacon Hill Fleet Walk No 1 Fleet Walk No 2
(d) Meadfoot beach	Ilsham Valley Pumping Station Ilsham Marine Drive
(e) Oddicombe beach	No sea outfalls associated with this beach

In addition, two other emergency overflows: Clennon Valley Pumping Station—Goodrington beach—and Fleet Walk Pumping Station—Torre Abbey Sands—are also consented in case of equipment failure.

All sewer overflows are consented by the Environment Agency. The design standards and consents have been set to ensure compliance of the receiving waters with the EC bathing waters, and where applicable EC shellfish waters, directives. The design standard for the overflows associated with:

Paignton and Preston beaches are predicted to result in no more than three significant spills each bathing season (May to September);

Torre Abbey Sands are to achieve an appropriate flow of sewage going for treatment;

Meadfoot beach are for Ilsham Valley Pumping Station to on average have no spills for 98.2 per cent. of the bathing season, and for Ilsham Marine Drive to achieve an appropriate flow of sewage going for treatment.

As the sewerage company has implemented the design standards agreed with the Environment Agency, it is not considered necessary to monitor the overflows. Therefore, although I cannot provide information on the recorded overflow discharges, the Environment Agency expect:

the number of significant overflows to be less than three each bathing season for those associated with Paignton and Preston beaches; and

for Torre Abbey Sands and Meadfoot beaches the overflows are predicted to operate more frequently but to achieve the design standards.

All the listed bathing waters consistently meet the mandatory standard of the bathing waters directive, and often the higher guideline standards.

Snowfall

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what is the predicted future annual number of days when there is snowfall for *(a)* London, *(b)* Edinburgh, *(c)* Bristol and *(d)* Inverness in (i) 2010, (ii) 2020, (iii) 2030 and (iv) 2050. [27925]

Mr. Morley: In April 2002, the Department published new "Climate Change Scenarios for the UK". These scenarios include information on total winter snowfall amounts, but not number of snowfall days. Snowfall totals decline substantially over the whole UK and in all scenarios, with the largest percentage reductions around the coast and in the English lowlands.

While there are no robust estimates at the scale of individual cities, the scenarios indicate that in the London, Edinburgh, Bristol and Inverness areas snowfall could be reduced by up to 55, 50, 57 and 59 per cent. respectively, by the 2050s (compared to the 1961–90 average baseline), depending on the degree of future climate change.

For the particular years in question a general scaling back of the UK-wide data gives the following estimates of the reduction in snowfall over these periods, depending on whether there is a low or high degree of climate change:

	Percentage Reduction
2010	17 to 30
2020	22 to 38
2030	27 to 47
2050	37 to 65

These figures represent general trends, not predictions of the amount of snowfall in specific years, which will be greatly influenced by natural year-to-year variability, particularly in the first few decades of the century.

Further information is available in the full report in the Libraries of both Houses, and more information may be available when the "UK Climate Change Scenarios" are updated in 2007.

State Veterinary Service

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many senior veterinary posts there were in the State Veterinary Service in 1997; and how many there are in 2005–06. [28149]

Mr. Bradshaw *[holding answer 14 November 2005]:* The State Veterinary Service was a very different organisation in 1997 and so any comparison with today would not be comparing like with like. The Veterinary Field Service was a part of the State Veterinary Service at the time. In terms of operations and responsibilities, it was the Veterinary Field Service that would equate most closely to today's State Veterinary Service.

The Veterinary Field Service was organised along regional lines, with five senior vets responsible for operations within their region. These posts had management responsibility for a number of local animal health divisional offices (AHDOs), all headed by a divisional veterinary manager (DVM). There were 23 AHDOs in total.

The State Veterinary Service (SVS) became an executive agency on 1 April 2005. In order to better manage and co-ordinate operations, both in normal circumstances and during a disease emergency, the agency has implemented a new structure during this year. The agency's corporate management team includes an operations director, strategic planning director and professional services director, who are all senior veterinary staff. The professional services director is also the Chief Veterinary Officer for Scotland. The head of operations in Scotland is also a senior vet. A new role of lead divisional veterinary manager (LDVM) has also been created. The organisation has seven LDVMs and a further 17 divisional veterinary managers.

Although the structure of the organisation has changed, senior veterinary staff still have a key role in managing the SVS' delivery of animal health and welfare policies throughout GB.

Water/Sewerage Services

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the sustainability of water supplies over the next 12 months; and what estimate she has made of the level of financial investment required to ensure adequate water supplies are available over the next five years, broken down by region. [26982]

Mr. Morley: Low winter rainfall may cause supply difficulties for some water companies in 2006. By February 2006 the Environment Agency should have sufficient data to make an evidence-based assessment and advise Government on the prospects for water resources next year based on rainfall, river flows, groundwater and reservoir levels.

It is for water companies to plan the investment necessary to deliver their services, including the necessary financial provision, and it is for Ofwat, in the light of companies' plans, to ensure that companies carry out and are able to finance their functions. In its recent periodic review Ofwat set water price limits for 2005 to 2010 in the light of water companies' business plans for that period.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how much water was supplied by water companies to consumers in the last year for which figures are available; what this represents per household; and what percentage of tap water supplied is estimated to be used for drinking purposes. [27882]

Mr. Morley: The Office of Water Services' (Ofwat) report "Security of Supply, leakage and the efficient use of water 2004–05" states that 8,700 megalitres a day is supplied to domestic customers by water companies in England and Wales. This equates to 3,175,500 megalitres of water being supplied in 2004–05.

The report also confirms that water companies in England and Wales estimate that average household consumption was 150 litres/head/day in 2004–05. Of this average, the estimated proportion of water used for drinking purposes, which includes water use within cooking and for food preparation, is 7 per cent.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the average monthly cost to consumers is of *(a)* water services and *(b)* sewerage services in each water supply area in 2005–06 (i) in total and (ii) broken down by those who were (A) metered and (B) unmetered. [27895]

Mr. Morley: The average monthly cost to households of water and sewerage services is set out in the following tables, broken down by company area and by measured and unmeasured supply. The figures are estimates based on forecast data provided to Ofwat by companies.

£

2004-05	Water Unmeasured	Water Measured	Water Total	Sewerage Unmeasured	Sewerage Measured	Sewerage Total
Water and sewerage companies						
Anglian	13.17	9.67	11.17	16.58	12.25	14.17

INTERNATIONAL DEVELOPMENT

Agricultural Subsidies

Mrs. Moon: To ask the Secretary of State for International Development what account is taken of the level of public subsidy for agriculture in developing countries in deciding allocations of UK development aid. [27302]

Mr. Thomas: DFID operates an annual review of budgets that includes deciding how much money to allocate to each developing country. The process involves dialogue at all levels, starting with country offices and culminating in approval by DFID's management board and Ministers.

To help inform the discussion, DFID uses a financial model to generate suggested allocations for bilateral country programmes. The model takes account of both the extent of a country's poverty and the likely effectiveness of aid in reducing its poverty. Vulnerability to economic shocks and the amount of aid which countries are likely to receive from other donors are also taken into account. In addition to the model's results, the regional divisions responsible for DFID's bilateral country programmes analyse a range of factors when considering allocations. These include the effectiveness of multilateral channels, conflict and reconstruction needs, inequality and social exclusion, our historical engagement and the political environment.

The central process to allocate resources between developing countries and regions does not give specific consideration to levels of public subsidy for agriculture. However, at country level, DFID allocates its resources to support national strategies for growth and poverty reduction. DFID country programmes work with national governments to identify the most effective way for DFID to support these strategies. Discussions with governments on the allocation of DFID resources at country level are likely to take into account the broad range of policies and programmes set out in national strategies.

Bolivia

Mrs. Moon: To ask the Secretary of State for International Development what discussions his Department has held with the World Bank in relation to *(a)* water privatisation in Bolivia and *(b)* the need to consider the implications of the projects it funds for poor citizens in each recipient country. [26987]

Hilary Benn: DFID has not held any discussions with the World Bank on water privatisation in Bolivia as DFID does not work and has not worked in the water or sanitation sector in Bolivia.

DFID supports a World Bank managed facility called the Global Partnership for Output-Based Aid (GPOBA). GPOBA supports the design and piloting of performance based approaches for targeting public funding to subsidise the delivery of basic services to poor people. In early 2005, officials discussed with the managers of GPOBA, the possible involvement of GPOBA in piloting subsidies for water connections in El Alto, but this has not happened.

The UK Government's position on water privatisation in general is made clear in our policy on conditionality, available on the DFID website at www.dfid.gov.uk/pubs/files/conditionality.pdf. The Government do not make its aid conditional on policy decisions by partner governments, or attempt to impose policy choices on them, including in the area of water privatisation. Where appropriate, DFID responds to requests from developing country governments for assistance to help improve the efficiency of water utilities. If a country has held an extensive public consultation exercise and has decided that it wishes to involve the private sector in the management of water, then DFID can provide them with the information to help them to do so.

The UK Government also uses its position on the Board of the World Bank and IMF to influence their approach to conditionality in general, and conditionality in sensitive areas such as water privatisation in particular. The UK led calls for a review of the Bank's policy and practice on conditionality, and this has just concluded. New best practice principles have been endorsed, which accord well with the UK approach, and we will be monitoring their implementation carefully.

The World Bank systematically considers the impacts of its operations on poor people in recipient countries. The Bank's mission is to reduce global poverty and all its operations are designed to improve the lives of the poor. The Bank also uses a range of tools to assess the likely impact of its operations on specific groups of poor people. When the Bank lends for specific projects, it uses safeguard policies which are designed to prevent and mitigate undue harm to people and their environment in the development process. When the Bank lends to support countries' policy and institutional reforms, it conducts Poverty and Social Impact Analysis (PSIA) which assesses the likely impact of policy reforms on different groups, with a particular focus on the poor and vulnerable. Both safeguard policies and PSIA are used before projects are discussed at the Bank Board, and often result in changes to project design. More information on both can be found on the World Bank website, at www.worldbank.org/safeguards and www.worldbank.org/psia.

Central America

John Bercow: To ask the Secretary of State for International Development what assistance has been provided by his Department to help with the recovery from the damage in Central America caused by hurricanes. [26975]

Mr. Thomas: DFID provided a total of £250,000 of emergency relief to Guatemala and El Salvador after Hurricane Stan. This support was provided through Plan International UK, £103,000 (70 per cent. for Guatemala and 30 per cent. for El Salvador) and through Care International UK, £100,000 for Guatemala, and £50,000 for El Salvador.

DFID also supports relief and reconstruction through its contributions to multilateral agencies. The European Commission Humanitarian Department (ECHO) provided €5.7 million (including 18 per cent. DFID contributions) to support those affected by flooding and mudslides in Guatemala and El Salvador.

The Government of Guatemala has requested that the World Bank focus part of its loan to the Ministry of Health, to help rebuild seven local hospitals and clinics in the affected area. Other multilateral agencies are considering how their programmes in Guatemala and El Salvador might support reconstruction efforts.

During Hurricane Beta, DFID asked the Ministry of Defence (MOD) to place its frigate, HMS Cumberland, located in the Caribbean, on stand by and offer its assistance to the Government of Nicaragua. This assistance was not required as the hurricane changed course. The Government of Nicaragua is providing emergency food and shelter from existing resources. DFID will provide £30,000 to Nicaraguan Atlantic Coast civil society and universities to work with affected riverside and coastal communities, helping them to reduce their dependence on food aid over the next six months.

Commonwealth Countries

Mr. Hollobone: To ask the Secretary of State for International Development which country in the Commonwealth is the least developed; and what funding his Department provided to it in 2004–05. [27236]

Hilary Benn: Using the amount of gross national income (GNI) per capita as an indicator of development, Sierra Leone with the lowest GNI per capita could be regarded as the least developed Commonwealth country. In 2004–05 DFID provided £27.3 million in development assistance to Sierra Leone. DFID also provides aid contributions to multilateral institutions some of which will also benefit Sierra Leone. The estimated UK share of the multilateral aid benefiting Sierra Leone for 2004 is not yet available; however in 2003, the estimated amount was £6.3 million.

Damages

Mr. Hayes: To ask the Secretary of State for International Development if he will list the 10 largest amounts of damages paid out by his Department in the last year for which figures are available; and what the nature of the claim was in each case. [27725]

Hilary Benn: As from 1 November 2004, the 10 largest amounts of compensation paid by DFID for damages, and the nature of the claims, were as shown in the following table:

Nature of claim	*Amount (£)*
Compensation paid to a member of staff for the loss of personal effects	15,378.28
Interest and penalty payment to the Inland Revenue	11,320.00
Compensation paid to a pensioner for arrears of payment due.	5,832.33
Compensation paid to a landlord for destruction, by terrorists, of a DFID rented house in Nepal	3,756.00
Compensation paid to a pensioner for arrears of payment due.	3,473.14
Compensation paid to a pensioner for arrears of payment due.	3,151.00
Compensation paid to a pensioner for arrears of payment due.	3,004.10
Compensation paid to a pensioner for arrears of payment due.	2,825.35
Compensation paid to a pensioner for arrears of payment due.	2,214.88
Compensation paid to a pensioner for arrears of payment due.	1,899.67

Famine (Africa)

Andrew George: To ask the Secretary of State for International Development what recent assessment his Department has made of the risk of famine in each country in Africa for which the UN has issued a warning during 2005. [27786]

Hilary Benn *[holding answer 11 November 2005]:* DFID has a group of humanitarian advisers at regional and country level that routinely monitor the food situation and the potential for food crises across Africa. They draw information from a range UN and other monitoring instruments, including famine early warning systems, and food security and nutritional data produced by governments and non-governmental organisations (NGO)s. They also participate in country and regional assessments of the food security situation on a regular basis. This information, including that contained in UN warnings and appeals, is used to determine our response.

Female Circumcision

John Bercow: To ask the Secretary of State for International Development what steps are being taken by his Department in relation to the practice of female circumcision. [26976]

Mr. Thomas: Female circumcision or 'Female Genital Mutilation' (FGM) is a fundamental violation of the human rights of women and girls and is explicitly denounced in a number of human rights treaties and conventions. It is estimated that the number of women and girls who have undergone genital mutilation is between 100 and 140 million and that 2 million girls undergo FGM each year.

DFID support to reduce the prevalence of this harmful practice forms part of our efforts to achieve the Millennium Development Goals (MDGs) to improve maternal and child health and to promote gender equality and women's empowerment.

DFID provides support to help lower FGM through our funding of relevant UN organisations and NGOs. We are providing nearly £500,000 through our Civil Society Challenge Fund to Plan UK for a project in Mali enhancing the capability of local organisations in the fight against FGM at grassroots level. As well as this, in 2004–05 DFID provided annual core funding to support the work of multilateral organisations, including £19 million for UNICEF, £20 million for the United Nations Population Fund (UNFPA), £12.5 million for the World Health Organisation (WHO) and £3 million to the United Nations Women's Fund (UNIFEM), which all advocate and support programmes to combat FGM globally, not only because of its harmful impact on the reproductive and sexual health of women, but also because it is a violation of woman and girls fundamental human rights.

DFID provides indirect funding through social development and health programmes that support rights-based work at country level. DFID is also supporting the forthcoming United Nations Children's Fund (UNICEF) and the Inter-Parliamentary Union (IPU) African conference in Senegal, which will bring together parliamentarians, religious and traditional leaders, non-governmental organisations (NGOs) and former practitioners to plan actions to help eradicate the practice of FGM.

Gormo-Lhasa Railway

Mr. Hancock: To ask the Secretary of State for International Development on what occasions in the last 12 months *(a)* he and *(b)* officials in his Department have met the Bombadier Company to discuss their involvement in the building of the Gormo-Lhasa railway; and if he will make a statement. [27648]

Hilary Benn: Neither I nor any DFID official has had any contact with the Bombardier Company in the last 12 months to discuss their involvement in the Gormo-Lhasa railway.

Labour Exploitation

Mrs. Moon: To ask the Secretary of State for International Development what advice his Department gives to UK companies on avoiding the exploitation of cheap labour in developing countries. [26986]

Mr. Thomas: The Government are committed to and encourage the highest standards of business behaviour. This includes support for ethical sourcing practices that should ensure businesses take account of the labour conditions within their supply chains. The UK, (led by the Department for Trade and Industry (DTI) gives strong support to international initiatives such as the UN Global Compact and the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multi-national Enterprises which encourage the implementation of internationally agreed labour standards.

DFID welcomes dialogue on corporate social responsibility with multi-nationals and supports the Ethical Trading Initiative (ETI) which offers advice and training to companies wishing to implement ethical trading practices. ETI corporate members adopt a labour code of conduct that includes the core labour standards of the International Labour Organisation. They work with their suppliers, in collaboration with trade unions and non-governmental organisations, to improve working conditions in their supply chains and develop and disseminate best practice based on practical experience.

Small Fruit Growers

Mrs. Moon: To ask the Secretary of State for International Development what support his Department is giving to small fruit growers in developing countries to *(a)* meet the demands of producers who will purchase only fruit of a specified shape and size and *(b)* resist incentives to use pesticides with potentially harmful effects. [27341]

Mr. Thomas: DFID recognises that fruit production and horticulture more generally, is playing an increasingly important role in driving agricultural growth and providing sustainable livelihoods for millions of poor households. In India for example, horticulture already accounts for over half the value of agricultural output.

However, increasingly stringent product standards set by the retail trade can create particular difficulties for small producers seeking access to valuable European markets. To address this DFID has recently begun a three year programme working with retailers, importers, standard-setting bodies (in particular the Euro-Retailer Produce Working Group—Good Agricultural Practices (EUREPGAP) and producers aimed at ensuring that standards, such as requirements to produce fruit of a specified shape and size, do not discriminate against small-scale and developing country producers.

DFID is also active in a number of developing countries where we fund projects to support suppliers to meet supermarket standards. For example in Kenya, in the last two years, DFID has given approximately £582,000 in support for export horticultural development. An additional £290,000 will be spent by June 2006. Much of these funds are spent assisting smallholders to cope with the process and cost of compliance with EUREPGAP standards.

Buyers are extremely concerned about the use of pesticides with potentially harmful effects and European regulations and market health and safety requirements are increasingly difficult for developing country exporters to meet. At the request of African, Caribbean and Pacific country suppliers, the European Commission has put in place the Pesticides Initiative Programme; it aims to provide concrete responses to fruit and vegetable producers and exporters adaptation difficulties and assists suppliers to conform to the expectation of European buyers.

DFID supports the Consultative Group for International Agricultural Research (CGIAR) through a network of 15 International Research Centres and Global Programmes. Research is conducted on all major world crops of relevance to the poor with particular emphasis on crop improvement through genetic enhancement to withstand stresses of various kinds including attack by pests and diseases. New pest and disease resistant crop varieties significantly reduce the need for applications of harmful pesticides.

DFID's bilateral Crop Protection Programme has developed successful technical solutions known as Integrated Pest Management whereby crop husbandry and natural resource management methods are systematically combined to reduce or eliminate the incidence of pests thereby reducing the need for pesticide applications.

Somalia

Mrs. James: To ask the Secretary of State for International Development what Somalia's outstanding debt is; how much international debt relief was given to Somalia following the G8 summit in July; and if he will make a statement. [27223]

Hilary Benn: The World Bank's latest estimate for Somalia's external debt is just under $3 billion, on which they have not been able to make repayments for many years.

The G8 proposal discussed in July, will cancel 100 per cent. of the debts owed by heavily indebted poor countries (HIPCs) to the International Monetary Fund and the concessional funds of the World Bank and the African Development Bank. To qualify, countries must first complete the HIPC Initiative.

In order to benefit from the exceptional debt relief given under the HIPC Initiative, Somalia would need to establish a minimum track record of macro-economic stability, demonstrate a commitment to poverty reduction by developing an interim Poverty Reduction Strategy Paper, and clear its arrears. The fundamental priority for the Transitional Federal Government of Somalia now is to establish political stability, with the support of the international community, and by doing so begin to shore up national and international credibility. Once political reconciliation is under way, donors will clearly need to focus on what support needs to be provided to help Somalia address its unsustainable debt and arrears. The UK will remain actively involved in helping to find solutions to Somalia's problems.

Mrs. James: To ask the Secretary of State for International Development how much financial aid the UK has given to Somalia since 1997; and if he will make a statement. [27242]

Hilary Benn: Since 1997 up to the end of financial year 2004–05 (the latest period for which figures are available), the UK provided £137,000 of assistance to Somalia that is categorised as financial aid. This was in relation to a residual obligation to pay the pensions of expatriate officers who saw service in Somalia prior to independence. Details of these amounts are provided in the following table, which also shows the total amount of UK bilateral aid, £19.47 million, to Somalia over this period. The UK also provides contributions to multilateral institutions some of which funding has also been benefiting Somalia.

DFID's programme for Somalia in the financial year 2005–06 is expected to amount to £13.2 million, and is focused on governance programmes, service delivery and humanitarian assistance.

Total UK Bilateral Aid For Somalia 1997–2005

	Financial Aid	*Technical Co-operation*	*Grants and Other Aid in Kind*	*Humanitarian Assistance*	*£ thousand Total UK Bilateral Aid*
1997–98	20	55	345	1,047	1,467
1998–99	20	45	473	1,079	1,617
1999–2000	19	9	350	372	751
2000–01	17	11	218	1,235	1,480
2001–02	16	92	55	1,575	1,739
2002–03	16	8	180	2,920	3,124
2003–04	15	12	781	3,165	3,973
2004–05	14	0	2,263	3,043	5,320

Statistics on International Development

Sustainable Development

Mrs. Moon: To ask the Secretary of State for International Development what support his Department is providing to the poorest countries to promote the sustainable development of local growers, farmers, manufacturers and retailers. [27340]

Mr. Thomas: In 2004–05, DFID provided more than £83 million in support to rural livelihoods in low income countries. DFID's forthcoming agriculture policy paper, emphasises DFID's continuing commitment to agriculture as an important component of poverty reducing growth and highlights the following priorities for action: creating policies and procedures that support agriculture; targeting public spending more effectively; tackling market failure; filling the agricultural finance gap; spreading the benefits of new technology; improving access to land and secure property rights and reducing distortions in international agricultural markets.

More generally, DFID is working to support the development of a vibrant private sector in developing countries. Much of our work focuses on support for establishing a sound business environment to enable domestic investors and entrepreneurs to operate productively.

Specific areas of support include assistance to developing countries to simplify and streamline administrative and regulatory frameworks to provide greater incentives and opportunities for small business people to enter the formal economy; support to develop financial systems that provide financial services, including micro-credit to small businesses; support for programmes providing entrepreneurship and basic business skills training to small entrepreneurs, including women and young people; and support for programmes, such as Challenge Funds, that enable small farmers, traders and manufacturers to link up with larger businesses and participate in industry supply chains.

Water Privatisation Projects

Lynne Jones: To ask the Secretary of State for International Development if he will make it his policy not to spend UK aid money on water privatisation projects that result from (*a*) World Bank and IMF conditions and (*b*) conditions imposed by other Governments. [20617]

Mr. Thomas: DFID's policy on conditionality sets out how we intend to strike a balance between ensuring aid is used effectively for poverty reduction, strengthening countries leadership of their own development and making aid more predictable. It makes clear that we will use conditions to ensure aid is used effectively, but we will minimise any negative effects of these conditions on partner Government leadership and aid predictability. In particular we will not use conditionality to impose specific policy choices on partner Governments, including in sensitive areas such as privatisation.

The World Bank and the International Monetary Fund (IMF) are also both committed to the principle of country ownership of reforms. The World Bank's 2005 review of its use of conditionality resulted in five good practice principles for conditionality, the first of which is country ownership. At the annual meetings of the World Bank in September 2005, we successfully pressed for agreement that the Bank would report back next year on the implementation of these principles.

The Paris Declaration re-affirmed donors' views that countries must lead their own development process. DFID strongly supports this approach. Countries should lead their own policy making processes and are free to decide to implement market-based reforms in the water sector. In cases where Governments are committed to reform of the water sector and request our support, we would be ready to consider assistance to ensure policy options are thoroughly considered, and the appropriate regulation is put in place so that affordable services are delivered to poor people. In 2004, of the £93 million DFID spent in country programmes on urban, rural and humanitarian water supply and sanitation services, 95 per cent. was spent through Governments, not for profit or humanitarian agencies. Rather than focussing on who delivers these services we concentrate on ensuring that services are delivered to the poor and that Governments can make informed choices between approaches.

World Trade

Angela Browning: To ask the Secretary of State for International Development what progress has been made under the UK presidency of the EU to ensure that poor countries are represented at the World Trade Organisation talks. [26079]

Mr. Thomas: There are three main ways in which we have supported and continue to support developing countries in trade negotiations, including the current Round of the World Trade Organisation (WTO) trade talks.

First, through assistance to help countries formulate and develop their own trade policies, taking account of their domestic and regional circumstances, second, by helping countries build their capacity to negotiate these policies with their partners, either regionally or internationally and thirdly, we help the actual participation of developing countries in trade talks themselves. For example, we have provided countries such as Lesotho and Zambia with the resources they need to secure analysis and expertise in order to help determine their own trade policies.

We have supported regional institutions that in turn support their developing country members in trade analysis and negotiations. For example through funding trade advisors in the Southern Africa Development Community (SADC) and the Common Market for East and Southern Africa (COMESA) Secretariats and providing resources for the Caribbean Regional Negotiating Machinery, the body that helps Caribbean countries co-ordinate and pursue their negotiating efforts, not just in the WTO but in terms of other agreements such as the Cotonou Economic Partnership Agreements.

We have funded advisory support and resources to the Least Developed Country (LDC) Group chaired by Zambia, to develop their position and attendance at the Hong Kong WTO ministerial and with other donors, we contribute to a trust fund that will enable least Developed Countries (LDCs) to attend the forthcoming WTO ministerial meeting in Hong Kong in December.

DEFENCE

Aircraft Leasing Costs

Mr. Ancram: To ask the Secretary of State for Defence what the cost has been of leasing or hiring (*a*) helicopters and (*b*) fixed wing aircraft from commercial contractors in each year since 2000. [24579]

Mr. Ingram: The cost of the leasing or hiring of helicopters and fixed wing aircraft from commercial contractors in each year since 2000 is shown in the following table. The data shown have been gathered from centrally held records. A number of other areas within the Ministry of Defence hire or lease aircraft but details of these contracts are not held centrally and could be supplied only at a disproportionate cost.

£ million

Financial year	*Helicopters*	*Fixed wing aircraft*
2000-01	29	43
2001-02	29	46
2002-03	30	47
2003-04	40	45
2004-05	43	50

In compiling this answer, an error in the calculation of the projected cost for leasing or hiring helicopters and fixed wing aircraft in financial year 2005-06, given in response to a previous parliamentary question of 25 October 2005, *Official Report*, columns 245-48W, came to light. The cost for financial year 2005-06 is likely to be in the region of £95 million and not as previously reported, £74 million.

Armed Forces (Northern Ireland)

Mr. Robathan: To ask the Secretary of State for Defence what his policy is on assisting the prosecution of current and former members of the armed forces involved in deaths in Northern Ireland; and if he will make a statement. [27320]

Mr. Ingram: In any investigation into a death in Northern Ireland involving current or former members of the armed forces, the Ministry of Defence will provide the police with whatever assistance they may properly require.

Mr. Robathan: To ask the Secretary of State for Defence what the role is in Headquarters Northern Ireland of the G2 Historic Investigation Branch; and how many people are employed therein. [27321]

Mr. Ingram: The role of the G2 Historic Information Team (HIT) is to collate information held within Headquarters Northern Ireland (HQNI) in response to requests from Public Inquiries.

The G2 HIT is a joint military civilian team, consisting of four personnel.

Army Recruitment

Mr. Ancram: To ask the Secretary of State for Defence what the cost has been of British Army recruitment campaigns in each of the last three years; and if he will make a statement. [27171]

Mr. Touhig: Headquarters Recruiting Group, a part of the Army Training and Recruiting Agency, is responsible for marketing recruitment for the Regular and Territorial Army. Marketing costs for the last three Financial Years are detailed in the table, and covered activities including: national advertising, television, radio, response handling, magazines, regional marketing, education and citizenship, national events and exhibitions and Camouflage (Youth programme). Staff costs are excluded.

Financial Year	*Cost of marketing (£ million)*
2002-03	20.517
2003-04	20.325
2004-05	33.215

Additional funding was provided to the recruiting operation in 2004-05 to counter the difficult recruiting environment, which grew towards the end of the year. The bulk of the additional expenditure was spent on television advertisements.

Army Tanks

Mr. Hoyle: To ask the Secretary of State for Defence how many tanks are operated by the Army; and how many are in storage. [28008]

Mr. Ingram: There are 385 Challenger 2 Main Battle Tanks operated by the Army, of which 38 are currently held in long-term storage. There are a further 32 tanks in temporary storage pending redeployment to Front Line Commands.

Bicester Camp

Mrs. Humble: To ask the Secretary of State for Defence (1) what steps have been taken to address bullying among members of the (*a*) 23 Pioneer Regiment and (*b*) Royal Logistics Corps at Bicester camp, Oxfordshire, in the past two years; [25300]

(2) what steps have been taken to address bullying among members of the 23 Pioneer Regiment and Royal Logistics Corps at Bicester camp, Oxfordshire in the last two years. [25358]

Mr. Touhig: The Army has a policy of zero tolerance as far as bullying is concerned and any allegations made are thoroughly investigated, with disciplinary action taken where appropriate. All commanders are made fully aware of their responsibility to protect others from the differing forms of harassment, physical and mental intimidation and discrimination. This is reinforced throughout all military training.

There is no evidence to suggest a culture of bullying at Bicester but, like all Army personnel, members of 23 Pioneer Regiment Royal Logistic Corps have access to a wide-ranging welfare support network, which includes a confidential help line. Welfare support is publicised widely throughout the Army.

Chinook Mark 2/2a

Mr. Arbuthnot: To ask the Secretary of State for Defence when he expects the Chinook Mark 2/2a fleet to reach its out-of-service date. [26627]

Mr. Ingram: I refer the right hon. Member to the answer I gave on 2 March 2005, *Official Report*, column 1232W to the hon. Member for Mid-Sussex (Mr. Soames).

Congestion Charge

Mr. Spellar: To ask the Secretary of State for Defence how much his Department has paid to Transport for London in congestion charges since they were introduced. [27425]

Mr. Touhig: The Ministry of Defence vehicles are divided into separate categories: 'Green Fleet' (camouflaged/operational vehicles) which are exempt from congestion charges and 'White Fleet' (administrative vehicles) which are liable for congestion charges.

White Fleet vehicle congestion charges are paid locally by units or individual. Records of congestion charge payments are not held centrally and could be provided only at disproportionate cost.

Criminal Offences

Simon Hughes: To ask the Secretary of State for Defence if he will list criminal offences created in legislation sponsored by his Department since May 1997, broken down by Act. [26703]

Mr. Touhig *[holding answer 9 November 2005]:* The Ministry of Defence has created no criminal offences in legislation since May 1997.

Criminal Records

Andrew Rosindell: To ask the Secretary of State for Defence how many serving members of *(a)* the Army, *(b)* the Royal Air Force and *(c)* the Royal Navy have a criminal record, broken down by type of crime. [27620]

Mr. Touhig: This information is not held centrally, and could be provided only at disproportionate cost.

Decommissioned Nuclear Submaries

Andrew Rosindell: To ask the Secretary of State for Defence what the cost was of storing decommissioned nuclear submarines in each year since 1997. [27612]

Mr. Ingram: The information requested is shown in the table.

Financial Year	*Decommissioned nuclear submarine storage costs (£ million)*
1997–98	1.3
1998–99	0.5
1999–2000	0.6
2000–01	2.3
2001–02	1.0
2002–03	0.2
2003–04	1.6
2004–05	2.5

These figures include the cost of monitoring and maintenance work that is regularly carried out to ensure the continued safe storage of the submarines as well as the cost of berthing them. Maintenance costs are not included for the submarines stored at Rosyth in Financial Year 1997–98 as this information is no longer held.

Delivery Systems

Jeremy Corbyn: To ask the Secretary of State for Defence if he will make representations to *(a)* the German Government and *(b)* NATO on the sale of delivery systems to Israel. [23310]

Dr. Howells: I have been asked to reply.

Germany, as a party to the EU code of conduct, would look at the sale of delivery systems to any country on a case by case basis in accordance with the strict criteria of the code. We have no reason to question German judgment on this. Access by Israel as a NATO partner, to the NATO Maintenance and Service Agency (NAMSA) is currently under discussion. No agreement has yet been reached. The UK would only agree to such an arrangement if it was clearly understood that requests from Israel would be carefully examined on a case-by-case basis, were consistent with the UK's consolidated criteria on export licensing and approved by the NATO Atlantic Council.

Fixed-wing Capability

Dr. Julian Lewis: To ask the Secretary of State for Defence what plans he has to ensure the deployment at sea of an adequate fixed-wing capability beyond 2012; and whether such plans include extending the life of *(a)* HMS Illustrious, *(b)* HMS Ark Royal and *(c)* HMS Invincible. [24571]

Mr. Ingram *[holding answer 7 November 2005]*: The Invincible class carriers and Harrier GR9 are planned to be progressively replaced by the Future Carrier and JCA respectively thereby maintaining a potent fixed-wing capability. During the transition period, we retain the option to deploy Harrier GR9 with the Future Carrier. The ISDs for the Future Carriers will not be set until the main investment decision is taken and therefore it is too soon to determine whether there will be any case for extending the Invincible class carriers in service.

Fleet Requirement (Army)

Mr. Ancram: To ask the Secretary of State for Defence if he will place in the Library a copy of the Army's Total Fleet Requirement 2004. [24580]

Mr. Ingram: My right hon. Friend the Secretary of State will place a redacted and declassified version of the Army's Total Fleet Requirement 2004 in the Library of the House. The reason for the redaction is that sections of the TFR 2004 paper reveal military planning assumptions, the disclosure of which would be likely to prejudice the capability, effectiveness or security of the armed forces.

Future Integrated Soldier Technology

Mr. Ancram: To ask the Secretary of State for Defence what the planning assumption is for entry into service of the Future Integrated Soldier Technology; and if he will make a statement. [27170]

Mr. Ingram: The Future Integrated Soldier Technology (FIST) project is currently in its Assessment Phase. No decisions on entry into service will be taken before Main Gate.

Gulf War Syndrome

Mike Penning: To ask the Secretary of State for Defence how many *(a)* Servicemen and *(b)* Servicewomen from Hertfordshire who served in the 1990–91 Gulf conflict are suffering from diagnosed illnesses. [25580]

Mr. Touhig: Information on all the illnesses reported by veterans of the 1990–91 Gulf conflict is not held centrally. Although the medical records of individuals who have left the Services are held by each Service at individual central locations, the MOD does not hold records of all illnesses reported after an individual has left the Service. Furthermore, for those still serving, medical records are normally held at their unit medical centre. They are not held in a way that allows the identification of those from Hertfordshire.

Heapey Storage Facility

Mr. Hoyle: To ask the Secretary of State for Defence what plans he has for the *(a)* management and *(b)* security of the Heapey ammunitions storage facility in the event of the closure Royal Ordnance Chorley. [28156]

Mr. Ingram *[holding answer 14 November 2005]*: The Heapey magazine facility is owned by BAE Systems Land Systems. The management and security of the facility are matters for the company.

Literacy and Numeracy

Mr. Gibb: To ask the Secretary of State for Defence pursuant to the answer of 3 November 2005, *Official Report*, column 1262W, on literacy and numeracy, how many basic skills tutors are employed in his Department; and how much they are paid. [27961]

Mr. Touhig: Currently there are 42 basic skills tutors directly employed by the Ministry of Defence. The salaries for each basic skills tutor varies according to a number of factors such as number of hours worked, length of service in grade, regional weightings and cost of living allowance for those tutors based overseas. However their basic pay is based on either the teachers' scales in England and Wales ranging from £19,161 to £35,082 or the band D MOD civil service pay scale: £17,072 to £26,626.

In addition, a further 18 basic skills tutors work within MOD funded entirely by Learning and Skills Council provision.

Military Deployment (Kosovo)

Mr. Wareing: To ask the Secretary of State for Defence what assessment he has made of the impact of the presence of British military forces deployed in Kosovo; what plans there are for continuing the deployment; and if he will make a statement. [27532]

Mr. Ingram *[holding answer 14 November 2005]:* The UK played a key role in the initial stabilisation of Kosovo, contributing some 13,000 troops to NATO's Kosovo Force (KFOR). More recently, our contribution of some 200 troops to KFOR has supported provision of a safe and secure environment in Kosovo. As with all deployments of UK forces overseas, we regularly review force levels and structures. There are currently no plans for significant changes to our contribution to KFOR.

Oil Prices

Mr. Ancram: To ask the Secretary of State for Defence what assessment he has made of the impact of recent oil price rises on general operations for the three branches of the armed forces; what the real terms increase in cash spending has been for each of the armed forces in each of the last four years; and what extra funding has been requested from the Treasury to alleviate the consequences of oil price rises. [17113]

Mr. Ingram *[holding answer 14 October 2005]:* There is a clear relationship over the longer term (though a less predictable one in the shorter term) between changes in the oil price and the costs of fuels used in Defence, with rises in the oil price translating into increased unit costs for fuel for the Department. Fuel price rises have not, however, had an adverse impact on the delivery of Defence outputs, as the Department actively seeks to forecast and plan for movements in fuel prices, in both its forward financial planning and in-year financial management.

The Department has not requested additional funding from the Treasury to alleviate the consequences for Defence of oil price rises. In line with established practice, the net additional costs of operations, including the costs of fuel consumed on operations continue to be met from the Treasury Reserve. The resource costs of the consumption of fuel, oil and lubricants by the Department in support of operational and non-operational activity in each of the last four years are shown in the table. As the Department's fuel consumption ranges across a number of joint organisations as well as Service budget areas, breaking these figures down by Service could be provided only at a disproportionate cost.

	£ million
2001–01	368
2002–03	364
2003–04	370
2004–05	402

Predictive Diallers

John Hemming: To ask the Secretary of State for Defence how many calls were made from call centres in his Department in 2004–05 using predictive diallers; how many such calls resulted in contact being made with the recipient without a Government agent available to talk to them; and what assessment he has made of the likely impact of Ofcom's policy on silent calls on the use of predictive diallers in departmental call centres. [28176]

Mr. Touhig: None. Predictive dialling technology is not used by the Ministry of Defence.

Qinetiq

Mr. Hancock: To ask the Secretary of State for Defence what value creation targets have been set for Qinetiq; and what implications this has for further non-competitive work allocation by his Department. [27647]

Mr. Ingram: No specific value creation targets have been set for Qinetiq by MOD. We have, however, sought to enhance the value of our shareholding in Qinetiq through the introduction of The Carlyle Group as our strategic partner in February 2003. On non-competitive work allocation, I refer the hon. Member to the answer I gave on 20 October 2005, *Official Report*, column 1216.

RAF Gibraltar

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the tendering process for RAF Gibraltar air traffic control. [28009]

Mr. Ingram: The RAF Gibraltar air traffic control requirement was competitively tendered as part of the re-let of the airfield support services requirement at RAF Gibraltar. The tender exercise was undertaken in accordance with MOD guidelines with an invitation to tender issued in February 2005 and an award of contract in August 2005.

The requirement was initially advertised for expressions of interest in the MOD Contracts Bulletin in June 2004. A total of six companies expressed an interest in the requirement and were issued with invitations to tender. Three companies responded and entered bids which were evaluated under technical and commercial criteria published in the tender documentation, with the

award of contract to the National Air Traffic Services as the highest scoring bidder offering the best overall value for money.

Royal Military Police Historic Investigation Team

Mr. Gerald Howarth: To ask the Secretary of State for Defence (1) how many personnel will be involved in the 6 Royal Military Police Historic Investigation Team from *(a)* the Royal Military Police, *(b)* the Police Service of Northern Ireland, *(c)* the Army Prosecutions Service and *(d)* other sections of his Department; [27113]

(2) when he expects the first prosecutions to be brought by the 6 Royal Military Police Historic Investigation Team; and if he will make a statement; [27063]

(3) how many cases are being examined by the 6 Royal Military Police Historic Investigation Team; and if he will make a statement; [27038]

(4) what the duties of the 6 Royal Military Police Historic Investigation team are; and how many *(a)* officers, *(b)* non-commissioned officers and *(c)* ordinary soldiers are in the team. [27037]

Mr. Ingram: The 6th Regiment, Royal Military Police (6 RMP) Historic Inquiry Team (HIT) has been established as the focal point in headquarters Northern Ireland for providing information to support the Police Service of Northern Ireland (PSNI) review of all 'troubles' related-deaths. They are not undertaking any investigative responsibilities in relation to this review, nor do they have responsibility for the prosecutions process. Any prosecutions arising from the PSNI review will be carried out by the PSNI.

Once fully established, the 6 RMP HIT will comprise five non-commissioned officers from the RMP and three Ministry of Defence civilian support staff.

The PSNI are expected to review some 2000 cases, although each case-file may contain more than one incident of death. The RMP HIT are currently examining their information holdings in order to establish and inform the PSNI whether they hold information relevant to these cases. The RMP HIT remit is to retrieve relevant material regarding specific cases in response to requests for information from the PSNI.

Royal Ordnance

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether he expects the supply of components to be affected by the proposed closure of the BAE ordnance factory at Bridgwater. [26086]

Mr. Ingram: BAE Systems Land Systems will remain responsible for the maintenance of security of supply of components currently manufactured at the Bridgwater factory. We remain confident in their ability to do so.

Mr. Gerald Howarth: To ask the Secretary of State for Defence what assessment he has made of the implications for security of supply of the proposed closure of the BAE Systems ordnance sites at Bridgewater and Chorley. [26093]

Mr. Ingram: BAE System Land Systems are responsible for security of supply of ammunition. They have provided detailed plans to the Ministry of Defence on how they intend to achieve this when the Bridgwater and Chorley sites are closed, and we remain confident in their ability to do so.

Mr. Gerald Howarth: To ask the Secretary of State for Defence what types of ordnance are supplied to the armed forces by BAE Systems at *(a)* Chorley and *(b)* Bridgewater; and whether arrangements will be put in place to continue the availability of such ordanance from UK sources following their closure. [26094]

Mr. Ingram: Chorley's main production output is initiators for various natures of munitions but production at the site has been suspended following an industrial incident in March 2005. Current production remains limited to filling and assembling a small number of stores using stocks of previously manufactured compositions.

The following table lists those items which have, until recently, been manufactured at the Chorley site:

Item:

TVE L4
Cap Conducting. CC No 1
Cap and Holder (TV23AF)
L1062.25grnRWY.
L1062.1grnL
L106 Delay.
MDF items and End Fittings for warheads
6.5grn LZY Detonator and Housing
Igniter CC
IEBW 222
CLC Charge Line Cutting.
7.62mm SAA Cap -Air
7.62mm SAA Cap—Land
5.56mm SAA Cap
IEBW 302. Detonator N16
CERU 201/Cap EBW No1 mk2
Primer 52
Cartridge Cable Cutter.
IEBW 213
Detonator EEBW N1 Mk2

The Bridgwater site supplies a range of explosive compounds and products including fillings for warheads, propellants and demolition stores.

A list of the individual items supplied over the last five years to the MOD or MOD prime contractors by the BAE Systems Land Systems facility at Bridgwater is as follows:

Items:

BAE Systems Land Systems will remain responsible for the maintenance of security of supply for these products. They have provided detailed plans on how they intend to achieve this and we remain confident in their ability to do so.

Mr. Gerald Howarth: To ask the Secretary of State for Defence pursuant to the answer of 19 December 1997, *Official Report*, column 383W on Royal Ordnance, Bridgewater to the hon. Member for Salisbury (Robert Key), what considerations he took into account in approving the joint venture between BAE Systems and Société Nationale des Poudres et Explosifs. [26346]

Mr. Ingram: The Ministry of Defence is aware that discussions took place some years ago between Royal Ordnance (now BAE Systems Land Systems) and Société Nationale des Poudres et Explosifs with a view to a joint venture. No final agreement was reached between the two companies so there was no joint venture.

Ann Winterton: To ask the Secretary of State for Defence what discussions he has held with BAE Systems plc over the closure of the Royal Ordnance factories in Bridgwater and Chorley. [26369]

Mr. Ingram: A number of meetings were held between BAE Systems Land Systems and MOD officials on their proposed closure of the Chorley and Bridgwater sites. The aim of these meetings was to ensure that the company's rationalisation plans provided for continued security of supply as well as offering value for money for the taxpayer.

Ann Winterton: To ask the Secretary of State for Defence how many personnel have been seconded to a factory in France from the former Royal Ordnance factory in *(a)* Chorley and *(b)* Bridgwater; and whether associated plant has been relocated from the UK to France. [27064]

Mr. Ingram: The Ministry of Defence is aware that discussions took place some years ago between Royal Ordnance (now BAE Systems Land Systems) and the Societe National des Poudres et Explosifs (SNPE) with a view to a joint venture. No final agreement was reached between the two companies. Issues relating to secondment and plant relocations are a matter for BAE Systems Land Systems.

Mr. Hoyle: To ask the Secretary of State for Defence how much land at the Royal Ordnance factory at Chorley has been sold for redevelopment. [28011]

Mr. Ingram: Questions regarding land sales at BAE Systems Land Systems site at Chorley should be addressed to the company.

Stealth Aircraft

Andrew Rosindell: To ask the Secretary of State for Defence what plans are in place to develop a stealth aircraft for the RAF. [27623]

Mr. Ingram: Stealth is a term used to describe techniques to reduce visual, infra-red and radar observability. Such low observability characteristics are at the heart of the US/UK Joint Strike Fighter, the selected solution for the Joint Combat Aircraft programme, due in service next decade. In addition, the UK continues to explore the underlying technologies contributing to low observability, to ensure that the technology base exists to meet any potential future capability requirement.

Vanguard Nuclear Submarines

Mr. Hoyle: To ask the Secretary of State for Defence what the end of service life is of each of the four Vanguard-class nuclear-powered submarines. [28006]

Mr. Ingram: I refer my hon. Friend to the answer I gave on 21 July 2005, *Official Report*, column 2123W, to the hon. Member for New Forest East (Dr. Lewis).

MINISTER FOR WOMEN

Housewives

Mr. Hollobone: To ask the Minister for Women and Equality what assistance and support is offered by the Government to married mothers, with a husband in work, who choose to stay at home to bring up their children. [25439]

Meg Munn: Families have substantially benefited from the changes in the tax and benefit system. As a result of the Government's reforms to the tax and benefit system since 1997, by October 2005, in real terms, families with children are, on average, £1,400 a year better off, while those in the poorest fifth are, on average, £3,200 per year better off.

The 2005 budget improved this situation still further by announcing a commitment to increase the child element of child tax credit at least in line with average earnings up to and including 2007–08. It is currently worth up to £1,690 a year per child, benefiting 7 million children in 3.6 million families.

SCOTLAND

Renewable Energy

7. **Mark Lazarowicz:** To ask the Secretary of State for Scotland what discussions he has had with the Secretary of State for Trade and Industry on the promotion of renewable energy in Scotland. [26713]

Mr. Darling: I have regular discussions with my right hon. Friend on a wide range of energy matters.

Pathways to Work

8. **Jim Sheridan:** To ask the Secretary of State for Scotland what discussions he has had with the Secretary of State for Work and Pensions on the effects of the Pathways to Work pilot scheme in Scotland. [26714]

David Cairns: My right hon. Friend has not yet had the pleasure of meeting the new Secretary of State for Work and Pensions to discuss the Pathways to Work pilots in Scotland. I am sure they will meet in the future to discuss this and a range of other issues.

Small and Medium-sized Enterprises

11. **Mr. Bellingham:** To ask the Secretary of State for Scotland what plans the Government have for reducing the burden of central Government regulation on Scottish small and medium-sized enterprises. [26718]

David Cairns: This Government are undertaking the most radical and serious systemic reform of Britain's regulatory system in recent history. This will deliver genuine reductions in the regulatory burden upon all businesses, including SMEs, without compromising necessary regulatory outcomes.

Terrorism

12. **Angus Robertson:** To ask the Secretary of State for Scotland what discussions he has had with the Home Secretary about the implementation of the Terrorism Bill in Scotland. [26719]

Mr. Darling: I am in regular contact with my right hon. Friend the Home Secretary on a number of matters, including ensuring that Scotland's interests are fully covered by terrorism legislation and policies.

Fisheries

13. **Mr. MacNeil:** To ask the Secretary of State for Scotland what discussions his Department has had with the Department for Environment, Food and Rural Affairs on the impact of climate change on cod migration; and what action the Government are planning to take. [26720]

David Cairns: I refer the hon. Member to the answers given by my hon. Friend the Parliamentary Under-Secretary of State at the Department for Environment, Food and Rural Affairs (Mr. Bradshaw) on 12 September 2005, *Official Report*, columns 2308–2309W, to the hon. Member for Banff and Buchan (Mr. Salmond).

Employment Statistics

14. **Ms Katy Clark:** To ask the Secretary of State for Scotland what discussions he has had on ensuring full employment in all parts of Scotland by 2010. [26721]

David Cairns: The Government's objective is to increase employment opportunity for all. The UK labour market is performing well, both by international standards and on a historical comparison, with high levels of employment and low levels of unemployment. In addition, the Scottish labour market has hit new record levels, with employment at its highest since quarterly records began. We will continue to work in partnership with the Scottish Executive to deliver prosperity for all the people of Scotland.

LEADER OF THE HOUSE

Departmental Salaries

Mike Penning: To ask the Leader of the House if he will list the 10 highest-paid employees in his Office; what the *(a)* job title and *(b)* salary including bonuses is of each; and whether the individual concerned is (i) a civil servant and (ii) a contractor in each case. [27432]

Mr. Hoon: The highest paid employee in the Office of the Leader of the House is the Principal Private Secretary, who is a member of the Senior Civil Service. Details of his salary band are available in the Privy Council Office, Resource Accounts 2003–04, HC109Q, a copy of which is available in the Library of the House.

The office employs an additional 13 members of staff, all of whom are civil servants. Details of their salary are not released, as to provide this information for such a small number of staff (all of whom are below the Senior Civil Service grade) would be unfair on the grounds of their entitlement to privacy.

Departmental Staff

Mike Penning: To ask the Leader of the House how many staff in his Office were *(a)* civil servants, *(b)* contractors and *(c)* other staff in each year since 1997. [27456]

Mr. Hoon: Prior to 2001 separate records were not kept for the Office of the Leader of the House of Commons. The figures were disaggregated from the rest of the Privy Council Office, which provides administrative support to my office, only from 2001. The information available is given in the following table.

	Civil servants	*Contractors*	*Other staff*
2001	19	0	0
2002	19.5	0	0
2003	16.5	0	0
2004	16	0	0
2005	14	0	0

Statutory Instruments

Mr. Evans: To ask the Leader of the House if he will list statutory instruments made, laid before Parliament, and which came into force during the most recent summer recess. [28025]

Nigel Griffiths: A total of 201 statutory instruments (excluding draft instruments) and six Statutory Rules of Northern Ireland were laid in the House of Commons in the period 22 July to 7 October. These are listed in the Votes and Proceedings of the House for 10 October. Of these 123 statutory instruments and five statutory rules came into force before 10 October.

CONSTITUTIONAL AFFAIRS

Postal Voting

19. **Philip Davies:** To ask the Minister of State, Department for Constitutional Affairs how many applications to pilot all-postal vote elections her Department has received since the Representation of the People Act 2000 came into force. [28122]

Ms Harman: The Government have received 93 applications to run all-postal pilots since the Representation of the People came into force. Eight were received in 2000, 20 in 2002, 43 in 2003, 12 in 2004 and two in 2005.

Electoral Registers

20. **Mr. Neil Turner:** To ask the Minister of State, Department for Constitutional Affairs what steps she plans to take to reduce the time taken to produce a copy of the marked register for those 2005 general election candidates who require one. [28123]

Ms Harman: The provision of copies of the marked electoral registers for the 2005 General Election is in fact the responsibility of the Clerk of the Crown in Chancery. Pickfords Records Management store these documents on the Clerk of the Crown's behalf. There were problems with the service in the first three months immediately following the 5 May Election. In this period, we received the same number or requests as we received for the whole of the year following the 2001 General Election.

This was due to the unforeseen volume of requests, which far exceeded the number of requests following the previous General Election. However, I have been assured that these problems have now been resolved.

Asylum Seekers

21. **Tony Baldry:** To ask the Minister of State, Department for Constitutional Affairs what funding her Department provided to Citizens Advice Bureaux for advice to asylum seekers in 2004–05; and what assessment she has made of the adequacy of such provision in Oxfordshire. [28124]

Bridget Prentice: The Legal Services Commission (LSC) provided a total of just under £27 million to CAB's nationally in all categories in 2004–05. It is not possible to separate what part of this sum was spent specifically on asylum advice.

The LSC is satisfied overall that there is adequate provision of specialist asylum advice in Oxfordshire.

National Census and Registration Day

22. **Simon Hughes:** To ask the Minister of State, Department for Constitutional Affairs what progress she has made in considering the proposal for an annual national census and registration day. [28125]

Ms Harman: We are determined to increase electoral registration levels, particularly among young people and those who rent. We want to focus on one particular day as a way of concentrating resources and raising public awareness and we are looking at this.

Armed Forces Personnel (Voting)

23. **Bob Spink:** To ask the Minister of State, Department for Constitutional Affairs what steps she is taking to facilitate voting by armed forces personnel. [28126]

Ms Harman: We have been working closely with the Ministry of Defence and the Electoral Commission to ensure that Service personnel are aware of their voting rights and the procedures for registering to vote. We are currently considering whether further legislation will be beneficial.

Judicial Appointments

24. **Mr. Swayne:** To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on qualifications for judicial appointments. [28127]

Bridget Prentice: I refer the hon. Member to the statement made on the 13 July by my right hon. and Noble Friend the Lord Chancellor on increasing diversity in the judiciary. Among the measures announced were that the Government would legislate when parliamentary time permitted, to change the current statutory requirements.

State Funding (Conservative Party)

25. **Mr. Khan:** To ask the Minister of State, Department for Constitutional Affairs how much state funding has been paid to the Conservative party in each of the last five years. [28128]

Ms Harman: I refer my hon. Friend to the answer I gave to my hon. Friend the Member for Broxtowe (Dr. Palmer) earlier.

Legal Aid

26. **Miss McIntosh:** To ask the Minister of State, Department for Constitutional Affairs what recent representations she has received on the proposed levels of legal aid; and if she will make a statement. [28129]

Bridget Prentice: My right hon. and noble Friend the Lord Chancellor and I have received letters from individual members of the Bar expressing concerns about the October changes that we had to implement to some fee rates in criminal cases in order to tackle the serious overspend of £130 million that has been forecast to the legal aid budget. Prior to the changes my right hon. and noble Friend the Lord Chancellor received representations from professional bodies and met with representatives of the Bar.

Mr. Dismore: To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the impact on the administration of justice of the recent industrial action by barristers over legal aid levels; and if she will make a statement. [28130]

Bridget Prentice: We said we would maintain the justice system regardless of any action barristers might take. We have done that. Action was limited and was (managed locally by the courts, Legal Service Commission and Crown Prosecution Service using a range of effective contingency plans.

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs what the change in the rates paid for criminal legal aid has been over the last 10 years. [27153]

Bridget Prentice: There are different rates prescribed for the many separate schemes across a variety of services provided within the Criminal Defence Service (CDS). The changes to the prescribed basic legal aid rates for work in the criminal courts are set in the following table.

Defence legal aid rates—Changes to the prescribed rates: Magistrates court proceedings, Crown court and Court of Appeal (Criminal) Proceedings

1995	Solicitors' rates and counsels' Crown court standard fee rates increased by 2 per cent.
1996	Solicitors' rates and junior barristers' rates increased by 1.5 per cent.
1997	Nil uprating.
1998	Nil uprating.
1999	Nil uprating.
2000	Nil uprating.
2001	Magistrates court—General Criminal Contract launched with an overall effect of an overall increase of 7.25 per cent., though the increase in rates varied between classes of work. Criminal higher courts—Remuneration changes in October with the introduction of a common graduated fee scheme by the Department for Constitutional Affairs and the Crown Prosecution Service for advocates in all trials lasting up to 25 days in the Crown court. The effect of those changes was to raise total remuneration for 1 to 10 day cases by about £3.2 million and to leave the level of remuneration for 11 to 25 day cases broadly the same. These changes also included changes in the graduated fee scheme to allow for some payment for conferences and the attendance fee for plea and directions hearings was increased from £75 to £100.
2002	Contract mileage rate under the General Criminal Contract increased to 45p. Nil remuneration uprating.
2003	Nil uprating.
2004	February—telephone fixed fee implemented for police station advice and assistance. £30.25 national / £31.45 London. October—Duty Solicitor. Serious offences rate introduced for police station advice and attendance at £80 per unsocial hour and £60 per hour at other times. Overall impact to introduce £3 million new money. Criminal courts—Remuneration changes in August to the Very High Cost Criminal Case contract rates and Criminal Graduated Fee schemes. The effects of the changes were: to reduce bureaucracy for the Bar by taking some 50 per cent. of VHCC cases into an extended graduated fee scheme, which now covers cases up to 40 days; raising the graduated fee rates for 11 to 25 day cases to the level which was expected in 2001 when the scheme was introduced and carrying those rates through to the 40 day extension; all Category 4 VHCC cases will be paid at the same rates as Category 3 VHCC cases; substantially increasing refreshers so that the same rate is now paid for Category 2 and 3 cases as for Category 1; moving terrorism cases into Category 1; moving under five-year advocate call rates to over five-year call rates. This settlement was a package to the Bar worth approximately £17 million. £11 million came from changes to the VHCCC scheme, and a further £6 million from the changes made to the 11 to 25 day graduated fee scheme where we made good the unintended shortfall that had occurred since the scheme was extended to 25 days on October 2001.
2005	October—Cuts in rates paid in some graduated fee and Very High Cost Criminal Case contracts (to both advocate's and litigator's rates). Extension of the existing graduated fee scheme for cracks and guilty pleas. Estimated savings in RAB terms from these additional measures, excluding Cracks and Guilties, are £5.1 million and £20.8 million for 2005–06, 2006–07 respectively. The extension of the Cracks and Guilties schemes is anticipated to increase savings by an estimated total of £20 million over 2005–06 and 2006–07.

Mr. Hayes: To ask the Minister of State, Department for Constitutional Affairs, if she will make a statement on the development of a standard form of legal aid applications as set out in Commission Decision 2005j630jEC, OJL225 of 31 August; what assessment his Department has made of the costs of implementing the scheme; and what assessment his Department has made of the impact of the scheme on the quantity of litigation. [27745]

Bridget Prentice: The Government warmly welcomes the introduction of the European Union's cross-border legal aid directive, which the Government enacted in November 2004.

The Legal Services Commission has received only one application for legal aid here in the United Kingdom and has transmitted 22 applications to other member states. The Government therefore expect the additional legal aid costs to be minimal. The Government do not hold the information requested in relation to both the costs of implementation and the impact of the scheme on the quantity of litigation.

Voter Registration

28. **Mr. David Jones:** To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on her policy on individual voter registration. [28131]

Ms Harman: The Electoral Administration Bill, currently before Parliament, includes provision for the collection of personal identifiers such as individual signatures and dates of birth at the point at which a person registers to vote.

In order that the effect of this policy may be tested prior to full implementation, the Bill provides for personal identifiers to be first piloted at a local level, with the results to be evaluated by the Electoral Commission.

Election Campaigns

29. **Ms Barlow:** To ask the Minister of State, Department for Constitutional Affairs what plans she has to limit the money that can be spent in election campaigns. [28132]

Ms Harman: There are no current plans to further limit the money that can be spent in election campaigns, over and above the limits that already exist both for candidates and parties. I understand that the Electoral Commission will be publishing its report into the spending at this year's general election in the spring of 2005. They also propose to undertake a review of expenditure limits beginning in mid-2006. I look forward to reading both reports.

Commercial Court

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs what plans she has to modernise the Commercial Court [27152]

Bridget Prentice: My Department is working with Her Majesty's Courts Service to finalise investment plans which will set out what new court building projects and major refurbishments will be taken forward. The improvement of the accommodation for the Commercial Court features in these plans and has been identified as a priority project within the HMCS Estate strategy.

A business case is being developed. This will include consideration of business justification, costs and funding. Accordingly, the business case will consider a number of options and solutions as to how and where improved facilities can be provided for this court.

Following consultation with the judiciary and users of the Commercial Court, we are also seeking to develop a new IT system for the Commercial Court which is designed to meet the particular needs of the court.

HOUSE OF COMMONS COMMISSION

Computer Facilities

34. **Hywel Williams:** To ask the hon. Member for North Devon, representing the House of Commons Commission if the Commission will arrange a Welsh language spell-checker to be installed on computers on the parliamentary network. [28138]

Nick Harvey: Existing software licences provide spell-checkers for a number of languages, including Welsh. A non-English spell-checker can therefore be installed on a specified personal computer on the basis of a request from an hon. Member to the Parliamentary Communications Directorate (PCD).

Contract Cleaners

35. **David Taylor:** To ask the hon. Member for North Devon, representing the House of Commons Commission what progress has been made in improving pay and conditions for the contract cleaners on the parliamentary estate. [28139]

Nick Harvey: Over recent months officials have worked hard to find ways of saving money within the contract. I understand that, as a result, in mid-August, MITIE were able to offer an increase in basic hourly rates to £6.00: and that dialogue between the company and the union on this offer continues. New changing accommodation and a limited rest facility have been made available.

Recycling

36. **Mr. Hollobone:** To ask the hon. Member for North Devon, representing the House of Commons Commission what the latest estimate is of the proportion of waste from Members' offices on the parliamentary estate which is recycled; and what steps are planned to increase this proportion. [28140]

Nick Harvey: Currently 35.7 per cent. of parliamentary waste is recycled. It is not possible to provide a separate figure for Members' offices. The new Waste Management policy to be adopted shortly sets out a target for increasing recycling by 5 per cent. per annum until 75 per cent. is reached.

College Green Ticket Office

Mr. Philip Hammond: To ask the hon. Member for North Devon, representing the House of Commons Commission when the seasonal ticket office located on College Green is due to be removed. [27626]

Nick Harvey: The ticket office was removed last week.

PRIME MINISTER

China

Miss McIntosh: To ask the Prime Minister (1) if he will press President Hu Jintao to meet the Dalai Lama to discuss the Tibet conflict; [27073]

(2) what his assessment is of progress in the dialogue between the representatives of the Dalai Lama and the Chinese Government. [27075]

The Prime Minister: I refer the hon. Member to the answer given by my right hon. Friend the Leader of the House of Commons (Mr. Hoon) to my hon. Friend the Member for Leyton and Wanstead (Harry Cohen) at Prime Minister's Questions on 26 October 2005, *Official Report*, column 300.

Miss McIntosh: To ask the Prime Minister if he will make a statement on the situation in Tibet. [27074]

The Prime Minister: I refer the hon. Member to the answer given by my hon. Friend the Minister of State for the Foreign and Commonwealth Office (Ian Pearson) to the hon. Member for Portsmouth, South (Mr. Hancock) on 11 November 2005, *Official Report*, columns 863–64W.

Miss McIntosh: To ask the Prime Minister when he last met non-governmental organisations working on human rights in *(a)* China and *(b)* Tibet. [27076]

The Prime Minister: I have not had any recent meetings with these organisations. However, Foreign and Commonwealth Office Ministers have regular meetings with non-governmental organisations working on human rights in China and Tibet.

Miss McIntosh: To ask the Prime Minister whether he plans to give a joint press conference with China's President Hu Jintao when he pays a state visit to the UK; and if he will make a statement. [27077]

The Prime Minister: I refer the hon. Member to the morning press briefing given by my official spokesman on 9 November 2005, a copy of which is available on the Number 10 website.

Miss McIntosh: To ask the Prime Minister what discussions were held on Tibet prior to the agreement of the recent joint EU-China statement. [27079]

The Prime Minister: I encouraged further meetings between the Chinese Government and the Dalai Lama's representatives during my visit to China in September, at the end of which the joint EU—China Statement was signed.

Prisons

Mr. Clappison: To ask the Prime Minister how many prisons he has visited since 1 May 1997. [28487]

The Prime Minister: I visited Pentonville prison in February 2001, and have undertaken a number of other visits relating to the criminal justice system since 1997.

TRADE AND INDUSTRY

Bilateral Trade

Mrs. Moon: To ask the Secretary of State for Trade and Industry what bilateral trade agreements are in force with developing countries. [27331]

Ian Pearson: The following bilateral trade agreements between the European Union and developing countries are currently in force:

Country	
Algeria	Cooperation Agreement
Egypt	Association Agreement
Jordan	Association Agreement
Lebanon	Interim Agreement
Morocco	Association Agreement
Syria	Co-operation Agreement
Tunisia	Association Agreement
Chile	Association Agreement
Mexico	Free Trade Area
South Africa	Trade, Development and Co-operation Agreement
African, Caribbean and Pacific Countries (ACPs)	Partnership Agreement (Cotonou Agreement)
Certain Overseas Countries and Territories (OCTs)	Association Agreement

Mrs. Moon: To ask the Secretary of State for Trade and Industry what assessment he has made of the impact of bilateral trade agreements with developing countries on their *(a)* local trade, *(b)* development and *(c)* economic growth; and what discussions he has had with the Secretary of State for International Development on these matters. [27332]

Ian Pearson: Bilateral trade agreements have the potential to promote trade, growth and prosperity in developing countries. But to do this, they must be carefully designed and any trade reform in developing countries must be sequenced as part of a wider strategy for development and poverty reduction.

The Department of Trade and Industry and the Department for International Development work closely at all levels on this and other trade policy issues relating to developing countries.

Biofuels

Daniel Kawczynski: To ask the Secretary of State for Trade and Industry what steps have been taken to provide funding to encourage Shropshire farmers to grow biofuels. [25334]

Mr. Morley: I have been asked to reply.

Funding is available to support the growing of energy crops for use in the generation of biomass heat and electricity and transport biofuels. £29 million was made available to farmers throughout England under the Energy Crops Scheme to support the planting of short rotation coppice (SRC) and miscanthus, and the setting up of producer groups to supply SRC to biomass heat and electricity end-users. The £3.5 million UK-wide

Bio-energy Infrastructure Scheme, which is now closed for applications, provides grants to develop the supply chain for energy crops, straw and woodfuel from harvest through to delivery to biomass energy end-users. Several of the successful applications are based in the West Midlands area. Farmers who grow crops for biomass heat and electricity and transport biofuels can receive the single payment for certain crops grown on set-aside or where the €45/ha Energy Aid payment is claimed for crops on non set-aside land.

Funding is also available to develop markets for energy crops in the generation of heat, combined heat and power, electricity and transport biofuels. It was announced on 10 November that the Government will introduce a Renewable Transport Fuels Obligation which will require 5 per cent. of fuel sold in the UK to come from a renewable source by 2010. The Government are also considering further initiatives to support investment in biofuel processing plants. These measures may open up opportunities for farmers to supply crops to be used to produce biofuels. A number of biomass and biofuel projects are being established in the West Midlands area. Marches Energy Agency, the Community Renewables Initiative's local support team for Shropshire and Herefordshire is working to develop further projects in the area.

Cold-calling Scams

Mr. Martyn Jones: To ask the Secretary of State for Trade and Industry what guidance his Department issues to start-up small businesses to safeguard them against cold-calling scams; and if he will make a statement. [23625]

Alun Michael: The Business Link website-www.businesslink.gov.uk-contains detailed advice on how businesses can avoid scams, including cold-calling.

Debt Collection Agencies

Mr. Paul Goodman: To ask the Secretary of State for Trade and Industry in what circumstances debt collection agencies are entitled to inform debtors that their credit rating may be altered. [27585]

Mr. Sutcliffe *[holding answer 11 November 2005]:* A person's credit reference file will automatically indicate when an account is in default. Communications between a debt collection agency and a debtor will depend on the circumstances concerned but the Office of Fair Trading, which is responsible for the licensing of debt collection agencies, has issued guidance that the debt collection sector must follow. The guidance sets out the types of behaviour that the Office of Fair Trading considers to be unfair and which could call into question a company's fitness to hold a licence. For example, the guidance makes clear that it is unfair for a debt collection agency to communicate with consumers in an unclear, inaccurate or misleading manner.

Employment Status Review

Dr. Iddon: To ask the Secretary of State for Trade and Industry when the conclusions of the Employment Act 1999 Section 23 Consultations (Employment Status Review) are to be made public. [27305]

Mr. Sutcliffe: The Government intend to publish a response to the Employment Status Review around the turn of the year.

Fireworks

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what estimate he has made of the quantity of fireworks used in October and November *(a)* by private individuals and *(b)* in public displays in each of the last 10 years. [27346]

Mr. Sutcliffe *[holding answer 11 November 2005]:* None. The Department does not collect or hold this information.

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what estimate he has made of the number of firework-related injuries in each of the last 10 years, broken down by *(a)* age of victim and *(b)* type of injury. [27347]

Mr. Sutcliffe *[holding answer 11 November 2005]:* The Department publishes firework injury statistics every year. These are collected from every hospital Accident and Emergency Department in Great Britain for a period of approximately four weeks around November 5. Information of the type you request is available on the DTI website for the years 1997–2004. The web address is:

http://www.dti.gov.uk/ccp/topicsl/pdfl/fireworkinjuries2004ss.pdf

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what assessment he has made of the safety levels of bonfire night activities in 2005. [27348]

Mr. Sutcliffe *[holding answer 11 November 2005]:* Legislation and guidelines are in place covering the importation, supply, use (including anti-social use) and the firing of displays. All of this legislation is kept under review, either by DTI or the Health and Safety Executive. Enforcement bodies will report on enforcement activities in due course.

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what estimate he has made of the number of public firework displays held in England in October and November in each of the last 10 years. [27349]

Mr. Sutcliffe *[holding answer 11 November 2005]:* None. Professionally fired displays are governed by legislation covering health and safety at work, which is the responsibility of the Health and Safety Executive.

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what assessment he has made of the effectiveness of fireworks regulations in relation to bonfire night activities in 2005. [27350]

Mr. Sutcliffe *[holding answer 11 November 2005]:* None. However, an assessment of enforcement activities under the relevant fireworks legislation will be undertaken in due course.

Rosie Cooper: To ask the Secretary of State for Trade and Industry how many people were injured by fireworks in West Lancashire in each of the last five years. [27839]

Mr. Sutcliffe: The fireworks injury statistics collected on behalf of the DTI are broken down by country i.e. England, Scotland and Wales, by super region and by health trust. Statistics for West Lancashire are therefore not available.

Furniture

Mrs. Moon: To ask the Secretary of State for Trade and Industry how many sofas were seized by consumer protection staff because of the presence of combustible foam in 2004–05, broken down by region. [26969]

Mr. Sutcliffe: The Furniture and Furnishings (Fire) (Safety) Regulations 1988 set levels of fire resistance for domestic upholstered furniture manufactured in or imported into the UK. These regulations are enforced by Trading Standards, who have powers to suspend the supply of products which do not meet the requirements of the regulations, to seize such products and to prosecute suppliers. This Department collates statistics on prosecutions under the regulations every five years and publishes them in a statutory report on consumer safety. The most recent report, published in 2003, records that 101 prosecutions were brought under the regulations between 1 April 1998 and 31 March 2003, of which 98 resulted in conviction. The Department does not collect statistics in relation to the presence of combustible foam in upholstered furniture.

Mrs. Moon: To ask the Secretary of State for Trade and Industry how many furniture manufacturers have ceased to trade over the last five years, broken down by region. [26981]

Alun Michael: Information on how many furniture manufacturers have de-registered for VAT in the last five years can be provided on a national basis but figures for each region could be provided only at disproportionate cost.

DTI figures for the whole of the UK, based solely on VAT de-registrations for furniture manufacturers[1], are shown below for 2000 to 2004. Data on the number of registered furniture manufacturers and the rate of de-registration are also shown. Data for 2005 will be available in autumn 2006.

[1] Standard Industrial Classification 361.

Furniture manufacturing 2000–04

	2000	*2001*	*2002*	*2003*	*2004*
VAT de-registrations	585	585	610	610	610
VAT registered stock at start of year	7,715	7,745	7,700	7,560	7,515
De-registrations per 100 registered stock	7.6	7.6	7.9	8.1	8.1

Source:
Business Start-ups and Closures: VAT Registrations and De-registrations 1994–2004, Small Business Service, available at http://www.sbs.gov.uk/vats

VAT registration and de-registration data do not capture all business activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold. Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 4.3 million enterprises were registered for VAT at the start of 2004.

Mrs. Moon: To ask the Secretary of State for Trade and Industry what assessment he has made of the levels of sofa imports with combustible foam content labelled as non-combustible foam. [26983]

Mr. Sutcliffe: The Furniture and Furnishings (Fire) (Safety) Regulations 1988 set levels of fire resistance for domestic upholstered furniture manufactured in or imported into the UK. These regulations are enforced by Trading Standards, who have powers to suspend the supply of products which do not meet the requirements of the regulations, to seize such products and to prosecute suppliers. The Department does not collect statistics in relation to the presence of combustible foam in upholstered furniture.

Post Offices

Mr. Lancaster: To ask the Secretary of State for Trade and Industry how many *(a)* sub-post and *(b)* post offices there were in north-east Milton Keynes in each year since 1997. [27181]

Barry Gardiner: This is an operational matter for Post Office Ltd. (POL). I have therefore asked the chief executive of POL to provide a direct reply to the hon. Member.

Mr. Hollobone: To ask the Secretary of State for Trade and Industry how many *(a)* sub-post and *(b)* post offices there were in Kettering constituency in each year since 1997. [27294]

Barry Gardiner: This is an operational matter for Post Office Ltd. (POL) and the chief executive has been asked to reply direct to the hon. Member.

Mr. Letwin: To ask the Secretary of State for Trade and Industry what assessment he has made of the likely effects of the removal of the duty for Post Office Ltd. to prevent avoidable rural post office closures in April 2006. [27323]

Barry Gardiner: The then Secretary of State for Trade and Industry's statement of 16 September 2004 to the House advised that Post Office Ltd. had been directed to provide a report to Government of the findings of pilot activity into new, innovative and cost-effective means of delivering postal services at the end of 2005. It further stated that an assessment of the policy of preventing avoidable closures of rural post offices would be conducted in light of the findings of the pilot report. This will be considered alongside analysis of the network currently being conducted.

Mr. Letwin: To ask the Secretary of State for Trade and Industry if he will hold a public consultation on the future of the rural post office network. [27327]

Barry Gardiner: The Government are in the process of reviewing the future of the social network of post offices in rural and deprived urban areas and is fully committed to undertaking a public consultation at the appropriate time.

Postcomm

Mr. Hoyle: To ask the Secretary of State for Trade and Industry how many applications were received for the post of Chair of Postcomm; whether the job is full-time; and what the annual salary of the Chair of Postcomm is. [28015]

Barry Gardiner: 56 applications were received in June 2003 for the post of Chair of Postcomm. It is a part-time position, based on a three-day week, attracting an annual salary of £76,500 (pay award pending).

Radioactive Waste Management

Peter Law: To ask the Secretary of State for Trade and Industry what information he has received from the European Commission in respect of proposals for a joint undertaking to organise research on radioactive waste management. [28952]

Mr. Morley: I have been asked to reply.

The Government are aware that the European Commission is developing a proposal for a joint undertaking to organise research on radioactive waste management. The Commission believes that such a project would be of common European interest and would allow the pooling of private, national and Community resources to achieve specific long-term research objectives. The proposal has not yet been submitted to the Council of Ministers.

Retirement Age

Mike Penning: To ask the Secretary of State for Trade and Industry what recent discussions he has had with local authorities about the retirement age for public sector workers; and if he will make a statement. [24826]

Alan Johnson: I have had no discussions with local authorities about the retirement age for public sector workers.

Tax Forms

Mr. Hoyle: To ask the Secretary of State for Trade and Industry what average number of tax forms businesses were requested to *(a)* fill in and *(b)* reply to in each of the last five years. [28014]

Dawn Primarolo: I have been asked to reply.

The number of tax forms a business will respond to will depend upon a number of factors including its size, the nature of its business activities and how it chooses to provide information eg in writing, on-line or through agents. The wide range and diversity of these factors means any exercise to calculate averages has limited value and would necessitate a great deal of research at disproportionate cost.

Travel Insurance

Mr. Pickles: To ask the Secretary of State for Trade and Industry what discussions he has had with insurance industry representatives on travel insurance which excludes cover for tour company insolvency. [25680]

Mr. Sutcliffe: None. The Package Travel, Package Holidays and Package Tours Regulations 1992 (SI 1992/3288) require that all businesses organising package tours must at all times be able to provide sufficient evidence of security for the refund of money paid over by consumers and for the repatriation of consumers in the event of insolvency.

Veterinary Services

Steve Webb: To ask the Secretary of State for Trade and Industry what assessment he has made of the implications for access to veterinary services of the loss to vets of prescription-related income. [27353]

Mr. Sutcliffe *[holding answer 11 November 2005]:* The regulatory impact assessment accompanying the Supply of Relevant Veterinary Medicinal Products Order 2005 fully sets out the implications. It is for individual veterinary surgeons to choose their pricing structure should they wish to recoup this income, as long as they do it in a way that does not discriminate between those customers who take a prescription and those who do not.

Steve Webb: To ask the Secretary of State for Trade and Industry for what reason vets will be prevented from charging for prescribing; and whether he plans to apply the same principles to other professional groups. [28113]

Mr. Sutcliffe *[holding answer 14 November 2005]:* The Competition Commission found in their report in April 2003 that the market in prescription-only veterinary medicines was not working well for animal owners. They recommended a package of measures aimed at opening up the market to competition.

A key element of the package of measures is to enable customers to take up prescriptions, so they can shop around for medicines rather than be forced to pay the prices charged by the veterinary surgeon treating their animal. The three-year moratorium on prescription charges is seen by both the Competition Commission and Government as essential to encouraging take-up and opening the market.

This is not currently applied to other professional groups as it follows a detailed analysis by the Competition Commission in response to complaints specific to the market for veterinary medicines.

Water Privatisation

Angela Browning: To ask the Secretary of State for Trade and Industry what representations he has made to ensure that the consequences of privatisation of water in developing countries is discussed at the World Trade Organisation talks in December. [26078]

Ian Pearson: There is nothing in the World Trade Organisation (WTO) General Agreement on Trade in Services (GATS) which requires WTO members to privatise water utilities. The GATS provides a framework within which WTO members can negotiate the liberalisation of trade in services. It is up to WTO members to decide in which sectors to make commitments.

We have therefore made no such representations.

World Trade Organisation

Mr. Alan Reid: To ask the Secretary of State for Trade and Industry what assessment he has made of the EU's negotiating position at the World Trade Organisation. [25828]

Ian Pearson *[holding answer 7 November 2005]:* Under the Common Commercial Policy, the European Commission negotiates in the World Trade Organisation on behalf of the European Union's 25 member states. The European Commission is bound by a negotiating mandate granted and updated by the Council of Ministers but has the freedom to determine strategy and tactics within the parameters of that mandate. The assessment of Her Majesty's Government is that the offers tabled by the European Commission on 10 and 28 October are within the remit of the negotiating mandate. Her Majesty's Government continues to give its full backing to the Trade Commissioner, Peter Mandelson, in his conduct of the negotiations and is committed to achieving an ambitious, pro-development conclusion of the Doha Development Agenda by the end of 2006.

DEPUTY PRIME MINISTER

Departmental Priorities

Mr. Jim Cunningham: To ask the Deputy Prime Minister if he will make a statement on his Department's priorities for 2006–07. [28064]

Jim Fitzpatrick: The aim of the Office of the Deputy Prime Minister, (ODPM) is to help create sustainable communities, working with other Government Departments, local councils, businesses, the voluntary sector, and communities themselves.

We have five year plans, a challenging set of public service agreement targets and strategic priorities which set the overall framework, as set out in our Annual Report for 2004–05 (Cm 6526). They are published in the ODPM Business Plan for 2005–06 which can be found on the ODPM website.

We have recently completed a stock take of our policies and programmes to ensure that we have full alignment across these programmes, to maximise our impact in delivery, and to sharpen our focus in advance of the Comprehensive Spending Review in 2007. The conclusions are set out in the core narrative on the ODPM website.

English Partnerships

Mr. Lancaster: To ask the Deputy Prime Minister when English Partnerships' future national programme for the years 2005–06 to 2008–09 is expected to be announced. [27509]

Yvette Cooper: Discussions are currently under way with English Partnerships on their future national programme and priorities for the years 2005–06 to 2008–09. Once these planning round discussions have been finalised, which is likely to be in the next two months, English Partnerships corporate priorities will be published.

Funding for the Office of the Deputy Prime Minister programmes, including English Partnerships, for 2008–09 to 2010–11 will be dependent on the results of the Comprehensive Spending Review 2007.

Free Bus Passes

Tim Loughton: To ask the Deputy Prime Minister when he expects to answer the letter from the hon. Member for East Worthing and Shoreham of 21 September regarding payments to Adur council for extension of free bus travel for pensioners. [28231]

Mr. Woolas: I replied to the hon. Member on 10 November.

Housing

Mr. Dismore: To ask the Deputy Prime Minister what the percentage change has been in average weekly rent in constant prices in *(a)* the local authority and *(b)* the registered social landlord sector in each (i) London borough and (ii) English region since 2001. [24269]

Yvette Cooper: Average weekly rent by local authority district and region are published for the local authority sector and the registered social landlord sector on the Office of the Deputy Prime Minister's website in Tables 702 and Tables 704 respectively. The links for these tables are given as follows:

Table 702: http://www.odpm.gov.uk/embedded_object.asp?id=1156266

Table 704: http://www.odpm.gov.uk/embedded_object.asp?id:=1156268

These tables will be updated with information for 2005 late this month. The percentage changes from March 2001 to March 2004 are given in the Tables:

(i) London boroughs

Table 1: Percentage change in average weekly rent at constant prices 2001 to 2004 for London boroughs

	Registered Social Landlord (RSL) % increase	*Local Authority Landlord % increase*
Barking and Dagenham	2.2	3.8
Barnet	2.7	5.0
Bexley	-2.2	LSVT
Brent	7.3	-3.4
Bromley	0.1	LSVT
Camden	4.9	-2.6
City of London	7.7	5.5
Croydon	1.2	-3.6
Ealing	6.2	-5.7
Enfield	6.9	-0.5
Greenwich	6.2	2.7
Hackney	5.3	-7.3
Hammersmith and Fulham	6.3	3.4
Haringey	3.3	-1.8
Harrow	1.1	2.2
Havering	3.2	5.1
Hillingdon	4.2	0.4
Hounslow	3.0	4.4
Islington	6.9	-2.9
Kensington and Chelsea	8.1	5.6
Kingston upon Thames	6.2	0.4
Lambeth	5.1	3.2
Lewisham	6.2	0.7
Merton	1.9	0.2
Newham	3.5	3.4
Redbridge	3.6	-4.3
Richmond upon Thames	0.9	LSVT
Southwark	5.9	-1.0
Sutton	3.8	5.3

Table 1: Percentage change in average weekly rent at constant prices 2001 to 2004 for London boroughs

	Registered Social Landlord (RSL) % increase	Local Authority Landlord % increase
Tower Hamlets	7.9	-8.0
Wandsworth	5.0	9.8
Waltham Forest	-1.0	1.4
Westminster	6.3	1.2
London	4.1	0.1

Notes:
1. RSL data based on data collected by the Housing Corporation via the annual Regulatory and Statistical Return (RSR) LA data based on unaudited returns from the Second Subsidy Claim form and are provisional for 2004.
2. Constant prices based on the Retail Price Index.
3. Average Weekly Rents in Both Sectors are affected by Large Scale Voluntary Transfers (LSVT).
4. "LSVT": all or most of the local authority stock has been transferred to the RSL sector, so an average rent is no longer appropriate.

(ii) English Regions

Table 2: Percentage change in average weekly rent at constant prices 2001 to 2004 for English regions

	Registered Social Landlord % increase	Local Authority Landlord % increase
North East	0.0	1.6
North West	4.0	1.0
Yorkshire and the Humber	4.8	-1.0
East Midlands	-0.7	3.5
West Midlands	2.6	2.8
East	1.3	1.8
London	4.1	0.1

Table 2: Percentage change in average weekly rent at constant prices 2001 to 2004 for English regions

	Registered Social Landlord % increase	Local Authority Landlord % increase
South East	1.6	3.0
South West	2.1	0.3
England	0.8	2.9

Notes:
1. RSL data based on data collected by the Housing Corporation via the annual Regulatory and Statistical Return (RSR) LA data based on un-audited returns from the Second Subsidy Claim form and are provisional for 2004.
2. Constant prices based on the Retail Price Index.
3. Average Weekly Rents in Both Sectors are affected by Large Scale Voluntary Transfers (LSVT). If Large Scale Voluntary Transfers have taken place the average weekly rents may be affected by the change in the mix of the stock.

Jim Cousins: To ask the Deputy Prime Minister how many households were on the housing register of each local housing authority in the north-east in each year from 2000 to 2005; and what that number of households was as a percentage of all households. [26187]

Yvette Cooper: The available information is in a table and has been placed in the Library of the House.

Local authorities in England report the numbers of households on their housing waiting list as at 1 April in their annual Housing Strategy Statistical Appendix returns. Local authorities sometimes maintain a common waiting list with the housing association/s in their district. However, information is not held centrally where a housing association maintains a separate waiting list to the local authority.

Number of households on local authorities' housing waiting lists, and as a percentage of total households in the area, by each local authority in the north-east region, 2000–05

	Total households on the housing waiting list					
Local authority	2000	2001	2002	2003	2004	2005
Alnwick	773	568	802	961	1,155	1,192
Berwick-upon-Tweed	523	566	455	492	455	756
Blyth Valley	2,110	1,878	1,966	2,223	2,753	3,637
Castle Morpeth	1,083	1,424	719	2,048	1,426	1,419
Chester-le-Street	1,314	1,698	1,827	2,028	2,366	2,464
Darlington	2,087	2,127	1,886	2,666	2,601	2,853
Derwentside	2,249	2,227	2,269	2,652	2,920	2,965
Durham	1,028	1,126	1,091	1,413	2,110	2,618
Easington	3,094	2,546	3,205	2,842	3,622	2,015
Gateshead	4,665	4,841	5,394	6,015	9,894	4,174

Source:
The number of households on the waiting lists from ODPM's Housing Strategy Statistical Appendix return. Figures are as at 1 April. Total household figures from ODPM's 2003 mid-year household estimates.

Mr. Betts: To ask the Deputy Prime Minister if he will commission research to update the affordability index used to determine the areas included within the scope of the Housing (Right-to-Buy) (Limits on Discounts) (Amendments) Order 2003. [26238]

Yvette Cooper: The Housing (Right-to-Buy) (Limits on Discount) (Amendment) Order 2003 came into force on 27 March 2003. It reduced to 16,000 the maximum right-to-buy discount available to tenants in 41 areas in London and the South of England that appeared to be under the greatest housing market pressure in terms of high levels of homelessness and high property prices. The Government is keeping the position on maximum right-to-buy discounts generally under review.

Mike Penning: To ask the Deputy Prime Minister what estimate he has made of the cost of additional public services which will be required by people living in the proposed new housing in Hertfordshire. [26348]

Yvette Cooper: The Government's approach is to ensure that infrastructure, including public services, is provided in step with growth, as plans for individual growth locations are developed. There are three elements to this: first, to ensure that main public expenditure programmes, such as health and education, are sufficiently flexible and responsive to the needs of growing communities; second, to secure an appropriate contribution from developers and private investors; and third, to provide additional support through growth areas funds, including the Community Infrastructure Fund.

Hertfordshire and the rest of the East of England have already benefited from a significant increase in identifiable public expenditure, receiving £28.1 billion in 2003–04—a 26 per cent. real terms increase on 1999–2000. In particular between 1999–2000 and 2003–04:

Transport spending in the region rose from £717 million to £1,038 million

Health spending in the region rose from £4,011 million to £6,001 million

Education and training spending in the region rose from £3,327 million to £4,889 million

Public order and safety spending in the region rose from £896 million to £1,413 million

The East of England Regional Assembly has submitted its draft Regional Spatial Strategy for the East of England to Government. Following extensive public consultation, that draft strategy is now subject to an independent Examination in Public, which began on 1 November and runs to early March 2006.

It is for the Examination in Public, after considering all the evidence and representations before it, to make recommendations to Government on the appropriate long-term strategy for the scale and location of development in the East of England.

Once Government have received the recommendations of the Examination in Public, and consulted on any changes it proposes, the final strategy will be issued. The Office of the Deputy Prime Minister is already engaged in discussions with partners on infrastructure and growth issues in the East of England and we will develop plans further in the light of the final strategy. Public service providers will then have the long-term certainty they need in which to plan future levels of service provision. Detailed development decisions need to be made at the local level as part of the preparation of local development documents.

Jim Cousins: To ask the Deputy Prime Minister how many *(a)* demolitions and *(b)* empty properties (i) across all sectors and (ii) in council housing there were in each local housing authority in the North East in each year from 2000 to 2005. [26186]

Yvette Cooper: The available information is in a table and has been placed in the Library of the House.

Table for PQ 2024—number of all tenure and council demolished and empty dwellings by each local authority in the north east region 2000 to 2005.

Part A—number of demolished dwellings in the financial year

Local authority name	Total dwellings demolished 2000–01	2001–02	2002–03	2003–04	2004–05
Alnwick	0	2	0	0	n/a

Note:
Zero LA figures indicates council became LSVT.

Source:
Council Tax Base 1 (CTB1) return for all dwellings from 2003 to 2005, all others from Housing Strategy Statistical Appendix (HSSA) return.

Mr. Austin Mitchell: To ask the Deputy Prime Minister how many of the planned 75,000 social rented houses planned to be built by 2007–08 will be provided by local authorities. [22253]

Yvette Cooper: Of the estimated 75,000 social rented houses to be provided by 2007–08 we estimate that up to some 3,000 will be provided by local authorities.

Since 1990 registered social landlords (RSLs) have been the main providers of additional affordable housing. They are generally able to deliver more units than local authorities for a given amount of public subsidy because of their ability to access private finance.

Local Government Finance

Margaret Moran: To ask the Deputy Prime Minister what *(a)* revenue and *(b)* capital funding his Department has allocated to Luton council in each of the last five years. [26106]

Mr. Woolas: The Office of the Deputy Prime Minister (ODPM) was established following the Machinery of Government changes on 29 May 2002. The following table sets out payments made to Luton council since 2002–03. For earlier years, the table shows the amount paid by ODPM's predecessor Departments from programmes which are now administered by the Office.

All figures (£ million)

Funding	(a) Revenue	(b) Capital
2000–01	136.000	5.163
2001–02	141.859	3.013
2002–03	148.423	3.063
2003–04	171.619	6.323
2004–05	179.599	7.946
Total	777.500	25.508

Mr. Andrew Turner: To ask the Deputy Prime Minister what the revenue support grant per head was in each local authority in *(a)* 1998, *(b)* 2001 and *(c)* 2004; and what the figure for the relative level of grant per head was for each authority in each year if the average level of grant per head in England in each year is represented by 100. [26893]

Mr. Woolas: A table showing formula grant per head for 1998–99, 2001–02 and 2004–05, together with the relative level of grant per head for each authority in each of these years has been placed in the Library of the

House. Formula Grant comprises Revenue Support Grant, Redistributed Business Rates and Police Grant. It is not appropriate to look at only the amount of Revenue Support Grant an authority receives since floor damping operates across formula grant.

Please note that for every area in England there is more than one authority providing services. In order to get a true comparison for an area compared to the English average for the year it is therefore necessary to add together the authorities that cover that area, thus for the Isle of Wight it is necessary to add together the data for the Isles of Wight plus that for Hampshire police. For example, in 1998–99 the Isle of Wight received £592.77 per head to cover all services except police and Hampshire police received £88.08 per head to cover police services. Therefore, the figure for the Isles of Wight area to cover all services was £592.77 + £88.08 = £680.85 which compares to an England average of £653.14.

Pathfinder Renewal Projects

Jim Cousins: To ask the Deputy Prime Minister pursuant to the Answer of 25 October 2005, *Official Report*, column 339W, on Pathfinder Renewal Projects, what information he requires from Pathfinder Renewal schemes about their expenditure, including the Capital Modernisation Fund; and what the frequency is of those financial returns. [24242]

Yvette Cooper: All nine of the Housing Market Renewal Pathfinders submit monthly claims for expenditure occurred in the previous month. The claims are divided in each case between capital and revenue costs and show expenditure on:

i. Physical implementation

ii. Non-physical implementation

iii. Management, administration and scheme development costs.

At six monthly intervals the pathfinders submit their core indicator returns which show progress on each of their agreed outputs.

All Capital Modernisation Fund (CMF) moneys were spent in 2002–03 and 2003–04. The information then collected was not submitted on an agreed pro-forma or broken down into any fixed categories for each pathfinder but submitted on local authority or pathfinder own forms depicting various items of expenditure relating to scheme development and capacity building.

Smithfield Market

Mr. Swire: To ask the Deputy Prime Minister what representations he has made to the Corporation of London about the proposed redevelopment of the old Smithfield Market site. [27998]

Yvette Cooper: My right hon. Friend the Deputy Prime Minister has not made any representations to the Corporation of London.

Social Landlords

Paul Holmes: To ask the Deputy Prime Minister (1) whether members of boards and gateway boards of registered social landlords are legally required to act in the best interests of the organisation; [26207]

(2) whether councillors are prohibited by law from being members of the boards and gateway boards of registered social landlords; [26208]

(3) whether tenants' representatives are legally required to act in the best interests of their registered social landlord. [26209]

Yvette Cooper: All board members of registered social landlords (RSLs), including tenant board members, owe a fiduciary duty to act in the best interests of the organisation. This is a common law duty which imposes a general requirement on them to act in good faith and for the benefit of the RSL. This applies to all RSLs, including those established using the Community Gateway model.

There is no prohibition on councillors being RSL board members. However, as councillors they are subject to a code of conduct which requires them to remove themselves from, or not vote at, any council meeting where they might have a prejudicial interest in the matter being discussed.

Thames Gateway

Andrew Rosindell: To ask the Deputy Prime Minister whether he plans to extend *(a)* motorways and *(b)* A roads in Essex to take account of the Thames Gateway. [25081]

Yvette Cooper: In 2003 the Secretary of State for Transport announced a £1.6 billion investment in the widening of the M25. This programme will take in junctions 27–30 in the Essex stretch of the motorway.

The transport authorities in Essex have an opportunity to bring forward improvements to non-strategic roads through their respective local transport plans. Provisional plans are currently with the Department for Transport and are being assessed.

Additionally, the Office of the Deputy Prime Minister and the Department for Transport are working with the South Essex Transportation Board to identify the further transport and other infrastructure needs of the area in the context of the Thames Gateway.

Andrew Rosindell: To ask the Deputy Prime Minister what percentage of the Thames Gateway project will be accounted for by social housing. [25082]

Yvette Cooper: The ultimate percentage of affordable housing (which includes social housing) in the Thames Gateway will be dependent upon a number of factors such as local development plan requirements. The Office of the Deputy Prime Minister does not set targets centrally for affordable housing.

However, "Creating Sustainable Communities: Delivering the Thames Gateway" sets out our expectation that at least 35 per cent. of new homes will be affordable for rent or purchase, while supporting the different local circumstances across the Gateway. The London Plan, published in February 2004, set an affordability target of 50 per cent. for new developments. Regional Spatial Strategies (RSSs) for the South East of England and the East of England regions are currently under review. At present neither existing RSS sets a target for affordable housing, but an anticipated target of 30 per

cent. was put forward in the Interregional Planning Statement agreed by the three Gateway regional planning authorities.

Andrew Rosindell: To ask the Deputy Prime Minister how many properties the Government plan to build in *(a)* Essex, *(b)* Basildon, *(c)* Southend, *(d)* Thurrock and *(e)* East Tilbury in the context of the Thames Gateway project. [25097]

Yvette Cooper: The draft Regional Spatial Strategy developed by the East of England Regional Assembly proposes a total of 43,800 new dwellings in the period 2001 to 2021. This is spilt between the areas as follows:

	Number
Thurrock	18,500
Basildon	10,700
Southend	6,000
Castle Point	4,600
Rochford	4,000

These proposals will be tested through the Examination in Public of the East of England Plan. This began on 1 November.

EDUCATION AND SKILLS

"Working Together"

Annette Brooke: To ask the Secretary of State for Education and Skills when she expects to publish the responses to the consultation on "Working Together". [28831]

Maria Eagle: The consultation ended on 28 October. The Department will publish an analysis of the consultation responses within three months of this date, in line with standard DfES practice.

Adult Guidance Provision

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills where the responsibility for Adult Guidance Provision will lie when the Connexions model is replaced with that proposed in the Every Child Matters and Youth Matters white papers. [25085]

Phil Hope: Overall responsibility for securing provision of information, advice and guidance services for adults to help them make informed choices about learning and work rests with the Learning and Skills Council, and there are no plans for this to change.

After-class Tutoring

Rosie Cooper: To ask the Secretary of State for Education and Skills what estimate she has made of the percentage of *(a)* primary and *(b)* secondary school teachers who participate in after-class tutoring (i) at their school of employment and (ii) elsewhere in West Lancashire. [28103]

Jacqui Smith: The information requested is not held centrally.

Education

Mr. Lancaster: To ask the Secretary of State for Education and Skills how many *(a)* classroom assistants and *(b)* full-time equivalent classroom assistant posts there were in the North-East Milton Keynes constituency in each year since 1997. [27205]

Jacqui Smith: The following table provides the full-time equivalent number of teaching assistants in maintained sector schools, including pupil referral units, in the North-East Milton Keynes constituency in January of each year.

The number of full-time equivalent teaching assistant posts in North-East Milton Keynes is not collected centrally.

Full-time equivalent number of teaching assistants[1] in maintained sector schools[2] including pupil referral units, in the North-East Milton Keynes constituency

	FTE teaching assistants
1997	80
1998	90
1999	100
2000	100
2001	100
2002	100
2003	170
2004	180
2005	180

[1] Includes teaching assistants, special needs support staff and ethnic minority support staff.
[2] Includes maintained and non-maintained special schools.
Note:
Figures are rounded to the nearest 10.
Source:
Annual School Census.

Rosie Cooper: To ask the Secretary of State for Education and Skills what proportion of its total budget was spent by Lancashire Local Education Authority on special needs education in West Lancashire in the last year for which figures are available. [27658]

Maria Eagle: The information requested is collected at local education authority level. West Lancashire is part of Lancashire Local Education Authority and the information supplied is reported at the LEA level.

Budgeted net expenditure on the provision of education for children with special educational needs[1, 2] by Lancashire local authority[3] in financial year 2005–06

	Expenditure
Budgeted net expenditure on the provision of education for children with special educational needs[1, 2, 3, 4] (£)	109,113,000
Total education revenue expenditure[3, 4, 5] (£)	702,069,000
Budgeted net expenditure on the provision of education for children with SEN as a percentage of total education revenue expenditure[4]	15.5

[1] Includes planned expenditure on the provision for pupils with statements and the provision for non-statemented pupils with SEN, support for inclusion, inter authority recoupment, fees for pupils at independent special schools and abroad, educational psychology service, local authority functions in relation to child protection, therapies and other health related services, parent partnership, guidance and information, the monitoring of SEN provision and inclusion administration, assessment and co-ordination. Also included is the funding delegated to nursery, primary and secondary schools identified as "notional SEN" and the individual schools budget (ISB) for special schools.

[2] The ISB for special schools will include some general education costs for pupils with SEN in addition to those costs specifically for SEN while the figures recorded against "notional SEN" are indicative only of the amount that might be spent by schools on SEN. In addition to the figures quoted above, Lancashire also budgeted £13.2 million for SEN transport expenditure in 2005–06.
[3] Financial data are collected at a local authority level and as such figures for West Lancashire are not available.
[4] Figures are in cash terms as reported by the LEA and rounded to the nearest £1,000 and may not sum due to rounding.
[5] Total Education Revenue Expenditure is the combination of the total schools budget and the total local authority budget.
[6] The data are drawn from Lancashire local authority's 2005–06 Section 52 Budget Statement (Tables 1 and 2) submitted to the DfES.

Education Authority Areas

Mr. Wills: To ask the Secretary of State for Education and Skills what percentage of children in *(a)* England and *(b)* London are attending state (i) primary and (ii) secondary schools outside the local education authority area in which they live. [27760]

Jacqui Smith: The information requested has been provided in the following table.

Percentage of pupils attending maintained schools outside of the local authority in which they reside

	Pupils resident in London	*England*
Primary[1]		
Number	38,947	112,195
Percentage	8.1	3.3
Secondary[2]		
Number	85,632	238,454
Percentage	22.6	8.0

[1] Includes middle deemed primary schools.
[2] Includes middle deemed secondary, CTCs and academies.
Source:
Annual School Census 2005 Final.

Education Maintenance Allowance

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how many students have claimed the education maintenance allowance in each year that it has been available; and how many she expects to claim it in 2006–07. [27956]

Maria Eagle: The numbers of students who received education maintenance allowances (EMA) are:

	Number
2001/02	115,700
2002/03	125,600
2003/04	127,900
2004/05	297,600

For the academic year 2005/06, we estimate that around 465,000 young people will be eligible to receive EMA on income grounds. This includes unwaged trainees on work based learning programmes funded by the Learning and Skills Council (LSC). From April 2006, those aged 16–19 on Entry to Employment or Programme Led Pathways, and their parents/carers, will receive the same package of financial support as is currently available to those who stay on in full time education ie EMA, child benefit, child tax credit and other related benefits.

For the academic year 2006/07, we estimate that around 555,000 young people will be eligible to receive EMA on income grounds.

So far, the national EMA scheme has been rolled out to 16 and 17-year-olds. However, in pilot areas EMA is also available to those aged 18. The national scheme will be rolled out to 18-year-olds in September 2006. Unwaged trainees aged 16–19 will be eligible from April 2006.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the education maintenance allowance was per capita in each year in which it has been available; and what it will be in *(a)* 2006–07 and *(b)* 2007–08. [27957]

Maria Eagle: The education maintenance allowance (EMA) is a weekly payment of £10, £20 or £30 dependant upon household income paid directly to young people who stay on in learning after they reach the statutory school leaving age. Young people may also receive bonuses of £100 if they remain on their course and make good progress with their learning.

The household income thresholds for EMA payments in the academic year 2004/05 were:

Up to £19,630 for the weekly £30 EMA payment

More than £19,630 but less than or equal to £24,030 for the weekly £20 EMA payment

More than £24,030 but less than or equal to £30,000 for the weekly £10 EMA payment

The current household income thresholds for EMA payments (effective from the academic year 2005/06) are:

Up to £20,270 for the weekly £30 EMA payment

More than £20,270 but less than or equal to £24,850 for the weekly £20 EMA payment

More than £24,850 but less than or equal to £30,000 for the weekly £10 EMA payment.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what percentage of students receiving the education maintenance allowance completed their qualifications in each year that the allowance has been available. [27958]

Maria Eagle: This information is not available as we do not separately record information on qualification completion rates for those claiming education maintenance allowances.

Education White Paper

Dr. Kumar: To ask the Secretary of State for Education and Skills what role she expects local education authorities to fulfil in relation to *(a)* promoting, *(b)* monitoring and *(c)* commenting on personalised learning in schools in relation to the White Paper Higher Standards, Better Education for All. [26814]

Jacqui Smith: We expect all local authorities in their new role as commissioners of education and under their duty to raise educational standards to be promoting and

monitoring personalisation of learning to ensure that all schools meet the needs of parents and pupils in their area.

Local authorities, through their National Strategies consultants and other school improvement staff, will play a vital role in promoting and spreading best practice about personalised learning to all their schools.

Under the New Relationship with Schools, local authorities will have access to up-to-date and authoritative information to monitor and assess how their schools are serving all their pupils: from the pupil-level data now available; from the School Improvement Partners (SIPs) they employ; and from the more frequent school inspections conducted by Ofsted. Also, through the SIP—a nationally accredited expert, typically a head teacher—local authorities will be able to support, challenge and hold school accountable locally around personalised learning specifically, and continuous school improvement, more generally.

Gifted and Talented Youth

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to the Answer of 7 November 2005, *Official Report*, column 118W, on gifted and talented youth, how many and what proportion of members of the National Academy of Gifted and Talented Youth attended *(a)* maintained and *(b)* non-maintained secondary schools in 2004–05, broken down by local education authority. [28185]

Jacqui Smith: The information, as supplied by the National Academy for Gifted and Talented Youth, is set out in the following table.

		Members in independent schools	*Percentage of total NAGTY membership*	*Members in maintained schools*	*Percentage of total NAGTY membership*	*Total members*
		As at 31 March 2005

Looked-after Children

John Bercow: To ask the Secretary of State for Education and Skills if she will make a statement on progress with the target for the level of education achieved by care leavers aged 19 years. [26783]

Maria Eagle: The Department publishes progress against all its outstanding PSA targets in its annual departmental report and autumn performance report. Progress against our last spending review targets for 2002, including the one referred to in this question, was reported most recently in the 2004 autumn report, published last November 2004, together with commentary where appropriate. A copy of the report is available from the House of Commons Library.

Public Service Agreements

John Bercow: To ask the Secretary of State for Education and Skills when she will assess progress on the public service agreement target to halt the year-on-year rise in obesity among children under 11 years by 2010. [26789]

Jacqui Smith: The public service agreement to halt the year-on-year rise in obesity among children under 11 by 2010 in the context of a broader strategy to tackle obesity in the population as a whole is the joint responsibility of the Secretary of State for Education and Skills, the Secretary of State for Health, and the Secretary of State for Culture, Media and Sport. Joint cross-departmental programme management arrangements have been established to drive action to meet this target. Progress against the target will be measured through the Health Survey for England. The baseline will be established for the years 2002–04: data from the 2004 Health Survey will be available this winter. The 2005 Health Survey data will be available next winter, 2006–07, for the period 2003–05. We shall assess progress at that point.

There is no single intervention for obesity. A wide variety of Government programmes make a valuable contribution to tackling the causes of obesity, including, from this Department, advice and support to parents in establishing and maintaining a healthy lifestyle delivered through Sure Start local programmes and children's centres, the Healthy Schools programme, new standards to improve the quality and healthiness of food in schools, increases in the time spent by pupils in PE and school sport delivered through the roll-out of the national PE, School Sports and Club Links strategy, and measures to improve the well-being and emotional health of children and to develop their social and emotional skills.

School Computers

Mr. Wills: To ask the Secretary of State for Education and Skills what her most recent estimate is of the ratio of pupils to computers in *(a)* primary and *(b)* secondary schools. [24483]

Jacqui Smith: The information requested is shown in the table.

Maintained primary and secondary schools[1]: Full-time equivalent number of pupils per computer[2], January 2005, England

	Number
Maintained primary	6.7
Maintained secondary	4.1

[1] Includes middle schools as deemed.
[2] Excludes dually registered pupils.
Source:
Annual Schools' Census.

Sexual Health

Tim Loughton: To ask the Secretary of State for Education and Skills if she will publish the responses to the Working Together to Safeguard Children consultation exercise. [28249]

Maria Eagle: The consultation ended on 28 October. The Department will publish an analysis of the consultation responses within three months of this date, in line with standard DfES practice.

Teachers

Jon Trickett: To ask the Secretary of State for Education and Skills how many teachers are employed within the state education sector teaching children aged five to 11 years. [27770]

Jacqui Smith: The information requested is not held in the format requested.

The full-time equivalent number of regular primary school teachers, including middle deemed primary school teachers, and excluding nursery schools, in service in January 2005 was 194,800.

Under-achievement

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the potential impact of introducing banding to admission procedures upon under-achievement by children from low socio-economic backgrounds. [26055]

Jacqui Smith: Banding systems can have the effect of reducing inequalities in school intakes, ensuring fair access to all and reducing the clustering of disadvantaged pupils in certain schools. Combined with our proposals to extend entitlement to free school transport for more disadvantaged families, the introduction of fair banding could enable more children to access schools to which they were previously unable to gain admission.

Research has suggested that pupils' attainment at key stage 4 is affected by the characteristics of the school. Schools with a large proportion of disadvantaged pupils tend to have lower results, even after taking account of the prior attainment and other characteristics of the pupils measured in the pupil level annual schools census. Reducing the clustering of disadvantaged pupils in certain schools can benefit these pupils and give them a better chance of achieving their potential in secondary schools.

CULTURE, MEDIA AND SPORT

Casinos

Tony Lloyd: To ask the Secretary of State for Culture, Media and Sport how many representations she has received on increasing the number of regional casinos provided for in the Gambling Act 2005. [28828]

Mr. Caborn: We have received a number of letters from local authorities and others in support of an increase in the number of regional casinos permitted by the Gambling Act 2005.

Despite these representations, we do not believe the case has yet been made out for an increase, and we are therefore proceeding with implementation on the basis of the one regional casino specified in the Act.

Tony Lloyd: To ask the Secretary of State for Culture, Media and Sport what factors she will consider when reviewing the number of regional casinos provided for in the Gambling Act 2005. [28829]

Mr. Caborn: The Government have made it clear that they wish to take a cautious approach to the development of new casinos, in order to assess whether their introduction leads to an increase in problem gambling. The decision to reduce the number of regional casinos permitted by the Gambling Act 2005 from eight to one was consistent with this cautious approach.

We have not ruled out the possibility of asking Parliament to agree to more regional casino licences, up to a maximum of eight, being made available, if further evidence is presented to us that it is safe and prudent in regulatory terms to do so. A judgment would have to be made which balanced the risks of enlarging the number of people potentially affected against the risks of drawing the initial phase too narrowly to produce reliable evidence.

However, we do not believe that case has yet been made, and we have no plans to return to Parliament on this issue.

Tony Lloyd: To ask the Secretary of State for Culture, Media and Sport whether the Casino Advisory Panel may recommend an increase in the number of regional casinos provided for in the Gambling Act 2005. [28830]

Mr. Caborn: No. The role of the independent casino advisory panel is to recommend the areas in which the 17 new casinos permitted by the Act should be located.

Commonwealth Institute Building

Miss McIntosh: To ask the Secretary of State for Culture, Media and Sport how much public funding has been spent on the maintenance of the Commonwealth Institute building in each of the last five years; and if she will make further funding available for this purpose. [28340]

Mr. Lammy: The Commonwealth Institute ceased to be a non-departmental public body in 2000. It was established as a registered charity and company limited by guarantee with an endowment of £8 million, half of which was for maintenance of the building. In accordance with the severance agreements, it has received no public funding for the last five years. There are no plans to provide funds for maintenance of the building.

Government Art Collection

David T.C. Davies: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 1 November 2005, *Official Report*, column 896W, on departmental spending, if she will itemise the works of art bought in 2004–05; and what the cost of each was. [28754]

Mr. Lammy: The works of art purchased by the Government Art Collection (GAC) in the 2004–05 financial year are listed in a separate document. I am arranging for copies of the document to be placed in the Libraries of both Houses.

The GAC does not publish the prices paid for individual works of art purchased directly from the artist, individual or from a dealer as information of this nature would be likely to prejudice the commercial interests both of the GAC in its purchasing activities generally and of the relevant artist, individual or dealer. This practice is consistent with the practice of the national collections.

However, the prices paid for works of art acquired at auction are published by the auction houses, and in these cases are listed in the document referred to previously.

The Government Art Collection is part of the Department for Culture, Media and Sport; its acquisition policy is guided by the Advisory Committee on the Government Art Collection which is a non-departmental public body. Members are both independent and ex-officio, including the directors of the National Galleries.

Olympic Games

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what representations her Department has made to the Treasury on funding for the British Olympic Association programme Clearing the Bar; and what her policy is on the source of baseline funding for the UK Olympic team in preparation for 2012. [25973]

Mr. Caborn: I understand that the British Olympic Association's report 'Clearing the Bar' will be available later this year. We will consider the report then in discussion with UK Sport, the Government's lead adviser on high performance sport.

Lottery funding is the primary source of public funding for UK's elite athletes. Some Exchequer funding supports UK Sport's World Class Performance Programme by focusing on corporate governance and organisational performance.

The Government are investing considerable amounts of public funding in high performance sport. In advance of the Beijing Olympic Games, UK Sport will invest a total of £121.6 million lottery and exchequer money in elite sport (2005–09). This includes investing £75.3 million in the World Class Performance Programme to support the National Governing Bodies in financing their performance plans, and £22.5 million for the Athletes Personal Awards scheme to help athletes pay their sporting and living costs.

Public Libraries

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport how many *(a)* books, *(b)* videos, *(c)* DVDs and *(d)* CDs were lent by public libraries in (i) Tamworth and (ii) Staffordshire in each year since 1997. [27496]

Mr. Lammy: This information is not held centrally. However, the following table shows the number of loans of sound recordings (encompassing music and talking books) and videos and DVDs for Staffordshire for the period 1997–98 to 2003–04. This information is drawn from the Public Library Statistics, published by the Chartered Institute of Public Finance and Accountancy. These are collected at library authority level and do not contain comparable details for the Tamworth borough area.

	Sound recordings	*Videos/DVDs*
1997–98	299,348	56,344
1998–99	287,702	65,518
1999–2000	266,706	75,927
2000–01	287,637	92,259
2001–02	329,090	126,336
2002–03	332,476	151,122
2003–04	316,509	167,565

National Minimum Wage

Ms Katy Clark: To ask the Secretary of State for Culture, Media and Sport how many employees in her Department were affected by the rise in the national minimum wage on 1 October. [28967]

Mr. Lammy: None of my employees were affected by the rise in the national minimum wage on 1 October.

TRANSPORT

A19

Mr. Iain Wright: To ask the Secretary of State for Transport pursuant to the answer of 28 October 2005, *Official Report*, column 597W, on the A19, how many fatalities took place on the A19 between Tyneside and Teesside in the last five years. [28758]

Dr. Ladyman: The number of fatalities between 2000 and 2004 on the A19 between Teesside and Tyneside are shown in the table.

	Fatalities
2000	5
2001	2
2002	4
2003	3
2004	6

Cycling

Mr. George Howarth: To ask the Secretary of State for Transport on what basis local authorities determine *(a)* along which stretches of major roads cycle lanes are provided and *(b)* how those cycle lanes are to interlink with other infrastructure, with particular reference to bus stops. [28082]

Derek Twigg: The provision of cycle lanes on major and other roads is a matter for individual highway authorities as is the way in which cycle lanes interlink with other public transport infrastructure such as rail and bus stations.

Advice to highway authorities on the planning and design of facilities for cycling is given in "Cycle-friendly Infrastructure" published jointly by the Department, the Institution of Highways and Transportation, the Cyclists Touring Club and the Bicycle Association. This publication provides specific advice on cycle lanes and how cycling infrastructure can be integrated with public transport.

The Department plans to publish an updated version of "Cycle-friendly Infrastructure" in 2006.

DfT Rail

Mr. George Howarth: To ask the Secretary of State for Transport what the costs were of winding up the Strategic Rail Authority and forming DfT Rail; and what the sources were of these funds. [27946]

Derek Twigg: The winding up of the Strategic Rail Authority will not be complete until the end of this financial year. As such, final outturn costs are not available. The current estimate of the financial costs and benefits is set out in the table.

£ million

	DfT extra costs	*SRA cost savings*	*SRA building savings*	*Transition costs*	*Net cost (benefit)*
2005–06	21.0	19.5	0	11.6	13.1
2006–07	34.8	39	4.1	0	(8.3)
2007–08	34.8	39	5.5	0	(9.7)
2008–09	34.8	39	5.5	0	(9.7)
2009–10	34.8	39	5.5	0	(9.7)
2010–11	34.8	39	5.5	0	(9.7)

Freight

Mr. George Howarth: To ask the Secretary of State for Transport what steps are being taken to increase the use of rail to move freight. [28055]

Derek Twigg: I refer my hon. Friend to the written statement made by my right hon. Friend the Secretary of State on 19 July 2005, *Official Report*, columns 71–73 WS, setting out the Government's policy towards rail freight.

Mr. George Howarth: To ask the Secretary of State for Transport whether an assessment has been made of the steps taken by rail franchisees to increase the level of freight moved by rail. [28056]

Derek Twigg: Only passenger services are let by franchise. Freight services are provided by freight operating companies (FOCs) who use the rail network under 'open access' provisions.

Efforts to increase level of freight moved are therefore a matter of private sector competition in the marketplace.

Mr. George Howarth: To ask the Secretary of State for Transport what assessment has been made of effects on other freight users of the Royal Mail's renegotiation of its night rail contracts. [28057]

Derek Twigg: The Royal Mail's re-negotiation of its rail contracts is a commercial matter for the parties involved.

Mr. George Howarth: To ask the Secretary of State for Transport how much freight was moved by rail in 2004–05, broken down by *(a)* region, *(b)* rail franchisee and *(c)* time of day that the freight is moved. [28058]

Derek Twigg: The total amount of freight moved by rail in 2004–05 was 20.7 billion net tonne kilometres. The Department does not hold a breakdown of this figure into the categories specified.

Mr. George Howarth: To ask the Secretary of State for Transport what estimate he has made of the cost to the rail industry in upgrading freight services to accommodate high cube non-standard containers. [28084]

Derek Twigg: Overall cost estimates of network upgrades to accommodate larger containers are carried out on an individual project or route basis. The Department does not hold overall figures.

Andrew Rosindell: To ask the Secretary of State for Transport what compensation arrangements will be put in place for freight transporters affected by the Crossrail development. [20801]

Derek Twigg: If freight transporters' property rights are affected they will be entitled to compensation under the National Compensation Code. If freight services are disrupted by Crossrail construction, the appropriate rail industry arrangements will apply. In the unlikely event that contractual access rights need to be altered to allow for the operation of Crossrail, the Crossrail Bill provides for compensation.

M1/M18 (Roadworks)

Mr. Greg Knight: To ask the Secretary of State for Transport (1) when he expects the roadworks on the M1 motorway south of Junction 21 to be completed; what the original length of the works contract was; and whether the work is likely to be completed on of time; [27361]

(2) why the roadworks on the M1 motorway south of Junction 21 are not being carried out on a 24-hour basis. [27362]

Dr. Ladyman: The resurfacing work on a 6 km length of the M1 south of Junction 21 is due to be completed on 22 December. Work began on 8 July but delays due to bad weather mean that the original completion date of the end of November will not be met.

Work is being carried out 24 hours a day but, due to health and safety requirements and technical constraints associated with the materials used, most of the surfacing and concrete repairs are carried out in daylight hours. Non safety critical elements such as drainage work are carried out overnight.

Mr. Greg Knight: To ask the Secretary of State for Transport for what reasons the M18 motorway was closed at Junction 4 between Friday 16 September and Monday 19 September; for what reasons phased lane closures were not used; and if he will make a statement. [27360]

Dr. Ladyman: The M18 at Junction 4 was closed between 20.00 on Friday 16 September and 06.00 on Monday 19 September at the request of Doncaster metropolitan borough council to allow them to reconstruct and resurface the roundabout at this junction and resurface the A630.

The Highways Agency requested phased lane closures however Doncaster metropolitan borough council advised that a full closure was needed for safety reasons and to limit the duration of the disruption to road users.

Merseytravel

Mr. George Howarth: To ask the Secretary of State for Transport what appraisal documents relating to Merseytram Line 2 he has received from Merseytravel and its consultants; when they were received; when they were audited by the Department and its consultants; what the conclusions of that audit were; and what steps he is taking in considering whether to give Merseytram Line 2 programme entry status. [27932]

Derek Twigg: The Department received business case submissions that included appraisal information from Merseytravel in August 2003 and February 2005. The latter updated the 2003 submission in accordance with changes to the scope and costs of the scheme, and also alterations were made to the appraisal to reflect changes in the Department's appraisal guidance. Merseytravel sent a number of additional documents necessary for the appraisal to meet the Department's guidance throughout February and March 2005. These included an Economic Impact Report, a Quantified Risk Assessment, and details of consultation on the environmental impacts of the scheme.

The Department has worked with Merseytravel on the appraisal of Merseytram Line 2 since 2003. The Department's assessment of the appraisal documentation began in early 2004, although before that, in 2003, it also audited the highway model used to underpin the appraisal results. The Department could not complete its assessment of the appraisal as the documentation was incomplete and it became apparent that the cost estimates for the project were changing. The 2005 documentation goes further towards addressing the Department's concerns, but the Department's focus this year has been to work with Merseytravel on the appraisal of line 1. The line 2 appraisal assumes that in its opening year line 1 will already be open and operational.

Therefore some of the benefits claimed in the line 2 appraisal are contingent on city centre sections that would be provided only if the line 1 project goes ahead.

Motorcycle Licences

Mr. Laurence Robertson: To ask the Secretary of State for Transport (1) what his policy is towards EU proposals to raise the minimum age to qualify for a motorcycle licence for machines upwards of 125cc from 17 to 19 years; and if he will make a statement: [28517]

(2) what discussions he has had with EU Ministers about proposed changes to the provisions for obtaining motorcycle licences; and if he will make a statement. [28518]

Dr. Ladyman: The European Union proposals for new requirements in respect of motorcycles are part of the proposed new European Community Directive on driving licences. The Government are continuing to negotiate the terms of the Directive with European partners, through the Council of Ministers.

The proposals for motorcycle licensing are not as the UK Government would wish, but there is very strong support in other member states and the European Parliament for staged access arrangements for young motorcyclists wishing to drive larger machines, so it is likely that such a proposal will prevail.

The current proposals involve:

classifying motorcycles into three categories: small machines not exceeding 125cc cylinder capacity, power not exceeding 11 kW and power/weight ratio not exceeding 0.1 kW/kg; middle sized machines with power not exceeding 35 kW and power/weight not exceeding 0.2 kW/kg and not derived from a vehicle of more than double its power; and large machines;

introducing a system of staged access for new licences, such that the minimum age for access to middle sized machines would be at least two years greater than the minimum age for access to small machines.

As currently proposed these rules would come into effect in the UK no sooner than 2012. In the meantime the Government would have the opportunity to take advantage of flexibilities offered by the proposals to devise an appropriate system for training, testing and developing the experience of young motorcyclists in the UK. In devising such a system, the Governn.ent intend to continue consulting a wide range of stakeho'ders with interests in road safety, motorcycling, and the motorcycle industry.

National Port Traffic

Mr. George Howarth: To ask the Secretary of State for Transport what factors will be considered in the report commissioned by the Department in respect of national port traffic forecasts to 2030. [28080]

Dr. Ladyman: The terms of reference for the report are available in the Libraries of the House.

National Road Network

Miss McIntosh: To ask the Secretary of State for Transport what his definition is of the national road network for the purposes of his Department's transport policy. [28591]

Dr. Ladyman: The road network consists of strategic roads (motorways and all-purpose trunk roads) which are the responsibility of the Highways Agency and local roads which are the responsibility of local highway authorities.

In December 2004, we announced that for the purpose of considering decisions on major improvement schemes, the strategic road network would be split into two categories: routes of predominantly international and national importance and routes of predominantly regional importance. The criteria used for classifying routes as of international and national importance are as follows:

to have average daily traffic flows, along the length of the route, of more than 60,000 vehicles;

to link at least two of the top 20 English cities by population, or link one of the top 20 cities with an airport/seaport or Wales/Scotland;

to carry heavy goods vehicle traffic equal to or in excess of 15 per cent. as a percentage of all traffic as an average along the length of the route;

to be represented on the European Union's trans-European transport network.

It remains our policy that the strategic road network will continue to be protected, managed and maintained by the Highways Agency as a national network.

National Travel Survey

Tom Brake: To ask the Secretary of State for Transport what the average *(a)* number and *(b)* distance of trips as calculated by the National Travel Survey was by (i) car driver, (ii) car passenger, (iii) bus, (iv) walking and (v) other modes of transport for the purposes of (A) commuting, (B) business, (C) education, (D) escort education, (E) shopping and (F) other reasons, broken down by (1) sex and (2) those (v) under 17 years, *(w)* 17 to 29 years, (x) 30 to 49 years, *(y)* 50 to 59 years and *(z)* over 60 years in the latest two-year period for which survey results are available. [26150]

Ms Buck: The information requested has been placed in the Libraries of the House.

North Sea Coastguard

Mr. Carmichael: To ask the Secretary of State for Transport if he will make a statement on the process for selecting the next North Sea Coastguard Rescue Helicopter contract; what discussions the Maritime and Coastguard Agency has had with Highland and Islands local authorities on this matter; what assessment has been made of the effectiveness of the current service provided; and what assessment has been made of the technical issues surrounding the use of AS332 Super Puma aircraft. [28985]

Dr. Ladyman: The contract currently at issue will ensure the continued provision of Search and Rescue (SAR) helicopter services at the four coastguard bases at Sumburgh, Stornoway, Portland and Lee-on-Solent. The contract for all bases is yet to be let but a preferred bidder has been selected.

The procurement process used has followed European and Government procurement rules. These do not require direct consultation with local committees.

The contract requirement is based upon operational capability and does not specify helicopter types. A range of different types of aircraft have been put forward by bidders and these have all been assessed against capability criteria.

The preferred bidder for the five year contract is CMC (Scotia) Ltd. The helicopters under consideration are the Sikorsky S92 for Sumburgh and Stornoway and the Augusta Bell AB139 for Portland and Lee-on-Solent. Both aircraft and proposed methodologies meet the operational capability requirements. The endurance and speed of the new aircraft types exceed those of the current S61N.

The evaluation team considered carefully the relative merits of the Preferred bidder's proposal to use new aircraft in the SAR role, but concluded that benefits that would derive from the use of new technology offset any potential associated risks.

The MCA remains committed to the provision of high quality SAR services in the UK, and the contract will require the continued provision of those services to the Highlands and Islands. There will be no reduction in the standard of service as a result of the proposed new contract.

Port of London Authority

Mr. George Howarth: To ask the Secretary of State for Transport whether the *(a)* functions and *(b)* existence of the Port of London Authority will be reviewed in the context of the review of the Greater London Authority's functions. [27934]

Dr. Ladyman: No.

Ports Police Forces

Mr. George Howarth: To ask the Secretary of State for Transport what his policy is on the establishment of ports police forces. [27933]

Dr. Ladyman: Port police forces are constituted under local Acts which provide individual ports with their statutory powers. Decisions on establishing and maintaining existing ports police force are matters for the individual ports.

Rail Services

Tom Brake: To ask the Secretary of State for Transport whether he expects the target of improving punctuality and reliability of rail services to at least 85 per cent. by 2006 to be met. [27482]

Derek Twigg: Current performance remains on track to achieve or better the Industry Public Performance Measure Moving Annual Average (PPM MAA) target of 85 per cent. by March 2006.

Mr. Iain Wright: To ask the Secretary of State for Transport when he expects the Office of the Rail Regulator to make a decision regarding the bid by Grand Central to run a rail service between Sunderland, Hartlepool and London. [28937]

Derek Twigg: I am advised by the Office of Rail Regulation that it hopes to reach a decision on the application by Grand Central by early February 2006.

Damian Green: To ask the Secretary of State for Transport if he will make a statement on rail services in Kent with particular reference to issues raised with the Rail Minister at a meeting with hon. Members representing constituencies in Kent on 9 June. [28194]

Derek Twigg: The future pattern of rail services in Kent will be determined through the new Integrated Kent Franchise to be awarded before the end of this year. I have written to the hon. Member following our meeting.

Railways

Stephen Hammond: To ask the Secretary of State for Transport what the *(a)* total liabilities are and *(b)* estimated asset base is of Network Rail; and whether all the (i) assets and (ii) liabilities are on the Government balance sheet. [27041]

Mr. Newmark: To ask the Secretary of State for Transport what the off-balance sheet liabilities are of Network Rail; and whether this amount is gross of any assets. [26226]

Derek Twigg: Full details of Network Rail's liabilities and assets are set out in the company's Annual Report 2005, available from the website:

www.networkrail.co.uk

Network Rail has been classified as a private sector entity by the Office for National Statistics for the purposes of the UK National Accounts. The Secretary of State provides credit support arrangements for Network Rail's borrowing which are recorded as contingent liabilities in the Department for Transport's accounts. As at 31 March 2005, these arrangements supported £15.6 billion of net borrowing by Network Rail.

Mr. George Howarth: To ask the Secretary of State for Transport (1) whether his Department is working on rail network access options for the proposed Crossrail services which would seek to ensure that all users of the rail network are provided with open and reliable access; [26525]

(2) for what reasons other rail network users have not been consulted on the development of rail network access options for the proposed Crossrail services; [26526]

(3) whether there are plans to use the acquisition power provided to the operators of Crossrail. [26527]

Derek Twigg: I shall publish a consultation paper describing the content of the Crossrail access option that will be developed and submitted to the Office of Rail Regulation for approval. The access option would in due course confer access rights for Crossrail services on Network Rail's network and the consultation paper describes how these rights relate to other users. In parallel a cross-industry timetabling working group is examining the timetable simulation work undertaken so far. It will identify and seek to resolve pinch points between the access needs of all operators, where possible by adjusting the timetable. If this is insufficient to resolve the problem it will report options to a railway forum that I chair.

The Crossrail Bill contains a variety of acquisition powers in relation to land and other rights in connection with the construction and operation of Crossrail. The Secretary of State, not the operator, has certain powers in relation to railway access rights.

Mr. George Howarth: To ask the Secretary of State for Transport what his policy is for ensuring the personal safety of travellers on railways; and what measures the Department has in place to ensure passenger safety is maintained. [27943]

Derek Twigg: The Department and the Health & Safety Executive's HM Railway Inspectorate work closely with the British Transport Police and the rail industry in seeking to maintain passenger safety.

We are committed to reducing crime and the fear of crime wherever it occurs in the transport system. For example in 1998 we launched the Secure Stations Scheme, which is designed to improve security at overground and underground stations for passengers and staff, and we have recently published guidance on improving personal security on trains.

Mr. George Howarth: To ask the Secretary of State for Transport what progress the Department has made towards making sure railways meet the requirements set out in the Disability Discrimination Act 2004; how he measures progress; and what procedures will be in put place to deal with non-compliance. [27931]

Derek Twigg: Accessibility improvements are being delivered by different mechanisms such as franchising, major projects, investment in rolling stock and maintenance and renewal of the rail network.

The Rail Vehicle Accessibility Regulations 1998 (RVAR) made under Part 5 of the Disability Discrimination Act 1995 require that all new passenger rolling stock introduced from 1 January 1999 is accessible to disabled people, including wheelchair users. By the end of this year 4,500 rail vehicles will have been introduced which meet the requirements of those regulations.

The Disability Discrimination Act 2005 requires that from no later than 1 January 2020 all rail vehicles will have to comply. It also provides for a certification regime for new rail vehicles and an enforcement regime based on civil rather than the criminal sanctions provided in the 1995 Act. We plan to bring in those changes from the end of next year.

On stations, under Part 3 of the Act operators are required to take reasonable steps to ensure that disabled people do not find it impossible or unreasonably difficult to access their services. Where a disabled person believes that they have been discriminated against contrary to Part 3 they can bring a claim against the operator to the county court (in England and Wales) and to the sheriff's court (in Scotland).

From the end of 2006 it is proposed that similar duties should also apply to the train service itself though, given the provisions of the RVAR, those duties will not extend to making physical alterations to vehicles.

We will be publishing a strategy for rail accessibility in the new year which will include details of the initial allocation of the £370 million ring-fenced Access for All funding which we announced in March 2004 to deliver station access improvements over the next 10 years.

Road Accidents

Mr. Anthony Wright: To ask the Secretary of State for Transport how many *(a)* fatal motor vehicle accidents, *(b)* fatalities, *(c)* motor vehicle accidents resulting in serious injury and *(d)* motor vehicle accidents requiring the attendance of an ambulance there were on the A47 Acle Straight in each of the last five years. [28043]

Dr. Ladyman: The data related to A47 Acle Straight are in a format supplied by the Highways Agency.

The period of data covers 1 January 2000 to 30 September 2005.

Total accidents involving personal injury

	Fatal	*Serious*	*Slight*	*Total*
2000	0	1	11	12
2001	0	7	24	31
2002	1	3	18	22
2003	0	2	18	20
2004	1	5	14	20
2005[1]	1	0	8	9
Total	3	18	93	114

Number of casualties involved in those accidents

	Fatal	*Serious*	*Slight*	*Total*
2000	0	1	14	15
2001	0	7	45	52
2002	1	3	28	32
2003	0	2	28	30
2004	1	7	21	29
2005[1]	1	1	20	22
Total	3	21	156	180

[1] 2005 data are current up to 30 September 2005.

The Highways Agency does not hold information on the attendance of ambulances at accidents. The Ambulance Service may be able to provide this information.

Mr. Jim Cunningham: To ask the Secretary of State for Transport how many fatal automobile accidents occurred in Coventry South in the last 12 months. [28063]

Dr. Ladyman: There were two fatal accidents involving cars in Coventry South in 2004, the last 12 months for which data is available.

Road Maintenance

Mr. Letwin: To ask the Secretary of State for Transport what assessment he has made of the relationship between the relative level of expenditure on routine road maintenance by highway authorities and the cost of capital road replacement works by those authorities. [27311]

Dr. Ladyman: For local authorities funding for routine road maintenance is provided through the formula spending share element of revenue support grant and for capital road maintenance through the maintenance block element of the Local Transport Plan settlement. Neither of these provisions is ring fenced. Routine maintenance consists of work to keep the road network safe and in good condition, for example, minor repairs, drainage cleansing, sign cleaning, grass cutting, gritting in winter, street lighting work and energy, etc.

Capital maintenance consists of structural work to strengthen and renew carriageways, footways, bridges and street lighting columns.

The following table shows the outturns for revenue and capital maintenance in England outside London for the six years to 2003–04, the last year for which outturn figures are available.

Road maintenance in London is a matter for the Mayor and the Greater London Assembly. Figures for motorways and trunk road maintenance are not comparable with local roads as the method of accounting used, renewals accounting, is different.

Local highway maintenance expenditure—England excluding London

£ million

	Capital outturn	*Revenue outturn*	*Total outturn*
1998–99	256	1,358	1,614
1999–2000	308	1,394	1,702
2000–01	373	1,429	1,802
2001–02	648	1,401	2,049
2002–03	815	1,278	2,093
2003–04	795	1,362	2,157

Speed Cameras

Mr. Jim Cunningham: To ask the Secretary of State for Transport what assessment he has made of the amount of revenue raised from speed cameras in Coventry. [28062]

Dr. Ladyman: The Department's information on fines following offences detected by safety cameras (both speed and red light cameras) relates to the totals for safety camera partnerships, and not to individual camera sites or boroughs.

Coventry is part of the West Midlands Safety Camera Partnership. The following table shows the total of fines following offences detected by the West Midlands partnership since joining the national programme in October 2002:

	Total fines
2002–03 (6 months)	704,520
2003–04	2,760,000

As a result of the partnership joining in October 2002, the total fines collected in 2002–03 relate to six months only and reflect the fact that the partnership was in its early stages. Figures for 2004–05 will be published on the DfT website in due course.

Train Operating Companies

Mr. George Howarth: To ask the Secretary of State for Transport which company holds each rail franchise; what targets each has *(a)* met and *(b)* missed; and when each franchise (i) began and (ii) will expire. [25642]

Derek Twigg: Details of franchise holders and the start and end dates of their franchises are set out in the table.

Franchise agreements contain numerous targets relating to service quality, punctuality, financial performance, customer service and a range of other issues. It is not practicable to list them all here. However, customer service information is available from the Office of Rail Regulation's website and punctuality data from Network Rail's website.

Franchise agreements and associated documents are available through the Department for Transport's Public Register.

Franchise operator	*Franchisee*	*Franchise start date*	*Franchise end date*
West Coast Trains Limited	Virgin Rail Group Ltd.	19 February 1997	31 March 2012
Crosscountry Trains Limited	Virgin Rail Group Ltd.	5 January 1997	11 November 2007
Chiltern	M40 Trains Ltd.	3 March 2002 (with a shrink-back provision if future enhancements are not met. At present the minimum franchise term is confirmed at 12 years)	31 December 2021
Central Trains Limited	National Express Group plc.	2 March 1997	31 March 2006
Silverlink Train Services Limited	National Express Group plc.	6 February 1997	15 October 2006
Southern	Govia Ltd.	12 May 2003	31 December 2009 (or an earlier date if notice served on franchise *(c)*
Gatwick Express	National Express Group plc.	28 April 1996	29 April 2011
First Great Western Link	Great Western Holdings Ltd. (First Group plc.)	1 April 2004	1 April 2006
First Great Western Trains	Great Western Holdings Ltd. (First Group plc.)	5 February 1996	1 April 2006
Arriva Trains Wales	Arriva Trains Ltd.	8 December 2003	14 October 2018
C2c Rail Limited	National Express Group plc.	26 May 1996	25 May 2011
Wessex (Interim franchise agreement)	National Express Group plc.	14 October 2001	31 March 2006
Midland Mainline	National Express Group plc.	28 April 1996	26 April 2008
WAGN	National Express Group plc.	Original Franchise Agreement made on 5 December 1996 extended on 1 April 2004	Original termination date 1 April 2004 extended to 1 April 2006
Thameslink	Govia Ltd.	Original Franchise Agreement made on 10 February 1997 extended on 1 April 2004	Original termination date 1 April 2004 extended to 1 April 2006
Trans Pennine Express	First/Keolis TransPennine Holdings Ltd.	1 February 2004	1 February 2012 (with a possible five years extension of not more than 65 reporting periods)
ONE	National Express Group plc.	1 April 2004	1 April 2014
South West Trains	Stagecoach Group plc.	2 February 2004	2 February 2007
South Eastern Trains	SET (Holdings) Ltd.	9 November 2003	1 April 2006

Franchise operator	Franchisee	Franchise start date	Franchise end date
Northern	Northern rail Ltd.	12 December 2004	18 September 2011
GNER	Great North Eastern Rail Ltd.	1 May 2005	1 May 2012 (with an automatic further 3 years if targets are met)[1]
Island Line	Stagecoach Group plc.	4 February 2004	4 February 2007

[1] but to be further extended to 11 November 2007

Mr. George Howarth: To ask the Secretary of State for Transport what consultations have taken place with the rail franchises on safety; how much each franchisee spent on safety in 2004–05; what assessment has been made by the Department about the adequacy of this spending. [26514]

Derek Twigg: As a condition of their licence from the Office of Rail Regulation, train operators are required to have a Railway Safety Case which has been assessed and accepted by the Health and Safety Executive (HSE), or an agreed exemption. Operators' safety cases are reviewed by HSE every three years. In addition, during the re-franchising process HSE is consulted and provides advice to the Department for Transport on the quality of bidders' proposals in terms of health and safety. Spending on safety is not separately accounted for by train operators.

Mr. George Howarth: To ask the Secretary of State for Transport what level of liaison is required to take place between rail franchises and passenger groups; how many of these meetings have taken place; and what assessment has been made of the effectiveness of such meetings. [26517]

Derek Twigg: Franchise agreements requires train operators to consult with statutory consumer bodies over any changes that will impact on passengers. These consumer bodies are the Rail Passengers Council and London TravelWatch. Both of these organisations are able to pursue any dissatisfaction they may have on the effectiveness of such meetings with the Department for Transport and the Office of Rail Regulation, as the appropriate enforcement bodies. No such representations have been received.

Mrs. Dunwoody: To ask the Secretary of State for Transport (1) what percentage of train operating companies' total costs were represented by labour costs in each year between 1997 and 2004; and if he will make a statement; [26946]

(2) what the *(a)* average and *(b)* total combined operating profit of train operating companies before interest and tax (i) without and (ii) including subsidies was in each year between 1997 and 2004; and if he will make a statement; [26947]

(3) what the *(a)* average and *(b)* total combined amount of dividends paid by train operating companies to their parent companies was in each year between 1997 and 2004; and if he will make a statement; [26948]

(4) how many emergency bailouts of train operating companies there were in each year between 1997 and 2004; what the total cost of each bailout was; and if he will make a statement; [26950]

(5) what the total amount of subsidies paid by the Strategic Rail Authority to train operating companies was in *(a)* 1997, *(b)* 1998, *(c)* 1999, *(d)* 2000, *(e)* 2001, *(f)* 2002, *(g)* 2003 and *(h)* 2004; and if he will make a statement. [26951]

Derek Twigg: I will write to my hon. Friend and a copy of my letter will be placed in the Libraries of the House.

Mrs. Dunwoody: To ask the Secretary of State for Transport what assessment he has made of the extent to which franchising agreements between Network Rail and train operating companies *(a)* ensure value for money, *(b)* encourage competition in the railway industry, *(c)* are in the interest of taxpayers, *(d)* protect the interest of passengers and *(e)* transfer risk to the private sector. [26953]

Derek Twigg: Franchising agreements are made between the Department and the train operators rather than with Network Rail.

The Department seeks to ensure that the interests of passengers and the taxpayer are protected through the franchise specification and tendering process. The assessment of value for money is undertaken at the point of franchise re-letting when the costs and benefits of propositions from franchise bidders are evaluated.

The new franchise template is designed to ensure that an appropriate level of risk is transferred to the private sector.

Competition within the rail industry is secured through the competitive tendering process for franchises. The delivery of these benefits is monitored and enforced through continuous management of the franchise contract, which is carried out by a specialist team within the Department.

Mr. Hancock: To ask the Secretary of State for Transport what residual interest he retains in the pension funds of the train operating companies; and if he will make a statement. [27650]

Derek Twigg: Train operating companies (TOCs) participate in the Railways Pension Scheme, with generally separate sections for each TOC-employer. It is the responsibility of each TOC to manage the pension arrangements for its staff, in accordance with general pensions legislation and the specific legislation relating to railway pensions.

The Secretary of State's interest in the pension funds of the TOCs is contained in the terms of the franchise agreement with each franchise holder.

Mr. George Howarth: To ask the Secretary of State for Transport what financial requirements are made of rail franchisees during the tendering process. [28053]

Derek Twigg: No additional financial burden is placed on incumbent franchisees during the tendering process. They are, however, required to provide access to information (including financial and operational information) in connection with the preparation for the re-letting of a franchise and to provide information in response to bidders' clarification questions during the bidding process.

Violence Against Passengers

Anne Milton: To ask the Secretary of State for Transport how many passengers travelling by *(a)* rail, *(b)* bus and *(c)* taxi have been the victims of offences of violence in (i) Surrey and (ii) England in each of the last 10 years. [25694]

Derek Twigg: The number of victims of violence recorded by the British Transport Police over the last seven financial years in Surrey and England is shown in the table.

	Surrey	*England*
1998–99	154	7,847
1999–2000	140	8,649
2000–01	179	8,933
2001–02	264	9,603
2002–03	272	9,838
2003–04	324	11,177
2004–05	344	11,642

Comparable figures are not available for years before 1998–99, due to a change in Home Office counting rules.

The Department does not collect statistics on the number of passengers who have been victims of violent offences while travelling on buses or in taxis.

WORK AND PENSIONS

Benefit Claimants

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what proportion of incapacity benefit and severe disability allowance claimants with recorded job entries in the UK, excluding Pathways to Work pilot areas, *(a)* returned to incapacity benefits and *(b)* claimed jobseeker's allowance within (i) one month (ii) two months (iii) six months and (iv) 12 months in the latest period for which data are available. [28988]

Mr. Plaskitt: The information is not available.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what measure of sustainability for recorded job entries his Department uses for assessing job entries for people on incapacity benefits and severe disability allowance in *(a)* Pathways to Work pilot areas and *(b)* the UK excluding Pathways areas. [28990]

Mrs. McGuire: The definition of sustained employment used in the new deal for disabled people, where referral has been made through a Job Broker, is employment for 13 out of 39 weeks.

Information on incapacity benefits recipients returning to sustained employment is not currently available. However, this will be examined as part of the evaluation of the Pathways to Work pilots and we will publish this information once it becomes available.

David Mundell: To ask the Secretary of State for Work and Pensions how many people in Scotland do not receive a social security benefit. [28452]

Mr. Plaskitt: The information is not available.

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions how many compensation payments have been made by the Child Support Agency for maladministration since 1 January 1998; how many of these exceeded *(a)* £1,000, *(b)* £10,000, *(c)* £50,000 and *(d)* £90,000; and if he will make a statement. [28478]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty to Mr. David Laws, dated 15 November 2005:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions how many compensation payments had been made by the Child Support Agency for maladministration since 1st January 1998; how many of these had exceeded *(a)* £1,000 *(b)* £10,000 *(c)* £50,000 and *(d)* £90,000 and if he would make a statement.

The CSA does not hold sufficiently robust information for dates before 1 December 2001 for me to give you the data over the entire period requested. I apologise for this but can give you information on payments, in accordance with the Departmental Guide to Financial Redress for Maladministration, made since 1 December 2001 up until 10 November 2005.

The table below contains the available information:

Total number of payments	£
Made since 1 December 2001	35,558
Under £1,000	33,227
Between £1,000 and £9,999	2,289
Between £10,000 and £49,999	42
Over £50,000	0

Please note that whilst the minimum that we pay on consolatory payment is £25, there may also be awards for less than that amount to reimburse costs such as telephone charges that a client may have incurred in contacting the Agency. The figure of 33,227 contains these amounts.

I hope this is helpful.

Criminal Offences

Simon Hughes: To ask the Secretary of State for Work and Pensions if he will list the criminal offences created in legislation sponsored by his Office from May 1997 broken down by act. [28986]

Mrs. McGuire: The information requested is as follows.

(a) Social Security Act 1998

(i) section 60 substitutes a new section 113 of the Social Security Administration Act 1992 which confers power for regulations under defined social security legislation to provide that any person who contravenes or fails to comply with any provision contained in the regulations shall be guilty of an offence;

(ii) section 61 substitutes a new section 114 of the Social Security Administration Act 1992 which makes it an offence for a person to be knowingly concerned in the fraudulent evasion of contributions which he or another person is liable to pay;

(b) Welfare Reform and Pensions Act 1999

(i) section 9 inserts a new section 111A into the Pension Schemes Act 1993 (monitoring of employers payments to personal pension schemes), subsection (12) of which makes it an offence

for a person to be knowingly concerned in the fraudulent evasion of the direct payment arrangements under that section so far as they affect deductions on behalf of the employee;

(ii) section 10(1) substitutes for section 49(8) of the Pension Schemes Act 1993 new subsections (8) to (13), subsection (11) of which makes it an offence for a person to be knowingly concerned in the fraudulent evasion of the obligation imposed by subsection (8).

(c) Child Support, Pensions and Social Security Act 2000

(i) section 13 inserts a new section 14 A into the Child Support Act 1991 which makes it an offence for a person required to comply with regulations under section 4 (4) and 7(5) of that Act, or persons specified in regulations under section 14(1)*(a)* of that Act, to make a representation which he knows to be false or to provide or knowingly cause or allow to be provided a document or other information which he knows to be false;

(ii) section 16(5) also amends section 27(3) of the Road Traffic Offenders Act 1988 to make it an offence for a person to fail to produce his driving licence and its counterpart to a court as required by section 40 B of the Child Support Act 1991;

(d) Social Security Fraud Act 2001

(i) section 2(3)*(a)* inserts a new paragraph (ab) into subsection (1) of section 111 of the Social Security Administration Act 1992 to make it an offence for a person to refuse or neglect to comply with any requirements under section 109BA or 110A (power of the Secretary of State or local authority to require electronic access to information) or with any requirement of any arrangement entered under that section to allow authorised officers access;

(ii) section 16 amends section 111A of the Social Security Administration Act 1992 (dishonest representations for obtaining benefit etc.) to extend the circumstances in which a person is to be guilty of an offence if there has been a change of circumstances which he knows will affect entitlement to benefit (either his or another person's), the change is not one which is excluded by regulations from the changes which are required to be notified, and he dishonestly fails, or dishonestly causes or allows another person to fail, to give a prompt notification of the change;

(iii) section 16 also amends section 112 of that Act (false representations for obtaining benefit etc) to extend the circumstances in which a person is to be guilty of an offence if he fails or causes another to fail to give a prompt notification of any change which he knows affect entitlement to any benefit;

(e) Pensions Act 2004

(i) section 77(1) makes it an offence for a person, without reasonable excuse, to refuse to provide information or produce a document when required to do so under section 72 by the Regulator;

(ii) section 77(2) makes it an offence for a person to intentionally delay or obstruct an inspector exercising powers under sections 73 to 75 or to refuse to produce or secure the production of any document or to answer a question or provide information when required;

(iii) section 77(5) makes it an offence for a person intentionally or without reasonable excuse to alter, suppress or destroy any document which he is required to produce under section 72 or 75;

(iv) section 80 makes it an offence for a person to knowingly or recklessly provide the Regulator with information which is false or misleading in a material particular in certain specified circumstances;

(v) section 82 makes it an offence for a person to disclose restricted information in contravention of that section;

(vi) section 193 makes it an offence for a person to fail to provide information to the Board of the Pension Protection Fund or to obstruct a person appointed by the Board or to refuse to produce a document in circumstances similar to those described under (i) to (iii);

(vii) section 195 and 197 respectively make similar provision as in (iv) and (v) for providing information which is false or misleading to the Board or disclosing restricted information;

(viii) section 256 makes it an offence for a trustee or manager to be reimbursed out of the assets of a pension schemes for fines or penalties in contravention of that section;

(ix) Schedule 4, paragraph 11 makes it an offence for a person, without reasonable excuse, to refuse or fail to attend or to give evidence to the Pensions Regulator Tribunal or to alter, suppress or destroy any document which he is liable to produce to the Tribunal or to refuse to produce a document;

(f) Disability Discrimination Act 2005

(i) section 10(3) inserts a new subsection (2B) into section 16B of the Disability Discrimination Act 1995 which makes it an offence for a person to knowingly or recklessly make a statement to the effect that publication of a particular advert would not be unlawful by reason of the operation of subsection(2);

(ii) section 7(2) *(b)* prospectively adds to the definition of relevant document in section 49 (1) of the 1995 Act a rail vehicle accessibility compliance certificate so as to make it an offence for such a document to be forged, altered etc or for a false statement to be made for the purpose of obtaining such a certificate;

(iii) section 8(2) prospectively inserts a new subsection (5) into section 49 of the 1995 Act to make it an offence to falsely pretend to be a person authorised to inspect rail vehicles;

(iv) section 9 inserts a new section 21A into the Chronically Sick and Disabled Persons Act 1970 in relation to badges issued outside Great Britain, subsections (4) and (8) of which respectively make it an offence to display a badge purporting to be a recognised badge unless it is a recognised badge and is displayed in accordance with regulations and to fail, without reasonable excuse, to produce a badge when required to do so by a constable or enforcement officer.

Denise Christina Arathoon

Andrew Miller: To ask the Secretary of State for Work and Pensions how many claimants of *(a)* income support and *(b)* other benefits are affected by the outcome of Denise Christina Arathoon *v.* Secretary of State for Work and Pensions; and what estimate he has made of the overall cost to his Department of the judgment of the Court of Appeal of 24 June. [24522]

Mr. Plaskitt: We estimate that the number of claimants affected will be less than 2,000. It is not possible to break this down by benefit. The total overall estimated cost is £110,350 which consists of estimated Departmental legal costs of £10,350 plus additional benefit expenditure estimated at £100,000.

Departmental Expenditure

Justine Greening: To ask the Secretary of State for Work and Pensions if he will break down by expenditure and capital the 2003–04 Departmental Expenditure Limit baseline against which the financial savings of £960 million from annual efficiencies outlined in the Spending Review 2004 are calculated. [27633]

Mr. Plaskitt *[holding answer 11 November 2005]:* The information requested can be found in the DWP Departmental Report 2005, Chapter 6, Table 1, a copy of which is available in the Library.

Justine Greening: To ask the Secretary of State for Work and Pensions if he will provide a financial reconciliation between the Department of Work and Pensions 2004–05 Capital Budget of £435 million in the 2004 Spending Review (Table 19.1) and the 2004–05 estimated outturn Capital Departmental Expenditure Limit of £299 million in the Department of Work and Pensions Departmental Report 2005. [27635]

Mrs. McGuire *[holding answer 11 November 2005]:* The reason for the difference between the capital budget of £435 million in the 2004 Spending Review (Table 19.1) and the estimated outturn of £299 million was due to delayed spending on this budget as a result of rescheduling activities and associated expenditure on the Department's Change Programme, primarily on the rationalisation and modernisation of the estate and IT projects.

Justine Greening: To ask the Secretary of State for Work and Pensions if he will provide a financial reconciliation between the Department of Work and Pensions 2004–05 Resource Budget of £7,849 million in the 2004 Spending Review (Table 19.1) and the 2004–05 estimated outturn Resource Departmental Expenditure Limit of £8391million in the Department of Work and Pensions Departmental Report 2005. [27636]

Mr. Plaskitt *[holding answer 11 November 2005]:* The Department for Work and Pensions 2004–05 Resource Budget of £7,849 million represents the Department's funding budget as calculated for Spending Review 2004 baseline purposes. This excluded the Department's stock of accumulated end year flexibility and made adjustments for other non recurrent funding streams. The reconciliation between the Resource Budget and the estimated outturn on the Departmental Expenditure Limit of £8,391 million is set out in the table.

	£ million
Resource budget per 2004 Spending Review (Table 19.1)	7,849
Use of end year flexibility—main items:	
Welfare modernisation programme	115
Roll out of Jobcentre Plus offices	87
Grant spending on European social fund programmes	67
Housing and council tax benefit administration grants	48
Spending Review 2004 Adjustments:	
Assumed transfer of resources from revenue to capital—variance	152
Other adjustments—non recurrent funds	60
Other items	13
Resource Outturn per Departmental Report 2005	8,391

Justine Greening: To ask the Secretary of State for Work and Pensions if he will break down the leasehold improvements expenditure for 2003–04 and the estimated outturn for 2004–05 noted in Table 4 of the Department of Work and Pensions Departmental Report 2005 (Cm 6539) *(a)* by activity, *(b)* leasehold property and *(c)* expenditure type. [27637]

Mrs. McGuire *[holding answer 11 November 2005]:* The figures in Table 4 are not the in year expenditure, rather they are the closing net book value of the asset category. That is the value of the accumulated expenditure less the accumulated depreciation.

2003–04 Leasehold improvements spend

	£ million
Opening net book value	12
Reclassification	107
Additions	237
Less Depreciation	(26)
Closing net book value	330

The leasehold improvements relate to a programme of refurbishment of the Jobcentre Plus customer facing offices following the creation of the agency from the former Employment Service and Benefits Agency. The expenditure includes items such as structural improvements, flooring, ceilings, signage, painting and decorating.

The reclassification figure included above relates to refurbishment costs that were previously included under the asset category of fixtures and fittings, and more accurately recorded as leasehold improvements in 2003–04.

2004–05 Estimated outturn

	£ million
Opening net book value	118
Additions	162
Less Depreciation	(21)
Closing net book value	259

The estimated figures for 2004–05 were prepared at the time of the Spending Review 2004 calculations and are subject to subsequent changes in forecast outturns and adjustments, such as reclassifications, hence the variance on closing and opening book values between finance years.

Housing Benefit Sanctions

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) if he will list those that *(a)* rejected and *(b)* supported the introduction of housing benefit sanctions for those guilty of antisocial behaviour in responding to consultation on this proposal in August 2003; [28808]

(2) how many and what proportion of *(a)* local authority, *(b)* registered social landlord, *(c)* private landlord and *(d)* Community Safety Partnership respondents to his Department's consultation in August 2003 on housing benefit sanctions against those guilty of antisocial behaviour were against the proposals; [28809]

(3) what view the Social Security Advisory Committee expressed in response to his Department's consultation in August 2003 on housing benefit sanctions against those guilty of antisocial behaviour; [28810]

(4) for what reasons his Department decided not to implement housing benefit sanctions for those guilty of antisocial behaviour following consultation in 2003; and if he will make a statement; [28811]

(5) what assessment his Department made of the potential impact of housing benefit sanctions on family members of a person committing antisocial behaviour who were not themselves responsible for antisocial behaviour. [28812]

Mr. Plaskitt: The outcome of the consultation on housing benefit sanctions for antisocial behaviour was published on 27 January 2004 and an analysis of responses is available in the Library. This analysis sets out which organisations supported the proposals or not, including the response from the Social Security Advisory Committee. On the same day, the then Parliamentary Under-Secretary of State, Chris Pond, issued a written ministerial statement explaining the Government's reasons for deciding not to proceed 27 January 2004, *Official Report*, columns 9–10WS.

In considering whether to proceed with a sanction, the Department looked at a number of issues, including the implications of sanctioning family members not involved in antisocial behaviour. The Department did not assess what the practical effect of a sanction would be although had we gone ahead, we would have tested the impact by piloting first.

IT Projects

Mr. Laws: To ask the Secretary of State for Work and Pensions how many IT projects have been developed for his Department since 2001; and whether he has agreed to make public Gateway Reviews for these projects *(a)* in full and *(b)* in part. [23494]

Mr. Timms: The Department for Work and Pensions (DWP) has registered) in excess of 600 projects since its inception, including initiatives that were first registered by the Department for Social Security and the Department for Employment and Education. DWP does not differentiate between information technology projects and other types of project such as business change. Currently the Department has in excess of 100 individual projects, which embraces both information technology and business change.

All Office of Government Commerce (OGC) Gateway Reviews are conducted on a confidential basis for the senior responsible owner (SRO) and ownership of the report rests with the SRO. This approach promotes an open and honest exchange between the programme/project and review teams delivering maximum added value. The DWP has a strong record in adopting OGC policy and best practice initiatives and all the Department's mission critical/high and medium risk projects are subject to OGC Gateway Reviews. The Department does not publish Gateway Review Reports as a matter of course, in line with OGC policy. OGC and Departments have received a number of Gateway requests under Freedom of Information and the first of these is currently on appeal to the Information Commissioner.

Lone Parents

Mr. Laws: To ask the Secretary of State for Work and Pensions how many and what proportion of lone parents on income support have been on the benefit for *(a)* less than two years, *(b)* less than five years and *(c)* less than 10 years. [25260]

Margaret Hodge: The information is in the table.

Lone parents in receipt of income support, by duration: Great Britain May 2005

Duration	*Number of lone parents*	*Proportion of lone parents*
All	787,400	100.0
Up to 2 years	279,600	35.5
2 years and up to 5 years	223,300	28.4
5 years and up to 10 years	169,900	21.6
10 years and over	114,600	14.6

Notes:

1. Caseloads are rounded to the nearest hundred.
2. Percentages are given to one decimal place.
3. Totals may not sum due to rounding.
4. 'Lone Parents' are defined as single recipients of income support aged under 60, with a child under 16, and who are not in receipt of incapacity benefit or severe disability allowance.

Source:

DWP Information Directorate Work and Pensions Longitudinal Study.

Pensions

Jeremy Corbyn: To ask the Secretary of State for Work and Pensions what estimate he has made of the net cost to his Department of raising the level of the basic state pension to that of minimum income under the Pension credit system. [23287]

Mr. Timms: The additional cost to the Exchequer, net of savings in income-related benefits and additional tax revenues, of paying a basic state pension at the rate of the guarantee credit element of pension credit is £8.1 billion in 2006–07.

Notes:

1. Figures are for Great Britain in 2005–06 price terms, using the GDP deflator index, rounded to the nearest £100 million. It assumes that the policy change takes place from 2006–07.

2. The costs which are all net take into account income-related benefit offsets such as pension credit and housing benefit, and tax offsets, which are calculated using the DWP simulation model and April 2006 benefit rates and are projected forward.

3. Gross costs are estimated by the Government Actuary's Department and are consistent with Budget 2005 assumptions and use 2003 based population projections.

4. The standard method of treatment of couples and category B rates were used. This implies that the category B rates are not the guarantee credit couple-single rates, but approx 60 per cent. of the single rate.

Mr. Lancaster: To ask the Secretary of State for Work and Pensions if he will change the policy on the starting date for an individual's state pension from the Monday after their 65th birthday, to the day of their 65th birthday. [26109]

Mr. Timms: Entitlement to state pension begins with the pay-day on or following the day on which the individual attains state pension age—currently age 60 for women and 65 for men. The payday is commonly a Monday. There are no plans to change these arrangements.

Gregory Barker: To ask the Secretary of State for Work and Pensions (1) how much tax relief was given to people with stakeholder pensions in each year since their introduction; [26147]

(2) what representations he has received on *(a)* the future of stakeholder pensions and *(b)* the level of tax relief levels they receive. [26218]

Mr. Timms: The last written consultation exercise undertaken on stakeholder pensions was on the 2005 amendment regulations, which introduced provisions on lifestyling, and the charge cap. The consultation ended on 17 December 2004, and we received 22 responses to the exercise, none of which commented on the tax relief.

The estimates for the cost of tax relief on contributions to stakeholder pensions for each year are in the table.

	£ million
2001–02	250
2002–03	400
2003–04	600
2004–05	750

Keith Vaz: To ask the Secretary of State for Work and Pensions whether research has been commissioned into the pension prospects for *(a)* lone parents and *(b)* black and minority ethnic women over the next 20 years. [26545]

Mr. Timms: The report "Women and pensions: The evidence" published on 2 November, and available in the Library, provides a detailed analysis of women's pension position and draws together the latest research findings on key influences on women's ability to build up pension entitlement. The report considers the impact of lone parenthood and family caring responsibilities and examines pension entitlement among ethnic minority women.

The Department for Work and Pensions has also commissioned new research which will examine the expectations, priorities and saving and working decisions among both working-age people and pensioners from ethnic minority groups.

David Mundell: To ask the Secretary of State for Work and Pensions how many people in Scotland are in receipt of a state pension. [28453]

Mr. Timms: The information is in the table.

Number of people in Scotland in receipt of a state pension as at 31 May 2005

	Number
Total	939,700
Female	602,300
Male	337,400

Note:
Case load figures are rounded to the nearest hundred.
Source:
DWP Information Directorate: Work and Pensions Longitudinal Study 100 per cent. data.

State Pension Claimants

Mr. Clappison: To ask the Secretary of State for Work and Pensions how many recipients of the UK state pension were resident in *(a)* Pakistan and *(b)* the Indian sub-continent in the last year for which figures are available. [26850]

Mr. Timms: The information is in the table.

Country	Number of recipients of UK state pension as at 31 May 2005
Pakistan	4,900
India	4,100
Bangladesh	2,600
Nepal	[1]
Bhutan	[1]
Sri Lanka	600
Maldive Islands	[1]

[1] Less than 50.

Note:
Caseload figures are rounded to the nearest hundred.
Source:
DWP Information Directorate. Work and Pensions Longitudinal Study 100 per cent. data.

Telephone Helplines

Mr. Laws: To ask the Secretary of State for Work and Pensions how many telephone calls were made to the pension credit helpline in each month from April 2001 to September 2005; how many of these calls *(a)* were handled, *(b)* received an engaged tone and *(c)* were abandoned; and if he will make a statement. [24539]

Mr. Timms: The administration of The Pension Service is a matter for the Chief Executive, Miss Alexis Cleveland. She will write to the hon. Member.

Letter from Alexis Cleveland to Mr. David Laws, dated 15 November 2005:

The Secretary of State has asked me to reply to your question concerning how many calls were made to the Pension Credit Application Line (PCAL) in each month from April 2001 to September 2005; and how many of these calls were *(a)* handled *(b)* received an engaged tone and *(c)* abandoned. This is something that falls within the responsibilities delegated to me as Chief Executive of the Pension Service.

Advance applications to Pension Credit commenced in April 2003 and PCAL opened their lines to the public on 7th April 2003. Since its opening, the Pension Credit Application Line has answered over five million phone calls up to the end of September 2005.

I am sorry to say that an error has been identified in my previous reply to your question "To ask the Secretary of State for Work and Pension, how many calls made to the Pension Service have *(a)* met an engaged tone *(b)* been received and *(c)* been handled by an adviser in the last 24 months broken down by call centre. [18621]". The correct figure for the sub total calculations for PCAL, calls answered should be 5,083,496 and no. 5,083,456.

The following table shows calls received at the centre, calls answered by an advisor; calls receiving an engaged tone and calls abandoned. The data is from 7th April 2003 until the end of September 2005.

	Calls offered	Calls handled by an adviser	Calls receiving an engaged tone	Abandoned: Before adviser queue	Abandoned: In adviser queue
April 2003	20,811	19,836	n/a	n/a	975
May 2003	32,752	32,733	n/a	n/a	18
June 2003	60,235	58,446	n/a	n/a	386
July 2003	118,223	113,483	n/a	n/a	948
August 2003	181,861	177,540	n/a	n/a	313
September 2003	427,896	380,488	n/a	13,699	15,794
October 2003	482,782	451,642	1	14,134	13,370
November 2003	318,278	303,385	45	11,841	2,831
December 2003	193,895	184,057	0	7,846	1,165
January 2004	495,558	458,136	3	24,547	12,079
February 2004	433,790	402,247	8	18,734	11,839
March 2004	430,072	404,959	0	17,814	8,154
April 2004	346,887	302,121	1	9,102	31,934
May 2004	234,576	224,137	0	6,194	2,834
June 2004	315,197	298,392	0	7,455	8,175
July 2004	239,982	228,406	0	5,829	3,521
August 2004	151,541	146,199	4	3,605	1,402
September 2004	174,322	158,307	0	3,979	11,843
October 2004	127,126	120,822	0	3,688	2,607
November 2004	102,542	97,027	0	2,847	1,751
December 2004	75,028	72,076	0	1,441	1,292
January 2005	93,593	89,721	0	1,959	1,689
February 2005	112,970	93,929	0	3,618	7,806
March 2005	138,049	129,007	1	2,154	6,788
April 2005	74,841	71,299	0	1,660	1,857
May 2005	55,081	52,562	0	1,325	1,145
June 2005	60,249	57,641	0	1,418	1,012
July 2005	94,737	91,213	1	1,614	1,831
August 2005	92,868	88,183	0	1,629	2,912
September 05	107,418	102,101	0	1,901	3,590
Total April 2003 to September 2005	5,793,160	5,410,095	64	170,033	161,861

Note:
Some clients abandon their call during the PCAL recorded welcome message. These calls are not available to agents to answer, and therefore in terms of PCAL performance against targets, calls abandoned during the recorded message are not included in the abandoned calls calculation. This can result in calls answered and abandoned not totalling calls offered.

Widow's Benefit

Tom Brake: To ask the Secretary of State for Work and Pensions if he will compensate fathers who were widowed before 9 April 2001 following the European Court of Human Rights ruling on widows' benefits. [26220]

Mr. Plaskitt: The Government will consider the offer of friendly settlements on claims for discrimination relating to widowed mothers' allowance and widow's payment, but only to those widowers who have an admissible case in the European Court of Human Rights and who satisfy the benefit conditions and made their original claim at the correct time. Widowers who were unsuccessful in the recent cases before the House of Lords could have taken their case to Europe provided they had done so by 4 November 2005 (six months from the House of Lords ruling). We will go on to consider these cases also.

Any claims for widows payment or widowed mothers allowance by a man whose wife died before 9 April 2001 and who has not previously made an application to the European Court or was not involved with the domestic cases will now be too late. We have been guided by previous admissibility decisions of the European Court of Human Rights in widowers' cases.

Winter Fuel Payments

Mr. Anthony Wright: To ask the Secretary of State for Work and Pensions (1) how many people over 80 years of age have received winter fuel payments in *(a)* Great Yarmouth constituency, *(b)* Norfolk, *(c)* the eastern region and *(d)* England and Wales since their inception; [28017]

(2) how many people have received winter fuel payments in *(a)* Great Yarmouth constituency, *(b)* Norfolk, *(c)* the eastern region and *(d)* England and Wales since their inception. [28018]

Mr. Timms: Information relating to winter fuel payments for the winters of 1997–98 and 1998–99 is not available. The information from winter 1999–2000 is in the following table. Figures are only available from 2002–03 for payments made to those aged 80 or over. These figures are also available in the Library.

Parliamentary constituency/region	Winter fuel payments made	Payments made to those aged 80 or over
Great Yarmouth		
1999–2000	19,015	n/a
2000–01	20,980	n/a
2001–02	21,330	n/a
2002–03	21,745	4,520
2003–04	22,220	4,680
2004–05	29,925	4,535
Norfolk local authority		
1999–2000	171,480	n/a
2000–01	190,005	n/a
2001–02	192,850	n/a

Information Directorate, 100 per cent. sample

HEALTH

British Standard 7799

Dr. Murrison: To ask the Secretary of State for Health (1) what mechanisms she plans to put in place to ensure that private sector organisations treating NHS patients are British Standard 7799 compliant; and if she will make a statement; [22587]

(2) what plans she has to change local self-assessment for British Standard 7799 NHS compliance; and if she will make a statement; [22588]

(3) what representations she has received from the British Standards Institute regarding *(a)* NHS compliance and *(b)* processes to audit NHS compliance with British Standard 7799; and if she will make a statement; [22589]

(4) what the cost was of developing the Information Governance Toolkit; [22590]

(5) what steps she is taking to increase the number of NHS trusts in receipt of British Standard 7799 certificates; and if she will make a statement; [22591]

(6) how many NHS trusts have been issued with a British Standard 7799 certificate; and if she will make a statement; [22592]

(7) what steps she takes to ensure that electronic patient records are maintained in a manner compliant with British Standard 7799; and if she will make a statement; [22593]

(8) what mechanisms are in place to ensure NHS trust compliance with British Standard 7799; whether these are *(a)* independent and *(b)* auditable; and if she will make a statement; [22594]

(9) what assessment she has made of the compliance of each NHS trust with British Standard 7799; and if she will make a statement. [22595]

Mr. Byrne: The BS7799 part 1, recently updated and now known as ISO/IEC 17799, provides the foundation for the best practice security management of the national health service's information assets. Central arrangements have already been established that enable all NHS organisations to obtain a full reference copy of the standard for their own use. In addition, key requirements of the ISO/IEC17799 are included within the existing NHS Information Governance Framework, along with relevant topic guidance and illustrations. These are available to NHS organisations through the centrally provided and maintained NHS Information Governance Toolkit service.

The NHS Information Governance Toolkit supports NHS organisations to meet information security requirements but also numerous other closely associated requirements including best practice in terms of records management, information quality, data protection and the confidential management of records. Bringing these requirements together in this way has eliminated considerable duplication of effort as each of these aspects of information governance are based on similar principles and working practices but in the past they were addressed separately. The Information Governance Toolkit is provided free of charge to NHS organisations and replaced a range of existing data collections and has generated significant savings in staff time and resources across a wide range of NHS organisations.

Compliance assessment of NHS information security management, is based upon the ISO/IEC 17799 framework and is currently achieved on an annual basis through self-assessed organisational attainment reporting within the NHS Information Governance Toolkit. A review of these arrangements is currently under way and that will further refine and extend assurance criterion. These new arrangements should also in future form a significant part of formal NHS audit programmes at both local and national level.

In addition to contractual obligations, it is also intended that equivalent information governance assurance reporting arrangements will shortly be developed and implemented for a range of non-NHS information partner organisations, including those private sector organisations treating NHS patients. These requirements already exist for commercial service provider organisations involved in the delivery of the NHS National Programme for Information Technology and whose security management performance is routinely monitored against the ISO/IEC 17799.

Although there is no current requirement for NHS organisations to seek or maintain a formal BS7799 part 2:2002 registration, NHS organisations are able to do

so as a local decision. This part 2 of the original BS7799 standard has recently been replaced and is now known internationally as ISO/IEC 27001:2005. The Information Governance toolkit was developed, in part, to provide a cost effective alternative to individual NHS organisations requiring assistance from independent qualified lead accreditation consultants at commercial rates. As formal registration is not an NHS requirement, there are no central records of NHS organisations that may already have chosen to formally register or that may be considering doing so.

On 18 October 2005, a departmental official met with two representatives of the British Standards Institute to outline and discuss the NHS approach to BS7799. The British Standards Institute are therefore now fully aware of the significant steps taken by the Department to both adopt and promote the values of this standard to NHS organisations and relevant others.

Cataract Operations

Tim Loughton: To ask the Secretary of State for Health how many cataract operations have been purchased in the private sector *(a)* in 2004–05 and *(b)* for the current year. [19019]

Mr. Byrne: Between October 2003 and September 2005, 14,886 cataract procedures were carried out on national health service patients through the centrally-procured independent sector treatment centre programme. It is estimated that almost a further 12,000 cataract procedures will be completed by September 2006. The volume of commissioning of independent sector services contracted locally by the NHS is not collected centrally.

Cheshire and Merseyside SHA

Rosie Cooper: To ask the Secretary of State for Health how much brokerage was allocated to each hospital in the Cheshire and Merseyside Strategic Health Authority area in 2004–05. [21393]

Mr. Byrne: The information requested is provided in the table.

Cash brokerage is managed by strategic health authorities (SHAs), so it is not possible to confirm how much brokerage has been allocated in 2004–05 to each national health service trust in Cheshire and Merseyside SHA.

In 2004–05, some organisations have received planned support. The table shows how much planned support was given to each NHS trust in Cheshire and Merseyside SHA.

Financial support for Cheshire and Merseyside NHS Trusts	*2004–05 Planned financial support (£000)*
Mersey Regional Ambulance Service Trust	0
Wirral Hospital NHS Trust	5,400
St. Helens and Knowsley Hospitals NHS Trust	12,000
The Cardiothoracic Centre—Liverpool NHS Trust	0
Royal Liverpool Children's NHS Trust	0
The Mid Cheshire Hospitals NHS Trust	2,100
Aintree Hospitals NHS Trust	3,200
Clatterbridge Centre for Oncology Trust	0
Liverpool Women's Hospital NHS Foundation Trust	0
Walton Neurology Centre NHS Trust	0
East Cheshire NHS Trust	6,000
Royal Liverpool Broadgreen University Hospital Trust	2,643
Five Borough Partnership NHS Trust	1,153
Southport and Ormskirk Hospital NHS Trust	9,372
Mersey Care NHS Trust	0
North Cheshire Hospitals NHS Trust	7,931
Cheshire and Wirral Partnership NHS Trust	0
Total Support funding	49,799

2004–05 audited summarisation schedules

Community Health Care

Steve Webb: To ask the Secretary of State for Health how many responses to "Your Health Your Care Your Say" have been received from *(a)* health professionals, *(b)* organisations and *(c)* members of the public; and if she will make a statement. [22116]

Mr. Byrne: Of 1,252 people who participated in the regional and national "Your Health, Your Care, Your Say" deliberative events, 133 people said they were health or social care staff. By Monday, 31 October, 19,183 completed questionnaires had been returned, including 9,654 responses from people who indicated that they worked in health or social care. In addition, more than 2,000 responses have been received from readers of "Take-a-Break" magazine and national health service publications, "Prime" and "Fit". The questions published in these magazines were a subset of the full set of questions, designed specifically for these publications and did not ask people about their employment.

We do not yet have figures from the local or devolved listening events. The process is designed to consult the public on what they want from community health and social care services. We are engaging with health and social care organisations in other ways, but mainly through five policy taskforces, which are making recommendations on the policy options that fit with the public views.

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 20 October 2005, *Official Report*, column 1187W, on "Your Health, Your Care, Your Say", how many people were selected to take part in each event. [22367]

Mr. Byrne: The information requested is shown in the table.

"Your Health, Your Care, Your Say" consultation

Event	Number of people Selected	Who attended
Gateshead	110	89
Leicester	65	60
London	65	51
Plymouth	60	54
Birmingham	1,200	998

Electronic Patient Records

Dr. Murrison: To ask the Secretary of State for Health when she expects all patient records to be electronic. [22596]

Mr. Byrne: Demographic data is already held electronically for most patients, most already have an electronic primary care record and many hospitals also hold information electronically. However, these tend to be restricted to the general practice or hospital in which the record is created. The number of electronic records, linked to the NHS Care Records Service will continue to increase as health professionals find that linked electronic records improve patient care. The national programme for IT in the national health service aims to deliver the NHS Care Records Service by 2010.

General Medical Services Contract

Dr. Tony Wright: To ask the Secretary of State for Health what the average remuneration of *(a)* general practitioners and *(b)* consultants was in 1997; and what she estimates it will be following the introduction of the new contracts. [23754]

Mr. Byrne: Figures for general practitioners (GPs) based on information for Great Britain are shown in the table.

Remuneration of GPs , 1997–98 and 2003–04

	Intended average net remuneration/income (£)
1997–98	46,031
2003–04	67,040

Information for consultants is shown in the table.

The new consultant contract was introduced in October 2003.

Estimated average basic salary and annual equivalent total earnings for consultants in England 1998 to 2004

Annual estimated average payments[1]	Annualised average basic salary	£ Annualised average total earnings
1998	59,500	65,600
1999[2]	63,000	69,700
2000	65,100	71,700
2001[2]	67,500	74,700
2002	71,000	83,700
2003[3]	73,300	86,400
2004	74,800	89,500
2004 (new contracts only[3])	74,800	100,900

[1] Information on basic pay, allowances and other payments is calculated to provide average basic salary and average total earnings (amount paid, including allowances, overtime, etc.).

[2] There was no survey in these years so earnings have been estimated from previous years' figures.

[3] Around 77 per cent. of consultants had moved away to the new contract by October 2004.

Note:
The NHS Earnings Survey is based on a sample of payroll data from approximately 50 per cent. of NHS trusts, thus calculated figures are estimates based on best available data.

Source:
Department of Health's August NHS staff Earnings Survey (1998 to 2003) and Health and Social Care Information Earnings survey.

Healthcare Costs

Dr. McCrea: To ask the Secretary of State for Health what the average daily cost is of *(a)* an intensive care and *(b)* a high dependency bed. [23197]

Mr. Byrne: The national average cost of an occupied bed day in a discrete critical care unit is available in the annual reference costs publication, which is available in the Library.

The national schedule of reference costs for 2004, the latest year available, shows activity undertaken within a national health service trust in England, the costs of an occupied bed day in different types of discrete critical care units, which is shown in the following table.

National schedule of reference costs 2004

Unit type	£ National average cost per occupied bed day
Intensive therapy unit/Intensive care unit	1,328
Burns intensive care unit	1,039
Neurosurgical intensive care unit	1,017
Spinal injuries intensive care unit	779
Renal intensive care unit	370
Cardiac intensive care unit	1,025
High dependency unit	584
Paediatric intensive care unit	1,702
Neonatal intensive care unit – level one	838
Neonatal intensive care unit – level two	560

Healthcare Professionals Recruitment

Andrew George: To ask the Secretary of State for Health how many healthcare professionals from developing countries have been recruited by the NHS from private hospitals in England in each year since 2001 for which records are available, broken down by country of origin. [24206]

Mr. Byrne: This information is not held centrally.

Andrew George: To ask the Secretary of State for Health how many healthcare recruitment agencies operating *(a)* from the UK and *(b)* from outside the UK are registered to comply with the Code of Practice for the International Recruitment of Healthcare Professionals. [24216]

Mr. Byrne: NHS Employers is responsible for monitoring the Code of Practice and maintaining the register of agencies.

NHS Employers reports that there are 225 agencies operating from the United Kingdom (UK) and 40 from outside the UK registered to comply with the Code of Practice for the International Recruitment of Healthcare Professionals.

Andrew George: To ask the Secretary of State for Health how many healthcare recruitment agencies that *(a)* have and *(b)* have not registered with the Code of Practice for the International Recruitment of Healthcare Professionals have been used by the NHS since December 2004; and on how many occasions in each case. [24218]

Mr. Byrne: This information is not collected centrally. NHS Employers are responsible for monitoring the Code of Practice and maintaining the register of agencies. The Code of Practice was revised by the Department in December 2004.

The guidance on the Code of Practice makes it clear that the national health service should not be contracting with agencies not listed under the Code of Practice.

Andrew George: To ask the Secretary of State for Health how her Department monitors the activities of healthcare recruitment agencies that have registered under the Code of Practice of the International Recruitment of Healthcare Professionals. [24219]

Mr. Byrne: Monitoring compliance with the Code of Practice is now the responsibility of NHS Employers, the organisation which represents employers in the national health service. NHS Employers works closely with strategic health authorities and trusts to ensure that the NHS abides by the code.

Andrew George: To ask the Secretary of State for Health what breaches her Department has found of the code of practice for the International Recruitment of Healthcare Professionals; and what proportion of agencies registered have been investigated for breaches. [24220]

Mr. Byrne: This information is not collected centrally. NHS Employers is responsible for monitoring the code of practice and maintaining the register of agencies.

Hospital Waiting Times

Mr. Hepburn: To ask the Secretary of State for Health what the average waiting time in hospitals in *(a)* South Tyneside, *(b)* the North East and *(c)* England has been in each year since 1997. [21051]

Mr. Byrne: The median waiting times for in-patient admission at South Tyneside Healthcare National Health Service Trust, Northumberland, Tyne and Wear Special Health Authority and England are shown in the table.

Estimated average time patients have been waiting for elective admission, March 1997 to June 2005—provider based

	Median waiting time (weeks)				
	March				
	1997	*1998*	*1999*	*2000*	*2001*
South Tyneside Healthcare NHS Trust	15.6	16.4	14.9	12.4	10.5
Northumberland, Tyne and Wear SHA	11.9	12.3	11.9	11.2	11.1
England	13.2	14.8	12.8	12.9	12.6

	March				*June*
	2002	*2003*	*2004*	*2005*	*2005*
South Tyneside Healthcare NHS Trust	9.5	8.7	8.3	6.3	5.8
Northumberland, Tyne and Wear SHA	11.8	10.8	9.6	7.5	7.1
England	12.7	11.9	10.2	8.4	8.0

Source:
Department of Health form KH07

Infection Control

Mr. Lansley: To ask the Secretary of State for Health how many infection control nurses have been employed in the NHS in each of the last three years; and what the ratio of infection control nurses to beds has been in each of the last three years. [23030]

Mr. Byrne: The information requested is not collected centrally.

In-patient Beds

Mr. Yeo: To ask the Secretary of State for Health what guidance her Department has issued on the minimum safe number of in- -patient beds per head of population. [23226]

Mr. Byrne: No specific guidance has been issued. The planning of health service capacity, including in-patient beds, is for strategic health authorities to lead locally, within the framework of the Department's guidance on capacity planning. The planning of in-patient beds needs to take account of services available from other parts of local health and social care systems, including primary, community, rehabilitative and long-term care.

Mental Health

Ed Balls: To ask the Secretary of State for Health how many children aged five to 16 have a clinically diagnosed mental disorder in *(a)* Normanton constituency, *(b)* Wakefield East Primary Care Trust (PCT), *(c)* Wakefield West PCT, *(d)* Wakefield District and *(e)* West Yorkshire. [24248]

Mr. Byrne: The table shows the number of children aged between five and 16 years with a primary psychiatric diagnosis (ICD-10 codes F00 to F99)[1] by gender and within the Eastern Wakefield Primary Care Trust (PCT) and Wakefield West PCTs and within the West Yorkshire Strategic Health Authority (SHA), in the latest year that figures are available[2].

	Aged 5 to 16 years		
	Male	Female	All patients
West Yorkshire SHA	80	80	160
Eastern Wakefield PCT	10	10	20
Wakefield West PCT	10	10	10

[1] Diagnoses are taken from chapter V (Mental and Behavioural Disorders) of the 10th Revision of the International Classification of Diseases (ICD-10).

[2] Figures have not been adjusted for shortfalls in data, that is, the data are ungrossed.

Note:
Disclosure rules apply due to the sensitive nature of the data; therefore, figures have been rounded to the nearest 10.

Source:
Hospital Episode Statistics (HES), NHS Health and Social Care Information Centre

Angela Browning: To ask the Secretary of State for Health when she expects to be in a position to publish the Mental Health Bill. [26080]

Ms Rosie Winterton: The Mental Health Bill will be introduced when the legislative timetable permits.

Modernising Medical Careers

Tony Baldry: To ask the Secretary of State for Health when she was first informed that NHS trusts would replace six-month contracts for senior house officers with year-long placements to fit with the Modernising Medical Careers initiative. [18495]

Mr. Byrne: This decision was foreshadowed in a ministerial policy statement made by the four United Kingdom (UK) Health Ministers on 25 February 2003. The specific decision was taken at the meeting of the Modernising Medical Careers UK strategy group on 18 March 2005.

NHS Commissioning

Steve Webb: To ask the Secretary of State for Health if she will set out the rationale behind the decision to reduce the role of primary care trusts in direct provision of health services to a minimum; and on what evidence the decision was based. [19075]

Mr. Byrne: No decisions on the future provision of community and primary healthcare services will be taken until after the White Paper on community healthcare services has been published. The White Paper will be informed by the results of the Your Health, Your Care, Your Say listening exercise currently underway. Clinical services will continue to be provided by primary care trusts (PCTs) unless and until those PCTs decide otherwise. These decisions would be driven locally, following our White Paper deliberations, and will only be implemented following full local public and staff consultation.

Strategic health authorities (SHAs) have recently submitted their proposals for the reconfiguration of PCTs, which set out how they intend to strengthen their commissioning function. These proposals will be assessed by an independent external panel drawn from and representing a wide range of stakeholder interests. The panel will determine whether the SHA proposals meet the criteria stipulated in "Commissioning a Patient-Led NHS" (July 2005). If the criteria are judged to have been met, the proposals will go forward to a three-month public consultation. No further decisions on the reorganisation of PCTs will be taken until this process has been completed.

Mr. Gordon Prentice: To ask the Secretary of State for Health whether she expects that some doctors, nurses and managers will reform their practices into limited companies and contract as private and not-for-profit companies for the provision of practice services following the implementation of her proposals on Commissioning in the NHS. [19149]

Mr. Byrne: There is no expectation for practices to reform themselves into limited companies as a result of "Commissioning a Patient-Led NHS". Changing the way that healthcare services currently provided by primary care trusts (PCTs) is a matter for them. A White Paper on social care and community healthcare services will be published at the turn of the year and this will be informed by the results of the Your Health, Your Care, Your Say public listening exercise currently under way. Any proposals on the future provision of PCT services will also be subject to full local and staff consultation in the usual way.

Mr. Gordon Prentice: To ask the Secretary of State for Health what guidance she has given primary care trusts on the future of medical and allied services currently provided directly by them which would be provided by alternative providers following the implementation of her policy to turn primary care trusts into commissioning bodies. [19154]

Mr. Byrne: No guidance has been issued to primary care trusts on the future provision of medical and allied healthcare services.

Mr. Burstow: To ask the Secretary of State for Health what safeguards she plans to put in place to ensure that an outsourced provider of the commissioning function of a primary care trust is not owned by an organisation that is also competing to provide services in the same area. [20965]

Mr. Byrne: The Department has received proposals from all strategic health authorities setting out their proposals for the reconfiguration of primary care trusts (PCTs) in order to strengthen their commissioning function. The proposals will shortly be assessed by an external panel, representing a wide range of stakeholder interests, to determine whether they meet the criteria stipulated in July's "Commissioning a Patient-Led NHS". Proposals that meet these criteria will then be subject to a full three-month public consultation. No further decisions on the reorganisation of PCTs will be taken until this process has been completed.

NHS Deficits

Mr. Philip Hammond: To ask the Secretary of State for Health what guidance has been issued to NHS trusts with regard to *(a)* the recovery of historic deficits and *(b)* the management of deficit control totals. [17963]

Mr. Byrne: National health service organisations are expected to achieve financial balance each and every year. It is the responsibility of strategic health authorities (SHAs) to performance manage the organisations in

their area, and deliver overall financial balance for their local health communities. The Department has contacted all organisations with a deficit in 2004–05 to emphasise the importance of sound financial management and ensuring value for money of public expenditure. Through this and other mechanisms, the Department explained the key role of implementing the system reform programme, and other efficiency measures, in delivering better services for patients within the funding available. The Department recognises that SHAs carry forward deficits and surplus to future years which ensures that organisations do not benefit from having a deficit and are not disadvantaged by a heavy surplus.

NHS Drug Costs

Mr. Lansley: To ask the Secretary of State for Health what the total *(a)* gross and *(b)* net cost of drugs to the NHS has been in (i) nominal and (ii) real terms in each year since 1979; what the percentage increase was in each year to the next in real terms; and what proportion of this percentage increase has been due to drug price inflation in each year. [19129]

Mr. Byrne: It is not possible to calculate drug price inflation. Drug prices can be affected by many factors; these include advances in drug therapy, new drugs substituting existing ones and price reduction due to generic competition. These factors can vary from year to year, from drug to drug, and vary in magnitude. This complexity prevents us from being able to calculate drug price inflation. The gross and net cost of drugs to the national health service in nominal terms, and percentage increase each year are shown in table 1.

Table 1: NHS drugs spend in nominal terms—England

	Gross		Net	
	Outturn (£ million)	Percentage	Outturn (£ million)	Percentage
1987–88	1,899	—	1,888	—
1988–89	2,137	12.6	2,124	12.5
1989–90	2,365	10.7	2,356	10.9
1990–91	2,552	7.9	2,540	7.8
1991–92	2,926	14.7	2,908	14.5
1992–93	3,294	12.6	3,284	12.9
1993–94	3,689	12.0	3,661	11.5
1994–95	4,016	8.9	3,994	9.1
1995–96	4,379	9.0	4,372	9.5
1996–97	4,769	8.9	4,735	8.3
1997–98	5,195	8.9	5,173	9.3
1998–99	5,567	7.2	5,550	7.3
1999–2000	6,220	11.7	6,202	11.7
2000–01	6,690	—	6,688	—
2001–02	7,454	11.4	7,447	11.3
2002–03	8,358	12.1	8,355	12.2
2003–04	9,274	11.0	9,267	10.9

The gross and net cost of drugs to the NHS in real terms, and percentage increase each year are shown in table 2.

Table 2: NHS drugs spend in real terms (2003–04 prices)—England

	Gross		Net	
	Outturn (£ million)	Percentage	Outturn (£ million)	Percentage
1987–88	3,369	—	3,350	—
1988–89	3,544	5.2	3,523	5.1
1989–90	3,662	3.3	3,648	3.6
1990–91	3,664	0.1	3,647	0.0
1991–92	3,962	8.1	3,938	8.0
1992–93	4,323	9.1	4,310	9.5
1993–94	4,722	9.2	4,685	8.7
1994–95	5,062	7.2	5,034	7.4
1995–96	5,369	6.1	5,360	6.5
1996–97	5,647	5.2	5,607	4.6
1997–98	5,975	5.8	5,950	6.1
1998–99	6,242	4.5	6,222	4.6
1999–2000	6,839	9.6	6,819	9.6
2000–01	7,260	—	7,258	—
2001–02	7,895	8.7	7,887	8.7
2002–03	8,579	8.7	8,576	8.7
2003–04	9,274	8.1	9,267	8.0

Notes:
1. Net figures include pharmaceutical price regulation scheme receipt savings.
2. The total drugs spend include spend within the family health service and also the hospital and community health service.
3. From 2000–01 figures are in resource terms, prior to this figures are in cash terms. Cash figures relate to February to January prescribing due to delay in prescription processing and payment calculations. Resource figures represent the actual cost between April to March.
4. We do not have data prior to 1987.
5. The gross domestic product deflator at September 2005 has been used to calculate spend in real terms at 2003–04 prices.

Sources:
Prescription Pricing Authority, England and Department of Health finance division.

NHS Finance

Steve Webb: To ask the Secretary of State for Health what the deficit or surplus was at year end 2004–05 for *(a)* the NHS in England, *(b)* each strategic health authority, *(c)* each NHS trust and *(d)* each primary care trust. [18893]

Mr. Byrne: The audited accounts show that the national health service as a whole will end 2004–05 with an overall deficit of around £250 million. This represents around 0.4 per cent. of overall NHS resources.

The 2004–05 audited financial position of all NHS organisations (strategic health authorities, primary care trusts and NHS trusts) is available on the Department's website. A copy of this information has been placed in the Library. It is also available on the Department's website at: www.dh.gov.uk/PublicationsAndStatistics/FreedomOfInformation/ClassesOfInformation/fs/en.

Norman Lamb: To ask the Secretary of State for Health what the cumulative deficit is for each strategic health authority. [20956]

Mr. Byrne: The cumulative deficit for strategic health authorities (SHAs) is the deficit that was incurred in the previous year.

The latest available data on the financial position of all SHAs is based on the 2004–05 audited accounts which is available on the Department's website at: www.dh.gov.uk/assetRoot/04/11/94/12/04119412.pdf.

Mr. Burstow: To ask the Secretary of State for Health if she will place in the Library copies of the month five financial forecasts submitted to her Department by each strategic health authority. [22978]

Mr. Byrne: The latest available audited data on the financial position of national health service trusts is for 2004–05. The 2004–05 financial position of strategic health authorities, primary care trusts and NHS trusts is available in the Library. It is also available on the Department's website at: www.dh.gov.uk/PublicationsAndStatistics/FreedomOfInformation/ClassesOfInformation/fs/en

Mr. Lansley: To ask the Secretary of State for Health pursuant to the letter dated 23 September sent by the chief executive of the NHS to NHS organisations in deficit in 2004–05, which *(a)* NHS bodies and *(b)* centrally financed budgets were required to underspend in 2004–05; and if she will list the NHS organisations to which this letter was sent. [23975]

Mr. Byrne: The 2004–05 audited financial position of strategic health authorities, primary care trusts and national health service trusts is available in the Library. It is also available on the Department's website at:

www.dh.gov.uk/PublicationsAndStatistics/FreedomOfInformation/ClassesOfInformation/fs/en.

This information shows those NHS organisations that ended 2004–05 with an underspend and those NHS organisations that reported an overspend.

The letter sent by the NHS chief executive to NHS organisations on financial management went to all NHS bodies that reported an overspend in 2004–05.

The overall central programme was managed to achieve the appropriate underspend rather than issue detailed underspend figures to departmental budget managers.

John Hemming: To ask the Secretary of State for Health what proportion of NHS bodies are insolvent. [21569]

Mr. Byrne: No NHS organisations are insolvent. All national health service organisations have sufficient funding to pay their bills within a reasonable time.

NHS Pay Review

Mr. Drew: To ask the Secretary of State for Health what appeal mechanism is in place for NHS staff in relation to their banding in the NHS Agenda for Change pay review; and which primary care trusts do not have such mechanisms in place. [19174]

Mr. Byrne: Within the Agenda for Change agreement, there are provisions for staff to request reviews of the payband to which they have been band matched. As the request for a review is to their employer, each national health service employer will need to have put the mechanisms in place.

NHS Trust Deficits

Daniel Kawczynski: To ask the Secretary of State for Health what assessment she has made of the effect of NHS trust deficits on the number of nurses employed by them. [21655]

Mr. Byrne: It is the responsibility of strategic health authorities (SHAs) to deliver both overall financial balance for their local health communities and to ensure each and every body achieves financial balance. Organisations need to continue to look at the way they provide services to ensure they are delivering the best possible value for money.

The number of nurses in the national health service in England has grown by 25 per cent. or nearly 80,000 between September 1997 and 2004. Any changes in local circumstances need to be seen in that context.

Andrew Rosindell: To ask the Secretary of State for Health what estimate she has made of the number of NHS trusts which will end the current financial year in deficit. [20794]

Mr. Byrne: The number of national health service trusts that ended the financial year 2004–05 in deficit was 66. It is too early to say what the position will be in 2005–06.

Out-patient Appointments

Dr. Cable: To ask the Secretary of State for Health how many and what proportion of NHS patients booking out-patient appointments have done so through the choose and book system in 2005; and how many such bookings included full integration of service with a GP referral letter. [18174]

Steve Webb: To ask the Secretary of State for Health how many referrals to secondary care there were in the NHS in England in 2005; how many and what percentage were made under choose and book; and if she will make a statement. [18900]

Mr. Byrne: Approximately 20,000 general practitioner (GP) outpatient appointments or referrals have been made so far in 2005. The volume of bookings is increasing rapidly. choose and book new bookings are currently over 3,400 per week. This equates to around 2 per cent. of GP referrals per week.

Information on how many such bookings included full integration of service with a GP referral letter is not separately identified.

Pensions

Mr. Laws: To ask the Secretary of State for Health what her estimate is of the savings to the Exchequer of introducing a pension scheme retirement age of 65 years for all NHS staff and employees of her Department and its agencies from 2025; and if she will make a statement. [21424]

Mr. Byrne: Delaying to 2025 the introduction of a normal pension age (NPA) of 65 for members of the national health service, teachers' or civil service would not reflect Government policy or be consistent with the principles agreed at the public services forum. Those principles provide for NPA 65 to be introduced for new entrants as soon as practicable, and for the pension terms of existing members to be discussed in scheme specific negotiations. The estimated net present value of the savings arising from reform of the public service schemes generally is expected to be around £13 billion over the next 50 years.

Savings to the Exchequer from introducing NPA 65 from 2025 have not been estimated and could be done only at disproportionate cost. It is, however, likely that delaying the introduction of NPA 65 until 2025 for the NHS, teachers' or civil service pension schemes would

absorb a substantial part of the expected £13 billion savings that will arise from the immediate implementation of scheme reform within the framework of the principles agreed at the public services forum.

Physiotherapy

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many physiotherapists are practising in the public sector; and how many of these *(a)* hold a degree in physiotherapy, *(b)* hold a degree in a related medical field and *(c)* hold a degree in another field. [23660]

Mr. Byrne: At September 2004, the number of qualified physiotherapists employed in the national health service was 19,139, which is an increase of 34 per cent. since 1997. Information is not collected centrally on the specific qualifications of NHS staff, nor on the number of physiotherapists employed elsewhere in the public sector.

Primary care trusts commission physiotherapy services from a range of providers on behalf of their local communities.

Primary Care Trusts

Mr. Austin Mitchell: To ask the Secretary of State for Health if she will list primary care trusts which have an unaddressed financial risk of over £1 million pounds. [22410]

Mr. Byrne: We have interpreted the issue of unaddressed financial risk to mean those primary care trusts (PCTs) that overspent in 2004–05 by £1 million pounds or more. This is shown in the table.

The latest data available on the financial position of national health service organisations (strategic health authorities, PCTs and NHS trusts) are for 2004–05. This information was made available on the Department's publications website on 19 September 2005.

PCTs that have overspent by £1 million or more in 2004–05

PCT name	£000 *Final surplus/ (deficits)*

Note:
2004–05 data must be treated as provisional until signed off by National Audit Officer/Chief Executive.
Source:
Audited summarisation schedules 2004–05.

Mr. Lansley: To ask the Secretary of State for Health which providers each primary care trust has commissioned under the requirement to offer a choice of at least four secondary care providers to patients by 1 January 2006 in each of the top 15 specialties. [23116]

Mr. Byrne: The information requested can be supplied only at disproportionate cost.

The Department is putting in place a programme of support to help patients exercise choice of hospital, which includes the development of a patient information leaflet tailored to each primary care trust (PCT) The leaflet will show patients the choices available to them locally as commissioned by their PCT.

Radiotherapy

Mr. Lansley: To ask the Secretary of State for Health whether patients will be allowed to book appointments for radiotherapy through the infrastructure of the National Programme for IT. [23966]

Mr. Byrne: The choose and book system currently covers referrals from primary care to the first consultant out-patient appointment. Radiotherapy appointments are typically booked after detailed consultations between clinicians and this means they fall within secondary or tertiary care. Therefore, radiotherapy appointments are outside of the current scope of the choose and book service.

Southport and Ormskirk NHS Trust

Rosie Cooper: To ask the Secretary of State for Health what the *(a)* historic and *(b)* in-year debt is of Southport and Ormskirk NHS Trust. [21392]

Mr. Byrne: The cumulative deficit for the Southport and Ormskirk national health service trust in 2004–05 was £1,179,000. The in-year deficit for the trust during the same period was £1,189,000.

Notes:

1. It is assumed that historic debt means the cumulative deficit position of the NHS Trust.

2. It is assumed that in-year debt means the deficit incurred in the 2004–05 financial year.

Waiting Lists/Times

Steve Webb: To ask the Secretary of State for Health how long the central collection of statistics on waiting times for *(a)* CT scans, *(b)* MRI scans and *(c)* other imaging and diagnostic tests takes, including the production of reports; and if she will make a statement. [18560]

Mr. Byrne: Data on waiting times for diagnostic tests and procedures are not currently collected centrally.

However, to support delivery of the 18-week patient pathway, the Department, working with the national health service, has developed a commissioner-based diagnostics waiting times data collection, which will be introduced in January 2006. This will look at waiting times for a number of diagnostic tests and procedures, including magnetic resonance imaging and computerised tomography.

During the piloting phase, pilot sites were submitting diagnostics data on the 15th working day after the month end. It is anticipated that we will follow a similar timetable for national roll-out of the diagnostics data collection.

Mr. Lansley: To ask the Secretary of State for Health what interim waiting time targets have been put in place in order to progress towards the 18-week waiting time target by 2008. [18379]

Mr. Byrne: No formal interim targets have been set for the national health service. The Department has agreed a framework of milestones with strategic health authorities to help them assess the robustness of local delivery plans and monitor progress against them. Further information on the 18-week target can be found at www.18weeks.nhs.uk. The Department is currently consulting on the rules and definitions to underpin the implementation of the 18 week target, and the responses may also influence how we choose to measure progress in future.

West Yorkshire Health Services

Jon Trickett: To ask the Secretary of State for Health what assessment has been made of the merits of contestability in the provision of health services in West Yorkshire. [21048]

Mr. Byrne: The decision to include West Yorkshire in wave two elective independent sector procurement has been made on the basis of local capacity planning and the need to increase patient choice.

FOREIGN AND COMMONWEALTH AFFAIRS

Azerbaijan

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he plans to have with the Government of Azerbaijan regarding *(a)* good governance, *(b)* democratic values and *(c)* tackling corruption. [27026]

Mr. Douglas Alexander: These issues are often raised by our ambassador to Baku in his dialogue with the Azerbaijan Government and will be raised again, on instruction, in the aftermath of this election. They are also due to be discussed at the EU-Azerbaijan Co-operation Council on 12 December. The EU is developing an action plan with Azerbaijan as part of its European Neighbourhood Policy. The action plan aims to establish a set of shared common values in exchange for a deeper relationship with the EU. Strengthening democracy, strengthening the protection of human rights and of fundamental freedoms and the rule of law and strengthening the fight against corruption are all areas identified as priorities in the action plan.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of whether the recent elections in Azerbaijan were *(a)* free and *(b)* fair. [27027]

Mr. Douglas Alexander: The Government accept the assessment of the International Election Observation Mission led by the Organisation for Security and Co-operation in Europe (OSCE). Their preliminary findings were released on 7 November. These found that the Azerbaijan parliamentary elections did not meet a number of OSCE and Council of Europe standards and commitments for democratic elections, suggesting that the elections were not free or fair. The UK, holding the presidency of the European Union, issued a statement on 7 November in response to the preliminary findings. This can be found on the presidency website at www.eu2005.gov.uk.

Burma

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with Mr Richard Horsey, the British employee of the International Labour Organisation, who has left Burma after receiving death threats. [26768]

Ian Pearson: Our Embassy in Rangoon is in regular contact with Mr Richard Horsey. We understand from him that he has left Burma temporarily for reasons unconnected with the death threats he has received.

We are very concerned about reports that Burma has recently indicated its intention to withdraw from the International Labour Organisation (ILO). Our Ambassador in Rangoon called on the Burmese Ministers for Labour and Foreign Affairs on 31 October and, on behalf of the EU, expressed our concern over these reports and over the death threat campaign. She urged the Burmese authorities to continue to co-operate with the ILO to eliminate forced labour and raised individual cases of harassment of those complaining of forced labour.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment he has made *(a)* of the announcement by Burma's military junta that it has begun to move ministries to Pyinmana and *(b)* its implications for civilians in the Shan, Chin and Karen states; [27013]

(2) what assessment he has made of the impact of the Burmese Government's move to Pyinmana upon the local population; [27033]

(3) what assessment he has made of the likelihood of forced labour being used to construct the Burmese Government's development in Pyinmana; [27034]

(4) what assessment he has made of the implications of the decision by Burma's military junta to relocate to Pyinmana for the upholding of human rights in the region. [27035]

Ian Pearson: Diplomatic Missions in Rangoon were formally notified of the Burmese authorities' decision to relocate the seat of administration to Pyinmana on 7 November. The State Peace and Development Council claims that moving to a more central location will enable the government to carry out the development of the whole nation more effectively.

It is too early to assess the full impact of the move on human rights or on populations locally or in the ethnic areas. We are aware of reports of forced relocations of villages in the construction area. It appears that in most cases some compensation was paid for land that was requisitioned, although not at full market rate.

We are also aware of press reports of the use of forced labour during the construction. Forced labour has been used in the past for large scale infrastructure projects. Our position on forced labour is well known.

China

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the *(a)* occasions and *(b)* dates when he has raised human rights in (i) Tibet and (ii) China with members of the Chinese Government in each of the last three years. [26878]

Ian Pearson: The Foreign and Commonwealth Office Annual Human Rights Reports for 2004 and 2005 list ministerial engagements, including those of my right hon. Friend the Foreign Secretary, on human rights in China, including Tibet. The reports can be found at: www.fco.gov.uk/humanrightsreport2004 and http://www.fco.gov.uk/Files/kfile/HumanRights2005.pdf. My right. hon. Friend the Foreign Secretary and the Chinese Foreign Minister, Li Zhaoxing, also discussed Tibet-related issues at their meetings in New York on 19 September 2005 and in London on 8 November 2005.

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the meeting between the Chinese Government and representatives of the Dalai Lama in Berne on 1st July. [27066]

Ian Pearson: The European Union, under the UK Presidency, issued a statement welcoming the talks between the Chinese Government and the Dalai Lama's representatives which took place in Berne on 30 June to 1 July. We hope the talks will bring about serious negotiations, without pre-conditions, which will lead to a peaceful, sustainable and legitimate solution for Tibet.

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs what initiatives the UK Government plans to take to advance the dialogue between the Chinese government and representatives of the Dalai Lama when China's President Hu Jintao visits the UK in November. [27067]

Ian Pearson: The Government's views on the Chinese role in Tibet and what needs to be done to improve the situation there is a matter of public record. We have encouraged the Chinese Government to enter into meaningful dialogue without pre-conditions with the Dalai Lama or his representatives in order to achieve a peaceful, sustainable and legitimate solution.

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will develop a set of criteria that will allow him to evaluate the progress of formal contact between China and the Tibetan Government in exile. [27068]

Ian Pearson: We regularly ask both Chinese and Tibetan interlocutors about their engagement and contact. We are able to judge the progress or lack of it from the information received during such exchanges. We have no plans to develop further criteria by which to evaluate progress.

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the UK Government have asked China *(a)* by what criteria it assesses the progress of formal contact with the Dalai Lama's representatives and *(b)* how China decides when future meetings between the two sides will take place. [27069]

Ian Pearson: The Government regularly urges China into meaningful dialogue without pre-conditions with the Dalai Lama or his representatives. Foreign and Commonwealth Office officials did so most recently at a meeting with Assistant Foreign Minister Shen Guofang on 25 October. We regularly inquire when the next round of talks will take place.

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs what the current status is of the EU/China arms embargo; what the policy of the UK Government is on proposals to lift the embargo; and if he will make a statement. [27071]

Ian Pearson: The European Union arms embargo on China has been under review since the decision by the European Council in December 2003 to launch a review. The December 2004 European Council set out Conclusions on the embargo and recalled these in June 2005. Pending any decision on lift, the Government continues to fully implement the embargo.

Colombia

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Colombia about *(a)* tackling paramilitary forces and *(b)* ensuring that there is justice for the victims of violence. [26990]

Mr. Douglas Alexander: We have regular discussions with the Government of Colombia about the peace process. These discussions, which cover issues of truth, justice and reparation for victims of the internal armed conflict, are carried out between our Embassy in Bogota and the Government of Colombia. They are also covered during high level visits in both directions. For example, when President Uribe and Foreign Minister Barco were in the UK in July, my right hon. Friend the Foreign Secretary and my noble Friend the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Lord Triesman of Tottenham) raised these important matters.

We support the efforts of the Government of President Uribe to bring an end to Colombia's inter-connected problems of internal armed conflict, illegal drugs trade and human rights abuses. We strongly believe that the only answer to these problems lies through a negotiated solution to the conflict.

Iran

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs how many requests the UK Government have made to Iran for the repatriation of Royal Navy equipment seized in the Shatt-Al-Arab; and how many responses it has had from the Iranian Government. [25661]

Dr. Howells: We have pressed the Iranian authorities on numerous occasions, at both ministerial and senior official level, in Tehran and London, to return the boats and equipment they have detained since June 2004. Our discussions are ongoing.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the decision by the Government of Iran to replace diplomats regarded as being too liberal. [26771]

Dr. Howells: Media reports suggest that Iran's new Government may be making a number of changes to Iran's Ambassadors overseas. Such appointments are a matter for Iran.

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures he proposes should be taken if Iran continues to develop nuclear weapons and delivery systems. [26845]

Dr. Howells: Iran's nuclear programme continues to be of serious concern. The EU has called on Iran to address the requests made in successive resolutions of the International Atomic Energy Agency (IAEA) Board of Governors, including by reinstating a full suspension of all uranium enrichment-related and reprocessing activities. We have also urged Iran to return to talks with the E3/EU on the basis of the Paris Agreement. At its last meeting, the IAEA Board of Governors adopted a resolution finding Iran to have been in non-compliance with its safeguards obligations under the Nuclear Non- Proliferation Treaty. We have made clear to Iran that it can, by the actions it now decides to take, influence the timing and nature of the IAEA's report of this non-compliance to the United Nations Security Council. We will be consulting closely with major partners ahead of the next meeting of the IAEA Board of Governors, which begins on 24 November.

Iraq

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs what information he has received of Iranian involvement in supplying bomb technology used to attack British troop convoys in Iraq. [26843]

Dr. Howells: As a matter of routine, we examine weapons used against British Forces with a view to determine their origins. The nature of certain explosive devices used suggests a connection to elements linked to Iran or Lebanese Hizballah, which has close links to elements in Iran. We are withholding details on the grounds that to release it would prejudice the capability, effectiveness, and security of the armed forces.

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs for what reasons the possible involvement of Iran in bomb attacks on British troops in Iraq was revealed to the media by an official. [26844]

Dr. Howells: My right hon. Friend the Prime Minister said the nature of certain explosive devices used against British and other troops suggests a connection to elements linked to Iran or Lebanese Hizballah, which has close links to elements in Iran. We have pressed Iran on many occasions to improve border security, fight terrorism and not to interfere in Iraq's internal affairs. The official was responding to media questions as part of a routine background briefing on Iraq.

IT Projects

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs how many of the IT projects costing over £1 million in use in his Department and introduced since 1997 have been scrutinised by the Public Accounts Committee; and if he will list them. [26595]

Mr. Straw: Only one of the Foreign and Commonwealth Office's IT projects has been scrutinised by the Public accounts committee since 1997. That project was Focus, which was scrutinised in April/May 2003 following cancellation of the Programme.

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs how many IT projects which cost over £1 million and were introduced since 1997 are in use in his Department. [26597]

Mr. Straw: The Foreign and Commonwealth Office (FCO) has introduced 11 IT related programmes costing more than £1 million since 1997. In roughly chronological order: Firecrest, Minerva, the FCO Telecommunications Network, Prism, Focus, I-Con, I-Visas, the FCO website, Knowledge, Future Firecrest and the High Classification Programme. Each programme is made up of smaller projects. Some of these projects will have associated costs of £1 million or more. To identify each project will require in-depth investigation and therefore could be obtained only at

disproportionate cost. Since introduction, the deliverables of each programme are still in use by the FCO.

Ivory Coast

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of *(a)* UN reports that the Ivory Coast has begun rebuilding its airforce and *(b)* the implications of these reports for the maintenance of the ceasefire. [27014]

Ian Pearson: The situation in Côte d'Ivoire remains fragile and the Government are concerned at any report of activities by either the Côte d'Ivoire Government or rebels which could re-ignite conflict. United Nations Security Council resolutions 1572 and 1584 imposed an arms embargo on all parties involved in the conflict, to be closely monitored by the UN. A group of experts has recently submitted a report to the Security Council on the present state of the embargo. We and other Security Council members are now carefully considering this report. We would view with the utmost concern evidence of the Government of Côte d'Ivoire rebuilding their airforce, which would clearly contravene the embargo and threaten the fragile ceasefire. We also strongly support recent efforts by the UN, African Union and the Economic Community of West African States to move the peace process forward following the postponed elections of 30 October.

Kosovo

Mr. Wareing: To ask the Secretary of State for Foreign and Commonwealth Affairs how many Serbian Orthodox churches in Kosovo have been destroyed since KFOR's presence there; how many of the perpetrators have been *(a)* arrested and *(b)* convicted; and if he will make a statement. [27531]

Mr. Douglas Alexander *[holding answer 14 November 2005]:* Based on the information available to us, approximately 140 churches have been damaged or destroyed since 1999, 30 of them during the March 2004 violence. Charges have been pressed against 424 people following the March violence. Some of these relate to damage or destruction to churches. To date, 211 people have been convicted.

Following the signing of a Memorandum of Understanding between the Kosovo Provisional Institutions of Self Government (PISG) and the Serbian Orthodox Church, the PISG pledged €4.2 million to the reconstruction of Serbian Orthodox sites. In addition, the Kosovo Minister of Culture, Mr. Astrit Haraqija, pledged a further €1.5 million when he met the Serbian Minister of Culture, Mr. Dragan Kojadinovic, in Belgrade on 23 September 2005.

The Reconstruction Commission has begun to operate; 34 sites have been identified to receive aid. The Commission has begun work on 11 sites, and hopes to begin work on a further 19 sites by the end of this year.

Overseas Pensioners

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place the matter of pensions that are frozen and not up-rated annually in line with inflation for British pensioners living in *(a)* Canada, *(b)* New Zealand, *(c)* Australia, *(d)* South Africa and *(e)* Zimbabwe on the agenda at the forthcoming Commonwealth Heads of Government Meeting in Malta. [27129]

Ian Pearson: The agenda for the Valletta Commonwealth Heads of Government Meeting was drawn up by Commonwealth Secretary General Don McKinnon, in consultation with the Government of Malta and Commonwealth members. Malta's chosen keynote theme is "Networking the Commonwealth for Development". Heads of Government will also discuss terrorism, tolerance and world trade.

Sudan

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his EU counterparts on funding for the African Union mission in Darfur. [26970]

Ian Pearson: We continue to work with international partners, including in our role as presidency of the EU, in support of the African Union's (AU) efforts to resolve the crisis in Darfur. The EU has recently given political approval to provide a further €70 million from the African Peace Facility to support the AU Mission in Sudan (AMIS), bringing the total EU contribution to AMIS to €162 million. My noble Friend the Foreign and Commonwealth Office Minister for Africa (Lord Triesman of Tottenham), also discussed the matter with the EU's High Representative for the Common Foreign and Security Policy, Javier Solana, during the EU Troika ministerial visit to Sudan in October. Funding for the AU mission was also discussed at a meeting for key international partners, including the European Commission and the Council Secretariat which we hosted in London on 1 November.

Tanzania

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of whether the recent elections in Zanzibar were free and fair. [26772]

Ian Pearson: We welcome the third multi-party election on 30 October in Zanzibar.

Representatives from the British High Commission followed the electoral process closely and we noted the broad assessment by international observer groups that the electoral process was a marked improvement on past polls, and that it was generally administered in an efficient manner.

Nevertheless, there were instances, particularly on Unguja, where there were irregularities and a lack of transparency. A number of observer groups have called for a thorough investigation of these anomalies. The UK supports this call.

Uzbekistan

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs how regularly the Uzbek authorities provide the British security services with intelligence information; what assessment he has made of whether information provided by those

authorities has been obtained by torture; and if he will assess the effect of that information on the maintenance of British security. [27255]

Mr. Douglas Alexander: It is not the Government's policy to comment on intelligence matters.

Visas

Mr. Clappison: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the UK overseas posts which have had an increase in the number of staff handling visa applications over the last 12 months; by how many the staff numbers have increased in each case; and how many staff there were handling visa applications in each such post in each of the last 10 years. [26851]

Dr. Howells: The information is as follows.

Visa section	*UK based staff 2004–05*	*UK based 2005–06*	*Increase*
Baghdad	0	1	1
Basra	0	1	1
Chennai	10	11	1
Colombo	6	7	1
Dusseldorf	2	3	1
Hong Kong	2	3	1
Accra	22	24	2
Amman	2	4	2
Ankara	2	4	2
Dhaka	17	19	2
Guangzhou	5	7	2
Bangkok	5	8	3
Chongqing	2	5	3
Manila	5	8	3
Islamabad	54	59	5
Lagos	30	43	13

Notes:
1. UKvisas does not have data about staff numbers previous to financial year 2004–05.
2. The above figures are based on the number of full time UK based entry clearance officers (ECOs) and entry clearance managers (ECMs) at each visa section. However, visa sections also rely on locally engaged staff and officers on temporary duty or short term duties to operate. Furthermore, some ECOs or ECMs also jointly hold other Foreign and Commonwealth Office positions and therefore entry clearance may only be a proportion of their work load.

Source:
UKvisas Staffing Schedules 2004–05 and 2005–06.

Mr. Clappison: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the 20 UK overseas posts with the largest increase in visa applications over the last 12 months for which figures are available; and how many visa applications each such post handled in each of the last 10 years. [26852]

Dr. Howells: The information is as follows.

UKvisas' Published Entry Clearance Statistics.

Western Sahara

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to facilitate the self-determination of the Western Sahara; and if he will make a statement. [25984]

Mr. Straw *[holding answer 14 November 2005]:* The UK fully supports the efforts of the UN Secretary-General, Kofi Annan, and his new Personal Envoy to Western Sahara, Pete Van Walsum, to assist the parties to achieve a just, lasting and mutually acceptable political solution, which will provide for the self-determination of the people of Western Sahara. The UK is in regular contact with representatives of the parties to the dispute and the UN. The UK will continue to encourage all parties to engage with the UN process.

On 28 October, the UN Security Council unanimously adopted United Nations Security Council Resolution 1634 which renewed the mandate for the UN Mission for the Referendum in Western Sahara. The Government supported this. There are, however, no plans for a UN referendum to be held in the near future.

Zanzibar

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of irregularities in the presidential elections in Zanzibar; what representations he has made to *(a)* the Zanzibar authorities and *(b)* the Tanzanian Government about such irregularities; and if he will make a statement. [28806]

Mr. Straw: Representatives from the British High Commission followed the electoral process closely. It was the broad assessment of international observer groups that the electoral process was a marked improvement on past polls, and was generally administered in an efficient manner.

Nevertheless, there were instances, particularly on Unguja, where there were irregularities and a lack of transparency. A number of observer groups have called for a thorough investigation of these anomalies. The UK and European Union support this call. We have conveyed these views to the Governments of Zanzibar and the United Republic of Tanzania.

My hon. Friend the former Foreign and Commonwealth Office Minister for Africa (Chris Mullin), went to Zanzibar to observe the election as a Special Envoy of the Foreign and Commonwealth Office. He met Chama Cha Mapinduzi Presidential candidate Kikwete on 1 November and discussed the importance of addressing the deeply polarised nature of Zanzibari politics.

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what account was taken of the validity of the election in the decision that the UK's High Commissioner to Zanzibar attend the recent inauguration of the President. [28807]

Mr. Straw: The UK's High Commissioner attended the Zanzibar Presidential inauguration as European Union (EU) Presidency. EU missions followed the electoral process closely. In its statement of 1 November, the EU welcomed this third multi-party election and noted the broad assessment by international observer groups that the process was a marked improvement on past polls, and was generally administered in an efficient manner. The EU statement also made clear that there were instances of irregularities and lack of transparency, and that there should be a thorough investigation of these anomalies.

NORTHERN IRELAND

A and E Departments

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many patients were treated in the accident and emergency departments of hospitals in Northern Ireland in each of the last 10 years. [28856]

Mr. Woodward: The information requested is shown in the table.

People who attended a hospital A&E department in Northern Ireland

	Number
1994–95	639,925
1995–96	672,811
1996–97	654,288
1997–98	664,549
1998–99	663,046
1999–2000	675,589
2000–01	672,654
2001–02	672,782
2002–03	659,659
2003–04	678,998
2004–05	690,386

Source:

Departmental Information Return KH09.

Abortions

Nick Harvey: To ask the Secretary of State for Northern Ireland how many abortions were carried out in Northern Ireland in the past 12 months. [28558]

Mr. Woodward: There were 64 medical abortions recorded in Northern Ireland hospitals in the year 2004–05, the latest 12 month period for which data are available.

Abuse of the Elderly

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many people aged 65 years or over in Northern Ireland reported that they had suffered abuse in the last 12 months. [28164]

Mr. Woodward: The information requested is not available.

Apprenticeships

Mark Durkan: To ask the Secretary of State for Northern Ireland how many trainees entered electrical installation modern apprenticeships in each year between 2001–02 and 2005–06, broken down by *(a)* training provider and location and *(b)* council district in Northern Ireland. [26754]

Angela E. Smith: Since 1998 the Electrical Training Trust (ETT) is the training provider which has been contracted by the Department to manage all entrants to the electrical installation Jobskills Modern Apprenticeship programme. The following table sets out the number of young people who entered a Modern Apprenticeship in electrical engineering from 2001–02 to 2005–06. The Department does not have information by district council area.

Cohort	*Number*
2001–02	441
2002–03	418
2003–04	433
2004–05	396
2005–06[1]	330
Total	2,018

[1] Figures for the 2005–06 cohort are enrolments up to 30 September 2005.

Civil Service (Religious Affiliation)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the breakdown of religious affiliation of senior management is in each Government Department in Northern Ireland; and if he will make a statement. [25018]

Angela E. Smith: The information requested is as follows:

Department	*Protestant*	*Roman Catholic*	*Not determined*	*Total*
OFMDFM	19	8	1	28
DARD	13	5	3	21
DCAL	—	—	—	6
DE	6	9	0	15
DEL	—	—	—	9
DETI	—	—	—	9
DOE	10	6	0	16
DFP	21	17	2	40
DHSSPS	18	10	6	34
DRD	—	—	—	22
DSD	11	8	1	20
NIO	18	6	1	25
Other	—	—	—	3
Totals	149	79	20	248

The table includes all members of the Northern Ireland Senior Civil Service who work in the 11 Northern Ireland Departments, agencies and the Northern Ireland Office. In some cases it has not been possible to show the perceived religious affiliation of staff, due to the small numbers involved, in order to protect the confidentiality of the information held.

It is the stated policy of the Northern Ireland Civil Service (NICS) that all eligible persons shall have equal opportunity for employment and advancement in the NICS on the basis of their ability, qualifications and aptitude for the work.

Where analysis of monitoring information reveals a possible lack of fair participation by one or other community, the NICS takes lawful affirmative action measures by encouraging job applications from the under-represented community when advertising vacancies.

Contraception

Mr. Dodds: To ask the Secretary of State for Northern Ireland what guidelines his Department issues to *(a)* general practitioners and *(b)* others in Northern Ireland in relation to advising or informing the parents of children and young people for whom contraception is prescribed. [27715]

Mr. Woodward: Separate guidance has not been issued to health and social services personnel on this matter but it is covered by the Reference Guide to Consent for Examination, Treatment and Care issued by my Department in March 2003. This guidance states that where the child is competent to consent and the decision will have ongoing implications such as long-term use of contraception it is good practice to encourage the child to inform his or her parents unless it would clearly not be in the child's best interest to do so.

Criminal Offences

Simon Hughes: To ask the Secretary of State for Northern Ireland if he will list the criminal offences created in legislation sponsored by his Department between the end of the 2003–04 session and the end of April 2005, broken down by Act. [28472]

Mr. Hanson: No criminal offences were created by Acts in the period in question. For the sake of completeness however two offences were created by Northern Ireland Order in Council.

Public Processions (Amendment) (Northern Ireland) Order 2005

Article 4—knowingly failing to comply with a condition imposed on a public protest

Article 5—knowingly taking part in a protest meeting which a person knows has been prohibited

Demographics

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the change in numbers of residents aged 85 years and over living in Northern Ireland has been since 1995. [27395]

Angela E. Smith: The following table gives the official estimate of the population of Northern Ireland of residents aged 85 years and over, at 30 June 1995 and 30 June 2004.

Northern Ireland mid-year population residents aged 85 years and over, 1995 and 2004

	Number
1995	21,700
2004	24,000
Difference	2,300

ELB Redundancies

Sammy Wilson: To ask the Secretary of State for Northern Ireland what procedures are in place to ensure that all education and library boards are following the accountancy practices laid down for treatment of expenditure on redundancies. [25547]

Angela E. Smith: Education and library boards must prepare accounts in accordance with the accounts direction given by the Department of Education, with the approval of the Department of Finance and Personnel, in accordance with article 12 of the Education and Libraries (NI) Order 2003. Expenditure on redundancies is calculated by education and library boards in accordance with statutory requirements, contractual obligations, Northern Ireland Local Government Officer Superannuation Committee (NILGOSC) estimates of entitlements and costs, and the agreed five board scheme for premature retirement on the grounds of redundancy. Each education and library board's annual accounts are subject to audit by the Northern Ireland Audit Office to determine if they provide a true and fair view of the reported financial position including the expenditure recorded.

Energy Reduction

Dr. McCrea: To ask the Secretary of State for Northern Ireland what plans for energy reduction have been put in place in each Northern Ireland Department since 2003. [25785]

Angela E. Smith: Northern Ireland Departments have adopted the targets for improvements in energy performance contained in the 2003 Government White Paper "Our energy future—creating a low carbon economy". Departments are accommodated in buildings provided and managed by the Department of Finance and Personnel, which conducts a continuous programme of improvements of building energy performance in pursuit of the targets.

Since 2003, within the office estate planned actions have included conducting surveys to identify and implement cost-effective energy conservation measures; converting suitable buildings from oil or electric heating to natural gas; and purchasing green electricity, where this represents value for money. Similar actions have been taken in the specialised buildings within the Department of Enterprise, Trade and Investment, Department of Social Development and the Department of Agriculture and Rural Development,

Official vehicle fleets are now generally diesel fuelled, and the official car pool has purchased two petrol/electric hybrid cars. Local plans are also in place covering car travel.

Food Poisoning

Lady Hermon: To ask the Secretary of State for Northern Ireland how many food poisoning outbreaks have occurred in each health trust area in each of the past five years; and how many of these have been identified as having originated in *(a)* the Republic of Ireland and *(b)* elsewhere outside Northern Ireland. [28204]

Mr. Woodward: The number of food poisoning outbreaks that have occurred in each health trust area is not available. However, the number of food poisoning outbreaks that have occurred in each health board area and whether they originated from within Northern Ireland or abroad is available. These figures, as reported to the Communicable Disease Surveillance Centre Northern Ireland, (CDSCN1), are detailed in the following table for each of the last five years for which data are available.

	Total	NI	Outbreak originating in: (a) Republic of Ireland	(b) Abroad
EHSSB	3	3	0	0
NHSSB	3	3	0	0
SHSSB	0	0	0	0
WHSSB	1	1	0	0
EHSSB	4	4	0	0
NHSSB	3	2	0	1
SHSSB	0	0	0	0
WHSSB	0	0	0	0
EHSSB	0	0	0	0
NHSSB	2	2	0	0
SHSSB	0	0	0	0
WHSSB	0	0	0	0
EHSSB	2	2	0	0
NHSSB	2	2	0	0
SHSSB	0	0	0	0
WHSSB	1	1	0	0
NI Outbreak	1	0	0	1
EHSSB	6	0	0	0
NHSSB	0	0	0	0
SHSSB	0	0	0	0
WHSSB	0	0	0	0
NI Outbreak	2	0	0	2

Notes:

1. There were no food-borne outbreaks reported as originating in ROI.

2. Figures for NI Outbreak are presented separately as they cannot be attributed to any particular health board area.

Home Adaptations

Mr. Dodds: To ask the Secretary of State for Northern Ireland what the average length of time taken to carry out home adaptations by the Northern Ireland Housing Executive following a recommendation by an occupational therapist was in each year since 2003. [27713]

Mr. Hanson: The Housing Executive measures the time taken from receipt of a recommendation from an occupational therapist (OT) to the commencement of works against agreed standards and a classification of cases according to their urgency/priority. Each adaptation is tailored to the specific needs of the individual person concerned. The length of time taken by a contractor to then complete a job is variable and can range from a few days to a few months for extensions.

From the receipt of an OT recommendation to work starting, in the public sector, the figures are as follows:

Percentage

	2003–04	*2004–05*	*2005–06*[1]
Lifts			
Within 12 weeks	66	91	89
Within 22 weeks	93	97	97
Extensions			
Started within 30 weeks	20	23	36
Started within 46 weeks	53	56	64
Started within 60 weeks	70	71	79

[1] To end September 2005.

Percentage

	April to September 2005
Showers	
Within 10 weeks	72[1]
Within 40 weeks	77[2]

[1] Urgent cases.
[2] Non-urgent cases.

Note:
Figures only available from 2004.

Private sector

The average length of time taken to carry out home adaptations in the private sector with Northern Ireland Housing Executive Grant aid following an occupational therapist's recommendation is as follows:

	Weeks
2003–04	116
2004–05	121
2005–06	117

Much of the period indicated above is outside the Housing Executive's direct control. For example:

The period for the applicant to complete a formal grant application. This includes getting plans drawn up and approved by the occupational therapist and the Housing Executive. This type of work often requires building control and planning approval and ordinarily Housing Executive allows six months for completion of this stage.

The period for the Housing Executive to undertake the means test and calculate the costs of the grant-aided works.

The period for the applicant to engage a contractor and have the works carried out and the period for sign-off of the final approval of the completed works and making the final payment.

Housing

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the average amount of outstanding debt owed by *(a)* tenants and *(b)* past tenants of the Northern Ireland Housing Executive was at the end of 2004, broken down by constituency. [27018]

Mr. Hanson: The information is not available in the form requested. The following table details past and current tenant arrears by NIHE district office at the end of the financial year 2004–05.

Rent/rates arrears at end 2004–05

	Current tenants	*Past tenants*	£ *Total*
Belfast 1	485,544	107,938	593,482

Mental Health

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on perinatal mental illness in Northern Ireland. [28854]

Mr. Woodward: Care for those suffering from perinatal mental health problems, including psychiatric illness, takes place at all levels within the health care system (psychiatric services, maternity and child welfare services and primary health care). Overall information in relation to perinatal mental illness is not available.

Out-patients (Waiting Times)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the average waiting time was for out-patients to be treated at accident and emergency

units of the main hospitals in Northern Ireland in each of the 12 months to *(a)* September 2004 and *(b)* September 2005. [27394]

Mr. Woodward: Information on average waiting times for out-patients treated at accident and emergency units is not collected centrally.

Railways

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what percentage of passenger train journeys made on *(a)* the lesser used lines and *(b)* the core network in Northern Ireland since 1 January were undertaken by train sets acquired in the past two years. [26579]

Mr. Woodward: The information requested is not available. However, Translink is currently collating information on train operations on the core network and on the lesser used lines and when this becomes available I will write to the hon. Gentleman.

Religious Profiles

Mr. Andrew Turner: To ask the Secretary of State for Northern Ireland what information his Department has collected about the extent to which the religious composition of the population of each ward in the province has changed in the last 30 years. [26959]

Angela E. Smith: The census of population provides information on the religious composition of each electoral ward. However, ward boundaries are reviewed periodically, and the results are presented for the wards current at the time of the census, The outputs from the last three censuses were thus based on different ward structures and it is not possible to track change at ward level over time directly from available census outputs. Estimates on a single ward geography could be made for each census using best-fit approximations, but this would require additional work and the interpretation of any observed trends would need to take cognisance of factors such as changes in the questionnaire wording, differences in the levels of non-response to the religion question, different population bases and different treatments of non-response in each census.

Safefood/Food Standards Agency

Lady Hermon: To ask the Secretary of State for Northern Ireland what the extent of the level of interaction is between safefood and the Foods Standards Agency; and what assessment he has made of the merits of reviewing the relationship between the two bodies to promote effectiveness and cost efficiency. [28463]

Mr. Woodward: Section 34 of the Food Standards Act 1999, which established the Food Standards Agency (FSA), states that the FSA must take account of, and consult with, the Food Safety Promotion Board (FSPB)—also known as safefood—in carrying out its activities.

There has been significant contact between the FSA Board, particularly through the Northern Ireland member on that body, and the FSPB. In the current year, the Northern Ireland member has met with the chair of the FSPB Advisory Board, and addressed a formal meeting of the FSPB governing body. The FSPB chief executive has also made a presentation on relationships between his organisation and the FSA at a meeting of the NI Food Advisory Committee, which is chaired by the FSA's Northern Ireland Board member.

At official level, a concordat has been established between the FSA and FSPB to guide working relations. Two formal meetings of senior management teams from both organisations have taken place, with the next meeting planned for March 2006,

Practical examples of both organisations working together in the past year include: the Director of FSA NI Chairs an All Island Nutrition Forum—the Secretariat is provided by the FSPB; representation from FSA NI on the FSPB's Consumer Focused Review; a jointly resourced stand at the Balmoral Show; jointly co-ordinated and sponsored National Food Safety Week initiatives in Northern Ireland; a jointly organised and resourced seminar in Dublin, on the subject of salt consumption. Both organisations continue to explore how they jointly carry out their work in an effective and efficient way, and this scope for review is enshrined in the UK legislation and in the concordat between the FSA and FSPB. The relationship between both bodies continues to develop and this can only further enhance the effectiveness of their joint work and ensure cost efficiencies for the taxpayer. A good example of this are plans in 2007 for FSA to carry out a major UK-wide survey on food consumption, the National Diet and Nutrition Survey, which will for the first time include a sample for Northern Ireland. The costs of the sample for Northern Ireland are high, and could not be met out of the current FSA NI budget. The FSPB has agreed to make a significant financial contribution to facilitate the survey.

Sexual Health

Mark Durkan: To ask the Secretary of State for Northern Ireland what services are provided in each Health Board Area in respect of sexually transmitted infections; and what the *(a)* budget, *(b)* staffing profile and *(c)* service level is in each. [26821]

Mr. Woodward: The information is as follows.

Service provision/level

	Provision
EHSSB	
Royal Group of Hospitals	Consultant-led GUM clinics Monday to Friday, morning and afternoon. Additional nurse-led sessions on Monday, Wednesday and Friday
SHSSB	
Daisy Hill Hospital	Consultant-led GUM clinics on Wednesday mornings. Additional nurse-led session on Monday evening
NHSSB	
Causeway Hospital	Consultant-led GUM clinics twice per week
WHSSB	
Altnagelvin Hospital	Consultant-led GUM clinics, six times per week

Funding provision 2004–05

	£
EHSSB	2,237,000
SHSSB	510,000
NHSSB	330,000
WHSSB	246,000

Sexual Offences Act

Mr. Dodds: To ask the Secretary of State for Northern Ireland what steps he has taken to bring Northern Ireland legislation into line with sections 1–14 of the Sexual Offences Act 2003. [27714]

Mr. Hanson: The Government are currently considering the options for reform of the law on sexual offences in Northern Ireland.

Smoking

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland what estimate he has made of the cost to the NHS of smoking-related diseases in Northern Ireland. [28220]

Mr. Woodward: This information is not available. However, for the purposes of the draft Regulatory Impact Assessment, which was prepared to inform the policy on controlling smoking in enclosed public places and work places, the Department of Health, Social Services and Public Safety has estimated that, in 2003–04, the Northern Ireland hospital costs of treating circulatory and respiratory diseases of which active smoking could be a contributory factor was £74 million.

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of people in Northern Ireland who smoke; and if he will make a statement. [28221]

Mr. Woodward: Smoking prevalence in Northern Ireland since 1996–97 is set out in the table.

Financial Year	*Prevalence*
1996–97	29
1998–99	29
2000–01	27
2002–03	26
2004–05	26

Source:
Continuous Household Survey.

Further data on smoking prevalence in Northern Ireland are available on the Northern Ireland Statistics and Research Agency website:
www.csu.nisra.gov.uk

In 2003, the Department of Health, Social Services and Public Safety published a Five Year Tobacco Action Plan to tackle smoking. The Department continues to fund public information campaigns on tobacco arid the development of a range of smoking cessation services across Northern Ireland.

South Eastern ELB

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* primary schools and *(b)* area high schools within the South Eastern education and library board area are being considered for closure; and if he will make a statement. [28157]

Angela E. Smith: The South Eastern education and library board plans to create two primary schools through the amalgamation of four schools in Lisburn and two in Holywood.

The board is also currently undertaking strategic reviews of controlled school provision in the Lisburn, Dunmurry, Castlereagh, Bangor and North East Ards areas. These reviews have been subject to consultation and they identify options, including some potential rationalisations. Further detailed consideration of the options will be required before any decisions are made.

There are currently no plans for maintained school closures in the board area.

Vocational Qualifications

Sammy Wilson: To ask the Secretary of State for Northern Ireland what percentage of young people in the Province acquired *(a)* apprentice, *(b)* skilled craft and *(c)* technician level vocational qualifications in each of the last five years. [25790]

Angela E. Smith: The following table details the percentage of young people (aged 16–19) in Northern Ireland who gained a vocational qualification at levels of study 2 to 4 (assumed to equate to apprentice, skilled craft and technician level vocational qualifications) in the 5-year period 1999–2000 to 2003–04. The data relate to schools, further education provision and jobskills qualifications.

	Percentage of 16 to 19-year-olds who obtained a vocational qualification at levels of study 2–4
1999–2000	14
2000–01	15
2001–02	16
2002–03	14
2003–04	13

Note:
16-year-olds cannot generally obtain vocational qualifications at school.

TREASURY

Alcohol and Smoking-related Deaths

Rosie Cooper: To ask the Chancellor of the Exchequer in how many deaths in *(a)* England and *(b)* West Lancashire (i) consumption of alcohol and (ii) smoking was the main cause in the last year for which figures are available. [27695]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Rosie Cooper, dated 15 November 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question asking in how many deaths in *(a)* England and *(b)* West Lancashire (i) consumption of alcohol and (ii) smoking was the main cause in the last year for which figures are available. I am replying in her absence. (27695)

The most recently available information for mortality is deaths registered in 2004. The table below shows numbers of deaths among residents of England and West Lancashire local authority, where the underlying cause of death indicated a condition directly related to alcohol use in 2004.

Information is not recorded on the death certificate on smoking. Estimates can however be made of the number of deaths attributable to smoking, by making use of information on the contribution of smoking to specific conditions recorded at death. The most recent estimates for England were published by the Health Development Agency in 2004[1]. This report estimated that between 1998 and 2002 an annual average of 86,500 deaths were caused by smoking in England.

Estimates were not published at parliamentary constituency or local authority level. However maps based on the estimated percentage of all deaths from causes attributable to smoking, at ages 35 and over, were published for Primary Care Trusts (PCTs). For West Lancashire it was estimated that 32 per cent. of all deaths of those aged 35 and over were attributable to smoking[2]. West Lancashire PCT is coterminous with West Lancashire local authority.

[1] Twigg L, Moon G and Walker S. The smoking epidemic in England. Health Development Agency, 2004.

[2] Information supplied by the National Institute for Clinical Excellence.

Alcohol-related deaths[1] to usual residents of England and West Lancashire local authority, registered 2004

Area of residence	*Number of deaths*
England	6,125
West Lancashire	14

[1] The cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10). The codes used by ONS to define alcohol-related deaths are listed:
F10—Mental and behavioural disorders due to use of alcohol
142.6—Alcoholic cardiomyopathy
K70—Alcoholic liver disease
K73—Chronic hepatitis, not elsewhere classified
K74—Fibrosis and cirrhosis of liver
X45—Accidental poisoning by and exposure to alcohol.
Notes:
1. Deaths were selected using the original underlying cause.
2. The selection of codes to define alcohol-related deaths is described in:
Baker A. and Rooney C. (2003). Recent trends in alcohol-related mortality, and the impact of ICD-10 on the monitoring of these deaths in England and Wales. "Health Statistics Quarterly" 17, pp 5–14.

Rosie Cooper: To ask the Chancellor of the Exchequer how many deaths where alcohol was the primary cause there were in West Lancashire in the last five years. [27847]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Rosie Cooper, dated 15 November 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question asking how many deaths where alcohol was the primary cause there were in West Lancashire in the last five years. I am replying in her absence. (27847)

The latest year for which figures are available is 2004. The attached table shows the numbers of deaths among residents of West Lancashire local authority where the underlying cause of death indicated a condition directly related to alcohol use in the years 2000 to 2004.

Alcohol-related deaths[1] to usual residents of West Lancashire local authority, registered 2000–04

	Number of deaths
2000	13
2001	18
2002	13
2003	18
2004	14

[1] For the year 2000 the cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9). The codes used by ONS to define alcohol-related deaths are listed:
291—Alcoholic psychoses
303—Alcohol dependence syndrome
305.0—Non-dependent abuse of alcohol
425.5—Alcoholic cardiomyopathy
571—Chronic liver disease and cirrhosis
E860—Accidental poisoning by alcohol
For the years 2001–04 the International Classification of Diseases, Tenth Revision (ICD-10) was used. To maintain comparability with earlier years the following codes were used:
F10—Mental and behavioural disorders due to use of alcohol
142.6—Alcoholic cardiomyopathy
K70—Alcoholic liver disease
K73—Chronic hepatitis, not elsewhere classified
K74—Fibrosis and cirrhosis of liver
X45—Accidental poisoning by and exposure to alcohol
Notes:
1. Deaths were selected using the original underlying cause.
2. The selection of codes to define alcohol-related deaths is described in:
Baker A. and Rooney C. (2003). Recent trends in alcohol-related mortality, and the impact of ICD-10 on the monitoring of these deaths in England and Wales. "Health Statistics Quarterly" 17, pp 5–14.

Birth Statistics

Mr. Jenkins: To ask the Chancellor of the Exchequer how many births there were to women resident in Shropshire and Staffordshire strategic health authority area at *(a)* individual maternity hospitals, *(b)* midwife-led units, *(c)* home and *(d)* other locations in each year since 2000. [27498]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 15 November 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question asking for the number of births to women resident in the Shropshire and Staffordshire Strategic Health Authority at (a) individual maternity hospitals, (b) midwife-led units, (c) home and (d) other locatons in each year since 2000. I am replying in her absence. (27498)

The attached table relates to babies born in England and Wales to women usually resident in the Shropshire and Staffordshire Strategic Health Authority area at the tme of the birth. Figures are presented for categories (a) and (b) combined, (c) and (d). Information is not available centrally on which of these institutions are mid-wife led units, so these are not listed separately.

Hospitals where more than 30 live births took place over the period 2000 to 2004 have been shown individually; the remaining ones have been aggregated in the 'Other hospitals' sub-total. Births in the 'Elsewhere' category are mainly those occurring on the way to hospital or at a private residence which is not that of the mother.

Live births by place of occurrence for women resident in Shropshire and Staffordshire SHA area 2000–04

		Year of occurrence				
	Place of occurrence	*2000*	*2001*	*2002*	*20043*	*2004*
a) + b)	Maternity hospital/unit					
	North Staffs Maternity Hospital	4,774	4,626	4,633	4,860	5,242
	Royal Shrewsbury Hospital	3,536	3,419	3,522	3,679	3,698
	District Hospital, Stafford	1,984	2,020	1,966	2,088	2,195
	Burton District Hospital Centre	1,801	1,855	1,877	1,933	1,970
	Good Hope Hospital	699	665	616	706	716
	Wrekin Maternity Unit, Princess Royal Hospital, Telford	124	449	464	426	479
	New Cross Hospital	401	404	372	374	366
	Manor Hospital, Walsall	314	328	310	307	284
	Victoria Hospital, Lichfield	237	292	265	326	313

	Macclesfield District General	175	171	184	190	203
	Ysbyty Maelor, Wrexham	78	72	107	107	119
	Ludlow Hospital	74	83	79	77	98
	Orthopaedic and District Hospital, Oswestry	88	85	79	67	65
	Bridgnorth Hospital	85	57	81	67	68
	Wrekin Hospital	272	0	0	0	0
	Birmingham Women's Hospital, Edgbaston	48	51	54	47	36
	Derby City General	46	46	47	38	43
	Maternity Hospital, Nuneaton	39	40	35	35	46
	Leighton Hospital	28	32	31	31	30
	County Hospital, Hereford	18	16	26	21	28
	Worcestershire Royal Hospital, Newtown	0	0	30	37	37
	Royal Infirmary (Ronkswood), Worcester	26	34	13	0	0
	Countess of Chester Hospital	9	16	8	12	13
	Birmingham Heartlands Hospital	9	7	7	9	5
	Liverpool Women's Hospital	5	7	10	8	5
	City Hospital Winson Green, Birmingham	4	3	12	10	6
	Other hospitals*	78	83	75	73	86
c)	At home	243	211	189	258	269
d)	Elsewhere	24	23	34	27	22
	Total	15,439	15,306	15,307	16,005	16,666

*There were 112 hospitals/units in the 'Other' category where there was a least one birth in the period 2000 to 2004.

Child Trust Fund

Anne Moffat: To ask the Chancellor of the Exchequer how many children in East Lothian are eligible to receive the Child Trust Fund. [28836]

Mr. Ivan Lewis: I refer the hon. Member to the answer given to the hon. Member for Battersea (Martin Linton) on 30 November 2004, *Official Report*, columns 87–88W. Information on the number of live births in East Lothian will be updated and placed in the House of Commons Library in due course. All children born and living in the UK since 1 September 2002 whose families receive child benefit will be eligible for the Child Trust Fund.

Anne Moffat: To ask the Chancellor of the Exchequer how much is being spent in 2005–06 on newspaper advertising to improve the take-up rate of the Child Trust Fund in the UK. [28837]

Mr. Ivan Lewis: I refer the hon. Member to the answer I gave the hon. Gentleman for Yeovil (Mr. Laws) on 24 October 2005, *Official Report*, columns 47–48W.

Anne Moffat: To ask the Chancellor of the Exchequer how much is being spent in 2005–06 on commercial radio in Scotland to improve the take-up rate of the Child Trust Fund. [28838]

Mr. Ivan Lewis: HMRC is not currently running any radio advertising about the Child Trust Fund.

Anne Moffat: To ask the Chancellor of the Exchequer which companies are providing the Helpline for Child Trust Fund inquiries; and how many staff they employ. [28839]

Mr. Ivan Lewis: The Child Trust Fund Helpline is provided by 25 HM Revenue and Customs employees based at the Bathgate Call Centre.

Correspondence

Mr. Frank Field: To ask the Chancellor of the Exchequer when the tax credit office expects to be able to reply to the letter from the right hon. Member for Birkenhead regarding the problems affecting the tax credits of his constituent, Mr Longsdale. [25130]

Dawn Primarolo: The tax credit office sent a reply to my right hon. Friend on 9 November 2005.

Council Tax Rebate

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer how much the Treasury has budgeted for the £200 council tax rebate. [27952]

Dawn Primarolo: The 2004 pre-Budget report and Budget 2005 both announced additional payments for pensioners to help with council tax bills and other living expenses. Further information on the cost of these measures can be found at table 1.2 of the 2005 Budget document and table 1.2 of the 2004 pre-Budget report document.

Damages

Mr. Hayes: To ask the Chancellor of the Exchequer if he will list the 10 largest amounts of damages paid out by his Department in the last year for which figures are available, indicating in each case the nature of the claim. [27735]

John Healey: The only amount of damages the Treasury paid in 2004–05 was one payment of £79 for damage to an official's clothing.

EU Corporation Tax

Mr. Philip Hammond: To ask the Chancellor of the Exchequer whether it is his policy to support the creation of a single corporation tax base within the European Union; what assessment he has made of the development of such a base through decisions of the European Court; and what his policy is on the Kovacs' measures on tax harmonisation within the EU. [28610]

Dawn Primarolo: The Government's view is that fair tax competition is the way forward for Europe, not proposals for tax harmonisation including company tax base consolidation.

Decisions of the European Court are considered, as a matter of course, to see whether there are any potential implications for the UK.

Gershon Review

Tim Farron: To ask the Chancellor of the Exchequer if he will take steps to ensure that no Inland Revenue and Customs office customer service offices in Cumbria are closed as part of the current review. [28265]

Dawn Primarolo: I refer the hon. Member to my previous answer of 7 November 2005, *Official Report*, column 90W.

Gold Sales

Mr. Spring: To ask the Chancellor of the Exchequer pursuant to the answer on 26 October 2005, *Official Report*, column 366W, on gold sales, (1) what assumptions were used in measuring the risk, when calculating the value-at-risk reduction of approximately 30 per cent.; [27964]

(2) whether the Treasury conducted a value-at-risk calculation on the alternative structure of the foreign exchange reserves at that time for comparative purposes; [27965]

(3), what the total return from the reinvested proceeds of the sale were, including interest in pounds sterling, from the announcement in May 1999 to October 2005; and what estimate he has made of the likely total return over the same period if the gold had not been sold. [27966]

Mr. Ivan Lewis: Information on the value at risk calculations that were conducted and the assumptions made can be found at Annex B "Review of the sale of part of the UK gold reserves" published in October 2002, which is available on the Treasury website at: http://www.hm-treasury.aov.uk/media//9EFEF/GoldReserves.PDF

The decision to rebalance the reserves portfolio by selling gold was a long-term investment decision not a short-term attempt to play the market. Reducing the riskiness of the portfolio can only be assessed meaningfully in the medium to long term because in the meantime short-term fluctuations in assets prices could mask the benefits of risk reduction.

Illegal Drug Deaths

Rosie Cooper: To ask the Chancellor of the Exchequer how many deaths have been caused in West Lancashire by illegal drugs since 1997. [28093]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Rosie Cooper, dated 15 November 2005:

The National Statistician has been asked to reply to your recent question asking how many deaths have been caused in West Lancashire by illegal drugs since 1997. I am replying in her absence. (28093)

Figures readily available from death certification relate deaths due to drug poisoning, not the total number that were attributable to drug use. These figures are produced from a special database which contains deaths where the underlying cause was drug poisoning. Deaths that may be caused indirectly by drug use, for example HIV infection or road traffic accidents, are not included. Death registration data are not the best source of information on these "indirect" deaths, because information on the role of drug use in the death may not be provided on the death certificate.

The most recent year for which figures are available is 2003. There were 14 deaths certified as due to drug poisoning[1] and involving drugs controlled under the Misuse of Drugs Act to residents of West Lancashire[2] in the seven years 1997 to 2003[3]. We cannot provide a further breakdown by year due to possible individual disclosure resulting from the small numbers of deaths involved.

[1] Defined using the following codes from the International Classification of Diseases, Tenth Revision for 2001–2003: F11-F16, F18-F19, X40-X44, X60-X64, Y10-Y14, X85 and the following codes from the International Classification of Diseases, Ninth Revision for 1997–2000: 292, 304, 305.2–305.9, E850-E858, E950.0-E950.5, E962.0 and E980.0-E980.5

[2] Usual residents of West Lancashire.

[3] Data are for deaths occurring in each calendar year

Immunisation

Mr. Newmark: To ask the Chancellor of the Exchequer what estimate he has made of the potential debt liability arising from the International Finance Facility for Immunisation when it is drawn down. [28352]

Mr. Ivan Lewis: No debt liability will arise for the UK from the International Finance Facility for Immunisation (IFFIm). The UK has pledged 35 per cent. of the total resources required for a $4 billion IFFIm, equivalent to payments of $130 million a year, which will be recorded as government expenditure on an annual basis, in the year they are made.

This follows the decision on 2 August of Eurostat, the Statistical Office of the European Communities, which stated that the borrowing of the IFFIm should not be considered as a liability of donor countries, and that donations to the IFFIm should be scored as government expenditure in the year in which they are made.

The IFFIm, launched on 9 September, will provide an additional $4 billion over the next 10 years to fund immunisation in the world's poorest countries, saving an estimated 10 million lives.

Income Tax

Rosie Cooper: To ask the Chancellor of the Exchequer how many and what percentage of taxpayers in *(a)* West Lancashire and *(b)* the UK paid tax at the (i) basic rate and (ii) higher rate in 2004–05. [27843]

Dawn Primarolo: I refer my hon. Friend to table 2.1 'Number of individual income taxpayers' on the HM Revenue and Customs internet website http://www.hmrc.gov.uk/stats/income_tax/table2–1.pdf.

The percentages of individuals paying income tax at the basic rate and higher rate in the UK can be calculated from the data provided in the table.

The income tax information is based upon the 2002–03 Survey of Personal Incomes (SPI) projected forward to 2004–05 in line with Budget 2005 assumptions.

Latest information on the estimated number of income taxpayers and their mean and median total income in West Lancashire constituency is shown in table 3.15 'Total Income by Parliamentary Constituency' on the HM Revenue and Customs internet website http://www.hmrc.gov.uk/stats/income_distribution/table-3–15.xls.

Similar information for West Lancashire district is shown in table 3.14 'Total income by borough and district or unitary authority' http://www.hmrc.gov.uk/stats/income_distribution/menu-by-year.htm#314.

A breakdown by tax bands is not available because the sample sizes for marginal rates at constituency and district level are very small and demonstrate a large variability year on year.

Ministerial Travel

Norman Baker: To ask the Chancellor of the Exchequer how much has been spent in each year from 1 May 1997 on ministerial travel, broken down by *(a)* provision and running costs of vehicular transport, *(b)* first-class travel by rail, *(c)* standard class travel by rail, *(d)* first class travel by air, *(e)* club or equivalent class travel by air and *(f)* economy class travel by air. [27680]

John Healey: My hon. Friend the Parliamentary Secretary at the Cabinet Office (Mr. Murphy) has asked Roy Burke, chief executive of the Government Car and Despatch Agency (GCDA) to write to the hon. Member with details of the costs of ministerial vehicles provided to Departments in 2004–05. Copies of his letter will be placed in the Library of the House.

For information for the financial years 2000–01 to 2003–04 I refer the hon. Member to the letters from the chief executive of the GCDA to the hon. Member for Buckingham (John Bercow) dated 10 January 2005 and to the then hon. Member for Arundel and South Downs (Howard Flight) dated 13 September 2003. Copies of these letters are available in the Library of the House.

In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Library of the House. These report information for the financial years 1995–96 to 2004–05. Information for 2005–06 will be published as soon as it is ready after the end

of the current financial year. Detailed analysis of other forms of ministerial travel could be provided only at disproportionate cost. All ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are available in the Libraries of the House.

Mike Penning: To ask the Chancellor of the Exchequer if he will list, for each year since 1995, the number of flights, including helicopter flights, taken by Ministers within his Department for UK and overseas visits; on how many occasions *(a)* charter flights were used and *(b)* first and club class tickets were obtained; and who accompanied the ministers on each trip. [27803]

John Healey: In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list indicates when non-scheduled flights were used, and shows how many officials accompanied Ministers in those circumstances. The Government have also published on an annual basis the

cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information reaching back to 1995–06. Information for 2005–06 will be published after the end of the financial year.

Equivalent detail about domestic travel could be provided only at disproportionate cost.

All ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are available in the Libraries of the House.

National Debt

Mr. Holloway: To ask the Chancellor of the Exchequer what assessment he has made of the long-term impact on tax rates of the national debt. [28647]

Mr. Ivan Lewis: The sustainable investment rule ensures public sector net debt and debt interest payments stay at a low and sustainable level. This ensures the Government's objective of sound public finances and that spending and taxation impact fairly within and between generations.

Budget 2005 projections show public sector net debt remains low, stabilising at around 37 per cent. of GDP by the end of the forecast period, well below the 40 per cent. level and comfortably meeting the sustainable investment rule.

Updated projections will be published in the 2005 pre-Budget report as usual, taking into account all relevant factors and developments.

P11D Returns

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what plans he has to *(a)* amend the current definition of those subject to P11D returns as higher rate earners and *(b)* raise the threshold for the requirement to submit a P11D return. [28623]

Dawn Primarolo: The current definition of those subject to P11D returns is "a director or employee who earned at a rate of £8,500 a year or more". There are no plans to change the criteria or to raise the threshold.

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how many people on the national minimum wage he estimates are required to submit P11D returns as higher rate earners. [28624]

Dawn Primarolo: This information is not available.

Parliamentary Questions

Mr. Frank Field: To ask the Chancellor of the Exchequer (1) when he will provide substantive answers to the questions from the hon. Member for Birkenhead tabled on 19 October 2005, (references 21082 and 21173.); [26809]

(2) when he will provide substantive answers to the questions from the hon. Member for Birkenhead tabled on 19 October 2005 (references 21141 and 21147); [26810]

(3) when he will provide a substantive answer to the question from the hon. Member for Birkenhead tabled on 21 October 2005 (reference 22002). [26812]

Dawn Primarolo: I have answered the five questions concerned.

Peformance-related Pay

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how many officials of Her Majesty's Revenue and Customs are to receive performance-related pay (PRP) in 2005–06; and for how many staff PRP is directly linked to revenue collection targets. [28611]

Dawn Primarolo: In HMRC, all pay awards are performance-related, because staff must achieve a satisfactory standard of performance to qualify for an award.

From 2006, the top 20 per cent. of staff will receive an additional non-consolidated, non-pensionable bonus. Approximately 85 per cent. of HMRC staff work in business units concerned with revenue collection. The PRP of these staff is directly linked to revenue collection targets.

The remaining 15 per cent. of staff work in business units, which support the work of those delivering revenue collection targets. There is therefore an indirect link between revenue collection targets and the PRP of these staff.

Pensions

Stephen Hammond: To ask the Chancellor of the Exchequer pursuant to the answer of 10 October 2005, *Official Report*, column 306W, on pensions, what the total public sector pension deficit liability was in 1997 calculated on any available basis; and what the basis of the calculation was of the £460 billion figure given. [27369]

Mr. Des Browne: An estimate of the total of pension assets and liabilities across the public sector is not available.

For the basis of the calculation of the £460 billion figure for the unfunded public service pension liabilities I refer the hon. Member to the answer I gave to the hon. Member on 11 November 2005, *Official Report*, column 775–76W.

PFI Deals

Dr. Cable: To ask the Chancellor of the Exchequer what progress has been made in including estimates of the finance lease loan element of private finance initiative deals in public sector debt figures; and if he will make a statement. [27758]

John Healey: Ms Karen Dunnell, the National Statistician, told the Treasury Select Committee on 9 November 2005 that she hoped to complete the work in the summer of 2006.

Dr. Cable: To ask Mr Chancellor of the Exchequer what estimate he has made of the impact on public sector debt of the finance lease loan element of private finance initiative deals; and if he will make a statement. [27759]

John Healey: The Office for National Statistics has not yet made an estimate of the impact on Public Sector Net Debt (PSND) of including the implied debt in on-balance-sheet private finance initiative deals. Work is in hand to produce a robust number for inclusion in PSND.

Predictive Diallers

John Hemming: To ask the Chancellor of the Exchequer how many calls were made from call centres in his Department in 2004–05 using predictive diallers; how many such calls resulted in contact being made with the recipient without a Government agent available to talk to them; and what assessment he has made of the likely impact of Ofcom's policy on silent calls on the use of predictive diallers in departmental call centres. [28167]

John Healey: The Treasury has no call centres.

Small Businesses

Lady Hermon: To ask the Chancellor of the Exchequer what assessment he has made of the merits of providing tax relief to small businesses investing in measures to protect themselves against crime. [28205]

Dawn Primarolo: The Government keeps all tax reliefs under review. Expenditure incurred by businesses on the protection of business premises or the safeguarding of staff is eligible for relief providing it satisfies the general rules that provide relief for business expenditure. In addition, where relief might not otherwise be allowable under the general rules because of the personal benefit to the employee or proprietor, there is special provision for relief for security expenditure relating to threats to employees and proprietors of businesses.

Suicides

Rosie Cooper: To ask The Chancellor of the Exchequer how many suicides there were in West Lancashire, in the most recent year for which figures are available, by young people aged 15 to 24 years, *(a)* broken down by sex and *(b)* expressed as a percentage of all suicides. [27840]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 15 November 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question asking how many suicides there were in West Lancashire in the most recent year for which figures are available by young people aged 15 to 24 years, broken down by sex and expressed as a percentage of all suicides. I am replying in her absence. (27840)

The most recently available information is for deaths registered in 2004. In this year there were no suicides of people aged 15 to 24 registered for usual residents of West Lancashire local authority.[1]

[1] In routine statistics, ONS defines suicides as deaths from both intentional self-harm and 'injury or poisoning of undetermined intent'. Data were searched using the following International Classification of Diseases, Tenth Revision (ICD-10) codes:

Intentional self-harm—ICD-10 X60–X84.

Injury or poisoning of undetermined intent—ICD-10 Y10–Y34 excluding Y33.9 where the Coroner's verdict was pending.

Surveys and Research

Dr. Cable: To ask the Chancellor of the Exchequer if he will list all externally commissioned surveys and research by his Department and its agencies in each year since 1997, indicating for each *(a)* the external contractor employed, *(b)* the cost and *(c)* the time taken to complete; and if he will make a statement. [27823]

John Healey: This information is not held centrally in the Treasury or its agencies, and could be obtained only at disproportionate costs.

Tax Credits

Mr. Frank Field: To ask the Chancellor of the Exchequer for what reasons HM Revenue and Customs introduced new telephone call management and monitoring equipment to the tax credit MP hotline. [26260]

Dawn Primarolo *[holding answer 8 November 2005]:* HM Revenue and Customs introduced new telephony equipment to the tax credits MP hotline facility to provide call management information and maintain quality assurance of service it provides for hon. Members.

Mr. Laws: To ask the Chancellor of the Exchequer if he will list the *(a)* internal and *(b)* external reviews that have been conducted into the tax credit IT system (i) before it was introduced and (ii) since its introduction. [18867]

Dawn Primarolo: HM Revenue and Customs and their IT suppliers keep the development and operation of the tax credit computer system under constant review. The Department commissioned two formal reviews of the development of the system that were carried out in September 2001 and October 2003.

There have been four formal external gateway reviews of the Tax Credits Programme carried out by the Office of Government Commerce between December 2002 and March 2005.

Mr. Laws: To ask the Chancellor of the Exchequer how many times manual payments of tax credits have been made when the recovery of an overpayment could not be suspended. [18869]

Dawn Primarolo: The information requested is not available.

Mr. Gale: To ask the Chancellor of the Exchequer how many Revenue and Customs claims for the repayment of child tax credit are outstanding; what the total value of such claims is; whether he plans to change the system by which child tax credit payments are *(a)* assessed and *(b)* made; and if he will make a statement. [19227]

Dawn Primarolo *[holding answer 19 October 2005]:* Details on the amount of tax credits payments outstanding at 31 March 2005 can be found in the Department of Inland Revenue 2004–05 Trust Statement.

In my written statement of 26 May 2005, *Official Report*, columns 22–23WS, I said that I had agreed six measures with HMRC to improve the administration of tax credits, with particular regard to how the Department communicates with families about their tax credits award, reducing the risk of errors adding to the number of overpayments and improving procedures for recovering overpayments.

My right. hon. Friend the Chief Secretary to the Treasury said in the Chamber on 10 November 2005, *Official Report*, column 449, that where a claimant disputes the recovery of an overpayment action will be taken to prevent automatic recovery of any outstanding

amount owed until the tax credit office has looked into the case and made a decision. This applies both to the cases on hand and to new cases going forward.

Mr. Laws: To ask the Chancellor of the Exchequer how many additional tax credit payments have been made in each *(a)* month, *(b)* quarter and *(c)* year since April 2003; and if he will make a statement. [19293]

Dawn Primarolo: I refer the hon. Member to the answer I gave the right hon. Member for Birkenhead (Mr. Field) on 8 November 2005, *Official Report*, column 331W.

Mr. Laws: To ask the Chancellor of the Exchequer how many people have *(a)* complained about and *(b)* appealed against tax credit overpayments for 2003–04; and if he will make a statement. [19296]

John Barrett: To ask the Chancellor of the Exchequer how many people have *(a)* complained about and *(b)* appealed against tax credit over payments for 2003–04. [19747]

Rosie Cooper: To ask the Chancellor of the Exchequer how many people have *(a)* complained about and *(b)* appealed against tax credit overpayments in respect of 2003–04 in West Lancashire. [27750]

Dawn Primarolo: Figures on the number of complaints received about the recovery of a tax credit overpayment are not available for 2003–04. For the number of requests received disputing the recovery of an overpayment I refer the hon. Member to the answer I gave the hon. Member for Tatton (Mr. Osborne) on 12 September 2005, *Official Report*, column 2385W.

Tax credits claimants have a right of appeal against decisions about their tax credit entitlement but claimants are able to pursue with HM Revenue and Customs any disagreement concerning the recovery of an overpayment. The Department's Code of Practice 26, 'What happens if we have paid you too much tax credit?' describes their approach to overpayments and is available on the internet at: http://www.hmrc.gov.uk/leaflets/cop26.pdf

Mr. Frank Field: To ask the Chancellor of the Exchequer how many tax credit awards which are being paid off-system have received manual giro payments for *(a)* one month, *(b)* two months, *(c)* three months, *(d)* six months and *(e)* 12 months or more. [19403]

Mr. Laws: To ask the Chancellor of the Exchequer how many manual payments of tax credits are being made; and if he will make a statement. [28211]

Dawn Primarolo: The information requested by my right hon. Friend (the Member for Birkenhead) is not available at the requested level of detail. HM Revenue and Customs is currently making manual tax credits payments to around 16,000 households.

Mike Wood: To ask the Chancellor of the Exchequer what proportion of low income claimants have experienced gaps in tax credit payments due to *(a)* overpayment investigations and *(b)* recovery action. [19656]

Dawn Primarolo: This information is not available.

Mr. Laws: To ask the Chancellor of the Exchequer how many complaints about tax credits have been received in each month since June 2004. [20016]

Dawn Primarolo: Complaints about tax credits can be made in various ways, including as part of telephone calls, visits to HM Revenue and Customs Enquiry Centres, and written correspondence from claimants where the primary purpose of the communication is to receive or provide information. No comprehensive count of such complaints is maintained.

Mr. Laws: To ask the Chancellor of the Exchequer how many compensation payments have been made by the tax credits department of HM Revenue and Customs for poor service in each month since January 2004; and if he will make a statement. [20017]

Dawn Primarolo: The circumstances in which the former Inland Revenue and HM Revenue and Customs will make compensation payments to its customers are explained in the Department's code of practice 1 "Putting things right" which is available at www.hmrc.gov.uk/leaflets/cop1.pdf

The Department will pay compensation for reasonable costs incurred as a direct result of their mistakes or delays and to recognise worry and distress caused by those mistakes and delays.

The Department will make a compensation payment if they believe it is justified even if the customer has not asked for compensation.

The total number of compensation payments in relation to tax credits, by HMRC's Tax Credit Office and contact centres, in each month is:

	Number
2004	
January	329
February	880
March	1,399
April	1,507
May	2,150
June	1,639
July	1,805
August	1,657
September	1,441
October	1,429
November	1,304
December	1,476
1995	
January	1,884
February	2,162
March	1,733
April	1,202
May	1,653
June	1,929
July	1,542
August	1,296
September	1,087

Mr. Frank Field: To ask the Chancellor of the Exchequer (1) in what circumstances a tax credit claimant who provides *(a)* job details and hours worked but no income details and *(b)* job details and hours worked for a disabled partner but no income details as

part of a joint claim containing the disability element could receive working tax credits based on them having nil income; [21141]

(2) what measures are in place to alert staff responsible for tax credits when a claim for working tax credit contains *(a)* job details and the number of hours worked, but no income details leading to a maximum award of tax credit and *(b)* the disability element in respect of a partner in a joint claim who has given job details and hours worked but no income details. [21082]

Dawn Primarolo: Where a claimant has provided a number of hours worked but not given any income details, the Tax Credit Office will be automatically alerted to ask for further information from the claimant. The Tax Credit Office will check the income details for the award with the claimant. Any entitlement for working tax credit would be based on the information provided by the claimant at that stage.

The notes sent with the claim form inform self-employed claimants that should their business have made a loss in the preceding tax year, they should enter their income as nil. It is on this basis that a nil income claim is processed as valid.

If, for some reason, an award is established on the wrong income, the claimant would be able to check the income details on which the award is based on the award notice. Accompanying guidance asks claimants to inform HMRC if their income has gone up or down in the current year. At the end of the tax year, the claimants are asked to confirm their actual income for the year.

Mr. Frank Field: To ask the Chancellor of the Exchequer how many times the IT system supporting the MPs' tax credit hotline has been out of operation since 2003; and what the duration of the downtime was in each instance. [22006]

Dawn Primarolo *[holding answer 27 October 2005]:* New telephony equipment was introduced to the MP hotline on 7 October 2005. There has been one case of downtime since, on the 10 October 2005, when the MP hotline was down for a 30 minute period.

Prior to 7 October 2005 the hotline's telephone system was not supported by an IT system.

Mrs. Iris Robinson: To ask the Chancellor of the Exchequer (1) what the estimate is of overpaid tax credits written off in 2004-05; [22826]

Mr. Laws: To ask the Chancellor of the Exchequer (2) how much official error relief for tax credits was written off in each month from January to October; and if he will make a statement. [24585]

Dawn Primarolo: I refer the hon. Members to the reply I gave the hon. Member for Yeovil on 27 October 2005, *Official Report*, columns 496–97W. Following a data cleansing exercise, which removed some duplicated records from the system, the amounts written off in June, July, August and September 2005 were around:

Month 2005	*Amount written off £000*
July	24,400
August	27,300
September	18,500

Details of the amount written off in October 2005 are not yet available.

Mr. Frank Field: To ask the Chancellor of the Exchequer how many scheduled tax credit payments were not made automatically on the first scheduled payment date after a claim was decided for each year since 2003–04; and what the average delay was in each case. [26263]

Dawn Primarolo: This information is not available.

UK Competitiveness

Mr. Holloway: To ask the Chancellor of the Exchequer what recent representations he has received regarding *(a)* productivity levels, *(b)* business investment and *(c)* United Kingdom competitiveness. [28949]

John Healey: The Chancellor of Exchequer receives representations from a wide range of organisations and individuals. These cover a range of issues, including UK productivity and competitiveness, and business investment.

Unemployment

David Mundell: To ask the Chancellor of the Exchequer how many and what percentage of people in Scotland receive unemployment benefit. [28450]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. David Mundell dated, 15 November 2005:

The National Statistician has been asked to reply to your Parliamentary Question regarding the number and percentage of people who were receiving unemployment benefit in Scotland. I am replying in her absence. (28450)

The latest available statistics for September 2005 show that, on a seasonally adjusted basis, there were 85,700 people resident in Scotland who were claiming the Jobseeker's Allowance. This represented 2.7 per cent. of the working age resident population of Scotland.

Paul Rowen: To ask the Chancellor of the Exchequer what percentage of the working-age population was unemployed in each ward in Rochdale constituency in each year since 1997. [28935]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl to Mr. Paul Rowen, dated 15 November 2005:

The National Statistician has been asked to reply to your Parliamentary Question about employment. I am replying in her absence. (28935)

The Office for National Statistics compiles statistics of employment from the Labour Force Survey following International Labour Organisation definitions. However, estimates of employment are not available for wards as the survey sample size for such areas is too small.

Table 1 shows the 2001 Census figures for numbers of persons of working age in employment, and those in employment as a percentage of the total resident working age population, for the wards of the Rochdale constituency.

The data are published in the Labour Market profiles for wards on the Office for National Statistics's Nomis website: www.nomisweb.co.uk.

Table 1: Number of employed persons of working age, and working age employment rate in the wards of the Rochdale parliamentary constituency

Wards[1]	*Number in employment*	*Employment rate (%)*
Balderstone	3,755	65.7
Brimrod and Deeplish	2,914	58.8
Central and Falinge	2,882	49.3
Healey	6,300	73.7
Littleborough	6,038	77.2
Newbold	3,766	57.6
Smallbridge and Wardleworth	3,866	48.9
Spotland	3,713	71.8
Wardle	4,257	73.6
Total	37,491

Source:
2001 Census

Mr. Anthony Wright: To ask the Chancellor of the Exchequer what the level of youth unemployment has been in Great Yarmouth in each of the last five years. [28042]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell to Mr. Anthony Wright, dated 15 November 2005:

As National Statistician, I have been asked to reply to your Parliamentary Question about youth unemployment. (28042)

Table 1 shows the total numbers of unemployed young people aged 16 to 24 who were resident in the Great Yarmouth Parliamentary Constituency. The table covers the 12 month periods ending in February each year from 2001 to 2004 and the 12 month period ending in March 2005. These estimates, as with any from sample surveys, are subject to sampling variability. Changes in the estimates from year to year should be treated with particular caution.

The Office for National Statistics also compiles statistics for local areas of people claiming Jobseeker's Allowance (JSA). Table 2 shows the annual average number of JSA claimants, aged 18 to 24, resident in the Great Yarmouth constituency for 2000 to 2004.

The data are published on the Office for National Statistics's Nomis(r) website: www.nomisweb.co.uk.

Table 1: Number of unemployed, aged 16 to 24, resident in the Great Yarmouth constituency

12 months ending	*Thousand Great Yarmouth*
February 2001	1
February 2002	1
February 2003	*
February 2004	*
March 2005	1

* Estimate not available, sample size less than three could be disclosive.

Note:
The estimates for local areas are based on very small sample sizes and are subject to a very high degree of sampling variability. Changes from year to year, especially, should be treated with caution.
Source:
Annual local area Labour Force Survey; Annual Population Survey

Table 2: JSA claimants, aged 18 to 24, resident in the Great Yarmouth constituency.

Annual averages	*Great Yarmouth*
2000	800
2001	675
2002	635
2003	630
2004	680

Notes:
1. Computerised claims only.
2. Data rounded to nearest five for disclosure control.

Jobcentre Plus Administrative system

Unmarried Couples (Capital Gains Tax)

Mr. Philip Hammond: To ask the Chancellor of the Exchequer whether an unmarried couple who each own a home would incur a capital gains tax disadvantage by marrying. [28625]

Dawn Primarolo: A married couple may have only one home that qualifies for private residence relief regardless of the number of properties they own. Whether an unmarried couple would have a capital gains tax disadvantage if they married would depend on their particular circumstances.

VAT (Football Match Admission)

Mr. Frank Field: To ask the Chancellor of the Exchequer if he will make it his policy to remove VAT from the price of admission for children attending football matches; and if he will make a statement. [28989]

Dawn Primarolo: Under our agreements with our European partners, we are not able to extend our existing VAT zero rates or introduce any new ones.

Vehicle Sales Tax

Tom Brake: To ask the Chancellor of the Exchequer how much has been raised from vehicle sales tax in each year since 1997–98 *(a)* in total and *(b)* broken down by vehicle type; and what estimates have been made of likely revenue in future years. [27567]

John Healey: The UK does not impose a vehicle sales tax.

Ministerial Travel

Tim Loughton: To ask the Chancellor of the Exchequer (1) how much it cost *(a)* him and *(b)* officials from his Department to fly to and from Israel on 8 November. [28252]

(2) what the flight arrangements were for his visit to Israel on 8 November; [28253]

(3) how many Government officials accompanied him on his visit to Israel on 8 November. [28254]

Peter Luff: To ask the Chancellor of the Exchequer what was the additional cost of *(a)* his and *(b)* his officials' early return from Israel to permit him to vote in the proceedings in the Terrorism Bill. [28111]

Lynne Featherstone: To ask the Chancellor of the Exchequer what the total cost was of amending his travel arrangements and returning from Israel in order to vote in the House on 9 November; and if he will make a statement. [28566]

Mr. Holloway: To ask the Chancellor of the Exchequer what the cost was of rearranging his flight from Israel on 9 November, and whether the cost was met by public funds. [28886]

Mr. Hunt: To ask the Chancellor of the Exchequer what the cost was to his Department of his early return to the United Kingdom from Israel on 9 November. [28907]

John Healey *[holding answer 14 November 2005]:* Paragraph 10.11 of the Ministerial Code states:

> "if a Minister is abroad with permission and is called home for ministerial or parliamentary reasons—including to vote—the cost of the extra journey back and forth may be met by public funds".

It cost a total of £1,518 for the Chancellor to fly back to the UK from Israel and to return to Israel on 9 November. The Chancellor was accompanied by two Treasury officials.

Mr. Philip Hammond: To ask the Chancellor of the Exchequer whether hon. Members other than the Chancellor returned to London from overseas for parliamentary votes on 9 November at his Department's expense. [29509]

John Healey: I refer the hon. Member to the answer I gave on 15 November. No other Members returned at the Treasury's expense.

Written Answers to Questions

Wednesday 16 November 2005

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Aviation Emissions

Mr. Holloway: To ask the Secretary of State for Environment, Food and Rural Affairs what action is being taken to reduce emissions from aviation. [28596]

Mr. Morley: We are pressing for the development of an open emissions trading system for international aviation through the International Civil Aviation Organisation (ICAO) Assembly. However, we want to take advantage of the groundbreaking EU Emissions Trading Scheme and are therefore pressing for the inclusion of aviation into the EU ETS as a priority for our presidency.

The European Commission has adopted a Communication on reducing the climate change impact of aviation, favouring the inclusion of the climate impact of aviation into the EU Emissions Trading Scheme (EU ETS). They aim to bring forward a legislative proposal by the end of 2006. Our aim is to reach a consensus on the way forward at the December Environment Council.

The Commission have set up an Aviation Working Group under the European Climate Change Programme to discuss the design criteria involved in such a scheme.

Emissions trading would give added weight to other emissions-reducing actions for which the Government will press, including:

improved working practices by airports, airlines and air traffic controllers;

research and development by aerospace manufacturers of new technologies; and

voluntary action by airlines, airports and aerospace companies to control greenhouse gas emissions and develop sustainability strategies. Such action should include emissions reporting and targets at a company level.

We recognise that these measures may not provide a total solution, therefore we continue to explore and discuss options for the use of other economic instruments.

Climate Change

Mr. MacDougall: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to co-ordinate Government work on climate change. [28533]

Mr. Morley: The Department is currently leading the review of the UK Climate Change Programme through interdepartmental work involving Officials from across Government. The review is being taken forward within the framework of the Sustainable Energy Policy Network (SEPN), set up following the publication of the Energy White Paper in 2003. SEPN meets regularly at official and ministerial level to discuss progress on a range of climate change and energy policy issues.

PFI Projects

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what steps she is taking to ensure that private finance initiative projects for which her Department is responsible create the minimum of environmental damage; [28092]

(2) what assessment her Department has made of *(a)* the sustainability and environmental impacts of private finance initiative (PFI) projects and *(b)* the effectiveness of the PFI process to deliver environmentally sustainable projects; [28116]

(3) what role her Department *(a)* has and *(b)* plans to take to make the private finance initiative process more accountable and transparent in terms of environmental sustainability. [28117]

Mr. Morley: I refer the hon. Member to the answers given on 25 May 2004, *Official Report*, column 1495W and 6 December 2004, *Official Report*, column 278W.

Since then, the business-led Sustainable Procurement Task Force has been established (in May 2005) to deliver a national action plan for Sustainable Procurement across the public sector by the end of April 2006.

The Task Force is chaired by Sir Neville Simms and will build on existing work to provide Government with further actions ensuring that sustainable development considerations are taken into account in public procurement (including PFIs/PPPs).

Warm Front Grants

James Brokenshire: To ask the Secretary of State for Environment, Food and Rural Affairs what the average waiting time is for a Warm Front applicant for a central heating system from assessment to installation. [28391]

Mr. Morley: The average waiting time for the installation of a central heating system under Warm Front is between 3–5 months from date of assessment until date of installation.

James Brokenshire: To ask the Secretary of State for Environment, Food and Rural Affairs what factors are taken into account when determining an application for a replacement heating system through the Warm Front grant; and to what extent elderly people are prioritised if their central heating system fails. [28392]

Mr. Morley: Warm Front provides a range of specified insulation and heating measures to households in receipt of specified qualifying benefits. The measures recommended for installation will depend upon the circumstances of the household and measures already installed. The scheme does not provide additional heating, but, where central heating systems are broken down or are performing intermittently at the time of the assessment, they can be repaired. In cases where a repair is not economically viable, the system may be replaced.

Warm Front is not intended to be an emergency repair service. All who receive assistance from the scheme are considered vulnerable and the scheme works to provide measures promptly for all households.

TRANSPORT

Air Passenger Insurance/Levy

Tom Brake: To ask the Secretary of State for Transport what estimate he has made of the additional cost per passenger of *(a)* passenger insurance and *(b)* the £1 levy per flight proposed by the Civil Aviation Authority to meet the cost of insurance against airline bankruptcy for those airlines not covered by the Association of British Travel Agents. [28290]

Ms Buck: The Civil Aviation Authority factored the cost of commercially available insurance into the analysis it carried out for the purposes of the advice it provided to Government, published in September 2005.

Air Traffic

Mr. Peter Robinson: To ask the Secretary of State for Transport how many aircraft flying into UK airspace the National Air Traffic Control Service computer processes in an average *(a)* day, *(b)* month and *(c)* year. [28865]

Ms Buck: This is an operational matter for National Air Traffic Services (NATS). I understand they are willing to assist and suggest the hon. Member directs his inquiries to the NATS chief executive.

Mr. Ian Taylor: To ask the Secretary of State for Transport (1) what the time is of the *(a)* first and *(b)* last flights from Heathrow airport over-flying Molesey each day; [27511]

(2) what the volume of air traffic over-flying Molesey was in each of the last three years; [27512]

(3) how many *(a)* landings and *(b)* take-offs there were at Heathrow airport in each of the last three years; and how many aircraft were stacked above Molesey in each year. [27513]

Ms Buck: These are operational matters for BAA. I understand they are willing to assist and suggest the hon. Member directs his inquiries to the BAA chief executive.

British Transport Police

Mr. George Howarth: To ask the Secretary of State for Transport how many members of the British Transport Police are due to retire or step down in the next *(a)* 12 months, *(b)* five years and *(c)* 10 years. [26534]

Derek Twigg: The British Transport Police (BTP) have provided the following information:

The number of police officers who will have completed 30 years service and be 50-years-old, and will therefore be eligible for voluntary retirement during the periods indicated are:

	Total
2005–06	0
2005–10	45
2005–15	62

The number of police officers who will reach the compulsory retirement age relevant to their rank during the periods indicated are:

	Total
2005–06	9
2005–10	131
2005–15	419

Classic Aircraft (Insurance)

Mr. Letwin: To ask the Secretary of State for Transport what assessment he has made of recent regulatory change on insurance costs for classic aircraft. [27312]

Ms Buck: Regulation (EC) No 785/2004 on insurance requirements for air carriers and aircraft operators, which came into effect on 1 May 2005, imposes minimum passenger and third party insurance requirements on all aircraft according to weight. During the process of adoption of the regulation in the European institutions, the Department for Transport submitted a partial regulatory impact assessment to the Commons European Scrutiny Committee, informing it that the regulation would impose a regulatory burden on aircraft operators. No further assessment of the effect of the regulation on the cost of insurance for aircraft operators has been made, but some heavy historic aircraft have had to increase their insurance levels in relation to third party liability. The insurance industry has recognised the problem and sought to make premia affordable.

Commercial Aviation (Duty Hours)

Tom Brake: To ask the Secretary of State for Transport on how many occasions the Civil Aviation Authority has *(a)* issued warnings to and *(b)* made findings against (i) pilots and (ii) flight crew in respect of breaches of the annual limit for duty hours for commercial aviation, in the last year for which figures are available. [27688]

Ms Buck: UK airlines are required to have a flight and duty time limitation scheme approved by the Civil Aviation Authority and to take all reasonable steps to ensure that all members of their flight crew comply with the scheme. Such schemes have to include the statutory annual flight duty time limit imposed on individual members of flight crew. Flight time limitation schemes are designed to ensure that flight crew do not exceed annual duty time limits and breaches of the limits are few. The CAA does not keep a central record of breaches of duty time limits, but does audit operators records on a regular basis and, if required, ensures that changes to working patterns are instituted.

Tom Brake: To ask the Secretary of State for Transport what the annual limit is for duty hours for commercial aviation *(a)* pilots and *(b)* flight crew under the EU Flight Time Limitations. [27899]

Ms Buck: There is currently no EC legislation establishing detailed flight time limitations for the flight crew of commercial aircraft. However, draft legislation on airline operational standards under consideration by the EC includes flight and duty time limitations and rest requirements. This legislation will impose an annual limit on flight duty time of 900 hours (pilots and flight crew). In addition Council Directive 2000/79/EC, which implements an industry agreement on working time for mobile staff in civil aviation (pilots and flight crew), establishes a limit of 2,000 hours for total duty time and a limit of 900 hours for flight duty time.

Departmental Estate

Mr. George Howarth: To ask the Secretary of State for Transport if he will list the buildings owned by his Department; and what the purpose is of each one. [25632]

Ms Buck: The information requested has been placed in the Libraries of the House, but information on the Highways Agency motorway maintenance depots and associated buildings can be provided only at disproportionate cost.

Departmental Staff (Literacy and Numeracy)

Mr. Gibb: To ask the Secretary of State for Transport what methods of assessment of *(a)* literacy and *(b)* numeracy skills are used as part of the recruitment process by employees of his Department. [23796]

Ms Buck: As outlined in my answer of 27 October 2005, *Official Report*, column 503W, the Department for Transport operates competency based recruitment.

If written and or/numerical skills are required for a particular position candidates are required to provide evidence, in their application forms, of what they have achieved using these skills. They are then questioned more about this in interview. If appropriate for the post, a test may be used, which is conducted by a trained assessor.

Occasionally recruitment is by assessment centre, in which candidates undergo a number of work-type exercises, testing, among other skills, both writing and numeracy, as appropriate for the position.

Departmental Targets

Tom Brake: To ask the Secretary of State for Transport how many targets have been set in each year since 1997 by the Department; and which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped in each year. [26756]

Ms Buck: The Department for Transport was formed in May 2002 and the targets applicable at the time were the public service agreement (PSA) targets set in the 2000 Spending Review. A new set of PSA targets was agreed in subsequent Spending Reviews in 2002 and 2004.

Performance against all PSA targets is reported in the Department's Annual Report and Autumn Performance Report. These also show how targets have evolved between Spending Reviews. In addition, performance is reported on the Department's website.

Fuel Efficiency Labels

Tom Brake: To ask the Secretary of State for Transport what steps are taken to ensure that fuel efficiency labels produced in accordance with European Directive 1999/94/EC accurately reflect vehicle carbon dioxide emissions produced under normal road use. [29352]

Dr. Ladyman: European Directive 1999/94/EC requires car fuel consumption and carbon dioxide (CO_2) emissions information to be provided to consumers by means of labels and other media. The figures used are obtained by testing new vehicles to the ED fuel consumption/CO_2 driving procedure on a chassis-dynamometer (rolling-road). This standardised procedure is aimed at providing prospective new car buyers with a simple comparison of the relative efficiency of new vehicles. By its very nature it cannot anticipate the fuel consumption and CO_2 emissions that will be achieved by any particular motorist under any conditions of use. Fuel consumption on the road is significantly affected by many factors, especially driving style, traffic and road conditions, load carried, terrain, and the use of heaters, air conditioning and lights. It is therefore impossible to provide a single fuel consumption and, hence, CO_2 figure that is representative for all road users.

Gershon Review

Mr. George Howarth: To ask the Secretary of State for Transport how the Department is implementing the recommendations of the Gershon Review; and what savings have been made as a result. [28077]

Ms Buck: The Secretary of State has established an efficiency programme to implement the recommendations of the Gershon Review. The Department has published an efficiency technical note on its website which gives more detailed information on the programme. A revised version of the efficiency technical note will be published by the end of November 2005.

Progress was reported in Budget 2005 and in the departmental annual reports. Further progress will be reported in the autumn performance reports and at aggregate level in the pre-budget report.

Humber Bridge

Shona McIsaac: To ask the Secretary of State for Transport what the amount of debt on the Humber Bridge was in each year since its opening; and what rate of interest was paid on the debt in each year. [24771]

Dr. Ladyman: The debt on the Humber Bridge since its opening and the rate of interest paid are as follows:

Debt (not including loans from Public Works and Loan Board (PWLB))

	Debt (£)	*Average yearly interest rate (percentage)*
1982–83	135,789,954	13.63
1983–84	151,701,693	13.34
1984–85	169,644,160	13.05
1985–86	189,215,633	12.81
1986–87	210,437,430	12.53
1987–88	233,231,729	12.26
1988–89	256,985,313	12.02
1989–90	282,496,818	11.85
1990–91	309,772,421	11.87

Debt (not including loans from Public Works and Loan Board (PWLB))

	Debt (£)	*Average yearly interest rate (percentage)*
1991–92	342,772,676	11.69
1992–93[1]	359,307,192	11.62
1993–94[1]	359,307,192	11.62
1994–95[1]	359,307,192	11.62
1995–96[1]	359,307,192	11.62
1996–97[1]	359,307,192	11.62
1997–98[1]	359,307,192	11.62

[1] The debt would have risen to £650 million by March 1997 without Government assistance (mainly the payment of grants of £40 million plus a year, paid under the Appropriation Acts, to cover un-met interest charges).

PWLB loans

	£	*Percentage*
1982–83	—	—
1983–84	19,000,000	10.4
1984–85	24,000,000	10.37
1985–86	44,000,000	10.09
1986–87	44,000,000	10.09
1987–88	48,000,000	10.07
1988–89	53,500,000	9.98
1989–90	58,500,000	9.97
1990–91	62,000,000	9.57
1991–92	66,000,000	9.05
1992–93	66,000,000	9.05
1993–94	66,000,000	9.05
1994–95	66,000,000	9.05
1995–96	66,000,000	9.05
1996–97	66,000,000	9.05
1997–98	66,000,000	9.05

On 1 July 1997 the Department signed a new loan agreement with the Humber Bridge board. This agreement was then subject to a parliamentary order under the Humber Bridge (Debts) Act 1996. This agreement and the Humber Bridge (Debts) Order 1998 (which came into force 19 August 1997) made the following provisions for the Humber Bridge debt:

The PWLB debt was to be paid off;

A new fixed consolidated loan interest rate of 7.75 per cent. would be applied;

Interest payments would be suspended on £240 million of the Secretary of State's debt of £359 million;

Suspended debt would be added back starting in the next financial year (in annual amounts starting at £11 million and rising by 4 per cent. per annum to reintegrate all the suspended debt);

The debt would be repaid within a maximum of 40 years;

A further £1.6 million of interest would be waived to allow for carriageway works.

Since that time, the following applies to the Humber Bridge debt:

	Total debt (£)	*Active debt (£)*	*Interest rate on active debt (percentage)*
1998–99	359,307,192	119,307,192	7.75
1999–2000	354,307,192	114,307,192	7.75
2000–01	348,952,192	119,952,192	7.75
2001–02	348,952,192	131,392,192	7.75
2002–03	348,952,192	143,289,792	7.75
2003–04	341,739,518	148,450,622	7.75
2004–05	337,250,359	156,829,907	7.75

Light Rail

Mr. George Howarth: To ask the Secretary of State for Transport if he will make a statement on the future of light rail. [27945]

Derek Twigg: I refer my hon. Friend to my answer of 9 November 2005, *Official Report*, columns 510–11W.

Mr. Duncan: To ask the Secretary of State for Transport what assessment has been made of the effectiveness of light rail systems in *(a)* Manchester and *(b)* Birmingham in terms of (i) economic and (ii) environmental objectives. [28307]

Mr. Darling: Light rail systems in Birmingham and Manchester have been subject to monitoring and evaluation studies. These studies focused on the impact of the schemes on travel behaviour, particularly in terms of levels of car usage, and the local economy.

Local Transport Plans

Tom Brake: To ask the Secretary of State for Transport which local authorities have set targets for the overall level of road traffic in their area as part of their full local transport plans in each year since the Road Traffic Reduction Act 1997 came into force; and what targets were set in each case. [26750]

Ms Buck: Table 1[1] lists the local transport plan areas with targets for overall levels of traffic along with the targets as reported in the progress reports following the submission of the first full local transport plans in 2000. Many other plan areas set targets for levels of traffic for parts of their areas or for particular time periods (for example peak hours).

The Department requires all final second local transport plans (due for completion in March 2006) to include targets for the overall levels of road traffic. Some of the provisional second local transport plans (submitted in July 2005) have included indicative targets, although these will be superseded by those contained in the final versions of the plans.

Table 1: Area wide road traffic reduction targets in first full local transport plans (as highlighted in DfT review of early progress reports)

LT name	*Local targets or outcomes*
Blackburn with Darwen	Reduce annual peak hour traffic growth to 0 per cent. by 2006; contain off peak traffic growth to forecast local low growth levels.
Blackpool	Reduction in traffic levels.
Bristol	Reduce growth in private car traffic by 20 per cent. by 2005, and thereafter to seek a 20 per cent. reduction in private car traffic by 2015. 1996 base year: 1,228,000 (combined cordons). Base index = 100, 2005 Target = 110, 2015 Target = 80.
Cheshire	Cheshire traffic growth restrained to an overall increase of 15 per cent. on 1995 traffic levels by 2011.
County Durham	Reduce the forecast growth of traffic from 1.5 per cent. to 0.33 per cent. per annum throughout the plan period.

Table 1: Area wide road traffic reduction targets in first full local transport plans (as highlighted in DfT review of early progress reports)

LT name	*Local targets or outcomes*
Cumbria	Local areas: traffic growth of 1 per cent./yr to 2006 in Allerdale; 1 per cent./yr to 2006 in Barrow; 0 per cent./yr in 2006 in Carlisle; 1 per cent./yr to 2006 in Copeland; 0.5 per cent./yr to 2006 in Eden; 3.7 per cent./yr to 2006 in South Lakeland; 0 per cent./yr to 2006 in Lake District.
Dorset	10 per cent. reduction in traffic growth in all areas of rural Dorset by 2006 and 20 per cent. to 30 per cent. by 2016 (varies by area).
Essex	Reduce the rate of growth in traffic. Baseline—1998 traffic levels.
Gloucestershire	By 2010, average daily traffic volumes on the county's road network to increase by no more than 20 per cent., compared with 1996 levels. By 2006 the increase over 1996 to be no more than 15 per cent.
Greater Manchester	8 per cent. increase in annual car kilometres on A and B roads by 2005–06, on 1991 base. (5,957m)
Greater Nottingham	Below 2.5 per cent. per annum.
Hampshire	To halve the rate of forecast traffic growth between 1998 and 2020 from 32 per cent. to 16 per cent.
Hartlepool	Overall traffic growth to be less than 5 per cent. between base year and 2005.
Herefordshire	To restrict the growth in traffic levels in Hereford to 1 per cent. per annum during the period 2001 to 2010. To restrict the growth in traffic levels on principal rural roads to 1 per cent. per annum during the period 2001 to 2010.
Kingston upon Hull/Hull City	Reduce car flow by approximately 1 per cent. per year.
Luton-Dunstable	Reduction in the Do-Minimum traffic forecast (2011).
Merseyside	*(a)* 0 per cent. growth to 2006 in the centres for peak periods.*(b)* 0 per cent. growth for 2006–11 above 20.8 per cent. max to 2006.
Middlesbrough	Reduce daily flows to 0 per cent. growth at town centre cordon by 2005 and 2 per cent. by 2010.
North East Lincolnshire	1999 base line = 12,020 vehicles/km per 12 hour average weekday. Target = to keep annual growth to below 1999 level of 2 per cent. and to achieve zero growth by 2010.
Oxfordshire	To reduce traffic growth in the period 2000 to 2015 to half the forecast growth for Oxfordshire.
Redcar and Cleveland	Maximum 1 per cent. annual increase in traffic flows, national low growth forecast.
Royal Borough of Windsor and Maidenhead	Windsor and Maidenhead: traffic to increase by no more than 6 per cent. by 2006 from 1999. Rest of the borough: traffic to increase by no more than 10 per cent. by 2006 (based on vehicle numbers).
Southend on Sea	Increase in vehicle kilometres per average weekday of less than 11 per cent. by 2006.
Stockton-on-Tees	Limit traffic growth to forecast low growth figure of 4.5 per cent. (2000–05).
Stoke on Trent	Constrain traffic growth increase to 10 per cent. between 1999–2011 compared with the 1997 low-growth national projected increase of 15 per cent. over the same period.
Suffolk	Reduce growth
Surrey	To limit traffic growth (county roads only) to the 1998 level by 2016; milestone target 8 per cent. 2006; final target 2016 0 per cent.
Telford and Wrekin	Reduce to 1.6 per cent. per annum by 2010.
Tyne and Wear	Target for 2006 is to limit growth on principal roads to 2.524 billion vehicle kilometres from a base figure of 2.274 billion in 1996–97.
Warrington	Minimum 43 per cent. reduction in the predicted growth of traffic by 2011.
West Midlands	Restrict traffic growth from 1996 to 2011 to below 8 per cent.
West Sussex	Reduce by 50 per cent. the rate of traffic growth by 2016.
West Yorkshire	Traffic growth 1999–2006 not to exceed 5 per cent. (16 hour, all roads).
Wokingham	Restrain traffic growth in Wokingham (targets for borough split into five areas ranging from 4 per cent. to 8.5 per cent. between 1999 and 2006).
York	Limit overall growth in traffic to 4 per cent. (1999–2006) with a reduction of 13 per cent. on secondary and residential roads.

[1] The information in table 1 is based on an internal review and may omit some targets, The costs of a further review of the plans to checks for omissions are disproportionately high.

M1

Mr. Betts: To ask the Secretary of State for Transport what recent information he has received on pollution levels in residential areas near the M1 motorway in Twisley, Sheffield; what assessment he has made of the likely effect on pollution levels there of plans to widen the M1; and if he will commission independent research on this matter. [28925]

Dr. Ladyman: The Highways Agency has taken base level data on current pollution levels from Sheffield city council, from the agency's own monitoring and from information available from groups such as the Tinsley forum, who have been monitoring air quality in the Tinsley area since 1998.

Emissions' modelling being carried out by the agency in collaboration with Sheffield city council, the Transport Research Laboratory and the Department for Transport is currently programmed to complete in summer 2006. This will feed into the Environmental Assessment, which will form part of the Scheme Appraisal. This will give a better guide as to what effects on air quality the M1 widening would have.

Independent research on this matter is not felt necessary at this time.

Mr. Greg Knight: To ask the Secretary of State for Transport (1) if he will introduce proposals to construct a filter slip lane on the exit from the northbound carriageway of the M1 motorway at junction 21 to enable vehicles to reach the M69 without having to negotiate the traffic island; [28114]

(2) if he will take steps *(a)* to reduce congestion and *(b)* to ease access to and egress from the M1 motorway at junction 21. [28115]

Dr. Ladyman: A scheme to widen the M1 between junctions 21 and 30 was added to the Government's Targeted Programme of Improvements (TPI) in April 2004.

This scheme includes proposals to provide a free flow link between the M1 Southbound and M69 and the M69 to M1 northbound. This will significantly reduce traffic movements through junction 21 and a filter lane for the M1 to the M69 southbound movement is not considered necessary.

The Highways Agency plans to consult on this scheme in spring 2006 and invite comments on the published proposals.

Major Improvement Projects

Mr. George Howarth: To ask the Secretary of State for Transport what proportion of funds in the current

spending review period are allocated to *(a)* railways, *(b)* major transport projects in London, including rail projects, *(c)* light rail, *(d)* other public transport major improvement projects and *(e)* aviation. [27940]

Ms Buck: DfT does not allocate funding on the basis of these particular categories, and so the information sought is not available in the form requested. However, a breakdown of budgets for Resource and Capital DEL by PSA objectives and spending areas is set out in Table A2 of the 2005 Annual Report (Cm 6527), a copy of which is in the House of Commons Library.

Mobile Phone Theft

Mr. George Howarth: To ask the Secretary of State for Transport how many mobile phones were stolen on the rail network in the past *(a)* 12 months, *(b)* two years and *(c)* five years. [26535]

Derek Twigg: The number of crimes recorded by the British Transport police in which mobile phones were stolen on the rail network (excluding London underground) over the last five years is given in the table:

Period	*Number*
1 November 2000 to 31 October 2001	5,971
1 November 2001 to 31 October 2002	8,106
1 November 2002 to 31 October 2003	8,876
1 November 2003 to 31 October 2004	8,579
1 November 2004 to 31 October 2005	7,188

Motorway Repairs

Andrew Mackinlay: To ask the Secretary of State for Transport what guidance on good practice he has issued to *(a)* Highways Agency staff and *(b)* motorway police on closing lanes when members of the public have to repair a puncture on the driver's side of a vehicle; and if he will make a statement. [27645]

Dr. Ladyman: Highways Agency Traffic Officers are highly trained in many aspects of traffic management including closing lanes, if required, to allow drivers to deal with offside wheel changes.

The guidance given to Traffic Officers is comprehensive, and covers the provision of personal safety advice to drivers, including leaving the vehicle and standing in a safe place, not attempting even simple repairs and not standing between the vehicle and other traffic. Where the motorist is a member of a recovery organisation, the Traffic Officer will make contact with that organisation to arrange for them to come and change the wheel. If the motorist is not in a recovery organisation, Traffic Officers will call one out, and the motorist will be charged for the service.

For large goods vehicles and passenger carrying vehicles, the guidance covers the need to consider closing a lane. Traffic Officers are trained in implementing lane closures, and under the Traffic Management Act they have the power to direct traffic accordingly.

The Agency has issued no advice to the police on this matter.

Andrew Mackinlay: To ask the Secretary of State for Transport how many fatalities have occurred due to motorists having stopped on motorway hard shoulders *(a)* through breakdown and *(b)* for other reasons in each of the last five years; and if he will make a statement. [27644]

Dr. Ladyman: The information available about accidents on the hard shoulder is based on data from STATS19 Accident Reporting. The data in STATS19 does not have the necessary information to enable the statistics on the two requested categories to be identified.

The information that is available covers the number of motorists killed, either in or from vehicles stopped on the hard shoulder or in vehicles travelling along, entering, and leaving a motorway hard shoulder. This information is provided in section 1 of the following table.

The total number of motorists killed, including those in the main carriageway, as a result of any accidents involving vehicles on hard shoulders of motorways, is provided in the table, section 2.

Number of fatal casualties on motorways (M and A(M)), 2000 to 2004 on the Highways Agency 2006 Trunk Road Network

	Classification	*Date*	*Casualty injury (fatal)*
Section 1	Fatal casualties associated with HS accidents—vehicles on, entering or leaving the hard shoulder (also pedestrians who were hit by such a vehicle)	2000	4
		2001	4
		2002	13
		2003	5
		2004	1
Section 2	All fatal casualties involved in HS accidents	2000	166
		2001	176
		2002	194
		2003	196
		2004	147

TRL (2005).

National Port Traffic

Mr. George Howarth: To ask the Secretary of State for Transport how many 20ft equivalent units (TEUs) were *(a)* imported and *(b)* exported through the UK's 10 busiest ports in 2004–05; what percentage of each travelled to and from these ports by (i) rail and (ii) road; what the average distance of each TEU from the point of import to the TEU's final destination was; and what percentage of total TEU traffic through the UK's 10 busiest ports consisted of transshipment in 2004–05. [28083]

Dr. Ladyman: Estimates of container imports and exports through the UK's busiest ports in 2004, in terms of TEUs, are given in the following table.

Container traffic at UK ports 2004 (thousand TEUs)

	Imports	*Exports*
Felixstowe	1,338	1,300
Southampton	735	701
London	525	452
Medway	315	316
Liverpool	254	292
Hull	166	143
Belfast	70	72
Forth	99	100
Immingham	70	63
Tees and Hartlepool	59	70

The information given includes container transhipments. Transhipped container traffic, however, is not separately identified in the returns made by shipping lines and ports to the Department, and separate estimates are not available. Information about the percentage share of container traffic travelling to and from ports by rail and road is not available.

The average distances travelled by containers by road, from the port to the final destination, are given in the following table.

Estimated average distance travelled by container by road from port to final destination, 2004

Port	*Kilometres*
Felixstowe	190
Southampton	160
London	110
Medway	170
Liverpool	100
Hull	130
Belfast[1]	90
Forth[1]	60
Grimsby and Immingham	150
Tees and Hartlepool[1]	200

[1] Estimates based on a sample of less than 50 journeys.

Comparable information is not available for rail.

Railways

Gregory Barker: To ask the Secretary of State for Transport when he plans to announce his decision on the proposed train service changes along the Hastings to London Victoria line. [28216]

Derek Twigg *[holding answer 14 November 2005]:* An announcement on the draft Brighton Main Line Route Utilisation Strategy will be made in due course.

Miss McIntosh: To ask the Secretary of State for Transport when he expects to announce a new strategic north-south rail link. [25431]

Derek Twigg: The Government have asked Sir Rod Eddington to look at, among other things, the feasibility of a new north-south high-speed link. He will report to the Secretary of State in 2006.

Mr. George Howarth: To ask the Secretary of State for Transport what assessment has been made of the impact of increasing penalty fares on the railways to 20 earlier this year. [28241]

Derek Twigg: Revenue protection is the responsibility of each train operator. The increase in penalty fare has restored and slightly increased the real value of the penalty, which had remained unchanged at £10 since 1989. We expect this increase to help train operators reduce the amount of ticketless travel on their networks.

Regional Transport Funding

Tom Brake: To ask the Secretary of State for Transport how much funding has been allocated for regional transport funding by each regional government office in each year since 1997–98; and how much is planned to be spent in each of the next three years, broken down by region. [28240]

Ms Buck: I refer the hon. Member to the answer I have given him today (UIN 27568).

Road Gritting

Martin Horwood: To ask the Secretary of State for Transport what was the average number of days on which road gritting took place on motorways and trunk roads in each year since 2000. [29080]

Dr. Ladyman: The information is not available in the form requested for each year since 2000. However, with the introduction of a new monitoring system for the last winter season (2004–05), we are able to establish that road gritting took place on 58 days on average across the motorway and trunk road network. This is an average figure and there will be variations across the country.

Safest Vehicles

Mr. Geoffrey Robinson: To ask the Secretary of State for Transport which *(a)* vehicle and *(b)* vehicle type has had the lowest (i) death and (ii) injury rates among drivers and passengers in the UK since 1985. [27970]

Dr. Ladyman: For drivers, the lowest fatality rate by vehicle kilometres between 1985 and 2004 in Great Britain was among Bus and Coach drivers, with a rate of 0.03 per 100 million vehicle kilometres. The lowest equivalent injury (casualties killed or seriously injured) rates were among drivers of goods vehicles, with rates of 11.66 and 11.70 for Light and Heavy Goods vehicles respectively.

For all vehicle occupants (including drivers), the lowest fatality rate by vehicle kilometres between 1985 and 2004 in Great Britain was among Light Goods

Vehicle occupants, with a rate of 0.20 per 100 million vehicle kilometres. The lowest equivalent injury rate was among occupants of Heavy Goods Vehicles, with a rate of 13.88. These rates do not take into account the different vehicle occupancy rates of different vehicles.

Comparable figures for Northern Ireland are not available.

Information on casualty rates by vehicle type is not available.

School Crossing Patrols

Nick Herbert: To ask the Secretary of State for Transport how many school crossing patrols there were in West Sussex in *(a)* 1997 and *(b)* at the latest date for which figures are available. [29543]

Dr. Ladyman: This information is not held centrally.

Speed Cameras

Robert Key: To ask the Secretary of State for Transport what was the revenue from fines resulting from speed camera convictions in Wiltshire in the latest year for which figures are available; and what sums were passed to *(a)* the Treasury and *(b)* the Wiltshire Speed Camera Partnership. [28432]

Dr. Ladyman: The latest published information, as shown on the Department's website—www.dft.gov.uk—is shown on the audit certificates for financial year 2003–04. For the Wiltshire Safety Camera Partnership area, revenue collected from fixed penalty fines for speeding and/or red light offences was £2,380,800. The Wiltshire Partnership reclaimed £1,259,124 to cover their allowable costs and the balance of £1,121,676 accrued to the Treasury.

Mr. Jenkins: To ask the Secretary of State for Transport what the revenue from fines resulting from speed camera convictions in Staffordshire was in the last year for which figures are available; and what sums were passed to *(a)* the Treasury and *(b)* the Staffordshire Safety Camera Partnership as a result. [29371]

Dr. Ladyman: The latest published information, as shown on the Department's website—www.dft.gov.uk—is shown on the audit certificates for financial year 2003–04. For the Staffordshire Safety Camera Partnership area, revenue collected from fixed penalty fines for speeding and/or red light offences was £2,436,240. The Staffordshire Partnership reclaimed £1,950,862 to cover their allowable costs and the balance of £485,378 accrued to the Treasury.

Taxicard Schemes

Mrs. Iris Robinson: To ask the Secretary of State for Transport how many taxicard schemes operate in England; and how much central funding was allocated to such schemes for 2005–06. [28143]

Ms Buck: The provision and funding of taxicard schemes is a matter for local authorities. We do not hold information centrally about such schemes.

Taxis

Mr. Geoffrey Robinson: To ask the Secretary of State for Transport how many *(a)* drivers and *(b)* passengers have been killed or injured in (i) purpose-built and (ii) converted van type taxis since 1985. [27967]

Dr. Ladyman: The information requested is not available.

Traffic Calming Measures

Tom Brake: To ask the Secretary of State for Transport what research he has commissioned on the impact on local residents' journey times of traffic calming measures to eliminate rat-runs, with particular reference to road closures. [26766]

Ms Buck: As part of the Urban Safety Project, the Department for Transport commissioned research into the impact of area wide traffic calming schemes, some of which involved partial or total road closures; this included research into the effect on journey times. The results of this research are reported in TRRL Research Report 263 "Urban Safety Project: 3. Overall evaluation of area wide schemes", published in 1990. This report concluded that, in general, increased delays had not been a major penalty in the schemes.

Decisions regarding the implementation of traffic calming measures are for local highway authorities, in consultation with local communities. Deliberations will usually involve a wide range of safety, environment, and traffic management considerations.

Train Operating Companies

Mr. George Howarth: To ask the Secretary of State for Transport whether franchisees are supervised by the Office of Rail Regulation in relation to the number of carriages provided on peak time services. [28079]

Derek Twigg: Capacity on franchised passenger services is determined by the terms of the contract between the franchising authority and the train operator.

US Civil Aircraft

Sir Menzies Campbell: To ask the Secretary of State for Transport what records are maintained of US civil registered aircraft landing at UK airports. [28814]

Ms Buck: I refer the right hon. and learned Member to the answer I have given to him today (UIN 28400).

Sir Menzies Campbell: To ask the Secretary of State for Transport what records are maintained of US civil registered planes landing at UK *(a)* public airports and *(b)* military airfields. [28400]

Ms Buck: The Department for Transport maintains records of permits granted to US airlines engaged in civil commercial traffic at United Kingdom airports, where passengers or cargo are taken on board or discharged. Airports maintain records of aircraft movements for a variety of purposes such as charging, administering noise quotas or movements at night.

TREASURY

Civil Service Jobs

Andrew Rosindell: To ask the Chancellor of the Exchequer pursuant to the answer of 1 November 2005, *Official Report*, column 981W, on civil service jobs, if he will break down the reduced civil service posts by *(a)* job title and *(b)* grade. [29006]

Mr. Des Browne: This information is not held centrally. Details of these reductions are a matter for individual departments.

Council Tax

Keith Vaz: To ask the Chancellor of the Exchequer what the estimated change in an average annual council tax bill is for the next taxation year. [26543]

Mr. Woolas: I have been asked to reply.

The level of council tax in the coming financial year will depend on local authorities' spending decisions. The Government are committed to ensuring that local authorities can continue to improve services without imposing excessive increases in council tax. We will shortly be announcing the provisional local government finance settlement which will cover 2006–07 and 2007–08.

Excess Winter Deaths

Mr. Evans: To ask the Chancellor of the Exchequer how many excess winter deaths of people aged over 65 years there have been in *(a)* Ribble Valley, *(b)* Lancashire and *(c)* England in each year since 1997; and if he will make a statement. [29041]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell to Mr. Nigel Evans, dated 16 November 2005:

As National Statistician, I have been asked to reply to your recent question asking how many excess winter deaths of people aged over 65 years there have been in *(a)* Ribble Valley, *(b)* Lancashire and *(c)* England in each year since 1997. (29041)

Available figures on excess winter deaths (the excess number of deaths each winter compared to the average during other months of the year) for Ribble Valley local authority, Lancashire and England are included in the table below.

The latest available figures for England are for 2004–2005. These figures for 2004–2005 are provisional and are not available for areas smaller than Government Office Regions.

Excess winter deaths[1] (EWD) for persons aged 65 years and over for Ribble Valley local authority, Lancashire,[2] and England, 1997–98 to 2004–05

	England		Lancashire		Ribble Valley	
	EWD[1]	EWD Index[3]	EWD[1]	EWD Index[3]	EWD[1]	EWD Index[3]
1997–98	20,070	14.9	440	12.6	60	38.8
1998–99	41,110	31.3	940	27.9	80	51.5
1999–2000	42,080	32.6	1,030	31.4	80	51.3
2000–01	21,650	16.7	600	18.5	50	31.5
2001–02	24,100	18.6	670	20.3	30	22.0
2002–03	20,890	16.0	260	7.5	0	1.0
2003–04	20,420	15.6	540	16.4	60	38.8
2004–05[4]	27,000	21.4	—	—	—	—

[1] Excess winter deaths are defined by the Office for National Statistics as the difference between the number of deaths during the four winter months (December to March) and the average number of deaths during the preceding four months (August to November) and the following four months (April to July). Figures for 1997–98 to 2003–04 are rounded to the nearest 10.

[2] The figures provided relate to the current county of Lancashire. This excludes the unitary authorities of Blackburn and Darwen, and Blackpool, created in 1998, which were part of the former county.

[3] The excess winter deaths index is calculated as the excess number of winter deaths divided by the average number of non-winter deaths, expressed as a percentage.

[4] Figures for 2004–05 are provisional and are rounded to the nearest 100.

International Companies

Mr. Spring: To ask the Chancellor of the Exchequer what his Department's revenue receipts from international companies operating in the UK have been in each year since 1997; and what estimate he has made of the receipts from that source in each of the next three financial years. [27052]

Dawn Primarolo: The information requested is not available. The only figures available are from a recent ad hoc exercise that indicated that large foreign owned companies paid about £7 billion of UK corporation tax in their 2004 accounts—around a fifth of total liabilities of all companies.

Local Government

Keith Vaz: To ask the Chancellor of the Exchequer what plans the Government have to increase local government finances. [26542]

Mr. Woolas: I have been asked to reply.

The Spending Review 2004 settlement provides for continued investment in local authority services. This builds on the significant additional funding which we have been able to provide to councils since taking office—Government grant has increased by 33 per cent. in real terms since 1997. The Office of the Deputy Prime Minister will shortly be announcing the provisional local government finance settlement, which will cover 2006–07 and 2007–08.

Public Service Pensions

Mr. Willetts: To ask the Chancellor of the Exchequer (1) pursuant to Table 5.1 of the HM Treasury report of December 2004 long-term public finance report: an analysis of fiscal sustainability; what the projected cost of public service pensions for each decade is expected to be, based on the framework agreement announced on 18 October; [24875]

(2) if he will break down savings on public services pensions announced on 18 October 2005 by the periods *(a)* 2003–04, *(b)* 2013–14, *(c)* 2023–24, *(d)* 2033–34, *(e)* 2043–44 and *(f)* 2053–54; and how much of the savings he expects to arise from (i) future and (ii) current employees. [24876]

Mr. Des Browne: The pattern of projected future cash flows at 10-yearly intervals over the next 50 years and the allocation of savings between current and future employees will depend on the outcomes of scheme specific negotiations and it would be premature to say what they will be.

Tax Credits

Mr. Frank Field: To ask the Chancellor of the Exchequer whether the tax credits MPs' hotline is able to make outgoing calls on request to contact constituents of hon. Members who are suffering problems with their tax credits. [22002]

Dawn Primarolo: The MPs' hotline to the Tax Credit Office is a discrete service designed to give hon. Members a direct and accessible link into the Department to discuss matters relating to their constituents' tax credits claims.

Although the hotline has in exceptional cases been able to contact claimants directly, the service is not set up to work in this way. Doing so would divert resources from other areas, degrading the service available to MPs and other claimants.

Individual claimants should call the tax credits helpline to discuss any concerns or queries they may have. Callers can ring the tax credits helpline seven days a week any time between 8 am and 8 pm, 362 days a year.

VAT (Care Services)

Andrew Stunell: To ask the Chancellor of the Exchequer (1) if he will make it his policy to exempt people with a disability from VAT charges on social care services they receive from private or not-for-profit organisations; and if he will make a statement; [28497]

(2) what recent representations he has received on zero-rating VAT charges on social care delivered by the private and not-for-profit sector; and if he will make a statement. [28499]

Dawn Primarolo: Welfare services for people with disabilities are already exempt from VAT when provided by local authorities, charities and state-regulated private welfare institutions and agencies. For the purposes of the exemption 'welfare services' includes all types of personal care, and also support and assistance with routine domestic tasks where the recipient of the service cannot perform the task safely or adequately, or without significant pain or discomfort.

This reflects the widest exemption available under our agreements with our European partners.

I am not aware of any representations having been received by the Treasury about VAT zero-rating of social care in the past year.

Under our agreements with our European partners, we are not able to extend our existing VAT zero rates or introduce any new ones.

DEFENCE

Armed Forces Personnel (Kettering)

Mr. Hollobone: To ask the Secretary of State for Defence pursuant to the answer of 7 November 2005, *Official Report*, column 103W, on Territorial Army (Kettering), what the locations are of the units listed. [29082]

Mr. Touhig: The locations of Territorial Army units within a 35 mile radius of Kettering Town, can be found in the following table:

Unit	*Location*
118 Recovery Company Detachment, 104 Battalion, Royal Electrical and Mechanical Engineers	Corby
203 Squadron Detachment, 158 Transport Regiment Royal Logistics Corps	Melton Mowbray
C (222) Medical Squadron, 4 General Supply Medical Regiment	Leicester
B Squadron, Royal Yeomanry, 118 Recovery Company Detachment, 104 Battalion, Royal Electrical and Mechanical Engineers	Leicester
C Company, East of England Regiment 46 Signals Squadron Detachment, 38 Signals Regiment	Leicester
118 Recovery Company, 104 Battalion Royal Electrical and Mechanical Engineers C Company Detachment, East of England Regiment	Northampton
Headquarters' Sqn, 158 Transport Regimental Headquarters' and Regiment, Royal Logistics Corps Royal Anglian Band	Peterborough
89 Signals Sqn, 35 Signals Regiment	Rugby
201 Transport Squadron, 158 Transport Regiment, Royal Logistics Corps 54 Signals Squadron Detachment, 36 Signals Regiment	Bedford
E (Royal Green Jackets) Company, Royal Rifle Volunteers	Milton Keynes

Deepcut Review

Mrs. Humble: To ask the Secretary of State for Defence on what date he published Joint Service Publication 751; if he will make this document available to Nicholas Blake QC for use in the Deepcut Review; and if he will place a copy in the Library. [26307]

Mr. Touhig: The Joint Casualty and Compassionate Policy and Procedures (JSP 751) was published in March 2005. A copy will be made available to Nicholas Blake QC should he request one. Copies of Joint Service Publication 751 will be placed in the Library of the House.

Departmental Spending

David T.C. Davies: To ask the Secretary of State for Defence pursuant to the answer of 3 November 2005, *Official Report*, column 1260W, on departmental spending, if he will itemise the works of art bought in 2004–05; and what the cost of each was. [28654]

Mr. Touhig: The works of art purchased during 2004–05 were a set of four paintings by Zil Hoque—"Nimbus I, II, III, IV"—the set having a cost of £160,000, excluding VAT, and a set of four paintings by Louise Cattrell—"Eyrie, Aerial, Tempest and Keep"—this set having a cost of £72,000, excluding VAT.

Drug Misuse (Armed Forces)

Dr. Julian Lewis: To ask the Secretary of State for Defence what information his Department collects on the use of illegal recreational drugs by service personnel; and how many disciplinary cases arising from drug misuse there were in each of the armed forces in each of the past five years. [26872]

Mr. Touhig *[holding answer 14 November 2005]:* Each of the Services maintains records of all disciplinary proceedings, including those where the charges involved are related to illegal use of recreational drugs.

The numbers of convictions in disciplinary cases over the past five years[1], in which drug misuse was a factor involved, are as follows:

[1] *By calendar year.*

	2000	*2001*	*2002*	*2003*	*2004*
Royal Navy					
Summary dealings	4	16	3	8	5
Courts martial	1	7	6	1	2
Army					
Summary dealings	n/a	29	25	21	38
Courts martial	11	17	11	10	8
Royal Air Force					
Summary dealings	4	0	2	4	1
Courts martial	3	3	6	7	3

n/a = Not available.

Defence Transport and Movements Agency

Mr. Ancram: To ask the Secretary of State for Defence pursuant to the Defence Transport and Movements Agency (DTMA) annual report and accounts 2004–05, if he will make a statement on the DTMA's *(a)* in-year management control, *(b)* financial data and *(c)* short-term planning. [24599]

Mr. Ingram: The audit of the accounts by the National Audit Office has provided the assurance that the necessary controls are in place to ensure effective in-year management.

The Defence Transport and Movements Agency, along with other parts of the Ministry of Defence, is due shortly to receive a new forecasting and budgeting computer software package which is expected to improve the flow of financial data.

The short-term planning process challenges all areas of the MOD to produce robust and affordable forward expenditure plans. DTMA, like all parts of the Department has a continued responsibility to respond to requests for savings measures. A clearer picture is, however, now emerging on how the centrally imposed savings wedges referred to in the DTMA annual report and accounts might be absorbed within individual projects.

Incremental Companies (Army)

Mr. Donaldson: To ask the Secretary of State for Defence how many incremental companies there are in the British Army; and to which units each Incremental Company is attached. [28981]

Mr. Ingram *[holding answer 15 November 2005]:* There are three Incremental Companies in the British Army: Nijmegen Company, The Grenadier Guards; 7 Company, The Coldstream Guards; and F Company, The Scots Guards.

Iraq

Mr. Arbuthnot: To ask the Secretary of State for Defence (1) whether British Army commanders serving in Basra recently asked for extra troops; and if he will make a statement; [22607]

(2) whether Lieutenant Colonel Henderson, commanding officer of the 1st Battalion Coldstream Guards in Basra, requested that Warrior armoured personnel carriers be made available; and if he will make a statement. [22606]

Mr. Ingram *[holding answer 28 October 2005]:* British Army Commanders in Iraq recently requested that an element of the Theatre Reserve Battalion be deployed to Multi National Division (South East) and to this end, as I announced on 10 October to the House, an extra Company from the 1st Battalion The Royal Highland Fusiliers, based in Cyprus, would deploy for a few weeks to assist in the rotation of 12 Mechanised and seven armoured brigades.

I am not aware of a specific request from Lieutenant Colonel Henderson, commanding officer of the 1st Battalion Coldstream Guards, that Warrior Armoured

personnel carriers be made available, but requests of this nature would in the first instance be discussed within the chain of command in theatre. However, the General Officer Commanding Multi National Division (South East) recently asked to retain a number of Warriors from 12 Mechanised Brigade. These have been made available to seven armoured brigade.

Munitions

Andrew Rosindell: To ask the Secretary of State for Defence how many armed forces *(a)* guns and *(b)* other weapons have been recorded as (i) lost, (ii) stolen and (iii) missing in each year since 1997. [27613]

Mr. Touhig: The information requested is shown in the table:

	Pistol	*Mil rifle*	*SMG*[1]	*LMG*[2]*/GPMG*[3]	*Mortars*	*Antique/Other*	*Shot gun*	*Baton gun*	*Tgt rifle*	*Total*
Lost weapons										
1997	1	1	0	0	0	0	20	0	0	22
1998	0	0	0	0	0	0	0	0	0	0
1999	2	0	1	0	0	0	0	0	0	3
2000	0	1	0	0	0	2	0	0	0	3
2001	3	0	2	0	0	0	0	0	0	5
2002	3	4	4	0	0	0	0	0	0	11
2003	3	1	0	0	0	0	0	1	0	5
2004	3	3	0	0	0	0	0	0	0	6
2005	1	1	0	0	0	0	0	0	0	2
Total	16	11	7	0	0	2	20	1	0	57
Stolen weapons										
1997	1	7	0	0	0	0	0	0	0	8
1998	3	12	0	0	0	0	0	0	0	15
1999	0	9	0	0	1	1	1	0	0	12
2000	21	2	0	0	0	10	7	0	2	42
2001	3	3	0	0	0	0	0	0	0	6
2002	2	0	0	0	0	0	0	0	2	4
2003	6	0	0	0	0	11	0	0	2	19
2004	3	11	0	0	0	4	0	0	0	18
2005	5	4	0	0	0	1	0	0	5	15
Total	44	48	0	0	1	27	8	0	11	139

[1] SMG—Sub-Machine Gun
[2] LMG—Light Machine Gun
[3] GPMG—General Purpose Machine Gun

No data is collated on 'missing' weapons. Instances of missing weapons are investigated promptly and then categorised as either 'lost' or 'stolen'.

Nuclear Waste (Storage)

Norman Baker: To ask the Secretary of State for Defence what the total volume of nuclear waste produced and requiring storage by *(a)* his Department and *(b)* military installations was in each year since 1990, broken down by category of waste; whether the waste is in (i) temporary and (ii) permanent storage; and if he will make a statement. [27661]

Mr. Ingram: No central records are held on volumes of nuclear waste produced and requiring storage for each year since 1990. However, I refer the hon. Member to the United Kingdom Radioactive Waste Inventory[1] to which the Ministry of Defence contributes, and which provides periodic snapshots on radioactive waste stocks, including categories of waste, location and whether the waste is held in temporary or permanent storage. The inventory has previously been published in 1991,1994 and 1998, and a copy of the most recent inventory, for 2001, is available in the Library of the House. A new inventory, for 2004, is in preparation and is due to be published shortly. A copy will be placed in the Library.

[1] The United Kingdom Radioactive Waste Inventory is published at three or four yearly intervals by DEFRA and NIREX. The reports provide comprehensive and up-to-date information on waste as at 1 April of the title year. The Inventory includes information on the quantities, types and characteristics of waste.

INTERNATIONAL DEVELOPMENT

Asian Earthquake

Huw Irranca-Davies: To ask the Secretary of State for International Development what proportion of Government funding pledged for the Asia earthquake will be spent on education initiatives. [22065]

Mr. Thomas: There are no specific allocations earmarked for education within the £33 million committed to the relief effort. At present the priorities are to ensure that immediate relief needs such as shelter, water and sanitation and health are met.

The earthquake has caused extensive destruction to physical infrastructure. According to the World Bank and the Asia Development Bank Needs Assessment, most educational institution buildings have either been destroyed or rendered dangerous in the affected area. According to current estimates, 853 teachers and 18,095 students have died. As well as the terrible human cost, the financial cost of rebuilding the infrastructure is estimated to be US$335 million.

DFID will make a significant contribution towards the $5.2 billion estimated by the World Bank and the Asia Development Bank for reconstruction and the return of livelihoods to affected areas. An announcement will be made before the international donor conference in Islamabad on Saturday 19 November.

Mr. Hands: To ask the Secretary of State for International Development what the total amount of aid given to *(a)* the Pakistan Government and *(b)* aid agencies has been following the earthquake of 8 October; and if he will make a statement. [27011]

Mr. Thomas: According to the UN Office for the Co-ordination of Humanitarian Affairs (OCHA), a total of US$1.44 billion (£828 million) has been pledged by the international community towards relief and reconstruction efforts following the earthquake on 8 October. Of these pledges, US$376 million (£216 million) has been committed. At this stage, it is not possible to accurately disaggregate the total aid allocations through each funding channel.

The UK has so far pledged £33 million of which £29.6 million has already been committed through UN agencies, international and national non-governmental organisations (NGOs), the Red Cross movement and through direct actions including support to the NATO airbridge and UK helicopter deployment in Pakistan.

The following table presents a breakdown of UK Government spending as of 14 November. Further detail can be found in the regular situation reports available on the DFID website: www.dfid.gov.uk.

UK spending as of 14 November

	£
NGOs	5,394,171
UN (including direct to UN agencies)	7,438,250
Red Cross/ Red Crescent	3,578,250
MOD (pledged)	3,000,000
DEC Airlift	3,294,962
NATO (pledged)	4,000,000
ECHO	1,600,000
DFID Pakistan (to be programmed)	1,000,000
Search and Rescue/DFID assessment teams	347,465
Total	29,693,098

Call Centres

Mr. Laws: To ask the Secretary of State for International Development how many call centres were run by his Department and its agencies in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; and how many and what proportion of calls (i) were handled by an adviser, (ii) were received but abandoned and (iii) received an engaged tone. [23299]

Mr. Thomas: DFID has not operated any call centres in the years specified. While we do not have any calls centres, we do operate a Public Enquiry Point which answers telephone, email and letter inquiries. For the years specified, it has handled the following number of inquiries:

	Number of inquiries	*Of which: were calls*
2003	18,976	6,807
2004	18,820	6,784
2005 (as at 14 November)	20,902	7,113

Commission for Africa

Miss McIntosh: To ask the Secretary of State for International Development how many times the Commission for Africa has met this year. [27554]

Hilary Benn: The Commission for Africa was established in February 2004 and finished its work at the end of July 2005. There were three full meetings of the commissioners in May 2004, October 2004 and February 2005.

Miss McIntosh: To ask the Secretary of State for International Development how many countries are members of the Commission for Africa. [27555]

Hilary Benn: The Commission for Africa was established in February 2004. It was made up of 17 commissioners, nine from Africa, all working in an independent capacity. The Commission for Africa report, 'Our Common Interest' reflects an extensive consultation programme, which included participation from 49 African countries.

Departmental Budgetary Support

Mark Simmonds: To ask the Secretary of State for International Development which countries have been provided with direct budgetary support by his Department; and what the allocation for each country through direct budgetary support has been in each year since 1999. [19254]

Hilary Benn: The countries listed are those that have received Poverty Reduction Budget Support (PRBS) from DFID over the last five years. Amounts shown include general PRBS (i.e. a general contribution to the overall budget) and sector PRBS (i.e. support with a more restricted focus). We do not have centrally collated figures for PRBS payments made prior to this period; to obtain this information for 1999–2000 would incur a disproportionate cost.

Poverty reduction budget support

Guatemala

Mark Simmonds: To ask the Secretary of State for International Development if he will make a statement on the humanitarian assistance provided to Guatemala after hurricane Stan. [28411]

Mr. Thomas: Following the impact of hurricane Stan on Guatemala, DFID is providing support through the non-governmental organisations CARE and Plan International. £172,000 has been provided for their humanitarian response to the disaster. The support, covering a period of three months, includes emergency food, plastic sheeting, other non-food items, water and water treatment.

In addition, the European Community's humanitarian office provided €4 million for Guatemala. This aid is to help meet the most urgent needs of 30,000 affected families in terms of water and sanitation, food security, health, emergency shelter, non food items and information management. The United Kingdom share of this European Commission support is approximately £485,000.

India (Floods)

Andrew Rosindell: To ask the Secretary of State for International Development what aid the Government have allocated to relief for the flooded Mumbai province in India. [25867]

Mr. Thomas: DFID is providing £2 million to the United Nations children's fund, UNICEF, for immediate relief purposes and for the restoration of public services, following flooding due to excess monsoon rains that occurred in many parts of India in July 2005. Approximately 37 per cent. (£740,000) is directed to the State of Maharashtra, of which Mumbai is the capital. A substantial proportion of this is directed to Mumbai municipality and the remainder to districts of the state which were severely flood affected.

DFID funding has been used to provide immediate relief for flood victims, including blankets, oral re-hydration salts and appropriate medicines to combat diarrhoeal diseases resulting from contamination of water supplies, and provision of safe water and sanitary

facilities and surveillance systems to reduce disease outbreaks. Provision has also been made for post disaster recovery in the slightly longer term (up to six months), including restoration of mother and child health centres, development of water supply and sanitation facilities, including in schools, and strengthening of health services.

It is worth noting that the Government of India has a well developed capacity for responding to natural disasters and rarely requests outside assistance. The request to assist with flood relief in Maharashtra and elsewhere came from UNICEF and we received timely approval from the Indian Government to proceed.

South Asian Tsunami

Andrew George: To ask the Secretary of State for International Development how much funding each of the G8 nations has *(a)* pledged, *(b)* committed and *(c)* spent on the relief effort in countries affected by the Indian Ocean tsunami. [24237]

Mr. Thomas: The UK does not keep a record of how much funding other G8 nations have pledged, committed and spent on relief efforts following the Indian Tsunami. However, the Governments of Indonesia, the Maldives, Sri Lanka and Thailand, in co-operation with the United Nations Development Programme, are each developing a 'Development Assistance Database' (DAD) to register tsunami recovery resources and results. It is intended that once fully operational, all of these systems will be accessible online.

The UK has allocated £75 million for the immediate humanitarian relief effort following the tsunami. A total of £68.7 million of this has been committed, while the remainder has been set aside for disaster risk reduction projects.

DFID has allocated £65 million to meet reconstruction needs in the tsunami affected countries. From this allocation, £31 million has been committed to the Multi Donor Trust Fund in Indonesia, of which £6 million has so far been paid out. A further £5 million has been committed for technical assistance in Indonesia to help ensure timely, accountable and equitable provision of reconstruction assistance and rebuilding of livelihoods. A total of £2 million has been committed to Sri Lanka to help speed up implementation of reconstruction programmes and to ensure equitable distribution of assistance, and £1.5 million of this has been allocated to the North East Provincial Council to increase their capacity to deliver services to affected communities. A total of £3 million has been committed to India to provide technical assistance aimed at ensuring effective, transparent and equitable programming of tsunami reconstruction efforts. The use of the balance will depend on evidence of where this funding can be most appropriately used.

Mark Simmonds: To ask the Secretary of State for International Development what proportion of post-tsunami British aid to the Sri Lankan Government has been spent; and if he will make a statement. [28415]

Mr. Thomas: DFID disbursed around £4.2 million for programmes specifically to meet relief needs in Sri Lanka. This was channelled through the United Nations and non-governmental organisations such as OXFAM, Save the Children Fund, the Red Cross and CARE. Sri Lanka also benefited from some of the £41.5 million DFID disbursed for regional activities.

A further £800,000 has been provided to finance technical expertise to assist in the identification and assessment of recovery needs, and to support implementation.

In addition, DFID will be providing £1.5 million to strengthen the capacity of the North East Provincial Council to plan and deliver services and assistance in the North East of Sri Lanka, which accounts for 70 per cent. of the area damaged by the tsunamis. We anticipate releasing the first £500,000 shortly. We are considering proposals for a further £500,000 of new support, which will be disbursed over the next year.

For the next 10 years, we will also be providing £41 million of Debt Relief, which will meet 10 per cent. of the cost of Sri Lanka's loan repayments to the International Development Association, the concessional lending arm of the World Bank. This will release Sri Lanka's own funds for tsunami recovery and poverty alleviation programmes. We expect to make the first payment of approximately £3.2 million in December.

Tibet

Mr. Hancock: To ask the Secretary of State for International Development what assessment he has made of the effects of the building of the Gormo-Lhasa railway on the culture of Tibet. [24201]

Mr. Thomas: DFID is not involved in this project, either directly or through its shareholding in the multilateral banks such as the World Bank, the Asian Development Bank, and European Bank for Reconstruction and Development. These institutions along with the European Commission have confirmed that they are not involved in the project, nor have they, or DFID made any separate assessment of its impact.

Trade Justice

Mrs. Moon: To ask the Secretary of State for International Development if he will take steps to move the focus of international development from free trade to trade justice. [27338]

Mr. Thomas: The UK Government are committed to the development of an open and rules-based international trading system that fulfils its potential to contribute to the reduction of poverty in poorer countries. Our key policy commitments on trade and development, as well as our objectives for the current Round of multilateral trade talks, are set out in the Government's White Papers, "Making Globalisation a Force for Good" (July 2004) and "Eliminating World Poverty: Making Globalisation Work for the Poor" (December 2000). The UK Government are working hard to support the poorest and most vulnerable producers, be it through multilateral negotiations in the World Trade Organisation (WTO) or regional trade agreements such as the Economic Partnership Agreements.

The UK Government do not support forced liberalisation or unfettered free trade. The UK Government fully supports the view that developing countries should be allowed to develop their own trade policies. At the G8 summit this principle was endorsed by others who agreed that within the WTO negotiations

> "flexibility will help least developed countries to decide, plan and sequence their overall economic reforms in line with their country led development programmes and international obligations."

In the long-term the removal of trade barriers, if managed properly, can help developing countries can gain better access to developed country markets and more competitively priced inputs. However, the agenda is broad. We must not only reduce barriers to trade such as subsidies and import tariffs but also invest in developing countries capacities to trade. To do this we are providing additional development assistance to poor countries to help them undertake this investment and give them the time and space to adjust to trade reforms.

The G8 also agreed to provide increased funds for trade related capacity building to assist developing countries take advantage of the new opportunities from a positive conclusion to the Round. There is increased international support for increased 'Aid for Trade' as reflected at the recent World Bank and International Monetary Fund (IMF) meetings and the G8 summit in Gleneagles. It is important that we build rapidly on the outcome of these meetings.

We now have less than five weeks to go before Hong Kong and are working with international partners to deliver on the ambition of Doha and build on G8 commitments. The UK Government are working to achieve an outcome that delivers real gains for developing countries, including the poorest. These gains should include improved participation by developing countries in the world trading system, through substantially increased market access for developing countries and the dismantling of trade-distorting agricultural subsidies by industrialised countries.

Water and Sanitation (Funding)

Emily Thornberry: To ask the Secretary of State for International Development what steps he is taking to increase the resources allocated to water and sanitation by the infrastructure plans of the Africa Partnership Forum. [25761]

Hilary Benn: The main role of the Africa Partners Forum relating to water and sanitation will be to monitor progress against commitments made at the G8 summit in Gleneagles. These included commitments to: implement the G8 water action plan agreed at Evian in partnership with the African Development Bank (AfDB) initiative on rural water and sanitation, to increase aid for water and sanitation, and maintain political momentum and commitment in these areas.

As one response to these commitments, we have played a leading role in establishing the infrastructure consortium, which aims to accelerate progress towards meeting urgent infrastructure needs in Africa. It will address both national and regional constraints to infrastructure development and encourage better co-ordination and collaboration in key infrastructure sectors. The consortium is not a financing agency, but will act as a platform to broker more donor financing of infrastructure projects and programmes in Africa.

CULTURE, MEDIA AND SPORT

2012 Olympics

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport if she will meet the Scottish Executive to discuss putting a case to the International Olympic Committee for a separate Scottish team for the 2012 Olympics. [27333]

Mr. Caborn: As I said in my previous answer to the hon. Member on 3 November 2005, *Official Report*, column 1261, it is highly unlikely that the International Olympic Committee would consider the issue of a separate Scottish Olympic team because of Scotland's constitutional relationship with the rest of UK. I therefore have no plans to take this matter further.

London Development Agency (Tenders)

Mr. Betts: To ask the Secretary of State for Culture, Media and Sport what discussions she has had with the London Development Agency (LDA) about the tendering process for Olympic projects; and if she will ask the LDA to publish the names of companies shortlisted for tenders. [28926]

Mr. Caborn: My officials are in discussion with the Interim Olympic Delivery Authority team, based in the London Development Agency (LDA), in relation to their procurement strategy, the initial draft of which is expected to be ready in December. I will not ask the LDA to publish shortlists in all cases, as on occasion this may hinder open and effective competition. A case-by-case judgment will need to be made.

Lottery Funding

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport how much national lottery funding has been directed towards asylum-seeker groups in each year since 1997. [25890]

Mr. Caborn: Since 1997 lottery distributors have awarded the following amounts in each calendar year to projects relating to asylum seekers. Due to the nature of lottery awards and the way in which information is stored on the Department's lottery awards database, some of this money will have gone to a wider group of people than just those seeking asylum. Similarly other lottery awards will have indirectly benefited asylum seekers.

	Amount (£)
1997	119,352
1998	415,072
1999	548,836

	Amount (£)
2000	1,425,420
2001	5,585,659
2002	7,971,619
2003	6,317,719
2004	8,467,205
2005 (To date)	2,278,837

In total, one fifth of 1 per cent. of all lottery awards have been made to awards described in the table.

This information, derived from the Department's lottery award database, is searchable at www.lottery.culture.gov.uk, which uses information supplied by the lottery distributors.

Olympic Park

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the likely number of visitors to the Olympic Park for the 2012 games. [28739]

Mr. Caborn: London 2012's candidate file includes a table that sets out estimates of average and maximum spectator numbers for all Olympic venues based on modelling work to provide an understanding of demand. Average figures are based on expected ticket sales and maximum figures are based on 87 per cent. of gross venue capacity to ensure adequate spectator transport capacity.

Estimates for the venues within the Olympic Park are as follows:

Venue	Spectators per day		Spectators per session	
	Average	Maximum	Average	Maximum
Olympic Stadium	77,200	139,200	53,400	69,600
Aquatics Centre	33,000	52,200	13,900	17,400
Velodrome	5,200	10,400	4,400	5,200
Olympic Park Arena 1	18,200	31,200	7,600	10,400
Olympic Park Arena 2 (Basketball preliminaries)	21,200	31,200	7,500	10,400
Olympic Park Arena 2 (Modern Pentathlon: shooting, fencing)	3,200	4,400	3,200	4,400
Olympic Park Arena 3	13,700	26,100	5,700	8,700
Olympic Park Arena 4	7,400	10,400	3,700	7,000
Hockey Centre	24,300	39,300	9,500	13,100
BMX Circuit	4,600	5,200	4,600	5,200

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport what proportion of visitors to the 2012 games Olympic Park are expected to use *(a)* private and *(b)* public transport. [28740]

Mr. Caborn: The Olympic transport proposals contained in the candidature file submitted to the International Olympic Committee encourage all spectators to use public transport, to walk, or to cycle, except for those whose mobility is impaired, for whom car parking provision will be made.

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport what land is planned to be used for car parking for the 2012 games Olympic Park. [28741]

Mr. Caborn: While the exact design of the Olympic Park is yet to be finalised, it is envisaged that car parks will be kept to the minimum necessary to provide for those disabled visitors unable to use public transport, and for the vehicles needed to transport the athletes and officials.

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how many car parking spaces will be made available for spectators going to the 2012 games in the Olympic Park. [28742]

Mr. Caborn: The Olympic Transport Proposals—as set out in the Candidature File presented to the International Olympic Committee—encourage all spectators to use public transport, to walk, or to cycle. They therefore make no provision for spectator parking in the Olympic Park, or in the surrounding streets, except for people with impaired mobility.

Sport England

Jon Trickett: To ask the Secretary of State for Culture, Media and Sport how much funding Sport England has allocated to areas of health inequalities in each of the last two financial years; and if she will make a statement. [28516]

Mr. Caborn: I am able to provide data from Sport England on awards (committed in the financial years 2003–04 and 2004–05) to the Spearhead Group of local authority districts that are in the bottom fifth nationally for three or more of the five indicators of health inequality.

Sport England lottery awards to Spearhead local authorities for the two financial years to 31 March 2005

Staff Discipline

David T.C. Davies: To ask the Secretary of State for Culture, Media and Sport how many employees have been dismissed by her Department in each of the last five years for which figures are available. [29123]

Mr. Lammy: The Department dismissed one employee in 2000–01, one employee in 2003–04 and two employees in 2004–05.

WORK AND PENSIONS

Carers Allowance

Joan Walley: To ask the Secretary of State for Work and Pensions if he will reform the policy whereby widows under retirement age, unable to work because of carer's responsibilities and in receipt of a husband's pension, are not eligible for carers' allowance; and if he will make a statement. [20312]

Mrs. McGuire: It is a fundamental principle of the social security system that only one benefit at a time can be paid for income maintenance. Carer's allowance provides a measure of financial support to those who give up the opportunity of full-time paid employment to care for a severely disabled person. As such it is not an "extra-costs" benefit. To pay both benefits in full therefore would duplicate provision for the same need.

Where carer's allowance is overlapped in full, the person maintains an underlying entitlement to the benefit which, in turn, gives them access to the carer premium in the income-related benefits such as income support, housing benefit and council tax benefit.

There are no plans to change this policy.

Child Maintenance

Mr. Laws: To ask the Secretary of State for Work and Pensions what statutory obligations there are on non-resident parents who have been assessed for Child Support Agency maintenance to inform the Agency of any change of *(a)* address and *(b)* employment; and if he will make a statement. [28421]

Mr. Plaskitt: There are no statutory obligations on non-resident parents who have been assessed for child support maintenance to inform the CSA of either change of address or employment.

Council Tax Rebate

Mr. Stephen O'Brien: To ask the Secretary of State for Work and Pensions by what mechanism those not claiming pension credit will be able to claim the £200 council tax rebate. [28756]

Mr. Plaskitt: In most cases the £200 payment to help with council tax bills will be paid automatically with the winter fuel payment. Payments are being made over a number of weeks from early November until Christmas 2005. Eligible people who do not receive a winter fuel payment will need to claim.

People who need to claim or who have not received an automatic payment by Christmas 2005 should call the office that pays their benefit or the winter fuel payment helpline on 08459 15 15 15. Claims must be received by 30 March 2006.

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions if he will make a statement on the aims and purposes of the Child Support Agency. [21432]

Mr. Plaskitt: The Child Support Agency exists to deliver an efficient child support service, which plays its part in ensuring that children whose parents do not live together are financially supported.

Mr. Laws: To ask the Secretary of State for Work and Pensions if he will make a statement on Government plans to reduce the complexity of Child Support Agency maintenance calculations. [21448]

Mr. Plaskitt: The introduction of the new child support scheme in March 2003 brought in a much simpler way of calculating maintenance. We know that many parents now choose to calculate maintenance themselves by using the on-line calculator on the agency's website.

Housing Benefit

Danny Alexander: To ask the Secretary of State for Work and Pensions what steps he has taken in response to the recommendation in the Department for Work and Pensions Research Report No. 243 that all disabled claimants and all care leavers should be made exempt from the single room rent restriction; and if he will make a statement. [28781]

Mr. Plaskitt: We are continuing to consider the issues raised by this report.

Danny Alexander: To ask the Secretary of State for Work and Pensions what representations his Department has received on the impact of the single room rent restriction on *(a)* homelessness and *(b)* poverty among young people. [28796]

Mr. Plaskitt: We have received representations concerning the single room rent from various bodies including Shelter, Centrepoint, YMCA and Citizens Advice Bureaux.

Incapacity Benefit

Mr. Vaizey: To ask the Secretary of State for Work and Pensions how many incapacity benefit claimants there were in *(a)* Oxfordshire and *(b)* Wantage constituency in (i) 1997 and (ii) 2005. [25355]

Mrs. McGuire: The information is in the following table.

Incapacity benefit and severe disablement allowance claimants in Oxfordshire and the Wantage parliamentary constituency.

	May 1997	*May 2005*
Oxfordshire	12,700	14,700
Wantage parliamentary constituency	1,900	2,100

Notes:
1. Figures are rounded to the nearest 100.
2. 1997 Figures have been produced using the 5 per cent. proportions against WPLS totals.
3. "Claimant" figures include all IB and SDA (including IB credits only cases).
4. "Oxfordshire" includes the following local authorities: Cherwell, Oxford, South Oxfordshire, West Oxfordshire and Vale of White Horse.

Source:
DWP Information Directorate, Work and Pensions Longitudinal Study 100 per cent. data.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the average time spent on incapacity benefit in *(a)* pathways to work areas and *(b)* the UK excluding pathways to work pilots was in each quarter since each of the pilots began. [29211]

Mrs. McGuire: The information has been placed in the Library.

Rachel Scully (Pension)

Mr. Frank Field: To ask the Secretary of State for Work and Pensions if the Retirement Pension Forecast

team will supply Rachel Scully, a constituent of the hon. Member for Birkenhead, with a forecast which takes into account her underlying entitlement to carer's allowance and the awarding of credits for her second state pension. [20260]

Mr. Timms: The administration of the Pension Service is a matter for the chief executive, Miss Alexis Cleveland. She will write to the hon. Member.

Letter from Alexis Cleveland to Mr. Frank Field, dated 16 November 2005:

You asked the Secretary of State if the Retirement Pension Forecast team will supply Rachel Scully with a forecast which takes into account her underlying entitlement to carers allowance and the awarding of credits of her second state pensions. This is something that falls within the responsibilities delegated to me as Chief Executive of The Pension Service.

I am pleased to advise you that a State Pension Forecast that takes into account her underlying entitlement to carers allowance and the award of credits for her state second pension was issued on 7th November 2005.

CABINET OFFICE

Consultants/Special Advisers

Mike Penning: To ask the Chancellor of the Duchy of Lancaster how many *(a)* consultants and *(b)* special advisers were employed by his Department in each year since 1997; what the cost of each was in each year; and if he will make a statement. [27421]

Mr. Jim Murphy: Information relating to the number of consultants engaged by the Cabinet Office is not held centrally and may not be obtained without incurring disproportionate costs.

The total expenditure on the use of consultants since 1997 is shown in the table:

	£ million
1997–98	5.53
1998–99	8.09
1999–2000	10.81
2000–01	10.93
2001–02	16.88
2002–03	13.39
2003–04	15.93
2004–05	12.70

Notes:

1. Figures relating to financial years prior to 2001–02 include Centre for Management and Policy Studies, Regional Co-ordination Unit, Government Car and Despatch Agency and Central Office of Information.
2. Figures from 2001–02 include 'core' Cabinet Office only.

Since 2003, the Government have published on an annual basis the names and overall cost of special advisers and the number in each payband. For the most recent information I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 July 2005, *Official Report*, columns 158–61WS.

Information on the numbers of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

HOME DEPARTMENT

Alcohol Sales

Mr. Hollobone: To ask the Secretary of State for the Home Department what recent discussions he had with *(a)* the Department of Trade and Industry and *(b)* major supermarket chains about a possible link between the sale of alcohol in supermarkets and street crime. [27298]

Paul Goggins: No discussions have taken place on this topic, but Ministers recently met representatives from major supermarkets to discuss sales of alcohol as part of our wider efforts to promote responsible drinking.

Asylum/Immigration

Tony Baldry: To ask the Secretary of State for the Home Department when Afhram Hasen reference A1108602 will receive notification of his immigration status. [25467]

Mr. McNulty: Mr. Hasen was notified of his immigration status on 27 October 2005.

Tony Baldry: To ask the Secretary of State for the Home Department when Joseph Grant reference G11116730 will receive notification of his immigration status following the letter of 15 September to the hon. Member for Banbury. [25468]

Mr. McNulty: Mr. Grant was notified of his immigration status on 4 November 2005.

British Overseas Territories

Andrew Rosindell: To ask the Secretary of State for the Home Department how many British passports have been processed for each of the British overseas territories *(a)* in 2005 to date and *(b)* in each of the last three years. [27611]

Andy Burnham: The information is as follows.

(a) 4,916 British passports have been processed for each of the British overseas territories in 2005 to date.

(b) 4,938 in 2002; 8,284 in 2003; 6,281 in 2004; and 4,916 to October 2005.

Carbon Management Programme

Norman Lamb: To ask the Secretary of State for the Home Department whether his Department will sign up to the Carbon Trust's Carbon Management programme. [23736]

Mr. Charles Clarke: The Department has no current plans to join the Carbon Trust CMP, it will be considered as further work on energy efficiency and climate change impacts, in response to the estate management targets of the Framework for Sustainable Development on the Government Estate, is taken forward.

The Energy White Paper and the Framework for Sustainable Development on the Government Estate set targets for central Government Estate of reducing absolute carbon, from fuel and electricity used in buildings on our estate, by 12.5 percent. by 2010–11, relative to 1999–2000 and increasing energy efficiency of the buildings on the estate by 15 percent. over the same

period. In order to address these targets the Department is benchmarking key office sites, after which we propose to undertake energy surveys at those sites above the benchmark, and thereafter will compile site-specific action plans. The public sector Prison Service has an Energy Efficiency Action Plan. A benchmarking guide has been developed and the data used to help set carbon dioxide key performance indicators for each prison.

Central European Time

Steve Webb: To ask the Secretary of State for the Home Department what assessment he has made of the *(a)* advantages and *(b)* disadvantages of the United Kingdom moving to Central European Time; and if he will make a statement. [27316]

Mr. Sutcliffe: I have been asked to reply.

There are many arguments—and opinions—for and against a move to Central European Time. Any change would need to have full regard to a wide range of factors including the impact on social and community life, transport links with other countries, health and safety issues, such as road traffic accidents, and the views of the business community and other stakeholders. However, I do not believe there is a clear case for change.

Missing Children

Tim Loughton: To ask the Secretary of State for the Home Department what progress he has made in establishing a nationwide child rescue alert scheme to promote early notification of missing children. [28206]

Paul Goggins: The scheme operates in five forces. Engagement with other forces through the national centre for policing excellence indicates a wider interest in the scheme, with expectation of further significant take up by spring next year.

Farj Hassan Faraj

Mr. Wallace: To ask the Secretary of State for the Home Department (1) when he was informed by the Italian authorities of the relevant deadlines relating to the extradition request of Farj Hassan Faraj; [25927]

(2) when his Department first informed Farj Hassan Faraj that he was subject to an extradition request by the Italian authorities; [25928]

(3) what reasons the Italian authorities gave the Department for withdrawing their request to extradite Farj Hassan Faraj to Italy; [26816]

(4) when Farj Hassan Faraj was released from detention. [26820]

Andy Burnham: Farj Hassan Faraj was first informed that he was the subject of an extradition request from Italy on 24 July 2003, when he was arrested on a warrant issued pursuant to that request.

In 2004 the Italian constitutional court ruled that domestic time limits on pre-trial custody applied to people in custody outside Italy for whom a request for extradition had been made. This time limit would not however have applied in Faraj's case had he been notified by the relevant UK authorities of the completion of a pre-trial investigation on him in Italy. The Italian authorities requested on eight April 2003 that such notification be given urgently.

They did not specify a deadline. Unfortunately, although an earlier request for the transmission of evidence was acted on immediately, the notification was, by oversight, not made to Faraj. The fact, and significance, of this omission were not appreciated at the time.

The UK authorities were first alerted by the Italian authorities to the implications of the constitutional court's ruling on custody time limits for the Faraj case in October 2005, and notification was then immediately given. On 10 October the Italian authorities withdrew their extradition request, stating that the order for pre-trial custody in prison had been revoked following the dismissal of proceedings. Faraj remains in immigration detention in the UK, pending further consideration of his immigration position.

Feltham Young Offenders Institution

Dr. Vis: To ask the Secretary of State for the Home Department what the total complement of permanent staff is in Feltham Young Offenders Institution; broken down by *(a)* juvenile and *(b)* young offender sections how many are employed; and how many are on long-term sick leave. [21782]

Fiona Mactaggart: Staffing levels at Feltham are set out in the following table.

	Target staff number	*Staff in post*	*Staff on long-term sick leave*
Juvenile area	91	88	3
Young offender area	159	151	4
Other areas	588	548.42	13
Total	838	787.42	20

Forensic Science Service

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on the effect of the work structuring project undertaken by the Forensic Science Service in response to the 7th Report of the Public Accounts Committee of 1999. [26701]

Andy Burnham: The Forensic Science Service (FSS) piloted the principles of work structuring in 2002 and subsequently adopted a more comprehensive programme of work early in 2005. Work structuring focuses on the key importance of staff and their positioning in terms of work organisation. Strategies, structures and systems are assessed and redesigned to support staff.

The effects of the work structuring project are measured in terms of business performance, staff motivation and morale. The work is currently in progress and it is expected that the realisation of the benefits identified will be spread within a two to three-year time period.

Identity Cards

Lynne Jones: To ask the Secretary of State for the Home Department what the role of biometric identifiers

is in the solutions being considered for remote authentication for the proposed identity card scheme; and if he will make a statement. [26626]

Andy Burnham: At present, the identity cards scheme is looking at various alternatives that allow the implementation of secure remote authentication including use of one-time password technology. We are defining requirements which aim to evaluate the generation of one-time passwords via the use of both personal identification numbers (PINs) and biometrics in combination with an ID card and bidders will be invited to propose solutions meeting these requirements during the procurement stage.

Mr. Drew: To ask the Secretary of State for the Home Department what preparations have been made to recruit staff in anticipation of the introduction of identity cards. [26066]

Andy Burnham: The Home Office has undertaken planning and preparatory work to define an organisational structure, to define and agree the senior management roles within that structure and to define a remuneration structure for the chief executive officer. Work on recruitment of operational staff to administer the scheme will need to be informed by the procurement stage which will not commence before Royal Assent of the Identity Cards Bill.

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on the results of the identity card authentication pilot study undertaken by the Criminal Records Bureau and referred to on page 150 of the 2005 departmental report. [26778]

Andy Burnham: In response to the themes identified by the Bichard inquiry, the Criminal Records Bureau (CRB) embarked on a pilot exercise to explore and investigate the benefits and costs of facilitating the provision of an on-line identity authentication service to authenticate the identity of disclosure applicants.

To that end, in July 2004 the CRB posted a Government Opportunities Notice seeking expressions of interest from suppliers of on-line identity authentication services to take part in a three-month pilot to trial products, at the supplier's own cost, with CRB registered bodies. Following the application of a basic sift criteria the following suppliers were invited to take part in the pilot: BT, Call-credit, Equifax and Experian. The pilot involved each supplier providing his or her product directly to a registered body. No charge was made to CRB or the participating registered bodies for the use of the products deployed at the registered bodies. Importantly, the on-line authentication check did not replace the current CRB authentication rules—the check was conducted alongside the normal paper-based checks.

Each pilot ran for a period of 12 weeks, the start date largely dependent on the sector in which the body operated. Registered bodies held the responsibility for obtaining the applicants consent for the pilot, obtained through a 'Consent Statement' specifically developed by the CRB for the pilot exercise. The general view of registered bodies participating in the pilot was that, while they could see the benefits of deploying similar systems in support of the identity authentication process for disclosure applicants, the type of system trialled whereby electronic authentication is required did not in its present form add any significant benefit to the current authentication process.

It is important to note that the products deployed by the four pilot suppliers were 'off the shelf' for the purposes of the pilot although each supplier was keen to stress that bespoke solutions are available. Following the successful conclusion of the pilot exercise, the pilot report conclusions and the wider identity-related developments in government and commerce are currently under consideration by the CRB Management Board.

Licensing Act 1964

Mr. Don Foster: To ask the Secretary of State for the Home Department how many people were *(a)* prosecuted and *(b)* convicted under (i) section 172, (ii) section 172A and (iii) section 173 of the Licensing Act 1964 in each year since 1997, broken down by (A) petty sessional division area and (B) police authority area; and if he will make a statement. [24117]

Paul Goggins: Statistics from the Home Office Court Proceedings Database on the number of people prosecuted and convicted under sections 172, 172A and 173 of the Licensing Act 1964, England and Wales, 1997–2003 are contained in the tables, broken down by police force area and petty sessional area a copy will be placed in the Library. Statistics for 2004 will be available later this month.

The offence of selling alcohol to a drunken person under s172(3) of the LA 1964 was added to the penalty notice for disorder scheme from 4 April this year. This enables the police to issue persons who commit this offence with an on the spot penalty of £80. Provisional data for 2004 from January to August show that 11 penalty notices were issued for this offence.

Nottinghamshire Police

Paddy Tipping: To ask the Secretary of State for the Home Department when he expects *(a)* to receive and *(b)* to publish HM Inspectorate of Constabulary's report into Nottinghamshire police's response to serious and violent crime. [12658]

Mr. Charles Clarke *[holding answer 14 July 2005]:* I received Her Majesty's Inspectorate of Constabulary's report on 6 July 2005. The report was published on 20 September 2005 and is available on the Home Office website at www.homeoffice.gov.uk.

Religiously Offensive Material

Mr. Hollobone: To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of recently introduced legislation in dealing with religiously offensive material; and if he will make a statement. [20282]

Paul Goggins *[holding answer 20 October 2005]:* The Anti-Terrorism, Crime and Security Act 2001 extended the nine racially-aggravated offences introduced in sections 29–32 of the Crime and Disorder Act 1998 to include religiously aggravated conduct. These offences, which include assault, criminal damage and harassment, make available to the courts higher maximum penalties

where the offender demonstrates, or the offence is wholly or partly motivated by, hostility towards the victim based on the victim's membership or presumed membership of a religious group.

According to figures published by the Crown Prosecution Service (CPS) in January 2005, 49 cases of religiously aggravated crimes were finalised during 2003–04. Because the new offences have only relatively recently come into force it is not yet possible to identify a trend or fully evaluate their impact.

Sex Crimes

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will list organisations which have received funding from his Department to help individuals who claim to have been falsely accused of sexual crime; and how much each organisation received in the last five years for which figures are available. [27256]

Paul Goggins: The Home Office has not provided any funding to organisations helping those who claim to have been falsely accused of sexual crime in the last five years. The Office for Criminal Justice Reform does provide funding for the Criminal Cases Review Commission (CCRC).

People who believe they have been wrongly convicted or sentenced and who have exhausted all the normal review procedures can ask the CCRC to review their case. The CCRC can refer the case back to the appropriate appeal court if they conclude that there was a real possibility that the conviction or sentence would be overturned.

John Bercow: To ask the Secretary of State for the Home Department what representations he has received regarding sentencing of sexual offenders. [25853]

Paul Goggins: The Sexual Offences Act 2003 overhauled the law regarding sex offences. The Act followed a fundamental review of the legislation and a major public consultation. The consultation document, "Setting the Boundaries", made a wide range of recommendations that were considered carefully in the light of over 700 responses received during the public consultation period. I also receive correspondence from Members of Parliament and the public regarding the sentencing of sexual offenders in relation to specific cases.

Sex Industry

Sarah Teather: To ask the Secretary of State for the Home Department (1) how many women he estimates to be working illegally in the sex industry in *(a)* Brent, *(b)* London and *(c)* England; and what proportion of these women he estimates to have been illegally trafficked into the UK; [27200]

(2) what recent estimate he has made of the number of women illegally trafficked into the UK each year; what assessment he has made of what happens to them thereafter; and if he will make a statement. [27201]

Paul Goggins: The nature of illegal immigration and human trafficking means that these are often hidden crimes which makes it extremely difficult to measure the scale of the problem or the numbers involved. We do not hold any statistics on the number of women who are working illegally in the sex industry and the nature of both on and off-street prostitution makes the collecting of reliable information difficult and any data must be viewed with a degree of caution.

There is a clear indication that brothels in London and other cities in the UK have an influx of foreign women. The Metropolitan police believes that 70 per cent. of the women involved in off street prostitution in London are now foreign nationals but it is not known how many of these are in the UK illegally. Taking effective action against people traffickers remains a high priority for this Government.

FOREIGN AND COMMONWEALTH AFFAIRS

Anthrax Sales (Iraq)

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to lodge a complaint with the UN Security Council following the breach of the biological and toxic weapons convention caused by the sale of anthrax to Iraq; and if he will make a statement. [27649]

Dr. Howells: We remain of the opinion that there is no case for reporting the United States to the UN Security Council as having been in breach of its obligations under the biological and toxin weapons convention.

I refer the hon. Member to my answer of 14 October 2005, *Official Report*, column 643W.

Azerbaijan

Mark Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the *(a)* transparency and *(b)* legitimacy of the recent elections in Azerbaijan. [28410]

Mr. Douglas Alexander: The Government accept the assessment of the International Election Observation Mission led by the Organisation for Security and Co-operation in Europe (OSCE). Their preliminary findings were released on 7 November. These found that the Azerbaijan parliamentary elections did not meet a number of OSCE and Council of Europe standards and commitments for democratic elections, suggesting that the elections were not free or fair. The UK, holding the Presidency of the European Union (EU), issued a statement on 7 November in response to the preliminary findings. A further EU statement was issued in the OSCE Permanent Council on 10 November. Both statements can be found on the Presidency website at www.eu2005.gov.uk.

Burundi

Justine Greening: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of whether the recent government elections in Burundi were free and fair; and if he will make a statement. [28147]

Ian Pearson: As Presidency of the European Union (EU), the UK issued statements on 8 July and 23 August on the conduct of parliamentary and presidential elections in Burundi. We stated that we shared the assessment of the EU's Election Observation Mission that, despite some minor irregularities and allegations of fraud, the elections were generally in accordance with international standards.

We further congratulated the Burundian people for their commitment to a stable and democratic future for their country and urged all parties to accept the results of these elections and to work together towards building a peaceful and prosperous Burundi.

China

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last met non-governmental organisations working on human rights in *(a)* China and *(b)* Tibet. [27070]

Ian Pearson: Ministers regularly hold meetings with non- governmental organisations interested in human rights in China, including Tibet. Recent such meetings have included one in May 2004 between my right hon. Friend the Foreign Secretary and Ms Joanna Lumley and Ms Kate Saunders about human rights in Tibet. I have met the Free Tibet Campaign twice, once in June 2005 and once this month.

Ethiopia

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of whether the recent elections in Ethiopia were free and fair. [26769]

Ian Pearson: In the period running up to the elections all parties were able to campaign relatively freely and were allowed some access to the state controlled media. The elections were generally well prepared and effectively conducted. The overall conduct of polling by the National Electoral Board was more transparent and efficient than ever before. However, the European Union Observer Mission (EUOM) and the Carter Centre have expressed concerns about the post election processes. We await the final report of the EUOM. Moreover, the United Kingdom, the European Union and others have protested about the violence and fatalities that occurred in the post-election period before all the results were confirmed.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Ethiopia regarding the recent political unrest there. [26979]

Ian Pearson: We are gravely concerned about the outbreak of violence in Ethiopia since 1 November which has resulted in a number of deaths and injuries and a large number of detentions, including of the Coalition for Unity and Democracy leadership and civil society and media leaders.

On 6 November, my right hon. Friend the Secretary of State for International Development (Hilary Benn) spoke to Prime Minister Meles. This followed action by my noble Friend the Foreign and Commonwealth Office Minister for Africa (Lord Triesman of Tottenham), who summoned the Ethiopian Chargé d'Affaires on 1 November to register our concerns. Our ambassador in Ethiopia has also raised our concerns with both Prime Minister Meles and with the Ethiopian Foreign Minister.

In our capacity as presidency of the European Union, our ambassador to Ethiopia held a press conference in Addis Ababa with the United States ambassador on 6 November, where we called for the Government to restore peace and confidence in the democracy building process by ensuring due process of law and respect for human rights.

EU Enlargement (Illegal Trafficking)

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the prerequisites for countries to qualify for EU membership with respect to combating illegal trafficking routes. [27822]

Mr. Douglas Alexander: The criteria for membership of the EU were set out at the Copenhagen European Council in 1993.

There is no specific requirement relating to combating illegal trafficking routes. But candidates need to transpose and implement European Community legislation including in the field of justice and home affairs into their national legislation.

This, and increased co-operation between the relevant agencies in member states, makes a significant contribution to the EU's ability to combat illegal trafficking.

European Union (Opt-outs)

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs how many opt-outs the Government have given up at EU level since May 1997; and if he will list them. [27817]

Mr. Douglas Alexander: Since May 1997, the Government have only removed the UK "opt-out" to the agreement on social policy. This was annexed by the treaty of Maastricht to the treaty establishing the European Community as part of the Protocol on Social Policy. The agreement was fully incorporated into the treaty establishing the European Community by the treaty of Amsterdam which came into force on 1 May 1999. The provisions on social policy as they stand today can be found in part 3, title XI of the treaty establishing the European Community.

Indonesia

Mrs. Iris Robinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the treatment of Christians in Indonesia, with particular reference to the case of three Christian women who have each been jailed for three years for giving Christian teaching to Muslim children with their parents' consent. [28813]

Ian Pearson: We are aware of the conviction of Dr. Rebekka Zakaria, Eti Pangesti and Ratna Bangun and the closure of some churches in Indonesia.

In September this year, President Yudhoyono stressed that the state guaranteed every citizen religious freedom and called on the police and members of the public to act to prevent violence against any faith. We co-sponsored with the Indonesian Government in Bali in July, an international conference to promote inter-faith understanding and harmony. We will continue to co-operate with them on this important objective. Immediately after the recent beheadings of three Christian school girls in Central Sulawesi, President Yudhoyono condemned what he described as a "sadistic crime", and sent extra police to the area to ensure that violence did not flare up. The British ambassador in Jakarta has discussed the issue with senior Indonesian officials and expressed the UK's shock at the incident.

Ivory Coast

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of reports that the Ivory Coast is recruiting child soldiers from Liberia; and what representations he has made to the government of the Ivory Coast. [26972]

Ian Pearson: We are concerned by recent reports, in particular from Human Rights Watch, indicating that child soldiers from Liberia are again being recruited to Cote d'Ivoire. The UK, as EU Presidency, made representations to the National Transitional Government of Liberia in July concerning children in armed conflict. In addition, Belgium, as local EU presidency, expressed concerns on behalf of all member states about child soldiers to the Government of Cote d'Ivoire also in July. We continue to monitor the situation closely with EU colleagues and the wider international community.

Kurdistan

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the *(a)* nature and *(b)* policy underlying UK involvement in ECJ case C0229/05, on certain Kurdistan political groups. [27821]

Dr. Howells: European Court of Justice (ECJ) case C0229/05 involves a freeze on assets imposed by the European Community pursuant to United Nations Security Council Resolution (UNSCR) 1373 (2001). Effective implementation of UNSCR 1373 (2001) is apriority for the UK as a central component of the international community's efforts against terrorism. The UK fully supported the decision by the European Council to impose an asset freeze on certain Kurdish political groups and intervened in support of the European Council before the Court of First Instance. The action against the European Council was dismissed by that court. Although the UK has not intervened again in the appeal of the case to the ECJ, it continues to support fully the case put forward by the European Council.

Ministerial Travel

Peter Luff: To ask the Secretary of State for Foreign and Commonwealth Affairs what was the additional cost of *(a)* his and *(b)* his officials' early return from Moscow to permit him to vote in the proceedings in the Terrorism Bill. [28110]

Mr. Douglas Alexander *[holding answer 14 November 2005]*: My right hon. Friend the Foreign Secretary visited Moscow on 8 and 9 November for the EU-Russia Foreign Ministers' Troika. He attended this meeting as planned. The talks were constructive, continuing the positive dialogue from October's EU-Russia Summit.

The Chinese President's State Visit took place on 8–9 November. Immediately before leaving for Moscow, the Foreign Secretary met Li Zhaoxing, the Chinese Foreign Minister, in London. The Foreign Secretary had planned to travel directly to Iraq from Moscow, and then to Bahrain for the annual G8 and Broader Middle East and North Africa "Forum for the Future" meetings on 11 and 12 November.

It would not have been possible to complete this schedule using commercial flights. We therefore chartered an aircraft. The total cost of the charter was £98,400, which included an additional £30,200 for diverting through the UK on 9 November. This also covered the travel costs of the staff accompanying the Foreign Secretary to Moscow, comprising six officials, plus one Special Adviser and one Special Branch Protection Officer.

Paragraph 10.11 of the Ministerial Code states:

"if a Minister is abroad with permission and is called home for Ministerial Parliamentary reasons, including to vote, the cost of the extra journey back and forth may be met by public funds".

Tim Loughton: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) how much it cost *(a)* him and *(b)* officials from his Department to fly to and from Russia for his recent visit; [28243]

(2) what the flight arrangements were for his recent visit to Russia; [28244]

(3) how many Government officials accompanied him on his recent visit to Russia. [28245]

Mr. Douglas Alexander: I refer the hon. Member to the answer I gave to the hon. Member for Mid-Worcestershire (Peter Luff) today (UIN 28110).

Piracy

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs how many reports of British citizens being victims of criminal incidents on the high seas *(a)* off the coast of Africa and *(b)* elsewhere have been received by his Department in each of the last five years. [27556]

Ian Pearson: The Foreign and Commonwealth Office does not collect this information. Consular cases are recorded by type e.g. death, hospitalisation, theft and so on, and by country. Cases are not recorded by circumstances such as occurring at sea.

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs how many incidents of piracy involving British citizens have been reported to his Department in each of the last five years. [27557]

Ian Pearson: I refer the hon. Member to the answer I gave today (UIN 27556).

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs what advice his Department has issued on the risk of *(a)* piracy and *(b)* other crime at sea. [27558]

Ian Pearson: The Foreign and Commonwealth Office issues 217 regularly updated country travel advice notices on its website. These are aimed at members of the public and include information on the risk of falling victim to crime in each country. Advice on the risk of piracy, including kidnapping, within a country's territorial waters is included where appropriate, as in the cases of Somalia, Malaysia and Singapore. Other types of crime (eg illegal fishing) which do not pose a risk to individual travellers are not included in the advice.

The departmental lead on piracy on the high seas lies with the Department for Transport's Transport Security Division, which issues advice to commercial shipping on matters such as the risk of piracy.

Romania/Bulgaria (EU Membership)

Mark Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what criteria *(a)* Romania and *(b)* Bulgaria need to meet to join the EU; what is his assessment of whether (i) Romania and (ii) Bulgaria are on track to meet these criteria; and if he will make a statement. [28413]

Mr. Douglas Alexander: As agreed at the Copenhagen European Council in 1993, candidate countries need to meet the so-called 'Copenhagen criteria' before they can join the European Union. This means that they must have:

stable institutions guaranteeing democracy, the rule of law, human rights and respect for and protection of minorities;

a functioning market economy as well as the capacity to cope with competitive pressure and market forces within the Union;

the ability to take on the obligations of membership including adherence to the aims of political, economic and monetary union.

The European Commission is closely monitoring both countries' preparations. It published a Comprehensive Monitoring Report on 25 October this year in which it confirmed that both countries fulfil the political criteria for membership and are functioning market economies. But it emphasised that both countries need to urgently step up the implementation of reforms in the areas of Justice and Home Affairs, agriculture, the environment and administrative capacity. The Commission will continue to closely monitor their progress and will produce a follow-up report in spring next year. If it deems that either country is manifestly unprepared for membership, it can recommend to the Council that accession be delayed by one year to 2008.

Russia

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has held with the Russian Government regarding Russia's possible entry to the EU. [27755]

Mr. Douglas Alexander: The Foreign and Commonwealth Office has had no discussions with the Russian Federation regarding Russian entry into the European Union (EU). The Russian Federation currently has no plans to seek membership of the EU.

Senegal

Mr. Mullin: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Senegal *(a)* bilaterally and *(b)* representing the EU under the UK presidency on the requests by Belgium for the extradition of Hissene Habre on charges of crimes against humanity; and if he will make a statement. [26901]

Ian Pearson: The UK Government would carefully consider any formal request for support on this issue from the Belgian Government, but to date we have received none.

Somalia

Mrs. James: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Somalia. [27225]

Ian Pearson: We continue to work closely with the UN and other members of the international community to achieve a comprehensive and lasting settlement and a return to good governance in Somalia. We fully support the special representative of the UN Secretary General, Francois Fall, in his efforts to facilitate the peace process and encourage Somali-owned reconciliation initiatives.

We remain deeply concerned by recent reports of military activities, violations of the UN arms embargo and hostile rhetoric between the rival factions. We totally condemn the assassination attempt on 6 November against the Transitional Federal Prime Minister, Ali Mohammed Gedi, and extend our condolences to the families of the victims. We believe that any use of force to settle the current differences within the Transitional Federal Institutions is unacceptable and counterproductive.

We urge all the Somali factions to refrain from military activities and to take concrete steps to reach consensus through dialogue and quickly create the conditions in which humanitarian access can alleviate the suffering of large numbers of southern Somalis.

Mrs. James: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had about political developments in Somalia. [27226]

Ian Pearson: My noble Friend the Foreign and Commonwealth Office Minister for Africa (Lord Triesman of Tottenham) met the Transitional Federal President of Somalia, Abullahi Yusuf, on 20 May, the UN Secretary General's Special Representative, Francois Fall, on 6 September and the Speaker of the Transitional Federal Parliament, Sharif Hasan, on 2 October. Officials in London and Nairobi have also actively been urging representatives of the Somali factions to resolve their differences over the location of the Transitional Federal Government and the details of a security stabilisation plan for Somalia. We also discuss Somalia regularly in the UN Security Council and with our EU partners.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications of a split in the ranks of the Sudan Liberation Army on the potential for peace in Darfur; and if he will make a statement. [28034]

Ian Pearson: We are concerned about continued divisions within the Sudan Liberation Movement/Army (SLM/A). These divisions are fuelling insecurity on the ground and threaten to hinder the peace negotiations in Abuja. We and our international partners are pressing all factions within the SLM/A to unite and negotiate with one voice at the Darfur peace talks in Abuja, which are due to resume on 21 November.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will make a statement on recent attacks on World Food Programme convoys near Nyala, Darfur; [28035]

(2) what assessment he has made of how much of Darfur is no longer accessible to non-governmental agencies; and if he will make a statement. [28036]

Ian Pearson: We are greatly concerned by attacks on humanitarian workers in Darfur. In recent weeks there have been a number of attacks on World Food Programme convoys in Southern Darfur. These attacks appear to have been carried out by bandits. Humanitarian operations are critical in supporting the civilians in Darfur, and any attacks on United Nations (UN) and non-governmental humanitarian agencies put their work in jeopardy and limits access to those who need assistance. At present, the UN reports that it is confident that all areas of Darfur are accessible by helicopter, and at least intermittently by road. They report that despite these serious incidents, humanitarian services to all areas are continuing.

We make regular representations to all parties in the Darfur conflict and have made clear that the harassment, abduction and attacks on humanitarian workers in Darfur is unacceptable and the perpetrators must be brought to justice. During his visit to Sudan on 5–8 October my noble Friend the Foreign and Commonwealth Office Minister for Africa (Lord Triesman of Tottenham), met representatives from non-governmental organisations and UN agencies in Darfur to hear their views on the security situation which is hampering the humanitarian relief effort. He raised these issues strongly with the Sudanese Government, pressing the importance of improving the security situation and allowing aid workers to operate freely. The African Union Mission in Sudan, to which we are providing almost £32 million, is having a positive effect on security where it is deployed.

Tanzania

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Tanzania regarding the recent political unrest in Zanzibar. [26977]

Ian Pearson: We and the international community worked hard with President Mkapa, presidential candidate Kikwete, President Karume and all concerned, to encourage them to put their personal authority behind a process that would result in a free and fair election in Zanzibar on 30 October.

My noble Friend the Foreign and Commonwealth Office Minister for Africa (Lord Triesman of Tottenham) wrote to President Mkapa on 24 October setting out his concerns regarding reports of violence and intimidation on Zanzibar in the run-up to the elections. As presidency of the EU, the UK made representations to the Tanzanian Government, regarding the importance of peaceful, transparent and credible elections, on 17 and 26 October.

My hon. Friend the former Minister for Africa (Mr. Mullin), went to Zanzibar to observe the election as a special envoy of the Foreign and Commonwealth Office. He met presidential candidate Kikwete on 1 November and discussed the importance of addressing the deeply polarised nature of Zanzibari politics.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Tanzania regarding its support for President Mugabe's regime in Zimbabwe. [26978]

Ian Pearson: In the wake of Operation Murambatsvina in Zimbabwe, our high commissioner in Dar es Salaam raised Zimbabwe with ambassador Mulamula at the Tanzanian Ministry of Foreign Affairs on 26 July 2005. My noble Friend the Foreign and Commonwealth Office Minister for Africa (Lord Triesman of Tottenham), also discussed Zimbabwe with Jakaya Kikwete, the Tanzanian Minister for Foreign Affairs, on 30 June. More recently, the United Kingdom's permanent representative to the United Nations discussed the situation in Zimbabwe with other United Nations Security Council members, including Tanzania, on 4 October. We intend to continue these discussions until the Government of Zimbabwe addresses the United Nations Secretary General's concerns.

Ministers and Foreign and Commonwealth Office officials take every opportunity to discuss with African Governments, including Tanzania, the political situation in Zimbabwe and other issues that affect the region. On 1 November, my right hon. Friend the Foreign Secretary made clear to the House that we would continue to urge Southern African nations to put strong pressure on the Mugabe regime (*Official Report*, columns 718–19).

Thailand

Mark Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on recent political unrest in the Pattani, Yala and Narathiwat provinces of Thailand. [28417]

Ian Pearson: We remain concerned by the continuing violence in the southern provinces of Pattani, Yala and Narathiwat and remain in close contact with the Royal Thai Government.

My right hon. Friend the Prime Minister discussed the situation in the south of Thailand with the Prime Minister of Thailand, Thaksin Shinawatra, in London last month.

UK Expatriates (Spain)

Mr. Gordon Prentice: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his counterpart in Spain about the costs of providing healthcare to UK expatriates; and if he will make a statement. [27534]

Mr. Douglas Alexander: My right hon. Friend the Foreign Secretary has not had any discussions with his Spanish counterpart on this subject.

The Spanish Government have not raised it with us at ministerial level, or in the European Union.

United States (Prince of Wales's Visit)

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 20 October 2005, *Official Report*, column 636W, on HRH Prince of Wales (US visit), what the *(a)* job title and *(b)* grade was of each of the (i) junior staff from the embassy in Washington who accompanied HRH the Prince of Wales and HRH the Duchess of Cornwall throughout their recent visit to the US and (ii) staff based in *(A)* New York and *(B)* San Francisco who accompanied their Royal Highnesses. [26863]

Mr. Straw *[holding answer 14 November 2005]*: In addition to the ambassador, the following members of staff from the British embassy in Washington accompanied the Royal party during their visit to the US:

1st Secretary Political, Grade D6, who accompanied in New York, Washington DC, New Orleans and San Francisco.

1st Secretary/ Press Secretary, Grade D6, who accompanied in New York, Washington DC, and New Orleans.

Locally Engaged Press Adviser, Grade US 9, who accompanied in New York, Washington DC, New Orleans and San Francisco.

Locally Engaged Publications Officer, Grade US 5, who accompanied in Washington DC and San Francisco.

In New York, the Consul General, Grade SMS 3, Deputy Consul General, Grade SMS 1, and the Visits Officer, Grade US 6 accompanied the Royal Party. In San Francisco, they were accompanied by the Consul General, Grade SMS 1 and the Visits Officer, Grade US 5.

DEPUTY PRIME MINISTER

House Building (Barnet)

8. **Mrs. Villiers:** To ask the Deputy Prime Minister if he will make a statement on house-building and development in the London borough of Barnet. [28532]

Yvette Cooper: Barnet aims to provide a minimum of 890 new homes per year, which was exceeded in 2004–05. Barnet is an opportunity borough with great potential to deliver more. There are proposals in the London plan housing alteration to increase this to 1,960 homes per year. This will help meet housing need and deliver sustainable communities in London. Between 2000 and 2003 92 percent. of new homes in Barnet were built on brown field land.

10. **Mr. Jeremy Browne:** To ask the Deputy Prime Minister what assessment has been made of the additional infrastructure that will be required to support extra house-building in Taunton Deane. [28535]

Yvette Cooper: The need for future housing and infrastructure in Taunton Deane is currently being considered as part of the review of the Regional Spatial Strategy (RSS) being undertaken by the South West Regional Assembly. The draft RSS will be submitted to the Secretary of State in March 2006.

The Government are strongly committed to the principle that infrastructure (including public services) must be sufficient to support growth.

11. **Nick Herbert:** To ask the Deputy Prime Minister what assessment he has made of the infrastructure improvements required to meet his house-building targets in the South East. [28536]

Yvette Cooper: Government recognises the critical links between infrastructure and growth and is committed to exploring the infrastructure needs of the region as the South East Regional Planning process progresses.

13. **Tim Loughton:** To ask the Deputy Prime Minister if he will link new house-building targets to improvements in infrastructure. [28538]

Yvette Cooper: The Government are strongly committed to the principle that infrastructure must be sufficient to support growth—that is an essential element in achieving sustainable communities. Our approach is to ensure that infrastructure, including public services, is provided in step with growth, as plans for individual growth locations are developed.

Housing Corporation Funding

9. **Dr. Cable:** To ask the Deputy Prime Minister if he will make a statement on the circumstances in which private developers can bid for Housing Corporation funding previously reserved for social landlords. [28534]

Mr. Woolas: Persons other than registered social landlords are now eligible to bid for social housing grant from the Housing Corporation under the Housing Act 2004. Housing associations and private companies are competing in the 2006–08 bidding round on as equal a basis as possible to provide the same products.

The aim is to widen the whole competition for grant, bring forward more schemes and encourage more efficiency in provision and new partnerships, with no reduction in the quality of homes. That should mean better value for money for the taxpayer and more affordable homes to meet the serious shortage for those in housing need.

Regional Spatial Strategies

12. **Mr. Laurence Robertson:** To ask the Deputy Prime Minister if he will make a statement on the level of consultation being undertaken in connection with regional spatial strategies. [28537]

Yvette Cooper: There is a statutory requirement for the Regional Planning Body to consult a wide range of stakeholders both while the draft revision of the Regional Spatial Strategy is being prepared and after publication. An independent examination in public of the draft, at which people will be invited to speak, is required in all but exceptional circumstances. The Secretary of State's proposed changes are then published with a further minimum eight week consultation period.

Damages

Mr. Hayes: To ask the Deputy Prime Minister if he will list the 10 largest amounts of damages paid out by his office in the last year for which figures are available, indicating in each case the nature of the claim. [27740]

Jim Fitzpatrick: The Office of the Deputy Prime Minister does not collect the information requested centrally and could provide it only at disproportionate cost.

Green Belt

Mrs. Spelman: To ask the Deputy Prime Minister (1) how much land changing to residential use was within *(a)* the designated green belt and *(b)* greenfield land, in each year since 1997, broken down by region; [4312]

(2) how much land within the 1997 designated green belt changed to developed use in each year since 1997, broken down by region; [4313]

(3) how many new dwellings have been built within the 1997 designated green belt in each year since 1997, broken down by region. [4314]

Yvette Cooper: The available estimates are from Land Use Change Statistics, shown in the following tables. The estimates for 2003 are provisional and are subject to revision. Figures are not shown for 1999 as the data received for that year were incomplete. Figures for 1997 to 2000 reflect planning policies and decisions made before 1997.

Local Government Finance

Mr. Hancock: To ask the Deputy Prime Minister what the time scale is for the announcement of the local authority rate support grant settlement for 2006–07; and if he will make a statement. [26880]

Mr. Woolas: The Government expect to announce their proposals for the 2006–07 local government finance settlement at around the end of November or beginning of December—in line with the usual settlement timetable.

Mrs. Spelman: To ask the Deputy Prime Minister if he will place copies of *(a)* international comparative research by the London School of Economics and Cardiff University on local government finance, *(b)* public knowledge and attitudes research on local government finance by NOP World and *(c)* the wider

literature review by the National Economic Research Association on local government finance commissioned by his Department in the Library. [26919]

Mr. Woolas: The research to which the hon. Member refers has been undertaken for the Lyons inquiry into local government funding. We understand that the inquiry will publish results of this research later this autumn.

Initial research by NOP World on public knowledge and attitudes in relation to local government finance was undertaken for the Balance of Funding Review and is available on the Department's website at http://www.local.odpm.gov.uk/finance/balance/rsg.htm.

London Development Agency

Mrs. Lait: To ask the Deputy Prime Minister what the total borrowing limit is for the London Development Agency. [23706]

Alun Michael: I have been asked to reply.

The London Development Agency—as a functional body of the Mayor of London—is treated as a local authority for financial purposes, so any borrowing by the agency must be in accordance with the local authority prudential borrowing framework set out in the Local Government Act 2003. Under this legislation, the agency's maximum borrowing limit is set by the Mayor. If the agency wishes to borrow against its grant from the Government, it must also seek Government approval.

Markets

Mr. Swire: To ask the Deputy Prime Minister what representations his Department has received about the proposed redevelopment of the old Smithfield Market. [27999]

Jim Fitzpatrick: My right hon. Friend the Deputy Prime Minister has received a number of representations of which nine have requested he call in applications for planning permission and conservation area consent which were submitted to the Corporation of London in May 2004.

If in due course the corporation are minded to grant planning permission the planning application will have to be formally referred to my right hon. Friend the Deputy Prime Minister as a departure from the corporation's unitary development plan and under the 1993 shopping direction.

Public Service Agreements

Mrs. Spelman: To ask the Deputy Prime Minister what *(a)* benchmarks and *(b)* indicators the Government will use to assess their public service agreement target to improve (i) the effectiveness and efficiency of local government in delivery services by 2008 and (ii) the balance between housing availability and demand. [26927]

Mr. Woolas: The Office of the Deputy Prime Minister has published technical notes setting out the performance measures being used to assess progress against the ODPM's public service agreement targets adopted following the spending review in 2004. These can be found at: http://www.odpm.gov.uk/index.asp?id=1122982.

The technical note for local government effectiveness and efficiency will be updated shortly to reflect the new comprehensive performance assessment (CPA) framework published by the Audit Commission on 14 October.

Regional Transport

Tom Brake: To ask the Deputy Prime Minister if he will make a statement on the process by which regional transport funding is allocated by regional Government offices. [27568]

Ms Buck: I have been asked to reply.

No regional transport funding is currently allocated by regional Government offices. However, in July we published details of regional funding allocations for transport, together with those for housing and economic development. The English regions outside London have been asked to submit advice to central Government by 31 January 2006 as to which schemes should be given priority for funding in their region. Government offices have been asked to facilitate this process.

Sex Offenders

Joan Walley: To ask the Deputy Prime Minister pursuant to his answer of 25 October 2005, *Official Report*, column 340W on sex offenders, if he will issue guidance to local authorities on councillors' duties in relation to children's services where councillors are on the sex offenders register. [24172]

Mr. Woolas: The Office of the Deputy Prime Minister has no plans to introduce such guidance.

An individual is disqualified from being a local councillor if he receives a conviction carrying a prison sentence of over three months (suspended or not) if convicted of an offence within five years before election. A fine, or conviction with a sentence of less than three months, is not sufficient to trigger a disqualification.

EDUCATION AND SKILLS

Adult Learning Inspectorate

Mr. Philip Hammond: To ask the Secretary of State for Education and Skills what the total cost of the adult learning inspectorate in 2005–06 is. [28637]

Bill Rammell: The 2005–06 grant in aid budget for the adult learning inspectorate is £22.5 million from the Department for Education and Skills and £5.8 million from the Department for Work and Pensions.

Basic Skills Agency

Mr. Gibb: To ask the Secretary of State for Education and Skills how many and what proportion of *(a)* primary schools and *(b)* secondary schools have been awarded a quality mark by the Basic Skills Agency. [28303]

Bill Rammell: The latest figures as of 11 November are as follows:

The number of primary schools in England with the Basic Skills Agency's quality mark was 3361. This means the proportion of primary schools with the quality mark is 18 percent., based on 18970 primary schools (including early years and special schools as they are eligible for the primary quality mark).

The number of secondary schools in England with the BSA's quality mark is 245. This means the proportion of secondary schools with the quality mark is 6 percent., based on 3992 secondary schools.

The number of primary schools in Wales with the Basic Skills Agency's quality mark as 1452. This means the proportion of primary schools with the quality mark is 88 percent., based on 1659 primary schools (including early years and special schools as they are eligible for the primary quality mark).

The number of secondary schools in Wales with the BSA's quality mark is 213. This means the proportion of secondary schools with the quality mark is 80 per cent., based on 267 secondary schools.

All schools in Wales are required to reach the quality mark standard by 31 March 2006 as part of the National Basic Skills Strategy for Wales.

CAFCASS

Julie Morgan: To ask the Secretary of State for Education and Skills (1) how many *(a)* private and *(b)* public law cases remained unallocated in the Children and Family Court Advisory and Support Service on 13 July, or the nearest date for which figures are available. [24517]

(2) how many unallocated cases there were in the Children and Family Court Advisory and Support Service at the end of each of the last four financial years. [24518]

(3) how many *(a)* public and *(b)* private law vacancies there are in the Children and Family Court Advisory and Support Service; and what the recruitment strategy is for the 2005–06 financial year. [24519]

Maria Eagle: These are matters for the Children and Family Court Advisory and Support Service (CAFCASS). Anthony Douglas, the CAFCASS chief executive, has written to the hon. Member with this information and copies of his replies have been placed in the House Library.

Children (Parental Access)

Ms Keeble: To ask the Secretary of State for Education and Skills (1) what research her Department has undertaken of *(a)* contact between absent parents and their children and *(b)* the impact on children of supervised contact with absent parents; [27087]

(2) what research her Department has *(a)* commissioned and *(b)* evaluated on the work of contact centres in providing supervised contact between absent parents and their children. [27088]

Maria Eagle: The Government, through the research programmes of the Department of Constitutional Affairs, has commissioned a series of research projects on child contact. They are:

1. Safety and Child Contact: an analysis of the role of child contact centres in the context of domestic violence and child welfare concerns by Aris, Harrison and Humphries, DCA 2002.

2. Safety Contact Disputes in Court Volume 1 DCA 2003, Volume 2 DCA 2005 by Smart, Wade, May and Furniss.

3. A profile of applicants and respondents in contact cases in Essex, by Trinder and colleagues, DCA 2005.

Copies are available free of charge from the Research Unit, DCA, Selborne House, Victoria Street, London, SW1E 6QW.

Citizenship

Mr. Gibb: To ask the Secretary of State for Education and Skills what assessment she has made of the effectiveness of initial teacher training of teachers of citizenship; and if she will make a statement. [28181]

Jacqui Smith: Citizenship is a relatively new subject. Ofsted has been inspecting citizenship since 2003–04. Their inspections found that four of the seven courses prepare trainees very well to teach citizenship; the others are satisfactory and improving rapidly. The Ofsted reports, ITT for Teachers of citizenship 2003/04 and ITT for Teachers of Citizenship 2004/05, are both available in e-version on the Ofsted website.

Connexions

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the annual budget of Connexions has been in each year that it has been running; and what the budget of the pre-Connexions career service was in each year between 1992 and its replacement. [28584]

Maria Eagle: The budgets for Connexions and the careers service for each year since 1994–95 are as follows:

£ million

	Careers service budget	*Connexions budget*
1994–95	176	—
1995–96	194	—
1996–97	201	—
1997–98	206	—
1998–99	214	—
1999–2000	227	—
2000–01	236	—
2001–02	173	151
2002–03	52	378
2003–04	—	455
2004–05	—	470
2005–06	—	475

Connexions was introduced from April 2001 and replaced the careers service in April 2003. We do not hold information for the years prior to 1994–95.

Deaf and Hard of Hearing Pupils

Mike Penning: To ask the Secretary of State for Education and Skills what research she has commissioned on academic achievements of deaf and hard of hearing pupils in *(a)* mainstream schools and *(b)* special schools and units in Hertfordshire. [26241]

Maria Eagle: It is for schools and local authorities to monitor the progress and attainment of children with special educational needs (SEN) for whom they have responsibility.

We have not commissioned any research at local authority level into the attainment of children with different types of SEN in different educational settings. However, Ofsted is currently carrying out a study looking at how provision has changed over the past five years and how different types of provision affect outcomes for children with SEN. This report is scheduled to be published in summer 2006.

Education (Tamworth)

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many *(a)* teachers and *(b)* full-time equivalent teaching posts there were in schools in Tamworth constituency in each year since 1997. [27489]

Jacqui Smith: The following table shows the full-time equivalent number of teachers in maintained schools in Tamworth constituency in each year since 1997.

The number of full-time equivalent teaching posts in Tamworth is not collected centrally.

Maintained nursery, primary and secondary schools[1], special schools[2], and pupil referral units: Tamworth parliamentary constituency

Position as at January each year	*Full-time equivalent number of teaching staff*
1997	760
1998	750
1999	750
2000	750
2001	760
2002	780
2003	780
2004	780
2005	770

[1] Includes middle schools as deemed.
[2] Includes maintained and non-maintained special schools.
Note:
Figures are rounded to the nearest 10.
Source:
Annual School Census

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many child care places were available in each of the past 10 years in Tamworth constituency. [27491]

Beverley Hughes: Statistics have been collected by local authority area only since 1999 following the introduction of the National Childcare Strategy for England. We are unable to provide details of places by parliamentary constituency.

The table details the stock of child care places in Staffordshire, each year since 1999.

As at March each year	*Stock of child care places*
1999	14,649
2000	16,346
2001	17,531
2002	17,304
2003	18,482
2004	21,322
2005	22,463

Failing Schools

Mr. Byers: To ask the Secretary of State for Education and Skills if she will list the schools which *(a)* are failing and *(b)* have been judged to be failing for more than three years; on what date each was first identified as failing; in which local education authority area each school is located; how many pupils attend each school; and what the pupil capacity is of each school. [29146]

Jacqui Smith: The information requested has been placed in the Libraries.

Family Resolutions Project

Mrs. May: To ask the Secretary of State for Education and Skills (1) how many parents have taken part in the Family Resolutions pilot project to date; and how many have accepted mediation services as part of the project; [26638]

(2) what estimate she has made of the costs of running the Family Resolutions project in the next five years; [26639]

(3) how much the Government have spent on the Family Resolutions Pilot scheme; how many couples have entered the scheme; how many couples have completed full courses on the scheme; and if she will make a statement on the future of the scheme. [26640]

Maria Eagle: In total, there were 62 couples or 124 individual parents who participated in the pilot project, which ran for one year from September 2004 to September 2005, of whom 31 couples completed all elements of the project. It focussed on parents using facilitated group discussions, learning conflict management skills and developing their own solutions through the use of the parenting plans. The pilot project's components did not include mediation services, though a number of the participating couples might have received such services either prior to entering the project or subsequently.

The Government have invested a total of £300,000 over two financial years (£170,000 in 2004–05 and £130,000 in 2005–06) in the Family Resolutions Pilot Project. There is no ongoing financial commitment in respect of this, now-concluded, pilot project. The project is currently being evaluated. We expect to receive the evaluation report early next year, which will be published. We expect this report to inform the decision about whether to roll out the pilot project on a wider basis.

Graduation

Andrew Rosindell: To ask the Secretary of State for Education and Skills how many students who gained university places through clearing went on to graduate between 2001 and 2005. [22966]

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what percentage of those who accepted university places through clearing dropped out in the last period for which figures are available; and what assessment she has made of the reasons for doing so. [23216]

Bill Rammell: The Department does not systematically collect information on the reasons for non-completion. The Department has, however, commissioned the Institute of Employment Research to investigate a sample of early leavers from between 1996/97 and 1998/99. It found that those entering through Clearing had a higher-than-average non-completion rate, and that the most commonly-cited reason was "a mistaken choice of course".

Source:

Davies, R. and Elias, P. (2003) "Dropping out: a study of early levers from higher education," DfES Research Report 386.

Learners (Accidents)

Ms Angela C. Smith: To ask the Secretary of State for Education and Skills how many accidents have been recorded as occurring to Learning and Skills Council funded learners in each year since 2001 broken down by *(a)* fatal, *(b)* major and *(c)* those requiring over three days' absence; and how many of those learners were (i) under and (ii) over 16 years of age at the time of the accident. [28901]

Bill Rammell: The Learning and Skills Council (LSC) is accountable for ensuring that organisations with whom it contracts have effective arrangements in place for ensuring the health and safety of learners. Learner health and safety is a fundamental value of the LSC. The information requested is included in the following table. An age split under and over 16 is not available. The figures in the final row are for six months only, rather than for the whole year.

Accidents recorded to LSC funded learners from 2001–05

	Number of accidents			
	(a) Fatal	*(b) Major*	*(c) Over three days*	*Total*
1 April 2001 to 31 March 2002	2	217	873	1092
1 April 2002 to 31 March 2003	5	198	858	1061
1 April 2003 to 31 March 2004	5	262	615	882
1 April 2004 to 31 March 2005[1]	3	187	627	817
1 April 2005 to 30 September 2005[1]	1	95	210	306

[1] These two rows refer to all learners. In previous years only work based learning accidents were recorded.

Departmental Staff (Literacy/Numeracy)

David T.C. Davies: To ask the Secretary of State for Education and Skills how much her Department has spent on literacy and numeracy teaching for departmental staff in each of the last five years for which figures are available. [27364]

Maria Eagle: Within my Department, the prime responsibility for developing and coaching staff lies with line managers who are best placed to assess individual needs. Most learning takes place on the job and is supplemented by centrally provided basic skills development through the Department's internal learning and development unit.

The Department has spent no money on literacy and numeracy teaching for departmental staff in the last five years as adult basic skills tuition is delivered at no charge to learners who are eligible for Learning and Skills Council funding.

Since 2002, £7000 has been spent supporting the development of adult basic skills in the Department:

2005: £5,500 on tailoring a basic skills programme to reflect the work of facilities management staff and evaluating the programme.

2003–05: £500 on material to promote basic skills within the Department.

2002–03: £1000 to train department staff to support learners with basic skills.

We have no record of expenditure before 2002.

In addition activities take place across the Department which incorporate elements of basic skills within them. It is not possible to separate these out or quantify costs.

Medical Students

Mr. Lansley: To ask the Secretary of State for Education and Skills what estimate she has made of the average debt of a medical student upon qualification in each year since 1997–98. [27538]

Bill Rammell: Statistics on average student debt are available from the Department's periodic Student Income and Expenditure Surveys but these are not conducted annually and have to date not given medical student debt figures separately. However the forthcoming SIES, to be published early in the new year, will have figures for borrowings, savings and estimated debt for final year medical students for academic year 2004/05.

Mr. Lansley: To ask the Secretary of State for Education and Skills whether graduate medical students will be permitted to pay their tuition fees following qualification. [27539]

Bill Rammell: Graduates with an honours degree undertaking a second undergraduate degree in medicine, or other subjects, will not be entitled to fee loans or deferred fees when introduced in 2006/07. However, graduate medical students on four year fast track courses, who now comprise the majority of graduate medical students, do not pay tuition fee contributions except in their first year because the Department of Health pays the fees in years two to four. The Department of Health also pays the fees of undergraduate medical students, including those with a previous graduate qualification, in years five and six. Graduate medical students are in addition eligible for subsidised maintenance loans and Department of Health bursaries.

Missing Children

Tim Loughton: To ask the Secretary of State for Education and Skills how many children have gone missing in each of the last five years. [28226]

Beverley Hughes: I refer the hon. Member to the reply given on 24 October 2005, *Official Report*, column 146W, to the hon. Member for Sutton and Cheam (Mr. Burstow).

Public Service Agreements

John Bercow: To ask the Secretary of State for Education and Skills what steps her Department is taking to ensure the public service agreement target to reduce the under-18 conception rate by 2010 is met. [26788]

Maria Eagle: The Government's 10-year Teenage Pregnancy Strategy continues to make progress in meeting its target of a 50 per cent. reduction in under-18 conception rates by 2010. There has been a 9.8 per cent. decline in under-18 conceptions between 1998 (the baseline year for the strategy) and 2003 (the latest year for which data are available). There has been a 9.9 per cent. reduction in under-16 conceptions over the same period.

The strategy includes a range of actions designed to reduce teenage conceptions and support teenage parents so that they achieve better health and education outcomes for them and their child(ren), including:

Encouragement to delay sexual activity, including support to resist pressure to become sexually active;

Improving access to and usage of condoms among sexually active young people, to reduce the risk of unintended pregnancies and STIs; and

Support to help teenage mothers to: access pre- and post-natal services; engage in education, employment and training; and avoid social exclusion.

In order to accelerate the current rate of reduction to meet the 50 per cent. reduction target by 2010, we have asked all areas to intensify delivery of their strategies to reach high rate neighbourhoods and young people at greatest risk of early pregnancy.

John Bercow: To ask the Secretary of State for Education and Skills when she will assess progress on the public service agreement target to reduce the proportion of young people not in education, employment or training by two percentage points by 2010. [26795]

Maria Eagle: The statistics used to measure the target to reduce the proportion of young people not in education, employment and training (NEET) are published annually by the Department for Education and Skills. Provisional data for the end of 2004 was published in June 2005 when it was estimated that 194,000 16 to 18-year-olds were NEET, 10 per cent. of the 16 to 18-year-old population. The first opportunity to assess the progress made since then will be when statistics for the end of 2005 are available. These are due to be published in June 2006.

School Work (Marking)

Mr. Gibb: To ask the Secretary of State for Education and Skills what research has been conducted by her Department into possible links between the marking of school work and child self-esteem. [28298]

Jacqui Smith: My Department has not commissioned any research on the link between the marking of school work and child self-esteem.

Strategic Subjects

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills (1) for what reason she has decided not to allocate the funding of £22 million for protecting strategic subjects to centres of excellence; [28588]

(2) for what reason she has decided to allocate the funding of £22 million for protecting strategic subjects to collaborative projects. [28589]

Bill Rammell: The legal responsibility for the distribution of grant between institutions rests with the relevant Funding Councils. The joint guidance they have issued in relation to the £22 million to be allocated to support vulnerable area and language studies of strategic importance indicates that they expect one or two centres to be supported in each area of study. Therefore only those institutions which can demonstrate excellence in meeting the criteria for the scheme are likely to receive support.

Sure Start

Annette Brooke: To ask the Secretary of State for Education and Skills how much has been allocated for the evaluation of Sure Start; and when she expects to publish the results. [28801]

Beverley Hughes *[holding answer 15 November 2005]:* A comprehensive national level evaluation of Sure Start Local Programmes (SSLPs) is examining the implementation, cost-effectiveness and impact of Sure Start for children, families and communities. It also provides support to SSLPs on their local evaluations. The National Evaluation runs from 2001 to 2008 and will cost £20.3 million in total.

To date, 10 reports from the national evaluation have been published and a further five will be published before the end of the year. The final report drawing together all the information from the evaluation will be published at the end of 2008.

Teachers

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what steps her Department has taken to persuade teachers who have left the profession to return. [28574]

Jacqui Smith: The Training and Development Agency for schools (TDA) commissions returners' courses to refresh and update returners' knowledge and skills. The TDA has funded over 300 courses between 2002 and 2005, with more than 6,000 places offered. Courses cover all aspects of the curriculum, assessment, classroom management, inclusion etc. as well a school placement to give participants a refresher of school life and to boost confidence. Every participant on a TDA-funded returners course is eligible for a training bursary of up to £150 per week (to a maximum of £1,500 for the duration of the course) and child care support.

The advice and guidance service Returning to Teach holds details of almost 17,000 former teachers. When a person registers, they are sent a pack with information about courses, useful contact details and termly copies of "return to teaching" magazines.

We have introduced a number of reforms to reduce teachers' work loads and to tackle the issues that concern them in the classroom, such as pupil behaviour. Teachers returning to the classroom will also benefit from improved pay.

Under-achievement

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of the introduction of the 50 per cent. university admission target upon the educational performance of children from low socio-economic backgrounds. [26057]

Bill Rammell: It would be difficult to show a direct causal relationship between the target of making progress towards 50 per cent. of 18 to 30-year-olds having had experience of HE, and school age performance. But there is evidence that our strategy of transforming the aspirations of children in order to widen participation in HE is boosting performance. For example, participation in summer schools (and other university and school-based holiday programmes), visits to higher education institutions and discussion about life at university with higher education staff and student have all been found in independent evaluation to be associated with higher attainment at key stage 4.

Union Learning Fund

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what changes in funding to the Union Learning Fund are proposed as a result of Priorities for Success. [28575]

Phil Hope: There are no changes in funding to the Union Learning Fund proposed as result of Priorities for Success. This document published by the Learning and Skills Council sets out a two-year strategy for the planning and funding of the further education sector that that will allow thousands more young people and adults to gain qualifications and skills for the workplace.

University Finance

Mr. Hancock: To ask the Secretary of State for Education and Skills what recent *(a)* discussions and *(b)* correspondence she has had with universities on ensuring that the increased funding for teaching provided by the Government is not allocated elsewhere; and if she will make a statement. [28285]

Bill Rammell: Government funding for teaching in higher education is allocated via the Higher Education Funding Council for England on a formula basis. Institutions receive this and their funding for research as block grant. The funding institutions will receive from HEFCE and student fees in the current spending review period to 2007–08 is sufficient to maintain the unit of student per funding in real terms, after many years of decline. It is for institutions to decide how best to spend this money, and we have no intention of micromanaging their budgets. It is more effective and less bureaucratic to judge institutions by the outcomes they achieve.

Youth Work Projects

Mr. Malik: To ask the Secretary of State for Education and Skills what steps she is taking to ensure accountability of voluntary and community sector (VCS) run youth work projects under the new youth service inspection arrangements, with particular reference to *(a)* the registration of VCS units with the local authority, *(b)* training and qualification of personnel and *(c)* inspection. [26681]

Beverley Hughes: Voluntary and community organisations are important partners in delivering the outcomes we want to see for children and young people. We expect that local authorities will engage with their local voluntary and community sectors in line with guidance relating to the Children Act 2004. Whether or not a local authority chooses to operate a system of registration for voluntary sector organisations they are funding and the nature of any registration system, including how this covers the training and qualification of personnel, is a matter for local decision.

Organisations in the voluntary and private sectors that work with children and young people need to work effectively with Local Safeguarding Children Boards (LSCBs) which will come into force from April 2006.

LSCBs will be responsible for establishing effective policies and procedures, based on national guidance, for checking the suitability of people applying for work with children and young people and ensuring that the children and young people's workforce is properly supervised, with any concerns acted on appropriately.

On inspection, joint area reviews of children's services, by several inspectorates, assess how services contribute to outcomes for children and young people. They include assessing the contribution of local authority funded youth services, whether provided by public or voluntary and community sectors. A joint area review will take place in each local authority area between September 2005 and December 2008.

SOLICITOR-GENERAL

Arms Embargoes

John Bercow: To ask the Solicitor-General what considerations are taken into account by the Crown Prosecution Service when assessing whether sufficient evidence has been assembled in order to prosecute British citizens who breach arms embargoes and restrictions. [29004]

The Solicitor-General: Alleged breaches of arms embargoes are normally investigated by HM Revenue and Customs (HMRC) and referred to the Revenue and Customs Prosecutions Office (RCPO) for consideration for prosecution. RCPO was established as an independent Department on 18 April 2005.

In determining whether an offence has been committed the RCPO prosecutor is governed by the Code for Crown Prosecutors issued by the Director of Public Prosecutions in accordance with s.10 of the Prosecution of Offences Act 1985. The prosecutor has to determine whether the evidence is sufficient to give a realistic prospect of conviction and whether a prosecution would be in the public interest.

Body Identification

Jon Trickett: To ask the Solicitor-General what recent discussions he has had with pathologists, forensic scientists and the National Missing Persons Helpline on liaison they undertake in connection with identifying bodies of unknown people. [27600]

Ms Harman: I have been asked to reply.

None. Pathologists, forensic scientists and others assist the coroner in identifying bodies of unknown people and how that is done is a matter for the judgment of the individuals concerned.

Literacy and Numeracy

Mr. Gibb: To ask the Solicitor-General what proportion of new recruits to his Department do not have a Level 2 qualification in English and mathematics. [23770]

The Solicitor-General: I am answering this question on behalf of the Crown Prosecution Service (CPS), the Treasury Solicitor's Department (TSol) the Serious Fraud Office (SFO), Revenue and Customs Prosecutions Office (RCPO), and HM CPS Inspectorate (HMCPSI).

The CPS undertakes a generally competence based approach to recruitment except where a qualification is a requirement of the post holder. Information on recruits who have a Level 2 qualification in English and Maths is not recorded centrally and could be obtained only at disproportionate cost.

The Treasury Solicitor's Department has only 26 posts which do not require Level 2 numeracy and literacy as a condition of entry. There is no central record of whether the incumbents of these 26 posts are qualified to Level 2 in English and mathematics.

The Serious Fraud Office does not have a standard requirement for entry level qualifications beneath the SCS and has adopted a competence; based approach to selection. Candidates are required to provide evidence of core competencies. The level to which candidates need to demonstrate their competence varies according to the seniority of the post. For specialist posts there may be a requirement for a recognised financial or legal qualification.

HMCPSI has no mandatory requirement for new recruits to have particular qualifications except in the case of legal inspectors where a legal qualification is required.

RCPO requires applicants to meet a minimum standard of GCSE grade C in English and mathematics (or equivalent). Where applicants do not meet this requirement it is possible for them to sit a literacy and numeracy test in order to assess their competence.

SCOTLAND

Departmental Staff (Literacy and Numeracy)

Mr. Gibb: To ask the Secretary of State for Scotland what proportion of new recruits to his Department do not have a level 2 qualification in English and mathematics. [23771]

David Cairns: All the staff in the Scotland Office are on loan from the Scottish Executive or the Department for Constitutional Affairs (DCA); the Office does not recruit staff directly.

The Scottish Executive does not collect this information centrally. Where job applicants do not meet the Executive's current entry criteria, tests may sometimes be used to give candidates the opportunity to display an equivalent level of numeracy and literacy; this will be made clear in the memorandum to the job advert. Applicants who attain the required score in the test will then be assessed against the competencies required for the post.

The DCA does not collect statistical data on the number of new recruits with level 2 qualifications. General recruitment asks for administration experience or the relevant qualifications (that is, five GCSEs, or equivalent, at grade C or above, including English) for administrative grades or 2 A levels (and English) for executive grades. Recruits can therefore be appointed on the basis of their experience or qualifications and no distinction is made between the two.

Mr. Gibb: To ask the Secretary of State for Scotland what methods of assessment of *(a)* literacy and *(b)* numeracy skills are used as part of the recruitment process by employees of his Department. [23795]

David Cairns: All the staff in the Scotland Office are on loan from the Scottish Executive or the Department for Constitutional Affairs (DCA); the Office does not employ staff directly.

The methods of assessment used by the Executive vary and are dependent on the type and level of skills required for the post. Numerical ability and verbal reasoning cognitive tests can be used to test numeracy and literacy skills respectively. Administrative selection tests, written in-tray and written policy exercises can be used to test both literacy and numeracy skills.

The DCA carries out no formal assessment of literacy and numerical skills for new recruits. Certain posts at Executive grade, and above, involve written or IT tests for posts in a policy area, communications or IT. General recruitment seeks administration experience or the relevant qualifications (that is, five GCSEs, or equivalent, at grade C, or above, including English) for administrative grades; or 2 A levels (and English) for Executive grades.

Mr. Gibb: To ask the Secretary of State for Scotland how much his Department spent on in-house training on *(a)* literacy and *(b)* numeracy (i) in total and (ii) per head, in each year since 2002. [23435]

David Cairns: All the staff in the Scotland Office are on loan from the Scottish Executive or the Department for Constitutional Affairs (DCA); the Office does not employ staff directly.

Staff have access to the full range of training available from their parent Departments but it is not possible to separately identify any costs incurred by staff on loan to the Office. The Scotland Office has not sent any staff on specific literacy or numeracy training courses, and thus has incurred no direct costs.

However, the Office does encourage staff to attend training courses and on-the-job training relevant to their posts and identified in their performance development plans. Such training can include elements of literacy and numeracy training; central records of such training elements are not held.

Scottish Consolidated Fund

Stewart Hosie: To ask the Secretary of State for Scotland on what dates in *(a)* 2004–05 and *(b)* 2005–06 payments have been made by the UK Government (i) into the Scottish consolidated fund and (ii) to the Scottish Executive; how much was paid on each occasion; and what the (A) basis and (B) authorisation was for each payment. [29605]

David Cairns: The Scotland Office transfers funds from the UK Consolidated Fund to the Scottish Consolidated Fund (SCF) at regular intervals based on a monthly assessment of need. Such transfers by the Office are under the general authority of the Secretary of State set out in the Scotland Act 1998.

These funds are then distributed from the SCF to the Scottish Executive, the Scottish Parliament Corporate Body, Crown Office etc. The Scotland Office does not make payments directly to the Scottish Executive.

Transfers into the SCF were as follows:

Payment date	*Amount (£)*
2004–05	
1 April 2005	1,796,600,000
4 May 2004	1,564,100,000
1 June 2004	1,382,500,000
29 June 2004	350,000,000
1 July 2004	1,275,400,000
2 August 2004	1,657,900,000
1 September 2004	1,643,250,000
1 October 2004	1,397,700,000
1 November 2004	852,400,000
1 December 2004	1,607,000,000
16 December 2005	300,000,000
4 January 2005	1,673,500,000
1 February 2005	1,415,000,000
1 March 2005	2,152,600,000
Total	19,067,950,000
2005–06	
1 April 2005	1,956,300,000
3 May 2005	1,770,250,000
16 May 2005	50,000
1 June 2005	1,674,900,000
1 July 2005	1,534,700,000
1 August 2005	1,882,700,000
1 September 2005	1,499,800,000

Total	13,024,700,000

Stewart Hosie: To ask the Secretary of State for Scotland how much and what percentage of the Scottish block of the Scottish Consolidated Fund has been transferred to the Scottish Executive in 2005–06; and if he will make a statement. [29618]

David Cairns: The Scotland Office transfers funds to the Scottish Consolidated Fund (SCF) on a monthly basis, from where it is distributed to various centrally funded bodies. The overall grant to the SCF is determined by the UK Parliament and Annexes 2, 3 and 4 of the Annual Report of the Scotland Office and the Office of the Advocate General for Scotland (Cm 6544) set out the grant payable to the SCF in 2003–04, 2004–05 and 2005–06 respectively. The allocation of the grant to the centrally funded bodies is a matter for the Scottish Parliament.

Labour Statistics

Andrew Rosindell: To ask the Secretary of State for Scotland how many people in Scotland have been economically inactive in each year since 1997. [29025]

David Cairns: Since 1997, the number of people in Scotland classed as economically inactive has fallen by some 85,000 to 635,000. The following table shows the number of people in Scotland who have been economically inactive in each year since 1997.

Labour force survey (four quarter averages)—Scotland

	Economic inactivity among the working-age population	
Date (June to May)	*Level*	*Rate*
1996–97	720,000	23.0
1997–98	708,000	22.7
1998–99	707,000	22.7
1999–2000	702,000	22.5
2000–01	672,000	21.5
2002–03	657,000	21.0
2003–04	657,000	21.0
2004–05	635,000	20.3

Literacy and Numeracy

Mr. Gibb: To ask the Secretary of State for Scotland how many employees in his Department requested training to improve their *(a)* literacy and *(b)* numeracy skills in each year since 2002. [23415]

David Cairns: All the staff in the Scotland Office are on loan from the Scottish Executive or the Department for Constitutional Affairs (DCA); the Office does not employ staff directly.

The Scottish Executive does not hold details of requests for training in literacy and numeracy. The Executive's Learning Strategy recognises the importance of continuous support to staff through training to improve their skills and qualifications reflecting the commitment set out in the Lifelong Learning Strategy for Scotland.

The DCA provides free training to staff in improving their literacy and numeracy. Staff are able, anonymously, to check their level of literacy and numeracy; where necessary, this process points individuals towards local training to meet their needs. A central record of those who avail themselves of the opportunity is not maintained.

Mr. Gibb: To ask the Secretary of State for Scotland what steps he is taking to promote uptake of the national tests in adult literacy and numeracy amongst employees of his Department. [23439]

David Cairns: All the staff in the Scotland Office are on loan from the Scottish Executive or the Department for Constitutional Affairs (DCA); the Office does not employ staff directly.

The Scottish Executive Learning Strategy recognises the importance of continuous support to staff through training to improve their skills and qualifications reflecting the commitment set out in the Lifelong Learning Strategy for Scotland.

The Department for Constitutional Affairs has promoted the national tests in adult literacy and numeracy via presentations at regional and area boards; at annual Learning At Work Week events; in the workplace via their local training co-ordinators; in their regional training centres; and on their departmental intranet. They will be re-launching these tests to the newly-created Her Majesty's Court Service and the rest of the DCA shortly.

Scottish Parliament (Election)

Mr. Alan Reid: To ask the Secretary of State for Scotland whether he plans to bring forward proposals to change the rules for the election to the Scottish Parliament that will take place in 2007; and if he will make a statement. [29044]

David Cairns: The Secretary of State for Scotland has no current plans to change the system for elections to the Scottish Parliament.

He has, however, charged the Commission on Boundary Differences and Voting Systems, under the chairmanship of Sir John Arbuthnott, as part of its remit to examine the method of election to the Scottish Parliament. The Commission is due to report to the Secretary of State at the turn of the year.

UK Ambassador to the Holy See

Andrew Mackinlay: To ask the Secretary of State for Scotland what discussions he has had with the Foreign Office about the advertisement and recruiting procedure in relation to Scotland for the post of UK ambassador to the Holy See. [28152]

David Cairns: My right hon. Friend has had no discussions on this matter.

HEALTH

"Health Outside Hospitals"

Mr. Lansley: To ask the Secretary of State for Health when the tender for the contract to run the consultation on the "Health Outside Hospitals" White Paper was published in the Official Journal of the European Union. [25107]

Mr. Byrne: No tender notice was placed in the Official Journal of the European Union (OJEU) regarding the "Your Health, Your Care, Your Say" listening exercise because it was not required. The contract was awarded on behalf of the Department by the Central Office of Information (COI) to a company with whom they hold a framework agreement. COI framework agreements are awarded in compliance with the EU directive, including the requirement to place a notice in the OJEU inviting applicants. Contracts can then be awarded to the holders of such framework agreements without the need to advertise them separately in the OJEU.

In this instance, the contract was awarded following a competitive tender among a number of agencies with whom COI holds framework agreements.

Accident and Emergency Services

Mike Penning: To ask the Secretary of State for Health how many general hospitals offer 24 hour a day, seven days a week acute services in England; how many are planned to offer these services in 2010–11; and if she will make a statement. [24723]

Mr. Byrne: There were 207 multi-specialty, consultant-led, 24-hour accident and emergency (A&E) departments in England at the end of September 2005. Future location and provision of A&E departments is a matter for local not central decision and there are no forecast of numbers for 2010–11 available. In planning local provision of A&E services, health communities are expected to observe the general principle that all emergency and urgent care should be delivered where possible as close to home as is compatible with clinical safety.

Acute Hospitals

Mr. Maude: To ask the Secretary of State for Health how many acute hospitals have provided consultant-led maternity facilities in each year since 1990. [25282]

Mr. Byrne: This information is not collected centrally.

The maternity records collected through the hospital episodes statistics system are usually identified only to trust level, rather than to any specific unit within the trust. Some trusts provide information regarding the

staff group with lead responsibility for care for example, midwife-led or consultant-led, but this does not allow the identification of consultant-led units.

Alcohol-related Admissions

Mike Penning: To ask the Secretary of State for Health (1) how many alcohol-related admissions there were to Hemel Hempstead hospital in each year since 1997; [25558]

(2) what percentage of attendances at accident and emergency departments run by West Hertfordshire Hospital Trust were alcohol-related in each of the last five years; and if she will make a statement. [25560]

Ms Rosie Winterton: Data for alcohol related admissions in Hemel Hempstead general hospital is not available centrally. Data are not collected at an individual hospital level. However, this data is available at trust level, we have therefore provided the relevant data for the West Hertfordshire Hospital Trust who provide services from several organisations, including Hemel Hempstead general hospital.

This data is shown in the tables.

Counts of finished admission episodes for selected providers where there was a primary diagnosis code for selected[1] alcohol related diseases
NHS Hospitals England, 1997–98 to 2003–04

	Provider of Treatment		
	RPW St. Albans and Hemel Hempstead NHS Trust	*RQL Mount Vernon and Watford Hospital*	*RWG West Hertfordshire Hospitals NHS Trust*
1997–98	76	93	—
1998–99	72	72	—
1999–2000	74	58	—
2000–01	—	—	90
2001–02	—	—	113
2002–03	—	—	142
2003–04	—	—	157

[1] Alcohol related diseases defined as following ICD-10 codes recorded in primary diagnosis:

F10: Mental and behavioural disorders due to use of alcohol,

K70: Alcoholic liver disease,

T51: Toxic effect of alcohol

NHS Hospitals England, 1997–98 to 2003–04

Notes:

1. Finished admission episodes.

A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

2. Diagnosis (Primary Diagnosis)

The primary diagnosis is the first of up to 14 (7 prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient

was in hospital.

Ungrossed Data

Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

BCG Vaccination

Annette Brooke: To ask the Secretary of State for Health pursuant to the answer of 24 October 2005, *Official Report*, column 165W, on BCG vaccinations, what guidance she has issued to primary care trusts to make information available to parents of children who will no longer receive routine BCG vaccinations on what action they should take should they *(a)* move from a low risk area to a high risk area and *(b)* undertake an activity which increases the risk of being exposed to TB. [25480]

Caroline Flint *[holding answer 8 November 2005]:* Further to the Chief Medical Officer's letter of 6 July announcing changes to the Bacille Calmette Guerin programme, operational guidance was sent to primary care immunisation co-ordinators on 18 August. A copy is on the Department's website at: www.dh.gov.uk/PolicyAndGuidance/HealthAndSocialCareTopics/Tuberculosis/fs/en

Cancer

Andrew Rosindell: To ask the Secretary of State for Health if she will make it her policy to develop wards specifically for young cancer patients. [25118]

Ms Rosie Winterton: In October 2004, we published the national service framework for children, young people which recommended the importance of providing children and young people with access to high quality, age appropriate services whatever the setting.

The National Institute for Health and Clinical Excellence published in August 2005 guidance on "Improving Outcomes in Children and Young People with Cancer". This guidance addresses access to age appropriate facilities and places of care. The National Cancer Director has established an advisory group of major stakeholders to facilitate the implementation of the guidance, but ultimately it will be for local commissioners, via their cancer networks and local service providers, to ensure that the services they provide meet the recommendations in this guidance.

Carbon Monoxide

Mr. Hancock: To ask the Secretary of State for Health what recent discussions she has had with *(a)* the Secretary of State for Work and Pensions, *(b)* Ofgem, *(c)* the Health and Safety Commission and *(d)* CORGI with regards to the proposal from the Health and Safety Commission for a levy on the gas industry to fund a watchdog to promote carbon monoxide awareness; and if she will make a statement. [25278]

Caroline Flint: Officials in the Department are in regular contact with officials in the Health and Safety Executive (HSE). These contacts ensure that there is a shared understanding of the effects of carbon monoxide on health. Strategies for reducing cases of accidental poisoning are discussed regularly. The Chief Medical Officer often draws attention to the dangers of exposure to carbon monoxide in his CMO update letter to doctors. A leaflet, for distribution to all General Practices will be distributed in November. The leaflet has been endorsed by HSE, The Solid Fuel Association, CORGI, CO-Gas Safety and the Heating Equipment Testing and Approval Scheme. The Office of the Deputy Prime Minister assisted in the drafting of the leaflet. The leaflet is entitled "Carbon Monoxide: Risks to health and how to avoid them".

The combined emphasis on prevention of poisoning and recognition of poisoning reflects the cross-department approach to this important problem. The Department has not discussed the proposal for a levy on the gas industry to fund a watchdog to promote carbon monoxide awareness; this is a matter for the HSE.

Cochlear Implants

Malcolm Bruce: To ask the Secretary of State for Health (1) how many *(a)* children and *(b)* adults are awaiting cochlear implants in each region of England; what projections have been made for the number of cochlear implant treatments over the next five years; what resources have been allocated to this; and if she will make a statement; [25719]

(2) what guidance has been given to primary care trusts in relation to the allocation of resources for cochlear implantation treatment; [25720]

(3) how many *(a)* children and *(b)* adults were provided with cochlear implants in each region of England in the last five years. [25744]

Mr. Byrne: Information on the numbers of people waiting for cochlear implants and the projected demand is not held centrally. It is for primary care trusts to determine the allocation of resources for their local population based on local need.

The number of children and adults who were provided with cochlear implants in each region of England is shown in the table.

All Operations Count of Episodes (OPCS4 D24.1, D24.2) Implantation of intra/extra cochlear prosthesis NHS Hospitals, England 1999–2000 to 2003–04

South West Regional Office	6	16	8	10	10	13	10	11	8	20

Notes:

All Operations count of Episodes.

These figures represent a count of all FCE's where the procedure was mentioned in any of the 12 (4 prior to 2002–03) operation fields in a HES record.

A record is only included once in each count, even if an operation is mentioned in more than one operation field of the record.

Finished Consultant Episode (FCE).

An FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year

Main Operation

The main operation is the first recorded operation in the HES data set and is usually the most resource intensive procedure performed during the episode.

It is appropriate to use main operation when looking at admission details, eg. time waited, but the figures for "all operations count of episodes" give a more complete count of episodes with an operation.

Secondary Procedure
As well as the main operative procedure, there are up to 11 (3 prior to 2002–03) secondary operation fields in Hospital Episode Statistics (HES) that show secondary or additional procedures performed on the patient during the episode of care
Ungrossed Data
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed)
Source:
Hospital Episode Statistics (HES), Health and Social Care Information Centre

Equal Pay Claims

Mr. Evans: To ask the Secretary of State for Health what the cost has been of equal pay claims in each year since 1997, broken down by NHS trust. [25725]

Mr. Byrne *[holding answer 7 November 2005]:* Information about the cost of equal pay claims and associated legal costs is not available centrally.

Gloucestershire Primary Care Trust

Mr. Harper: To ask the Secretary of State for Health what criteria she used to assess the suitability of the candidates before she appointed *(a)* the chairman and *(b)* the non-executive directors of the West Gloucestershire primary care trust. [25371]

Caroline Flint: The Secretary of State has delegated the responsibility for the appointment of chairs and members of primary care trusts to the NHS Appointments Commission, of which the Chair is Sir William Wells.

Community Hospitals

Mr. Lansley: To ask the Secretary of State for Health what plans she has to monitor the number of intermediate care bed places in the community hospitals sector. [26001]

Mr. Byrne: Data on the number of intermediate care beds, the number of places in non-residential intermediate care schemes and the number of people using intermediate care are collected. There are no plans to expand the collection.

Contraception

Andrew Rosindell: To ask the Secretary of State for Health how much has been spent on free contraception for women in each year since 1997. [25906]

Caroline Flint: The information requested is shown in the table.

The amount spent by the NHS on free contraception for women since 1997

£ million

Financial years	Cost of condoms[1] distributed by the NHS	Cost of items[2] prescribed by GPs	Cost of items[3] distributed by family planning clinics	Total estimate
1997–98	—	42	—	—
1998–99	—	43	—	—
1999–2000	—	45	—	—
2000–01	—	48	—	—
2001–02	—	50	—	—
2002–03	4	54	—	—
2003–04	4	59	—	—
2004–05	4	64	20	88

[1] This is based on figures from the NHS Logistics Authority and an estimate of further spend by the NHS (for men and women).
[2] Data from the Prescription Pricing Authority for prescriptions dispensed in the community based on net ingredient costs.
[3] This is estimated using the 2004–05 NHS contraceptive services data and costs from the Monthly Index of Medical Specialities (MIMS) October 2005

Dacorum Primary Care Trust

Mike Penning: To ask the Secretary of State for Health (1) what her latest estimate is of the outturn against planned expenditure in 2005–06 of Dacorum Primary Care Trust; [25571]

(2) if she will make a statement on the financial position of the Dacorum Primary Care Trust. [25584]

Ms Rosie Winterton: The latest financial year for which the audited financial information of all national health service organisations (strategic health authorities, primary care trusts and NHS trusts) is available is 2004–05. A copy of this information is available in the Library. It is also available on the Department's website at: www.dh.gov.uk/PublicationsAndStatistics/FreedomOfInformation/ClassesOfInformation/fs/en.

The final position for Dacorum Primary Care Trust for 2004–05 is an overspend against their revenue resource limit of £4.8 million.

Fibromyalgia

Mr. Hepburn: To ask the Secretary of State for Health (1) how many people have been diagnosed with fibromyalgia in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997; [26568]

(2) how much the Government spent on treatment for fibromyalgia in 2004–05; and what the estimate is for 2005–06. [26562]

Mr. Byrne [holding answer 7 November 2005]: Data on the incidence of, and expenditure on treatment for, fibromyalgia is not available.

Fluoride

Steve Webb: To ask the Secretary of State for Health what assessment she has made of whether there is a link between fluoride and bone cancer; and if she will make a statement. [25542]

Caroline Flint: The systematic review of water fluoridation published by the University of York in year 2000 found no evidence of an association between water fluoridation and bone cancer. We are however aware that, on 6 June 2005, a research organisation in the United States of America, the environmental working group, published a press release asking the national toxicology program of the National Institutes of Health (NIH) to list fluoride in tap water in its report on carcinogens. The request was based on the findings of a doctoral thesis completed in 2001 by a student at Harvard School of Dental Medicine. We have been informed by the oral health division of the Centers for Disease Control that the author of the thesis has invited them to review her findings as part of the peer review process conducted before a research study is published. We have asked to be kept informed.

Food Standards Agency

Mr. Borns: To ask the Secretary of State for Health whether she intends to accept the advice to Ministers agreed by the Board of the Food Standards Agency at their board meeting on 15 September in relation to their objectives for the setting of maximum permitted levels for vitamin and mineral supplements under the provisions of the food supplements directive; what her strategy is for achieving her objectives in relation to this legislation; and if she will make a statement. [17916]

Caroline Flint *[holding answer 17 October 2005]:* The Chair of the Food Standards Agency (FSA) has written to the Parliamentary Under-Secretary of State for Public Health setting out the FSA's advice. Ministers will consider this advice, and a strategy will be developed following any decisions.

Healthcare

Mr. Carswell: To ask the Secretary of State for Health what plans the Government has to *(a)* upgrade Clacton Hospital and *(b)* improve local health care provision in Clacton and Holland-on-Sea. [25447]

Ms Rosie Winterton: This Government have no plans to upgrade Clacton hospital, as the responsibility for configuration and delivery of local services is a matter for the local national health service, working in partnership with its local community.

Mike Penning: To ask the Secretary of State for Health what assessment has been made of the merits of contestability in the provision of healthcare in Hertfordshire. [23023]

Ms Rosie Winterton: The introduction of greater contestability across the national health service is all about giving patients faster access, increased choice, improved services, or better value for money for the taxpayer by raising productivity and innovation.

Decisions about the levels of independent sector involvement in the Hertfordshire area have been made on the basis of local capacity planning and the need to increase patient choice.

Herceptin

Paul Farrelly: To ask the Secretary of State for Health (1) if she will take steps to make additional funding available to primary care trusts to enable them to fund the prescription of Herceptin for early stage breast cancer patients who have been diagnosed as likely to benefit from the drug before it officially receives a licence for early stage use; [16949]

(2) if she will review the funding available to primary care trusts for the prescription of herceptin for the treatment of *(a)* susceptible early stage breast cancer patients whose consultants are willing to take responsibility for the treatment and *(b)* susceptible advanced stage breast cancer patients. [16950]

Ms Rosie Winterton *[holding answer 12 October 2005]:* The cost of herceptin will need to be met from the existing settlement agreed with the national health service. We understood that some trusts are already under financial pressures and may have to make difficult decisions in achieving this. However, we have greatly increased NHS funding and trusts with deficits have financial recovery plans in place.

The re-negotiation of the pharmaceutical price regulation scheme in January resulted in a seven per cent. reduction in the prices of medicines. This will deliver savings of around £2 billion in the NHS over the next five years. The price of herceptin remains unchanged but savings are being delivered by reductions in other products.

The Secretary of State has asked Professor Mike Richards, the National Cancer Director, to work with the NHS to ensure HER2 testing arrangements are put in place as soon as possible, so that patients who may benefit from herceptin can be identified.

Hertfordshire and Bedfordshire NHS Ambulance Trust

Mike Penning: To ask the Secretary of State for Health what plans she has to re-structure the Hertfordshire and Bedfordshire NHS Ambulance Trust. [25815]

Ms Rosie Winterton: The Department published the outcome of a strategic review of national health service ambulance services on 30 June 2005, 'Taking Healthcare to the Patient: Transforming NHS Ambulance Services'. The review, led by the National Ambulance Adviser, supported by a group of stakeholders, sets out how ambulance services can be transformed from a service focusing primarily on resuscitation, trauma and acute care towards becoming a mobile health resource for the whole NHS—taking healthcare to the patient in the community.

In order to realise the vision and the benefits of 'Taking Healthcare to the Patient: Transforming NHS Ambulance Services', ambulance trusts need to be of a size that enables appropriate investment in people and resources to underpin current and future services and enable the vision set out in the ambulance review to be delivered. We are therefore proposing that there should be fewer, bigger ambulance trusts and will be undertaking public consultation on these proposals this winter. These proposals, if implemented, would ensure

resources are targeted to where they are most needed—improving patient care and supporting front-line services.

Hospital Care

Andrew Rosindell: To ask the Secretary of State for Health what steps are being taken to improve the level of care in hospitals on *(a)* geriatric and *(b)* accident and emergency wards. [25870]

Mr. Byrne: The older people's national service framework (NSF) sets out the steps the Department is taking to improve the level of care in and outside hospital for older people. The next steps programme of the NSF is looking specifically at improving the dignity and privacy of older patients.

Care in accident and emergency (A and E) has been transformed over the last three years. In 2002–03 almost one in four patients spent over four hours in A and E from arrival to admission, transfer or discharge. Well over 19 out of 20 are now in and out within four hours and the majority within two hours of arrival.

Influenza

Bill Wiggin: To ask the Secretary of State for Health how many people are eligible for a free influenza vaccination. [24937]

Caroline Flint: There are an estimated 11 million people in the clinical target groups eligible to receive free flu vaccination. These groups are given in the Chief Medical Officer's letter to general practitioners dated 25 July.

Charles Hendry: To ask the Secretary of State for Health under what circumstances persons under the age of 65 years are given influenza vaccinations; whether they are available to anyone under the age of 65 years who requests them; what obligations general practitioners' surgeries are under to administer such vaccinations; and what information and guidance has been disseminated by her Department to surgeries in this respect. [24956]

Caroline Flint *[holding answer 8 November 2005]:* Influenza vaccine is available for anyone aged over six months in one of the following risk categories:

Chronic respiratory disease, including asthma

Chronic heart disease

Chronic renal disease

Chronic liver disease

Diabetes

Immunosuppression

Details of this year's influenza immunisation programme were issued to general practitioners on 25 July.

The final decision as to who should be offered flu immunisation is a matter for the patients general practitioner but should take into account the risk of influenza infection exacerbating the underlying disease as well as the risk of serious illness from influenza.

Under the new general practitioner (GP) contract introduced in 2004, influenza vaccination became a directed enhanced service (DES). Primary care trusts commission GPs to carry out flu immunisations under the DES.

Mr. Jenkins: To ask the Secretary of State for Health how many doses of influenza vaccine are available in *(a)* Staffordshire and *(b)* England. [26158]

Caroline Flint: The Department does not centrally purchase flu vaccine. General practitioners purchase their own supply of vaccine from one of the six United Kingdom suppliers, based on the number of eligible patients on their practice register.

13.4 million doses of flu vaccine are available to order this year.

Meals on Wheels (Leeds)

Greg Mulholland: To ask the Secretary of State for Health how many meals on wheels were distributed in Leeds North West in each year since 1997; and what assessment she has made of the effectiveness of the Fair Access to Social Care Initiative. [25767]

Mr. Byrne *[holding answer 7 November 2005]:* This information is not centrally available. Views on the fair access to social care initiative were sought specifically as part of the Green Paper, "Independence, Well-being and Choice". These views are being considered as we take this forward as part of the development of the White Paper.

Mental Health

Mike Penning: To ask the Secretary of State for Health how many children aged five to 16 years in Hemel Hempstead have a clinically diagnosed mental disorder. [25561]

Ms Rosie Winterton: The information requested is shown in the table.

Number of patients with a primary psychiatric diagnosis (ICD-10 codes F00 to F99)[1] by gender and age, Dacorum Primary Care Trust, 2003–04[2]

Aged 5 to 16 years	*Number*
Male	0
Female	10
All patients	10

[1] Diagnoses are taken from chapter V (Mental and Behavioural Disorders) of the 10th Revision of the International Classification of Diseases (ICD-10).

[2] Figures have not been adjusted for shortfalls in data, ie the data are ungrossed.

Note:

Disclosure rules apply due to the sensitive nature of the data; therefore, figures have been rounded to the nearest 10.

Source:

Hospital Episode Statistics (HES), NHS Health and Social Care Information Centre.

Mike Penning: To ask the Secretary of State for Health how much funding has been allocated to *(a)* preventive and *(b)* early intervention services for children's mental health disorders in Hemel Hempstead constituency in 2005–06. [25562]

Ms Rosie Winterton: In 2005–06, £1.207 million was allocated to Hertfordshire county council for Child and Adolescent Mental Health Services (CAMHS).

It is for primary care trusts (PCTs) to commission child and adolescent mental health services (CAMHS) for their resident population in line with their CAMHS development strategy prepared jointly with their partners in the local authority. PCTs are obliged to be working towards the delivery of the public service agreement standard of a comprehensive CAMHS by the end of 2006.

We expect both PCTs and local authorities to fund CAMHS. In 2005–06, both PCTs and local authorities have been given additional funds for CAMHS over and above what they may have already earmarked from their own resources.

Mixed Sex Wards

John Bercow: To ask the Secretary of State for Health (1) what steps are being taken by her Department to phase out mixed sex wards in hospitals; [25846]

(2) when she expects the phasing out of mixed sex wards in hospitals to be completed. [25847]

Ms Rosie Winterton: The Department has given a clear commitment to improving patient privacy and dignity and to the phasing out of mixed-sex accommodation.

Current guidelines state that male and female patients should have access to separate bathroom and toilet facilities, and should be cared for in separate sleeping areas. Separate sleeping areas for men and women can be achieved using a variety of different layouts, including combinations of single rooms and single-sex bays within wards.

The national health service met our target to provide single-sex accommodation in 95 per cent. of NHS trusts by December 2002. Progress has continued, with 97 per cent. of NHS trusts achieving these objectives by January 2005.

No further targets have been set. We are using the framework of national standards to build on what has been achieved. Under this framework, the NHS is required to provide single-sex accommodation but is also required to ensure that each individual patients privacy and dignity is protected. The Healthcare Commission will monitor compliance to these standards.

Morecambe Bay Hospital Trust

Geraldine Smith: To ask the Secretary of State for Health how many managers are employed by Morecambe Bay Hospital Trust. [26333]

Mr. Byrne: The information requested is shown in the table.

National health service hospital and community health services: senior managers and managers employed by Morecambe Bay Hospitals Trust as at 30 September 2004

	headcount
Total specified staff	127
Senior manager	73
Manager	54

Health and Social Care Information Centre Non-Medical Workforce Census 2004

Neurological Conditions

John Bercow: To ask the Secretary of State for Health (1) what representations she has received regarding the treatment of neurological conditions; [25834]

(2) what steps are being taken by her Department to improve the provision of *(a)* treatment and *(b)* rehabilitation services for people with neurological conditions; [25835]

(3) what steps are being taken by her Department to improve the provision of high quality appropriate local respite care for people with neurological conditions.[25836]

Mr. Byrne: The national service framework (NSF) for long-term conditions focuses on improving services for people with neurological conditions across England. People with these conditions will get faster diagnosis, more rapid treatment and a comprehensive package of care under the NSF.

Services in the NSF include:

comprehensive assessment and regular review of people's problems;

joint health and social care plans that change over time (especially for people with rapidly progressing conditions) and take other needs into account such as housing, transport, benefits, education, careers advice, employment and leisure;

everyone having a single point of access to services via a named contact;

self-referral, allowing people to refer themselves quickly back to services as their care needs change;

access to a broad range of services including rehabilitation, equipment, accommodation, and personal care to help people live as independently as possible at home, and palliative care;

and support to help people to work or take up other vocational opportunities.

We have taken an inclusive approach to developing this NSF, involving a wide range of stakeholders either directly through the external reference group and its sub-groups or through open consultation. The NSF is therefore comprehensive in its coverage of all aspects of care and support for people with long-term conditions and closely mirrors the aspirations of all those who have contributed to its development.

Quality requirement eight of the NSF specifically addresses the provision of respite care to enable people to achieve maximum choice about living independently at home.

NHS Professionals

Anne Milton: To ask the Secretary of State for Health what discussions she has had with Guildford and Waverley primary care trust about the implementation of NHS Professionals. [25822]

Caroline Flint: A letter dated 5 April 2004 was sent from the Department informing all chief executives of national health service trusts, primary care trusts and strategic health authorities (SHA) about the inception of NHS Professionals.

NHS Professionals was established as a SHA in April 2004 to play a significant part in securing appropriate and effective use of temporary staff and reducing NHS expenditure on private agency staff.

The implementation of NHS Professionals is a matter for agreement between NHS Professionals and NHS trusts wanting to engage with their services. The actual implementation process of NHS Professionals takes place in four stages; initial contact, consultation, pre-implementation and implementation. This spans a 12–16 week period when NHS Professionals works in partnership with the trust, combining their resources and working to pre-agreed deadlines ensuring the seamless transition of temporary staffing services.

NHS Staff (Assaults)

Mike Penning: To ask the Secretary of State for Health how many assaults have been committed against NHS workers while on duty in Hemel Hempstead constituency in each year since 1997. [25557]

Ms Rosie Winterton: The number of assaults on staff is shown in the table for the period 2000 to 2003 which is the latest data available.

Number of reported violent incidents in the specified organisations in each specified year

		2000–01	2001–02	2002–03
Total specified organisations		53	161	117
Bedfordshire and Hertfordshire Ambulance and Paramedic Service NHS Trust	RFU	45	48	75
Bedfordshire and Hertfordshire SHA	Q02	[1]—	[1]—	[2]—
Dacorum PCT	5GW	[1]—	3	0
West Hertfordshire Hospitals NHS Trust	RWG	8	110	42

[1] Not applicable.

Survey of Violence, Accidents, Harassments, in the NHS

Nursing Homes

Mr. Laurence Robertson: To ask the Secretary of State for Health what encouragement is given to nursing homes to provide residents with activities to help stimulate the mind; and if she will make a statement. [24780]

Mr. Byrne *[holding answer 7 November 2005]:* Regulation 16 of the Care Homes Regulations 2001, requires nursing and care home providers to consult service users about their social interests, to make arrangements to enable them to engage in local, social and community activities and to visit, or maintain contact or communicate with their families and friends.

Care homes must also consult with service users about the programme of activities arranged by or on behalf of the home, and provide facilities for recreation including, having regard to the needs of service users, activities in relation to recreation, fitness and training.

The national minimum standards set out in more detail what care homes are expected to do to meet residents expectations, preferences and capacity for social contacts and activities.

Opthalmic Services

Mr. Baron: To ask the Secretary of State for Health what assessment she has made of the progress made by the General Ophthalmic Services in England towards providing patients with choice as described in The Nation's Health and Social Change pamphlet. [22133]

Ms Rosie Winterton *[holding answer 27 October 2005]:* National health service sight tests are available to certain priority groups, mainly people aged 60 and over, children under 16, those aged under 19 in full-time education, defined categories of people at particular risk of developing eye disease and people on low incomes who might otherwise be deterred by the cost of a private sight test. These individuals may choose which contractor listed with their primary care trust provides their sight test under NHS arrangements.

Financial help towards the cost of glasses or contact lenses, via an optical voucher, is available to children under 16, those aged under 19 in full-time education and those on a low income. These individuals may take their optical voucher to an outlet of their choice and use their voucher as full or part payment towards a pair of glasses or contact lenses of their choice. They are not obliged to buy glasses or contact lenses from the practice where they had their sight tested.

PCT Deficits

Mike Penning: To ask the Secretary of State for Health whether repayments of deficits of primary care trusts brought forward from 2004–05 will affect the level of the 2005–06 settlement; and if she will make a statement. [24719]

Mr. Byrne: The repayment of 2004–05 deficits by individual primary care trusts will not affect the Department's settlement in 2005–06 because they were offset by surpluses elsewhere.

Post-traumatic Stress Disorder

Bill Wiggin: To ask the Secretary of State for Health what provision her Department has made for veterans suffering from severe post-traumatic stress disorder. [24842]

Ms Rosie Winterton: National health service trusts have a responsibility to provide services to meet the mental health needs of all those who are eligible for treatment including veterans. To provide health care professionals with recommendations for good practice, the National Institute for Health and Clinical Excellence published treatment guidelines for the management of post-traumatic stress disorder (PTSD) in primary, secondary and community care in March 2005. The Department has been actively promoting awareness of such good practice in its work with other Government Departments and Agencies, as well as liaising with relevant professional bodies to try to ensure that more staff are trained in effective approaches to the management of PTSD.

Psychiatric Hospitals

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of the security of psychiatric hospitals in England; and what steps she is taking to improve the security of such hospitals. [25106]

Ms Rosie Winterton: The Department commissioned a security review at the three high security hospitals (Broadmoor, Ashworth and Rampton) in 2000, which recommended improved security measures to the perimeter and internal security of the hospitals. The Government accepted that all of the review report's recommendations should be implemented.

These hospitals must also comply with safety and security directions given to the hospitals by the Department, which encompass various security requirements and cover issues such as the searching of patients and their rooms, the circumstances in which patients should be permitted access to computers and the arrangements that should be made for the testing of patients for illicit substances.

The high security hospitals are also subjected to annual prison service security audits. The prison service security audit team report that the audits show that security standards at the hospitals are essentially satisfactory and continue to improve.

Guidance on the design of medium secure units is provided in the "Design Guide for Medium Secure Psychiatric Units" published by NHS Estates. This document is being reviewed and revised and will be re-issued by spring next year.

Security of all units combines physical, operational and relational aspects, which consider building and engineering design, operational policies and staffing levels. Other measures to improve relational security included the joint interim guidance from the National Institute for Mental Health in England (NIMHE) and the National Patient Safety Agency (NPSA) in February 2004 to support mental health service providers and enable them to review their current policies and procedures relating to education, training and practice in the safe and therapeutic management of aggression and violence.

The NPSA is also engaged in the 'Safer Wards for Acute Psychiatry' initiative, a two-year evidence based project which aims to understand and address system issues that impact on patient safety on acute psychiatric in-patient settings. The project will be completed in March 2006.

The NIMHE/NPSA joint guidance was followed in February 2005 by guidelines from the National Institute for Health and Clinical Excellence (NICE) for the national health service on the management of disturbed or violent behaviour in psychiatric in-patient settings and emergency departments.

Renal Services

John Bercow: To ask the Secretary of State for Health what action is being taken by her Department to improve access to local renal services, with particular reference to dialysis. [25844]

Ms Rosie Winterton: The Department has provided £60 million additional funding between 2000–01 and 2005–06 for capital investment to expand dialysis services. Survey data show the number of haemodialysis stations in England increased by more than a third between 1998 and 2002, from 1,890 to 2,582, with a further 378 planned at that point, the most recent for which complete data are available. Many of these are in satellite units, which can be sited to provide access to dialysis closer to home for renal patients with routine conditions: the number of satellite units rose from 73 in 1998 to 101 in 2002, with a further 34 planned.

This supports "The National Service Framework for Renal Services, Part One", which the Department published in 2004, which set standards for dialysis services and identified their continued expansion as an early action for commissioners. The national surveys commissioned by the Department provide data to support the planning and commissioning of dialysis services.

Many patients rely on hospital transport services to access the dialysis unit. The Department has funded two action learning sets to develop and test improvements to non-emergency patient transport services for dialysis patients, in urban and rural areas. These are due to report in January 2006.

Royal Shrewsbury Hospital (Car Park)

Daniel Kawczynski: To ask the Secretary of State for Health if she will take steps to enable the Royal Shrewsbury hospital to stop charging patients for using the car park. [26068]

Ms Rosie Winterton: It is a matter for individual national health service trusts to decide whether or not to charge for car parking, and the level of charges in the light of local circumstances. We have no plans to change this, either generally or in relation to particular NHS trusts.

Skin Cancer

Andrew Rosindell: To ask the Secretary of State for Health what steps she will take to increase awareness of the risks of skin cancer. [25899]

Caroline Flint: The Department and the other United Kingdom health departments have commissioned Cancer Research UK to run SunSmart, which was launched in 2003, as the national skin cancer prevention and sun protection campaign. The SunSmart campaign includes raising both public and professional awareness of skin cancer through providing information about it and guidance on preventative measures to reduce the risks associated with skin cancer. The campaign raises awareness through support for health promotion events, the provision of printed resources, media briefings and through the SunSmart website. SunSmart also supports schools in developing their own sun protection policies through school guidelines and curriculum resources.

Smoking

Andrew Rosindell: To ask the Secretary of State for Health what steps the Government are taking to help adults stop smoking. [26471]

Caroline Flint: Since 1998, the Government have put in place a comprehensive strategy to tackle smoking to reduce the deaths caused by smoking. The strategy focuses on action to discourage people from ever starting, and help for all smokers. We are aiming to create a climate where non-smoking is the norm.

We have banned almost all tobacco advertising, sponsorship and promotion. Our highly effective national anti-smoking education campaign is reaching smokers and helping motivate them to quit. People who wish to give up smoking can get help from the national health service stop smoking services. We set out proposals to bring in new measures to improve the way the NHS helps smokers to give up in our White Paper "Choosing Health". We will reduce exposure to secondhand smoke through; the Health Biil introduced to Parliament on 27 October includes a ban on smoking in enclosed workplaces and public places that will cover 99 per cent. of the workforce. We will consult on introducing picture warnings onto tobacco packs. Together this strategy has helped reduce adult smoking rates in England from 28 per cent. in 1998 to 25 per cent. in 2003, around 1.2 million smokers.

Stephen Williams: To ask the Secretary of State for Health (1) when the Government plans to publish the responses received during the consultation on the smokefree elements of the Health Bill; [27342]

(2) whether the Government plans to publish an analysis of the responses to the consultation on the smokefree elements of the Health Bill. [27345]

Caroline Flint *[holding answer 11 November 2005]:* We intend to publish a summary of the responses to the consultation on the smokefree elements of the Health Bill shortly.

A copy will be placed in the Library.

Vacuum-assisted Closure Machines

John Bercow: To ask the Secretary of State for Health (1) what representations she has received regarding the use of vacuum-assisted closure machines in the treatment of pressure ulcers; [25855]

(2) what assessment she has made of the long-term cost-effectiveness of using vacuum-assisted closure machines in the treatment of pressure ulcers in place of more traditional methods; [25856]

(3) what plans her Department has to expand the use of vacuum-assisted closure machines across the NHS. [25857]

Mr. Byrne: I am unaware of receiving any representations regarding the use of vacuum assisted closure machines for the treatment of pressure ulcers.

The National Institute for Health and Clinical Excellence published new clinical guidance on pressure ulcer management in September 2005. This comprehensive guidance includes appraisals on the efficacy and cost-effectiveness of a wide range of options for the prevention and treatment of pressure ulcers, including vacuum-assisted closure methods.

Reducing the incidence of pressure sores in hospitals is tackled locally through the development and implementation of individualised plans for prevention and treatment agreed and delivered by a multidisciplinary team working with patients and their carers.

Volunteers

Mr. Drew: To ask the Secretary of State for Health what guidance the Department has given to *(a)* directly managed hospitals and *(b)* foundation trusts on the replacement of staff with volunteers; and what advice it offers to (i) patient and public involvement teams and (ii) voluntary service managers on brokering such arrangements. [24715]

Mr. Byrne *[holding answer 3 November 2005]:* Guidance on volunteering within social care and the national health service was published in the Health Service Circulars (HSC), Promoting volunteering and relations with the voluntary sector in the NHS and Social Care (HSC 1999/023). As independent healthcare organisations, national health service foundation trusts determine their own human resource policies and practices, and follow best practice guidelines in the provision of healthcare where they feel it is appropriate to do so.

Working Time Directive

Mike Penning: To ask the Secretary of State for Health whether the application of the EU Working Time Directive to the medical work force has increased the minimum catchments for acute services; and if she will make a statement. [24722]

Mr. Byrne: The Department does not collect the information requested centrally. The Working Time Directive provides challenges and opportunities to modernise services looking at new ways of working, work force planning, skill mix and service redesign.

NORTHERN IRELAND

Assaults

David Simpson: To ask the Secretary of State for Northern Ireland how many people have been convicted of physical or sexual abuse of children in Northern Ireland in each of the last 10 years. [20608]

Mr. Hanson: Full statistics relating to persons convicted of physical or sexual abuse of children are currently not available.

The information included as follows is limited in coverage to persons convicted of offences which from their title allow identification of child victims, for example, 'cruelty to person under 16'. Prosecutions and sentencing data with linked victim information will become available with the rollout of the next phase of Causeway, anticipated by the end of 2006,

	Convictions for physical abuse against children[1]	*Convictions for sexual abuse against children*[2]
1994	12	27
1995	20	27
1996	8	19
1997	11	13

	Convictions for physical abuse against children[1]	Convictions for sexual abuse against children[2]
1998	6	24
1999	5	13
2000	9	47
2001	8	17
2002	9	9
2003	14	16

[1] Includes child abandonment and child cruelty offences.
[2] Includes sexual offences where the offence title specifies the victim as age 16 years or under.

Assets Recovery Agency

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many of the cases investigated by the Assets Recovery Agency in Northern Ireland relate to persons believed to be *(a)* republican and *(b)* loyalist; and how many of the cases successfully concluded fall into each of these two categories. [21179]

Mr. Woodward: Cases are not routinely judged on individual affiliations but on the assets derived from identified criminal activity.

The breakdown of cases according to community background is based on the best estimate of what the agency believes to be the likely affiliation.

Of the cases investigated by the Assets Recovery Agency in the current year to date, six relate to individuals believed to have links to loyalist groups and two cases relate to individuals believed to have links to republican groups.

Of the cases concluded in the current year to date, two have been identified as being from the loyalist community.

Ballot Papers

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many spoiled ballot papers there were in each district council electoral area in Northern Ireland in *(a)* the most recent 2005 local government elections and *(b)* 2001. [18060]

Mr. Hanson: The number of invalid ballot papers for the local government elections in 2005 and 2001 were as follows:

Local government election

District	5 May 2005	7 June 2001
01 Derry	1,144	1,390
02 Limavady	232	239
03 Coleraine	376	491
04 Ballymoney	237	268
05 Moyle	136	187
06 Larne	233	342
07 Ballymena	415	510
08 Magherafelt	323	429
09 Cookstown	131	360
10 Strabane	328	457
11 Omagh	537	599
12 Fermanagh	549	650
13 Dungannon	341	487
14 Craigavon	810	988
15 Armagh	454	552
16 Newry and Mourne	874	1,263
17 Banbridge	313	329
18 Down	536	677
19 Lisburn	888	1,085
20 Antrim	337	501
21 Newtownabbey	709	938
22 Carrickfergus	315	376
23 North Down	610	782
24 Ards	581	652
25 Castlereagh	578	809
26 Belfast	2,771	4,106
Total	14,758	19,477

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many spoiled ballot papers there were in each constituency in Northern Ireland at the *(a)* 2005 and *(b)* 2001 general elections in Northern Ireland. [18061]

Mr. Hanson: The number of invalid ballot papers for the Westminster general elections in 2005 and 2001 were as follows:

General election

Constituency	5 May 2005	7 June 2001
Belfast East	188	202
Belfast North	250	377
Belfast South	211	233
Belfast West	383	716
East Antrim	207	327
East Londonderry	308	399
Fermanagh and South Tyrone	558	693
Foyle	463	495
Lagan Valley	277	281
Mid Ulster	468	452
Newry and Armagh	630	587
North Antrim	300	328
North Down	171	188
South Antrim	223	196
South Down	489	574
Strangford	190	217
Upper Bann	327	339
West Tyrone	523	434
Total	6,166	7,038

C8

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will list the types of contract of employment applicable to those working in the policing unit designated C8; and what the nature is of the review scheduled to take place on or around 4 November. [24014]

Mr. Woodward: The staff employed on the Historical Enquiry Team (C8) are a mixture of serving police officers and civilian staff. The police officers are currently all seconded staff from England and Scotland, but a number of PSNI staff will join the unit in the new year. Civilian staff are a mixture of direct employees of the PSNI, persons on short-term contract and agency staff. These numbers 'ebb and flow' in response to demand (e.g. the search process) but will stabilise in 2006 once the team becomes operational.

I am advised by the police that no 'review' was held on or around 4 November.

Crime and Disorder Act

Lady Hermon: To ask the Secretary of State for Northern Ireland what plans he has to extend the Crime and Disorder Act 1998 to Northern Ireland; and if he will make a statement. [28996]

Mr. Hanson: Some of the provisions of the Crime and Disorder Act 1998 already directly extend to Northern Ireland. Further extensions were not proposed at that time as a contemporaneous review of the Criminal Justice System in Northern Ireland was planned and it would have been inappropriate to do so in advance of the review's conclusions. A series of other important measures, provided in the Act, have subsequently been introduced, in recent years, through separate Northern Ireland legislation. These have included provisions dealing with hate crime, antisocial behaviour, reparation orders in youth justice and the creation of additional bail powers. There are no plans to extend the remaining provisions to Northern Ireland at the current time but this will be kept under review in response to operational needs.

Child Support Agency

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland whether the criteria used in formulating the answers of 28 October 2005, *Official Report*, column 641W, on the Child Support Agency management board and 1 November 2005, *Official Report*, column 1028W, on the Social Security Agency, were the same as those used in formulating the answer of 24 October 2005, *Official Report*, column 108W, on public bodies (appointments). [27403]

Angela E. Smith: When answering any request for information on community background the rules that are to be applied for the release of such information fall under the Fair Employment and Treatment (NI) Order 1998 (subjected to specified exceptions).

In respect of the answer given of 28 October 2005, *Official Report*, column 641W, on the child support agency management board, it was not possible to give the information requested as to do so may have revealed (or allowed someone to deduce) the community background of individual staff because of the small number of staff involved. However in the case of the answer of 1 November 2005, *Official Report*, column 1028W, the legislation was incorrectly interpreted and the following requested information should have been provided.

	Competition	
	Permanent	*Temporary*
Protestant	133	100
Roman Catholic	202	132
Non-determined	3	9
Total	338	241

Departmental Refurbishment

Mark Williams: To ask the Secretary of State for Northern Ireland if he will list the refurbishment projects in his Department that *(a)* are in progress and *(b)* will start in the next six months. [18384]

Mr. Hain: The NIO currently is refurbishing a minor wing of Hillsborough Castle and replacing the water piping throughout the building.

Three refurbishment projects are due to start within the next six months in Castle Buildings blocks 1 to 3, Massey House and Stormont House.

This answer only applies to the Northern Ireland Office and not to the 11 Departments of the devolved Administration.

Departmental Staff Training

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much his Department has spent on staff training and development in each of the last three years. [19524]

Mr. Hanson: The total amount spent on learning and development in the NIO excluding its agencies is provided in the following table.

	Resource spend (£)
2004–05	1,124,307.00
2003–04	943,942.00
2002–03	971,270.64

Departmental Stationery

Mark Williams: To ask the Secretary of State for Northern Ireland whether his Department has joined the Watermark project. [18414]

Mr. Hain: The Watermark project does not apply in Northern Ireland.

This answer only applies to the Northern Ireland Office and not to the 11 Departments of the devolved administration.

Departmental Vehicles

Mark Williams: To ask the Secretary of State for Northern Ireland what reduction there has been in *(a)* road transport vehicle carbon dioxide emissions and *(b)* single occupancy car commuting in the Department since (i) 2003–04 and (ii) 2004–05. [17741]

Mr. Hain: The NIO is currently collecting baseline information for its transport fleet to enable it to monitor reduction in vehicle carbon dioxide emissions.

The Department is also currently carrying out a green transport survey for the purposes of identifying what opportunities exist to reduce single car occupancy commuting.

This answer only applies to the Northern Ireland Office and not to the 11 Departments of the devolved Administration.

Bill Wiggin: To ask the Secretary of State for Northern Ireland how many vehicles for which the Department is responsible are fitted with retreaded tyres. [17989]

Mr. Hain: For information on the use of retread tyres on vehicles provided to the Department by the Government Car and Despatch Agency, I refer the hon. Member to the letter of 11 October 2005 which he received from the chief executive of the GCDA, reference UIN15088. Copies of this letter are available in the Library.

There are no retreaded tyres on other vehicles owned or leased directly by the NIO.

This answer only applies to the Northern Ireland Office and not to the 11 Departments of the devolved Administration.

Domestic Violence

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many cases of domestic violence were reported in each of the 18 Northern Ireland constituencies in the last year for which figures are available. [21638]

Mr. Hanson: The PSNI are the sole source of reliable information about domestic violence as they capture recorded crimes with a domestic motivation. The information is therefore only available across PSNI District Command Units and is set out in the table for the year 2004–05.

It is however believed these figures do not reflect the true level of domestic violence in Northern Ireland, In the Northern Ireland Crime Survey 2003–04 19 per cent. of female respondents claimed they had been the victims of domestic violence at some time in their lives, while 11 per cent. of male respondents made a similar claim.

Area	*Total offences recorded*

Election Fraud

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what steps can be taken against a candidate who has been elected in a local government election or general election but has handed in fraudulent election returns. [18236]

Mr. Hanson: A return of expenses after an election must contain a declaration of the amount incurred. If the person making the return makes a false declaration they are guilty of an offence, as is any person who aids or abets, counsels or procures the false declaration.

All returns and declarations for local government elections are open for inspection by anyone at council offices for two years. If the return is discovered to be fraudulent, criminal proceedings can follow.

For parliamentary general elections, the Electoral Commission has responsibility for monitoring compliance with the law on election expenses. If they discover that a return is fraudulent, criminal proceedings can follow.

Electronic Human Resources Contract

Mark Durkan: To ask the Secretary of State for Northern Ireland what the status of Fujitsu Services Ltd. is in relation to the bidding process for the Northern Ireland civil service electronic human resources contract; and what criteria were used in determining the *(a)* timing and *(b)* content of the statement issued on 19 October regarding the contract. [26686]

Angela E. Smith: Following the evaluation process, the authority has entered into further discussions with Fujitsu Services Ltd. with a view to them being selected as preferred bidder. Progression to preferred bidder status depends upon the satisfactory resolution of a number of points. These issues must be resolved within a four-week period from 19 October.

At this stage:

(i) No preferred bidder has been selected.

(ii) The contract has not been awarded.

The timing was determined by the completion of the evaluation process and ratification of the outcome by the programme board. The criteria used in determining the content of the statement issued on 19 October were the evaluation criteria published as part of the instructions to bidders. A copy of which has been placed in the Library.

Mark Durkan: To ask the Secretary of State for Northern Ireland when gateway reviews were carried out on the procurement process used for the civil service electronic human resources contract; by whom they were carried out; and on what terms. [26753]

Angela E. Smith: The eHR project has been subject to five reviews under the peer review process allied to the Office of Government Commerce (OGC) Gateway process. These reviews ensure compliance with process before moving to the next stage.

	Reviews	*Date*
Gate 0	Strategic Assessment	November 2002
Gate 1	Business Justification	February 2003
Gate 2	Procurement Strategy	May 2003
Gate 2a	Health Check Review	December 2003
Gate 2b	Health Check Review	June 2004

The peer review process has been conducted in accordance with OGC Gateway guidance, led by an OGC member of staff and supported by public sector panel members independent of the her project and who are trained in carrying out Gateway Reviews.

The terms for carrying out the reviews were as follows:

Gate 0—Strategic Assessment

Ensure that the project or programme is supported by users and stakeholders and contributes to the organisation's business strategy.

Review the arrangements for leading and managing the project or programme (and its individual projects).

Review the arrangements for identifying and managing the main project or programme risks (and in the case of a programme the individual project risks), including external risks such as changing business priorities.

Check that financial provision has been made for the project or programme and that plans for the work to be done through to business case justification (Gateway Review 1) for each procurement project are realistic, properly resourced and authorised. This should include the individual projects within a programme.

Gate 1—Business Justification

Confirm that the business case is robust—that is, in principle it meets business need, is affordable, achievable, with appropriate options explored and likely to achieve value for money.

Establish that the feasibility study has been completed satisfactorily and that there is a preferred way forward.

Ensure that there is internal and external authority, if required, and support for the project.

Ensure that the major risks have been identified and outline risk management plans have been developed.

Establish that the project is likely to deliver its business goals and that it supports wider business change, where applicable.

Confirm that the scope and requirements specifications are realistic, clear and unambiguous.

Ensure that the full scale, intended outcomes, timescales and impact of relevant external issues have been considered.

Ensure that there are plans for the next stage.

Confirm planning assumptions and that the project team can deliver the next stage.

Confirm that overarching and internal business and technical strategies have been taken into account.

Establish that quality plans for the project and its products are in place.

Gate 2—Procurement Strategy

Confirm the outline business case now the project is fully defined.

Ensure that the procurement strategy is robust and appropriate.

Ensure that the project's plan through to completion is appropriately detailed and realistic.

Ensure that the project controls and organisation are defined, financial controls are in place and the resources are available.

Confirm funding availability for the whole project.

Confirm that the development and delivery approach and mechanisms are still appropriate and manageable.

Check that the supplier market capability and track record is fully understood (or existing supplier's capability and performance).

Confirm that the procurement (or acquisition approach) will facilitate good client/supplier relationships in accordance with government initiatives such as Achieving Excellence in Construction Procurement.

Confirm that appropriate project performance measures and tools are being used.

Confirm that quality procedures have been applied consistently since the previous review.

Gate 2a—Health Check Review

Ensure that there is internal and external authority, if required, and stakeholder support for the project.

Check that the business case is still robust in the light of further work on the project.

Check that financial provision has been made for the project or programme and that plans for the work to be done through to Investment Decision (Gateway Review 3) for each procurement project are realistic, properly resourced and authorised. This should include the individual projects within a programme.

Ensure that the project controls and organisation are defined, financial controls are in place and the resources are available.

Ensure that the major risks have been identified and outline risk management plans have been developed.

Confirm that quality procedures have been applied consistently since the previous review.

Confirm that plans for benefits realisation are being developed.

Ensure that the procurement strategy is still robust and appropriate.

Confirm that the scope and requirements specifications are realistic, clear and unambiguous.

Confirm that the development and delivery approach and mechanisms are still appropriate and manageable.

Gate 2b—Health Check Review

Ensure that there is internal and external authority, if required, and stakeholder support for the project.

Check that the business case is still robust in the light of further work on the project.

Check that financial provision has been made for the project or programme.

Ensure that the project controls and organisation are defined, financial controls are in place and the resources are available.

Ensure that the project's plan through to completion is appropriately detailed and realistic, including contract management strategy.

Ensure that the major risks have been identified and outline risk management plans have been developed.

Confirm that quality procedures have been applied consistently since the previous review.

Confirm that plans for benefits realisation are being developed.

Ensure that the procurement strategy is still robust and appropriate.

Confirm that the scope and requirements specifications are realistic, clear and unambiguous.

Confirm that the development and delivery approach and mechanisms are still appropriate and manageable.

Mark Durkan: To ask the Secretary of State for Northern Ireland if he will commission an independent peer review of the procurement process in respect of the Northern Ireland Civil Service Electronic Human Resources contract. [26822]

Angela E. Smith: A peer review additional to the process detailed will not be commissioned.

The procurement process has been undertaken in accordance with European Union procurement law and the Department of Finance and Personnel has been guided by best procurement practice as recommended by the Office of Government Commerce and Central Procurement Directorate (Department of Finance and Personnel).

The eHR project has been subject to five reviews under the peer review process allied to the Office of Government Commerce (OGC) Gateway process:

		Review date
Gate 0	Strategic Assessment	November 2002
Gate 1	Business Justification	February 2003
Gate 2	Procurement Strategy	May 2003
Gate 2a	Health Check Review	December 2003
Gate 2b	Health Check Review	June 2004

The peer review process has been conducted in accordance with OGC Gateway guidance, led by an OGC member of staff and supported by public sector panel members independent of the eHR project and who are trained in carrying out Gateway Reviews.

A further three reviews will be carried out, these are:

December 2005	
Gate 3	Investment Decision
Gate 4	Readiness for Service
Gate 5	Benefits evaluation

Energy Efficiency

Mark Williams: To ask the Secretary of State for Northern Ireland what targets he has for improving energy efficiency; and how he intends to achieve these targets. [17737]

Mr. Hain: The Department proposes to improve the energy efficiency of its buildings by 15 per cent. by 2010–11 relative to 1999–2000 consumption.

For the purposes of securing this reduction, the Department's energy consumption in its key buildings is monitored and managed by a Building Energy Management System. In addition the Department carries out minor projects to improve energy efficiency across its estate.

This answer only applies to the Northern Ireland Office and not to the 11 Departments of the devolved Administration.

Equality Commission

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland whether the Equality Commission has offered advice to local councils in Northern Ireland that *(a)* have undertaken and *(b)* are undertaking article 55 reviews of their work force. [28459]

Angela E. Smith: I understand that the chief executive of the Equality Commission for Northern Ireland, Ms Evelyn Collins, has written to the hon. Gentleman in the following terms:

"The Equality Commission offers advice to all employers to ensure they are facilitated to comply with their duties under the Fair Employment & Treatment (NI) Order 1998. This includes ensuring local councils are provided with relevant advice to conduct their Article 55 Reviews."

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what criteria the Equality Commission in Northern Ireland uses in ascertaining whether employers have a work force whose religious make-up may require the use of the phrase 'we particularly welcome applications from ... ' in recruitment advertising. [28460]

Angela E. Smith: I understand that the chief executive of the Equality Commission for Northern Ireland, Ms Evelyn Collins, has written to the hon. Gentleman in the following terms:

"The Commission recommends that employers consider the use of equality statements in job advertisements particularly welcoming applications from the Protestant or Roman Catholic community where that group is under-represented in the workforce and also among applicants for employment."

Mr. Donaldson: To ask the Secretary of State for Northern Ireland how many applications for assistance with complaints of discrimination in employment and non-employment have been received by the Equality Commission for Northern Ireland in each year since its inception. [28982]

Angela E. Smith: I understand that the chief executive of the Equality Commission for Northern Ireland, Ms Evelyn Collins, has written to the hon. Gentleman in the following terms:

"The Equality Commission for Northern Ireland considered the following applications for assistance with complaints of discrimination in employment and non employment in each year since its inception:

1999–2000—548

2000–01—651

2001–02—861

2002–03—623

2003–04—121

2004–05—417"

Farm Accidents

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many children aged under 16 years have *(a)* died and *(b)* suffered serious injury in farm accidents in Northern Ireland in each of the past 10 years, broken down by parliamentary constituency. [28371]

Angela E. Smith: A total of 17 individuals aged less than 16 years have died as the result of farm accidents in Northern Ireland during the last 10 years.

The breakdown by parliamentary constituency is as follows:

Parliamentary constituency	Number of individuals
Fermanagh and South Tyrone	4
West Tyrone	3
Newry and Armagh	2
East Londonderry	2
South Down	2
Mid Ulster	2
Upper Bann	1
North Antrim	1

The Health and Safety Executive for Northern Ireland does not hold statistically reliable data for individual serious injury accidents in this age category, However the Social Survey of Farmers and Farm Families conducted in 2001–02 found that 44 people, aged less than 16 years, on farms sustained injury that required professional medical attention. The study was conducted throughout Northern Ireland and results in this category are not sub-divided by parliamentary constituency.

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many individuals aged 65 years and over have *(a)* died and *(b)* suffered serious injury in farm accidents in Northern Ireland in each of the past 10 years, broken down by parliamentary constituency. [28372]

Angela E. Smith: A total of 22 individuals aged 65 years and over have died as the result of farm accidents in Northern Ireland during the last 10 years.

The breakdown by parliamentary constituency is as follows:

Parliamentary constituency	*Number of individuals*
Fermanagh and South Tyrone	8
Newry and Armagh	5
East Londonderry	2
Lagan Valley	2
Upper Bann	2
Mid Ulster	2
North Antrim	1

The Health and Safety Executive for Northern Ireland does not hold statistically reliable data for individual serious injury accidents in this age category. However the Social Survey of Farmers and Farm Families conducted in 2001–02 found that 71 people, aged 65 years and over, on farms sustained injury that required professional medical attention.

The study was conducted throughout Northern Ireland and the results are not analysed by parliamentary constituency.

Health and Safety

Dr. McCrea: To ask the Secretary of State for Northern Ireland what assistance is being given by the Government to small and medium-sized enterprises *(a)* to ensure that they are aware of their obligations under the Health and Safety at Work Northern Ireland Order 1978 and Management of Health and Safety at Work Regulations 2002 and *(b)* to help them carry out appropriate health and safety risk assessments in the workplace. [28408]

Angela E. Smith: The Health and Safety Executive for Northern Ireland established a small business advisory service, Health and Safety Works Northern Ireland (HSWNI), on 1 April 2004. This was in direct response to a need expressed by the small business community in Northern Ireland. The service, which is available at no cost to business, provides advice, guidance and support to small businesses to help them meet their health and safety obligations, including those relating to risk assessment.

Healthy Eating

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what funding has been allocated in the Province for education and advising parents on the benefits of a healthy diet for their children in 2005–06. [22638]

Angela E. Smith: It is not possible to specifically identify the level of funding allocated for education and advising parents on the benefits of a healthy diet for their children, as this involves a range of nutrition education initiatives and health promotion services.

In 2005–06, the Department of Health, Social Services and Public Safety provided £550,000 to support nutrition and healthy eating, the Food Standards Agency allocated £75,000 to non-school based nutrition education and the Department of Education has allocated up to £10,000 to inform parents about the new nutritional standards for school meals and also provide them with general healthy eating advice for their children. This advice outlines the new standards and explains why they are needed in schools. It also outlines how parents can be involved by, for example, encouraging their children to eat healthier options at home and elsewhere. In addition, nutrition education forms part of the plans of Investing for Health Partnerships, Health Action Zones and a number of the Healthy Living Centres. The Big Lottery's Coronary Heart Disease, Stroke and Cancer programme has also supported a number of nutrition education initiatives in recent years.

A range of primary care professionals offer advice on healthy eating as part of their health promotion role. In particular, advising parents on the benefits of a healthy diet for young children is part of the universal core programme for child health screening and surveillance, which is delivered by midwives, health visitors and school nurses, but also includes a wider range of professionals such as community dentists.

Home Accidents

Dr. McCrea: To ask the Secretary of State for Northern Ireland if he will assess the merits of developing guidance for the teaching of home accident prevention to school-aged children in Northern Ireland; and if he will make a statement. [28398]

Angela E. Smith: As part of the support programme for the introduction of the revised curriculum, the Council for the Curriculum, Examinations and Assessment (CCEA) is currently piloting primary and post-primary Personal Development guidance materials for teachers, which includes guidance on teaching home accident prevention. Within the present curriculum, pupils are taught about the subject through the Health Education Cross-Curricular Theme. In addition, my Department provides funding annually to the Royal Society for the Prevention of Accidents towards the cost of delivering accident prevention programmes in schools.

Live Cattle Exports

Dr. McCrea: To ask the Secretary of State for Northern Ireland what the costs were of checking the welfare during transport of live cattle being exported to the Republic of Ireland from Northern Ireland in the last year for which figures are available. [28316]

Angela E. Smith: The export of live cattle from the UK was banned by the EU in March 1996 due to fears about the risk to human health from BSE in cattle.

Data on pre-1996 checks was held by the Department of Agriculture for Northern Ireland on a computer based record system, which was replaced by the Animal and Public Health Information System in 1998. Data

from the old system was retained for a 5 year period but was then deleted. There is therefore no data available on welfare checks prior to March 1996.

Londonderry Inquiry

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland when he expects the public inquiry led by Lord Saville into the events in Londonderry in January 1972 to announce its findings. [27392]

Mr. Hanson: The independent Bloody Sunday inquiry has informed me that they are now engaged in compiling their final report. Due to the vast amount of evidence that must be considered this is a very time consuming process and it is difficult at this stage to be precise about when the report will be presented to the Secretary of State for Northern Ireland.

Mr. Hayes: To ask the Secretary of State for Northern Ireland what the total cost to date has been of the Saville Inquiry; and if he will list legal firms which have received payments from his Department in connection with it. [27973]

Mr. Hanson: On the figures available at the end of October 2005 the total cash spend of the Bloody Sunday Inquiry was £163 million.

On the basis of the records currently available the following legal firms and counsel have received payment from the Northern Ireland Office in respect of their involvement with the Bloody Sunday Inquiry.

[1] Limited party status.

Maze Prison

Mr. Donaldson: To ask the Secretary of State for Northern Ireland when he expects to appoint a panel to monitor the progress of the development of the former Maze Prison site. [28984]

Angela E. Smith: Nominations have been invited from each of the four main political parties to serve on a group to monitor the potential for development at the Maze/Long Kesh regeneration site. A number of nominations are awaited.

Neighbourhood Watch

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many Neighbourhood Watch schemes are in operation in Northern Ireland. [21168]

Mr. Hanson: There are currently 84 accredited Neighbourhood Watch Schemes in Northern Ireland. A number of schemes are also progressing through the accreditation process.

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what funding is available for Neighbourhood Watch in Northern Ireland. [21169]

Mr. Hanson: During the current financial year, the Community Safety Unit, the PSNI and the Northern Ireland Policing Board has collectively made available up to £100,000 to support Neighbourhood Watch in Northern Ireland.

Omagh Bomb (Compensation Claims)

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many compensation claims have been settled following the Omagh bomb; and what is the total amount of compensation paid. [19548]

Mr. Hain: The Compensation Agency has fully resolved 826 of the 852 criminal injury claims it received following the Omagh bomb. To date approximately £20.4 million has been paid in relation to these claims.

In relation to criminal damage claims, 214 of the 220 claims received have been resolved, with approximately £7.5 million having been paid in compensation.

Police Service

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what survey methods are used to establish the level of community confidence in the Police Service of Northern Ireland in Northern Ireland; and how often these surveys are undertaken. [19939]

Mr. Hain: A range of quantitative surveys are commissioned by both the Northern Ireland Office and the Northern Ireland Policing Board with a view to measuring community confidence in various aspects of the service provided by the police in Northern Ireland,

Three main quantitative surveys are used, each of which is conducted by the Central Survey Unit of the Northern Ireland Statistics and Research Agency:

(a) The Northern Ireland Crime Survey, a personal interview survey of experiences and perceptions of crime, being conducted on a continuous basis since January 2005,

(b) The Northern Ireland Omnibus Survey, a 'snapshot' personal interview survey covering a range of topics, run several times each year.

(c) The District Policing Partnership (DPPs) Public Consultation Survey, a postal survey covering local policing priorities, satisfaction with the police and awareness of DPPs, conducted every two years.

The most recent in-year figures covering the period January to June 2005, from the NI Crime Survey, show that 60 per cent. of those interviewed think that the police do a good job in Northern Ireland. This represents an increase of 3 per cent. on the previous year.

Religious Profiles

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what is the religious breakdown of staff employed in the Province within *(a)* the BBC, including Radio Ulster, *(b)* Citizens Advice Bureaux and *(c)* Ulster Television; and if he will make a statement. [28158]

Angela E. Smith: I understand that the chief executive of the Equality Commission for Northern Ireland, Ms Evelyn Collins, has written to the hon. Lady in the following terms:

"The following information is taken from the Commission's Monitoring Report No. 14 A Profile of the Northern Ireland Workforce, Summary of Monitoring returns 2003, published by the Commission in November 2004. The composition of the Citizen's Advice Bureaux is not published in this report as it employs fewer than 26 employees."

	British Broadcasting Corporation	*Ulster Television plc*
P	409	127
RC	335	79
ND	122	16
Total	866	222
Percentage P	55	61.7
Percentage RC	45	38.3

Road Accidents

Mark Durkan: To ask the Secretary of State for Northern Ireland what estimate he has made of the percentage of road traffic accidents in Northern Ireland which were attributed to mechanical failure since the introduction of electronic MOT vehicle test procedures. [24848]

Mr. Woodward: The electronic MOT system was introduced in September 2003, The Police Service of Northern Ireland only records injury road traffic collisions. The total number of injury road traffic collisions recorded between 1 September 2003 and 31 March 2005 was 8,946. Of these 26 (0.29 per cent.) were attributed to vehicle defects[1].

[1] Vehicle defects include: Defective brakes; Defective steering/ suspension; Defective front lights, Defective rear lights and Defective tyres.

Sentencing Framework

Mr. Dodds: To ask the Secretary of State for Northern Ireland if he will make a statement on the public consultation on minimum terms and life sentence cases. [27761]

Mr. Hanson: I am currently considering how to take forward the issue of the life sentence system in Northern Ireland in the context of the wider review of sentencing. I will issue a report on the outcome of the consultation shortly.

Sports Council

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much funding was given to the Sports Council for Northern Ireland in each of the last 10 years. [28857]

Mr. Hanson: The Sports Council for Northern Ireland has received exchequer and lottery funding in the last 10 years for the amounts shown in the following table:

£ million

	Exchequer	Lottery
1995–96	3.366	8.569
1996–97	2.669	10.021
1997–98	2.918	8.204
1998–99	2.506	7.218
1999–2000	2.406	7.585
2000–01	4 423	7.585
2001–02	3,536	8.254
2002–03	5 276	7.300
2003–04	7 096	5.858
2004–05	5.937	7.514

Sustainable Development

Mark Williams: To ask the Secretary of State for Northern Ireland if he will make a statement on the action on sustainable development *(a)* required and *(b)* undertaken by his Department's (i) executive agencies, (ii) advisory non-departmental bodies, (iii) executive non-departmental bodies, (iv) tribunals, (v) public corporations and (vi) other bodies. [17726]

Mr. Hain: The Government's framework and associated targets for sustainable development applies to Departments and their Executive Agencies. The framework does not cover the non-departmental public bodies and associated bodies. It is however anticipated that Departments will promote the framework to these groups and encourage the development of strategies for target setting, performance improvement and reporting. Compliant with these arrangements:

NIPS is committed to a strategy which encompasses the national strategy with specific targets to reduce energy consumption, the application of the environmentally sound principals and practices and promoting the message of reduce, re-use and recycle and to secure reductions in vehicle exhaust emissions. Other detailed successes are as follows:

A 35 per cent. reduction in electricity consumption since 1999;

Use of CHP plant to generate 7 per cent. of total electricity;

Replacement of water mains to reduce water usage;

Use of a Building Energy Management System to control and monitor energy usage.

Compensation Agency and the Youth Justice Agency are taking their lead from the NIO's central strategy and members of their staff attend the Green Champions meetings.

The Public Prosecution Service is taking their lead from the NIO central strategy and is represented at the Green Champions meetings. PPS intend establishing a Sustainable Development Committee which will develop:

The operation and management of its buildings;

Energy efficiency, giving consideration to sourcing a percentage of electricity from renewable sources and combined heat and power;

Water management/reduce consumption;

Recycling and waste management;

Review working patterns of staff in consideration with the new 'Regional Offices';

Encourage use of alternative travel arrangements bus, train, cycle, walk;

Promote car sharing;

Develop training and awareness seminars for staff.

Forensic Science Northern Ireland currently occupies temporary accommodation within the PSNI site at Seapark and has a well established working group that advises the chief executive on green housekeeping and energy saving initiatives. The working group have promoted policies on a number of issues covered under recycling and waste management, energy saving awareness and green procurement of consumables.

The agency is currently engaged in a major project sponsored by the Department to provide new purpose-built laboratory accommodation. The project will apply the principles of the OGC 'Achieving Excellence in Construction' initiative and the complementary initiative 'Achieving Sustainability in Construction Procurement'.

The Department is developing a roadshow and website which will be used to promote sustainable development to NDPD's and associated bodies.

This answer only applies to the Northern Ireland Office and not to the 11 Departments of the devolved Administration.

Mark Williams: To ask the Secretary of State for Northern Ireland what progress has been made on his Department's Sustainable Development Strategy. [18443]

Mr. Hain: The NIO Departmental Board is committed to the Governments strategy on sustainable development and aims continually to improve the management and use of resources. It supports and actively contributes to the UK Strategy for Sustainable Development, which has four main aims:

Social progress which recognises the needs of everyone;

Effective protection of the environment;

Prudent use of natural resources;

Maintenance of high and stable levels of economic growth and employment.

The Department will seek to promote these objectives by:

Ensuring that its public sector agreement targets contribute to sustainable development;

Assessing the environmental and social impact of any new or revised policy at an early stage;

Integrating sustainable development policies into its procurement policies;

Establishing appropriate targets in respect of energy and water use, travel activity, estate management and biodiversity and for the reduction, reuse and recycle of all materials and consumables;

Educating and motivating staff and contractors to operate in an environmentally appropriate manner;

Creating the opportunity for staff to become personally and actively involved in securing environmental improvements;

Monitoring our performance and reporting on our achievements.

Specific Objectives

To:

conserve energy, water, paper and other resources whilst maintaining comfort and operational effectiveness;

reduce CO2 emissions by 12.5 per cent. by 2010–11 relative to 1999–2000;

increase energy efficiency by 15 per cent. by 2010–11 relative to 1999–2000;

source 10 per cent. of electricity from renewable sources by 2008;

assess the environmental impact of our significant buildings by 2006;

measure by 2006 the volume of waste currently generated and to identify options to reduce, reuse and recycle;

promote Green Housekeeping policies with staff and appoint local managers for each site to champion environmental initiatives;

establish the volume of water consumed within each site and where appropriate reduce consumption to 7.7 m^3 per person;

establish a biodiversity policy for the grounds at Hillsborough Castle;

comply with appropriate guidance on the conservation of historic buildings and grounds;

reduce road transport carbon dioxide emissions by at least 10 per cent.;

reduce single occupancy car commuting.

Delivery

The Department has appointed Central Services Division as the lead division to drive forward the various strands and objectives. Green Champions have been appointed in every division to promote the message of reduce, reuse, recycle. A green transport survey is under way to measure single occupancy car commuting and to identity opportunities for reductions. Key buildings in the NIO's office estate have all been converted from either oil fire or electric heating to natural gas and now acquire some 25 per cent. of all electricity from renewable sources. A waste stream audit for key sites is currently under way. Steps have taken to ensure that the maximum volume of waste paper is recycled. Arrangements have also been introduced at significant sites to recycle plastic, tin, cardboard and glass. All paper for printing and photocopying is from a recycled source.

This answer applies only to the Northern Ireland Office and not to the 11 Departments of the devolved Administration.

Winter Fuel Payments

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many pensioners *(a)* were eligible, *(b)* applied for and *(c)* have received winter fuel payments in each year since payments started, broken down by constituency in Northern Ireland. [28847]

Mr. Hanson: The information requested is shown in the following table. Information on winter fuel payment applications is unavailable.

Winter fuel payments (WFP) by parliamentary constituency 2000–01 to 2004–05—Awards made and eligible population

1992 parliamentary constituency	*Eligible population (MYE 2000–01)*	*2000–01 Number of WFP received*	*Eligible population (MYE 2001–02)*	*2001–02 Number of WFP received*
Belfast East	19,343	17,570	19,086	17,555

CONSTITUTIONAL AFFAIRS

1911 Census

Mr. Hancock: To ask the Minister of State, Department for Constitutional Affairs how many Freedom of Information Act 2000 applications to see sections of the 1911 decennial census for England and Wales have been *(a)* received and *(b)* rejected by the National Archives since 1 January. [28026]

Ms Harman: From January 1 2005 to date The National Archives has recorded 143 requests, under the Freedom of Information Act, to see sections of the 1911 decennial census. In accordance with the Act and with Government policy, the National Archives considers each request for access to the 1911 returns on a case by case basis, in consultation with the Office for National Statistics as the transferring department. So far it has not been possible to grant any of these requests because they are covered by S.41 exemption of the Act relating to breach of confidence.

Coroners

Jon Trickett: To ask the Minister of State, Department for Constitutional Affairs what guidance her Department has issued to coroners on the means of establishing the identification of dead persons. [27602]

Ms Harman: The means of identification are a matter for the coroner's judgment and will depend on the individual circumstances. We have not issued specific guidance to coroners.

Mrs. Moon: To ask the Minister of State, Department for Constitutional Affairs what guidance the Department has issued to coroners on making their reports available to doctors who request them; and if she will take steps to encourage coroners to make reports available when they are requested. [28725]

Ms Harman: Guidance was issued by the Home Office in the form of a circular, No 62/1994. This commended the recommendation of the Clothier Report into the Beverley Allitt murders that, in every case, coroners should send copies of post-mortem reports to any consultant who has been involved in the patient's care prior to death, whether or not demanded, under the coroners rules. Any decision in an individual case is a matter for the coroner concerned. My officials will, however, discuss this matter at the next of their regular meetings with coroners.

Courts Employee Pension Scheme

Mr. Letwin: To ask the Minister of State, Department for Constitutional Affairs (1) what inquiries her Department has made into the collapse of the courts employee pension scheme; [27306]

(2)what representations have been made to her about the collapse of the courts employee pension scheme; [27307]

(3) what assessment she has made of the effects of the merger of the courts employee pension scheme with the courts directors pension scheme. [27308]

Ms Harman: The pension schemes for staff in this Department or in Her Majesty's Courts Service has not collapsed. Accordingly there have been no representations made.

There is a single pension scheme (the principal civil service pension scheme) in operation within this Department and its agencies including Her Majesty's Courts Service.

Electoral Administration Bill

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs whether Labour party officials had sight of the draft or final copy of the Electoral Administration Bill before it was placed in the public domain. [26172]

Ms Harman: I can confirm that no Labour party officials had sight of the draft or final copy of the Bill before it was introduced before Parliament.

Electoral Register

Chris Ruane: To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the effect of individual registration on registration levels in Northern Ireland. [20146]

Mr. Hanson: I have been asked to reply.

Individual registration in Northern Ireland was introduced as part of the Electoral Fraud (Northern Ireland) Act 2002 and has substantially enhanced the accuracy and integrity of the Electoral Register in Northern Ireland.

Since then, however, there has been an annual downward drift in numbers registering mainly due to the requirement to hold an annual canvass with individuals having to provide information afresh each year. To combat this, the Government, after consulting the political parties and the Electoral Commission, is introducing legislation that will further reform and modernise the electoral registration arrangements. These measures will lift the burden on electors and refocus resources on more effectively targeting those not registered.

Her Majesty's Courts Service

Mr. Llwyd: To ask the Minister of State, Department for Constitutional Affairs (1) what the average remuneration is for a lawyer employed in a non-management post in Her Majesty's Courts Service; [27474]

Government Legal Services

(2) what the average renumeration is for a non-management lawyer employed in the Government Legal Services [27508]

Ms Harman: The information requested is not held centrally and can be provided only at disproportionate cost.

Government Legal Services lawyers are employed in more than 30 different Government Departments. It is up to each department to determine what salary to offer and it is unlikely that a lawyer's management responsibilities will be recorded.

Jury Service

Mr. Gordon Prentice: To ask the Minister of State, Department for Constitutional Affairs how many people summoned for jury service sought *(a)* deferment and *(b)* exemption in each of the last five years. [27533]

Ms Harman: The information is as follows.

People summoned for jury service who sought deferral or excusal: 2001–05

	Number of people who sought deferral	*Number of people who sought excusal*
Between 2 April 2001 and 29 March 2002	64,023	175,773
Between 1 April 2002 and 31 March 2003	63,767	160,522
Between 1 April 2003 and 31 March 2004	65,529	135,900
Between 1 April 2004 to 31 March 2005	66,577	109,933
Between 1 April 2005 to the end of October 2005	42,266	60,831

Litigation

Mr. Hayes: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the development of a common EU mechanism for litigation. [27744]

Ms Harman: The EU is not developing a common mechanism for litigation. Certain measures have, however, been adopted or are under negotiation to facilitate cross-border litigation between EU member states. They include the European enforcement order, which came into force on 21 October 2005 which facilitates recognition and enforcement of uncontested judgments, a proposal for a European small claims procedure, and a European order for payment procedure to provide a simplified method of obtaining judgment on uncontested debts. These measures will benefit the citizens of the UK and the rest of Europe by providing a simplified and accelerated procedures for more straightforward cross-border litigation.

Ministerial Meetings

Andrew Mackinlay: To ask the Minister of State, Department for Constitutional Affairs when the Lord Chancellor last met the Archbishop of York to discuss constitutional issues of mutual interest to the Government and the church; and if she will make a statement. [28151]

Ms Harman: The Lord Chancellor has held no meeting with the Archbishop of York to discuss constitutional issues.

Post Mortems

Jon Trickett: To ask the Minister of State, Department for Constitutional Affairs how many post mortems have been undertaken in the last five years on unidentified dead persons where more than 12 months has elapsed since death and no inquest has been held. [27606]

Ms Harman: This information is not kept centrally.

Privy Council

Mr. Peter Robinson: To ask the Minister of State, Department for Constitutional Affairs if she will list the members of the Privy Council. [28861]

Ms Harman: There are 535 Privy Counsellors. A list can be found on the Privy Council Office website—www.privycouncil.gov.uk

Mr. Peter Robinson: To ask the Minister of State, Department for Constitutional Affairs, on how many occasions the Privy Council met in *(a)* 2004 and *(b)* 2005. [28862]

Ms Harman: There were 12 Privy Council meetings in 2004, and there have been 12 so far in 2005.

Privy Council Meetings

Andrew Mackinlay: To ask the Minister of State, Department for Constitutional Affairs on how many occasions in the past two years meetings of the Privy Council involving attendance of Ministers have been

held *(a)* outside London and *(b)* in Scotland; how many Ministers were involved; and which of these meetings lasted in excess of 15 minutes. [28150]

Ms Harman: In the past two years there have been four Privy Council meetings outside London, 3 at Windsor Castle and 1 at Balmoral Castle. Seven Ministers were involved in total. No record is kept of the length of Privy Council meetings.

Probate Costs

Lady Hermon: To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of why the costs of probate in Northern Ireland are higher than those elsewhere in the United Kingdom; and if she will make a statement. [28462]

Bridget Prentice: The fee structure for grant of probate in Northern Ireland is calculated on a different basis from England and Wales. Probate fees in Northern Ireland are charged on a sliding scale with reference to the value of the estate.

Saville Inquiry

Mr. Gregory Campbell: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 9 November 2005, on the Saville inquiry, what the previous highest amount of public expenditure incurred in holding a public inquiry in the United Kingdom was; and what the total amount incurred for legal fees on that occasion was. [28461]

Bridget Prentice: To accurately gauge expenditure on public inquires prior to 1990 would be likely to incur unreasonable costs. However, since 1990 the highest expenditure for a public inquiry has been approximately £30 million for the inquiry into Bovine Spongiform Encephalopathy. This figure includes the cost of the inquiry itself, together with the costs of liaison units and legal support for witnesses from all the main Departments involved. Further detailed work would be needed to separate the legal costs from that figure.

Telephone Preference Service (Exemptions)

Bob Russell: To ask the Minister of State, Department for Constitutional Affairs (1) what representations she has received from the charity sector on exempting charities from the list of organisations that are barred from calling people that have registered with the Telephone Preference Service; and if she will make a statement; [28734]

(2) what her Department's policy is on the inclusion of charities among the organisations that are barred from calling people that have registered with the Telephone Preference Service. [28751]

Alun Michael: I have been asked to reply.

The Government have received no representations from the charity sector suggesting that there is any need to exempt charities from the list of organisations which are prohibited from making unsolicited calls to consumers registered with the Telephone Preference Service scheme. Charitable organisations are still able to make calls to such registered consumers if they have received prior consent, which overrides the consumer's TPS registration.

Bob Russell: To ask the Minister of State, Department for Constitutional Affairs what opportunities there are for people who register with the Telephone Preference Service to exclude charities from the list of organisations barred from calling them. [28752]

Alun Michael: I have been asked to reply.

Charitable organisations are still able to make calls to Telephone Preference Service registered consumers if the consumer has given prior consent, as that consent overrides the registration.

Bob Russell: To ask the Minister of State, Department for Constitutional Affairs what assessment her Department has made of the merits of exempting charities from the list of organisations that are barred from calling people that have registered with the Telephone Preference Service. [28753]

Alun Michael: I have been asked to reply.

None. We have received no representations from charities on this matter.

TRADE AND INDUSTRY

Amateur Radio

Annette Brooke: To ask the Secretary of State for Trade and Industry what recent discussions he has had with Ofcom about the Amateur Radio Licensing consultation; and if he will make a statement. [27722]

Alun Michael: I have had no discussions with the Office of Communications (Ofcom) on this matter. Consultation on amateur radio licensing is the responsibility of Ofcom, which is the independent regulator for the communications sector, deriving its main powers and duties directly from statute rather than by delegation from the Secretary of State, and accountable to Parliament in its own right.

Bankruptcies

Bob Spink: To ask the Secretary of State for Trade and Industry how many bankruptcies have been declared in each year since 2003. [27146]

Mr. Sutcliffe: In England and Wales there were:

28,021 bankruptcy orders in 2003

35,898 bankruptcy orders in 2004

For 2005, figures are only available for the first three quarters to end September, there were:

34,782 bankruptcy orders for the first three quarters of 2005 (not seasonally adjusted).

More detailed insolvency statistics for Great Britain from 1997 onwards are available on the DTI website at http://www.dtistats.net/sd/insolv. Figures for 2005 as a whole will be available on 3 February 2006.

British Nuclear Group

Norman Lamb: To ask the Secretary of State for Trade and Industry what discussions his Department has had on the potential sale of British Nuclear Group over the last six months; and if he will make a statement. [28512]

Malcolm Wicks: Ministers and officials have met with BNFL and key stakeholders to discuss a range of strategic options for British Nuclear Group, including the possibility of a sale, to give it the best chance of success in the future and place it in the strongest possible position to win the upcoming NDA site competitions.

Business Support

Norman Lamb: To ask the Secretary of State for Trade and Industry how many small businesses have obtained contracts from Government bodies to conduct research on their behalf under the Small Business Research Initiative in the last two years, broken down by *(a)* number of different companies, *(b)* number of companies who have obtained more than one contract and *(c)* size of the contracts obtained. [28922]

Alun Michael: Not all Government Departments maintained detailed records in respect of their contracts during the voluntary phase of SBRI and so their breakdown requested is not available.

In the Budget on 16 March this year, my right hon. Friend the Chancellor of the Exchequer, mandated Departments to participate in the Small Business Research Initiative and the DTFs Small Business Service will shortly publish the overall performance figures. Where possible the report will give contract values and set out what these represent as a percentage of baseline R and D budgets for 2003–04 and 2004–05.

The Government is taking steps to improve disclosure of Small Business Research Initiative performance by Departments. A new system of record keeping will be in place from April 2006 and we intend that contract details such as have been requested will be available at the end of 2006–07.

Carbon Sequestration Technology

Bill Wiggin: To ask the Secretary of State for Trade and Industry what steps are being taken to improve the use of carbon sequestration technology in the UK. [28486]

Malcolm Wicks *[holding answer 15 November 2005]:* The Carbon Abatement Technology Strategy which I announced in June this year includes a number of activities to encourage the development and deployment of Carbon Capture and Storage (CCS) also known as Carbon Sequestration technologies. Copies of the Strategy are available in the Libraries of the House.

These activities include support for R and D with some £4 million announced for R and D as part of the latest call for proposals under the Department's Technology Programme. Additionally I announced some £25 million from 2006–07 over 4 years for the demonstration of Carbon Abatement Technologies which includes Carbon Capture and Storage.

In his Budget Statement this year my right hon. Friend the Chancellor of the Exchequer said that we would look into the possibility of measures to encourage the deployment of CCS as part of the Climate Change Programme Review. We expect to announce the results of this when the Review is Published in the next few weeks.

A number of other activities identified in the Strategy are also being taken forward.

Clear Skies Programme

Joan Ruddock: To ask the Secretary of State for Trade and Industry how many schools have applied for grants under the community stream of his Department's Clear Skies grant programme. [28657]

Malcolm Wicks *[holding answer 15 November 2005]:* 137 applications were made to Clear Skies from schools of which 71 were offered funding.

Joan Ruddock: To ask the Secretary of State for Trade and Industry what support from his Department will be available to school solar hot water and wind installations after the final funding round for Clear Skies community grants ends on 4 November. [28658]

Malcolm Wicks *[holding answer 15 November 2005]:* Further funding for schools will be available through a low carbon buildings programme, which will allow developers to chose the most appropriate technology for each project, including all those mentioned. We recently announced a budget of £30 million over three years for the new programme which will begin in April 2006, subject to EU State Aids approval. The Department is also looking to work in partnership with major private sector players in the energy field in order to expand the micro generation sector, with a particular emphasis on renewable energy technologies on schools.

Norman Lamb: To ask the Secretary of State for Trade and Industry what the deadline was for community grant applications to the Clear Skies grant programme. [28672]

Malcolm Wicks: The final deadline for community applications to Clear Skies was 4 November

Lynne Jones: To ask the Secretary of State for Trade and Industry what grant support is available to community groups for *(a)* solar water heating, *(b)* wind, *(c)* hydro and *(d)* ground source heat pumps projects following the final deadline for community applications to his Department's Clear Skies programme. [28832]

Malcolm Wicks: Further funding for community groups will be available through the Low Carbon Buildings Programme for which we recently announced a budget of £30 million over three years. The new programme will allow developers to choose the most appropriate technology for each project, including all those mentioned above. The new programme will begin in April 2006, subject to EU State Aids approval. The Department is also looking to work in partnership with major private sector players in the energy field in order to expand the micro generation sector, with a particular emphasis on renewable energy technologies on schools.

Lynne Jones: To ask the Secretary of State for Trade and Industry what the take-up to date has been by *(a)* home-owners and *(b)* community groups of funding for technologies supported under the Clear Skies Initiative for (i) solar water heating, (ii) wind, (iii) hydro, (iv) ground source heat pumps, (v) automated wood pellet stoves and (vi) wood fuel boilers. [28965]

Malcolm Wicks: Household applications under Clear Skies are as follows:

Technology	*Number applications*	*Number accepted*
Solar Thermal	6,393	5,342
Wind Turbines	184	159
Small Scale Hydro Turbines	15	13
Ground Source Heat Pumps	574	489
Biomass–Wood Fuelled Boilers	65	52
Biomass–Pellet Stoves	60	46
Total	7,291	6,101

Community grants supported by technology

	Number of installations/ technologies	*Proportion percentage*
Solar	187	35.66
Wind	65	19.00
Hydro	8	4.93
Heat Pumps	60	16.99
Biomass	65	23.42
	385	100.00
Total number of projects	333	
More than one technology	43	

Coal Health Schemes

Mr. Hood: To ask the Secretary of State for Trade and Industry how many legal firms his Department appointed to process compensation claims under the coal health schemes; and if he will make a statement. [27987]

Malcolm Wicks: The Department does not appoint solicitors, claimants choose their solicitor. To date there are 758 firms handling claims under the coal health schemes.

Mr. Hood: To ask the Secretary of State for Trade and Industry what criteria his Department used in appointing legal firms to process compensation claims under the coal health schemes; and if he will make a statement. [27988]

Malcolm Wicks: The Department does not appoint solicitors, claimants choose their solicitor.

Mr. Hood: To ask the Secretary of State for Trade and Industry how his Department monitors the legal firms who have been appointed to process compensation claims under the coal health schemes; and if he will make a statement. [27989]

Malcolm Wicks: The Department does not appoint solicitors, claimants choose their solicitor. The Law Society is responsible for solicitors' conduct and has a Helpline (0845 608 6565) which claimants may contact with any complaints about individual firms of solicitors.

Competition Act

Charles Hendry: To ask the Secretary of State for Trade and Industry whether *(a)* the Office of Fair Trading and *(b)* other Government Departments consulted the Charity Commission on the impact of the Competition Act 1998 on charities; and what advice the Charity Commission has given on the information-sharing provisions in the Act. [27252]

Mr. Sutcliffe: Prior to the entry into force of the Competition Act 1998 in March 2000, the OFT issued detailed guidelines on the Act and its impact. These guidelines were the subject of extensive public consultation. There is no record of a response to the consultation from the Charity Commission.

Consumer Direct

Norman Lamb: To ask the Secretary of State for Trade and Industry approximately how many hits a week the website Consumer Direct gets; approximately how many consumer complaints are submitted to the website each week; and which five items consumers have most frequently made complaints about in the last three months. [28917]

Mr. Sutcliffe: Consumer Direct has a telephone helpline as well as an online service, which is operational in Scotland, Wales, and six English regions. The service will be available throughout Great Britain in March 2006. On a weekly basis the website receives approximately 8,722 hits a week, and on average 163 complaint forms are submitted. Approximately 20,000 calls a week and 13,000 new cases are received on the telephone helpline. In the last three months the most frequently complained about consumer goods were:

	Complaints
Home maintenance and improvements	11,909
Second hand cars	9,874
Furniture	8,454
Telecommunications	8,155
Audio visual	6,065

Draft Employment Equality (Age) Regulations

Mr. McGovern: To ask the Secretary of State for Trade and Industry (1) what assessment he has made of the potential effect of the draft Employment Equality (Age) Regulations on the provision of flexible retirement ages by private businesses; [28474]

(2) what advice his Department has provided to businesses about the operation of flexible retirement ages in relation to the draft Employment Equality (Age) Regulations. [28475]

Mr. Sutcliffe *[holding answer 14 November 2005]:* The draft Employment Equality (Age) Regulations introduce a new statutory right for employees to request working beyond their employers' compulsory retirement age, if there is one. Employers will have a duty to consider such requests seriously. The "Coming of Age" consultation document that we published on 14 July explained that:

"The statutory request by the employee is to continue working under the same terms and conditions as had applied up to the retirement date. However, there is nothing to prevent the

employee proposing, or the employer suggesting, a different working pattern that might suit them both better. Neither side will be obliged to accept proposals for change."

We have asked ACAS to produce good practice guidance on the regulations, which will be published when the regulations have been approved by Parliament.

We believe that the new "duty to consider" procedure will help ensure a constructive discussion about options for retirement that will help accelerate the necessary culture change.

Mr. McGovern: To ask the Secretary of State for Trade and Industry under what circumstances an individual forced to retire over the age of 65 will be able to appeal on grounds of age discrimination under the draft Employment Equality (Age) Regulations. [28476]

Mr. Sutcliffe *[holding answer 14 November 2005]:* The dismissal of an employee at or over the age of 65 will not contravene the regulations if the reason for the dismissal is retirement.

Employees will be able to appeal if they believe that the employer has not carried out the new "duty to consider" procedure correctly in connection with requests to work beyond a compulsory retirement age. Employees can also challenge a compulsory retirement they believe to be dismissal for some other reason. The consultation on the draft regulations closed on 17 October. We are considering what changes we need to make to the regulations in the light of those responses.

Economic Cycles

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what assessment he has made of the relative responsiveness to the natural economic cycle of distribution and manufacturing. [27291]

Alun Michael: Analysis of data over the last twenty years shows that the output of the manufacturing sector has tended to behave more cyclically than the economy as a whole, and that the distributive sectors have experienced a similar strength of cycle to that in the economy as a whole. One reason for manufacturing having a stronger cycle is that it is very dependent on world demand, and thus affected by external shocks.

These findings should be seen against the substantial improvement in macroeconomic stability in the economy as a whole in recent years. In the period since 1997 UK GDP growth has been more stable than any other G7 country. By contrast, in the period 1979–1996 growth in the UK was the most volatile in the G7, with the exception of Canada.

Electricity

Norman Baker: To ask the Secretary of State for Trade and Industry (1) what assessment has been made of the costs associated with being able to provide for future maximum winter electricity demand as a consequence of *(a)* providing for a strengthened and expanded national grid and *(b)* decentralising energy supplies; [27850]

(2) what assessment he has made of the relative costs of meeting peak winter demand for electricity through *(a)* the provision of extra capacity within the national grid and *(b)* the decentralisation of energy supply. [27852]

Malcolm Wicks: Assessments of this nature are for market participants to make. National grid publish information on their electricity demand forecasts in their seven year statement to assist such assessments.

Emissions Targets

Norman Lamb: To ask the Secretary of State for Trade and Industry what assessment he has made of the merits of a waiver of fines for breaching limits on carbon dioxide emissions in the event of a cold winter; and what assessment he has made of *(a)* the potential for a breach of carbon dioxide emissions targets, in the event of a cold winter a shortfall of gas supplies and *(b)* options to ensure security of supply. [28508]

Malcolm Wicks: There are no regulatory limits on carbon dioxide emissions. The EU Emissions Trading Scheme requires participants to produce carbon allowances equal to their emissions on an annual basis. Under the rules of the EU Emissions Trading Scheme Directive, the Government allocates a number of allowances to installations free of charge. If an installation emits a high level of carbon at one time, it can either purchase additional allowances to cover that or reduce its carbon emissions at other times so as to remain within its existing free allocation for the year or to sell allowances. The scheme therefore does not place any constraint on fuel switching in the event of temporary tightness in the gas supply market, whether due to a cold winter or other cause. The Government has no intention of waiving the requirements of the EU Emissions Trading Scheme.

National Grid's Winter Outlook Report, published by Ofgem on 5 October and available at http://www.ofgem.gov.uk/temp/ofgem/cache/cmsattach/12493_214_05.pdf sets out their assessment of gas supply and demand for the coming winter.

The Government believe that security of supply is best achieved through a liberalised, competitive market in which market participants have every commercial incentive to ensure that supply meets demand and price signals provide the most effective and efficient means of enabling them to do so. The Government and Ofgem work continually with National Grid and with Ofgem to find ways of improving the operation of the market, for example through the provision of better and more timely information and through tackling potential regulatory barriers.

Employment Regulations

Mr. McGovern: To ask the Secretary of State for Trade and Industry what assessment he has made of the likely effect of the draft Employment Equality (Age) Regulations on the pay of under 21-year-olds. [28454]

Mr. Sutcliffe: The Government are satisfied that the national minimum wage age bands are entirely consistent with the Employment Equality (Age) Regulations.

Energy Costs

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what recent assessment he has made of the impact of increased energy costs on British manufacturing companies. [28480]

Malcolm Wicks: The impact of increased energy costs on British manufacturing companies will depend on a variety of factors, including how much gas and/or electricity a particular company uses, the degree of their exposure to spot and/or forward prices, and the duration of the high prices. The impact on their competitiveness will also be affected by the energy prices paid by their competitors, both in the UK and internationally.

Several representative trade associations, such as the Engineering Employers Federation and the British Plastics Federation have made assessments of the impact of increased energy costs on their members. The Department is working with the Energy Intensive Users Group and Ofgem through the Gas Prices Working Group to develop ideas for improving the operation of the forward market and ways to mitigate the effects of high forward gas prices. The group has agreed an Action List of short to medium term measures, such as maximising UK gas supplies, encouraging demand side response and pursuing energy market liberalisation in the EU.

Alan Simpson: To ask the Secretary of State for Trade and Industry what discussions he has had with *(a)* Cabinet colleagues and *(b)* major UK oil and gas producers concerning the mitigation of the impact of rising energy prices on low-income households. [28492]

Malcolm Wicks: I discuss aspects of energy policy, including tackling fuel poverty, with ministerial colleagues as appropriate. Businesses benefit from corporate social responsibility programmes, and I have encouraged companies in the energy sector to consider low-income households in developing such programmes. It is for individual companies to devise their own corporate social responsibility measures.

European Institute of Technology

Mr. Weir: To ask the Secretary of State for Trade and Industry (1) whether the UK Government will support European Commission proposals for the establishment of a European Institute of Technology; [26198]

(2) what discussions he has had with the European Commission on establishing a European Institute of Technology; [26199]

(3) whether the UK Government would support a bid from Scottish universities to host all or part of the European Institute of Technology. [26200]

Bill Rammell *[holding answer 9 November 2005]:* The European Commission is currently conducting a consultation on the idea of setting up an European Institute of Technology. I have not had any discussions with the Commission on this issue, but I am clear that any further proposals must result in adding value to European universities—boosting excellence and ensuring Europe is prepared to respond to the challenge of globalisation. We do not however believe that establishing a bricks and mortar institution would be appropriate, but clearly we will want to ensure that universities throughout the UK are well placed to take advantage of whatever eventually emerges from the Commission. The UK response to the Commission's consultation will be submitted shortly and a copy will be placed in the House Libraries.

Export and Investment Guarantees Act

Mr. Amess: To ask the Secretary of State for Trade and Industry if he will make a statement on the operation of the Export and Investment Guarantees Act 1991. [28274]

Ian Pearson: The Export Credits Guarantee Department (ECGD) is the UK's export credit agency. It is a Department of State whose existence and powers are governed by the Export and Investment Guarantees Act 1991. Its core statutory powers are to facilitate the export of goods and services from the United Kingdom and to insure specified risks on overseas investments made by United Kingdom entities.

Details of the Department's operations are published in its annual review and resource accounts, which are laid before Parliament every year and can be found on ECGD's website at www.ecgd.gov.uk/index/pr_home/pi_ar.htm.

Export Credits Guarantee Department

Norman Lamb: To ask the Secretary of State for Trade and Industry if he will place in the Library the response made by the Export Credits Guarantee Agency to the Berne Union Survey on Agent's Commissions, published in April. [28660]

Ian Pearson: I have placed copies of the Export Credits Guarantee Department's response to the Berne Union Survey on Agent's Commissions in the Libraries of the House.

Fireworks

Mr. Anthony Wright: To ask the Secretary of State for Trade and Industry how many injuries resulting from fireworks there have been in *(a)* Norfolk, *(b)* the East of England, *(c)* England and *(d)* the United Kingdom in each of the last five years. [28039]

Mr. Sutcliffe: The fireworks injury statistics for these years are as follows:

	Firework injuries
(a) Norfolk	not available
(b) East of England	
2004	112
2003	77
2002	71
2001	not available
2000	not available
(c) England	
2004	1,021
2003	974
2002	833
2001	1,208
2000	849

	Firework injuries
(d) United Kingdom	
2004	1,160
2003	1,136
2002	1,017
2001	1,362
2000	972

Statistics for the United Kingdom are for England, Scotland and Wales only. Northern Ireland is not included.

Gas Supplies

Adam Price: To ask the Secretary of State for Trade and Industry whether the Government continue to regard Iran as a potential supplier of gas to the United Kingdom. [28397]

Malcolm Wicks: With a share of over 15 per cent. of the world's proven reserves of natural gas, Iran has the potential to become an increasingly important gas producer. Whether Iranian gas might at some point in the future supply the UK market would depend on Iranian production and export policies, and be a matter for commercial operators who have every incentive to make their own assessment of the merits of supplies from different countries.

Norman Lamb: To ask the Secretary of State for Trade and Industry what steps his Department is taking to identify *(a)* which businesses are likely to be most affected by a shortfall in gas supplies and *(b)* the impact of any shortfall on such businesses; what measures his Department is considering to address such concerns; and if he will make a statement. [28677]

Malcolm Wicks: In the event of a shortfall in gas supplies the Government expect gas demand to reduce itself in response to rising prices. Which companies choose to reduce their gas consumption in this way is a matter for themselves and will depend on such matters as the terms of their gas supply contracts and their own individual cost structures. In previous years, the electricity supply industry has routinely responded in this way to seasonally higher gas prices, switching electricity production to coal-fired and other generating stations instead, and this sector would be expected to respond in the same way this year. This is described in detail in National Grid's Winter Outlook Report, published by Ofgem on 5 October and available at www.ofgem.gov.uk/temp/ofgem/cache/cmsattach/12493_214_05.pdf.

In addition, the Government commissioned a report from Global Insight earlier this year to consider the likely response from other industrial sectors. This is available at http://www.dti.gov.uk/energy/publications/policy/industrial_demand_responde.pdf. Work is currently under way jointly with industry to update the conclusions of that work in the light of developments over the summer.

The Government and Ofgem have worked with large industrial users of gas through a Demand Side Working Group and through a Gas Prices Working Group to consider ways of facilitating the operation of the market, particularly on the demand side, and mitigating the impact of higher gas prices. Outputs of that work include the launch of a new website providing near real-time information about supply and demand in the gas market and the introduction of a Gas Balancing Alert notifying market participants when the supply-demand balance is likely to be tight. The Government are also aware of innovative work by market participants themselves to develop instruments to encourage demand side response on a commercial basis.

MG Rover

Mr. Hoyle: To ask the Secretary of State for Trade and Industry on what date his Department's inspectors' report on MG Rover will be published. [28013]

Mr. Sutcliffe: The inspectors have not completed their enquiries and so have not yet submitted their report to my right hon. Fiend the Secretary of State for Trade and Industry. Whilst the investigation is making good progress I am unable to say when the report will be submitted. The Secretary of State will then consider publication.

Mr. Hoyle: To ask the Secretary of State for Trade and Industry how much public funding has been allocated to tackle issues related to the collapse of MG Rover to date, broken down by main cost area; and what estimate he has made of the cost of administration of MG Rover by PricewaterhouseCoopers to date. [28311]

Ian Pearson: The main areas of public funding allocated to tackle issues related to the collapse of MG Rover have been:

1. Support Package

The Government announced a £150 million package of support following the collapse of Rover on 15 April:

up to £50 million for training for workers made redundant at MG Rover and suppliers (£25 million of new money from the DTI, DWP and European Social Fund and priority access to £25 million from the Employer Training Pilots for companies affected by MG Rover in the West Midlands and nationally; and support for people wanting to start businesses);

over £40 million to cover redundancy payments and protective awards for Longbridge workers;

£24 million for the MG Rover Task Force, including £15 million to establish a loan fund to help otherwise viable businesses affected by MG Rover's collapse and £9 million for other purposes; and

£41.6 million already made available for MG Rover suppliers.

2. RDA Investment

In addition, Advantage West Midlands is making an investment of £42 million for the redevelopment of the Longbridge site and the establishment of a technology park there together with a grant of £19.3 million to Warwick Manufacturing Group's International Automotive Research Centre.

3. Loan to Administrators

The Government made a £6.5 million loan to the administrators to sustain the company (i.e. to allow wages and other expenses to be paid) for a week in order to provide a short breathing space to assist the administrators to look quickly at any prospect of selling part or all of the companies as a going concern and to enable the position of the workforce to be resolved in an orderly manner.

4. Company Inspection

In addition, on 31 May 2005 the Secretary of State appointed inspectors to investigate issues raised by the Financial Reporting Review Panel in their report and developments after 2003. The total costs of both inspectors as at the end of September are £1.6 million. The accountant inspector has a team of junior staff working for him, retrieving, copying, logging and analysing documents. The costs are inherently front loaded because of the need to obtain the records and financial information at the outset. Whilst it is always difficult to predict the length of inspections both the Secretary of State and the inspectors are intent on completing this inspection as quickly as possible, with due regard to the fairness procedures, and to the thoroughness of the task.

5. PWC costs

PWC report to the company creditors on the joint administrators remuneration costs. The latest (six month) report showed PWC's costs as £5.6 million for MG Rover Group Ltd and £1 million for Powertrain Ltd. There will be additional costs for some of the other companies in administration.

Norman Lamb: To ask the Secretary of State for Trade and Industry what the total estimated costs are of the investigation commissioned by his Department into the collapse of MG Rover; and what the expected timetable is for completing this work. [28683]

Mr. Sutcliffe: The total costs of both inspectors as at the end of September are £1.6 million. The accountant inspector has a team of junior staff working for him, retrieving, copying, logging and analysing documents. The costs of the inspection are inherently front loaded because of the need to obtain the records and financial information at the outset. While it is always difficult to predict the length of inspections both the Secretary of State and the inspectors are intent on completing this inspection as quickly as possible, with due regard to the fairness procedures, and to the thoroughness of the task.

Nuclear Industry

Mr. Drew: To ask the Secretary of State for Trade and Industry what studies he has commissioned into the impact of *(a)* contractualisation and *(b)* privatisation on the British nuclear industry; and if he will make a statement. [28027]

Malcolm Wicks: None.

Office of Fair Trading

Charles Hendry: To ask the Secretary of State for Trade and Industry how many staff hours the Office of Fair Trading (OFT) has devoted to its inquiry into fees at independent schools; how the schools being investigated were selected for inclusion in the inquiry; and what proportion of the OFT's staff has been involved in the inquiry. [26993]

Mr. Sutcliffe: The information is as follows:

(i) The OFT informs me that it does not have figures that differentiate costs between cases pre-dating the launch of its dedicated time recording systems on 1 April 2004. The investigation into independent school fees commenced in June 2003. The figures available show that the hours worked by staff in the OFT's Competition Enforcement Division on the investigation since 1 April 2004 are approximately 5354. These figures are the direct costs recorded by staff in the OFT's Competition Enforcement Division and do not include time spent by specialists in the OFT's Legal Division or the OFT's economic advice team in its Markets and Policy Initiatives Division.

(ii) The OFT's investigation concerns the exchange of confidential information amongst fee paying independent schools relating to their intended fee increases and fee levels. The OFT has focused its investigation on those schools involved in the survey known as the "Sevenoaks survey". Further information is contained in a press notice that was issued by the OFT on 9 November 2005 which is available on the OFT website:

www.oft.gov.uk/News/Press = = releases/2005/214

(iii) Save at the very outset, when the investigation was led by a single Principal Investigation Officer, the investigation has at any one time been led by two Principal Case Officers with support, as required, from other staff within the OFT's Competition Directorate Enforcement Division and from the OFT's Legal Division and the economic advice team in its Markets and Policy Initiatives Division. The case has also had up to three paralegal temporary staff employed at any one time to assist with the organisation of the 13,000 plus documents on the OFT's file, to which the parties have a right of access and from which confidential information must be redacted.

The level of resources dedicated to the case is in proportion to the staff resources the OFT's Competition Enforcement Division dedicates to dealing with cases of this size under the Competition Act 1998. The Division has 156 dedicated staff, including 66 Principal Case Officers.

Packaging

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what representations he has received from the packaging industry requesting a *(a)* review of and *(b)* changes to the Supermarkets Code of Practice with Suppliers; and if he will make a statement. [28489]

Mr. Sutcliffe *[holding answer 15 November 2005]:* I have received a number of representations concerning the supermarkets code form a range of stakeholders. The Department currently handles around 50,000 letters a year and approximately 200,000 emails, but that a further breakdown in the form requested is not available.

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what representations he has received calling for *(a)* taxes and *(b)* bans on specific packaging material and products; and if he will make a statement. [28490]

Malcolm Wicks: None. My right hon. Friend the Secretary of State has not received representations calling for either of these things in relation to packaging material and products.

Pakistan

Mr. Malik: To ask the Secretary of State for Trade and Industry if the Government will use their EU presidency to press for Pakistan following the earthquake to be given at least the same trade concessions that were given to the tsunami-affected countries. [27471]

Ian Pearson: To help the tsunami-affected countries, there was an attempt to bring forward the commencement date of the new Generalised System of Preferences (GSP) to 1 April 2005 from 1 January 2006. Unfortunately agreement could not be reached at the EU General Affairs External Relations Council on 16 March 2005 to do this (because of differences between member states over the graduation threshold for textiles and clothing). However despite this effort to bring forward the new scheme, the tsunami-affected countries were always set to benefit from the new GSP scheme which will come into force from 1 January 2006.

Sri Lanka, however, has benefited from the introduction of a new GSP Plus scheme which has been in place since 1 July 2005. It was the only tsunami-affected country to meet the criteria for this scheme.

Pension Reform

Mr. Waterson: To ask the Secretary of State for Trade and Industry when he was first informed that he would be responsible for public sector pensions reform. [25163]

Alan Johnson: I was first informed of this responsibility in mid-March 2005.

Mr. Waterson: To ask the Secretary of State for Trade and Industry from which Departments officials who accompanied him to meetings with trade union representatives to discuss public sector pensions reform came. [25198]

Alan Johnson: I was accompanied to those meetings by officials representing employer Departments (DfES, DH, Cabinet Office and ODPM), policy officials from HMT and Cabinet Office and a DTI Private Secretary and Special Adviser.

Mr. Waterson: To ask the Secretary of State for Trade and Industry if he will list *(a)* the dates of and *(b)* those present at meetings attended by him to discuss public sector pensions reform with trade union representatives. [25199]

Alan Johnson: *(a)* I attended meetings on 31 March, 22 June, 11 and 26 July and 17 and 18 October.

(b) Representatives of the TUC, UNISON, PCS/CCSU, Amicus, SCP, NATFHE, GMB, T and G, ATL and TGWU were present at these meetings. My right hon. Friend, Chancellor of the Duchy of Lancaster and Minister for the Cabinet Office and my hon. Friend the Member for Wentworth also attended, together with officials representing employer Departments (DfES, DH, Cabinet Office and ODPM), policy officials from HMT and Cabinet Office and a DTI Private Secretary and DTI Special Adviser. Different combinations of these people were present at the various meetings: not everyone attended every meeting.

Phoenix Development Fund

Ed Balls: To ask the Secretary of State for Trade and Industry how many initiatives in *(a)* West Yorkshire, *(b)* Wakefield District and *(c)* Normanton constituency have been awarded funding from the Phoenix Development Fund; and if he will extend funding to encourage the growth of more social enterprises in disadvantaged communities. [28260]

Alun Michael: The Phoenix Development Fund has awarded funding to six projects in West Yorkshire. One of those projects covered the Wakefield district; none covered the Normanton constituency.

Business Support activities and funding for social enterprises, and other disadvantaged communities, is part of the new remit of regional development agencies, who best understand the needs of their communities.

Post Offices

Norman Lamb: To ask the Secretary of State for Trade and Industry what recent discussions his Department and Postcomm have had with the Department of Environment, Food and Rural Affairs and local authorities regarding supporting the rural Post Office network; and if he will make a statement. [28664]

Barry Gardiner: DTI Ministers and officials meet with colleagues across Government, including those in Defra and the Local Government Association on a regular basis to discuss a wide range of issues relating to the Post Office network, including the future of the rural network.

I have asked the Chief Executive of Postcomm to respond directly to the hon. Member on any discussions it has had with Defra and local authorities.

Power Supply (Dacorum)

Mike Penning: To ask the Secretary of State for Trade and Industry what assessment he has made of the quality of power supply to businesses and homes in Dacorum. [27824]

Malcolm Wicks: Any concerns regarding the quality of power supplies should be directed in the first instance to the appropriate electricity provider. Further concerns should be directed to Energywatch, the independent body for electricity and gas consumers.

Nationally, I am aware that statistics from national grid show that transmission (high voltage) network reliability has improved from 99.9989 per cent. between 1995–2000 to 99.9992 per cent. from 2000–05. The reliability of the distribution networks in Britain has also improved, with power cuts down by 11 per cent. since privatisation.

Radioactive Waste

Mr. Chaytor: To ask the Secretary of State for Trade and Industry what assessment he has made of the difference in the radioactive longevity of *(a)* radioactive waste arising from irradiated thermal oxide pressurised water reactor nuclear fuel and *(b)* mixed plutonium-uranium oxide fuel. [24641]

Malcolm Wicks: The Department has made no such assessment but I am advised that recent studies by Nexia Solutions on comparison of this nature showed that the radio toxicity of irradiated MOX starts off higher compared to irradiated uranium oxide fuel. This is because MOX incorporates plutonium removed from a store and the residual mass of plutonium at discharge from the reactor is higher. However, for a meaningful comparison, it is prudent to compare the radio toxicity of irradiated MOX fuel against that of irradiated

uranium oxide fuel combined with stored plutonium. This more meaningful comparison shows that the radio toxicity of irradiated MOX starts off higher than irradiated uranium oxide/stored plutonium until after 1,000 years when the radio toxicity of the irradiated MOX falls below that of the irradiated uranium oxide/ stored plutonium.

REACH Proposals

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many representations he has received on the application of REACH proposals to the UK minerals industry, broken down by those *(a)* supporting and *(b)* opposing its application; and if he will make a statement. [28761]

Barry Gardiner: The Government have received a number of representations from different parts of industry, including the minerals sector, as well as from many other stakeholders on the proposed REACH regulation (registration, evaluation and authorisation of chemicals). These included responses to the UK's public consultation last year.

Engagement with all interested stakeholders has been central to the Government's development of policy on the REACH regulation, and the representations made have been taken into account as far as possible in refining successive drafts of the regulation.

There is general support from stakeholders for the regulation's objectives of enhancing protection of human health and the environment, and rationalising the existing fragmented regulatory regime. The detailed scrutiny given to the regulation over the last two years is now close to conclusion, and includes clarification of certain exemptions that have been welcomed by the minerals industry. The Government believe the final outcome will enable the REACH regulation to achieve its objectives in a way that helps maintain industry competitiveness.

Red Diesel

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what the price is of red diesel for agricultural use; and what it was in *(a)* 1975, *(b)* 1980, *(c)* 1990 and *(d)* 2000. [29011]

Malcolm Wicks: The price of red diesel for agricultural use in 1975, 1980, 1990 and 2000 is given in the following table.

	Price (pence per litre)
1975	5.7
1980	15.8
1990	17.0
2000	23.9

Regional Development Agencies

Dr. Pugh: To ask the Secretary of State for Trade and Industry if he will make the spending plans of regional development agencies more accessible and transparent. [28530]

Alun Michael: The spending plans of England's Regional Development Agencies (RDAs) are set out in their corporate plans for the period 2005 to 2008. The RDAs consulted widely with all interested parties about the development of their corporate plans and have published the plans on their websites. The RDAs will also publish on their websites six monthly progress reports on the delivery of their corporate plan commitments.

Norman Lamb: To ask the Secretary of State for Trade and Industry how much the regional development agencies have paid to businesses *(a)* in 2005 and *(b)* in the previous three years in respect of research and development grants, broken down into (i) amounts paid to small and medium sized businesses and (ii) amounts paid to large sized businesses. [28639]

Alun Michael: I have asked each Regional Development Agency to provide me with the relevant information about the region's activities. I will write to the hon. Gentleman when I have the necessary information and place a copy of the letter in the Libraries of the House.

Norman Lamb: To ask the Secretary of State for Trade and Industry what formal co-ordination takes place *(a)* between the overseas offices of the regional development agencies and *(b)* between the regional development agencies and UK Trade and Investment to attract inbound investment into the UK; how frequently consultation takes place and at what level; and if he will make a statement. [28921]

Alun Michael: UK Trade and Investment (UKTI) overseas offices systematically hold regular in-country meetings, collectively and individually with RDA overseas offices. Frequency varies from country to country. Meetings include an annual peer review and systematic bilateral exchanges of pursuit lists to maximise effectiveness in attracting inward investment.

Renewable Energy

Norman Lamb: To ask the Secretary of State for Trade and Industry what steps his Department is taking to ensure continuity of grant support to *(a)* school and *(b)* other community facilities for (i) wind, (ii) solar hot water, (iii) hydro, (iv) biomass and (v) ground source heat pump projects. [28514]

Malcolm Wicks: A new Low Carbon Buildings Programme will continue to offer grant support to school and community projects once the current Clear Skies Programme comes to an end. The new programme, for which we recently announced a budget of £30 million over the years, will begin in April 2006, subject to EU state aids approval. The Department is also looking to work in partnership with major private sector players in the energy field in order to expand the micro generation sector, with a particular emphasis on renewable energy technologies on schools.

Lynne Jones: To ask the Secretary of State for Trade and Industry what estimates he has made of the average Government funding per annum for *(a)* 2002 to 2006 and *(b)* 2006 to 2009 for (i) the micro-renewables sector as a whole, (ii) the solar photovoltaic programme and (iii) the micro-renewable technologies hitherto supported by the Clear Skies initiative. [28834]

Malcolm Wicks: Both the solar photovoltaics (PV) programme and Clear Skies run until March 2006. The PV programme had a budget of £31 million from 2002–06.

The Clear Skies programme had a budget of £12.5 million from 2003–06. The new low carbon buildings programme will have a budget of £30 million over three years. It will start in April 2006 subject to EU State Aids clearance. £1 5 million of the £30 million budget has been brought forward to ensure a smooth transition between the old programmes and the new one to address industry concerns of a potential funding gap.

Research and Development

Mr. Martyn Jones: To ask the Secretary of State for Trade and Industry what assessment he has made of the performance of companies which rely heavily on investment in research and development in the last four years; and if he will make a statement. [25432]

Alun Michael: On 24 October the Department of Trade and Industry published the 15th annual R and D Scoreboard. This gives financial information about the top 1,000 global companies by R and D investment and the top 750 UK-based companies by R and D investment.

Despite an overall fall of 0.5 per cent. in the R and D reported by UK-based companies from 2004, the 2005 R and D Scoreboard contains encouraging signs of growth in UK R and D-intensive companies. There were 7 per cent. more ""R and D vigorous" firms (those with R and D spending of at least 4 per cent. of sales and over £l million) than in the previous year, and 32 per cent. more than in 2001. And there was a 77 per cent. increase in middle-sized, very R and D intensive companies with R and D intensity of over 10 per cent. substantial R and D of over £6.4 million and sales of over £26 million.

Details of the Scoreboard are available from http://www.innovation.gov.uk/rd_scoreboard/

Social Enterprises

Ed Balls: To ask the Secretary of State for Trade and Industry how much government funding social enterprises in *(a)* West Yorkshire, *(b)* Wakefield district and *(c)* Normanton constituency (i) have received in the 2005–06 financial year and (ii) received in 2004–05. [28246]

Alun Michael: DTI sees social enterprise as a key element in delivery of the enterprise agenda, and a specific social enterprise day this week as part of Enterprise Week has helped to make this point in Yorkshire and elsewhere.

Yorkshire Forward, as the regional development agency for Yorkshire and the Humber, has provided the following investment to support the Social Enterprise sector's development across West Yorkshire. This is being delivered through W.Y.S.E. Link, (a partnership between Business Link West Yorkshire and the Social Enterprise Support Centre) to deliver tailored support to social enterprises and grow the sector.

2003–04: £1,080,337

2004–05: £1,549,634

Information is not available at district or constituency level.

Ed Balls: To ask the Secretary of State for Trade and Industry how many new jobs have been created through social enterprise in *(a)* West Yorkshire, *(b)* Wakefield district and *(c)* Normanton constituency since 1997. [28259]

Alun Michael: A total of 421 jobs have been created in West Yorkshire, including 24 in Wakefield, according to figures provided by W.Y.S.E Link which is a partnership between Business Link West Yorkshire and the Social Enterprise Support Centre. It's purpose is to deliver tailored support to social enterprises and grow the sector. It is supported jointly by Yorkshire Forward as the regional development agency to the region and Business Link West Yorkshire.

Ed Balls: To ask the Secretary of State for Trade and Industry what steps he is taking to encourage the growth of social enterprises in the most deprived areas of Wakefield district, with particular reference to Normanton constituency. [28261]

Alun Michael: The continued development of the social enterprise sector across the region remains a key priority for Yorkshire Forward, the regional development agency for Yorkshire and the Humber. Yorkshire Forward recognises the unique potential of social enterprises to stimulate economic regeneration and business growth in some of our more deprived areas.

As a result, providing support for the social enterprise sector is a key priority within the consultation draft of the revised regional economic strategy, and via its corporate plan, Yorkshire Forward has committed to working with partners to mainstream social enterprise support within the Business Link brokerage networks—something that is already well established within West Yorkshire via WYSE Link, a partnership between Business Link West Yorkshire and the Social Enterprise Support Centre to deliver tailored support to social enterprises and grow the sector.

In addition, Yorkshire Forward is one of the key partners in the Social Economy Development Framework for Yorkshire and Humber, and 'Onwards and Outwards—an investment plan for social enterprise for Yorkshire and Humber 2004 to 2014'.

As part of this region-wide commitment, Yorkshire Forward has already invested over £1.5 million in WYSE Link, and has recently made an additional investment of some £5.7 million to further expand WYSE Link's provision up to March 2009. This ongoing support will help to ensure that social enterprises across West Yorkshire continue to receive a comprehensive and expert business support service.

Support is available across West Yorkshire and is not available at constituency or district level.

In addition the Yorkshire and the Humber European Objective 2 programme has also recently developed a specific measure aimed at social enterprises. The total amount of funding available is £6 million ERDF which, with matched funds, should deliver £15 million worth of

assistance by 2008. So far one project has been approved in West Yorkshire, based in Wakefield, which will assist 35 social enterprises.

In 2005, all local authorities in receipt of neighbourhood renewal funding have been invited to apply for funding under the local growth initiative, LEGI, to promote and remove barriers to enterprise in the most deprived areas in England. Those authorities have been given between £80,000 and £120,000 pump priming funds, to help with the development of their proposals. Entry is through a three year rolling programme of annual competitions. Successful applicants will receive anything from £2 million to £10 million, available from five to 10 years.

Solar Photovoltaics Programme

Norman Lamb: To ask the Secretary of State for Trade and Industry what steps his Department has taken to implement the Government's White Paper commitments to a 2002 to 2012 UK solar photovoltaics programme. [28669]

Malcolm Wicks: The Department has supported photovoltaics since 2002 through the 31 million Major Photovoltaics Demonstration Programme. We plan to continue its support for photovoltaics and other building scale renewables through a low carbon buildings programme, which is currently under development. The new programme will have a budget of £30 million over three years. It will start in April 2006 subject to EU State Aids clearance.

Lynne Jones: To ask the Secretary of State for Trade and Industry what steps his Department has taken to implement the *(a)* 2001 Opportunities for All and *(b)* 2003 Energy White Paper commitments to a 10 year solar photovoltaics programme. [28833]

Malcolm Wicks: The Department has supported Photovoltaics since 2002 through the £31 million Major Photovoltaics Demonstration Programme. We plan to continue its support for Photovoltaics and other building scale renewables through a low carbon buildings programme, which is currently under development. The new programme will have a budget of £30 million over three years. It will start in April 2006 subject to EU State Aids clearance.

Lynne Jones: To ask the Secretary of State for Trade and Industry what the take-up to date has been by *(a)* home-owners and *(b)* community groups of the funding for photovoltaics under the Major Photovoltaics Demonstration Programme. [28966]

Malcolm Wicks: Under the Major Photovoltaics Demonstration Programme the number of projects offered grants under each stream are as follows:

(a) 1,551, of which 29 were rejected

(b) 213

Ian Lucas: To ask the Secretary of State for Trade and Industry what assessment he has made of the merits of introducing a similar system to the German feed-in tariff for solar photovoltaics in the UK. [27404]

Malcolm Wicks: We believe for the UK that it would not be right to set a price for exported electricity. To do so would risk distorting the electricity supply market and would be incompatible with the liberalised arrangements for the UK electricity market and the market for renewable electricity provided by the Renewables Obligation. The framework underpinning our competitive energy markets was established to provide market-based solutions to our energy needs. Intervention by the Government to the extent of setting a price for exported electricity would be an unwarranted intervention that could have adverse effects on the confidence and certainty our liberal framework provides for investors.

Ian Lucas: To ask the Secretary of State for Trade and Industry what assessment he has made of the impact on private sector investment in the UK solar photovoltaics industry of his Department's decision to develop a technology-blind low carbon buildings programme. [27405]

Malcolm Wicks: The Renewable Innovation Review, February 2004, recommended a more holistic approach to energy use in buildings incorporating both energy efficiency and renewable energy technologies. It recommended taking this forward through a technology blind, capital grant based, low carbon buildings programme and this is what we intend to do. A budget of £30 million over three years for the programme was announced on 2 November. It will be launched in April 2006 subject to EU state aids clearance.

The new programme and the wider micro generation strategy currently under development will aim to introduce further measures to help develop a sustainable market for solar PV as well as all the buildings renewable technologies.

Sunday Trading

Norman Lamb: To ask the Secretary of State for Trade and Industry if he will publish the recently commissioned review of extension of Sunday trading; and if he will make a statement. [28685]

Mr. Sutcliffe: The Department is in the process of commissioning research into the liberalisation of Sunday Trading. We expect the work to be completed in March, when we will publish the results.

Telephone Preference Service

Norman Lamb: To ask the Secretary of State for Trade and Industry on how many occasions enforcement action has been taken against companies for acting in breach of telephone preference service rules in each of the last five years. [20955]

Alun Michael: The Information Commissioner, who has responsibility for the enforcement of the Telephone Preference Service scheme, initially warns companies informally that it will initiate formal action unless they cease to make calls to numbers registered with the Telephone Preference Service. The Commissioner tells me that this approach has been effective to date without the need for formal action, but that he will have no

hesitation in using the powers of this office if there is any evidence of a failure to comply with a warning.

Trade Missions (India)

Mr. Evans: To ask the Secretary of State for Trade and Industry how many trade missions to India involving businessmen have been sponsored by his Department in each of the last five years. [25730]

Ian Pearson [holding answer 7 November 2005]: UK Trade and Investment's Support for Seminars and Exhibitions Abroad Scheme (SESA) supported 27 companies on sectoral missions to India in 2004–05. UKTI Forecast that 76 companies will go on SESA supported sectoral missions to India in 2005–06.

The outward Mission Scheme, which ceased on 31 March, supported 52 companies on horizontal missions to India in 2004–05. Horizontal missions are now organised and run independently by the regions. Data for the years prior to, and post 2004–05 is held in a variety of locations and could only be provided at disproportionate cost.

Tyres

Norman Baker: To ask the Secretary of State for Trade and Industry how many tyres were *(a)* purchased, *(b)* reused and *(c)* disposed of to (i) landfill, (ii) incineration, (iii) illegal fly-tipping and (iv) other means in each year since 2001. [27795]

Malcolm Wicks: Statistics on replacement tyre sales are provided by the British Rubber Manufacturers' Association and the Imported Tyre Manufacturers' Association. These sources represent the majority of activity in this sector, but there are other routes to market and the figures should therefore be viewed as indicative. A similar caution applies to the information relating to used tyre disposal and recovery, which DTI compiles on behalf of the used tyre working group.

Replacement tyre sales

	Units	*Tonnes*
2001	24,870,298	234,250
2002	25,485,101	240,000
2003	26,570,720	248,250

A figure for total used tyre arisings also needs to take account of various reuse tyres, not included in the previous figures, including retreads and part-worns, tyres on end of life vehicles and imports of used tyres.

Used tyre arisings	*2001*	*2002*	*2003*
Units	52,832,000	47,169,500	46,662,000
Tonnes	481,500	447,000	444,000
Tonnes			
Reused	117,650	105,100	113,400
Energy recovery	40,000	48,000	77,500
Other recovery	132,850	147,400	174,500
Total	290,500	300,500	365,400

Information covering 2004 and the first six months of 2005 is expected to be available in early December. Figures already received covering 2004 show that the overall used tyre recovery performance has continued to improve.

Tyres disposed of to landfill arise from two principal channels, retail outlets and end of life vehicles (ELVs). In the former case, figures show a sharp drop from over 87,000 tonnes in 2001 to under 30,000 tonnes in 2003. In the latter ELV a figure of 57,000 tonnes has remained constant for a number of years on the basis that all ELV tyres not reused as part-worns or retreads are disposed to landfill. DTI, together with the Environment Agency, has commissioned a survey of landfill operators to cover 2004 and the first six months of 2005 to establish more accurately the volume of tyres disposed to landfill.

Tyre fly-tipping takes a number of forms, including those dealt with by landowners and local authorities, and those tyres dumped on the forecourts of tyre retail premises. No national data were collected before Defra and the Environment Agency set up the flycapture database in April 2004. English Waste Collection Authorities reported 23,046 incidents of fly-tipped tyres between April 2004 and March 2005. From April 2005 to September 2005 11,440 incidents were reported. The Environment Agency dealt with 280 incidents in 2004–05 and 77 so far in this financial year.

Wind Farms

Mrs. Moon: To ask the Secretary of State for Trade and Industry on what date building is expected to commence of the windfarm off Scarweather Sands. [28100]

Malcolm Wicks: The date building will commence at Scarweather Sands is not a matter for the Department but is a matter for the developer.

Written Answers to Questions

Thursday 17 November 2005

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Offshore Wind Turbines

10. **Helen Goodman:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with the Secretary of State for Trade and Industry on tackling climate change through increasing the level of electricity generated by offshore wind turbines; and if she will make a statement. [29240]

Margaret Beckett: I have regular discussions with the Secretary of State for Trade and Industry on sustainable energy issues, both as part of the Climate Change Programme review process, and our involvement in the Sustainable Energy Policy Network. This includes the development of renewable generating capacity including offshore wind.

Biodiesel

14. **David Mundell:** To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department has commissioned research into the effects of biodiesel power generation. [29245]

Mr. Bradshaw: There has been a lot of research into the benefits of biodiesel. We announced last week that 5 per cent. of all UK road transport fuel will have to come from a renewable source by 2010. The benefits of biodiesel in power generation are less obvious because it is more efficient to use biomass.

Energy Consumption

19. **Tim Loughton:** To ask the Secretary of State for Environment, Food and Rural Affairs what measures she has taken to reduce energy consumption in her Department. [29251]

Jim Knight: Energy use is closely monitored and site-specific benchmarks are set for all but the smallest sites. Energy audits and remedial action are triggered for sites above benchmark. We are working with the Carbon Trust to identify scope for significant energy and carbon savings over the entire DEFRA and Executive agency estate.

Fish Stocks

20. **Mr. MacDougall:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to protect fish stocks in UK waters; and if she will make a statement. [29252]

Mr. Bradshaw: We are working to ensure depleted stocks are not over-exploited, while maximising catching opportunities for our fishing industry where this is justified.

0870 Numbers

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the occasions in the last five years on which 0870 telephone numbers have been used by her Department as contact numbers for members of the public; and how much revenue was received from the use of 0870 contact numbers in each of the last five years for which records are available. [24464]

Jim Knight: Of the helplines operated by the core Department only the Pet Travel Scheme Helpline operates a 0870 telephone number (0870 241 1710). This has been available to members of the public since late 1999. No revenue has been received from the use of this number.

Animal Snares

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will ban the *(a)* sale, *(b)* manufacture and *(c)* use of animal snares; and if she will make a statement. [27651]

Jim Knight: The Government considers that where there is a need for wildlife management then the proper use of snares is one of a range of control methods. Used according to best practice, snares can be an effective and practical means of wildlife management and are needed where other forms of pest control are ineffective or impractical. In these circumstances snares restrain rather than kill and may prove to be more humane than other methods. If snares were to be banned entirely it may encourage the use of more dangerous and illegal alternatives such as poisons.

The Government is also committed to working to improve the legal use of snares. Following an informal consultation on snares and traps and their use carried out in 2003 Defra convened an independent snares working group chaired by the Universities Federation for Animal Welfare. The working group was given a remit of producing a good practice guide and advising Defra on next steps on improving the use of snares. On 18 October we published the working group's report together with the Defra Snares Action Plan and the Defra Code of Good Practice on the use of Snares in Fox and Rabbit Control in England. These documents can be found at: http://www.Defra.gov.uk/wildlife-countryside/vertebrates/snares/index.htm

Bee Hive Inspection

Derek Wyatt: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with her EU counterparts about EU proposals to restrict inspection of bee hives to veterinary surgeons. [27093]

Jim Knight: The Department is not aware of any EU proposals to restrict the inspection of bee hives to veterinary surgeons nor has it entered into discussion with other member states on this subject.

Bee Keeping/Research

Derek Wyatt: To ask the Secretary of State for Environment, Food and Rural Affairs what recent estimate she has made of the annual value of the bee keeping industry to the *(a)* agricultural and *(b)* horticultural industries. [26965]

Jim Knight *[holding answer 10 November 2005]:* The most recent assessment of the economic value of beekeeping in England was undertaken by ADAS Consulting Ltd in 2001. The report can be found on the bee health pages of the Defra website at www.defra.gov.uk/hort/bees/econ-eval.htm. It estimated the value of pollination by bees of commercial crops at around £118 million p.a., with agricultural crops (oilseed rape) accounting for £11 million and horticulture (beans, top and soft fruit) for £107 million of this total respectively. The researchers excluded protected cropping, such as glasshouse-grown tomatoes, as honey bees are rarely used for pollination of these crops.

Derek Wyatt: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the planned funding is for the National Bee Unit at the Central Science Laboratories at York; and what funding has been allocated to the unit in 2005–06; [26899]

(2) if she will increase investment in the National Bee Inspectorate. [26966]

Jim Knight *[holding answer 10 November 2005]:* The Department's expenditure with the National Bee Unit, which includes the field force of the Bee Health Inspectorate, is £1.235 million in 2005–06. Funding will remain at this level until 2007–08. Future funding and investment in the unit and the inspectorate will be considered with other areas of the Department's work as expenditure plans for future years are developed.

Beef

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on her planned measures to help the English beef market. [25305]

Jim Knight: My noble Friend, the Minister for Food and Farming (Lord Bach), chaired a meeting of key industry stakeholders on 14 October to consider the issues currently facing the beef industry. A detailed report is contained in Defra Press Release number 450/05 issued on 14 October.

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the countries which permit import of UK beef; and how much each imported in each of the last three years. [25516]

Jim Knight: The following table shows a list of countries who currently do not ban the importation on beef from the UK.

Data as recorded by HM Revenue and Customs shown for all of these countries the UK has exported to. This will include re-exports of beef of non-UK origin.

Exports to EU countries is permitted under the Data Based Exports Scheme which mostly covers exports from Northern Ireland into the Republic of Ireland. Otherwise exports are from cattle slaughtered outside the UK.

Data prepared by Trade statistics, Food Chain Analysis 3, Defra

Bottled Water

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what her estimate is of the number of litres of bottled *(a)* sparkling and *(b)* still water consumed in the United Kingdom in each year since 2002; and what percentage was supplied in (i) plastic, (ii) glass and (iii) other materials. [27887]

Jim Knight: It is estimated that 736 million litres of mineral water were consumed in the UK in the 12 month period starting in April 2003. This estimate is based upon records of consumer purchases from the Expenditure and Food Survey.

DEFRA does not collect statistics which distinguish between sparkling and still waters or the way water is packaged. However, figures published by Mintel in its Bottled Water Report of June 2003 indicate that 75 per cent. of bottled water in 2003 was still and 25 per cent. sparkling. In addition, 79 per cent. was packaged in plastic bottles, 20 per cent. in glass bottles and 1 per cent. in cans.

Bypasses (Aylesbury Vale)

John Bercow: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the likely impact of building bypasses upon the rural environment in Aylesbury Vale. [25937]

Jim Knight: None. The responsibility for assessing the environmental impacts of proposed road schemes rests with the relevant transport planning authority, in this case either the local authority or the Highways Agency.

Cattle Passports

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on cattle passport fraud. [25308]

Jim Knight: The evidence we have on the incidence of serious offences committed under the Cattle Identification Regulations 1998 (as amended) concerning cattle passports is that it is low.

In order to ensure a high level of compliance with the Regulations, 10 per cent. of cattle farms are inspected annually by the Rural Payments Agency. In England, around 6,000 farms and around 960,000 animals are examined for their compliance with tagging, passport, database registration and record-keeping rules. The results show a continuing improvement in compliance with the rules-there were 4 per cent. fewer errors made in 2004–05 than in the previous year.

Local Authorities also undertake enforcement activities covering cattle, including unannounced inspections on farms, at livestock markets and during transport (by undertaking spot roadside stops). At slaughterhouses, the Meat Hygiene Service undertake checks on identification of cattle to ensure that only properly identified and traceable cattle enter the human food chain.

Inspections are carried out on the basis of risk, with higher risk activities being inspected most. When non-compliance with the cattle identification rules is found, appropriate enforcement action is taken. This can range from advice, warning letters and restrictions on movements through to full prosecution resulting in prison sentences or fines. So far in 2005, 19 convictions have been obtained.

Education is as important as enforcement, and this year the Rural Payments Agency has sent two statements to all registered cattle keepers of their Cattle Tracing System (CTS) database records to encourage them to keep their records accurate and up-to-date. In April 2005, they issued clear and comprehensive guidance to all keepers in their "Cattle Keeper's Handbook". The response to the CTS statements has been encouragingly high, all the more so for being voluntary, and taken together with the improvements shown in inspections, indicates to us that the cattle industry is keen overall to ensure that their animals are fully traceable and that compliance is good.

Common Agricultural Policy

Mr. Nicholas Brown: To ask the Secretary of State for Environment, Food and Rural Affairs if she will release data relating to individual recipients in *(a)* Scotland and *(b)* Wales of payments under the Common Agricultural Policy. [27062]

Jim Knight: RPA released information on CAP payments relating to individual recipients in March 2005, supplemented by a further regional analysis in July 2005. The information covers those payments for which RPA is responsible and includes payments made under Integrated Administration and Control System (IACS) schemes in England and under non IACS schemes throughout the UK. It did not include information about payments made under IACS schemes by the EU Paying Agencies in Scotland, Wales or Northern Ireland.

The disclosure of information held by other countries within the UK is a matter to be considered and decided upon by their devolved assemblies.

Departmental Estates

Mr. Maples: To ask the Secretary of State for Environment, Food and Rural Affairs who the director of building and estate management is in her Department; what relevant specialist qualifications he or she holds; and what the details are of her career to date. [26318]

Jim Knight: Defra's head of estates division is Michael Watkins. He joined Defra on 1 March 2004.

Michael Watkins holds a BSc in land administration and is a member of The Royal Institution of Chartered Surveyors. Prior to joining Defra Michael Watkins was employed by BAA Plc as head of asset management at Heathrow airport. He was formerly employed by a firm of managing agents in Westminster, by the Royal borough of Kingston upon Thames, Waverley borough council and the Metropolitan Police Service in varying property roles.

Departmental Staff

Mr. Maples: To ask the Secretary of State for Environment, Food and Rural Affairs who the director of human resources is in her Department; what relevant specialist qualifications he or she holds; and what the details are of his or her career to date. [26320]

Jim Knight: Defra's director of human resources will be Francesca Okosi. She joined Defra on 3 February 2003 as director of the improvement and delivery group and will take up post as director of human resources on 1 December 2005.

Francesca Okosi holds an HMD in business studies and is a member of the Chartered Institute of Personnel and Development and of the Institute of Directors. Prior to joining Defra Francesca Okosi was employed as director of human resources and consultancy services at the London borough of Brent, chief executive's department; and was formerly assistant chief executive of human resources and equalities, London borough of Merton and head of human resources strategy, London borough of Havering.

Endangered Species

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how many prosecutions have been brought in each of the last three years for illegal imports of endangered species, broken down by species. [28153]

Jim Knight: In 2002 there were two prosecutions:

Two defendants were found guilty of illegally importing 23 birds of prey; the species involved were:

	Number
Brown Fish owl	1
Malay Fish owls	3
Black eagle	1
Barred Eagle owl	1
Asian Brown Wood owl	1
Asian Barred owlets	2
Eastern Marsh harrier	1
Mountain Hawk eagles	2
Oriental Bay owls	2
Brahminy kites	5
Pied harriers	2
Harrier	1
Forest eagle	1

Another defendant was found guilty of illegally importing 15 reptiles; the species involved were:

	Number
Tegu lizards	4
Uromastyx's	2
Varanus lizards	4
Pythons	4
Egg Eating snake	1

There was one prosecution in 2004, the defendant pleaded guilty to the illegal import of seven primate skulls and one turtle skull.

Farm Subsidies

Mr. Benyon: To ask the Secretary of State for Environment, Food and Rural Affairs what arrangements are in place to deal with full payments due to farmers under the Single Payment Scheme in 2005 not being made by the 30 June 2006 deadline. [24736]

Jim Knight: The Rural Payments Agency (RPA) is responsible for implementing the Single Payment Scheme and making payments in England. RPA is currently validating around 120,000 claims received to the 2005 scheme. RPA remains on course to commence payments in February 2006 and complete 96 per cent. of payments by the end of March, in line with announcements made at the start of the year. RPA's objective remains to complete payment on all valid claims by the end of the payment window on 30 June 2006. Any claims that cannot be resolved by 30 June 2006 will be paid as soon as possible after that date, once eligibility has been confirmed.

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs if she will agree to the National Farmers Union proposal to increase the budget of the hill farm allowance to £50 million; and if she will make a statement. [28281]

Jim Knight: The current Hill Farm Allowance is due to finish at the end of the current England Rural Development programming period in 2006.

The Secretary of State gave a commitment on 22 April 2004 to consider how upland communities could receive appropriate support from rural development funds. Future arrangements are currently being reviewed in the context of the new EU Rural Development Regulation which will come into effect in 2007. The budget for the next ERDP is currently under negotiation in Brussels.

Farmland Birds

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of farmland bird species which are *(a)* in decline and *(b)* recovering in England and Wales. [28155]

Jim Knight: Assessments of farmland bird populations in England have been made annually between 1970 and 2003 by the British Trust for Ornithology, using data from the Common Bird Census and Breeding Birds Survey. Data for England and Wales have not been analysed. The assessments show that of 19 farmland bird species:

(a) The populations of Corn Bunting, Grey Partridge, Reed Bunting, Skylark, Starling, Turtle Dove and Yellowhammer have been in decline since the 1970s and the population of Rook has also seen a decline in the last ten years. In total eight species are in decline.

(b) The populations of Greenfinch, Goldfinch and Kestrel declined during the 1980s but have recovered to 1970 levels, while Lapwing, Linnet, Tree Sparrow, Whitethroat and Yellow Wagtail are showing signs of recovery in the last ten years following earlier declines. In total eight species are recovering.

The populations of the remaining three species (Jackdaw, Stock Dove and Woodpigeon) have increased since 1970.

Fruit Growing

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the fruit-growing industry in *(a)* England and *(b)* Lancashire. [24953]

Jim Knight: The fruit-growing industry is worth over £300 million at the farm gate and supports substantial downstream activity, including packhouses and processing. The sector benefits from Defra's substantial research and development programme and growers are eligible for assistance under the England Rural Development Programme. The Government does not make special provision for the fruit-growing industry on a regional basis.

Horse Passports

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she has taken to ensure horse owners are aware of the requirement for horse passports; and what estimate she has made of the number of horses in England and Wales without a horse passport. [28799]

Jim Knight *[holding answer 15 November 2005]:* We have taken extensive steps to publicise the requirements for horse passports. We have done this by mailings of publicity leaflets to equine organisations, including those with whom horse owners are likely to have regular contact. We have also advertised the requirement in equine publications and urged equine organisations to help publicise the measure to their members. Officials have attended various equine shows and events and comprehensive information has been placed on the Defra website. The requirement has also been well covered in magazines devoted to horse and countryside interests.

The take up of horse passports—at over 661,000 passports—is already higher than many people forecast. It is difficult to estimate the total number of horses without passports given that there is no definitive figure on the total number of horses in this country.

Hunting

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy to promote EU legislation to prohibit *(a)* the promotion of canned hunting trips and *(b)* the importation of dead animals as trophies; and if she will make a statement. [26135]

Jim Knight: I do not consider that new EU legislation to prohibit the promotion of particular types of hunting trips would be enforceable, while powers are already available to regulate the import, holding and sale of hunting trophies of endangered species.

We are currently considering responses to a recent public consultation on whether we should use existing powers to prohibit the holding of certain animal specimens, including parts or derivatives of tigers, bears, Tibetan antelopes and rhinos (apart from worked antique specimens or licensed hunting trophies), and some respondents have asked that this be extended to cover all hunting trophies.

We will of course need to take all views into account before coming to a final decision on this matter but I can assure that I will not hesitate to take appropriate action where there is evidence of unsustainable hunting of CITES species.

IT Projects

Mr. Laws: To ask the Secretary of State for Environment, Food and Rural Affairs how many IT projects have been developed for her Department since 2001; and whether she has agreed to make public Gateway Reviews for these projects *(a)* in full and *(b)* in part. [23491]

Jim Knight: Since the beginning of the financial year 2001–02, there have been 673 IT projects developed for the Department using the central IT function. Projects not commissioned through the central IT function are excluded as to gather such information would incur a disproportionate cost.

Gateway reviews are conducted on a confidential basis for the business owners of projects and are not published as a matter of course. However, under the Freedom of Information Act 2000 each request for the release of information in a Gateway Review is considered on a case-by-case basis. No such requests have been received during this period.

Live Animal Imports

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the number of live animals imported for slaughter in the last year for which figures are available. [28105]

Jim Knight *[holding answer 14 November 2005]:* Trade statistics as gathered by HM Revenue and Customs are classified such that it is not always clear whether imported live animals are destined for slaughter or for the breeding herd/flock. Removing the cases where the animal is obviously intended for further breeding our best estimates for 2004 are as follows:

	£000	*Tonnes*	*£000 head*
Poultry	936	857	1,214
Cattle	39	34	0.1
Pigs	28,926	31,778	407
Sheep	0	0	0
Goats	0	0	0
Total	29,901	32,669	1,622

Source:
HM Revenue and Customs
Data prepared by Trade statistics, Food Chain Analysis 3, Defra

Orchards

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will estimate how many orchards there are in England; and how many have preservation orders applied to them. [25007]

Jim Knight: Data from the June 2004 agricultural census indicate that in England there are 2,520 holdings of commercial orchards, covering an area of 19,239 hectares; and 3,739 holdings with non-commercial orchards, covering an area of 3,030 hectares.

The Department does not hold data on local authority preservation orders. However, under stewardship agreements, about two-thirds of the area of traditional orchards benefit from Defra funding for conservation and maintenance.

Pet Travel Scheme

Paul Rowen: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the effectiveness of the Pet Travel Scheme. [29247]

Mr. Bradshaw: We believe the Pet Travel Scheme has worked well in facilitating the entry of properly protected pets into the UK from qualifying countries without the need for quarantine since its inception five years ago. Today we are announcing a review to see whether there are elements of the scheme that might be improved.

Poultry Industry

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many people are employed in the poultry industry; what the economic value of the poultry industry was in 2004–05; and if she will make a statement. [24942]

Jim Knight: The information is as follows:

1. Number employed on farm

Numbers of people employed on farm is only available from DEFRA for England (broiler production in England accounts for 73 per cent. of the UK total).

The analysis is presented in two ways:

Numbers employed
on the 17,800 holdings with at least one poultry animal
on the 2,000 holdings classified as specialist poultry

In the first situation much of the labour will be employed on other farm work so therefore numbers employed will be overestimated and in the second case mixed farms which have poultry but are not classified as specialist poultry will be excluded thus numbers employed will be underestimated.

June 2004 Agricultural Census—England all holdings

	Number
Labour on holdings with poultry	
Full-time holders on holdings with poultry	17,778
Part-time holders on holdings with poultry	33,520
Full-time employees on holdings with poultry	8,986
Part-time employees on holdings with poultry	7,243
Total labour force on holdings with poultry inc. casuals	73,455
Labour on holdings with a main farm type specialist poultry	
Full-time holders	2,042
Part-time holders	5,750
Full-time employees	3,536
Part-time employees	1,923
Total labour force inc. casuals	14,306

2. Number employed in the poultry processing sector

According to figures collected by the Office for National Statistics (ONS) from their Annual Business Inquiry (ABI) the number of people employed in licensed GB poultry slaughter houses in 2003 was just over 40,000.

3. Value of poultry production

The value of poultry production in the UK in 2003 was £1.2 billion[1]

4. Value of poultry processing

Based on estimates supplied by the ONS from their Annual Business Inquiry, the turnover of companies engaged in the slaughter of poultry in 2003 was £2.4 billion[2]. The ONS figures may underestimate the number of companies which process poultry meat.

Sources:

1 Agriculture in the UK 2004

2 ONS Annual Business Inquiry 2003.

Revenue Funding (Hemel Hempstead)

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs how much funding was allocated by her Department to Hemel Hempstead constituency for *(a)* capital projects and *(b)* revenue funding in each of the last eight years. [25758]

Jim Knight: The Department does not allocate or account for its capital or revenue funding on a parliamentary constituency basis or indeed on a regional basis. Expenditure is decided along policy objective lines in support of ministerial priorities. Chapter 8 of the Public Expenditure Analysis shows overall Government expenditure on a regional basis with Hemel Hempstead being included in the East of England Region.

Rights of Way

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many outstanding applications for Byways Open to All Traffic (BOATS) there were at *(a)* December 2003, *(b)* January 2005 and *(c)* May 2005. [27530]

Jim Knight *[holding answer 14 November 2005]:* We have been collecting data on the numbers of applications for byways open to all traffic from some time. However, we do not currently have this data for the particular periods you specify. We have set about gathering this information from local authorities and have 30 responses at the time of writing this reply, but it will take further time to get all the returns in. I will write to you as soon as I have this information and place a copy in the Library of the House.

Roof-nesting Gulls

David Mundell: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government have published best practice guidance on the management of roof-nesting gulls. [29385]

Jim Knight: Defra in conjunction with the RSPB are preparing a leaflet on urban gull management. This leaflet will be published in the new year.

Rural Development Service

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how many grants from her Department's Rural Development Service have been made in *(a)* Lancashire and *(b)* Chorley; and what each grant was used for. [25306]

Jim Knight: The following information sets out the number and value of grant payments that were made in *(a)* Lancashire and *(b)* Chorley during 2004–05 for each of the principle schemes administered by the Rural Development Service. The aims and objectives of each scheme are briefly set out as follows:

The "Organic Farming Scheme" (OFS) aims to encourage the expansion of organic production in England in order to help supply the increasing demand for organically produced food.

The "Environmentally Sensitive Areas" (ESA) scheme aims to encourage farmers to adopt agricultural practices which would safeguard and enhance parts of the country of particularly high landscape, wildlife or historic value.

The "Energy Crops Scheme" (ECS) provides establishment grants for two energy crops, short-rotation coppice (SRC) and miscanthus, and aid to help SRC growers set up producer groups.

The "Countryside Stewardship Scheme" (CSS) aims to sustain landscape beauty and diversity, to protect and extend wildlife habitats, to conserve archaeological sites and historic features, restore neglected land or features, create new habitats and landscapes and improve opportunities for people to enjoy the countryside.

The "Farm Woodland Scheme" (FWS) and "Farm Woodland Premium Scheme" (FWPS) aim to enhance the environment through the planting of farm woodlands, thereby improving the landscape, providing new habitats and increasing biodiversity. (Now closed to new applications and replaced by the Forestry Commission 's England Woodland Grant Scheme.

"Project-based Schemes" (PBS), including the Rural Enterprise Scheme, Processing and Marketing Grant and Vocational Training Schemes, are focussed around individual developments and projects, and aim to promote imaginative and varied schemes within rural areas. The schemes are generally available to farmers and rural businesses to help them develop new opportunities and widen the skills they already possess.

The OFS, CSS and ESA schemes are now closed to new applications and have been replaced by Environmental Stewardship that was launched in March this year. There are already over 270 live ES agreements in Lancashire.

(a) Number and value of grants paid for rural development service (RDS) agreements and projects in Lancashire during 2004–05

Scheme	*Number of payments*	*Value of payments (£)*
OFS	14	27,276.93
ESA	2	16,466.46
ECS	0	0
CSS	449	2,351,450.52
FWS	3	1,007.80
FWPS	139	93,353.55
PBS	73	847,596.59
Total	680	3,337,151.85

(b) Number and value of grants paid for rural development service (RDS) agreements and projects in Chorley[1] during 2004–05

Scheme	*Number of payments*	*Value of payments (£)*
OFS	1	9,075.90
ESA	0	0
ECS	0	0
CSS	23	186,937.45
FWS	0	0
FWPS	3	1,466.00
PBS	0	0
Total	27	197,479.35

[1] Please note that the data for Chorley was extracted using agreement holder postcode and matching it to the constituency boundary.

Single Farm Payment Scheme

Alistair Burt: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations she has received about delays in implementing the single farm payment scheme; and if she will make a statement. [26211]

Jim Knight: Ministers and Rural Payments Agency (RPA) officials are in regular contact with all stakeholder groups, farmers and agents. Ministers and the RPA chief executive have also received several hundred written representations on issues affecting the administration of the single payment scheme (SPS). RPA announced in January 2005 that payments under the SPS in England would begin in February 2006. The regulatory payment window for the 2005 scheme laid down by the European Union runs from 1 December 2005 to 30 June 2006.

Alistair Burt: To ask the Secretary of State for Environment, Food and Rural Affairs what action she is taking to resolve delays in the mapping of farms under the single farm payment scheme; and if she will make a statement. [26254]

Jim Knight *[holding answer 8 November 2005]:* Since September 2004 the Rural Payments Agency (RPA) has received over 100,000 requests to digitise land parcels or to amend their boundaries, representing a substantial increase on the previous level of requests. The majority of these requests have now been processed, and RPA has recently outsourced 85 per cent. of the outstanding mapping requests to a trusted third party. This has significantly increased resources, enabling RPA to remain on course to commence payment under the Single Payment Scheme in February 2006, in line with announcements made at the start of the year.

Alistair Burt: To ask the Secretary of State for Environment, Food and Rural Affairs whether payments under the single farm payment scheme in England and Wales will start by January 2006; and if she will make a statement. [26258]

Jim Knight *[holding answer 8 November 2005]:* The Rural Payments Agency is responsible for implementing the Single Payment Scheme and making payments in England. RPA announced in January 2005 that payments under the Single Payment Scheme in England would begin in February 2006. RPA remains on course to commence payments in February 2006.

The Welsh Assembly Government is responsible for implementing the Single Payment Scheme in Wales. They have confirmed that they are on track to make payments to as many farmers as soon as possible after the opening of the payment window (1 December).

Stewardship Scheme

Mr. Evans: To ask the Secretary of State for Environment, Food and Rural Affairs how many people met the 31 August deadline for *(a)* higher and *(b)* entry level stewardship. [27993]

Jim Knight: The number of Environmental Stewardship applications received by the Rural Development Service as at 31 August were as follows:

	Number
Entry Level Scheme	7,545
Organic Entry Level Scheme	317
Higher Level Scheme	221
Organic Higher Level Scheme	7

Environmental Stewardship agreements can be made at any time. Monthly start dates are operated under for the purposes of Entry Level and Organic Entry Level agreements. For Higher Level agreements, applications received by 31 August are currently being processed with a view to introducing the first agreements from early next year.

Transport (Emissions)

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what change there has been in *(a)* road transport vehicle carbon dioxide emissions and *(b)* single occupancy car commuting from her Department against a baseline year of (i) 2003–04 and (ii) 2004–05. [28091]

Jim Knight: The following information relates to Defra and its executive agencies.

(a) Road transport vehicle carbon dioxide emissions (tons)

			Percentage
	2002–03[1]	-6,072	—
(i)	2003–04	-5,403	-11
(ii)	2004–05	-5,750	-5.3

[1] Baseline year

(b) Single occupancy car commuting

			Percentage
	2002–03[1]		
(i)	2003–04		+1
(ii)	2004–05		+1

[1] Baseline years

Water Voles

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government is taking to maintain the population of water voles. [27136]

Jim Knight: The Government and its agencies are providing funding for a number of key projects and activities to maintain the population of water voles. These include:

English Nature, Environment Agency, People's Trust For Endangered Species, and Royal Holloway, University of London have identified 13 sites in England that contain sustainable populations of water voles. These sites have been designated as national key sites and are managed sympathetically for the voles and contribute to a national monitoring scheme for the species. The project partners are also encouraging the sympathetic management of the countryside around these sites to allow the populations to expand.

The Wiltshire Wildlife Trust, English Nature, Environment Agency, and Mammals Trust UK are studying the practicality and cost-effectiveness of mink control at a catchment scale in north Wiltshire. This project has involved a wide range of collaborators and volunteers to control mink and monitor water vole populations in three selected river catchments.

The Environment Agency, English Nature, and Wildlife Conservation Research Unit, University of Oxford are producing an expanded and updated version of the Water Vole Conservation Handbook, which was first published in 1998. The new edition will contain a wealth of new material from case studies and will provide good practice guidance on the management of land where water voles are present.

It is difficult to estimate the number of water voles with any great degree of accuracy, but the current best estimates are 875,000 in the UK, with 486,000 in England. A more comprehensive national monitoring scheme is currently being planned as part of the Tracking Mammals Partnership.

Wildfowl

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what regulations govern the release of wildfowl into the wild; and how many wildfowl have been released into the wild in each of the last five years. [23356]

Jim Knight: The term "wildfowl" relates to all species of ducks and geese, and also swans (three species in England in winter). Only certain ducks and geese may be hunted. There are no specific regulations governing the release of native wildfowl into the wild. Only Mallard are released for the purposes of wildfowling. Mallard are native to England and they would not be covered by the provisions of section 14 of the Wildlife and Countryside Act 1981 which prohibits releases of species of birds not ordinarily resident in or a visitor to the European territory of any member state.

The Game Conservancy Trust (GCT) record certain information about gamekeeping and shooting activities through the National Gamebag Census (NGC), a voluntary scheme established by GCT in 1961. The GCT has estimated that over the last 5 years, around one in 10 NGC shoots in England release ducks and the average number released per shoot in England is under 500.

TRANSPORT

Bus/Light Rail Use

Gregory Barker: To ask the Secretary of State for Transport what the average cost of a bus ticket to Brighton from Bexhill-on-Sea will be in 2006 following changes to Government subsidies. [29327]

Derek Twigg: The Department does not forecast average ticket prices on particular bus routes. Fare levels are primarily a commercial decision by the operator concerned who will no doubt take into account a wide range of factors.

Concessionary fares provision by local authorities will also be relevant. From 1 April 2006, people aged 60 and over and disabled people will be entitled to free off-peak travel on bus journeys within their local authority area and local authorities have discretion to work together to provide concessions on cross-border routes.

Tom Brake: To ask the Secretary of State for Transport by how much the use of *(a)* bus and *(b)* light rail changed in (i) 2004 and (ii) 2005 to date compared with 2000 (A) in England and (B) broken down by region; and what the predicted level is for 2010. [27563]

Ms Buck: The information is given in the following table.

	Percentage change from 2000-01 to		
Region	*2003-04*	*2004-05*	*2010-11 (forecast)*
Bus			
North East	-9	-13	n/a
North West	0	-2	n/a
Yorkshire and the Humber	-6	-9	n/a
East Midlands	-2	-7	n/a
West Midlands	-8	-10	n/a
East of England	-8	-9	n/a
South East	-3	-3	n/a
South West	-2	-2	n/a
England ex London	-5	-7	n/a
London	26	32	43
England	6	7	n/a
Light Rail			
North East	17	13	n/a
North West	6	10	n/a
Yorkshire and the Humber	11	16	n/a
East Midlands	n/a	n/a	n/a
West Midlands	-5	-7	n/a
England ex London	11	23	n/a
London	28	35	138
England	19	28	n/a
Bus and Light Rail			
England ex London	-4	-6	n/a
London	26	32	47
England	7	8	n/a

n/a = not available

A forecast for passenger journeys in England outside London will be prepared, once the full impact of free concessionary fares for disabled travellers and those aged 60 and over can be properly assessed.

Mr. Duncan: To ask the Secretary of State for Transport how many buses in operation offer easy access facilities; and what is his target for easy access facilities on buses. [28310]

Mr. Darling: Information provided by bus operators shows that 46 per cent. of full-size buses running on local routes are wheelchair accessible. This equates to 21,300 vehicles from a fleet size of 46,300 full size buses. The number of accessible buses is much greater in larger towns and cities, and in the case of London is virtually 100 per cent. PSV Accessibility Regulations require all large buses used on local or scheduled services to be wheelchair accessible by 1 January 2017.

Criminal Offences

Simon Hughes: To ask the Secretary of State for Transport if he will list the criminal offences created in legislation sponsored by his Department between the end of the 2003-04 session and the end of April, broken down by Act. [28368]

Ms Buck *[holding answer 14 November 2005]:* The question is taken to refer to criminal offences created directly in primary (rather than subordinate) legislation

sponsored by the Department for Transport which received Royal Assent in the period 1 October 2004 to 30 April 2005.

The relevant legislative provisions are as follows.

The Railways Act 2005

(Royal Assent: 7 April 2005)

1. Paragraph 11 (7) of Schedule 2 (transfer schemes) makes it an offence for a person intentionally to alter, suppress or destroy a document which he has been required to produce by notice under paragraph (4) (notice to produce specified documents or information).

2. Paragraph 11 (8) of Schedule 3 (transfer of safety functions) makes it an offence for a person to contravene a requirement imposed by a notice under paragraph 11 (notice served by the Office of Rail Regulation for the purpose of obtaining information which that office needs for the carrying out of its safety functions) or for a person to use certain information disclosed to him in accordance with paragraph 11 other than for the purposes of the safety functions of that office.

The Disability Discrimination Act 2005

(Royal Assent: 7 April 2005)

Section 8(2) of the Disability Discrimination Act 2005 adds a subsection (5) to section 49 of the Disability Discrimination Act 1995 to make it a criminal offence to pretend to be an inspector of rail vehicles.

Departmental Vehicles

Mr. George Howarth: To ask the Secretary of State for Transport how many vehicles his Department owns; and what the purpose, annual cost, type of fuel and average number of miles used per week is in each case. [25637]

Ms Buck: The requested information is provided in the following table.

The annual costs and mileage incurred relate specifically to the unique operational environment in which our property centres operate.

For example, the Highways Agency operate a large winter maintenance fleet and due to the harsh environment in which they operate have a disproportionately high running cost. Mileage data has not been provided for the salt loaders or for the snow blowers. The salt loaders, although road registered, rarely leave the depot and the snow blowers are transported to the site on the back of a lorry and may only get used once a season.

The Maritime and Coastguard Agency vehicles are used mainly for transporting personnel and equipment in response to emergencies.

Direct comparison between the costs and mileage incurred by DfT property centres is therefore not meaningful.

Mobility and vehicle information service

	Costs and mileage incurred
Number of vehicles owned	30
Vehicle purpose	Disabled driver training and assistance
Fuel used	
Petrol	26
Diesel	3
Dual fuel	1
Annual cost	Not available
Average mileage per week	959

Driving Standards Agency

	Costs and mileage incurred
Number of vehicles owned	206
Vehicle purpose	Driver testing/examiner training and supervision
Fuel used	
Petrol	185
Diesel	11
Dual fuel	10
Annual cost	£525,132
Average mileage per week	15,855

Driver and Vehicle Licensing Agency

	Costs and mileage incurred
Number of vehicles owned	11
Vehicle purpose	Automatic number plate reader vehicles: tax evasion monitoring and recording
Fuel used	
Diesel	11
Annual cost	£43,000
Average mileage per week	594

Highways Agency

	Costs and mileage incurred
Number of vehicles owned	367
Vehicle purpose	Winter maintenance: salt spreaders, salt loaders and snow blowers
Fuel used	
Diesel	367
Annual cost	£19,600
Average mileage per week	122

Maritime and Coastguard Agency

	Costs and mileage incurred
Number of vehicles owned	402
Vehicle purpose	Search and rescue
Fuel used	
Diesel	402
Annual cost	£424,000
Average mileage per week	23,892

Vehicle and Operator Services Agency

	Costs and mileage incurred
Number of vehicles owned	258
Vehicle purpose	HGV/PSV road traffic enforcement[1], road traffic accident investigation, mobile office and workshop, pool vehicles, training aids, MOT incognito.
Fuel used	
Petrol	46
Diesel	159
Dual fuel	53
Annual cost	£478,534
Average mileage per week	43,615

[1] Powers to stop, automatic number plate reader.

Mobile Phones

Ben Chapman: To ask the Secretary of State for Transport if he will make a statement on the operation of the regulations introduced in December 2003 prohibiting the use of mobile phones while driving. [29348]

Dr. Ladyman: The police are responsible for the enforcement of the prohibition on the use of hand held mobile phones while driving. The Road Safety Bill, currently before Parliament, contains provisions to make the offence endorsable (3 penalty points) which also automatically raises the Fixed Penalty Notice to 60. If a case goes to court, the penalty on conviction will include penalty points and discretionary disqualification on top of the existing maximum fine of £1,000 (£2,500 in the case of a goods vehicle or a bus/coach driver).

Railways

Rob Marris: To ask the Secretary of State for Transport on what date the consultation on rail closure procedures will start; and if he will make a statement. [26462]

Derek Twigg: We expect to consult on the closure guidance in due course.

Mr. Lancaster: To ask the Secretary of State for Transport what the *(a)* a.m. peak and *(b)* p.m. peak figures for (i) passengers in excess capacity and (ii) the total number of passengers were for London commuting service trains servicing Milton Keynes as measured in the most recent survey. [27180]

Derek Twigg: For the Milton Keynes/Northampton to Euston service group, in the 'AM' peak, Passengers in Excess of Capacity (PIXC) is 0.2 per cent. The total number of passengers using this service group was 6559.

For the Euston to Milton Keynes/Northampton service group, in the 'PM' peak, PIXC is 0.5 per cent. The total number of passengers using this service group was 6,748.

Tom Brake: To ask the Secretary of State for Transport how many rail penalty fares were *(a)* issued, *(b)* appealed and *(c)* successfully appealed in the last year for which figures are available. [28263]

Derek Twigg: The Department for Transport does not keep records of how many penalty fares are charged, or appeals made. This is a matter for the train operators concerned.

Taxis

Mr. Geoffrey Robinson: To ask the Secretary of State for Transport when he expects to publish the draft Taxi Access Regulations under the Disability Discrimination Act 1995; and if he will make a statement. [27969]

Ms Buck: We are currently developing a technical specification to set the design parameters for accessible taxis. To assist this process, the Department held a seminar for stakeholders from industry, organisations representing disabled people and licensing authorities in June to discuss the complex issues around taxi accessibility. The views expressed at the seminar will be used to shape a consultation package.

We do not yet have a timetable for introduction of taxi accessibility regulations but the current situation is that local licensing authorities remain free to introduce their own accessibility policies and many have done so already.

Transport Modernisation

Andrew Rosindell: To ask the Secretary of State for Transport what steps the Government are taking to modernise *(a)* buses and *(b)* trains. [26455]

Ms Buck: Outside London, bus services are deregulated and the provision of vehicles is primarily a matter for operators. In London, Transport for London can determine the standard of vehicle used by contracted operators. A survey carried out by the Confederation of Passenger Transport UK (CPT) of its members found a reduction in the average fleet age of buses from 7.5 years in 2002 to 7.2 years in 2004.

On the railways, some 4,500 new carriages have been introduced into service over the last five years. This has meant replacing around 40 per cent. of all carriages, with the result that the UK rolling stock fleet is now among the youngest in Europe.

Transport Plan

Mrs. Dunwoody: To ask the Secretary of State for Transport what assessment he has made of the extent to which the 10-Year Plan for Transport of July 2000 has been implemented, with particular reference to the *(a)* 50 per cent. growth in passenger rail services and *(b)* 80 per cent. growth in freight by 2010. [26956]

Ms Buck: The implementation of the 10-Year Plan is now being taken forward by the Future of Transport White Paper published in July 2004. The current PSA target for rail, as outlined in the White Paper, is:

"to improve punctuality and reliability of rail services to at least 85 per cent. by 2006 with further improvements by 2008".

This was agreed for the three year period relating to the Spending Review 2004.

Figures on rail passenger usage and rail freight are published quarterly in National Rail Trends (published by the Strategic Rail Authority up to 24 June 2005 and thereafter by the Office of Rail Regulation) and in the Department's annual publication Transport Statistics Great Britain.

Transport Security

Andrew Rosindell: To ask the Secretary of State for Transport what steps the Government are taking to improve security on transport. [26456]

Ms Buck: Mature and proportionate security regimes are maintained across all security regulated transport modes. These are kept under continuing review, and take account of new and emerging threats with, currently, a particular focus on transport "soft targets".

Further information is available in the 'Transport Security and Contingencies Directorate Annual Report (April 2004–March 2005)', a copy of which is in the House Library.

LEADER OF THE HOUSE

Consultants/Special Advisers

Mike Penning: To ask the Leader of the House how many *(a)* consultants and *(b)* special advisers were employed by his Office in each year since 1997; what the cost of each was in each year; and if he will make a statement. [27412]

Mr. Hoon: The information requested is as follows.

Consultants:

The Office of the Leader of the House of Commons employed one consultant on IT issues during August 2005 at a cost of £3,760.

Special Advisers:

Since 2003, the Government have published on an annual basis the names and overall cost of special advisers and the number in each payband. For the most recent information I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 21 July 2005, *Official Report*, 158–162WS.

Information on the numbers of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

WALES

Drug and Alcohol Abuse

Mike Penning: To ask the Secretary of State for Wales what measures are being taken to tackle drug and alcohol abuse in Wales; and if he will make a statement. [25942]

Nick Ainger: Wales is tackling drug and alcohol misuse by the delivery of its national substance misuse strategy. The Welsh Assembly Government has significantly increased funding for this strategy from £3.3 million in 2002–03 to £15.4 million in 2005–06. The strategy in Wales is implemented at a local level by the 22 Community Safety Partnerships via the delivery of their action plans.

Pensioners (Cold Weather)

Bill Wiggin: To ask the Secretary of State for Wales what discussions he has had with Members of the National Assembly for Wales regarding provision for those over 65 years to ensure that they are not adversely affected by the cold in winter 2005–06; and if he will make a statement. [23040]

Nick Ainger: I regularly meet with the Assembly Ministers to discuss a range of issues such as provisions for those over 65 affected by the cold winter months.

The Welsh Assembly Government have policies and actions in place to reduce the impact of colder winter weather on the health of older people. For instance, it funds the Home Energy Efficiency Scheme, which provides the installation of central heating in homes, and runs the annual "Keep Well This Winter" campaign. This campaign encourages older people to take extra measures to look after their health during the winter such as having the flu vaccination, eating properly and taking appropriate exercise, and by keeping warm and safe.

In addition, in winter 2004–05 over 464,000 households in Wales benefited from winter fuel payments of at least £200. Out of these households, 110,000 with someone aged over 80 received £300 winter fuel payment.

Police Service

Peter Law: To ask the Secretary of State for Wales what representations he has received concerning the level of funding for the Police Service in Wales. [25721]

Nick Ainger: The Government recently consulted on options for change to the grant distribution formula, to which all police authorities in England and Wales were given the opportunity to respond.

Welsh Police Authorities received good settlements this year, each receiving an increase of 3.75 percent. over 2004–05. This is in line with the minimum increase guaranteed for all police authorities in England and Wales. Details of the settlement for 2006–07 and 2007–08 will be announced in late November or early December.

Mike Penning: To ask the Secretary of State for Wales what discussions he has had with police forces in Wales on improving road safety; and if he will make a statement. [25921]

Nick Ainger: Under the Government's road safety strategy we are working towards a 40 percent. reduction in deaths and serious injuries by 2010. The Road Safety Bill, currently being considered in the other place, addresses drink-driving, speeding, and driver training and testing. It also covers driver fatigue, vehicle safety and driver licensing.

The Welsh Assembly Government have provided more than £35 million in local road safety grant in the last five years. Tamsin Dunwoody, Deputy Assembly Minister for Economic Development and Transport, is currently meeting Welsh Chief Constables, to discuss measures for improving road safety.

Welsh Language Newspaper

Hywel Williams: To ask the Secretary of State for Wales if the Government will take steps under the provisions of the European Charter for Regional and Minority Languages to facilitate and support the creation of a daily newspaper in the Welsh language. [29504]

Mr. Hain: Promotion of the Welsh language is primarily a matter for the National Assembly for Wales and the Welsh Language Board. I am aware of recent moves to establish a Welsh language daily newspaper and that the promoters are in discussion with the Assembly and its sponsored bodies.

The Welsh Language Board has encouraged all those with an interest to contribute to the current review of the charter.

Youth Crime

Mike Penning: To ask the Secretary of State for Wales what discussions he has had with the Secretary of State for the Home Department on youth crime in Wales; and if he will make a statement. [25941]

Nick Ainger: The Government is supporting a wide-ranging programme to tackle youth offending and to prevent children being drawn into crime. This includes tackling deprivation and working with families and education services, along with ongoing implementation of the 10-year anti-drugs strategy. My right hon. Friend the Prime Minister recently announced a major new drive to increase the take-up of parenting contracts and orders, as part of our strategy for fostering respect in society.

INTERNATIONAL DEVELOPMENT

Afghanistan

Mr. Austin Mitchell: To ask the Secretary of State for International Development if he will make a statement on the British Government's attempts to tackle poppy production in the Nangarhar area of Afghanistan. [26826]

Dr. Howells: I have been asked to reply.

The UK, as lead nation on counter narcotics (CN), remains committed to supporting the Afghan Government in the implementation of their comprehensive 2005 CN Implementation Plan and in updating their National Drug Control Strategy. We continue to work with the Afghan Government and others to increase activity in all areas of their strategy. As well as co-ordinating the activity of international partners, we are providing substantial financial and practical support—more than £270 million over the next three years. I refer to the reply I gave the hon. Member for Bognor Regis and Littlehampton (Mr. Gibb) on the counter narcotics programme in Afghanistan on 6 June 2005, *Official Report*, column 235W, which includes support to Nangarhar.

In August, the United Nations Office on Drugs and Crime (UNODC) announced provisional cultivation figures for 2004–05 from their annual poppy survey, which showed that cultivation had dropped by 21 per cent. to 104,000 hectares in Afghanistan. Nangarhar saw the greatest decrease, with opium poppy cultivation dropping by 96 per cent. to 1,093 hectares. Success can be partly attributed to an effective Government of Afghanistan communications campaign in late 2004–05, which we supported, alongside Governor-led eradication initiatives and a market adjustment to high levels of cultivation in 2004. UNODC are due to publish their final report in the next few weeks, but these figures are unlikely to change.

Colombian Refugees

Pete Wishart: To ask the Secretary of State for International Development what assessment his Department has made of the number of Colombians *(a)* internally displaced and *(b)* seeking refuge in neighbouring countries in each year since 2001; and if he will make a statement. [29001]

Mr. Thomas: DFID relies on statistics compiled by other organisations rather than its own assessment of internally displaced persons in Colombia and those seeking refuge in neighbouring countries. It is difficult to establish totally accurate statistics in each year since 2001.

According to the Colombian Government, an estimated 1,148,000 people were internally displaced over the period 2000–03. The Colombian non-government organisation (NGO), Consultancy for Human Rights and Development (CODHES) reports 1,247,000 internally displaced persons over the same period. CODHES reported some 287,500 displacements in 2004, and have reported increasing numbers in the first six months of 2005. According to Government figures, the total number of internally displaced people (IDPs) in Colombia is 1.6 million as of June 2005. Unofficial estimates suggest the actual number could be over 3,400,000.

The United Nations High Commissioner for Refugees estimates that there are currently 280,000 displaced Colombians in Ecuador (30,000 refugee and asylum seekers), 101,500 in Panama (1,500 refugee and asylum seekers) and 274,000 in Venezuela (4,000 refugee and asylum seekers).

Departmental Assets

Mike Penning: To ask the Secretary of State for International Development if he will list the 10 most valuable *(a)* movable and *(b)* immovable assets owned by his Department. [27387]

Mr. Thomas: The list of DFID's 10 most valuable assets recorded in the departments asset register, underpinning our 2004–05 resource accounts balance sheet are:

Immovable	*Net book value (£000)*
1. Palace Street, HQ	27,668
2. Abercrombie House, HQ	7,830
3. Overseas Property, India	605
4. Overseas Property, Bangladesh	368
5. Overseas Properties, Malawi	323
6. 20 Victoria Street, HQ	306
7. Overseas property, Zimbabwe	201
8. Overseas property, Zimbabwe	198
9. Overseas property, Rwanda	186
10. Overseas property, Zimbabwe	148

Movable	*Net book value (£000)*
1. Caris System	309
2. PABX Switch	111
3. Armoured Vehicle	106
4. Generator and Cabling	98
5. Air Condition Plant Carrier	87
6. Armoured Vehicle	80
7. Infozone, Palace Street	79
8. Armoured Land cruiser	71
9. LAN	68
10. Generators	51

Disaster Relief

Pete Wishart: To ask the Secretary of State for International Development what assessment his Department has made of the World Food Programme's

(WFP) work with regards to the *(a)* Asian tsunami disaster and *(b)* the earthquake in Pakistan; and if he will make a statement. [28999]

Mr. Thomas: The World Food Programme's (WFP) early intervention in tsunami-affected countries is considered to have contributed significantly to the improvement of the humanitarian situation. The scale of the disaster posed particular challenges in terms of assessment of food needs. In the early stages of the response, the WFP adopted an appropriately broad approach to food distribution.

As host to the common logistics services, the United Nations Humanitarian Air Service (UNHAS) and United Nations Joint Logistics Service (UNJLC), the WFP also played an important role in underpinning the UN's logistical operation. Early inefficiencies with the UNHAS operation were eventually ironed out, and the UNJLC is considered to have performed adequately in a complex operating environment. On behalf of the Government of Indonesia, other agencies and non-government organisations (NGO)s, the WFP launched an unprecedented non-food logistical operation to deliver 600,000 metric tonnes of reconstruction supplies to Aceh and Nias, being funded from the multi-donor trust fund for Aceh and North Sumatra.

DFID support to the WFP (including UNHAS and UNJLC) in the tsunami response amounted to £3.5 million in Indonesia and Sri Lanka, with the further contribution of five helicopters and a fuel farm to support operations in Indonesia.

Following the South Asia earthquake, the World Food Programme deployed to the field quickly and has since been distributing food to the affected population through a variety of channels. Although they face challenges including extensive logistics and access constraints, the WFP's ongoing food distributions, in support of the Government of Pakistan activities in this sector, are an important humanitarian intervention for the affected population.

The WFP is also host to the common services, the UNHAS and the UN Joint Logistics Centre (UNJLC), and is providing a special operation for common logistics services including portable storage units and common trucking for the International Community.

To date, DFID has provided financial and in-kind support to the WFP common services operation totalling £3.1 million to date. In addition, the UK Government have deployed three RAF Chinook helicopters in support of the UNHAS operation.

Tim Loughton: To ask the Secretary of State for International Development if he will ensure that it is a condition of the aid provided that public buildings being rebuilt in Pakistan using UK aid are earthquake-proof. [28636]

Hilary Benn: Good building codes exist in Pakistan. The challenge is how these are carried through into practice. DFID has also funded research into building codes and post-earthquake reconstruction recommendations. DFID incorporates work on building codes and building code implementation within a broader approach to Disaster Risk Reduction, which seeks to reduce the vulnerability and increase the disaster preparedness of poor people and Governments. In Pakistan, DFID is an invited member of the Steering Group helping to advise the Pakistan Government's Earthquake Reconstruction and Rehabilitation Authority (ERRA). This includes encouraging appropriate design for reconstructing public buildings in affected areas and improving the knowledge of building codes for engineers, contractors and planners involved in post-earthquake reconstruction.

Buildings can only be made earthquake-resistant, not earthquake-proof, even with very significant expenditure. Good implementation consists of appropriate design and construction based on the seismic risk.

Engineering Students

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development which countries sponsored engineering students through the British Council Education UK partnership in the last year for which figures are available; what the total budget allocated to *(a)* all training and *(b)* engineering-based training was; and what the (i) titles and (ii) length of the engineering courses undertaken were. [26775]

Mr. Thomas: The information supplied by the British Council notes that the Education UK Partnership is a membership organisation, comprising 252 UK education institutions i.e. universities, colleges, independent colleges and schools and the British Council. The programme provides marketing services in 18 countries, which support the partners' individual marketing, recruitment and related strategies. Data is held at each individual higher institution and is not readily available from the institutions themselves.

Nevertheless, using the information from the British Council, DFID has extracted some available data on overseas engineering and technology students studying in the UK. This information is for the year 2003–04 and the total number of engineering and technology students studying in the UK was 39,575 and were from 192 developing and developed countries of which, 3910 were from China, 3000 from Greece, 2515 from Malaysia, 2320 from India and 1480 from France.

The total number of overseas students with no award or financial backing was 22,535.

Further information of this scheme is available from the British Council.

HIV/AIDS

Pete Wishart: To ask the Secretary of State for International Development what assessment his Department has made of the change in the incidence of HIV/AIDS cases in Eastern Europe; what projects to address this issue his Department has *(a)* set up and *(b)* funded in each year since 2001; and if he will make a statement. [29000]

Mr. Thomas: DFID does not make independent assessments of HIV and AIDS but supports the Joint United Nations Programme on HIV/AIDS (UNAIDS) and the World Health Organisation (WHO) in their assessments of the progress of the epidemic globally, including in Eastern Europe and the wider Europe and Central Asia region. At a country-level, DFID is involved in supporting governments to strengthen

national surveillance and data collection systems to ensure better and more accurate information on the patterns of the epidemic.

In Eastern Europe, DFID has been funding a regional HIV and AIDS project since 2003. This is a three-year project operating in Serbia and Montenegro with a total investment of £1.5 million. The project is working with relevant government ministries to develop national HIV strategies for the prevention, treatment and care of vulnerable populations, while at the same time supporting non-governmental organisations (NGO)s and civil societies to set up demonstration projects with drug users and sex workers. National research institutes are also being supported to develop evidence to show the feasibility and acceptability of effective HIV prevention activities. Lessons from the project are being disseminated to other countries.

DFID recognises that the Europe and Central Asia region has one of the fastest growing HIV epidemics globally and that regional action is urgently needed to tackle this. To this end, DFID is also working with governments and regional partners in Russia, Ukraine and Central Asia to address HIV and AIDS.

Ministerial Travel

Mike Penning: To ask the Secretary of State for International Development how many *(a)* flights and *(b)* helicopter flights have been taken by Ministers within his Department for (i) UK and (ii) overseas visits in each year since 1995; on how many occasions (A) charter flights were used and (B) first and club class tickets were obtained; and if he will indicate who accompanied the Ministers on each trip. [27804]

Hilary Benn: All ministerial travel is undertaken in accordance with the rules set out in the "Ministerial Code" and "Travel by Ministers", copies of which are available in the Libraries of the House.

The information is not readily available in respect of domestic travel for the period in question without incurring a disproportionate cost.

In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list indicates when non-scheduled flights were used, (and shows how many Officials accompanied Ministers in those circumstances). The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information reaching back to 1995–96. Information for 2005–06 will be published after the end of the financial year.

Nepal

Pete Wishart: To ask the Secretary of State for International Development what assessment his Department has made of the impact of Nepal's conflict on children; what projects to address this issue his Department has *(a)* set up and *(b)* funded in each year since 2001; and if he will make a statement. [29002]

Mr. Thomas: The conflict in Nepal has had very serious consequences for large numbers of children in Nepal, exacerbated by the extreme poverty of many children and their families. Children have been killed, injured or subject to rape and other sexual abuse by both parties to the conflict, and have been forcibly recruited by the Maoists to provide logistical support, including for frontline military operations. There is frequent disruption by the Maoists of schools in many parts of the country, notably through abductions of children and teachers. Widespread poverty and lack of legal employment opportunities in Nepal continues to result in many girls being trafficked to India.

DFID's knowledge of the impact of the conflict on children draws extensively on reports by groups such as Watchlist on Children and Armed Conflict (to which DFID has provided funding) and human rights organisations such as Human Rights Watch.

DFID is providing £20 million over the period 2004–09 towards the Government of Nepal's national primary education programme and £50 million over the period 2004–10 towards its national health programmes, which have specific targets relating to reducing infant and child mortality. Despite the conflict, both these Government programmes provide essential services and have wide reach throughout the country, including areas controlled by the Maoists.

DFID provided £720,000 to Save the Children between 2003 and 2005 for a programme in Nepal for children affected by armed conflict. The programme helped establish protection committees and child protection officers in those districts most impacted by the conflict. It also created information systems to monitor child movements, provided direct support to 10,000 separated and vulnerable children and support for the repair and maintenance of schools and health posts.

Through the Global Conflict Prevention Pool, to which DFID contributes, the British Government are providing £800,000 in the current financial year 2005–06 to the Nepal Mission of the United Nations Office of the High Commissioner for Human Rights. This mission aims to curb all human rights abuses in the country including those committed against children.

Population Growth (African Lakes)

Pete Wishart: To ask the Secretary of State for International Development what assessment his Department has made of the environmental impact of rapid population growth on lakes in African countries; what projects to address this impact his Department has *(a)* set up and *(b)* funded in each year since 2001; and if he will make a statement. [28998]

Hilary Benn: The Department for International Development (DFID) has not undertaken any specific assessment of the environmental impact of population growth on African lakes. DFID supports programmes that integrate consideration of environmental issues (including the impact of population growth) within planning for overall development and poverty reduction.

For example, DFID has supported an Integrated Lake Management project in Uganda, which recently helped the Government to decentralise natural resource management and empower local communities to co-manage these resources, improving the livelihoods of the poor around these lakes. In Kenya, DFID is helping the National Environmental Management Authority to effectively implement environmental regulations which will help to mitigate negative impact of human development and expansion around the country's lakes.

DFID is also a significant contributor to the Global Environment Facility. This Facility encompasses support to improving management of freshwater resources under threat from challenges such as population growth. The Lake Victoria Environmental Management Project is one such example.

Sudan

Mr. Hands: To ask the Secretary of State for International Development what aid the UK is providing to the displaced population in the Darfur region of Sudan. [28933]

Hilary Benn: Since September 2003, the Department for International Development has provided over £92 million in humanitarian funding to Darfur through UN agencies and non-governmental organisations. These funds have provided assistance to displaced populations in Darfur and Eastern Chad as well as assisting resident populations, covering, among others, shelter, food and nutrition, non-food items, water and sanitation and immediate health care projects.

MINISTER FOR WOMEN

Equal Pay

Miss McIntosh: To ask the Minister for Women and Equality what the average difference in pay was between full-time male and female company directors in each year since 2001. [26800]

Meg Munn: Figures from the Annual Survey of Hours and Earnings from the Office for National Statistics show that in 2005 the median hourly pay (excluding bonuses) for full-time male company directors was £47.09, for women this figure was £43.84.

Unfortunately, reliable figures for 2001–04 are not available due to small sample sizes.

Miss McIntosh: To ask the Minister for Women and Equality what assessment she has made of the implications of the gender pay gap for levels of female employment. [26803]

Meg Munn: I have not made any specific assessment of the implications of the gender pay gap for levels of female employment. The employment rate for women in the UK currently stands at 70 per cent. I am pleased to see that the gender pay gap has now fallen to 13.2 per cent. from 14.5 per cent. last year.

It is important that we tackle the gender pay and give women real choice about balancing work with caring responsibilities. This is why we introduced the Work and Families Bill in October, which will extend the scope of the flexible working law to carers of adults.

HOUSE OF COMMONS COMMISSION

Tours

Mr. Kevan Jones: To ask the hon. Member for North Devon, representing the House of Commons Commission how much money has been made from the provision of tours of the House during the summer recess. [28721]

Nick Harvey: Tour ticket costs during the summer are designed to cover costs and not to make a surplus. This year, due to the impact of the works on the Chamber Screen and in Westminster Hall, they were held to 2004 levels and as a result a small deficit of around £39,000 was expected. However following the 7 July terrorist attacks in London, visitor numbers slumped from an anticipated 103,000 to a final total of 77,873. This, together with the increased cost of security resulting from the attacks, produced a deficit of £320,000.

CULTURE, MEDIA AND SPORT

British Olympic Association

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport pursuant to the evidence from the Chief Executive of the British Olympic Association to the Culture, Media and Sport Select Committee on 1 November, which voting members of the British Olympic Association were contacted by UK Sport; who the UK Sport representative was; and what the outcome was. [29505]

Mr. Caborn: I can confirm that neither the Chair nor any other representative of UK Sport initiated any contact with any voting member of the BOA regarding the election of the new Chair.

Consultants

Martin Horwood: To ask the Secretary of State for Culture, Media and Sport what steps the Department takes to ensure that consultancies do not claim excessive expenses while working for the Department and its agencies. [29098]

Mr. Lammy: When undertaking a procurement exercise to engage a consultant or a consultancy firm, DCMS includes within its Invitation to Tender documentation tendering instructions and a Travel and Subsistence Appendix. The instructions specifically ask the tenderers to provide a fixed price and to include all other expenses, the appendix sets out the Department's travel and subsistence rates which we insist consultants abide by. Travel within the London area is expected to be covered within the fixed price of the contract's value.

Martin Horwood: To ask the Secretary of State for Culture, Media and Sport if she will list departmental projects conducted by consultants in each year since

2000; what the cost was in each case; and what the total cost of employing consultants was in each year. [29099]

Mr. Lammy: The projects undertaken by consultants in each of the years are as follows:

Consultants	*Project*	£
2000		
Lorien	NDPB Review Programme (Framework)	
PKF	NDPB Review Programme (Framework)	223,602

Total		518,060

Outside legal firms employed by DCMS have not been included in the list.

Martin Horwood: To ask the Secretary of State for Culture, Media and Sport what mechanisms are in place to assess the effectiveness of consultant-led projects in her Department; what sanctions are available to penalise consultants who run unsuccessful projects; how many projects conducted by consultants were assessed as unsuccessful in each year since 2000; and what sanctions were imposed. [29116]

Mr. Lammy: My Department now operates a system in which all contracts over £10,000 in value are subject to an evaluation and report by the contract managers on the performance of the work.

All DMCS consultancy projects are carried out under either the Department's own terms and conditions or those of the Office of Government Commerce's (Buying Solutions) Services Catalogue (S-Cat).

This allows two courses of action to be taken should a project become unsuccessful:

Terminate the contract without notice and withhold payment of any work that is not carried out successfully.

Arrange for the project to be carried out by alternative means and recover from the consultant the cost of obtaining the alternative service.

There have been no circumstances since 2000 when DCMS has been required to invoke any damage or break clauses under either procurement route.

Correspondence

Annette Brooke: To ask the Secretary of State for Culture, Media and Sport when she expects Ofcom to reply to the letter from the hon. Member for Mid Dorset and North Poole dated 26 May, passed to Ofcom by her Department. [27721]

Tessa Jowell *[holding answer 11 November 2005]:* The hon. Member's letter was replied to on 14 June 2005 by the Office of Communications (Ofcom).

Clare Short: To ask the Secretary of State for Culture, Media and Sport when she will reply to the letter dated 1 September from the right hon. Member for Birmingham, Ladywood, ref CMS 22294/DC. [28888]

James Purnell: I wrote to my right hon. Friend for Birmingham, Ladywood on 11 November 2005.

Digital Switchover

Mr. Gordon Prentice: To ask the Secretary of State for Culture, Media and Sport what is her latest estimate of the date by which households across Pendle constituency will be able to receive digital terrestrial broadcasts. [28282]

James Purnell: My right hon. Friend the Secretary of State has confirmed the regional timetable for digital switchover; it will take place between 2008 and 2012 by ITV region in the following order:

	Region
2008	Border
2009	West Country, HTV Wales, Granada
2010	HTV West, Grampian, Scottish Television
2011	Yorkshire, Anglia, Central
2012	Meridian, Carlton/LWT (London), Tyne Tees, Ulster

Note:
Further details can be found at www.digitaltelevision.gov.uk

Digital Switchover will enable coverage for Digital Terrestrial Television to reach the same level as that of the current analogue signals. It will take place in Pendle (Granada region) in 2009.

Licensing Act

Mike Penning: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the impact of the Licensing Act on performances in schools and hospitals; and if she will make a statement. [25969]

James Purnell: The Government believe that the impact of the Licensing Act 2003 on schools, hospitals, and similar venues will be positive. The organisers of private performances at such venues do not require licences under the present licensing framework, and will not do so under the new regime introduced by the 2003 Act. Public entertainment licences are required in respect of performances for which the general public may buy tickets, under both the old and new regimes. The new regime introduces much greater flexibility and accountability in the application processes for public entertainment and other forms of licence.

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what guidance the Government have provided on licensing appeals to magistrates courts under the Licensing Act 2003. [25974]

James Purnell: It would not be appropriate for the Government to issue guidance to the Courts on dealing with appeals. The Government have, however, discussed this matter with the Magistrates Association and the Justices Clerks Society through the Department for Constitutional Affairs, and has offered whatever support has been sought to assist the courts in establishing their arrangements for dealing with appeals.

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what estimate the Government have made of the number of licensing applications made under the Licensing Act 2003 that have been considered by *(a)* magistrates courts, *(b)* Crown courts, *(c)* the High Court and *(d)* the Court of Appeal; and what assessment she has made of the impact of the number of appeals on the court system. [25975]

James Purnell: Appeals against licensing authorities' decisions are made to magistrates courts. There is no appeal to the Crown court, the High Court and the Court of Appeal would consider only requests for Judicial Review.

My Department estimates that there may be up to 1350 appeals to magistrates' courts during the transitional period; 540 in the year following the introduction of the new licensing regime, and up to 360 a year thereafter.

These estimates were included in the public consultation document concerning fee regulations to be made under the Licensing Act 2003.

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what guidance the Department has issued on the grounds for appealing a Licensing Act 2003 licensing appeal decision of the magistrates court to the Crown court. [24968]

James Purnell: My Department has not issued guidance on this issue. The Licensing Act 2003 places no limitations on the grounds for appeal, so long as appeals are made within the time limits specified. It is for the courts to decide on the legitimacy or otherwise of the grounds for appeals, in the light of general case and common law.

Olympic Games

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what recent discussions her Department has had with the London Development Authority regarding businesses in the Marshgate Lane area being relocated to make way for Olympic development; how many of these businesses have reached agreement over relocation; how many have appointed advisers regarding relocation negotiations; what the situation of the remaining businesses is; and when she expects all agreements to be completed. [25708]

Tessa Jowell: There are 274 businesses in the Olympic Park area that need to relocate (96 of these are in or adjacent to Marshgate Lane).

The London Development Agency (LDA) is engaging with each business to understand their relocation requirements and to discuss with them the LDA's offer to acquire their premises by agreement. This is the LDA's preferred approach to land acquisition.

More than 150 businesses have appointed advisers and the LDA is actively encouraging businesses who have not yet done so to appoint advisors as soon as possible. The LDA has reached in-principle agreements with around 30 firms.

The aim is to complete the final agreements with businesses by the end of 2006 to allow sufficient time for relocation. The LDA has compulsory purchase powers in cases where individual agreements are not reached.

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how much of the proposed Olympic Park site is *(a)* greenfield and *(b)* brownfield land; and how much is planned to be *(a)* greenfield and *(b)* brownfield land after the games are completed. [28738]

Mr. Caborn: The Olympic Park site as defined in the Olympic and Legacy planning permissions for the construction, operation and legacy of the Olympic and Paralympic Games comprises 273 hectares.

Of this, 100 hectares are currently open space, comprising green space and landscaped land. This land will be augmented to provide 127 hectares of open space after the Olympic and Paralympic Games. Of the existing 100 hectares of open space, currently only 76 hectares are fully accessible. After the games, all 127 hectares of open space will be accessible.

173 hectares within the Olympic Park site are currently developed space (either brownfield or occupied). There will be no brownfield sites in the Olympic Park after 2012 as they will all have been landscaped into new open space or developed.

The following table summarises the existing and proposed land use for the Olympic Park:

	Built (hectares)		*Open space (hectares)*	
	Area	*Percentage*	*Area*	*Percentage*
Existing	173	63	100	37
Proposed (post games legacy)	146	53	127	47

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what the composition of the Olympic Delivery Authority Board will be; and what criteria will be used when selecting members. [22611]

Tessa Jowell *[holding answer 28 October 2005]:* Our expectation is that the Board of the Olympic Delivery Authority will comprise a Chair and between seven and 11 members whose expertise will be relevant to the nature of the authority's functions and to the places in which it exercises them. The selection criteria will encompass the normal skills required of the members of the Boards of non-departmental public bodies plus the specific skills that the role specifications for each position on the Board will require. The composition of the Board and the role specifications will be determined following consultation with the Chair when he/she is appointed but we expect that the Board will include among its members experts in the management and procurement of large construction projects.

Television Licences

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what the annual average number of people given prison sentences for not paying their television licence was over the last five years; and what the average annual cost of that process was in each year. [25907]

Fiona Mactaggart: I have been asked to reply.

The information on the annual number of people given prison sentences for not paying their television licence over the last five years is in the following table, as recorded on the Prison Service IT system. The Prison Service does not collect data relating to the costs of keeping prisoners in custody by offence type.

Receptions into prison of people given prison sentences for using a TV without a licence by year—England and Wales

	Number
2000	36
2001	30
2002	14
2003	20
2004	28

Greg Mulholland: To ask the Secretary of State for Culture, Media and Sport how many people in Leeds, North-West have been prosecuted for not having a television licence in each of the last five years. [25768]

Fiona Mactaggart *[holding answer 3 November 2005]*: I have been asked to reply.

The information from the Home Office Court Proceedings database on the number of people proceeded against at magistrates courts in West Yorkshire police force area for offences under the Wireless Telegraphy Acts 1949 to 1969 (mainly television licence evasion), 1999–2003 is provided in the table.

It is not possible to identify those prosecutions in Leeds, North-West as the data are not collected at this level of detail. Court statistics for 2004 will be available in late November.

Persons proceeded against at magistrates courts for offences under the Wireless Telegraphy Acts 1949 to 1967[1], West Yorkshire police force area, 1999 to 2003[2]

	Number
1999	6,025
2000	9,535
2001	5,975
2002	6,612
2003	5,822

[1] Mainly television licence evasion.

[2] These data are on the principal offence basis.

CONSTITUTIONAL AFFAIRS

Asylum and Immigration Appeals

Mr. Chope: To ask the Minister of State, Department for Constitutional Affairs how many asylum and immigration appeals lodged prior to 4 April are still outstanding; how many have been determined in each month since that date; and when the outstanding cases are expected to be resolved. [22878]

Bridget Prentice: The latest provisional information available from the Asylum and Immigration Tribunal (AIT) indicates that, at the end of March 2005, *(a)* 16,300 outstanding asylum appeals, *(b)* 10,500 immigration appeals (comprising in-country and entry clearance appeals) and *(c)* 8,600 family visitor appeals were outstanding before the Immigration Appellate Authority (IAA), and the Immigration Appeal Tribunal (IAT).

All outstanding work before the IAA and the IAT was transferred to an appropriate stage of the Asylum and Immigration Tribunal (AIT) following its commencement on 4 April 2005.

Outstanding cases are those either listed and awaiting hearing before an immigration judge, or appeals that have been heard and that await determination by the immigration judge.

The latest provisional figures available from the Asylum and Immigration Tribunal (AIT) indicate that, at the end of June 2005, the numbers of outstanding asylum and immigration appeals determined in each month from April 2005 to June 2005, and which were lodged prior to 4 April 2005, are as follows:

2005	Asylum appeals	Immigration appeals
April	3,528	2,875
May	3,025	2,514
June	2,194	2,488

The transitional arrangements for the treatment of outstanding asylum and immigration appeals, prior to the commencement of the AIT, are set out in the Asylum and Immigration (Treatment of Claimants, etc.) Act 2004 (Commencement No. 5 and Transitional Provisions) Order 2005 (SI 2005/565).

At present it is not possible to specify the number of outstanding appeals, lodged prior to 4 April 2005, which remain to be determined, nor the estimated time for those cases to pass fully through the system, without incurring disproportionate costs.

Jim Sheridan: To ask the Minister of State, Department for Constitutional Affairs how many asylum appeals are outstanding in Scotland. [28962]

Bridget Prentice: The Asylum and Immigration Tribunal (AIT) considers outstanding cases to be those either listed and awaiting hearing before an immigration judge, or appeals that have been heard and that await determination by the immigration judge.

The latest provisional figures from the AIT show that, as at 15 November 2005, there were 125 asylum appeals outstanding in its Glasgow hearing centre.

Jim Sheridan: To ask the Minister of State, Department for Constitutional Affairs how many immigration appeals have been held in Scotland in 2005. [28963]

Bridget Prentice: Information available from the Asylum and Immigration Tribunal (AIT) shows that, in the period from 1 January 2005 to 30 September 2005, 526 substantive immigration hearings (comprising both entry clearance and in-country cases) were heard in its Glasgow hearing centre.

Departmental Assets

Mike Penning: To ask the Minister of State, Department for Constitutional Affairs if she will list the 10 most valuable *(a)* movable and *(b)* immovable assets owned by her Department. [27386]

Bridget Prentice: The 10 most valuable moveable assets owned by the Department as at 31 March 2005 are listed as follows:

	£000
LIBRA	12,084
Furniture Pool	4,871
Information Commissioner Casework Management System	3,742
LINK ITIP	
Southside Server	2,861
Central Criminal Court	2,513
Southwark Crown Court	2,364
Inner London Crown Court	1,909
Manchester Crown and County Courts	1,935
Kingston-upon-Thames Crown Court	1,868
Snaresbrook Crown Court	1,638

The 10 most valuable immoveable assets owned by the Department as at 31 March 2005 are listed as follows:

Royal Courts of Justice, Strand, London
Liverpool Combined Court Centre
Kingston-upon-Thames Crown Court
Southwark Crown Court
Bristol Crown Court
Wood Green Crown Court, London
Blackfriars Crown Court
Sheffield Combined Court
Inner London Sessions House, Newington Causeway
Newcastle upon Tyne Combined Court

For commercial reasons I am not able to give individual valuations for each site but the total net book value of these sites is circa £600 million.

CABINET OFFICE

Departmental Staff

Mike Penning: To ask the Chancellor of the Duchy of Lancaster how many staff in his Department were *(a)* civil servants, *(b)* contractors and *(c)* other staff in each year since 1997. [27451]

Mr. Jim Murphy: The figures for civil servants are published in Civil Service Statistics. Table C of Civil Service Statistics 2004 shows permanent staff numbers (Full-time equivalent basis) between 1998 and 2004. The data for 1997 can be obtained from Table C in Civil Service Statistics 2003. Civil Service Statistics 2004 are available in the Library and on the Cabinet Office Statistics website at http://www.civilservice.gov.uk/management of the civil service/statistics/civil service statistics/index.asp

The most recent figures, as at 30 June 2005, were published on 6 October 2005. http://www.civilservice.gov.uk/management of the civil service/statistics/news/in dex.asp#061005

Data for the number of contractors is not currently collected.

Data on numbers of casual staff is also published on the Cabinet Office Statistics website at http://www.civilservice.gov.uk/management of the civil service/statistics/civil service statistics/index.asp. Data on numbers of agency temporary workers is not currently collected.

Equality/Diversity Units

Mr. Hayes: To ask the Chancellor of the Duchy of Lancaster what the cost to public funds of supporting *(a)* equality and *(b)* diversity units within central Government was in the last period for which figures are available; if he will deposit a list of these groups in the Library; and if he will make a statement. [28098]

Mr. Jim Murphy: Information on expenditure of equality and diversity units in individual Government Departments is not held centrally. However, the NAO report 'Delivering Public Services to a Diverse Society' published in December 2004 estimated that the direct costs in 2002–03 associated with co-ordinating strategy across gender, race, disability and civil service work force representation were over 19 million.

National Minimum Wage

Ms Katy Clark: To ask the Chancellor of the Duchy of Lancaster how many staff in his Department were affected by the increase in the national minimum wage on 1 October. [28931]

Mr. Jim Murphy: No staff in the Cabinet Office or the Central Office of Information were affected by the October increase in the national minimum wage as minimum salary levels exceeded the rates.

Strategy Unit

Mr. Burstow: To ask the Chancellor of the Duchy of Lancaster pursuant to his answer of 3 November 2005, *Official Report*, columns 1353–54W, on the Strategy Unit, what the other phases of the work will be. [28823]

Mr. Jim Murphy: The Phase two of the report was the final phase of this work and contained policy recommendations. This has been withheld under Section 35 of the Freedom of Information Act.

DEFENCE

Afghanistan

Mr. Ancram: To ask the Secretary of State for Defence (1) if he will make a statement on the progress made in reducing narcotics production and trafficking in Afghanistan; [27155]

(2) what representations he has received from his US counterpart regarding the progress made in reducing narcotics production and trafficking in Afghanistan; and if he will make a statement; [27156]

(3) what discussions he has had with his NATO counterparts regarding the possibility of the international security assistance force resuming a role in counter narcotics missions; and if he will make a statement. [27161]

Mr. Ingram: UK armed forces are helping the Afghans create a secure environment in their country on which the eventual elimination of the Afghan opium trade depends. The United Nations Office for Drugs and Crime report states that there has been a 21 per cent. drop in poppy cultivation this year, down from 131,000 hectares to 103,000 hectares. Favourable weather conditions resulted, however, in an increase in the opium yield per acre from 32 kg in 2004 to 39 kg in 2005. It will take time for the impact of international assistance to counter narcotics activity in Afghanistan to be evident in Afghanistan and also in the supply of heroin to the UK.

The UK regularly discusses ongoing military assistance to counter narcotics with allies, including the United States. ISAF's role in support of counter narcotics is currently under discussion in NATO.

Mr. Ancram: To ask the Secretary of State for Defence what funds have been provided by his Department *(a)* to assist Afghanistan's counter narcotics effort and *(b)* to train Afghan police; and if he will make a statement. [27157]

Mr. Ingram: The Ministry of Defence has not provided funds specifically for either counter narcotics or Afghan police training. In both cases, however, United Kingdom armed forces provide support, including information, training and logistic assistance, to Afghan forces.

Mr. Ancram: To ask the Secretary of State for Defence (1) what funds his Department has provided *(a)* to help create a new Afghan army and *(b)* to reconstitute Afghanistan's police force since 2002; [27164]

(2) if he will make a statement on progress in training the Afghan national police. [27159]

Mr. Ingram: The development of the Afghan National Army (ANA) is led by the United States. The UK Ministry of Defence has not contributed funds but has provided resources and assisted ANA capacity building within means and capabilities in theatre.

The development of the Afghan national police (ANP) is led by Germany. The UK Ministry of Defence has not contributed funds to ANP training, although we do provide assistance through our provincial reconstruction team in Mazar-e-Sharif, and would look to do the same in any future deployment to southern Afghanistan.

Some financial support to both the ANA (paying for students attending Sandhurst) and the ANP (work in Mazar-e-Sharif) has been funded by the global conflict prevention pool, which is co-owned with the Foreign and Commonwealth Office and Department for International Development.

HMS Sheffield

Mr. Hancock: To ask the Secretary of State for Defence how many requests have been made under the Freedom of Information Act 2000 for information relating to HMS Sheffield; when the requests were made; and on what date a decision was made on each request. [28356]

Mr. Ingram: Three requests for information (RFI) from different applicants have been made relating to HMS Sheffield under the Freedom of Information Act 2000. One RFI was made in January, and the other two in February. Full replies have been deferred pending the outcome of the departmental review that I commissioned in April 2005 to consider what information can be made available publicly concerning the investigation into the loss of HMS Sheffield during the Falklands conflict. My letter of 7 April (D/MSU/2/5/1) refers, a copy of which is available in the Library of the House.

Armed Forces

Andrew Rosindell: To ask the Secretary of State for Defence how many complaints of *(a)* unfair treatment, *(b)* discrimination, *(c)* harassment and *(d)* bullying have been made by members of the armed forces in each year since 1997. [27614]

Mr. Touhig: The armed forces do not record complaints of unfair treatment as a separate category, nor do they differentiate between those relating to discrimination and harassment.

The number of complaints received by the armed forces of *(a)* discrimination and harassment and *(b)* bullying in each year since 1998 are as follows:

	Discrimination/harassment	*Bullying*
1998	114	37
1999	72	44
2000	50	67
2001	59	41
2002	30	55
2003	29	35
2004	45	47

Comprehensive figures for 1997 are not available.

Mr. Gordon Prentice: To ask the Secretary of State for Defence how many servicemen and women injured on active service since 2000 have stayed on in the armed forces in a non-combatant role; and if he will make a statement. [28283]

Mr. Touhig: According to the Geneva Conventions (Protocol 1, Article 43), the only uniformed personnel to whom the term "non-combatant" applies are medics and chaplains. Therefore, if a serving member of the armed forces who is subject to illness or injury is medically downgraded, enabling them to continue in service while being unfit for operational deployment, this does not mean that they become a non-combatant (unless of course they are discharged from the armed forces or they subsequently transfer to one of the non-combatant branches).

The information requested could only be provided at disproportionate cost.

Adam Price: To ask the Secretary of State for Defence pursuant to his answer of 2 November 2005, *Official Report*, column 1067W, how many foreign nationals are serving in the armed forces, broken down by country of origin. [28362]

Mr. Touhig: The numbers of UK armed forces personnel who are foreign nationals are shown in the following table:

UK regular forces who are foreign nationals

September 2005[2]	*All services*[3]	*Naval Service*	*Army*	*Number RAF*
Total recorded foreign nationals[4]	7,155	485	[5]6,460	[5]210

[1] RAF and Army data are for UK regular forces (trained and untrained), including Nursing Services and excluding full-time Reserve Service personnel, Gurkhas, the Home Service battalions of the Royal Irish Regiment and mobilised reservists. Naval Service figures are for UK Regular Forces including Nursing Services, FIRS and activated reservists.

[2] Naval Service data are provided by AFPAA as data are not centrally held. Data are for personnel serving at 3 October 2005.
Army data are provided by DASA for personnel serving at 1 September 2005.
RAF data are provided by AFPAA as data are not centrally held. Data are for personnel serving as at 16 September 2005.

[3] Includes personnel with nationality recorded as West German.

[4] Includes personnel with nationality recorded as Ceylon.

[5] Includes personnel with nationality recorded as Commonwealth/foreign and personnel with nationality recorded as Foreign/foreign.

[6] Includes personnel with nationality recorded as Foreign National.

[7] Includes 80 personnel recorded as Commonwealth by birth, but with no nationality recorded.

[8] Denotes less than five.

[9] Denotes zero.

Note:
Data are rounded to 5 to prevent disclosure of sensitive personal information. Due to the founding methods used totals may not always equal the sum of the parts.

Adam Price: To ask the Secretary of State for Defence what proportion of armed service personnel in 2002–03 were *(a)* Irish citizens and *(b)* foreign nationals. [28396]

Mr. Touhig: The information requested is shown in the following table. Historical nationality data for the naval service and the RAF cannot be provided as data is not centrally held. Army data is provided by the Defence Analytical Services Agency (DASA):

Percentage

	Irish citizen	*Foreign nationals*
1 April 2002		
Naval service	n/a	n/a
Army	2.0	2.5
Royal Air Force	n/a	n/a
1 April 2003		
Navel service	n/a	n/a
Army	2.0	4.0
Royal Air Force	n/a	n/a

n/a = denotes data not available

Note:
UK Regular Forces include Nursing Services and exclude full-time Reserve Service personnel, Gurkhas, the Home Service battalions of the Royal Irish Regiment and mobilised reservists. They include both trained and untrained personnel.

Source:
DASA(Tri-Service)

Mrs. Humble: To ask the Secretary of State for Defence what the terms of reference were of research undertaken in the past five years into the socio-economic background of recruits to the armed services; what the size was of the sample in each case; what the principal conclusions were; and if he will place copies of research in the Library. [26274]

Mr. Touhig: No research has been undertaken by the Ministry of Defence in the last five years into the socio-economic background of recruits.

However, in 1999–2000, research into the socio-economic background of a sample of 500 Army recruits in the Cardiff catchment area was undertaken privately by a member of the armed forces in connection with an academic thesis, and was referred to in the evidence provided to the House of Commons Defence Committee for their inquiry into Duty of Care.

Gulf War Veterans

Mrs. Iris Robinson: To ask the Secretary of State for Defence how many Gulf War veterans in Northern Ireland are in receipt of *(a)* financial and *(b)* medical support provided by his Department. [28161]

Mr. Touhig: As at 30 June (the latest date for which figures are available), there were approximately 50 veterans in receipt of a war disablement pension whose service included operations in the Gulf Conflict with addresses in Northern Ireland. Others with a lower level of disablement may have received a gratuity award, but we do not have available figures for these. Not all the injuries or medical conditions claimed relate to service in the Gulf but our statistics do not enable us to distinguish the origin of the disablement. Veterans may also qualify for financial assistance through armed forces occupational pension schemes in addition to the normal social security benefits. Information on the numbers of veterans in receipt of benefits under the occupational schemes are not recorded.

127 1990–91 Gulf veterans, with addresses in Northern Ireland have attended the Gulf Veterans' Medical Assessment Programme (GVMAP), based at St. Thomas's Hospital, London. GVMAP patients with mental health issues are referred to specialised centres, including those administered by Combat Stress. Approximately 25 per cent. of the 53,462 veterans who deployed to the Gulf in 1990–91 are still serving and their medical care is the responsibility of the Defence Medical Services. The Department may under the provisions of the War Pension Scheme defray expenses in respect of medical treatment that is not provided free of charge under other United Kingdom legislation. Information is not available on the number of payments made under this provision in Northern Ireland.

Iraq

Peter Law: To ask the Secretary of State for Defence what assessment has been made of *(a)* health problems of British troops returning from serving in Iraq and *(b)* the causes thereof. [21158]

Mr. Touhig: As a result of the lessons identified during the 1990–91 Gulf conflict, the Ministry of Defence took early action to put in place a large scale epidemiological study to monitor the physical and psychological health of personnel who served in Operation Telic. This research is being undertaken by King's College, London and the results are expected to be published in 2006.

Medals

Anne Snelgrove: To ask the Secretary of State for Defence what steps he is taking to improve the efficiency and accuracy of the issuing of medals. [22685]

Mr. Touhig: A number of measures, including the introduction of new information technology and an additional medal engraving facility have recently been introduced, and our procedures for the issuing of medals remain under continuous review.

Since forming in March of this year, the Ministry of Defence Medal Office has reduced the overall backlog of medal applications from 50,000 to some 24,000. With the exception of a handful of human administrative errors, all have been handled accurately.

Military Airfields

Sir Menzies Campbell: To ask the Secretary of State for Defence what records are maintained of US civil registered aircraft landing at UK military airfields. [28785]

Mr. Ingram: The Ministry of Defence maintains a record of all civil registered aircraft that have landed at UK military airfields, including aircraft registration numbers, the name of the pilot and the departure date and destination of the aircraft.

Sir Menzies Campbell: To ask the Secretary of State for Defence what records are maintained of individuals who arrive into the UK at military airfields on US registered aircraft. [28786]

Mr. Ingram: Where individuals have arrived in the United Kingdom on aircraft registered with any nation and stay in the UK, their details are passed by the Ministry of Defence to HM Revenue and Customs and the Immigration Service in accordance with standing military instructions and the local stipulated requirements of those organisations. Such details are not necessarily retained by the MOD.

Where aircraft transit through military airfields, to refuel for example, and passengers do not leave the airfield, the MOD records the names of the pilot and aircraft owner but does not record the details of passengers; international and national aviation regulations do not require the recording of passenger information when transiting UK territory or airspace.

Military Flying Training System

Mr. Ancram: To ask the Secretary of State for Defence what the planning assumption is for entry into service of the UK military flying training system; what the forecast cost is for *(a)* spending on the assessment phase of the project and *(b)* the demonstration and manufacture phase of the project; and if he will make a statement. [27169]

Mr. Ingram: Initial service provision of the UK military flying training system (UKMFTS) will be set at the time of the main investment decision. We expect that we will spend up to £39 million during the assessment phase. UKMFTS is being procured as a public private partnership that does not have a conventional demonstration and manufacture phase.

RAF (Recruits)

Andrew Rosindell: To ask the Secretary of State for Defence how many recruits to the Royal Air Force there were in each of the last eight years; and how many he expects there to be in the next two years. [27619]

Mr. Touhig: For information relating to the last eight years I refer the hon. Member to the answer I gave to him on 10 November 2005, *Official Report*, column 709W.

The current forecasts for the next two years are:

Financial year	*Officers*	*Other ranks*	*RAF total*
2006–07	550	1,380	1,930
2007–08	660	2,280	2,940

Notes:

1. Figures are for UK Regular forces and therefore exclude Full Time Reserve Service Personnel and mobilised reservists.
2. Figures include intake from civil life and those already within the armed forces.

These forecasts are subject to change.

RAF Bases (Ministerial Visits)

Andrew Rosindell: To ask the Secretary of State for Defence how many Royal Air Force bases Ministers have visited in the last 12 months. [27617]

Mr. Touhig: Defence Ministers have visited 14 Royal Air Force stations in the last 12 months.

Random Drug Testing

Mr. Hancock: To ask the Secretary of State for Defence what criteria are used in selecting departmental establishments for random drug testing. [27652]

Mr. Touhig: All service personnel are liable to compulsory drug testing and selection for testing of military units is carried out randomly. The Royal Navy tests all ships, establishments and Royal Marine units over a two year cycle; the priority for the Army is operational units which are liable for deployment to operational theatres; the RAF tests each of its large units at least twice per annum.

Royal Navy

Daniel Kawczynski: To ask the Secretary of State for Defence what the Royal Navy's budget will be for each of the next five years. [29165]

Mr. Ingram: The defence budget is not broken down by individual service. Tables 2 and 3 of The Government's Expenditure Plans 2005–06 to 2007–08, Ministry of Defence (Cmd 6532), show the resource and capital spending plans of the Navy's two Top Level Budget holders, the Commander-in-Chief Fleet and the 2nd Sea Lord/Commander-in-Chief Naval Home Command, in the years 2005–06 to 2007–08. Spending plans for later years will be determined by the outcome of the comprehensive spending review and the subsequent departmental planning round.

Service Discharges

Mr. Gordon Prentice: To ask the Secretary of State for Defence how many members of the armed forces have been discharged as unfit in each year since 1990 from each service. [28280]

Mr. Touhig: The following table shows trained outflow due to medical reasons from UK Regular forces:

Financial year	*Total*	*Naval service*	*Army*	*RAF*
1989–90	[1]	[1]	480	200
1990–91	700	90	460	160
1991–92	680	100	440	140
1992–93	770	210	430	130
1993–94	810	210	430	170
1994–95	920	270	480	170
1995–96	1,180	310	640	230
1996–97	1,050	340	500	200
1997–98	1,140	380	550	220
1998–99	1,040	410	460	160
1999–2000	1,120	480	480	160
2000–01	1,040	450	420	170
2001–02	1,040	410	470	160
2002–03	950	340	490	110
2003–04	880	280	340	260
2004–05	1,080	390	520	160

[1] Denotes figures unavailable.

Notes:

1. UK Regular Forces includes nursing services and excludes Full Time Reserve Service personnel, Gurkhas, the Home Service battalions of the Royal Irish Regiment, mobilised reservists and Naval Activated Reservists.
2. Figures include trained outflow from recalled reservists on release.
3. Due to the rounding methods used, totals may not always equal the sum of the parts. When rounding to the nearest 10, numbers ending in 5 have been rounded to the nearest multiple of 20 to prevent systematic bias.

Service Personnel

Mr. Jenkins: To ask the Secretary of State for Defence how many service personnel have been based in each region of the UK in each year since 1995. [27483]

Mr. Touhig: The information requested is shown in the tables. Information is shown on different tables due to the re-classification of several Government office regions between 1995 and 2005.

UK regular forces distribution across UK at the 1 July situation date

	1995	1996
United Kingdom	182,180	177,360

London	6,800	6,530
South East	49,110	46,840
South West	41,410	40,380

Notes:

1. Figures are for UK regular forces, both trained and untrained, located in the UK. They therefore exclude Ghurkhas, full-time reserve service personnel, the home service battalions of the Royal Irish Regiment and mobilised reservists.
2. Figures show the UK regular forces posted location. Posted location is where an individual is permanently based.
3. Naval service personnel on sea service are included against the region containing the home port of their ship.
4. Naval service personnel serving in flights at sea are included against the region containing the base airfield of their flight.
5. The detailed figures in this publication have been compiled from unit statistics related to unit postcodes. For some units postcode information is either unavailable or inappropriate.
6. Location statistics are not available for FTRS, the home service battalions of the Royal Irish Regiment and mobilised reservists.
7. Due to the rounding methods used, figures may not always equal the sum of the parts. When rounding to the nearest 10, numbers ending in five have been rounded to the nearest 20 to prevent systematic bias.
8. Comparisons should not be made between data before July 2002 and data after July 2004 due to the different methodologies used to collate the data.

Source:
DASA (Tri Service)

Service personnel location statistics are published in Tri-Service Publication 10 (UK Regular Forces Distribution Across the UK), copies of which can be found in the Library of the House. TSP 10 was suspended in 2003 due to concerns over the data quality.

Territorial Army

Jim Sheridan: To ask the Secretary of State for Defence how many members of the Territorial Army live in Paisley and Renfrewshire, North constituency. [28958]

Mr. Touhig: This information is not held centrally and could be provided only at disproportionate cost.

SOLICITOR-GENERAL

Freedom of Information

Peter Law: To ask the Solicitor-General if he will list Freedom of Information (FOI) requests made to the Law Officers which have been passed to the FOI clearing house for evaluation, broken down by *(a)* subject and *(b)* date of request. [28947]

The Solicitor-General: Information about the handling of Freedom of Information requests is published in "Freedom of Information Statistics on Implementation in Central Government". The most recently published report was 30 September 2005 and copies were placed in the Libraries of both Houses. Additional information about the role of the Clearing House can be found on the Department of Constitutional Affairs' website at: http://www.foi.gov.uk/guidance/index.htm#2. Departments do not provide details about the internal handling of requests, such as details of which requests were referred to the Clearing House for guidance.

IT Projects

Mr. Laws: To ask the Solicitor-General how many IT projects have been developed for his Department since 2001; and whether he has agreed to make public Gateway reviews for these projects *(a)* in full and *(b)* in part. [23524]

The Solicitor-General: The Crown Prosecution Service has undertaken a Programme of IT projects since 2001[1]. This Programme has been the subject of the Gateway review process since its inception.

The Revenue and Customs Prosecutions Office became an independent Department on 18 April 2005; prior to that date it was part of HM Customs and Excise. To date it has not developed any new projects.

The Serious Fraud Office has developed 12 IT projects since 2001, none of which had a risk profile requiring the Gateway review process. However in the interest of best practice three Gateway reviews have been undertaken.

The Treasury Solicitor's Office has developed 22 IT projects since 2001, only two of which were subjects of the Gateway review process.

None of the Departments has published findings from the Gateway reviews, nor have I been asked to do so.

[1] This reply also covers HM Crown Prosecution Service Inspectorate

PRIME MINISTER

Financial Contribution

David T.C. Davies: To ask the Prime Minister in what areas of the cost of his *(a)* accommodation, *(b)* security and *(c)* transport (i) he and (ii) his family makes a contribution to the expenses incurred by the Government. [28102]

The Prime Minister: The Government are reimbursed as necessary for personal expenses incurred, as has been the practice of successive Governments.

Peerages

Mr. Gordon Prentice: To ask the Prime Minister what account he takes of the record of donation to political parties of persons he is minded to recommend for elevation to the peerage; and if he will make a statement. [29461]

The Prime Minister: The fact of having made a political donation should not in itself exclude the appointment to a peerage where the candidate's experience or achievements justify one. The House of Lords Appointments Commission, who carry out the scrutiny of candidates, is given information, where relevant, about political donations.

HOME DEPARTMENT

Antisocial Behaviour Orders

Andrew Rosindell: To ask the Secretary of State for the Home Department how many people in *(a)* Havering, *(b)* Essex and *(c)* Greater London have had (i) one, (ii) two, (iii) three and (iv) four or more antisocial behaviour orders issued against them in the last four years. [27127]

Hazel Blears: It is not possible from the data on antisocial behaviour orders (ASBOs) collected centrally to identify, within an acceptable degree of accuracy, persons issued with different numbers of ASBOs. A table giving a breakdown of ASBOs issued, by the local government authority area in which prohibitions are imposed, is available on the Crime Reduction website at www.crimereduction.gov.uk. This table gives data by year since ASBOs were introduced.

At-risk Children

John Hemming: To ask the Secretary of State for the Home Department how many children were on the at-risk register in each local authority in England at the end of each council year since 1989. [26431]

Beverley Hughes: I have been asked to reply.

The information requested is available from the Department's website at:

http://www.dfes.gov.uk/rsgatewav/DB/VOL/v000553/index.shtml

Bail Hostels

Mr. Ian Taylor: To ask the Secretary of State for the Home Department how many bail hostels serve courts in Surrey. [27514]

Fiona Mactaggart: Approved Premises (formerly bail and probation hostels) operate in all parts of England and Wales and provide places for those bailed by the courts, offenders serving community sentences or those released from prison on licence. Surrey has one Approved Premises which serves the courts in the county. In addition, the local probation area has an arrangement with a housing provider in the county for access to accommodation for those on bail who are assessed as medium or low risk of harm.

Community Service Offenders

Andrew Rosindell: To ask the Secretary of State for the Home Department whether he plans to make community service offenders wear recognisable clothing. [25205]

Fiona Mactaggart: The Home Office through the National Offender Management Service is examining ways of making compulsory unpaid work more visible and this includes looking at the use of a 'Community Payback' logo to identify the work carried out by offenders supervised by local probation areas. Currently probation areas are implementing the proposals of the National Probation Directorate and using this logo to mark current and completed work projects.

The emphasis is on badging the work offenders undertake in order to raise public awareness of the benefits this brings to the communities. In accordance with Health and Safety requirements, offenders on unpaid work projects are regularly required to wear suitable protective clothing and some badging of equipment and protective clothing is currently being introduced.

Counter-terrorism

Michael Fabricant: To ask the Secretary of State for the Home Department pursuant to his oral answer of 7 November 2005, *Official Report*, column 9, on counter-terrorism, which EU countries can detain terrorist suspects without trial for four years. [27334]

Mr. Charles Clarke: There are a number of EU countries where terrorist suspects can be detained, without trial, for four years. In France, for example, a suspect can be detained for up to four years if the crime in question carries a sentence of over 10 years, and this includes many terrorism-related offences. In Germany there is no maximum detention period, although the grounds for detention must be reviewed at least every six months. In Spain there is an initial detention period of up to two years, renewable for a further two if the crime carries a sentence of six or more years and the investigating magistrate fears a risk of absconding.

Criminal Records Bureau

Mr. Pelling: To ask the Secretary of State for the Home Department what the average number of Criminal Records Bureau checks made per week *(a)* was in (i) 2003 and (ii) 2004 and *(b)* has been to date in 2005. [26895]

Hazel Blears: The average number of Disclosures issued per week in 2003 was 40,762 and 47,853 in 2004. The average number for 2005 stands at 50,798.

De-activated Firearms

Mr. Peter Ainsworth: To ask the Secretary of State for the Home Department how many de-activated Lee Enfield Mark 1, First World War rifles have been used in the commission of an offence in the last five years; and if he will make a statement on the effect of the Violent Crime Reduction Bill on owners of such rifles. [30087]

Hazel Blears *[holding answer 17 November 2005]:* The requested data are not collected centrally. De-activated firearms have been exempted from the definition of realistic imitation firearm and owners of these rifles will be largely unaffected by the provisions in the Bill. Provisions in the Bill relating to the sale of imitations to minors will apply and it will be an offence in future to sell a de-activated firearm to a person under the age of 18.

Departmental Staff

Dr. Cable: To ask the Secretary of State for the Home Department how many full-time equivalent employee reductions *(a)* were achieved in 2004–05 and *(b)* are expected to be achieved in 2005–06 as a result of the Gershon review in his Department; what (i) cost savings relating to IT projects and (ii) total efficiency savings (A) were achieved in 2004–05 and (B) are expected to be achieved in 2005–06 as a result of that review; and if he will make a statement. [25915]

Mr. Charles Clarke *[holding answer 7 November 2005]:* My Department's 2005 Annual Report (Cm 6528) recorded that gains in value for money estimated to be worth £717 million per year were achieved during 2004–05 and that the size of the headquarters had been reduced by 876 full-time equivalent posts.

These improvements form a significant first step towards achieving my Department's targets to increase value for money by £1,970 million per year by 31 March 2008 and to reduce the size of the headquarters by 2,700 full-time equivalent posts.

Value for money increases have been supported, in some areas, by new or changed use of information technology (IT). However IT investment has generally formed only part of a wider change to the way in which work is carried out; it is not possible to show separately what proportion of the Department's substantial gains have arisen directly as a result of IT.

DNA Database

Mr. Oaten: To ask the Secretary of State for the Home Department how many individual records have been added to the national DNA database in each month since January 2004. [4675]

Andy Burnham: The estimated number of records pertaining to individuals added to the National DNA Database in each month since January 2004 is shown in the following table. The figures shown take account of replicate sample records on the database. There were an estimated 2,888,855 individuals on the database at the end of July 2005.

Estimated number of individuals added to the database

Month	*Number*
2004	
January	35,403
February	37,998
March	51,329
April	33,192
May	29,259
June	38,545
July	38,964
August	45,173
September	28,653

Estimated number of individuals added to the database

Month	*Number*
October	43,720
November	44,321
December	43,350
2005	
January	39,638
February	41,336
March	44,100
April	45,566
May	47,443
June	48,204
July	45,514

Lynne Featherstone: To ask the Secretary of State for the Home Department how many individuals have been found guilty on the basis of evidence from the DNA database since its inception. [28065]

Andy Burnham *[holding answer 10 November 2005]*: It is not possible to provide information on the number of individuals who have been found guilty on the basis of evidence from the National DNA Database as statistical data are not kept in this form.

Government Telecommunications

Mr. Letwin: To ask the Secretary of State for the Home Department what assessment he has made of the security implications of the supply of Government telecommunications equipment by overseas manufacturers. [27313]

Mr. Charles Clarke: The procurement of Government telecommunications equipment, irrespective of the source of supply, always involves a security assessment appropriate to the purpose for which the equipment is to be used.

Influenza Pandemic

Mr. Lansley: To ask the Secretary of State for the Home Department what guidance he has issued to police forces regarding the development of contingency plans for use in the event of an influenza pandemic; and what plans he has to update this guidance. [26007]

Hazel Blears: The Association of Chief Police Officers (ACPO) has been alerted to the potential consequences of an outbreak of pandemic influenza, and has communicated this to police forces in order to inform contingency planning. This work will be guided by the Government's UK Influenza Contingency Plan (latest version 19 October 2005). The Home Office will continue to liaise with ACPO in the production of contingency plans as necessary.

Malicious Damage Act

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females have been (i) charged and (ii) convicted in England and Wales of offences under sections (A) 35 and (B) 36 of the Malicious Damage Act 1861 in each year since 1984. [27143]

Hazel Blears: Statistics on the number of males and females charged with an offence are not centrally collected. Information taken from the Home Office Court Proceedings database on the number of males and females found guilty of criminal damage at all courts England and Wales, 1984–2003 is contained in the table. It is not possible to separate data on convictions under sections 35 and 36 of the Malicious Damages Act 1861 from data relating to other offences of criminal damage. Court statistics for 2004 will be available in late November.

Number of males and females found guilty at all courts for criminal damage England and Wales, 1984–2003[1]

	Criminal damage endangering life (excluding arson)[2]		*Other criminal damage*[3]	
	Male	*Female*	*Male*	*Female*
1984	50	3	8,202	492
1985	43	—	8,327	514
1986	60	3	7,313	444
1987	43	4	7,805	459
1988	41	7	8,773	536
1989	61	7	6,578	425
1990	69	6	8,113	613
1991	50	4	7,433	606
1992	50	7	7,318	581
1993	40	2	7,091	574
1994	71	1	7,519	587
1995	54	7	7,208	556
1996	86	9	7,524	643
1997	97	8	7,775	686
1998	81	6	8,372	711
1999	90	10	8,147	754
2000	70	9	7,448	690
2001	80	12	7,724	754
2002	82	12	7,914	830
2003	101	15	7,995	872

[1] These data are provided on the principal offence basis.

[2] Includes offences under Explosive Substances Act 1883 s.2 (in part) and s.3 (in part), Malicious Damage Act 1861 ss 35, 36, 47 and 48, Criminal Damage Act 1971 s.1(2).

[3] Includes offences under Explosive Substances Act 1883 s.2(in part) and s.3 (in part) Malicious Damage Act 1861 ss 35, 36, 47 and 48, Ancient Monuments and Archaeological Area Act 1979 s.28(1), Post Office Act 1953 s.60, Criminal Damage Act 1971 s.1(1) (value over £5,000 or at the same time as an other offence).

Mental Health

Mr. Ian Taylor: To ask the Secretary of State for the Home Department what steps are being taken to provide offenders with mental health problems rehabilitation after sentencing. [27515]

Fiona Mactaggart: Wherever possible, subject to the need to protect others, mentally disordered offenders receive treatment rather than punishment. Where they cannot be diverted to hospital at sentencing, the Home Secretary has power to direct their transfer to hospital from prison. Discharge or release from hospital is subject to statutory aftercare arrangements under s117 of the Mental Health Act 1983.

Where mentally disordered offenders do receive prison sentences, Prison Mental Health In-reach teams work to link them with their "home" Community Mental Health Teams before their release to ensure continuity of care under the Care Programme Approach and the Offender Mental Health Care Pathway.

National Offender Management Service

Mr. Gerrard: To ask the Secretary of State for the Home Department how regional offender managers will be involved in contestability under the National Offender Management Service arrangements. [23271]

Fiona Mactaggart: Regional Offender Managers (ROMs) will be commissioning services from the Prison Service and from Probation Boards from April 2006. Meanwhile, proposals for increasing contestability across the National Offender Management Service estate are being developed. Contestability is expected to result in ROMS commissioning correctional services from a range of public, private and voluntary and community sector providers.

Mrs. Gillan: To ask the Secretary of State for the Home Department when he expects to complete *(a)* assessment of and *(b)* consultation on the organisational design options to deliver (i) integrated offender management, (ii) increased contestability and (iii) the clear purchaser/provider split as set out in the 2005–06 Business Plan. [12040]

Fiona Mactaggart *[holding answer 13 July 2005]:* A consultation paper, "Restructuring Probation to Reduce Re-offending", was published on 20 October, setting out how we propose to introduce a clear purchaser/provider split and increased contestability of integrated offender management services (current legislation already allows for competition in the provision of prison services but not of probation services). The consultation period ends on 20 December and we will publish a summary of responses as soon as possible thereafter.

Neighbourhood Disruption

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps he is taking to ensure that juveniles do not cause disruption to others in their neighbourhood after 9 pm. [27147]

Hazel Blears: A wide range of powers are available to limit disruption caused by juveniles after 9 pm, these include powers given to the police to designate an area where there is persistent antisocial behaviour and a problem with groups causing intimidation. In these areas the police, in agreement with the local authority, have a power to disperse groups where their presence or behaviour has resulted, or is likely to result, in a member of the public being intimidated, alarmed or distressed.

The groups can then be excluded from a specified area for up to 24 hours antisocial behaviour orders (ASBOs) can also be used as an effective means of curbing disruptive behaviour in local neighbourhoods. ASBOs contain prohibitions which place restrictions on the behaviour of individuals. These prohibitions may include a curfew which ensures young people are in their homes by a given time.

In situations where groups of young people are causing disruption, targeting ringleaders with ASBOs may be a useful way of dispersing the group. acceptable behaviour contracts, which are voluntary agreements, may also be used to ensure young people are not causing disruption in their neighbourhoods.

Neighbourhood Watch

Rosie Cooper: To ask the Secretary of State for the Home Department how many neighbourhood watch schemes are in operation in West Lancashire. [27841]

Hazel Blears: In January 2005 there were 1,510 Neighbourhood Watch schemes in Lancashire as a whole, covering some 79,481 properties. The most recent available figures suggest that there are currently around 300 Neighbourhood Watch schemes operating in West Lancashire.

Rosie Cooper: To ask the Secretary of State for the Home Department what funding is available for neighbourhood watch in West Lancashire. [27842]

Hazel Blears: Neighbourhood Watch groups in West Lancashire, in common with Neighbourhood Watch organisations in other parts of England and Wales, can approach their local Crime and Disorder Reduction Partnerships (CDRPs) and local councils for financial and other support. The Home Office does not provide direct grant funding to local Neighbourhood Watch groups. Instead we provide other types of support such as the www.neighbourhoodwatch.uk.com website, free public liability insurance for local groups and free crime reduction literature for use by these groups.

Offences Against the Person Act

Mr. Amess: To ask the Secretary of State for the Home Department if he will make a statement on the operation of section 36 of the Offences Against the Person Act 1861. [27140]

Hazel Blears: Section 36 of the Offences Against the Person Act 1861 makes it an offence to use threats or force to obstruct or prevent ministers of religion in the discharge of their duties. The maximum penalty is two years imprisonment. In the years 1999 to 2003, there have been six cases proceeded against at magistrates courts under section 36 of the 1861 Act.

Police

Mr. Walker: To ask the Secretary of State for the Home Department what plans he has to merge police forces according to the bounderies used for regional assemblies; and if he will make a statement. [26404]

Hazel Blears: We have made clear to the police service that the very strong starting presumption is that any new force areas should not cross Government office regional boundaries. It follows that very strong arguments would need to be submitted in support of any merger proposals which went contrary to this presumption.

Lynne Featherstone: To ask the Secretary of State for the Home Department what research he has evaluated on the effectiveness of national recruiting guidelines for the police force; and if he will make a statement. [26565]

Hazel Blears: The Home Office and Centrex, the Central Police Recruitment, Training and Development Authority, are responsible for evaluating the results and effectiveness of the recruit assessment centre across all forces in England and Wales. Their research has shown that those selected through the national police recruitment assessment centre go on to perform well at initial police probationer training and also perform effectively in the job as a constable. I will place a copy of the latest Predictive Validity Report in the Library.

Lynne Featherstone: To ask the Secretary of State for the Home Department if he will place a copy of the national guidelines on recruitment standards for the police force in the Library. [26566]

Hazel Blears: Potential candidates are assessed in seven competencies; Respect for Race and Diversity, Resilience, Effective Communication, Team Working, Problem Solving, Personal Responsibility and Community and Customer Focus.

The seven different competencies are measured through four interactive exercises, two written exercises, and a competency based structured interview and two ability tests, one testing verbal reasoning the other numerical reasoning. Respect for Race and Diversity competency area is designed into and assessed in each exercise as a 'golden thread'. The other six competencies are measured a minimum of three times across the other exercises and interview. Candidates must pass at the agreed level. Other recruitment standards are set out in Home Office Circulars 6/2003, 25/2003, 54/2003, 43/2004 and 59/2004.

These are available on the Home Office website and I have placed a copy of them in the Library.

Lynne Featherstone: To ask the Secretary of State for the Home Department what training in management skills is available for police officers. [26567]

Hazel Blears: The Core Leadership Development Programme provides a suite of leadership modules aimed at post probationary constables, sergeants, inspectors and corresponding police staff—providing them with leadership and management skills across a range of areas of expertise. This has been externally accredited by the Chartered Institute of Management.

The Senior Leadership Development Programme, aimed at middle and senior managers, develops the knowledge, skills and behaviours to improve operational professionalism and performance and deliver high quality services. It is a requirement for superintendents and chief superintendents to pass the Strategic Command Course to become a member of the Association of Chief Police Officers.

This course provides police officers with the skills to take on the most demanding roles in the police service.

Mr. Holloway: To ask the Secretary of State for the Home Department how many police officers are on the force in Gravesham; and if he will take steps to increase this number. [28592]

Hazel Blears: Figures for Gravesham are not collected centrally. However, Gravesham comes within the North Kent Basic Command Unit and as at 31 March 2005 there were 388 (full-time equivalent) police officers within the North Kent BCU. The number of police officers in North Kent has increased by 46 since March 2002. The deployment of police officers to basic command units and other specialist units in Kent police is an operational matter for the Chief Constable.

Mrs. Spelman: To ask the Secretary of State for the Home Department what boundaries the Government will use for the restructuring of police forces; and what assessment he has made of the merits of using Government office regions as the basis for the reorganisation. [26944]

Hazel Blears: We have made clear to the police service that the very strong starting presumption is that any new force areas should not cross Government office regional boundaries. It follows that very strong arguments would need to be submitted in support of any merger proposals which went contrary to this presumption.

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps the Government is taking to improve the quality of local policing in Coventry, South; and if he will make a statement. [27239]

Hazel Blears *[holding answer 9 November 2005]:* The Government are committed to a major programme of police reform, to help build safer and stronger communities. This will help to drive performance in every force and includes: building a more responsive, citizen-focused police service with neighbourhood policing at its heart—reshaping the national policing landscape to ensure effective policing at district, force and national level—further modernising the police work force.

This is building on the significant progress that has already been made: overall crime is down by 35 per cent. since 1997 and the chance of being a victim of crime is at a 20-year low—police numbers are at an all time high. We now have over 141,000 police officers, 71,000 police staff and 6,300 community support officers—investment in policing has increased by over a quarter since 1997. We have also sought to instil a strong performance culture. This is taking hold delivering real and sustainable improvements. In terms of West Midlands Police's local performance and how this is enhanced, as for any force this is principally a matter for the chief officer team and the police authority. The Home Office

has recently published assessments for every force in the country. West Midlands Police received a "Good" and "Improved" grading in the local policing domain.

The Government's work with all 43 forces to develop neighbourhood policing, initially within pathfinder areas, will enhance the quality of local policing. In West Midlands, the pathfinder is North Sandwell Operational Command Unit.

The development of neighbourhood policing within the pathfinder will inform the development of neighbourhood policing across the force. Following the report by Her Majesty's Inspectorate of the Constabulary on improving protective services, I have also asked police forces and police authorities to develop options for restructuring forces and to submit their final reports, including their final options, to the Home Office by 23 December 2005. Larger, more strategic forces will support neighbourhood policing as they will have the resilience to prevent the abstraction of neighbourhood policing teams to major incidents.

Prison Service

Adam Price: To ask the Secretary of State for the Home Department if he will make a statement on individuals employed by the Prison Service who wish to continue working beyond the age of 60. [28916]

Fiona Mactaggart: The public sector Prison Service is currently reviewing its age retirement policies across all grades of staff. It is expected that the Prison Service Management Board will consider the outcome of the review in December 2005 and advise staff of the outcome of the review in early 2006. Prison officers and operational managers are not routinely permitted to work beyond the age of 60.

In exceptional circumstances, prison governors have discretion to allow individuals to work beyond the age of 60 where there is a specific operational need to retain the individual member of staff due to their specialist skills or involvement in a particular project or specific work. Operational support grades and industrial staff may continue to be employed until the age of 65. Under a temporary policy, due to expire on 31 March 2006, administrative staff and non-operational management grades are currently permitted to work on an annual basis beyond the age of 60. The review will determine whether these grades will be allowed to work beyond the age of 60 after this date.

Prisoner Release

Dr. Kumar: To ask the Secretary of State for the Home Department what percentage of prisoners are released with *(a)* no arranged employment and *(b)* no accommodation. [18611]

Fiona Mactaggart: Prisoners are asked immediately before release about arrangements for accommodation and ETE (Employment Training and Education) after release. Figures provided as follows refer to accommodation, ETE and Freshstart bookings (interviews arranged at the local Jobcentre Plus).

Percentage of prisoners who have not had accommodation or employment arranged prior to release. Year-to-date September 2005.

	Percentage
No accommodation	18
Without employment[1]	74

[1] Not to be mistaken with unemployed (see following table for details).

The breakdown of those released without employment[1]. Year-to-date September 2005.

	Percentage
In education/training	10
Unavailable to work (i.e. long-term carer, sickness, retirement)	9
Unknown (no information recorded)	51
Unemployed	29

[1] 57 per cent. of those released without employment were booked a FreshStart Interview by Jobcentre Plus.

Prisons

Lynne Featherstone: To ask the Secretary of State for the Home Department what steps he is taking to enable prisoners to continue with educational courses started in prison after their release. [16963]

Fiona Mactaggart: In August 2005, the Learning and Skills Council took responsibility in three development regions (the North West, North East and South West) for planning and funding an integrated learning and skills service for offenders in custody and the community, linking it much more explicitly with mainstream provision for post-16 learners. The remaining six regions in England will follow in August 2006.

The key features of the new service are described in The Offenders Learning Journey (http://www.dfes.gov.uk/offenderlearning/uploads/docs/adultpercent20OLJpercent20V0.5.doc) which specifies an early, intense focus on assessing learning needs followed by seamless arrangements for delivering those requirements to offenders across prisons and probation and on into mainstream learning and skills provision.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what steps are being taken to provide victim support-based treatment for prison inmates who were victims of sexual abuse prior to incarceration. [21724]

Fiona Mactaggart: A number of voluntary and self-help groups offer support to both female and male offenders who are survivors of sexual abuse, including interventions by rape crisis centres, counselling services and other health professionals. Services are contracted by prisons according to local circumstances.

The Prison Service has issued operational advice and good practice guidelines entitled "Supporting Women in Prison who have been Abused, Raped or who have experienced Domestic Violence (June 2005)." A directory of services for women who have experienced abuse as children or adults has also been published recently.

The Service has also consulted a number of relevant non-statutory agencies, as well as undertaking an extensive literature review on the impact of

victimisation and its links with crime by women. Offending behaviour programmes currently being piloted with women are taking account of the role of childhood maltreatment in the causes of offending and substance use for women.

Mr. Pelling: To ask the Secretary of State for the Home Department how many assaults have taken place on prison officers *(a)* in total, *(b)* in the Prison Service and *(c)* within private prisons in each of the last five years. [25446]

Fiona Mactaggart: The Prison Service does not routinely collect separate data on assaults on prison officers. However, the following table shows the number of serious assaults on all members of staff for the last five full financial years and for the first six months of 2005–06. The data include serious assaults on both prison officers and staff in civilian roles.

	Prison system total	*HM Prison Service*	*Contracted prisons*	*Contractor escorts*
2000–01	122	105	6	11
2001–02	126	113	9	4
2002–03	133	120	9	4
2003–04	197	173	14	10
2004–05	188	162	14	12
2005–06	91	68	14	9

John Bercow: To ask the Secretary of State for the Home Department (1) what assessment he has made of the impact of overcrowding on the operation of Springhill Prison; [25861]

(2) what steps his Department is taking to reduce overcrowding in Springhill Prison. [25862]

Fiona Mactaggart: No prisoners are held in crowded conditions at HMP Springhill.

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps are being taken to reduce the number of suicides in prisons. [26465]

Fiona Mactaggart: Prisoner suicide prevention operates by embedding suicide prevention through every area of prison life-including detoxification, decency, health care, staff training, and the built environment. The key intervention currently being introduced across public and private prisons is the new care-planning system for at-risk prisoners: ACCT (Assessment, Care in Custody and Teamwork). ACCT aims to improve the quality of care by introducing flexible care understanding at-risk prisoners.

Probation Service

Mrs. Gillan: To ask the Secretary of State for the Home Department how many people *(a)* joined and *(b)* left the Probation Service in England and Wales during (i) 2003–04 and (ii) 2004–05, broken down by grade. [23829]

Fiona Mactaggart: Information is not available for the full period requested. Data collected prior to 1 April 2003 is unreliable, and is not directly comparable with the more accurate figures collected since that time. The figures presented in the table show full-time equivalent (FTE) figures at the close of each quarter from 1 April 2003 to 30 June 2005.

The starters and leavers data in the table does not capture movements/promotions between grades. For example, the vast majority of new probation officers are trainee probation officers who are appointed at the successful completion of their training. Because these trainees are already employed by the National Probation Service (NPS) at the time of their appointment to a probation officer post, this is not recorded as a 'new start' and does not appear in the starters figures.

This gives the appearance that the number of leavers in the probation officer category continuously exceeds the number of starters. This is not an accurate representation, as probation officer numbers continue to grow in the NPS. The comparison of starters and leavers figures (in order to gauge net growth/loss in staff numbers) is only representative when comparing the overall total figures in each period.

2003–04

	Quarter 1		*Quarter 2*		*Quarter 3*		*Quarter 4*	
	Starters	*Leavers*	*Starters*	*Leavers*	*Starters*	*Leavers*	*Starters*	*Leavers*
Senior Probation Officer	4.00	20.00	2.00	20.00	1.50	16.50	1.40	18.50
Senior Practitioner	0.00	3.00	9.00	6.00	1.00	4.00	0.00	7.60
Probation Officer	33.90	78.20	29.10	147.00	34.60	84.10	11.10	95.70
Trainee Probation Officer	2.00	11.00	211.00	15.00	518.00	17.80	135.00	19.00
Probation Services Officer	239.00	111.30	346.10	133.80	229.16	146.01	131.53	113.13
Psychologist	0.00	0.00	1.00	0.00	0.00	0.00	0.00	2.50
Other Operational Staff	30.40	56.20	30.70	35.20	49.30	18.30	48.74	23.60
Deputy Chief Officers/Director	1.00	0.00	0.00	3.00	2.00	1.00	0.00	2.00

Prostitution

Dr. Iddon: To ask the Secretary of State for the Home Department whether he plans to bring forward legislation on prostitution following his recent review. [25920]

Fiona Mactaggart: Following public consultation last year we are developing a coordinated strategy for England and Wales on the wide-ranging issues arising from prostitution, which we will publish as soon as possible. This strategy will set out any legislative changes we plan to make as a result of the review and responses to the consultation.

Protection from Harassment Act

Steve Webb: To ask the Secretary of State for the Home Department (1) how many times the powers under the Protection from Harassment Act 1997 have been used to prevent an individual from contacting a spouse or partner in each year since the Act came into force; what standard of proof is required before such powers are exercised; and if he will make a statement; [24524]

(2) on how many occasions powers under the Protection from Harassment Act 1997 have been used to prevent a person from accessing their marital home; and if he will make a statement. [28061]

Fiona Mactaggart: The available information from the Home Office Court Proceedings database on the number of restraining orders made under section 5 of the Protection from Harassment Act 1997 up to 2004 is contained in table one.

The available information from the Department for Constitutional Affairs County Court Statistics Module Database on the estimated number of injunctions granted under section 3 of the Act, 1998 to 2005, is contained in table two. (The number is estimated because there is no specific reference to section three of the Act within the dataset.) It is not possible to identify those orders or injunctions that were intended to prevent contact with a partner or spouse, as information about the purpose of such orders and injunctions is not centrally collected. Both restraining orders made under section 5 of the Act and civil injunctions granted under section three are civil orders.

Both orders are preventative rather than punitive and are intended to give protection to victims. In determining whether a restraining order is necessary, the criminal court will apply a civil standard of proof. If a civil court is satisfied on a balance of probabilities that harassment has taken place or is anticipated, then it may grant an injunction.

Protection from Harassment Act 1997

	Injunctions granted
1998	374
1999	390
2000	283
2001	433

Relocation

Dr. Cable: To ask the Secretary of State for the Home Department how many people in his Department *(a)* were relocated in 2004–05 and *(b)* are expected to be relocated in 2005–06 as a result of Sir Michael Lyons' independent review of public sector relocation; to which locations they have been relocated; and if he will make a statement. [25913]

Hazel Blears *[holding answer 7 November 2005]:* During 2004–05, the Home Office announced that a corporate shared services centre for the Prison Service would be established in Newport (Monmouthshire) by March 2008. That would create 500 posts in South Wales and reduce the number of comparable posts, in London and the South East, by around 620 as well as reducing administration support posts in prison establishments across the country.

By the end of 2004–05, a further 320 posts had been created in Sheffield (70 posts) and the regions more widely (250 posts), avoiding post creation in London and the South East in the Immigration and Nationality Directorate. During 2005–06, the Home Office will continue to review scope to relocate posts away from London and the South East in support of the Government's policy following Sir Michael Lyon's review.

Reoffenders

Mr. Ian Taylor: To ask the Secretary of State for the Home Department how many convicted criminals re-offended while on bail in the last period for which figures are available. [27586]

Hazel Blears: Information on re-offending while on bail is not collected centrally.

Sexual Offenders

John Bercow: To ask the Secretary of State for the Home Department what action is being taken by his Department to increase the provision of treatment for sex offenders in prison. [25854]

Fiona Mactaggart: The range of accredited sex offender treatment programmes delivered by the Prison Service have been increased this year. These sex offender treatment programmes are designed to address different levels of risk and need. Resources are concentrated on those who are in prison long enough to benefit from a full programme. Some who do not attend a programme in prison may do so while on licence in the community.

Terrorism

Peter Law: To ask the Secretary of State for the Home Department what discussions he has had with his Australian counterpart on the operation of detention policy for *(a)* terrorist suspects and *(b)* those suspected of aiding terrorists. [28954]

Hazel Blears: My right hon. Friend met Phil Ruddock, the Australian Attorney General, on 27 October to discuss all aspects of anti-terrorism legislation.

Mr. Wallace: To ask the Secretary of State for the Home Department whether his Department requested United Kingdom police forces to contact hon. Members on the subject of the Terrorism Bill. [28096]

Hazel Blears: In the debate in the House of Commons on 2 November, my right hon. Friend the Home Secretary, suggested that over the weekend Members of Parliament discuss the counter-terrorism issues with their constituents, and highlighted the importance of professional advice from local police.

On 3 November, he suggested to ACPO that Chief Constables write to MPs in their police authority area, making themselves or relevant senior officers available to MPs, of all parties, who wanted to know their local police attitude to these issues. He naturally made clear that this should not be on a party political basis. Chief Constables responded to this in a number of different ways ranging from taking no action to setting out their views. The Government believe that it is entirely proper for the Police Service—who are tasked with protecting our security—to make the case for new powers which they have sought and which they feel are necessary to protect the nation, as they did over a period of time with this proposal.

Women Prisoners

Mrs. Moon: To ask the Secretary of State for the Home Department how many women in Wales were sentenced to a period of imprisonment in the last five years, broken down by prison. [27927]

Fiona Mactaggart: The number of women sentenced in Welsh courts and their destination establishment from 2000 to 2004 is in the following table, as recorded on the Prison Service IT system.

Number of women sentenced from Welsh courts and their destination prison establishment

	Number
2000

Youth Justice and Criminal Evidence Act

Vera Baird: To ask the Secretary of State for the Home Department when he expects the findings of the research project into the impact of section 41 of the Youth Justice and Criminal Evidence Act 1999 to be published.

Fiona Mactaggart: At the present time it is planned to publish the findings of the research into the impact of section 41 of the Youth Justice and Criminal Evidence Act 1999 in the spring of 2006.

DEPUTY PRIME MINISTER

Council Tax

Mrs. Spelman: To ask the Deputy Prime Minister what the band D council tax was in 2004–05, in the billing authorities affected by the 2004–05 in-year capping designation, giving separately *(a)* pre-capping band D bill for the whole billing authority and *(b)* the post-capping band D bill for the whole billing authority; and what the average parish precepts were in each case. [26912]

Mr. Woolas: The information requested is tabled as follows:

£

Local authority	*Pre-capping band D area council tax*	*Post-capping band D area council tax*	*Average parish precept band D*[1]
Bromsgrove[2]	1,183	1,179	12
Fenland	1,210	1,200	16
Herefordshire	1,185	1,178	28
Malvern Hills[2]	1,183	1,180	51
Nottingham	1,259	1,257	0
Redditch[2]	1,192	1,189	0
Shepway	1,230	1,214	17
Torbay	1,168	1,155	0
Worcester[2]	1,159	1,155	2
Wychavon[2]	1,146	1,142	28
Wyre Forest[2]	1,200	1,196	9

[1] This is the aggregate amount of parish precepts within the billing authority's area divided by the tax base for the whole of the billing authority's area. Only parts of the area of some billing authorities are parished, however, although precise information on this is not held centrally. In such cases, the figure shown is understating the average parish precept for parished areas.

[2] These authorities were not themselves capped, but had their area council tax reduced due to the capping of Hereford and Worcester Fire Authority.

In 2003–04, the last year in which capping powers were not exercised, the average council tax increase in England was 12.9 per cent. This reduced to 5.9 per cent. in 2004–05 and fell again to 4.1 per cent. in 2005–06—in both these years, the Government made clear that they were prepared to use their powers to cap excessive council tax increases.

English Partnerships

Mr. Lancaster: To ask the Deputy Prime Minister how much money has been raised by English Partnerships in each of the last four years through the sale of assets in Milton Keynes. [27510]

Yvette Cooper *[holding answer 15 November 2005]:* English Partnerships (EP) has received the following amounts in receipts from Milton Keynes over the last four years;

	Receipts £ million
2001–02	74
2002–03	58
2003–04	77
2004–05	136
Total	345

Within Milton Keynes, EP is looking at mechanisms to unlock payments for key infrastructure and a new local delivery vehicle, the Milton Keynes Partnership, has been established. The partnership has been given planning powers to help facilitate growth in a defined urban development area. Within this area plans and costings have been drawn up to guide development and the infrastructure needed to support growth.

Firefighters

Mr. Hollobone: To ask the Deputy Prime Minister how many *(a)* part-time and *(b)* full-time firefighters serviced (i) Northamptonshire and (ii) Kettering constituency in each year since 1997. [29311]

Jim Fitzpatrick: The number of part-time and full-time firefighters in Northamptonshire in each year since 1997 was as follows:

As at 31 March:	*Retained (part-time)*	*Whole-time (full-time)*
1997	221	286
1998	226	294
1999	221	293
2000	221	296
2001	221	296
2002	242	292
2003	228	307
2004	220	311

Source:
ODPM annual returns.

Information on the number of firefighters at the constituency level are not available.

Gershon Review

Mrs. Spelman: To ask the Deputy Prime Minister what estimate he has made of the total amount of money to be saved from Gershon initiative efficiency savings in local government in England; and how those savings will be treated in relation to local government financing. [26909]

Mr. Woolas: The Office of the Deputy Prime Minister expects local government (including councils, schools, police, and fire authorities) to achieve at least £6.45 billion of efficiency gains by 2007–08, of which at least half should be cashable gains, releasing money that can be reallocated elsewhere. The remainder will be non-cashable, with improved performance achieved from the resources used. Councils retain the resources they release through the achievement of efficiency gains and are free to determine how to use cashable efficiency gains, whether for reinvestment in local services or to hold down council tax.

Home Improvement Packs

Mrs. Spelman: To ask the Deputy Prime Minister what plans the Government have to conduct a pilot scheme for home improvement packs; and if he will make a statement. [26923]

Yvette Cooper: A dry run of the home information packs process will take place during 2006 to facilitate a smooth transition from using elements of packs on a voluntary basis to implementation of a mandatory scheme throughout England and Wales in 2007. A

central aim of the dry run is to meet the property industry's needs for assurance that the process will operate effectively in the best interests of consumers. The form of assurance required varies between different parts of the industry, and we are in discussion with a wide range of stakeholders about their assurance requirements and how these can best be met. The outcome of these discussions will determine the final detail of the dry run.

The first phase of this assurance process is already under way, with an ever growing number of estate agents, conveyancers and others providing home information packs on a voluntary basis. We are monitoring these activities through feedback from pack providers and home buyers and sellers. We envisage that by the second half of 2006 all the components of the statutory home information pack will be available. This will provide the opportunity for systems, processes and procedures to be fully tested and fine-tuned during the period leading up to implementation. This will involve a continuous process of testing and feedback across the whole industry. Feedback from industry and consumers will be monitored and assessed continually and will inform the making of any necessary changes to the process at the earliest opportunity.

Standards Board

Mrs. Spelman: To ask the Deputy Prime Minister what advice the Standards Board has issued to *(a)* councillors and *(b)* monitoring officers in relation to whether a ward councillor may sit on a licensing sub-committee under the Licensing Act 2003 considering an application for a premises in their ward; and if he will make a statement. [26913]

Mr. Woolas: The Standards Board has issued no specific advice to either monitoring officers or councillors of the sort referred to. The board has issued general guidance on members' responsibilities under the conduct regime for local government, including the requirements relating to the declaration of interests.

Local Government Funding

Mike Penning: To ask the Deputy Prime Minister what impact he expects changes in the local government formula grant to have on public services delivered by *(a)* Dacorum borough council and *(b)* Hertfordshire county council. [29582]

Mr. Woolas: Final decisions on possible changes to the formula grant distribution system have not yet been announced.

The provision of local services is a matter for Dacorum borough council and Hertfordshire county council themselves, bearing in mind their statutory responsibilities.

Mike Penning: To ask the Deputy Prime Minister what responses relating to the local government finance consultation he has received from *(a)* Dacorum borough council and *(b)* Hertfordshire county council; and when the responses were received. [29584]

Mr. Woolas: One response to the consultation on formula grant distribution was received by the Office of the Deputy Prime Minister from Hertfordshire county council. Three Members of Parliament also responded to the consultation in support of Hertfordshire county council. The representation from the county council was received on 10 October—the closing date of the consultation period.

No response to the consultation was received from Dacorum borough council.

Local Government Pension Scheme

Stephen Hammond: To ask the Deputy Prime Minister what the estimated total *(a)* assets and *(b)* liabilities are of the local government pension scheme; what assumptions underlay the calculation of the liability; what discount rate has been used; and what the liability would be if a discount rate was used equivalent to the yield on index linked gilts. [27044]

Mr. Woolas: The most recent actuarial valuation of the local government pension scheme in England and Wales, carried out on 31 March 2004, showed assets of £80 billion and total liabilities of £107 billion. An actuarial valuation of each of the 89 pensions funds in the scheme is undertaken by actuary's appointed by the relevant local authority and the remaining information requested is consequently not held centrally.

Anne Snelgrove: To ask the Deputy Prime Minister how many local government manual workers who began employment before 1991 completed 12 months' service entitling them to membership of the local government pension scheme. [28500]

Mr. Woolas: The information requested is not held centrally, and could only be provided at disproportionate cost.

Housing

Mr. Jenkins: To ask the Deputy Prime Minister (1) what proportion of Tamworth's council housing stock has been sold under the right-to-buy scheme in each year since 1980; [27494]

Mr. Jenkins: To ask the Deputy Prime Minister (1) how many council homes were sold under the right-to-buy scheme in Tamworth in each year since 1980. [27495]

Yvette Cooper: The number of local authority dwellings sold under the right-to-buy scheme since 1980 are listed in the following table. The table also shows the right-to-buy sales as a proportion of local authority stock.

Financial year	*RTB sales*	*Stock at beginning of period*	*Proportion sold each year (percentage)*
1980–81	0	8,693	0.00
1981–82	2	8,850	0.02
1982–83	5	8,587	0.06
1983–84	2	8,364	0.02
1984–85	0	8,269	0.00
1985–86	0	7,854	0.00

Financial year	RTB sales	Stock at beginning of period	Proportion sold each year (percentage)
1986–87	136	7,676	1.77
1987–88	174	7,491	2.32
1988–89	419	7,296	5.74
1989–90	311	6,820	4.56
1990–91	168	6,504	2.58
1991–92	89	6,399	1.39
1992–93	54	6,368	0.85
1993–94	57	6,310	0.90
1994–95	81	6,234	1.30
1995–96	67	6,168	1.09
1996–97	69	6,104	1.13
1997–98	152	6,034	2.52
1998–99	98	5,883	1.67
1999–2000	147	5,785	2.54
2000–01	116	5,634	2.06
2001–02	164	5,522	2.97
2002–03	226	5,356	4.22
2003–04	240	5,131	4.68
2004–05	139	4,891	2.84

Mr. Hollobone: To ask the Deputy Prime Minister how many affordable homes he expects will be built in *(a)* Northamptonshire and *(b)* Kettering constituency in each year to (i) 2011, (ii) 2021 and (iii) 2031 as part of the growth area agenda. [29312]

Yvette Cooper: The Regional Spatial Strategy for the East Midlands (RSS 8) outlines the general approach to affordable housing provision in the region. Policy 17 of the Strategy states that the level of affordable housing to be provided should be justified by local housing need assessments.

Policy 17 does not set an affordable housing target for the region. However, it does state that the appropriate indicator for monitoring whether affordable housing need across the East Midlands as a whole is being met is around 3,950 dwellings per annum. This represents 25 per cent. of the total housing provision identified by the Strategy between 2001 and 2021.

Any specific affordable housing targets for Northamptonshire Districts will be set by Local Planning Authorities in their Local Development Frameworks.

Mr. Hollobone: To ask the Deputy Prime Minister how many affordable homes were provided by housing associations in *(a)* Northamptonshire and *(b)* Kettering constituency in each year since 1997. [29313]

Yvette Cooper: The number of affordable dwellings provided by housing associations on behalf of, *(a)* local authorities within Northamptonshire and *(b)* Kettering local authority are tabled as follows.

Number of affordable dwellings[1]

Financial year	Northamptonshire	Kettering
1997–98	509	18
1998–99	613	91
1999–2000	406	56
2000–01	423	38
2001–02	494	41
2002–03	402	74
2003–04	361	26
2004–05	599	89

[1] Includes affordable dwellings built and acquisitions for rent and shared ownership. Figures prior to 2001–02 exclude dwellings provided through S. 106 agreements and without Housing Corporation funding.

Sources:

Housing Corporation, Housing Strategy Statistical Appendix return to ODPM

Mr. Hollobone: To ask the Deputy Prime Minister how many housing associations were in receipt of Government funding *(a)* in England, *(b)* in Northamptonshire and *(c)* in Kettering constituency in each year since 1997. [29314]

Yvette Cooper: The number of housing associations which received approval for funding via the Housing Corporation Approved Development Programme each year since 1997 are detailed in the table as follows.

Total number of housing associations

	(a) England	(b) Northamptonshire	(c) Kettering
1997–98	385	15	6
1998–99	496	11	2
1999–2000	512	16	3
2000–01	489	13	4
2001–02	447	14	7
2002–03	454	22	3
2003–04	415	17	2
2004–05	378	19	3

Mike Penning: To ask the Deputy Prime Minister how many units of affordable housing have been built in Hemel Hempstead constituency in each of the last five years; and if he will make a statement. [29583]

Yvette Cooper: Information is not available for the constituency of Hemel Hempstead. Affordable homes built on behalf of Dacorum local authority district are tabled as follows.

Dacorum, affordable homes built

Financial year	Number of dwellings[1]
2000–01	96
2001–02	0
2002–03	108
2003–04	135
2004–05	15

[1] Includes affordable new dwellings built for rent and for shared ownership. Figures prior to 2001–02 exclude dwellings provided through S. 106 agreements and without Housing Corporation funding.

Sources:

Housing Corporation, Housing Strategy Statistical Appendix return to ODPM.

Mrs. Spelman: To ask the Deputy Prime Minister how much housing market renewal grant funding has been allocated to the demolition of properties in each Pathfinder area in *(a)* 2004–05 and *(b)* 2005–06. [26908]

Yvette Cooper: The following table shows our estimate of the amount of Housing Market Renewal Funding (HMRF) spent on demolitions, new build and refurbishment in each of the pathfinders where this information is available for 2004–05. Data for 2005–06 has not yet been collected.

£ million

Pathfinder	*HMRF spent on Demolition 2004–05*	*HMRF spent on new build 2004–05*	*HMRF spent on Refurbishment 2004–05*
Birmingham Sandwell	0.43	3.76	0.16
East Lancashire	0.72	0	6.09

Mr. Hollobone: To ask the Deputy Prime Minister pursuant to the answer of 18 July 2005, *Official Report*, column 1433W, on empty homes, how many of the empty homes in *(a)* Kettering, *(b)* East Midlands and *(c)* England were under local authority ownership. [29316]

Yvette Cooper: The number of empty council homes in *(a)* Kettering, *(b)* East Midlands and *(c)* England at 1 April 2005 is presented in the following table:

Number of local authority owned empty homes at 1 April 2005

	Number
Kettering	57
East Midlands	5,000
England	48,600

ODPM's Housing Strategy Statistical Appendix

Local Government Finance

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to his Answer of 23 May 2005, *Official Report*, column 35W, on local government finance, if he will publish estimates for each local authority for 2005–06. [26888]

Mr. Woolas: The requested information has been placed in the Library of the House.

Mrs. Spelman: To ask the Deputy Prime Minister how much *(a)* his Department and *(b)* the Lyons review have allocated to commissioning research from outside bodies in relation to local government finance in the past five years; and what research has been commissioned by his Department's Local and Regional Government Research Unit in relation to local government finance. [26920]

Mr. Woolas: The Office of the Deputy Prime Minister (ODPM) currently expects to have spent £2.01 million overall on 32 research projects by outside bodies in relation to local government finance across the five financial years from 2000–01 to 2005–06. Of that total £230,000 relates to research commissioned on behalf of the Lyons inquiry into local government.

These 32 projects have been commissioned through the ODPM's Local and Regional Government Research Programme. They are as follows:

Project title

Evaluation of asset management plans and capital strategies

Evaluation of the Bellwin scheme

Review of visitors indicators used in Formula Spending Shares

Review of the seasonal adjustment of benefit claimants data

Evaluation of the Single Capital Pot

Examples of best practice in local government asset management and capital strategies

An evaluation of the role of property owners in Business Improvement Districts

LG Finance Independent Inquiry—Research Support: Project 1—English review of evidence

LG Finance Independent Inquiry—Research Support: Project 2—International review of evidence

LG Finance Independent Inquiry—Research Support: Project 3—Application of international evidence

LG Finance Independent Inquiry—Research Support: Project 4—User-satisfaction Qualitative evidence

LG Finance Independent Inquiry—Research Support: Project 5—User-satisfaction Quantitative evidence

LG Finance Independent Inquiry—Research Support: Project 6—Research Support seminars

The rebilling costs faced by LAs as a result of council tax capping

Modelling Options for Transitional Arrangements

Small Business Rate Relief Survey

LG Service Diversity—practice and public attitudes

International lessons in balance of funding

Public knowledge and attitudes to balance of funding

Relationships between balance of funding and voter turnout

Developing the Single Capital Pot assessment process

Public knowledge and use of information on LA expenditure

Prudential framework

Definition of an LA company

Consulting local taxpayers on local tax and spend decision: good practice guidance

Up-dating census indicators

Further fixed and variable costs

Business attitudes towards local government

Review of the EPCS block Formulae

Evaluation of the Capital Challenge scheme

Data catalogue for potential use in SSAs

Refining the ACA: potential application of NHS methodology and updating base year data

Markets

Mr. Swire: To ask the Deputy Prime Minister what recent discussions *(a)* he and *(b)* his Department have had with the Department for Culture, Media and Sport on the future of (i) the Red House cold store on West

Poultry Avenue and (ii) the Fish Market and the Smithfield general market buildings on Farringdon Road, Snow Hill and West Poultry Avenue. [27858]

Jim Fitzpatrick *[holding answer 11 November 2005]:* Neither my right hon. Friend the Deputy Prime Minister or officials in the Office of the Deputy Prime Minister have had any recent discussions with the Department for Culture Media and Sport on these matters.

Village Shops

Barbara Keeley: To ask the Deputy Prime Minister what assessment he has made of the impact of business rate reductions for village shops. [29229]

Mrs. Dean: To ask the Deputy Prime Minister what assessment he has made of the effectiveness of the scheme for reduced business rates for village shops. [29244]

Mr. Woolas: No detailed assessment has yet been made of the effectiveness of this scheme.

In April 1997 the Government introduced 50 per cent. rate relief for sole village general stores or post offices. In 2001 this was extended to include sole village public houses, petrol stations and village food shops. In addition the local authority can grant discretionary relief. This scheme provided almost £8 million in rate relief to over 8,000 businesses in 2003–04.

From 1 April 2005 many small businesses that do not qualify for the relief under this scheme may be eligible for the new small business rate relief.

HEALTH

Auto-immune Diseases

Mrs. Dean: To ask the Secretary of State for Health (1) what assessment has been made of the effects of mycophenolate mofetil on patients with auto-immune diseases, with particular reference to *(a) scleroderma* and *(b) systemic lupus erythematosus*; [24740]

(2) what the average cost is of treatment of an auto-immune disease with *(a)* mycophenolate mofetil and *(b)* cyclophosphamide; [24741]

(3) what guidance has been issued to primary care trusts on the prescription of mycophenolate mofetil for the treatment of auto-immune disease; [24742]

(4) which hospitals in England are prescribing mycophenolate mofetil for patients with auto-immune diseases; [24743]

(5) how many patients with auto-immune diseases are being prescribed mycophenolate mofetil from a *(a)* hospital consultant and *(b)* general practitioner; [24744]

(6) how many primary care trusts have agreed to fund mycophenolate mofetil for patients with auto-immune diseases. [24745]

Jane Kennedy: The Department has not commissioned or undertaken any research into the use of mycophenolate mofetil for patients with auto-immune diseases.

Statistical information on the use of mycophenolate mofetil or cyclophosphamide is not collected centrally in the forms requested.

Cancelled Operations

Mike Penning: To ask the Secretary of State for Health how many operations were cancelled by West Hertfordshire hospital trust *(a)* for medical reasons and *(b)* because of a lack of beds at (i) St. Albans hospital, (ii) Hemel Hempstead hospital and (iii) Watford hospital in each month between January 2004 and September 2005. [26375]

Ms Rosie Winterton: The information is not collected in the format requested. However, the table shows the number of cancelled operations for non-clinical reasons for West Hertfordshire hospital national health service trust, which St. Albans hospital, Hemel Hempstead hospital and Watford hospital are a part of.

Cancelled operations for non-clinical reasons, Department of Health dataset, Quarterly Monitoring of Cancelled Operations (QMCO)

		Number of last minute cancellations for non-clinical reasons in the quarter
West Hertfordshire Hospital Trust[1]:		
Q4	January 2004 to March 2004	301
Q1	April 2004 to June 2004	164
Q2	July 2004 to September 2004	153
Q3	October 2004 to December 2004	189
Q4	January 2005 to March 2005	160
Q1	April 2005 to June 2005	99

[1] Data are not collected for individual hospitals.

Cancer

Mr. Jim Cunningham: To ask the Secretary of State for Health if she will make a statement on the Department's research and development priorities in cancer treatment. [24027]

Jane Kennedy *[holding answer 3 November 2005]:* The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body funded by the Department of Trade and Industry via the Office of Science and Technology.

The Department's priorities for cancer research were set out in the NHS Cancer Plan (September 2000). These priorities include working with all those involved in the funding and delivery of cancer research to establish the National Cancer Research Institute; committing funds to support the national health service infrastructure for clinical cancer research in the form of the National Cancer Research Network; and supporting specific programmes of cancer research in areas of high priority including epidemiology, prevention, screening, genetics, primary care and palliative care.

Mr. Baron: To ask the Secretary of State for Health what estimate she has made of the average waiting times for radiotherapy in the NHS, broken down by *(a)* radical and *(b)* palliative treatment intent. [23069]

Ms Rosie Winterton *[holding answer 28 October 2005]:* Data on waiting times for radiotherapy is not collected centrally. From information provided by the

Royal College of Radiologists we understand that waiting times for radiotherapy in some parts of the country are unacceptably long.

The NHS Cancer Plan set out maximum waiting time targets for cancer treatment, which include radiotherapy where this is given as a first definitive treatment. Standards of a maximum wait of one month from diagnosis to first treatment and a maximum two month wait from urgent general practitioner referral to first treatment for breast cancer are already in place. From December 2005 these targets will be in place for all cancer patients.

To tackle radiotherapy waiting times we are increasing the numbers of therapy radiographers in post and in training, making better use of existing staff, making unprecedented investment in new radiotherapy equipment, and streamlining the patient journey.

Capital Investment (Liverpool Hospitals)

Mrs. Ellman: To ask the Secretary of State for Health what plans she has for new capital investment in the *(a)* Royal Liverpool university hospital and *(b)* Royal Liverpool children's hospital at Alder Hey. [26250]

Mr. Byrne *[holding answer 8 November 2005]:* Plans are in hand with regard to the redevelopment of the Royal Liverpool university hospital and Alder Hey hospital. These redevelopments will be achieved via the private finance initiative. They form part of a redevelopment programme involving four national health service trusts in the North Merseyside area. The strategic outline case for this was approved in July 2004. The Royal Liverpool and Broadgreen university hospitals NHS trust and the Royal Liverpool children's NHS trust are currently in the process of developing the relevant outline business cases which will determine the overall size and scope of these schemes prior to them going out to tender.

Clinical Negligence Payments

Rosie Cooper: To ask the Secretary of State for Health how many successful clinical negligence claims were made against each hospital in hospital trusts in the Cheshire and Merseyside Strategic Health Authority in 2004–05; and what the total cost of all successful claims was against each hospital. [26376]

Mr. Byrne: The information requested is not held centrally.

Dentistry

Geraldine Smith: To ask the Secretary of State for Health how many NHS dentists are operating in Morecambe and Lunesdale. [26332]

Ms Rosie Winterton: As at 30 September 2005, there were 42 national health service dentists with a general dental services or personal dental services contract within the Morecambe and Lunesdale parliamentary constituency.

Mary Creagh: To ask the Secretary of State for Health what action she is taking to improve dental services in Wakefield. [26997]

Ms Rosie Winterton *[holding answer 10 November 2005]:* The Wakefield West primary care trust (PCT) and the Eastern Wakefield PCT have been working with dental practices in Wakefield to support them in moving over to the new personal dental service (PDS) contract.

The Wakefield West PCT has received £2.2 million, and the Eastern Wakefield PCT £1.4 million, growth money from the Department for practices transferring to PDS. In addition, the Wakefield West PCT has received £143,000 for capital grants and £61,000 revenue for access, and the Eastern Wakefield PCT has received £106,000 for capital grants and £45,000 revenue for access.

As a result of both the access money and growth money, the Wakefield PCTs have been able to increase national health service dental registrations by 16,000 since March 2004.

The PCTs plan to improve access further. A new dental practice, staffed by international dentists, is scheduled to open in Wakefield in January 2006 and is expected to achieve a further 16,000 registrations. Two other dentists, internationally recruited, are already working within the Eastern Wakefield PCT area.

The Wakefield West PCT has been working to establish a dental registration telephone line to facilitate patient registrations. The Wakefield PCTs also provide an emergency dental access service for unregistered patients, facilitated by NHS Direct, who assess patient needs and offer appointments with local dentists. Furthermore, the weekend urgent dental service has been extended to cover appointments between 9 am and 5 pm on Saturdays, Sundays and bank holidays.

Diagnostic Scans

Mr. Kevan Jones: To ask the Secretary of State for Health how many diagnostic scans were carried out in the NHS in 2004. [14421]

Mr. Byrne: Data on the total number of diagnostic scans is not centrally available. Data is collected on the number of imaging and radiodiagnostic examinations or tests. The latest data, for 2003–04, is available at: www.performance.doh.gov.uk/hospitalactivity

Health Services (Contractors)

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 5 July 2005, *Official Report*, column 349W, on Health Services (Contractors), what the value is of each of the contracts agreed with the independent sector provider. [14214]

Mr. Byrne: The value of individual contracts with the independent sector cannot be disclosed due to issues of commercial confidentiality.

Housing

Mr. Burstow: To ask the Secretary of State for Health whether the individual budget pilots will clarify the relationship between the Single Assessment Process and the housing sector, including Supporting People. [25423]

Mr. Byrne: The programme of individual budget pilots that is currently being developed will include two housing related income streams: supporting people and

disabled facilities grants. The pilot sites will between them cover all main adult client groups to whom social services are provided. A number of pilots will be looking at services and support for older people.

The pilot programme will offer opportunities to look at assessment needs and how they are identified and met, including the scope for integration between assessment processes for the various funding streams involved.

Mr. Burstow: To ask the Secretary of State for Health what proportion of responses to the Green Paper on Independence Well-being and Choice included comments on the contribution of housing and housing-related services to the quality of care; and what action she plans to take in response. [25424]

Mr. Byrne: The Green Paper Independence, Well-being and Choice received 21,000 comments. Of these, 250 specifically mentioned housing.

There is no specific information available on housing related services, although 74 per cent. of responses supported the vision set out in the Green Paper. This promotes choice and independent living, as well as promoting the protection of people whose particular circumstances might make them vulnerable.

A copy of the Green Paper analysis 'Responses to the consultation on adult social care in England: Analysis of feedback from the Green Paper Independence Well-being and Choice is available in the Library.

The outcome of the consultation is being fed into the White Paper 'Your Health, Your Say, Your Care'

Medway Primary Care Trust

Derek Wyatt: To ask the Secretary of State for Health how many patients from *(a)* Sheppey and *(b)* Sittingbourne were treated by Medway Primary Care Trust in Medway hospitals in (i) 2003–04 and (ii) 2004–05. [24837]

Caroline Flint *[holding answer 7 November 2005]:* The number of patients from Sheppey and Sittingbourne who were treated by Medway Primary Care Trust (PCT) in Medway Hospitals in 2003–04 is shown in the table. However, the figures for the number of patients treated in 2004–05 are not available as they have not yet been published.

Finished consultant episodes and patients treated in Medway NHS Trust 2003–04

Finished consultant episodes	*Patient counts*
900	637

Notes:
Finished Consultant Episode (FCE)
A FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
Patient Counts
Patient counts are based on the unique patient identifier HESID. This identifier is derived based on patient's date of birth, postcode, sex, local patient identifier and NHS number, using an agreed algorithm. Where data are incomplete, HESID might erroneously link episodes or fail to recognise episodes for the same patient. Care is therefore needed, especially where duplicate records persist in the data. The patient count cannot be summed across a table where patients may have episodes in more than one cell.
Ungrossed Data
Figures have not been adjusted for shortfalls in date, that is the data are ungrossed.
Source:
Hospital Episodes Statistics (HES), NHS Health and Social Care Information Centre

Midwifery

Mr. Hunt: To ask the Secretary of State for Health how many vacant positions there are for midwives in the NHS; what plans her Department has to recruit more midwives into the NHS; what recent estimate she has made of the effect on NHS budgets of extended stays in hospital caused by shortage of midwives; and if she will make a statement. [15533]

Mr. Byrne: The national health service work force vacancy survey collects information on the number of vacancies for midwives lasting three months or more; which represent those vacancies NHS organisations are finding hard to fill. As at March 2005, there were 348 three month vacancies for midwives, which represents a rate of 1.8 per cent., which is a fall from 3.3 per cent. the previous year.

The Department has issued a six point action plan to address midwifery work force issues, which includes; increasing training places for midwives, improving working lives, filling vacancies in hard to fill areas and raising the profile of midwifery. Information is not collected on the establishment of NHS organisations, however, as at September 2004, there were 24,844 midwives employed in the NHS, which is an increase of almost 2,300 since 1997. We recognise that there are still shortages of midwives in some areas of the country and expect that numbers employed in the NHS will increase as a result of increased numbers entering training and better retention.

No estimate has been made of the cost to the NHS of extended stays in hospital.

Morecambe Bay Hospital Trust

Geraldine Smith: To ask the Secretary of State for Health how many nurses have been employed by Morecambe Bay hospital trust in each year since 1997. [26334]

Mr. Byrne: The information requested is shown in the table.

National health service hospital and community health services: qualified nursing, midwifery and health visiting staff[1] in the Morecambe Bay Hospitals NHS Trust as at 30 September each specified year

	Headcount
1998	1,350
1999	1,473
2000	1,411
2001	1,465
2002	1,456
2003	1,479
2004	1,529

[1] Figures exclude bank staff. The number of nursing bank staff returned by the Trust for the 2004 census was incorrect, and bank staff numbers have been excluded in order to be consistent.
Source:
Health and Social Care Information Centre Non-Medical Workforce Census.

National Service Framework for Older People

Mr. Kidney: To ask the Secretary of State for Health how many integrated continence services have been set up in England; how many are planned to be established; and when she expects to meet the target for continence services set out in the National Service Framework for Older People. [26503]

Mr. Byrne: The Healthcare Commission, Commission for Social Care Inspection, the Audit Commission and Kings College London are working together to produce a national report on progress in England on implementation of the national service framework for older people. It is planned to publish the report in December 2005.

NHS Employers

Mr. Baron: To ask the Secretary of State for Health how many people are employed by NHS Employers; and what its annual budget has been since establishment. [23072]

Mr. Byrne *[holding answer 28 October 2005]:* NHS Employers was established from 1 November 2004.

For 2005–06, the budget from the Department of Health is £14.8 million. This is for a mixture of running costs including salaries for 106.5 staff and programme expenditure.

NHS Finance

Mr. Burstow: To ask the Secretary of State for Health pursuant to her oral answer to the hon. Member for Wimbledon (Stephen Hammond) of 25 October 2005, *Official Report*, column 156, on NHS finance, how many NHS organisations were in deficit in each year since 1997; and what the level of deficit was in each year. [23458]

Ms Hewitt: The information requested is provided in the table. This shows the number of national health service organisations reporting a deficit between 1996–97 and 2004–05.

	Total number of bodies in existence	*Total number in deficit*	*Total net (deficit)/surplus (£ million)*
1996–97	529	209	(460)
1997–98	525	197	(122)
1998–99	502	146	(19)
1999–2000	476	209	(129)
2000–01	455	40	111
2001–02	577	50	71
2002–03	607	71	96
2003–04	600	106	73
2004–05	600	167	(252)

Notes:

1. Please note these may not sum due to rounding.
2. The figures in the table are from the audited summarisation schedules from 1996–97 to 2004–05.
3. The figures for 2004–05 include NHS foundation trusts.

I regret that on 25 October at column 156, I stated that three quarters of NHS organisations were in deficit, eight years ago. On further reflection, it would have been clearer and more helpful to have said that it was three quarters of health authorities that were in deficit eight years ago.

I have written to the hon. Member concerned, the Member for Wimbledon (Stephen Hammond) to apologise.

Nurses

Steve Webb: To ask the Secretary of State for Health what financial provision is available for nurses returning to the profession after a break. [26576]

Mr. Byrne *[holding answer 8 November 2005]:* I refer the hon. Member to the reply given by my right hon. Friend, the former Minister of State for Health (Mr. Hutton) on 24 March 2005, *Official Report*, column 1066W.

Primary Care Trust (Funding)

Lynne Featherstone: To ask the Secretary of State for Health what the funding per capita was for each primary care trust in each of the last three years; and if she will make a statement. [14984]

Mr. Byrne: The information requested has been placed in the Library.

Radiotherapy

Mike Penning: To ask the Secretary of State for Health what recent estimate she has made of the average waiting times for *(a)* radical and *(b)* palliative radiotherapy in the area covered by West Hertfordshire hospital trust. [25755]

Ms Rosie Winterton: The information requested is not held centrally.

Rehabilitation Services

Mr. Baron: To ask the Secretary of State for Health what national standards there are for rehabilitation services for blind and partially-sighted people. [26856]

Mr. Byrne [holding answer 10 November 2005]: Rehabilitation services for blind and partially sighted people are predominantly provided by local authorities and to some extent national health service trusts.

The Association of Directors of Social Services published national standards of social care for visually impaired adults in October 2002. The Department funded the Improving Lives Coalition, from 2003 to 2005, to help them to raise awareness and to publicise the standards. The final report is available at: www.adss.org.uk/eyes.shtml

Mr. Baron: To ask the Secretary of State for Health what terms of reference have been given to the Department's scoping of the provision of rehabilitation services in the NHS and social services; and when she expects this work to be completed. [26857]

Mr. Byrne *[holding answer 10 November 2005]:* The Department's scoping study is looking at rehabilitation services currently provided by the national health service and social care, with the aim of

- mapping levels of provision and models of service and, where possible, the cost-effectiveness of rehabilitative services;
- identifying any gaps in provision;
- identifying good practice exemplars; and
- identifying opportunities to improve services.

Ministers will be considering the results of the study in December.

School Nurses

Mike Penning: To ask the Secretary of State for Health how many school nurses are practising in Hemel Hempstead constituency. [25585]

Ms Rosie Winterton: The number of school nurses is not collected in the format requested. However, the table shows the number of school nurses in the Bedfordshire and Hertfordshire strategic health authority area, which includes Hemel Hempstead.

NHS hospital and community health services: qualified nurses in the Bedfordshire and Hertfordshire strategic health authority area in the school nursing[1,2] area of work as at 30 September 2005

	Headcount
All qualified school nursing	85
Qualified school nurses[1]	42
School nursing nurses[2]	43

[1] Only registered nurses with a specific school nursing qualification are defined as qualified school nurses.
[2] Other qualified nurses who work in the school nursing area of work but do not hold a specific school nursing qualification.
Source:
Health and Social Care Information Centre Non-Medical Workforce Census.

Sleep Apnoea

Mr. Lancaster: To ask the Secretary of State for Health what research the Government have commissioned on the effects of continuous positive airway pressure equipment for people suffering from sleep apnoea. [26111]

Mr. Byrne: The NHS Executive South East funded a research project in 2000 on the effectiveness of continuous positive airway pressure treatment for those suffering from sleep apnoea.

Details can be found on the Department's research findings register at www.refer.nhs.uk

Vaccinations

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of the impact of the new general medical services contract on the provision of childhood vaccination services. [27550]

Caroline Flint *[holding answer 11 November 2005]:* Immunisation coverage levels are used to assess uptake in the population and the overall effectiveness of services under general medical services (GMS). Coverage levels at 12 months of age increased slightly in January to March 2005 compared to the previous quarter and are now around 91 per cent. At 24 months uptake levels for all vaccines were between 93 per cent. and 94 per cent. Coverage with measles, mumps and rubella at 24 months has increased by 2.2 per cent. to 83 per cent. for April to June 2005, compared with the previous quarter.

The target payment scheme used in the previous 1990 general practitioner contract is part of the GMS contract. The incentives in the scheme include targets at 70 per cent. and 90 per cent. Based on 2004 strategic health authority data, 93 per cent. of practices achieved the higher target payment of 90 per cent., and the remaining 7 per cent., between 70 per cent. and 89 per cent.

EDUCATION AND SKILLS

Academies

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills pursuant to the answer of 8 November 2005, *Official Report*, columns 453–54W, whether those referred to as other sources and partners, who will supply an average 15 per cent. of capital funding for an academy, are public or private bodies.

Phil Hope: National Skills Academies will contribute to the competitiveness of our industries and the modernisation of our public services by operating as focused networks providing local delivery, contributing to regional development and addressing national sector skills shortages. There will be a wide range of partners who would benefit directly from the development of a National Skills Academy in their sector, particularly if the Academy is located near their own centre of operations. These will include local employers and training providers and local authorities, and larger employers and regional development agencies who will have regional priorities for skills development.

The source, amount and therefore proportions of capital funding provided by private and public sector partners to supplement the investment from the lead employer sponsors and the Learning and Skills Council, will be agreed as part of Business Plan development and approval. These Business Plans, which are expected in late spring 2006, will vary from sector to sector.

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will make a statement on the new skills academies in *(a)* manufacturing, *(b)* construction, *(c)* food and drink and *(d)* financial services.

Phil Hope: A modern, successful economy with high performing, productive workplaces must have an education and training system delivering top quality learning driven by the needs and ambitions of employers and individuals. National Skills Academies will be a key element of this, helping to transform the quality and status of vocational education and training. Employers are leading the establishment of National Skills Academies and investing their own funds in the development of national centres of excellence for their sector. These centres will work in partnership with the public education sector to deliver high quality and responsive learning to young people and adults.

We recently announced (31 October) the first four sectors that will move forward to the business planning phase of the National Skills Academy programme. The sectors are Construction, Manufacturing, Food and Drink and Financial Services. We expect robust business plans to be developed by April 2006. Once the plans have been agreed with the Learning and Skills Council, more detailed information on each of the proposed National Skills Academies will be available.

Apprenticeships

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the funding mechanism is for training organisations providing apprenticeships. [24995]

Phil Hope: The Learning and Skills Council has responsibility for planning and funding work based learning for young people in England up to the age of 24. It has set out its approach to funding Apprenticeships in the document 'Requirements for Funding Work Based Learning for Young People 2005/06', which can be found at www.lsc.gov.uk/National/Documents/SubjectListing/FundingLearning/WorkBasedLearning The document constitutes an integral part of the LSC's funding agreement, conditions of funding (Grant), conditions of funding (employers) and the financial memorandum with providers.

Bichard Report

Tim Loughton: To ask the Secretary of State for Education and Skills what changes she proposes for disclosure of details of sexual activity by minors when coming into contact with health professionals in response to the Bichard Report. [28232]

Beverley Hughes: Current Department of Health guidance stresses the importance of confidentiality for under 16s. However, it makes it clear that health professionals must take time to explore whether each individual case may involve coercion or abuse. Where there is cause for concern the case would be referred through local child protection procedures.

The public consultation on Working Together to safeguard children sought views on when and how to share information to protect sexually active young people from harm and abuse, following the recommendations in the Bichard Inquiry Report. The consultation exercise ended on 28 October and we are now considering the responses. We aim to issue the revised version of Working Together in the near future.

Carbon Management Programme

Norman Lamb: To ask the Secretary of State for Education and Skills whether her Department will sign up to the Carbon Trust's Carbon Management programme. [23730]

Maria Eagle: The Government estate has been set a target within the Energy White paper to reduce absolute carbon, from fuel and energy use by 12.5 per cent. by 2010–11, relative to 1999–2000.

The Department is not currently signed up to the Carbon Trust's Carbon Management programme. However, we are reviewing how this programme may compliment and fit within our existing and planned activities e.g. ISO14001 certification.

Career Guidance

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills (1) in which areas of England graduates are eligible for free career support; [25089]

(2) why she has removed the right to free career guidance from anyone who achieves level 2 qualifications from 1 August; and if she will make a statement; [25090]

(3) who is eligible for *(a)* one and *(b)* more than one free interview with an adult guidance practitioner. [25091]

Phil Hope: Every adult in England can access a free, integrated information and advice service comprising the national "learndirect" telephone and on-line advice service and local "nextstep" information and advice services, with no limit on the number of inquiries or advice sessions. Within the universal offer provided by "learndirect" and "nextstep", priority has been given since August 2004 to those adults who do not have a qualification at level 2, since they are more likely to lack the skills foundation for employability and lifelong learning, and are less likely to get a secure, well paid job. Graduates may additionally receive continued career support from their former institutions or from other higher education institutions in their area, although the decision to offer this service, with or without charge, is a matter for individual institutions.

The White Paper "Skills: getting on in business, getting on at work" set out a long-term ambition: that everyone should be able to get help if and when they want it to take stock of where they are in their lives and their careers; to review where they would like to get to; and assess what steps they can take to get there. To help determine how best to achieve this goal we are jointly conducting a review with the Department for Work and Pensions, the DTI, the LSC, Ufi "learndirect", Jobcentre Plus, and the Sector Skills Development Agency which will be concluded by the end of 2006. The review will be informed by extending the "learndirect" telephone service on a trial basis from January 2006 to provide more intensive personal guidance. Adults throughout England seeking to progress in their careers; wanting to gain the skills for jobs typically requiring a Level 3 qualification; and returning to work from career breaks, will benefit from the new service.

Education Maintenance Allowance

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what grades were achieved by those receiving the education maintenance allowance in each year that it has been available.

Maria Eagle: This information is not available as we do not separately record information on qualification completion rates for those claiming education maintenance allowances.

Examination Results

Rob Marris: To ask the Secretary of State for Education and Skills what the public examination results were in *(a)* 2002, *(b)* 2003, *(c)* 2004 and *(d)* 2005 of the three non-selective state secondary schools nearest to each of the academies opened in (i) September 2002, (ii) September 2003 and (ii) September 2004; and what the equivalent results were in the academies themselves. [25364]

Jacqui Smith: The available information is given in the table. Figures for 2005 will be available once the School and College Achievement and Attainment Tables are published in January 2006.

Percentage of 15-year-old pupils[1] achieving 5 or more A-C grades at GCSE and equivalent[2] in 2002, 2003 and 2004 in Academies[3, 4] and the three nearest non-selective maintained schools[5]*

[1] Pupils aged 15 at the beginning of the academic year (i.e. 31 August).

[2] Figures for 2002 and 2003 include GCSEs and GNVQs only. Figures for 2004 include GCSEs and other approved qualifications.

[3] Some Academies were previously a City Technology College. Figures are included in the table only when an institution is under Academy status.

[4] Two Academies only had GCSE results for pupils aged 15 in 2003.

[5] The three nearest non-selective maintained schools are listed in order of their proximity to each Academy.

Learning and Skills Council

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the budget for the branding and advertising programme for the Learning and Skills Council Local Partnership teams will be. [27960]

Bill Rammell: Local Partnership teams will work within the LSC's national and regional branding, marketing and communications strategy. As this is an operational matter Mark Haysom, the LSC's chief executive has written to the hon. Member with further information. A copy of his reply has been placed in the Library.

Letter from Mark Haysom to Mr. Stephen O'Brien, dated 17 November 2005:

I write in response to your recent Parliamentary Question to the Secretary of State for Education and Skills in which you asked what the budget for the branding and advertising programme for the Learning and Skills Council Local Partnership teams will be. I trust the following will answer your question.

The Learning and Skills Council's (LSC) re-organisation is designed to make the organisation smaller, more dynamic, and to improve significantly what it achieves on the ground. This should help ensure consistent standards nationwide in terms of quality and relevance of provision for local communities.

One of the LSC's marketing and communication aims is to simplify and align branding, marketing and communications activity through our partners so making it easier for young people, adults and employers to understand the benefits of learning and access relevant opportunities to progress in life, in work and in business—the local partnership teams are an important link to make this happen but not to specifically procure marketing services.

The 148 local partnership teams the LSC will employ will be responsible for developing strategic relationships with colleges, schools and training providers. From a branding and advertising perspective (defined as a marketing, communications and branding strategy in the LSC), it will be important that these locally based teams work within the agreed national and regional marketing, communications and branding strategy, not to specifically deliver additional services relating to marketing and communications themselves. There will not be a specific allocation (from the LSC's marketing and communications budget) deployed to the local partnership teams.

Level 2 Skills

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what assessment she has made of the cost benefit to the economy of training to level 2 those adults who lack skills at level 2. [25126]

Phil Hope: A range of independent academic research has shown that there is a link between skills and economic performance and that the UK's relatively poor skills profile contributes to our productivity gap with other countries. Research has also identified a range of benefits from raising qualification levels for the individual, the employer, the economy and society.

Those adults not qualified to at least level 2 are at a greater disadvantage in the labour market in terms of both their earnings and their employment chances. Individuals' attitudes towards learning and participation in learning improve once they reach level 2.

The key evidence supporting the focus on raising adults to at least a level 2 is set out in the Government's recent Skills White Papers; "Skills: getting on in business, getting on at work" and "21st Century Skills, Realising Our Potential" and the Skills Strategy Progress Report; "Skills Strategy—Technical Supplement on Underlying data and Evidence", copies of which will be placed in the House Libraries.

New Deal for Young People

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what estimate she has made of the impact on training providers of the removal of the training and subsidised job options from the new deal for young people; and if she will make a statement. [25203]

Margaret Hodge: I have been asked to reply.

No options have been removed from the new deal for young people. The full time education and training option which offers people an opportunity to improve their education and skills, and the employment option which offers subsidies to employers who take on new deal participants are still available.

Our aim is to ensure that all new deal participants have access to the full range of programme options. We will continue to ensure that support through the new deal will be available to those customers who need the most help and support, regardless of where they live and we have adjusted some regional budget allocations this year to ensure that we deliver our overall priorities.

Regional Skills Bureaucracy

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what steps she will take to ensure overlap does not occur in their work in relation to skills of the regional development agencies, the sector skills councils, the regional skills partnerships and the proposed Learning and Skills Council regional centres. [28760]

Phil Hope: The Skills White Paper, "21st Century Skills: Realising Our Potential", invited Regional Development Agencies (RDAs) to lead the establishment of Regional Skills Partnerships (RSPs). These bring together the RDA, the Learning and Skills Council (LSC) and Sector Skills Councils (SSCs) with other regional partners to plan and co-ordinate the

provision of skills and business support that reflects the priorities of the Regional Economic Strategy. Each partner has their own distinctive role. RDAs are responsible for economic development and are the keepers of the Regional Economic Strategy of which skills are a part. Sector Skills Councils provide information on the skills needs of employers, and the Learning and Skills Council uses that information to inform decisions on the supply of training provision. The LSC's recent announcement to strengthen their regional centres will enable them co-ordinate work more effectively with RDAs, Sector Skills Councils and Regional Skills Partnerships.

School Work (Marking)

Mr. Gibb: To ask the Secretary of State for Education and Skills what advice is offered by her Department to schools on best practice in the marking of pupils' work. [28305]

Jacqui Smith: It is for schools to formulate their own policy on the marking of pupils' work. The Department, through the National Strategies' Assessment for Learning programme, helps teachers to understand how best to identify pupils' individual learning needs and to determine next steps in their learning. This includes some guidance on the use of written feedback and best practice in the marking of pupils' work.

Sexual Health

Tim Loughton: To ask the Secretary of State for Education and Skills whether she plans to publish the findings of the pilot study in Sheffield for the Working Together to Safeguard Children protocols on sexual health. [28248]

Beverley Hughes: If Sheffield Area Child Protection Committee is conducting a pilot study into its protocol on Working with Sexually Active Young People under the Age of 18, it is a matter for the committee whether it publishes the findings of any such study.

Union Learning Fund

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills (1) what percentage of the courses funded through the Union Learning Fund are *(a)* basic skills courses, *(b)* level 1 and level 2 courses and *(c)* level 3 and above courses; [28579]

(2) what percentage of the courses funded through the Union Learning Fund take under nine hours. [28580]

Phil Hope: The Union Learning Fund is a source of funding to help trade unions boost their capacity as learning organisations and use their influence with employers, employees and learning providers to encourage greater take-up of learning in the workplace. It is not used to provide funding for courses. It enables trade unions and their union learning representatives to provide advice, guidance and support to workers to help them access existing learning opportunities to improve their skill levels.

Earlier evaluations of the Union Learning Fund (copies of which are in the House of Commons Library) indicate that trade unions have been successful in engaging non-traditional learners including older males, people from minority ethnic groups and shift workers. An estimated 80 per cent. of those helped to access a learning opportunity had qualifications below NVQ level 2 or equivalent.

A further evaluation of the Union Learning Fund is currently under way to assess the impact of the fund on trade unions, employers and individual learners. It will include a large scale survey of learners which will provide information on the different types and levels of courses that individuals have accessed as a result of support from the Union Learning Fund. The final report is due to be published next summer and a copy will be placed in the House Libraries.

Youth Work Projects

Mr. Malik: To ask the Secretary of State for Education and Skills if she will establish a cross-Government working group *(a)* to review, in partnership with the National Youth Agency and others, existing local youth work projects which promote community cohesion and *(b)* to consider the merits of developing an action plan on responsibilities. [26682]

Maria Eagle: There is already a cross-Government strategy—Improving Opportunity, Strengthening Society—which brings together measures across Government to increase race equality and promote community cohesion. Work with young people is an integral part of the strategy.

Youth work can play an important part in promoting community cohesion. My officials are already working closely with the National Youth Agency on ideas for building the capacity of the youth work sector in relation to community cohesion.

WORK AND PENSIONS

Carbon Management Programme

Norman Lamb: To ask the Secretary of State for Work and Pensions whether his Department will sign up to the Carbon Trust's Carbon Management programme. [23732]

Mr. Plaskitt: The Department for Work and Pensions works in collaboration with its PFI Estates Partners, Land Securities Trillium, to install energy efficiency measures across the estate. Examples of projects undertaken are the installation of energy saving devices for white goods and vending machines, improved pipe work insulation and Passive Infrared Detectors for hot-water points. Energy efficiency is also integral to the replacement of equipment at the end of its life cycle, and we are examining the potential for early replacement for obviously inefficient equipment. Improved meter reading systems are also being implemented to provide up to date information to facilitate better energy management. In addition, 60 per cent. of our electricity is now generated from either renewable or Combined Heat and Power sources. Together, these initiatives have reduced the estate's carbon emissions by 30 per cent. over the past seven years.

Initial contact has been made with the Carbon Trust about our joining the Carbon Management programme and a meeting to discuss this is being set up.

Child Support Agency

Mr. Andrew Turner: To ask the Secretary of State for Work and Pensions when the refund due under Child Support Agency reference number 0677911890 will be paid. [29503]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member.

Letter from Stephen Geraghty to Mr. Andrew Turner, dated 17 November 2005:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions; when the refund due under Child Support Agency reference number 0677911890 will be paid.

I am sorry to hear that Mr. Goldstone has not received the refund of £340 promised to him on 7 June. Regrettably a technical fault on the Agency's CS2. computer system has prevented the payment from being made. This fault is not yet resolved, but the Plymouth centre has arranged for Mr. Goldstone's refund to be paid on 16 November.

I hope you find this helpful.

Departmental Press Officers

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions how many press officers are employed in his Department; and what the cost of employing them was in the last year for which figures are available. [22189]

Mrs. McGuire: As at 31 March 2005 19 national press officers and 23 regional press officers were employed at a total cost of £1,533,703.

The costs are based on average salaries for the year and take into account the actual number of press officers and changes in post each month.

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions how many new press officers his Department is planning to employ over the next 12 months; and at what cost. [22192]

Mrs. McGuire: The Department has no plans to recruit additional press officers in the next 12 months. There is a recruitment exercise currently under way to fill existing vacancies. Further recruitment exercises may be required in the next year to maintain the agreed level of staffing.

Incapacity Benefit

Mr. Lancaster: To ask the Secretary of State for Work and Pensions how many people are claiming incapacity benefit in Milton Keynes. [27179]

Mrs. McGuire: As at May 2005, there were 7,500 people claiming incapacity benefit or severe disability allowance in Milton Keynes.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the quarterly average exit rate for *(a)* incapacity benefit and *(b)* severe disability allowance has been since May 1997. [27247]

Mrs. McGuire *[holding answer 10 November 2005]:* For incapacity benefit, the quarterly average exit rate since May 1997 has been 7.9 per cent. of the total caseload. For severe disablement allowance, the quarterly average exit rate since May 1997 has been 1.7 per cent. of the total caseload.

Source:

DWP Information Directorate, Work and Pensions Longitudinal Study 100 percent. data.

Rosie Cooper: To ask the Secretary of State for Work and Pensions (1) how many people in West Lancashire constituency are in receipt of incapacity benefit; [27655]

(2) how many people in West Lancashire constituency are in receipt of *(a)* state retirement pension, *(b)* jobseeker's allowance and *(c)* incapacity benefit. [27903]

Mrs. McGuire: At May 2005[1] in the West Lancashire parliamentary constituency, there were 18,200 state retirement pension recipients and 1,496 jobseeker's allowance claimants[2].

There were 5,100 incapacity benefit and severe disablement allowance claimants as at May 2005. Of these, 4,100 were incapacity benefit claimants only[3].

[1] Source: DWP Information Directorate: Work and Pensions Longitudinal Study 100 per cent. data as at May 2005

[2] Source: Count of unemployment-related benefits, Jobcentre Plus computer systems (including clerically held cases). Figures are unrounded. NOMIS figures include clerically held cases. Based on 100 per cent. claimant count.

[3] Source: Information Directorate 100 per cent. WPLS. Figures are rounded to the nearest hundred.

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions what the percentage of incapacity benefit claimants have been receiving the benefit for more than five years; and what this percentage was in May 1997. [27979]

Mrs. McGuire: As the benefit was only introduced in April 1995, we are unable to give the information requested for the five years previous to 2000. As at February 2005, 48.1 per cent. of claimants had been claiming for more than five years.

David Mundell: To ask the Secretary of State for Work and Pensions how many and what percentage of people receive incapacity benefit in Scotland. [28451]

Mrs. McGuire: As at September 2005, there were 323,500 people claiming incapacity benefit or severe disability allowance in Scotland. This represents 10.2 per cent. of the working-age population.

Parliamentary Question

Mrs. Villiers: To ask the Secretary of State for Work and Pensions when he will answer the question tabled on 7 October by the hon. Member for Chipping Barnet, ref. 16546. [29170]

Mrs. McGuire: A reply was given to the hon. Member on 11 November 2005, *Official Report*, column 791W.

Jobcentre Plus

Jim Cousins: To ask the Secretary of State for Work and Pensions (1) what percentage of days were lost through sickness absence in Jobcentre Plus in each of the last two years, broken down by *(a)* region and *(b)* country; [29214]

(2) what the rate of *(a)* early retirement and *(b)* resignation on grounds of stress and ill health has been in Jobcentre Plus in each of the last two years, broken down by (i) region and (ii) country; [29215]

(3) what the rate of staff turnover was in 2004–05 in Jobcentre Plus, broken down by *(a)* region and *(b)* country; [29216]

(4) what training needs have been identified for staff in Jobcentre Plus in relation to the proposed changes to disability benefits; and what discussions on training have taken place with staff. [29217]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Mr. Jim Cousins, dated 17 November 2005:

The Secretary of State has asked me to reply to your questions regarding sickness absence; early retirement and resignation on the grounds of stress and ill health; staff turnover; identification of staff training needs in relation to the proposed changes to disability benefits, and details of discussions that have taken place with Jobcentre Plus staff on such training. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Information on the percentage of days lost through sickness absence in Jobcentre Plus in each of the last two years, broken down by *(a)* region and *(b)* country in each of the last two years, is in the table.

Region/country	*Absence rate 2003–04*	*Absence rate 2004–05*
East of England	5.2	4.8
East Midlands	5.0	4.9
London	6.4	6.0
North East	5.0	5.0
North West	5.0	5.1
South East	4.8	5.0
South West	4.5	4.1
West Midlands	4.8	4.9
Yorkshire and the Humber	4.8	4.5
Scotland	5.0	4.6
Wales	4.5	4.5
Other	5.0	5.4
Total	5.1	5.0

1. Data listed under 'other' consists of absence records for staff for whom a region/country identifier has yet to be confirmed.
2. Data is for operational years April to March in each year.

Source:
Jobcentre Plus

Information is not available on whether people have taken early retirement or have resigned from Jobcentre Plus because of stress. Information on the ratio of people Part of the Department for Work and Pensions who have retired for reasons of ill health generally, and the ratio of general resignations, broken down by region and country in each of the last two years, is in the table.

Percentage

Reasons for leaving	*12 months to March 2004*		*12 months to March 2005*	
	Retirement on grounds of ill health	*Resignation*	*Retirement on grounds of ill health*	*Resignation*
East Midlands	0.04	4.1	0.1	5.2
East of England	0.1	3.8	0.2	5.4
London	0.1	3.2	0.2	3.4
North East	0.1	2.7	0.1	3.2
North West	0.1	3.2	0.1	4.7
Scotland	0.0	2.9	0.1	3.5

Source:

Jobcentre Plus

It is too soon to provide information on the training needs for Jobcentre Plus staff in relation to any proposed changes to incapacity benefits. When the full nature of any changes to these benefits has been finalised, we will consult staff to identify training requirements and develop learning modules accordingly.

I hope this is helpful.

Jim Cousins: To ask the Secretary of State for Work and Pensions how many incidents of violence against staff working in Jobcentre Plus have been reported in each of the last two years, broken down by *(a)* region and *(b)* country; and what the ratio of incidents to whole time equivalent employees was in each year, in each case. [29218]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Mr. Jim Cousins, dated 17 November 2005:

The Secretary of State has asked me to reply to your question regarding the number of incidents of violence against staff working in Jobcentre Plus that have been reported in each of the last two years, broken down by region and country, and what the ratio of incidents to whole time equivalent (WTE) employees was in each year, in each case. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The available information is in the table.

	2003		*2004*	
Region	*Number of assaults*	*WTE ratio*	*Number of assaults*	*WTE ratio*
Scotland	19	.0024	22	.0031
Wales	2	.0004	13	.0031
North East	4	.0008	13	.0030
North West	36	.0035	38	.0041

Jobcentre Plus totals	235	.0033	329	.0050

Notes:
1. The ratio of assaults is calculated by dividing the number of assaults by the number of whole time equivalent staff.
2. Data is compiled from reports completed by staff on physical assaults only.
3. Data is provided for calendar years rather than operational years.

Department for Work and Pensions Workforce Management Project

It may be helpful if I explain the background to these figures. Although data indicates that there has been a rise in the number of incidents reported in the last two years it is not possible to identify any direct casual relationships. This period coincides with a number of initiatives within the Department that have encouraged staff to report all incidents so that lessons can be learned, and appropriate remedial action taken.

Customer facing activity in Jobcentre Plus has been thoroughly risk assessed to ensure comprehensive measures are in place to protect the health and safety of our staff whilst at work. These measures range from ensuring the delivery of user-friendly services to our customers and ensuring all staff have the appropriate skills to manage and diffuse difficult situations, through to more physical controls such as the provision of individual panic alarms for staff, the use of CCTV cameras and deployment of security guards.

I hope this is helpful.

Mr. Boswell: To ask the Secretary of State for Work and Pensions how many of the recent reductions in staffing at job centres arose from *(a)* resignation of personnel who have not been replaced, *(b)* voluntary redundancy and *(c)* compulsory redundancy. [24765]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Mr. Tim Boswell, dated 17 November 2005:

The Secretary of State has asked me to reply to your question concerning how many of the recent reductions in staffing at jobcentres arose from *(a)* resignation of personnel who have not been replaced, *(b)* voluntary redundancy, and *(c)* compulsory redundancy. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

We do not keep information of this type separately for jobcentres therefore the answers that I have provided refer to the whole of the Jobcentre Plus organisation. Between 1 March 2004 and 30 September 2005, Jobcentre Plus has seen an overall net reduction in our full-time equivalent staffing totalling 8,066. This figure is a combination of the effects of staff leaving and staff joining the organisation. The number of managed early releases during the same period is 707 full-time equivalent staff. There have been no compulsory redundancies.

I hope this is helpful.

Low-income Families

Chris Ruane: To ask the Secretary of State for Work and Pensions if he will list the changes his Department have introduced to help low income families since 1997. [20315]

Margaret Hodge: The Government's strategy for tackling poverty is set out in Opportunity for All (published by DWP annually) and the Child Poverty Review (July 2004). This Department makes important contributions to the strategy in relation to providing work for those who can and support for those who cannot.

Since 1997 we have delivered macroeconomic stability, invested in active labour market policies, developed tax and benefit reforms to ensure work pays, and invested in skills. This has helped deliver a more flexible labour market in which as many people as

possible have the opportunity to move in to work. We believe that, for most people, work is the best route out of poverty.

The number of people in employment is higher than ever before and the number of people on working age benefits is declining. This is due to our management of the economy and our successful and cost effective labour market policies delivered through Jobcentre Plus and the new deal.

We have invested, in conjunction with Department for Education and Skills, over £17 billion on early years and child care provision.

Together with HM Revenues and Customs, who administer tax credits and child benefit, we have significantly increased financial support for children. As a result of the Government's reforms of the tax and benefit system since 1997, by October 2005, in real terms families with children will be on average £1,400 a year better off, while those in the poorest fifth will be on average £3,200 per year better off.

The Child Support Reforms in March 2003 introduced the Child Maintenance Premium (CMP). This is where parents with care receiving income support or income based jobseeker's allowance can keep up to £10 a week of the maintenance paid for their children, without it affecting their benefit.

The investment in financial support for families combined with continued progress against employment targets, means that the Government are broadly on track to meet the PSA target to reduce child poverty by a quarter by 2004–5.

New Deal for Young People

Mr. Stephen O'Brien: To ask the Secretary of State for Work and Pensions what further education and training has been available through the new deal for young people in each region in each year since 1998; and what education and training is planned to be available through the programme in each region until 2008. [25092]

Margaret Hodge: Information on the education and training opportunities that have been available in each region, in each year, through new deal for young people (NDYP) since 1998 is not available in a suitable form.

We deliver education and training opportunities through the NDYP Full Time Education and Training (FTET) option. The courses are tailored to the needs of the individual and local employers. Since 1998, 185,660 people have participated in this option.

We are currently working with the Learning and Skills Council (LSC) to deliver the Government's Skills Strategy. Trials will be starting next year to test arrangements to enable people on the NDYP FTET and Environmental Task Force (ETF) options, as well as those on Work Based Learning for Adults, to access suitable LSC provision to help them get a job.

There will also be other options available for the same customer group. Trials will be taking place in September 2006 of a new adult learning allowance, equivalent to benefit plus a premium of 10. This will be for people for whom a lack of skills is the main barrier to employment, and will give them the opportunity to gain an s/NVQ qualification.

People aged 18–24 are also eligible for LSC Modern Apprenticeship training where the young person is employed, paid a wage and given the training needed to gain a qualification.

Mr. Stephen O'Brien: To ask the Secretary of State for Work and Pensions what percentage of those on the new deal for young people have a criminal record. [25201]

Margaret Hodge: Information on whether or not participants on new deal for young people have a criminal record is not collected.

Some disadvantaged groups can have early entry to the new deal, and this includes those who have served a custodial sentence. This information is sometimes recorded as a reason for early programme entry, but only when the individual agrees to the disclosure, and where an alternative criteria is not deemed more appropriate.

Mr. Stephen O'Brien: To ask the Secretary of State for Work and Pensions whether the *(a)* training and *(b)* subsidised job options will remain as options in the new deal for young people in (i) London and (ii) the North East. [25204]

Margaret Hodge: No options have been removed from the new deal for young people. The full time education and training option which offers people an opportunity to improve their education and skills, and the employment option which offers subsidies to employers who take on new deal participants are still available.

Our aim is to ensure that all new deal participants have access to the full range of programme options. We will continue to ensure that support through the new deal will be available to those customers who need the most help and support, regardless of where they live and we have adjusted some regional budget allocations this year to ensure that we deliver our overall priorities.

NI Telephone Queries

Norman Lamb: To ask the Secretary of State for Work and Pensions how many people called the 0845 8500284 number in respect of national insurance queries; how many times the line was engaged; and how many complaints have been received because the line was engaged in each of the last 10 months. [26214]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Mr. Norman Lamb, dated 17 November 2005:

The Secretary of State has asked me to reply to your questions concerning how many people called the 0845 8500284 number in respect of national insurance queries; how many times the line was engaged; and how many complaints have been received, because the line was engaged in each of the last 10 months. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The telephone number referred to relates to the East of England National Insurance Contact Centre, which was set up in May this year and became fully operational in August 2005. The

information provided in the table below covers the 6 month period from the setting up of the Contact Centre. Information is not available on how many times the line was engaged but we do have information about the number of calls received and complaints made during this period.

Month	Calls from applicants	Complaints
May	358	[1]
June	2,255	[1]
July	3,390	[1]
August	5,451	3
September	6,522	12
October	5,056	11

[1] None recorded

You will see from the table that the number of calls received by the Contact Centre has increased significantly over the 6 month period. This has contributed to the difficulty which some customers have experienced in contacting the service. We are putting in place, over the next 6 months, advanced telephony systems which will help us to improve call handling and provide better customer service.

I hope this is helpful.

Pensioners (Benefits)

Mr. Stephen O'Brien: To ask the Secretary of State for Work and Pensions (1) how many pensioners in *(a)* Crewe and Nantwich borough and *(b)* England are (i) receiving pension credit and (ii) eligible for but not claiming pension credit; [27950]

(2) how many of those receiving pension credit in *(a)* Crewe and Nantwich borough and *(b)* England are also receiving council tax benefit. [27951]

Mr. Timms: Information on numbers of households and individuals in receipt of pension credit at 30 June 2005 is contained in the most recent quarterly pension credit progress report published on 20 October. A copy of the report is in the Library.

As at May 2005 there were *(a)* 3,300 pensioner households in Crewe and Nantwich and *(b)* 1,634,6000 pensioner households in England receiving both pension credit and council tax benefit.
